M0110 General Information

M0110.100 Legal Base and Agency Responsibilities

A. Introduction

Virginia's two medical assistance programs are Medicaid and the Family Access to Medical Insurance Security Plan (FAMIS). Collectively, these programs are referred to as medical assistance (MA). The MA programs pay medical service providers for medical services rendered to eligible individuals. When an individual submits an application for MA, his eligibility is determined for Medicaid first. If he is not eligible for Medicaid due to excess income, his eligibility is determined for FAMIS.

The policies and procedures for determining Medicaid eligibility are contained in Chapters 1 through 18 of this manual; the policies and procedures for determining FAMIS eligibility for children and pregnant women (FAMIS MOMS) are contained in Chapters 21 and 22, respectively.

The MA eligibility determination consists of an evaluation of an individual's situation that compares each of the individual's circumstances to an established standard. Requests for Virginia MA must be made on an approved electronic or paper application form or telephonically through the Cover Virginia Call Center.

All activity of the agency in receiving and acting upon an application must be consistent with the objectives of the MA programs and be conducted in a manner which respects the personal dignity and privacy of the individual.

The local agency must provide timely, accurate, and fair service to all applicants and recipients. Each local agency must establish office procedures and operations that accommodate the needs of the populations it serves. The local agency must not establish any policies, regulations, or rules that create a barrier to accessing benefits. Populations with special needs include households with elderly or disabled members, homeless households, and households with members who work during normal office hours. The local agency must provide bilingual staff and interpreter services to households with limited English proficiency.

B. Legal Base

The Medicaid Program is established under Title XIX of the Federal Social Security Act and is financed by state and federal funds. The State Plan for Medical Assistance (State Plan) is the official body of regulations covering the operation of the Medicaid program in Virginia. The FAMIS program is established under Title XXI of the Social Security Act.

Virginia law provides that the MA programs be administered by the Department of Medical Assistance Services (DMAS). Determination of eligibility for medical assistance is the responsibility of local departments of social services under the supervision of the Virginia Department of Social Services (DSS).

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date April 2019
Subchapter Subject M0110.000 GENERAL INFORMATION	Page ending with M0110.100	Page 2

C. Agency Responsibilities

1. DMAS

The administrative responsibilities of DMAS are:

- the development of the State Plan to cover eligibility criteria and scope of services, in conformity with federal law and regulation,
- the determination of medical care covered under the State Plan,
- oversight of the Cover Virginia Call Center, the Central Processing Unit (CPU), which handles telephonic applications for MA, *and the Cover Virginia Incarcerated Unit (CVIU)*.
- the handling of appeals related to the MA programs,
- the approval of providers authorized to provide medical care and receive payments under the MA programs,
- the processing of claims and making payments to medical providers, and
- the recovery of MA expenditures in appropriate cases. Suspected applicant fraud is a combined responsibility of both DMAS and DSS.

2. DSS

The responsibilities of DSS are:

- the determination of continuing eligibility for Medicaid and FAMIS,
- the referral of individuals with inappropriate MA payments to the DMAS Recipient Audit Unit, and
- the referral of certain individuals to the Health Insurance Marketplace.

3. DSS/Cover Virginia

Certain processes are handled at DSS or at Cover Virginia, with general responsibilities that may include:

- the determination of initial eligibility for Medicaid and FAMIS, including applications referred from the Health Insurance Marketplace,
- the enrollment of eligible persons in the Medicaid or FAMIS programs,
- the maintenance of case records pertaining to the eligibility of MA enrollees for certain populations or aid categories.

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date October 2016
Subchapter Subject M0110.000 GENERAL INFORMATION	Page ending with M0110.110	Page 2a

M0110.110 Confidentiality

A. Confidentiality

MA applicants and recipients are protected by federal and state confidentiality regulations, 42 CFR 431.300 and 12VAC30-20-90. These regulations were established to protect the rights of clients to confidentiality of their information.

B. Release of Client Information

Except as otherwise indicated, no person shall obtain, disclose or use, authorize, or permit the use of any client information that is directly or indirectly derived from the records, files or communications of the agency, except for purposes directly connected with the administration of the MA programs, which include but is not limited to:

- establishing eligibility,
- determining the amount of medical assistance,
- providing services for recipients, and
- conducting or assisting in an investigation, prosecution or a civil or criminal proceeding related to the administration of the program.

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date October 2016
Subchapter Subject M0110.000 GENERAL INFORMATION	Page ending with M0110.110	Page 3

C. Use of System Searches

Searches of online information systems, including but not limited to the State Online Query-Internet (SOLQ-I), the State Verification Exchange System (SVES), and the Federal Data Hub, are permitted **only** for applicants and family members whose income and/or resource information is required to determine eligibility for the applicant or patient pay for an enrollee. This includes spouses of applicants and parents of child applicants. Searches of the *Asset Verification System (AVS)* are permitted *only for applicants with a resource test*.

The Federal Data Hub *and AVS* are to be accessed only for information necessary to determine eligibility for MA cases processed in the Virginia Case Management System (VaCMS). *They* may not be used for other public assistance programs.

D. Release of Information to Medical Providers

Although certain individuals are authorized to receive information about an applicant's/recipient's case, only the minimum data necessary to respond to the request is to be released. Federal regulations stipulate that the disclosure of information about an applicant or recipient can only be for purposes related to administration of the Medicaid State Plan.

Information in the case record related to an individual's medical treatment, or method of reimbursement for services may be released to Virginia MA providers by DMAS without the applicant's/enrollee's consent. Enrollee consent is not needed for the DSS agency to provide confirmation of an individual's eligibility, the dates of eligibility, and any patient pay responsibility if the medical provider is unable to obtain that information from the member verification system or from DMAS staff. The provider **is not** entitled to specific information about an applicant's/recipient's income or resources because the provider does not need that information for medical treatment or payment.

Provider contractors, such as application assistance companies, operate under the authority of the provider. A patient's consent is not required for the agency to provide the contractor with information related to reimbursement for services rendered or medical treatment. Providers and their contractors **are not** entitled to receive detailed financial or income information contained in an applicant's or recipient's case record. Information should not be provided from case records unless the release of such information is for purposes directly related to the administration of the MA programs.

Local agencies may release MA enrollee identification numbers to medical providers by telephone if the provider cannot contact the DMAS provider/recipient verification telephone number. This procedure does not conflict with federal or State confidentiality regulations, if the local agency is satisfied that the number is being released to an identifiable provider.

E. Release to Authorized Representatives and Other Application Assistants

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date January 2020
Subchapter Subject M0110.000 GENERAL INFORMATION	Page ending with M0110.110	Page 4

1. Authorized Representatives

Individuals not determined to be incapacitated by a court can designate whomever they choose to be their authorized representatives, including a provider or a provider's contractor (such as an application assistance company). The designation must be in writing, with the applicant or recipient specifying the information to be released to the authorized representative.

It is not sufficient to indicate that any information in the case record may be released; the designation must state the specific information to be released (i.e. notices, the ability to make application or provide information necessary to determine eligibility, and what, if any, other information can be released to the authorized representative). The authorized representative designation is valid *until*:

- *the application is denied;*
- *medical assistance coverage is canceled; or*
- *the individual changes his authorized representative.*

The authorized representative can file an appeal on behalf of an individual whose application was denied or canceled. The DMAS Appeals Division will determine whether or not the authorized representative can represent the individual during the appeal.

2. Application Assisters

Application assisters are authorized under the Affordable Care Act (ACA) to provide assistance with completing the MA application and renewal, and with explaining and helping the individual to meet documentation requirements. They must be authorized by the individual *to provide assistance with completing the application and/or renewal*. There are two categories of application assisters:

a. Certified Application Counselors (CAC)

CAC are individuals authorized to assist individuals with obtaining health insurance coverage, including Medical Assistance. CAC are generally under the supervision of a non-profit organization and do not receive a fee for providing application counseling.

b. Navigators

Navigators receive federal funding to assist individuals with obtaining health insurance coverage, including Medical Assistance.

Application assisters cannot sign forms, receive notices or other communications or otherwise act on behalf of the individual *and* do not have the same CommonHelp system privileges as authorized representatives.

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date July 2020
Subchapter Subject M0110.000 GENERAL INFORMATION	Page ending with M0110.110	Page 4a

Certified Application Counselors and Navigators are designated on the MA application and are deemed to have client consent to release information without an additional release of information form. The client may revoke his consent to the release of information at any time by notifying the LDSS verbally or in writing. The revocation of consent or statement is to be documented in the case record.

F. Safeguarding Client Information

All information associated with an applicant or recipient that could disclose the individual's identity is confidential and shall be safeguarded. Such information includes but is not limited to:

- name, address, and all types of identification numbers assigned to the client;
- medical services provided to the client;
- social and economic conditions or circumstances of the client;
- agency evaluation of the client's personal information;
- medical data about the client, including diagnoses and past histories of disease or disabilities;
- information received for verifying income, eligibility, and amount of medical assistance payments;
- information received in connection with identification of legally liable third party resources; and
- information received in connection with processing and rendering decisions of recipient appeals.

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date July 2020
Subchapter Subject M0110.000 GENERAL INFORMATION	Page ending with M0110.110	Page 5

G. Ownership of Records

All client information contained in the agency records is the property of the agency, and employees of the agency shall protect and preserve such information from dissemination except as indicated.

Original client records are not to be removed from the premises by individuals other than authorized staff of the agency, except by court order. The agency may destroy records pursuant to records retention schedules.

H. Release of Client Information with Consent

As part of the application process for MA, the client shall be informed of the need to consent to the release of information necessary for verifying eligibility. Whenever a person, agency or organization that is not performing one or more of the functions described in M0110.110 B above requests client information, the agency must obtain written permission to release the information from the client or the person legally responsible for the client whenever possible. A release for information obtained from the client by the requesting agency also satisfies this requirement.

Certified Application Counselors and Navigators are designated on the MA application and are deemed to have client consent to release information without an additional release of information. The client may revoke his consent to the release of information at any time by notifying the LDSS verbally or in writing. The revocation of consent is to be documented in the case record.

I. Release of Client Information without Consent

Information from the applicant/recipient's case record may not be released to other agencies, such as public housing agencies, legal services, private organizations, the U.S. Citizenship and Immigration Services (USCIS), Virginia Employment Commission (VEC), school lunch programs, health departments or elected officials *beyond what is specified in interagency agreements as described below* without the client's consent.

An exception applies to agencies with which there is an agreement for specific types of sharing of information, such as wage information from the VEC, Systematic Alien Verification for Entitlements (SAVE) with USCIS, the State Verification Exchange System (SVES) with the Social Security Administration, etc.

Client information may be disclosed without client consent in the following situations:

- 1. Social Services Employees**
to employees of state and local departments of social services for the purpose of program administration;
- 2. Program Staff in Other States**
to program staff in other states when a client moves or when there is a question of dual participation, or to verify the status of assistance in Virginia for applicants in another state;
- 3. DMAS & LDSS Staff**
between state/local department of social services staff and DMAS for the purpose of supervision and reporting;

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date July 2020
Subchapter Subject M0110.000 GENERAL INFORMATION	Page ending with M0110.110	Page 6

- 4. Auditors** to federal, state and local employees for the purposes of auditing, monitoring, and evaluation; and
- 5. For Recovery Purposes** for the purpose of recovery of monies for which third parties are liable for payment of claims.
- 6. Law Enforcement Agencies** *when the request is made under a court order, such as a search warrant or subpoena, and the release of information is not prohibited under state or federal law, including the Health Insurance Portability and Accountability Act (HIPAA). Local departments of social services are advised to consult with the agency's legal counsel prior to releasing information requested by law enforcement agencies.*
- J. Client's Right of Access to Information** Any client has the right to obtain personal information held by the agency. Upon written or verbal request, the client shall be permitted to review or obtain a copy of the information in his record with the following exceptions:
- Information that the agency is required to keep confidential from the client pursuant to §2.2-3704 and §2.2-3705, Code of Virginia, Virginia Freedom of Information Act, Public Records to be open to Inspection; and
 - Information that would breach another individual's right to confidentiality
- 1. Freedom of Information Act (FOIA)** Consistent with the Virginia Freedom of Information Act, §2.2-3704 and §2.2-3705, Code of Virginia, the agency shall provide access within five working days after the receipt of the request. The agency shall make disclosures to applicants and recipients during normal business hours. Copies of the requested documents shall be provided to the client or a representative at reasonable standard charges for document search and duplication.
- 2. Client May Be Accompanied** The client shall be permitted to be accompanied by a person or persons of the client's choice and may grant permission verbally or in writing to the agency to discuss the client's file in such person's presence. Upon request and proper identification of any client or agent of the client, the agency shall grant to the client or agent the right to review the following:
- All personal information about the client except as provided in §2.2-3704 and §2.2-3705,
- The identity of all individuals and organizations not having regular access authority that request access to the client's personal information.
- 3. Client May Contest Information** Pursuant to the Code of Virginia §2.2-3800, a client may contest the accuracy, completeness or relevancy of the information in his record. Correction of the contested information, but not the deletion of the original information if it is required to support receipt of state or federal financial participation, shall be inserted in the record when the agency concurs that such correction is justified.

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date May 2015
Subchapter Subject M0110.000 GENERAL INFORMATION	Page ending with M0110.120	Page 7

When the agency does not concur, the client shall be allowed to enter a statement in the record refuting such information. Corrections and statements shall be made a permanent part of the record and shall be disclosed to any entity that receives the disputed information.

M0110.120 Address Confidentiality Program (ACP)

- A. Purpose** The Virginia Attorney General's Office's ACP was created to help a victim of domestic violence who has recently moved to a new location that is unknown to the abuser. The victim wants to keep the new address confidential. Effective July 1, 2011, this program was made available statewide.
- B. All Mail Goes to Richmond P.O. Box Address** The ACP offers a substitute mailing address for the individual in a high risk situation. An individual participating in the ACP will have an ACP authorization card that can be used to verify participation in the program; a participant will use a post office box address in Richmond as his address. This address is to be accepted as a mailing address. No locality, FIPS code, or other geographic identification is included on the ACP authorization card.
- The actual physical address of the participant **MUST NOT** be entered in into any of the VDSS automated systems. Only the mailing address (which is P.O. Box 1133, Richmond, Virginia, 23218) is entered into the computer systems as the participant's residence address; no separate mailing address is entered.
- C. Accept Participant's Verbal Statement of Residency** Virginia state residency and locality residency is established by the participant's verbal statement that he is residing in the locality where he is applying for assistance.
- D. Third Party Liability (TPL)** *When an individual in the ACP is covered on the abuser's private health insurance plan (TPL), do not add the TPL coverage in the enrollment system. For an individual with TPL who is already receiving MA at the time of entry into the ACP, delete the TPL. Notify the DMAS TPL Unit by e-mail at tplunit@dmass.virginia.gov to ensure that the insurance is not billed or added back to the individual's case record upon a subsequent data match with the insurance company.*
- E. Refer to Local Domestic Violence Program** Please refer any victims of domestic violence to the local Domestic Violence Program for consideration of the ACP, for safety planning, and other services. Local domestic violence advocates are currently receiving training about the ACP. In most localities, the applications for the ACP program will be completed with the DV advocates as a part of in depth safety planning.

M0110.200 Definitions

- A. Adult Relative** means an individual who is age 18 or older, who is not a parent, but who is related to a child by blood or marriage and who lives with and assumes responsibility for day-to-day care of the child in a place of residence maintained as his or their own home.
- B. Applicant** means an individual who has directly or through his authorized representative made written application for MA at the local social services department serving the locality in which he is a resident, or if institutionalized, the locality in which he last resided outside an institution.

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date July 2020
Subchapter Subject M0110.000 GENERAL INFORMATION	Page ending with M0110.200	Page 8

C. Application for Medical Assistance

means an official form prescribed by DMAS for requesting medical assistance that is used for initial eligibility determinations and redeterminations. An application for medical assistance is an application for the Medicaid, Family Access to Medical Insurance Security (FAMIS) and FAMIS MOMS programs.

D. Attorney-In-Fact (Named in a Power of Attorney Document)

means a person authorized by a power of attorney document (also referred to as a “POA”) to act on behalf of another individual, either for some particular purpose or for the transaction of business in general. **A power of attorney document does not necessarily authorize the attorney-in-fact to apply for MA on behalf of the applicant.** The eligibility worker must read the power of attorney document to determine (1) if the person has the power to act as the applicant in any of the applicant's business and (2) whether or not the document grants durable power of attorney. If the document is a general power of attorney or includes the power to conduct the applicant's financial business, the attorney-in-fact is considered the applicant's authorized representative as long as the person for whom the attorney-in-fact is authorized to act is not legally incapacitated.

If the individual on whose behalf the attorney-in-fact is acting is incapacitated and not able to act on his own behalf, the eligibility worker must examine the document to determine if it grants a durable power of attorney. The contents of the document must indicate that the power of attorney does not stop upon the incapacity of the person. **If the power of attorney is not durable, it is no longer valid when the individual on whose behalf it is executed becomes legally incapacitated.**

E. Authorized Representative

An authorized representative is a person age 18 years or older who is authorized to conduct business for an individual. A competent individual age 18 years or older must designate the authorized representative in a written statement (which defines the representative's responsibilities). The authorized representative statement is valid until:

- the application is denied;
- medical assistance coverage is canceled; or
- the individual changes his authorized representative.

The authorized representative can file an appeal on behalf of an individual whose application was denied or canceled. The DMAS Appeals Division will determine whether or not the authorized representative can represent the individual during the appeal.

The authorized representative of an incompetent or incapacitated individual is the individual's spouse, parent, attorney-in-fact (person who has the individual's power-of-attorney), legally appointed guardian, legally appointed conservator (committee), or family substitute representative. An individual's spouse is permitted to be an authorized representative for MA purposes as long as the spouse and applicant are living together, or lived together immediately before the applicant's institutionalization; no written designation is required.

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date April 2019
Subchapter Subject M0110.000 GENERAL INFORMATION	Page ending with M0110.300	Page 9

- F. Child** means an individual under age 21 years.
- G. Competent Individual** means an individual who has **not** been judged by a court to be legally incapacitated.
- H. Conservator** means a person appointed by a court of competent jurisdiction to manage the estate and financial affairs of an incapacitated individual.
- I. Family Substitute Representative** means a spouse age 18 or older or designated relative age 18 or older who is willing and able to take responsibility for the individual's personal or financial affairs. Designated relatives other than the spouse who may be substitute representatives are, in this preferred order, the individual's child, parent, sibling, grandchild, niece or nephew, aunt or uncle.
- J. Guardian** means a person appointed by a court of competent jurisdiction to be responsible for the personal affairs of an incapacitated individual, including responsibility for making decisions regarding the person's support, care, health, safety, habilitation, education, and therapeutic treatment, and if not inconsistent with an order of commitment, residence.
- K. Incapacitated Individual** means an individual who, pursuant to an order of a court of competent jurisdiction, has been found to be incapable of receiving and evaluating information effectively or responding to people, events, or environments to such an extent that the individual lacks the capacity to (1) meet the essential requirements of his health, care, safety, or therapeutic needs without the assistance or protection of a guardian; or (2) manage property or financial affairs or provide for his or her support or the support of his legal dependents without the assistance or protection of a conservator.
- L. Legal Emancipation of a Minor** means a minor who has been declared emancipated by a court of competent jurisdiction. A married minor is not emancipated unless a court has declared the married minor emancipated from his parents.
- M. Incarcerated Individual** *means an inmate or offender in a Department of Corrections (DOC), local/regional jail, or Department of Juvenile Justice (DJJ) facility.*
- N. Medical Assistance** means any program administered by DMAS jointly with the Department of Social Services (DSS) that helps individuals or families pay for medical, dental and related health services. These programs are Medicaid, FAMIS and FAMIS MOMS.

M0110.300 Availability of Information

A. Information Required to be Given to the Applicant

1. Explanation of the Medical Assistance Programs

The local agency must furnish the following information in written form, and orally as appropriate, to all applicants and enrollees, and to other individuals upon request:

- the eligibility requirements,
- services covered under the MA programs,

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date April 2022
Subchapter Subject M0110.000 GENERAL INFORMATION	Page ending with M0110.300	Page 10

- the rights and responsibilities of applicants and enrollees, and
- the appeals process.

When the MA rights and responsibilities are explained verbally, the eligibility worker must document in the case record (electronic or hard copy) that they were explained and the applicant/enrollee's acknowledgement. The applicant/enrollee's failure to acknowledge receipt of the rights and responsibilities is not a condition for MA eligibility and cannot be used to deny, delay or terminate MA coverage.

The following materials must be given to the individuals specified below:

- The brochure "Virginia Department of Social Services Division of Benefit Programs," form # B032-01-0002, contains information about the Medicaid Program and must be given to all applicants;
- The Division of Child Support Enforcement (DCSE)'s booklet "Child Support and You," form #032-01-945 must be given to applicants who are applying on behalf of a child who has an absent parent; and
- *The Medicaid and FAMIS Handbooks are available online at <https://coverva.org/en/member-handbooks>. A printed copy of the handbook corresponding to the individual's enrollment or request must be given to anyone who requests a hard copy.*

Applicants may also be given MA Fact Sheets as appropriate.

2. Early Periodic Screening, Diagnosis and Treatment (EPSDT)

All Medicaid applicants who are under age 21 are eligible for Early and Periodic Screening, Diagnosis and Treatment (EPSDT) services. Information on the availability and benefits of EPSDT must be provided for all applicants under age 21 within 60 days of the date that eligibility is determined. EPSDT information is included in the booklet "Virginia Social Services Benefit Programs."

3. Voter Registration

The National Voter Registration Act of 1993 (NVRA) requires local social services agencies to offer each Temporary Assistance to Needy Families (TANF), Supplemental Nutrition Assistance Program (SNAP), and MA applicant an opportunity to apply to register to vote at initial application and at each review of eligibility. Additionally, voter registration application services must be provided any time a change of address is reported in person to the local agency.

In complying with the requirements of the NVRA, local agency staff must provide each applicant and enrollee the same degree of assistance in completing his/her voter registration application as they do in completing the application for public assistance.

a. Exceptions to Offering Voter Registration

The only exception to offering voter registration application services is when:

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date October 2013
Subchapter Subject M0110.000 GENERAL INFORMATION	Page ending with M0110.300	Page 11

- the individual has previously indicated that he is currently registered to vote where he lives,
- there is a completed agency certification form in the individual's case record indicating the same, and
- the individual has not moved from the address where he stated that he was registered to vote.

b. Prohibitions

Local social services agencies and agency staff are prohibited from the following activities when providing voter registration application services:

- seeking to influence an individual's political preference;
- displaying any political preference or party affiliation;
- making any statement to the or taking any action the purpose or effect of which is to discourage the individual from applying to register to vote; or
- making any statement to an individual or taking any action the purpose of which is to lead the individual to believe that a decision to register or not register has any impact on the individual's eligibility for assistance or the benefit level that they may be entitled to receive.

c. Voter Registration Services

Each local social services agency must provide the following voter registration services:

- distribution of voter registration application forms;
 - assistance to individuals in completing the registration application form, unless such assistance is refused, and ensuring that all spaces on the form are completed;
 - ensuring that the certification statement on the application for benefits or statement of facts is completed; and
 - acceptance of voter registration application forms for transmittal to the local general registrar.
- 1) Each completed registration application must be submitted to the local general registrar every Friday (if Friday is a holiday, the forms must be forwarded to the local registrar on the last working day before Friday.) Completed forms are to be forwarded to the local registrar in an envelope, notated with an "A" in the upper left-hand corner and listing the number of completed registration applications included in the envelope.

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date October 2013
Subchapter Subject M0110.000 GENERAL INFORMATION	Page ending with M0110.300	Page 12

- 1) For split/combined agencies, all voter registration applications are to be transmitted to the general registrar in the locality where the local social services agency is located.
- 2) If the individual chooses, he may take a voter registration application to be mailed to the State Board of Elections at his own cost.

d. Voter Registration Application

In Virginia, one voter registration application form will be used to serve a twofold purpose:

- the voter registration application will be completed by the individual with necessary assistance from local agency staff during the application/review process and left at the local agency for transmittal to the local general registrar; or
- for individuals who do not wish to complete the voter registration during the application process, they may take a voter registration form for mail-in registration.

e. Individuals Required to be Offered Voter Registration Services

In order to be offered voter registration services, an individual must:

- be a member of the *MA household* or family unit.
- be at least 18 years old by the next general election. General elections are held in all localities on the Tuesday after the first Monday in November or on the first Tuesday in May to fill offices regularly scheduled by law to be filled at those times.

If any question arises as to whether the individual will turn 18 before the next general election, complete the registration application and the local registrar will determine if the individual may be registered.

- be present in the office at the time of the application or renewal interview if an interview takes place, or when a change of address is reported in person. If a change of address is not reported in person, a registration application will be sent to the individual upon request. Any change in the *household* composition that does not occur concurrent with an application, renewal or change of address will be handled at the next scheduled renewal.

Any individual accompanying the applicant/enrollee to the local agency who is not a member of the assistance unit (including payees and authorized representatives) will not be offered voter registration services by the local agency. However, a registration application is to be provided to the non-unit member upon request.

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date July 2019
Subchapter Subject M0110.000 GENERAL INFORMATION	Page ending with M0110.300	Page 13

Any request for a mail-in application for assistance must include a mail-in voter registration application. When an authorized representative is applying on another individual's behalf, the local agency is to offer a mail-in voter registration application. In both situations, the bottom of the certification form is to be completed accordingly.

f. Voter Registration Application Sites

Local social services agencies are required to offer voter registration application services at each local office (including satellite offices) for applicants/recipients of TANF, SNAP, and Medical Assistance. Voter registration application services are also offered by out-stationed staff taking MA applications at hospitals or local health departments and by Medicaid staff at the state's Department of Behavioral Health and Developmental Services' facilities.

B. Information Made Available to the Public in General

1. Availability of Manual

Federal regulations require copies of the State Plan and eligibility rules and policies to be available in agency offices and other designated locations. Policy manuals must be made available in agency offices and other designated locations to individuals who ask to see them.

Upon request, copies of program policy materials must be made available without charge or at a charge related to the cost of reproduction. Copies of manual pages may be made at the local departments of social services. The full *Medical Assistance Eligibility Manual* is available on the DMAS web site at <http://www.dmas.virginia.gov/#/assistance>.

2. MA Handbooks and Fact Sheets

Federal regulation 42 CFR 435.905 requires the state agency to publish bulletins or pamphlets describing eligibility in easy to understand language. The handbooks available for each MA program include basic information about the programs and provide a listing of rights and responsibilities. To supplement the MA handbooks, fact sheets that explain specific policy areas are available to local social services agencies from the state department of social services. A copy of the handbook corresponding to the program in which the individual was enrolled must be given to all recipients after enrollment and must be given to others upon request. The Medicaid handbooks are available on the internet at <http://www.dmas.virginia.gov/#/clientservices>. The FAMIS Handbook is available at http://www.coverva.org/programs_famis.cfm.

C. Inquiries

1. General Inquiries

The following information has been developed to give guidance to employees of the State and local departments of social services about how to respond to inquiries:

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date July 2019
Subchapter Subject M0110.000 GENERAL INFORMATION	Page ending with M0110.300	Page 14

- Limit verbal and written information to explaining the written materials provided. Those written materials may include copies of manual pages, MA handbooks, or fact sheets. The individual may also be referred to the Virginia Department of Social Services website at www.dss.virginia.gov and the Virginia Department of Medical Assistance Services website at www.dmas.virginia.gov for additional information.
- Do not go beyond the scope of the written materials. Questions about hypothetical situations, such as (but not limited to) "what would happen if a certain value of resources were transferred?" or "what would be the effect on Medicaid if a trust were written in a certain way?" should not be answered.

Medicaid rules and policies are applied to the facts of a specific application after an application is received. Prior to receipt, do not give hypothetical advice or answers to hypothetical questions to applicants, their attorneys or anyone applying on behalf of the applicant. Answering hypothetical questions is inappropriate for two reasons:

- Until a complete application is received, the local agency cannot be sure it has all the relevant facts. An attempt to be helpful could be futile or lead to incorrect advice. In the event of a dispute, the applicant may then assert that the agency is bound by the incorrect advice. The applicant or other persons affected by the applicant's actions (such as those affected by a property transfer or those otherwise responsible for the care of the applicant) may attempt to hold the agency employee or employees involved individually liable for damages suffered as a result of alleged negligent advice.
- Providing responses to hypothetical questions may under some circumstances constitute the practice of law. The practice of law includes advising another for compensation, direct or indirect, in any matter involving the application of legal principles to facts or purposes or desires. Local agency workers, regional MA consultants, and central office MA employees, even if they are attorneys, are not functioning as legal counsel and must not give legal advice which may affect the rights of applicants, recipients, or others who may not be applying or eligible for MA.

All MA staff are bound by these guidelines for the dissemination of information. Do not refer inquiries from attorneys, applicants or others acting on behalf of the applicant to regional or state MA staff.

2. Case Specific Inquiries

Send questions that occur as a direct result of the receipt of an application to the regional MA consultant. Do not refer questions from attorneys (or legal questions in general) to the Office of the Attorney General. These attorneys are responsible for providing legal advice to the regional MA consultant and are not authorized to give legal advice to the public.

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date October 2019
Subchapter Subject M0110.000 GENERAL INFORMATION	Page ending with M0110.400	Page 15

M0110.400 Retention of Case Information

A. Introduction

The agency must maintain case records that contain information necessary to support the facts essential to the determination of initial and continuing eligibility as well as any basis for discontinuing or denying assistance. The case record shall consist of a hard (i.e. paper) record, an electronic record, or a combination of the two. To be stored electronically in the individual's case record in the Virginia Case Management System (VaCMS), a document is scanned into VaCMS using the Document Management Imaging System (DMIS).

Records of active cases must be maintained for as long as the client receives benefits. Closed records must be maintained for a minimum of three years from the date of closure.

B. Policy

Case records must contain the following elements:

- the date of application,
- the date of and basis for the disposition of the application,
- facts essential to the determination of initial and continuing eligibility,
- the provision of medical assistance (i.e. enrollment),
- the basis for discontinuing medical assistance,
- the disposition of income and eligibility verification information, and
- the name of the agency representative taking action on the case and the date of the action.

The agency must include in each applicant's case record documentation to support the agency's decision *on his application and the fact that the agency gave recipients timely and adequate notice of proposed action to terminate, discontinue or suspend their eligibility or to reduce or discontinue services they may receive under the medical assistance programs*. Types of documentation that support the agency's decision include evaluations of eligibility, case narratives, and permanent verifications. Verifications of earned and unearned income, *documentation of reasonable compatibility* and the current value of resources *(if applicable)* must be maintained in the record. Notes by the eligibility worker that the verifications were viewed are not sufficient; *income reasonable compatibility and electronic verification of income should be documented in case comments*.

The case record must contain a duplicate, either electronically or in writing, of all notices sent to the client. Copies of the documents used for verification of citizenship and identity, such as birth certificates, must also be maintained within the case record.

Active cases may be purged with the exception of documentation that supports the information shown in the paragraphs above. Agencies may wish to retain other information used in future eligibility determinations, such as resource assessments and burial contracts. Closed cases are required to be retained by the agency for a period of no less than three years from the date of closure.

The case record shall be organized as to enable audit and program integrity entities to properly discharge their respective responsibilities for reviewing the manner in which the MA programs are being administered.

M0110.500 VIRGINIA DSS STRENGTHENING FAMILIES INITIATIVE PRACTICE MODEL

A. Introduction

The Virginia DSS Strengthening Families Initiative (SFI) Practice Model sets forth standards of professional practice and serves as a values framework to define relationships, guide thinking and decision-making, and structure beliefs about individuals, families, and communities. The Practice Model suggests a desired approach to working with and delivering services to Virginia's citizens.

B. Practice Model Principles

The principles of the Practice Model are:

1. All children, adults and communities deserve to be safe and stable.
2. All individuals deserve a safe, stable and healthy family that supports them through their lifespan.
3. Self-sufficiency and personal accountability are essential for individual and family well-being.
4. All individuals know themselves best and should be treated with dignity and respect.
5. When partnering with others to support individual and family success, we use an integrated service approach.
6. How we do our work has a direct impact on the well-being of the individuals, families, and communities we serve.

M0110, Appendix 1 contains the full SFI Practice Model.

C. Policy

Medicaid and other benefit programs are designed to provide supportive benefits to assist families who are unable to provide the necessities of life and maintain minimum standards of health and well-being through their own efforts. Gathering relevant information about a family's situation and evaluating that information against the eligibility criteria for the benefit programs are the basis for making the eligibility determinations.

The process of gathering relevant information also includes an assessment of need for service programs and other resources to assist the family. This process includes following the Practice Model described above. If other needs exist, the eligibility worker must refer the family for appropriate services or resources within the agency or community. Eligibility workers may consult with their supervisors and other agency staff as necessary to gather information to facilitate making such referrals.

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date September 2012
Subchapter Subject M0110.000 GENERAL INFORMATION	Appendix 1	Page 1

Virginia Department of Social Services Strengthening Families Initiative Practice Model

The Virginia Department of Social Services Practice Model sets forth our standards of professional practice and serves as a values framework that defines relationships, guides thinking and decision-making and structures our beliefs about individuals, families and communities. We approach our work every day based on various personal and professional experiences. While our experiences impact the choices we make, our Practice Model suggests a desired approach to working with others and provides a clear model of practice, inclusive of all agency programs and services, that outlines how our system successfully practices. Central to our practice is the family. Guided by this model, we strive to continuously improve the ways in which we deliver programs and services to Virginia's citizens.

1. All children, adults and communities deserve to be safe and stable.

- Every child has the right to live in a safe home, attend a safe school and live in a safe community. Ensuring safety requires a collaborative effort among family, agency staff, and community partners and across all programs and services.
- Every adult has the right to live and work in a safe environment. We value all programs that address domestic and family violence and the abuse, neglect and exploitation of older or incapacitated adults.
- We value individual and family strengths, perspectives, goals and plans as central to creating and maintaining a safe environment. The meaningful engagement and participation of children, adults, extended family and community stakeholders is a necessary component of assuring safety.
- When legal action is necessary to ensure the safety of a child and/or an adult, we use our authority with respect and sensitivity.
- Individuals are best served when services are person-centered, family-focused and community-based and aim to preserve the family unit and prevent family disruption.

2. All individuals deserve a safe, stable and healthy family that supports them through their lifespan.

- We believe mothers, fathers, and children thrive in safe, stable, healthy families. We value family structures that support the best interests of children; however, we believe that children do best when raised in intact, two-parent families.
- Both parents should be actively involved in the lives of their children, even if they are not the primary caregiver.

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date September 2012
Subchapter Subject M0110.000 GENERAL INFORMATION	Appendix 1	Page 2

- Healthy, lifelong family connections are crucial to the development of children, the stability of the family and the support of infirm, dependent or aging adults. Through the services we provide, we seek out, promote and preserve these healthy ties to family members and to others in the community to whom the family is connected or who may provide support.

3. Self-sufficiency and personal accountability are essential for individual and family well-being.

- Family members support each other in ways the social services system cannot. We value the intra-family resources and supports that are available within the context of any family as a pathway to self-sufficiency and personal accountability.
- We believe employment, training and education are keys to self-sufficiency. We believe in employment and training programs that remove barriers and create opportunities for individuals and families.
- Individuals and families face unique challenges that impact their ability to maintain self-sufficiency. We value all programs and services that assist individuals and families to regain and maintain self-sufficiency and achieve personal accountability.
- Both custodial and noncustodial parents should provide necessary financial resources to support their children.
- We believe that parents and caregivers serve as role models in teaching the importance of self-sufficiency and personal accountability.
- We support asset development strategies to help individuals and families weather short-term emergencies and improve long-term stability.

4. All individuals know themselves best and should be treated with dignity and respect.

- All programs and services should be culturally and linguistically sensitive to all individuals.
- Individuals and families are empowered when they have access to information and resources.
- We support programs for vulnerable populations including children, the elderly and individuals with disabilities.
- The measure of success differs with every individual. We strive to understand children, adults, and families within the context of their own values, traditions, history and culture.
- The voices of children, individuals and families are heard, valued and included in decision-making processes related to programs and services.

5. When partnering with others to support individual and family success, we use an integrated service approach.

- Cooperation, coordination and collaboration within and outside of the social services system are essential to providing the most comprehensive services to families. We are committed to working across programs, divisions, agencies, stakeholder groups and communities to improve outcomes for the children, individuals, families and communities we serve.

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date September 2012
Subchapter Subject M0110.000 GENERAL INFORMATION	Appendix 1	Page 3

- Through the development of policies, procedures, standards and agreements across systems, we will share information, solve problems and overcome barriers.
- We value prevention networks that link effective public and private programs and community-based organizations that identify individuals and families before they need services.
- We believe in partnering across programs and systems in order to provide a full array of services along the continuum of care. We are committed to working within and outside of the social services system to identify and address service gaps.

6. How we do our work has a direct impact on the well-being of the individuals, families and communities we serve.

- Children, individuals and families deserve trained, skillful professionals to engage and assist them. We hire, develop and maintain a workforce that aligns with our practice model.
- Clear expectations, effective supervision, leadership and proper resource supports are critical for the workforce to do their job effectively.
- We believe in creating and maintaining a supportive working and learning environment with accountability at all levels.
- We value the provision of high-quality, timely, efficient and effective services. We believe relationships and communication should be conducted with honesty, transparency, integrity, empathy and respect within and outside of our social services system.
- The collection and sharing of accurate, outcome-driven data and evidence-based information is a critical part of how we continually learn and improve. We use data to inform, manage, improve practice, measure effectiveness and guide decisions.

M0120.000 Medical Assistance Application

M0120.100 Applying for Medical Assistance

A. Right to Apply

An individual cannot be refused the right to complete an application for medical assistance (MA) for himself (the applicant) or any other individual for whom he is authorized to apply. Under no circumstances can an individual be discouraged from asking for assistance for himself or any person for whom he is a legally responsible or authorized to represent. An applicant may be assisted with the application by an individual of his choice. A face-to-face interview is not required.

B. Signed Application Required

An application for MA must be signed to be valid. Paper forms must bear the signature of the applicant or an individual authorized to apply on his behalf. Applications submitted electronically or through the approved telephonic process meet the signature requirement.

1. Unsigned Application

A paper application that bears no signature is invalid. Return the application to the applicant with a letter requesting a signature.

2. Invalid Signature

An application that is signed by an individual who is not authorized to sign on behalf of the applicant is invalid. For paper applications, return the application with a letter indicating who must sign the application to the individual who filed the application on behalf of the applicant. See M0120, Appendix 1 for a sample letter.

If an electronic application does not bear a valid signature, the agency must obtain a valid signature from the applicant or his authorized representative for the case record. The signature page of a paper application form can be used.

M0120.150 When An Application Is Required

A. New Application Required

A new application is required when there is:

- an initial request for medical assistance, or
- a request to add a person to an existing case.

When an application is received because there is a new person in the family for whom medical assistance is requested, the annual renewal for the existing enrollees is done using the same application form. See subchapter M1520 for renewal policy and procedures.

B. Application NOT Required

A new application is not required when an individual is already an active Medicaid enrollee or is enrolled in another medical assistance program. An application is not needed for a child turning age one when the child was deemed to be eligible based on the mother's enrollment at the time of birth. A renewal following the procedures in M1520 must be completed when the child turns one. *Act on the enrollment of a deemed newborn as soon as feasible when the birth is reported to the local DSS office or to DMAS.*

Changes in the enrollee's circumstances do not require a new application. Changes that do not require a new application include, but are not limited to,

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date July 2020
Subchapter Subject M0120 MEDICAL ASSISTANCE APPLICATION	Page ending with M0120.200	Page 2

- a change in the case name,
- a change in living arrangements, and
- a change in income.

A change in living arrangements may require a partial review of the individual's eligibility when the change results in a change to the assistance unit. Whenever the change requires verifications that can be used to complete a renewal, the annual renewal should be completed at the time the change is reported.

M0120.200 Who Can Sign the Application

A. Incarcerated Individuals

Offenders of any age who are being held in Department of Corrections (DOC) or Department of Juvenile Justice (DJJ) facilities may have applications submitted with the assistance of DOC or DJJ staff.

Offenders of local and regional jails may submit applications for themselves, authorize facility staff to assist, or designate an authorized representative to assist in applying.

For new applications, send all notices and correspondence to the mailing address listed on the application (normally the facility address). For re-entry and pre-release applications, send all notices and correspondence to the post-release mailing address of the individual.

B. Applicants Age 18 or Older

The applicant must sign the application, even if the form is filled out by another person, unless the application is filed and signed by the applicant's legal guardian, conservator (known as the "committee" for persons declared incompetent prior to the 1997 changes in the guardianship section of the Code of Virginia), attorney in fact, or authorized representative. A spouse, aged 18 or older, may sign the application for his spouse when they are living together.

EXCEPTION: A parent can submit and sign an application for a child under age 21, when the child is living with the parent. The child does not need to authorize the parent to apply or conduct Medicaid business on his behalf.

If the applicant cannot sign his or her name on a paper application but can make a mark, the mark must be correctly designated (the individual's first and last name and the words "his mark" or "her mark" must be printed adjacent to the mark) and witnessed by one person as in the example below:

E.g.: (X) John Doe, his mark

Witness's signature: _____

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date July 2020
Subchapter Subject M0120 MEDICAL ASSISTANCE APPLICATION	Page ending with M0120.200	Page 2a

1. Authorized Representative

An authorized representative is a person age 18 years or older who is authorized to conduct business for an individual. A competent individual age 18 years or older must designate the authorized representative in a written statement (which defines the representative's responsibilities). The individual may change or his authorized representative at any time by submitting a new authorized representative statement.

The authorized representative statement is valid while the application is being processed and for as long as the individual is covered, as well as during an appeal related to the denial, reduction of or cancellation of the individual's coverage.

An individual who reapplies after a period of non-coverage must sign another authorized representative statement to designate an authorized representative.

The authorized representative of an incompetent or incapacitated individual is the individual's spouse, parent, attorney-in-fact (person who has the individual's power-of-attorney), legally appointed guardian, legally appointed conservator (committee), or family substitute representative.

2. Family Substitute Representative

When it is reported that an applicant cannot sign the application and the applicant does not have a guardian, conservator, attorney in fact or designated authorized representative, one of the individuals listed below who is age 18 years or older and is willing to take responsibility for the applicant's MA business will be the applicant's "family substitute" representative. The family substitute representative will be, in this preferred order, the applicant's:

- spouse,
- child,
- parent,
- sibling,
- grandchild,
- grandparent,
- niece or nephew, or
- aunt or uncle.

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date October 2013
Subchapter Subject M0120 MEDICAL ASSISTANCE APPLICATION	Page ending with M0120.200	Page 3

**3. No Individual
authorized to
sign**

If the applicant is unable to sign the application and does not have an attorney in fact, authorized representative, or family substitute representative, the applicant's inability to sign the application must be verified. Verification is by a written statement from the applicant's doctor that says that the applicant is not able to sign the *MA* application because of the applicant's diagnosis or condition. Follow these procedures:

- a. Determine if anyone has begun the process to have a guardian or conservator appointed for the applicant.
- b. If action has been initiated to obtain a guardian for the applicant, meaning a court guardianship hearing is scheduled on the court docket, request verification that the action is on the court docket. Give 10 days for this verification to be provided.

If the verification is provided within the 10 day period, continue to pend the application until the guardian or conservator is appointed. If the application pends for 45 days, send written notice to the applicant to extend the pending application.

Once the guardian/conservator has been appointed, request verification of the appointment and that the application be signed by the guardian or conservator. Retain a copy of the application and mail the original application to the guardian/conservator. Allow 10 days for the signed application and guardian/conservator papers to be returned. If the application form and guardian/conservator papers are not returned to the agency by the specified date, deny the application because it is invalid.

- c. If guardianship/conservator procedures have not begun or have not been verified as being on the court docket, refer the applicant to Adult Protective Services (APS) in the local agency.

If the report to APS meets all criteria for a valid report, an investigation will be conducted to learn whether protective services are needed and, if so, what services are needed. The protective services identified will be provided or arranged by APS.

Continue to pend the application until the APS investigation is completed. If the completed APS investigation concludes that guardianship proceedings will not be initiated, the application must be signed by the applicant, or the applicant must sign a statement designating an authorized representative. Give the applicant 10 working days to return the signed application to the agency.

- d. If the application form is not signed by the applicant or the authorized representative and returned to the agency by the specified date, deny the application because it is invalid.

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date October 2018
Subchapter Subject M0120 MEDICAL ASSISTANCE APPLICATION	Page ending with M0120.200	Page 4

3. Procedure for Who Can Sign the Application

When preparing to determine the *MA* eligibility of an individual age 18 or older, examine the application to determine if the applicant can complete and sign the application form or if the applicant has an authorized representative. Ask the following questions:

Has the applicant been judged legally incapacitated by a court of law, as evidenced by a copy of the conservator or guardian certificate of appointment in the record?

YES: The authorized representative is the appointed conservator or guardian. STOP.

NO: The applicant is competent. Does the applicant have an attorney in fact who has the power of attorney to apply for *MA* for the applicant as evidenced by a copy of the power of attorney document in the record?

YES: The authorized representative is the attorney in fact. STOP.

NO: Has the applicant signed a written statement authorizing a person (or staff of an organization) to apply for *MA* on his behalf? (*Note: a completed authorized representative section on a telephonic application is acceptable*)

YES: The authorized representative is the person or organization authorized by the applicant to represent him. STOP.

NO: Is the applicant able to sign or make a mark on a Medicaid application form?

YES: Ask the applicant for his signature or mark on the application form or for a written statement authorizing someone to apply for *MA* on his behalf. Give the applicant 10 working days to return the completed and signed form(s). If the completed and correctly signed form(s) are not returned by the specified date, DENY *MA* because of an invalid application.

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date July 2020
Subchapter Subject M0120 MEDICAL ASSISTANCE APPLICATION	Page ending with M0120.200	Page 5

NO: Does the applicant have at least one of the following who is age 18 or older:

- . spouse,
- . child,
- . parent,
- . sibling,
- . grandchild, niece or nephew, or
- aunt or uncle?

YES: The authorized representative is the individual identified above who is willing and able to act on the applicant's behalf.

NO: Verify the inability of the applicant to sign the application because of a diagnosis or condition through a written statement from the applicant's doctor. Refer to APS. Pend the application. At the conclusion of the APS investigation, if APS concludes that guardianship proceedings will not be initiated, the applicant must sign or make a mark on the application or designate an authorized representative in writing. If the signed application form is not received by the specified date, deny MA.

C. Applicants Under Age 18

1. Child Applicant

A child under age 18 years is not legally able to sign his own *MA* application unless he is legally emancipated from his parents. If the child is not legally emancipated, one of the following individuals who is age 18 or older must sign the application:

- his parent (*custodial or non-custodial*)
- legal guardian,
- authorized representative, or
- an adult related by blood or marriage with whom the child lives (documentation of the relationship is not required).

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date July 2020
Subchapter Subject M0120 MEDICAL ASSISTANCE APPLICATION	Page ending with M0120.200	Page 6

If the child under 18 years of age is married and living with his spouse who is age 18 or older, the child's spouse may sign the application.

a. No Guardian or Legal Custody

If the child does not live with a parent or an adult relative and no adult is the child's guardian or has legal custody of the child, whomever the child is living with is responsible for seeking custody or guardianship of the child in the Juvenile and Domestic Relations court. Determine if the person submitting the application, or another person, has begun the process to obtain legal guardianship or custody of the child applicant.

b. Action Is Initiated To Appoint Guardian/Award Custody

If action has been initiated to appoint a guardian for or seek legal custody of the child, meaning a court guardianship or custody hearing is scheduled on the court docket, request verification that the action is on the court docket. Give 10 calendar days for this verification to be provided.

If the verification is provided within the 10-calendar-day period, continue to pend the application until a guardian is appointed or custody is awarded. If the application pends for 45 calendar days, send a notice to the applicant explaining that the application pending period will be extended.

Once the guardian has been appointed or custody awarded, request verification of the appointment or award and that the application be signed by the guardian or adult who was awarded custody. Allow 10 calendar days for the signed application and guardianship or custody papers to be returned.

If the court refuses to appoint a guardian or custodian and there is no adult who is legally able to sign an application for the child, deny the application as invalid.

c. Action Not Initiated – Refer to Child Welfare Services

If guardianship or custody procedures have not begun or have not been verified as being on the court docket, refer the child to the appropriate Family Services worker.

Continue to pend the application until the service investigation is completed and any court proceedings are completed. Once the guardian has been appointed or custody awarded, request verification of the appointment or award and that the application be signed by the guardian or adult who was awarded custody. Retain a copy of the application and mail the original application to the guardian or custodian. Allow 10 calendar days for the signed application and guardian or custody papers to be returned.

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date October 2022
Subchapter Subject M0120 MEDICAL ASSISTANCE APPLICATION	Page ending with M0120.200	Page 7

If the child was emancipated by the court, request the child's signature on the application. If the application is mailed to the child, allow 10 calendar days for the signed application form to be returned.

If the application form is not signed by the applicant, the guardian, the custodial adult, or the emancipated child and returned to the agency by the specified date, deny the application because it is invalid.

2. Non-custodial Parent Applying for Child

Eligibility for a child is based on the income of the parent with whom the child lives. If a non-custodial parent applies for his child, he must give written permission for the eligibility worker to contact the custodial parent. The eligibility worker must obtain the custodial parent's income information, written permission to verify income using available online data sources, and other information necessary to verify and calculate countable income, including Social Security Number and residence address. If either the non-custodial parent or the custodial parent fail to give the necessary permission, the child's eligibility cannot be determined using the application filed by the non-custodial parent.

3. Minor Parent Applying for Child

Parent(s) under age 18 years may apply for MA for *their* own child because *they are* the parent of the child. *An undocumented minor can apply for FAMIS Prenatal Coverage since the coverage is considered to be for the unborn child. If the individual is eligible, the parent can then be enrolled for the duration of the pregnancy and the 60 day postpartum period. Any future applications filed for the minor prior to turning age 18 would need to be signed by someone who is legally authorized to sign on the individual's behalf.*

4. Foster Care Child

a. IV-E

The Title IV-E Foster Care & Medicaid Application form, available at <https://fusion.dss.virginia.gov/Portals/%5Bdfs%5D/Files/Copy%20of%20032-03-0636-06-eng.xlsx>, is used for the IV-E Foster Care eligibility determination. A separate MA application is **not** required for a child who has been determined eligible for Title IV-E Foster Care. However, if there is a non-custodial agreement for the IV-E eligible child, the parent or legal guardian must sign an MA application for the child.

b. Non-IV-E

The Cover Virginia Application for Health Coverage & Help Paying Costs is used for the MA eligibility determination of a **non-IV-E** Foster Care child. Applications for non-IV-E Foster Care children may also be filed online. The MA application for a non-IV-E child who is in foster care must be signed by an authorized employee of the public or private agency that has custody of the child. Exception: If the child has been placed with and is living with a parent or care-taker relative, the parent or care-taker relative can sign the application.

If there is a non-custodial agreement, an MA application form must be filed and the parent or legal guardian must sign the application.

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date July 2020
Subchapter Subject M0120 MEDICAL ASSISTANCE APPLICATION	Page ending with M0120.200	Page 8

5. Adoption Assistance & Special Medical Needs Children

a. IV-E

A separate MA application is not required for a child who has been determined eligible for Title IV-E Adoption Assistance, regardless of which state has the adoption assistance agreement with the adoptive parents. IV-E Adoption Assistance children who have been placed for adoption through the Interstate Compact for Adoption and Medical Assistance (ICAMA) should have an ICAMA form 6.01 which verifies their Title IV-E eligibility for Medicaid. The ICAMA form 6.01 serves as the MA application form.

b. Non-IV-E

Non-IV-E Adoption Assistance children include Non-IV-E Special Medical Needs children.

1) Placed by a Virginia agency

An MA application is required for all non-IV-E Adoption Assistance and Non-IV-E Special Medical Needs children whose parents have adoption assistance agreements with a Virginia public or private child-placing agency. The child's adoptive parent signs and files the application for the child.

2) Placed by another state

Non-IV-E Adoption Assistance children who have been placed for adoption through the Interstate Compact for Adoption and Medical Assistance (ICAMA) should have an ICAMA form 6.01 which verifies their adoption assistance status (IV-E or non-IV-E). The ICAMA form 6.01 serves as the MA application form and a separate application is not required when:

- the other state is an ICAMA member state, and
- the ICAMA member state **reciprocates** Medicaid coverage of Virginia Non-Title IV-E Adoption Assistance children.

All states and territories EXCEPT Vermont, Wyoming, Puerto Rico and Virgin Islands are members or associate members of ICAMA. A list of the ICAMA member states and whether they reciprocate Medicaid coverage for Non-IV-E Adoption Assistance children is in M0120, Appendix 3.

An MA application must be filed for Non-IV-E Adoption Assistance children from non-member states and ICAMA member or associate member states which do NOT reciprocate. The child's adoptive parent signs and files the MA application for the child.

D. Deceased Applicant

An application may be made on the behalf of a deceased person within a three-month period subsequent to the month of his death if both of the following conditions were met:

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date April 2022
Subchapter Subject M0120 MEDICAL ASSISTANCE APPLICATION	Page ending with M0120.300	Page 9

- the deceased received a Medicaid-covered service on or before the date of death, and
- the date of service was within a month covered by the MA application.

If the above conditions were met, an application may be made by any of the following:

- his guardian or conservator,
- attorney-in-fact,
- executor or administrator of his estate
- his surviving spouse, or
- his surviving family member, in this order of preference: adult child, parent, adult brother or sister, adult niece or nephew, or aunt or uncle.

Under no circumstances can an employee of, or an entity hired by, the medical service provider who stands to obtain MA payment file an MA application on behalf of a deceased individual.

Medicaid coverage can begin no earlier than three months prior to the application month. The entitlement rules for retroactive coverage apply to the application's retroactive period.

Retroactive FAMIS coverage is available ONLY to an eligible child who was born within the 3 months prior to the FAMIS application month.

E. Enrollee Turns 18

When a child who is enrolled in MA Medicaid turns 18, it is not necessary to obtain a new application signed by the enrollee.

As long as the enrollee is under age 21, he does not need to authorize a parent with whom he lives for the parent to continue to conduct the enrollee's MA business.

M0120.300 Medical Assistance Application Forms

A. General Principle – Application Required

A signed application for MA is required for all initial requests for medical assistance, except for:

- IV-E Foster Care/Adoption Assistance children
- Auxiliary Grant (AG) applicants
- Newborn children under age 1 born *to women eligible for* Medicaid, FAMIS, *FAMIS MOMS, or FAMIS Prenatal Coverage.*

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date April 2022
Subchapter Subject M0120 MEDICAL ASSISTANCE APPLICATION	Page ending with M0120.300	Page 10

**1. Title IV-E
Foster Care &
Medicaid
Application**

The Title IV-E Foster Care & Medicaid Application, available at <https://fusion.dss.virginia.gov/Portals/%5Bdfs%5D/Files/Copy%20of%20032-03-0636-06-eng.xlsx>, is used for foster care or adoption assistance children who are eligible under Title IV-E of the Social Security Act. If the child requires a resource evaluation for a medically needy spenddown, Appendix E can be used to collect the information. The Appendix must be signed by the applicant's guardian.

For a IV-E FC child whose custody is held by an LDSS or a private FC agency, or for a IV-E adoption assistance (AA) child, the Title IV-E Foster Care & Medicaid Application is used to determine if the child meets Medicaid IV-E eligibility requirements. This form is also used to determine Medicaid eligibility for IV-E AA children. This form is **not** used for children in non-custodial agreement cases or non-IV-E FC or AA.

For IV-E FC children in the custody of another state's social services agency and for IV-E AA children, a separate Medicaid application is not required. The worker must verify the IV-E maintenance payment (for FC) or the IV-E status (for AA). Virginia residency (by declaration) and current third party liability (TPL) information must be obtained. This information may be supplied by the foster/adoptive parent or obtained from the agency that entered into the FC or AA agreement.

For non-IV-E FC children, a separate Medicaid application must be submitted by either the custodial agency or a parent or caretaker relative with whom the child has been placed. When a child enters care through a non-custodial agreement, or when a child is a non-IV-E AA child, a separate Medicaid application must be submitted by the parent or guardian.

**2. Auxiliary Grant
(AG)**

An application for AG is also an application for Medicaid. A separate MA application is not required.

**3. Exception for
Certain
Newborns**

A child born to a mother who was eligible for Medicaid, FAMIS, *FAMIS MOMS*, or *FAMIS Prenatal Coverage* at the time of the child's birth (including a child born to an emergency-services-only alien mother) is deemed to have applied and been found eligible for Medicaid on the date of the child's birth (see M0320.301). An application for the child is not required. The child's coverage is subject to renewal when he turns 1 year old.

If the child was born to a mother who was covered by Medicaid or the Children's Health Insurance Program outside Virginia at the time of the child's birth, verification of the mother's coverage must be provided or else an application must be filed for the child's eligibility to be determined in another covered group.

**4. Forms that
Protect the
Application
Date**

a. Low Income Subsidy (LIS) Medicaid Application

The Medicare Patient and Provider Improvement Act (MIPPA) requires LIS application data submitted by the Social Security Administration (SSA) to states to be treated as an application for Medicaid, if the LIS applicant agrees. LIS application data is sent to LDSS via the SSA Referral Inbox in VaCMS. The LDSS must generate an LIS Medicaid application and cover sheet and mail them to the individual. The individual must return the application or apply for Medicaid online or by telephone in order for his Medicaid eligibility to be determined. If the individual submits the application, the date of LIS application with the SSA is treated as the date of the Medicaid application.

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date January 2021
Subchapter Subject M0120 MEDICAL ASSISTANCE APPLICATION	Page ending with M0120.300	Page 11

b. Model Application for Medicare Premium Assistance Form

The Model Application for Medicare Premium Assistance Form was developed by the federal Centers for Medicare & Medicaid Services (CMS) that states can choose to use for the Medicare Savings Program applicants. The model application is **NOT** a prescribed Virginia Medicaid application form at this time.

Should a local department of social services (LDSS) receive a model application form, the agency is to send a valid Virginia MA application to the applicant with a request that it be completed, signed, and returned to the agency within 30 calendar days. The date of application on the model Application for Medicare Premium Assistance is to be preserved as the application date for purposes of Medicaid entitlement.

The processing time for the LDSS begins when the agency receives the Virginia application form back from the applicant. If the Virginia application form is not returned within 30 days, no further action is necessary on that application. The agency does not send a Notice of Action because no Virginia application was received. The model application date is not preserved beyond 30 calendar days. Should the person later submit a valid Virginia application, the date the Virginia application is received by the LDSS is the application date.

The model application form may be viewed on the SSA web site at:

<https://www.ssa.gov/forms/ssa-1020b-ocr-sm-inst.pdf>.

B. Application Forms

Medical assistance must be requested using an application method or form approved by the Departments of Medical Assistance Services (DMAS) and Social Services (VDSS). Applications may be made electronically through CommonHelp or the Health Insurance Marketplace.

Applications may also be made telephonically through the Cover Virginia Call Center or with a paper application form.

The following paper forms have been prescribed as application forms for Medicaid and FAMIS:

1. Streamlined Applications

The following forms are used to apply for affordable health insurance, including qualified health plans with the Advance Premium Tax Credit (APTC), through the Health Insurance Marketplace or the local DSS:

- the Cover Virginia Application for Health Coverage & Help Paying Costs and all applicable appendices:
 - Appendix D, for applications submitted for aged, blind or disabled (*ABD*) applicants and ABD applicants who are requesting *long-term services and supports (LTSS)*
 - Appendix E, when a Families and Children (F&C) Medically Needy determination is requested
 - *Appendix F, for applicants in need of LTSS who are between the ages of 19 and 64 years and who are not eligible for or enrolled in Medicare;*

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date January 2021
Subchapter Subject M0120 MEDICAL ASSISTANCE APPLICATION	Page ending with M0120.400	Page 12

- the federal Application for Health Coverage & Help Paying Costs for multiple individuals and all applicable appendices; and
- the federal Application for Health Coverage & Help Paying Costs (Short Form) for individuals and all applicable appendices.

**2. BCCPTA
Medicaid
Application**

The Breast and Cervical Cancer Prevention and Treatment Act (BCCPTA) Medicaid Application, form #032-03-384, is used only by individuals screened under the Breast and Cervical Cancer Early Detection Program. **This form is not to be given to applicants by the local departments of social services** (M0120, Appendix 2 is provided for reference purposes only).

**3. Replaced
Application
Forms**

The following forms were replaced by the streamlined application forms effective October 1, 2013. While agencies should accept and process any of these forms if they are submitted, additional information, such as tax filing information, may need to be obtained (see M0120.300 B.4 below).

- Application for Benefits (#032-03-824)
- The Application/Redetermination for Medicaid for SSI Recipients (#032-03-091)
- The Medicaid Application/Redetermination for Medically Indigent Pregnant Women (#032-03-040)
- The Health Insurance for Children and Pregnant Women (#FAMIS-1)
- The Application for Adult Medical Assistance form (#032-03-0222)
- The Plan First Application (#DMAS-65E)

**4. Renewal Forms
Returned After
Reconsideration
Period**

Renewal forms filed after the end of the 90-day reconsideration period are treated as reapplications. Accept the form and request any additional information needed to determine the individual's eligibility. See M1520.200 C for additional information.

**5. If Additional
Information is
Required**

Applicants may apply for MA on any valid application form. Regardless of which application form is used, if additional information is required to determine an applicant's eligibility, send the applicant the relevant page(s) of the Cover Virginia Application for Health Coverage & Help Paying Costs, and/or Appendices D or E, as appropriate, along with a checklist asking for the information. Give the applicant at least 10 business days to return the information and any required verifications to the agency.

M0120.400 Place of Application

A. Principle

The place of application may be the office of the local social services department serving the locality in which the applicant resides. Verification of locality residence is not required. MA applications are also accepted online, telephonically through Cover Virginia, or at designated hospitals and health clinics (Medicaid outstationed sites). If an applicant is homebound and needs assistance with completing the application, the agency, upon request, must arrange to have the application taken where he resides or is a patient.

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date January 2021
Subchapter Subject M0120 MEDICAL ASSISTANCE APPLICATION	Page ending with M0120.400	Page 12a

- 1. Locality of Residence**

Medical assistance applications that are approved are sent to the LDSS in the applicant's locality of residence or where the individual last lived outside of an institution.
- 2. Joint Custody Situations**

A child whose residence is divided between two custodial parents living in different localities is considered to reside in the locality in which he attends school. If the child is not enrolled in school, the parents must decide which locality is the child's residence for application/ enrollment purposes.

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date July 2020
Subchapter Subject M0120 MEDICAL ASSISTANCE APPLICATION	Page ending with M0120.400	Page 13

**B. Foster Care,
Adoption
Assistance,
Department of
Juvenile Justice**

1. Foster Care

Responsibility for taking applications and maintaining the case belongs as follows:

a. Title IV-E Foster Care

Children in the custody of a Virginia LDSS or private foster care agency who receive Title IV-E maintenance payments apply at the agency that holds custody. Title IV-E foster care children in the custody of another state's social services agency apply in the Virginia locality where they reside.

b. State/Local Foster Care

Non-Title IV-E (state/local) children in the custody of a Virginia LDSS or a private child placing agency apply at the LDSS that holds custody.

Children in the custody of another state's social services agency who have been placed with and are living with a parent or caretaker-relative apply at the LDSS where the child is residing. (see M0230).

**2. Adoption
Assistance**

Children receiving adoption assistance through a Virginia local department of social services apply at the LDSS that made the adoption assistance agreement.

Children receiving adoption assistance through another state's social services agency apply at the LDSS where the child is residing.

**3. Virginia
Department of
Juvenile
Justice/Court
(Corrections
Children)**

When a child is in the custody of the Virginia Department of Juvenile Justice (DJJ) or is the responsibility of a court (corrections children), responsibility for processing the application and determining eligibility will be handled either centrally or by the LDSS in the locality in Virginia in which he last resided prior to going into the DJJ system. For a new applicant use the physical address where the person is located. For pre-release and re-entry individuals, use the address where the person will reside after release (post-release).

**C. Institutionalized
Individual (Not
Incarcerated)**

When an individual of any age is a resident or patient in a medical or residential institution, except a Virginia Veteran's Care Center, responsibility for processing the application and determining eligibility rests with the department of social services in the locality in Virginia in which he last resided outside of an institution.

Exception: If the applicant is applying for or receives SNAP, responsibility for processing the MA application and determining MA eligibility rests with the LDSS in the locality in which the institution where he is receiving care is located.

If the individual did not reside in Virginia prior to entering an institution, responsibility for processing the application and determining eligibility rests with the LDSS in the locality in which the institution where he is receiving care is located.

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date April 2019
Subchapter Subject M0120 MEDICAL ASSISTANCE APPLICATION	Page ending with M0120.400	Page 14

**D. Individuals In
Virginia Veteran's
Care Center**

MA applications for patients in the Virginia Veteran's Care Center in Roanoke may be filed, processed and maintained at the Roanoke City Department of Social Services.

**E. Incarcerated
Individuals and DJJ
Supervisees**

Inmates of state (DOC), regional and local correctional facilities, and individuals under the age of 21 under the supervision of DJJ (placed in a facility or receiving services from any court services unit or DJJ contractor) may apply for Medicaid. Responsibility for processing the application and determining eligibility will be handled through a centralized process or by the local department of social services (DSS) in the locality where the individual was living prior to incarceration or DJJ/court custody. Applications are not to be refused because an applicant is an inmate of a public institution at the time of application.

If the individual did not reside in Virginia prior to becoming incarcerated or committed to DJJ, responsibility for processing the application and determining eligibility will be handled through a centralized process or by DSS in the locality in which correctional facility is located.

The physical address on the application should be the address where the individual is currently placed.

The mailing address will be the facility address where the individual is currently placed. For pre-release or re-entry individuals, use the address the person provides where they will be located after release. If the individual was homeless prior to being incarcerated, use the physical address of the local DSS or an address the person provides.

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date July 2020
Subchapter Subject M0120 MEDICAL ASSISTANCE APPLICATION	Page ending with M0120.500	Page 15

M0120.500 Receipt of Application

A. General Principle

An applicant or authorized representative may submit an application for medical assistance only or may apply for MA in addition to other programs.

An applicant may be assisted with completing the various aspects of the application by an individual(s) of his choice and may designate in writing (or documented on a telephonic application) that such individual(s) may represent him in subsequent contacts with the agency.

B. Application Date

The application date is the earliest date the signed application for medical assistance is received by the local agency, an out-stationed site, or an entity contracted with DMAS to accept applications. The application must be on a form prescribed by DMAS and signed by the applicant or person acting on his behalf.

The application may be received by mail, fax, hand delivery, electronically or telephonically. The date of receipt by the agency must be recorded. If an application is received after the agency's business hours, the date of the application is the next business day. Exception: For CommonHelp applications, if the application is received after business hours and the next business day is in the following month, the date of the application is the actual date it was submitted.

The date of application for foster care children in the custody of a local department of social services is the date the application is received by the eligibility worker.

If an application for a pregnant woman or child is denied due to excess income, the applicant must be given the opportunity to request a medically needy evaluation. If the evaluation is requested within 10 calendar days of the date the notice of denial was mailed, the application date is protected, and the date of application is the date the denied application was received.

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date April 2022
Subchapter Subject M0120 MEDICAL ASSISTANCE APPLICATION	Page ending with M0120.500	Page 16

**C. Hospital
Presumptive
Eligibility**

The Affordable Care Act required states to allow approved hospitals to enroll patients who meet certain Families & Children covered groups in Medicaid for a limited time on the basis of their presumptive eligibility. The Department of Medical Assistance Services (DMAS) is responsible for coordinating the HPE Agreement with approved hospitals, providing training and technical assistance, and monitoring the appropriate use of the HPE enrollments. HPE is not available to individuals who are already actively enrolled in Medicaid or FAMIS. Local eligibility staff do not determine eligibility for HPE.

**1. HPE
Determination
and Enrollment**

To provide an individual HPE coverage, the hospital staff obtains basic demographic information about the individual, as well as the attestations from the individual regarding Virginia residency (including locality), U.S. citizenship or lawful presence, Social Security number, household size and income, and requirements related to a covered group. As the information is self attested, no verifications or additional proof is required.

Hospital staff determines eligibility and enters the approved individual's data into the HPE webpage located in the provider portal in the *Medicaid Enterprise System (MES—formerly the Medicaid Management Information System [MMIS])*. This information is electronically transferred to the Cover Virginia Central Processing Unit (CPU) which is responsible for enrolling the individual in the appropriate aid category (AC) in MMIS. The HPE enrollment **is not** entered in the Virginia Case Management System (VaCMS). HPE recipients are not entered into a managed care organization (MCO).

The hospital is responsible for providing immediate notification to the individual of his HPE coverage. They will request that he file a full MA application by the end of the following month so that continued eligibility for Medicaid can be evaluated without an interruption in coverage.

The HPE covered groups and the ACs are:

- Pregnant Women (AC 035)
- Child Under Age 19 (AC 064)
- Low Income Families with Children (LIFC) (AC 065)
- Former Foster Care Children Under Age 26 (AC 077)
- Breast & Cervical Cancer Prevention & Treatment Act (BCCPTA) (AC 067)
- Plan First (AC 084)
- MAGI Adults (AC 106) (effective January 1, 2019)

Individuals enrolled on the basis of HPE receive a closed period of coverage beginning with the date of the HPE determination through the last day of the following month or the date MA eligibility is determined, whichever comes first. Enrollment in HPE is not based on the date of the hospital admission nor the first day of the month.

While enrolled as HPE, individuals in the Child Under Age 19 years, LIFC, Former Foster Care Children Under Age 26, BCCPTA, and MAGI Adults covered groups receive full Medicaid benefits. HPE pregnant women coverage

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date April 2022
Subchapter Subject M0120 MEDICAL ASSISTANCE APPLICATION	Page ending with M0120.500	Page 17

(AC 035) is limited to outpatient prenatal services; labor and delivery are not covered under HPE for AC 035. HPE coverage for Plan First enrollees AC084 is limited to family planning services only. Transportation to receive covered medical services is covered for all HPE enrollees.

Enrollment as HPE is limited to one HPE period per calendar year for all individuals other than pregnant women. For pregnant women, enrollment is limited to one HPE eligibility period per pregnancy.

There are no appeal rights for an HPE determination.

2. Eligibility Procedures – Post HPE Enrollment

a) MA Application Not Submitted

If the person does not submit an MA application prior to the end of the HPE coverage period, no further worker action or additional notice not required because the enrollment was for a closed period of coverage.

b) MA Application Submitted

For MA coverage to continue beyond the initial HPE coverage period, the individual must submit a full MA application. MA applications submitted by HPE enrollees are subject to the standard eligibility and entitlement policies. The 7-calendar day processing standard applies to MA applications submitted by pregnant women. The 10-work day requirement applies to applications submitted by BCCPTA individuals enrolled in HPE.

While the LDSS does not determine eligibility for HPE, if an MA application is received and pended in VaCMS, the individual's coverage in the HPE AC may need to be extended or reinstated (if HPE coverage will end during the application processing period) while the application is processed. If HPE coverage needs to be extended/reinstated, alert a VDSS Regional Consultant or send an MMIS Coverage Correction Request form, available at <https://fusion.dss.virginia.gov/bp/BP-Home/Medical-Assistance/Forms>, to the DMAS Eligibility and Enrollment Unit at enrollment@dmass.virginia.gov.

Example 1: Mary Smith is enrolled in HPE coverage in AC 065 (LIFC) for the period of 3-5-18 through 4-30-18. On 4-20-18, she submits an MA application; however, the 45th processing day will fall after the HPE end date of 4-30-18. Therefore, the worker must have the HPE coverage reinstated in MES under the same aid category (AC 065), using the MA application date. The effective date of the reinstatement is 5-1-18, the day after the HPE coverage ends. Once the application has been processed, the worker must act to cancel the HPE coverage, and if the individual remains eligible reinstate coverage in the appropriate AC.

M0120 MEDICAL ASSISTANCE APPLICATION	M0120.500	18

c) Applicant Determined Eligible for MA Coverage

If the individual is determined eligible for MA coverage, coverage under the appropriate MA aid category will includes any day(s) to which he is entitled and not covered by HPE.

If the individual submits a MA application and it is approved in the **same month** HPE coverage began and HPE began the first day of the month, MA coverage begins the first day of that application month.

If the MA application is approved and HPE began on any day other than the first day of the month, the worker will enroll MA coverage beginning with the first day of the month and end on the day before the HPE begin date. Ongoing coverage will then begin the day after the HPE coverage ends. An exception to this process will be for an approved pregnant woman or Plan First application.

Example 2: Tony is an adult enrolled in HPE coverage (AC106) for the period of 9-6-18 through 10-31-18. He submits an MA application on 9-8-18 and is approved as a MAGI Adults AC103 on 9-28-18. He did not request retroactive coverage so the AC103 coverage will be for the period 9-1 thru 9-5 and ongoing AC103 coverage will begin on 11-1-18 (after the HPE coverage ended).

If an individual submits an MA application in the month a full-benefit HPE coverage is to end, and is determined eligible for ongoing MA coverage, the ongoing coverage is entered in the appropriate MA AC beginning the first day of the month after the effective date of the HPE coverage cancellation. An exception to this process will be for an approved pregnant woman application.

Example 3: Billy is a child enrolled in HPE coverage (AC 064) for the period of 2-14-18 through 3-31-18. His parent submits an MA application on 3-18-18 and there is no indication of any medical services in a retro period. Billy is determined eligible for Medicaid coverage in AC 092 on 3-26-18.

The Medicaid entitlement begins after the HPE coverage ends. The worker enrolls the child into AC 092 with ongoing coverage beginning 4-1-18.

d) Applicant Determined Eligible as Pregnant Woman (PW) or for Plan First

The HPE process for a pregnant woman (AC 035) or Plan First (AC 084) follows the same policy as other HPE categories. The exception is for enrollment if an MA application is submitted and approved for a pregnant woman (AC 091 or AC 005) or for Plan First. In those cases, coverage will begin on the first day of the month the MA application was received. Request that HPE coverage be cancelled retroactively. Reinstate in full coverage for the ongoing coverage.

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date April 2022
Subchapter Subject M0120 MEDICAL ASSISTANCE APPLICATION	Page ending with M0120.500	Page 19

Example 4 : Jane was enrolled in HPE AC 035 (pregnant women) for the period of 4-13-18 through 5-30-18. She files an MA application on 4-28-18 and is approved for AC 091 coverage. Jane would have coverage as AC 091 for the period beginning 4-1-18. However, based on her expected delivery date found on the application, Jane was pregnant during the months prior to her HPE determination. The worker determines and approves retro coverage. The worker ensures Jane has coverage for AC 091 with a begin date of 1-1-18. In *MES*, this transaction would be a retro cancel reinstate using Cancel Reason 024.

e) Retroactive Coverage

An individual cannot receive retroactive HPE coverage.

An individual's eligibility for retroactive coverage for the three months prior to the month of the MA application is determined when the individual had a medical service within the three months prior to the month of the full MA application or when MA began. If the individual had full coverage while enrolled as HPE, only enroll him for the portion of the retroactive period that he was not enrolled as HPE.

f) Applicant Determined Not Eligible for ongoing MA coverage

If the applicant is determined to not be eligible for ongoing MA coverage, his entitlement to HPE coverage ends. Unless the HPE coverage was extended, no further action is required by the worker. If cancellation of HPE coverage is needed, request that the effective cancel date be the current date (i.e. day of the eligibility determination), using Cancel Reason 008.

Send a Notice of Action indicating that the individual's MA application was denied and that his HPE coverage was cancelled with the effective date. Because the individual receives notice of the HPE coverage period from the hospital at the time of the HPE enrollment, advance notice of the HPE cancellation is not required. There are no appeal rights for HPE.

The individual's HPE coverage is valid regardless of whether or not the individual is eligible for ongoing coverage; do not refer the case to the DMAS Recipient Audit Unit.

NOTICE REGARDING MEDICAID APPLICATION REQUIREMENTS

A Medicaid application has been filed on the behalf of _____ (name of applicant). However, the application is not valid and cannot be processed because the application must be signed by one of the following persons:

- the parent of a person under age 18,
- the adult who is the legal guardian or has legal custody of a person under age 18,
- any adult related by blood or marriage with whom a person under age 18 lives,
- the person for whom Medicaid is requested if the person is over age 18 or an emancipated minor,
- the authorized representative for the person who is requesting assistance, who may be
 - any person to whom he/she has legally given power of attorney, or
 - any person who he/she has designated by a signed written statement to apply on his/her behalf for Medicaid or public benefits, or
- the guardian, conservator, or committee of a person over age 18 who has been judged legally incapacitated by a court of law.

Please return the signed application and the authorized representative statement (if needed) by _____ so that the application may be processed. Thank you.

YOUR RIGHTS AND RESPONSIBILITIES

By signing below, I agree to the following:

I have the right to:

- ◆ Be treated fairly and equally regardless of my race, color, religion, national origin, gender, political beliefs or disability consistent with state and federal law and to file a complaint if I feel I have been discriminated against.
- ◆ Have my eligibility for Medicaid benefits determined within 10 working days of receipt of my application at my local department of social services or be notified of the reason for any delay.
- ◆ Appeal and have a fair hearing if I am: (1) not notified in writing of the decision regarding my application; (2) denied benefits from the Medicaid program; or (3) dissatisfied with any other decision that affects my receipt of Medicaid benefits.

I have the responsibility to:

- ◆ Not purposely withhold information, or give false information and understand if I do so my Medicaid coverage may be denied or ended.
- ◆ Report any changes in information provided on this form within 10 days to my local department of social services.
- ◆ Cooperate with a review of my Medicaid eligibility by Quality Control and understand that refusing to cooperate will make me ineligible for Medicaid until I cooperate with a review.

I further understand and agree that:

- ◆ This application is used only to apply for Medicaid under the Breast and Cervical Cancer Prevention and Treatment Act coverage group and that in order to apply under other coverage groups I must complete another application.
- ◆ The Department of Medical Assistance Services and the Department of Social Services are authorized to obtain any verification necessary to establish my eligibility for Medicaid.
- ◆ The Department of Medical Assistance Services has the right to receive payments for services and supplies from insurance companies and other liable sources as reimbursement for medical services received by me.
- ◆ Each provider of medical services may release any medical records pertaining to any services received by me.
- ◆ I am assigning my rights to medical support and other third party payments to the Department of Medical Assistance Services in order to receive benefits from the Medicaid program.

I declare that all information I have given on this application is true and correct to the best of my knowledge and belief. I understand that if I give false information, withhold information or fail to report a change promptly or on purpose I may be breaking the law and could be prosecuted for perjury, larceny and/or fraud. I understand that my signature on this application signifies, under penalty of perjury, that I am a U.S. citizen or alien in lawful immigration status.

M0130.001 Medical Assistance Application Processing Principles

A. Introduction

Under the Affordable Care Act (ACA), the Medicaid and FAMIS medical assistance (MA) programs are part of a continuum of health insurance options available to Virginia residents. MA application processing is based on several principles that are prescribed by the ACA.

B. Principles

1. Single Application

Applications for affordable health insurance, including qualified health plans with Advance Premium Tax Credit (APTC) assistance and MA, are made on a single, streamlined application. The application gathers information needed to determine eligibility for both APTC and MA.

2. No Wrong Door

Individuals may apply for MA through their local department of social services (LDSS), the Health Insurance Marketplace (HIM), at the CommonHelp *website*, or the Cover Virginia Call Center. Applications *may be* routed to *either* the LDSS *or* Cover Virginia for processing.

Effective 11/1/2018, applications made through the HIM that require MAGI eligibility determinations will have the eligibility determination made by the HIM. If an application is approved, the case will be routed to either the CPU or LDSS, where it should be accepted and enrolled without delay. ABD applications received by the HIM will be routed to the local agencies for processing.

3. Use of Electronic Data Source Verification

The eligibility determination process for MA is based on electronic data source verification (EDSV) to the fullest extent possible. The Federally-managed Data Services Hub (the Hub) provides verification of a number of elements related to eligibility for MA applications processed in the Virginia Case Management System (VaCMS). Data from on-line sources including the Virginia Employment Commission (VEC) and the Work Number are also acceptable for both initial applications and renewals.

Eligibility workers are to request information from the applicant or authorized representative(s) only when it is not available through an approved data source or the information is inconsistent with agency records.

Searches of online information systems, including but not limited to the Hub, State Online Query-Internet (SOLQ-I) and the State Verification Exchange System (SVES) are permitted **only** for applicants and family members whose income and/or resource information is required to determine eligibility for the applicant or patient pay for an enrollee. This includes spouses of applicants and parents of child applicants.

4. Processing Time

Agencies are required by the State Plan to adhere to prescribed standards for the processing of MA applications, including applications processed using the self-directed functionality in VaCMS. The amount of time allowed to process an application is based on the availability of required information and verifications, as well as the covered group under which the application must be evaluated.

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date July 2021
Subchapter Subject M0130 APPLICATION PROCESSING	Page ending with M0130.100	Page 2

5. Delayed Verifications

If requested verifications or other information needed to process the case are delayed in the postal system due to no fault of the applicant's, accept the documentation, reopen the case if necessary, and complete application processing.

M0130.100 Processing Time Standards

A. Processing Time Standards

1. Expedited Application Requirements

a. Pregnant Women

Applications for pregnant women must be processed within **seven (7) calendar days** of the agency's receipt of the signed application.

If the pregnant woman also applies for other children or other persons in her family and the agency cannot determine the other persons' eligibility within 7 calendar days, the agency must determine just the MA eligibility of the pregnant woman within the 7 calendar days.

The agency must have all necessary verifications within the 7 calendar days in order to determine eligibility. If the agency does not receive the verifications within the 7 calendar days, the worker must send the applicant written notice on the 7th day. The notice must state why action on the application was not taken, specify what documentation is necessary in order to determine eligibility, and give a deadline of at least 10 days by which to submit the documentation.

Once all necessary verifications for the pregnant woman are received, an eligibility decision must be made immediately and the applicant must be immediately notified of the decision. If the pregnant woman applied for other persons in the family, and the eligibility determination for those persons has not been completed, the written notice must state that the application is still pending.

If all necessary verifications are not received, the application continues to pend until the 45-day processing time limit is reached.

b. Breast and Cervical Cancer Prevention and Treatment Act (BCCPTA) Medicaid Applications

BCCPTA Medicaid applications filed by individuals who do not meet the description of an individual in the Low-income Families with Children (LIFC), Medicaid pregnant women, or SSI recipients covered groups must be processed within 10 working days of the agency's receipt of the signed application.

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date July 2021
Subchapter Subject M0130 APPLICATION PROCESSING	Page ending with M0130.100	Page 2a

BCCPTA Medicaid applications filed by individuals who meet the description of an individual in the LIFC, pregnant women, or the SSI recipients covered groups must be processed as soon as possible, but no later than 45 days of the agency's receipt of the signed application.

If the BCCPTA Medicaid application is the only application required and no additional information is required, the eligibility decision must be made immediately and the applicant must be notified of the decision within 10 working days of the agency's receipt of the application.

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date July 2019
Subchapter Subject M0130 APPLICATION PROCESSING	Page ending with M0130.100	Page 3

If a decision cannot be made within 10 working days of receipt of the BCCPTA application, the worker must send a written notice on the 10th day stating why action has not been taken, specifying what information is needed, and a deadline for submitting the information.

If all necessary verifications are not received, the application continues to pend until the 45-calendar-day processing time limit is reached.

2. 45/90 Day Requirement

Applications for which information in addition to that provided on the application is required, including requests for retroactive coverage, must be processed within 45 calendar days for all applicants other than pregnant women, women in the BCCPTA covered group, or individuals needing a disability determination.

For individuals who require a disability determination to meet the covered group requirement, the time standard for processing an application is 90 calendar days. Other non-financial requirements, however, must be met and verified by the 45th calendar day, or the application must be denied and DDS must be notified to stop action on the disability determination (see M0310.112 *G.3*).

The time standard begins with the date of receipt of a signed application and ends with the date of enrollment or the date the notification of denial of MA is mailed to the applicant. The applicant must be informed of the agency's time standards.

The eligibility worker must allow at least 10 calendar days to receive the necessary verifications. If all necessary verifications are not received, the application continues to pend until the 45-day processing time limit is reached.

3. Early Denial Before Deadline Date

When the 45-day processing deadline date falls on a weekend or a holiday, the LDSS may deny an individual's application on the last business day before the deadline date if all necessary verifications have not been received. If the early denial action is taken, however, the LDSS must re-open the application if the individual provides the necessary information on or before the 45th day deadline.

If the individual's application is re-opened and he is determined eligible, the LDSS must enroll the individual and send a notice to the individual notifying him of the approval and the begin date of coverage.

4. Processing Priority

Application processing priority must be given to applicants who are in need of Medicaid coverage for nursing facility or community-based long-term care, hospice care, or who are in emergent need of other covered services. These applications must be processed as quickly as possible.

5. Time Standard Exceptions

The specified time standards apply unless the agency cannot reach a decision within the time standard because of one of the following reasons:

- the applicant's inability to furnish necessary information for a reason beyond his/her control,
- a delay in receipt of information from an examining physician,
- a delay in the disability determination process,
- a delay in receiving DMAS decision on property transfer undue hardship claim, or
- an administrative or other emergency beyond the agency's control.

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date January 2021
Subchapter Subject M0130 APPLICATION PROCESSING	Page ending with M0130.100	Page 4

If action is not taken within the time standard, the case record must show the cause for the delay and the applicant must be notified in writing of the status of his application, the reason for the delay, and his right of appeal.

When an application is delayed after 90 days because of a disability decision and the agency has determined that excess resources exist at the time the delay notice is sent, the NOA must inform the applicant that he/she has excess resources and the amount. The notice must also state that:

- a final action cannot be taken until the disability decision is made;
- if the applicant is determined to be disabled, he/she will not be eligible unless the excess resources are reduced; and
- he will be notified when the disability decision is made.

B. Application for Retroactive Coverage

The retroactive period is based on the month in which the application is filed with the agency. The retroactive period is the three months prior to the application month.

Retroactive Medicaid eligibility must be determined when an applicant for medical assistance indicates on the application that he, or anyone for whom he requests assistance, received a covered medical service within the retroactive period. The covered service may be listed by the applicant as an actual medical service on the application, or information on the application may indicate that a service was received, such as the birth of a child or Medicare coverage during the retroactive period.

An individual may request retroactive coverage at any time subsequent to an application even if the application was denied or the applicant signed a statement saying he did not want retroactive coverage. The retroactive period is based on the application month regardless of whether the application was denied or approved. **There is no administrative finality on determining retroactive eligibility if eligibility for the months in the retroactive period has not been determined.**

If the application was denied, the application is reopened for determination of eligibility in the entire retroactive period – all three months prior to the application month – even if a covered medical service was received in only one retroactive month. The applicant must provide all verifications necessary to determine eligibility during the retroactive period.

If the applicant is found eligible for retroactive coverage and a Medicaid-covered medical service was received over one year prior to the date the retroactive eligibility is determined, the applicant must be given an "Eligibility Delay" letter to give to the medical provider so that Medicaid will pay the claim (see the sample letter on the intranet at <https://fusion.dss.virginia.gov/bp/BP-Home/Medical-Assistance/Forms>). Once retroactive eligibility is established, Medicaid coverage begins the first day of the earliest retroactive month in which retroactive eligibility exists.

M0130.200 Required Information and Verifications

A. Identifying Information

An application must contain basic identifying information about the applicant. Basic identifying information is the applicant's name, address, Social Security number (SSN) or proof that the individual applied for the SSN, if required for the applicant's eligibility, and date of birth.

1. Name

The name entered in the official case record and computer enrollment systems for an applicant must match the applicant's name on his Social Security card or Social Security Administration (SSA) records verification. This is important because of the Medicare Buy-in and other computer matches the *Medicaid Enterprise System (MES—formerly the Medicaid Management Information System [MMIS])* performs with SSA. At the time of the initial MA application, verify the SSA record of the individual's name.

The Federally managed Data Services Hub verifies the individual's name and SSN with the SSA for cases processed in VaCMS (see M0130.200 B.1 below). For an individual whose name and SSN cannot be verified in VaCMS and for all individuals whose cases are not processed in VaCMS, either SVES or the State Online Query-Internet system (SOLQ-I) SSA Title II and Title XVI results may be used.

If the individual says his name is different from the name on his Social Security card, he must first notify SSA and have his name changed on SSA records. When SSA changes his name and SSA verification of the name change is received, the worker can change his name in the case record and on the eligibility and *MES* computer systems.

For purposes of the case record only, the agency may choose to set up the case in the individual's alleged name before it is changed on the Social Security card.

2. SSN

The SSN of an individual for whom medical assistance is requested and for whom having an SSN or proof of application for one is an eligibility requirement, must be provided by the applicant and verified by the worker through SSA. The Hub or SOLQ-I may be used to verify the individual's SSN. See M0240.001.

B. Required Verifications

1. The Federally-managed Data Services Hub

The Hub is a data center that links the following federal systems:

- Social Security Administration
- Internal Revenue Service (IRS)
- Systematic Alien Verification for Entitlements (SAVE).

Income verification by the Hub is acceptable for retroactive eligibility determinations provided that reasonable compatibility is met (see M0420.100 B.9).

Information from other sources, such as the Work Number, may become available via the Hub in the future.

2. Other Verification Sources

An individual must provide verifications of certain MA eligibility requirements when they cannot be verified through EDSV. Before taking action on the application, the applicant must be notified in writing of the required information. The verification request (checklist) must be sent to the authorized representative, if one has been designated.

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date July 2020
Subchapter Subject M0130 APPLICATION PROCESSING	Page ending with M0130.200	Page 6

The eligibility worker must allow at least 10 calendar days for receipt of the necessary verifications, but additional time may be allowed depending on the type of information requested. The specific information requested and the deadline for receipt of the verifications must be documented in the case record. If the applicant reports to the EW that he needs help to obtain certain verifications, the EW must attempt to assist the applicant. If the verification cannot be obtained, the application must be denied.

3. Copy or Scan Verification Documents

Legal documents and documents that may be needed for future eligibility determinations *or audits* must be copied *or scanned into VaCMS using the Document Management Imaging System (DMIS)* and preserved for the record. These include citizenship and identity documents, alien status documentation, verification of legal presence, trusts, annuities, contracts, wills, life insurance policies, **the current value of all other countable resources, and verifications of earned and unearned income.** *Notes by the eligibility worker that the verifications were viewed are not sufficient.*

4. Non-custodial Parent Applying for Child

Eligibility for a child is based on the income of the parent with whom the child lives. If a non-custodial parent applies for his child, he must give written permission for the eligibility worker to contact the custodial parent. The eligibility worker must obtain the custodial parent's income information, written permission to verify income using available online data sources, and other information necessary to verify and calculate countable income, including Social Security Number and residence address. If the either the non-custodial parent or the custodial parent fails to give the necessary permission, the child's eligibility cannot be determined using the application filed by the non-custodial parent.

5. Information Not Provided

If information necessary to make an eligibility determination is requested but not provided by the applicant and cannot be obtained from any other source, the application must be denied (or the coverage cancelled) due to the inability to determine eligibility. Individuals whose applications are denied due to the inability to determine eligibility are not referred to the HIM. See M0130.300 D.2.

When the deadline date falls on a weekend or holiday, LDSS may choose to deny the application (or cancel coverage) before the deadline date. However, if the early denial or cancel action is taken, LDSS must re-open the application if the individual provides the necessary information on or before the original deadline date. If the individual's application is re-opened and he/she is determined eligible, the LDSS must send a notice to the individual notifying him of the changed action.

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date July 2020
Subchapter Subject M0130 APPLICATION PROCESSING	Page ending with M0130.200	Page 6a

**C. Verification of
Nonfinancial
Eligibility
Requirements**

**1. Verification
Not Required**

The applicant's statements on the application may be accepted for the following identifying information and nonfinancial eligibility requirements unless the eligibility worker has reason to question the applicant's statements:

- Virginia state residency;
- pregnancy.

**2. Verification
Required**

The following information must be verified:

- application for other benefits;
- citizenship and identity;
- Social Security number (see section D below);
- legal presence in the U.S. of applicants age 19 or older;
- age of applicants age 65 and older; and
- disability and blindness.

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date July 2019
Subchapter Subject M0130 APPLICATION PROCESSING	Page ending with M0130.200	Page 7

See M0130.200 E below for instructions on the verification of legal presence. See subchapter M0220 for instructions on the verification of identity and citizenship. See subchapter M0310 for instructions on the verification of age and disability.

D. Social Security Numbers

Applicants must provide the SSN of any person for whom they request Medicaid, if an SSN is required for that individual's eligibility. An individual who is applying only for others and is not applying for himself is not required to provide an SSN for himself.

1. SSN Verification

The Federal Hub, SVES or SOLQ-I may be used to verify the individual's SSN.

2. Exceptions to SSN Requirements

The SSN requirement does not apply to:

- *an alien who is eligible only for Medicaid payment of emergency services, as defined in subchapter M0220,*
- *a non-citizen who is only eligible to receive an SSN for a valid non-work reason,*
- *a child under age one born to a Medicaid-eligible or FAMIS- covered mother (see M0330.301 B. 2 and M2220.100.), or*
- *an individual who refuses to obtain an SSN because of well-established religious objections.*

See M0240 for additional information and verification requirements.

3. SSN Not Yet Issued

If an SSN has not been issued, the applicant must cooperate by applying for a number with the local Social Security Administration (SSA) office. Instruct the applicant to submit form SS-5, the Application for Social Security Number, to the SSA and to obtain a receipt from the SSA verifying that the application was submitted. The SS-5 is available online at: <https://www.ssa.gov/forms/ss-5.pdf>. The applicant must provide the SSN to the local social services department as soon as it is received and the number must be entered in the eligibility and enrollment system. Applicants who refuse to furnish an SSN or to show proof of application for a number will be ineligible for medical assistance.

In the case of a newborn child not eligible in a child under 1 covered group, the applicant can request hospital staff to apply for an SSN for the child through hospital enumeration procedures. Form #SSA-2853 will be given to the applicant as proof of application for an SSN.

When entering the individual in the eligibility/enrollment system, use the date the individual applied for an SSN, or the individual's date of birth, preceded by "999" as the individual's SSN. For example, an individual applied for an SSN on October 13, 2006, enter "999101306" as the individual's SSN.

E. Legal Presence (Effective January 1, 2006)

Effective January 1, 2006, Section 63.2-503.1 of the Code of Virginia requires most applicants for or recipients of public assistance who are age 19 or older to provide proof of citizenship or legal presence in the U.S. Applicants or recipients age 19 or older for whom medical assistance is requested must prove their citizenship or legal presence.

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date January 2021
Subchapter Subject M0130 APPLICATION PROCESSING	Page ending with M0130.200	Page 8

Individuals who, on June 30, 1997, were Medicaid-eligible and were residing in long-term care facilities or participating in home and community-based waivers, and who continue to maintain that status (eligible for Medicaid and reside in long-term care facilities or participate in home and community-based waivers) are exempt from this requirement.

Non-citizens applying for Medicaid payment limited to emergency services are not subject to the legal presence requirement. An individual who is applying on behalf of another and is not requesting assistance for himself is not subject to the legal presence requirement.

2. Documents That Demonstrate Legal Presence

An applicant may demonstrate legal presence by presenting one of the following documents:

- valid evidence of U.S. citizenship;
- valid evidence of legal permanent resident status;
- valid evidence of conditional resident alien status;
- a valid SSN verified by SSA;
- a U.S. non-immigrant visa;
- a pending or approved application for legal asylum;
- a refugee or temporary protected status document; or
- a pending application for an adjustment of residence status.

3. Failure to Provide Proof of Legal Presence

An applicant who cannot provide documentation that he is a citizen or legally present at the time of application must sign an affidavit under oath attesting that he is a U.S. citizen or legally present in the U.S. in order to meet the requirement for proof of legal presence for either:

- a period of 90 days or until it is determined that he is not legally present in the U.S., whichever is earlier; or
- indefinitely if the applicant provides a copy of a completed application for a birth certificate that has been filed and is pending and being actively pursued in accordance with federal or state law. Such extension shall terminate upon the applicant's receipt of a birth certificate or determination that a birth certificate does not exist because the applicant is not a U.S. citizen.

The affidavit form is on the intranet at <https://fusion.dss.virginia.gov/bp/BP-Home/Medical-Assistance/Forms>.

NOTE: The individual's address on the affidavit form must be the individual's **residence** address, not the mailing address.

4. Relationship to Other Medicaid Requirements

Providing proof of legal presence or submitting a signed affidavit meets the legal presence eligibility requirement. To be eligible for Medicaid, however, the individual must meet all other state and federal Medicaid eligibility requirements. Submission of the affidavit without proof of application for an SSN as required by M0130.200 D. does **NOT** meet the SSN requirement.

F. Third Party Liability (TPL)

Applicants must be asked to provide information about any health insurance they may have. Verification of health insurance information is not required.

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date October 2022
Subchapter Subject M0130 APPLICATION PROCESSING	Page ending with M0130.200	Page 9

If the client is eligible for benefits to be used exclusively for the payment of medical expenses (i.e. an insurance settlement), but there is no TPL code for that benefit, the worker must email the information to the DMAS TPL Unit at TPLUnit@dmass.virginia.gov, or send the information to:

DMAS Third Party Liability Section
600 East Broad Street, Suite 1300
Richmond, Virginia 23219

G. Health Insurance Premium Payment (HIPP) Program

The HIPP program is a cost-savings program for individuals enrolled in Medicaid which may reimburse some or all of the employee portion of the employer group health insurance premium. Eligibility for HIPP is determined by the HIPP Unit at DMAS. Participation in HIPP is voluntary.

The local DSS agency must give each applicant or enrollee who reports that he or someone in his family is employed more than 30 hours each week and is eligible for health insurance coverage under an employer's group health plan must be given a HIPP Fact Sheet, which provides a brief description of the program and the contact information for the HIPP Unit at DMAS. The HIPP Fact Sheet is available at <https://fusion.dss.virginia.gov/bp/BP-Home/Medical-Assistance/Forms>. Enrollees and other members of the public may contact the HIPP Unit for additional information at hippcustomerservice@dmass.virginia.gov.

If the health insurance policy holder lives outside of the home, a HIPP Consent Form must be completed by both the policy holder and the parent/authorized representative so the DMAS HIPP Unit can process the HIPP application. If the form is required, the DMAS HIPP Unit will send it to the applicant for completion.

H. Verification of Financial Eligibility Requirements

The eligibility worker must verify the following financial eligibility requirements:

- the value of all countable, non-excluded resources;
- asset transfer information for individuals in need of long-term care services, including the date of transfer, asset value, and compensation received.
- earned and unearned income. For all case actions effective *August 26, 2022*, if the income attested to by the applicant is within 20% of the income information obtained from electronic sources OR both sources are below the applicable income limit, no additional verification is required.

If the attested income is under the income limit and the reasonable compatibility standard is not met, request verification of income and allow a minimum of 10 days to return. If the applicant meets a Medically Needy (MN) covered group, verification of income **is required** to determine spenddown liability.

If the attested income is over the income limit and the individual does not meet a Medically Needy (MN) covered group, deny the application.

The agency must utilize online systems information verifications that are available to the agency without requiring verifications from the individual or family. The agency has ready access to Supplemental Nutrition Assistance Program (SNAP) and TANF records, some wage and payment information, and information from SSA through SVES or SOLQ-I. Verification of income

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date October 2022
Subchapter Subject M0130 APPLICATION PROCESSING	Page ending with M0130.200	Page 10

from these available sources, including the VEC, may be used if the information is less than 12 months old. The agency must include in each applicant's case record facts to support the agency's decision on the case.

1. Resources

The value of all countable, non-excluded resources must be verified. If an applicant's attested resources are over the resource limit, the applicant or authorized representative must be given the opportunity to provide verification of the resources. All available resource verification system(s) must be searched prior to requesting information from the applicant.

2. Use of Federal Income Tax Data

The Hub provides verification of income reported to the IRS. Income information reported to the IRS may be used for eligibility determinations for Families and Children (F&C), MAGI Adults, and ABD covered groups when IRS information is available. The income reported on the application is compared to the data obtained from the Hub for reasonable compatibility per M0420.100. When IRS verification is used for an ABD individual, reasonable compatibility is acceptable as verification of earned (i.e. taxable) income.

Note: Reasonable compatibility only applies to applications or reapplications; it does not apply to renewals.

3. SSA Data

Social Security and/or Supplemental Security Income must be verified through SSA. The Federal Hub links to SSA data. SOLQ-I may also be used. The State Data Exchange (SDX) system should only be used as an alternate method when the Hub or SOLQ-I is not available.

4. Income

For all case actions effective *August 26, 2022*, the applicant's attested income, including when the applicant attests to having zero (\$0.00) income, is considered the verified income if the income attested to by the applicant is within 20% of the income reported by electronic data sources OR both sources are below the applicable income limit.

If the attested income is under the income limit and the reasonable compatibility standard is not met, request verification of income and allow a minimum of 10 days to return. If the applicant meets a MN covered group, verification of income is **required** to determine spenddown liability based on actual income received.

For individuals requesting long-term services and supports (LTSS), verification of income is required to calculate the patient pay. See M1470.

If the attested income is over the income limit and the individual does not meet a Medically Needy (MN) covered group, deny the application.

If the individual agrees that the discovered countable income was received, determine if the on-line information can be used to evaluate current/ongoing eligibility. If the discovered information is not sufficient to evaluate eligibility, send a written request for needed verifications and allow at least ten calendar days for the return of the verifications.

If the individual reports the income has stopped, ask when the income stopped to ensure all income needed to correctly determine prospective and retroactive eligibility (if appropriate) is evaluated. Note the date of termination of income (last pay received) in the record. If the income stopped during a month that is being evaluated for eligibility, the individual must provide verification of the termination of income.

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date July 2019
Subchapter Subject M0130 APPLICATION PROCESSING	Page ending with M0130.300	Page 11

M0130.300 Eligibility Determination Process

A. Evaluation of Eligibility Requirements

When an MA application is received the worker must determine through a “file clearance” search of the eligibility and enrollment systems whether or not the individual already has Medicaid or FAMIS coverage.

With the exception of individuals enrolled on the basis of presumptive eligibility (PE), applications for MA submitted by individuals who already have an application recorded or who are currently active are denied as duplicate applications. *See M0130.400.D*

Applications submitted by individuals currently enrolled as HPE or as Newborn Children are not duplicate applications because they were initially enrolled without filing a full MA application. *See M0120.300 A.5* for more information.

The eligibility determination process consists of an evaluation of an individual’s situation that compares each of the individual’s circumstances to an established standard or definition. The applicant must be informed of all known factors that affect eligibility.

It is crucial that individuals reviewing a case, including auditors, be able to follow the eligibility determination process in VaCMS. Changes and any questionable information must be appropriately documented as comments in the VaCMS case record.

The evaluation of eligibility requirements must be documented in writing for cases not processed in VaCMS. The Evaluation of Eligibility (form #032-03-823) may be used. The form is available online at the DSS Fusion website.

Agency or CPU created evaluation forms are also acceptable as long as all information needed to determine eligibility is documented on the evaluation form.

Eligibility decisions are made following a prescribed sequence:

- The applicant must meet all non-financial requirements, including a covered group.
- If applicable to the covered group, resource limits must be met.
- The income limits appropriate to the covered group must be met.

Subchapter M0210 contains the Medicaid non-financial requirements.

B. Hierarchy of Covered Group

An applicant must be evaluated for eligibility in all potential covered groups and enrolled in the group that is the most beneficial to the applicant. First, evaluate under covered groups offering full coverage and if the applicant is not eligible, evaluate under groups offering limited coverage. Specific instructions regarding the determination of covered group are contained in chapter M03.

C. Applicant’s Choice of Covered Group

An individual who meets more than one covered group may choose the covered group under which he wishes his eligibility determined. Appropriate policy used is based on that individual's choice. If the choice is not clear on the application/redetermination form, the individual must state his covered group choice in writing. If the applicant does not make a choice, enroll him in the covered group that is the most beneficial.

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date April 2022
Subchapter Subject M0130 APPLICATION PROCESSING	Page ending with M0130.300	Page 12

D. Application Disposition

1. General Principle

Each application must be disposed of by a finding of eligibility or ineligibility as supported by the facts in the case record, unless the application is withdrawn or terminated (see M0130.400).

If an applicant dies during the application process, his eligibility can only be established for the period during which he was alive.

If an applicant (other than a Medicare beneficiary, HPE, or deceased individual) is ineligible for MA for any reason other than the inability to determine eligibility, a referral to the HIM must be made so that his eligibility for the APTC in conjunction with a Qualified Health Plan (QHP) can be determined. Individuals who have Medicare, who are incarcerated, who are enrolled as HPE, and deceased individuals and are not referred to the HIM.

2. Entitle- ment and Enrollment

a. Entitlement

Entitlement to medical assistance is based on the application month. However, entitlement cannot begin prior to an individual's date of birth, and cannot continue after an individual's date of death. See section M1510.100 for detailed entitlement policy and examples.

If an applicant indicates that he has been receiving MA (Medicaid or Children's Health Insurance Program) coverage in another state prior to moving to Virginia, instruct him to contact his eligibility worker there and request that his coverage be cancelled, if he has not already done so. He is no longer considered a resident of the other state once he has moved to and intends to reside in Virginia and is not entitled to receive services paid for by the other state's MA program. His enrollment may begin with the month of application or the earliest month in the application's retroactive period that he met the residency requirement per M0230.

b. Enrollment

MA enrollees must be enrolled in the MES, either through the system interface with the eligibility determination system or directly by the eligibility worker.

Note: The MES was implemented in April 2022. Prior to April 2022, the Medicaid Management Information System (MMIS) was used for enrollment and claims processing. References to MMIS in the Medical Assistance Eligibility Manual will be updated as other policy revisions are made.

When an individual who does not have Medicare is eligible for only limited MA benefits, such as Plan First, a referral to the HIM must be made so that his eligibility for the APTC in conjunction with a QHP can be determined.

3. Notification to Applicant

Either a Notice of Action generated by the eligibility determination system or the equivalent form #032-03-006 (available at the DSS Fusion website) must be used to notify the applicant of the specific action taken on the application. The notice must be sent to the authorized representative, if one has been designated.

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date January 2021
Subchapter Subject M0130 APPLICATION PROCESSING	Page ending with M0130.300	Page 13

a. Approvals

As applicable, the notice must state that:

- the application has been approved, including the effective date(s) of coverage and the date of the next annual renewal;
- retroactive Medicaid coverage was approved, including the effective dates.
- For approvals of limited coverage, the notice or a separate system-generated notice must state that the application has been referred to the HIM for determination of eligibility for the APTC.

b. Denials

As applicable, the notice must state that:

- the application has been denied, including the specific reason for denial cited from policy;
- retroactive Medicaid coverage was denied, including the specific reason for denial cited from policy.
- When the applicant (other than a Medicare beneficiary or deceased individual) is ineligible for MA for any reason other than the inability to determine eligibility, either the notice or a separate system-generated notice must state that the application has been referred to the HIM for determination of eligibility for the APTC.

c. Delays

The notice must state that there is a delay in processing the application, including the reason.

d. Other Actions

Other actions for which a notice must be sent include when a request for re-evaluation of an application in spenddown status has been completed.

e. Advance Health Care Directive

An Advance Health Care Directive insert is required to be included with an initial notice of eligibility. The insert (available at <https://fusion.dss.virginia.gov/bp/BP-Home/Medical-Assistance/Forms>), must be included with the initial approval or denial Notice of Action. This insert is not required when adding a person to an existing case, at redetermination, when a change is reported or when coverage is cancelled.

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date October 2021
Subchapter Subject M0130 APPLICATION PROCESSING	Page ending with M0130.400	Page 14

- E. Notification for Retroactive Entitlement Only** There are instances when an applicant is not eligible for ongoing eligibility but is eligible for retroactive benefits or a change in the applicant's situation during the application process results in the applicant being eligible for only a limited period of time. Only one notice is sent to the applicant covering both actions. Statements of the exact dates of eligibility, the date of ineligibility, and the reason(s) for ineligibility must be included on this notice.

M0130.400 Applications Denied Under Special Circumstances

- A. General Principle** When an application is withdrawn or the applicant cannot be located, the application is denied. The reason for the denial must be recorded in the case record, and a notice must be sent to the applicant's last known address.
- B. Withdrawal** An applicant may withdraw his application at any time. The request can be verbal or written. An applicant may voluntarily withdraw only his application for retroactive coverage by signing a statement or by a verbal statement specifically indicating the wish to withdraw the retroactive coverage part of the application.
- A written withdrawal request must be placed in the case record. A verbal request for withdrawal can be accepted only from the applicant or case head, or his authorized representative. A verbal request must be documented in the case record with the date and time the withdrawal request was received, the name of the person who made the withdrawal request, and the signature and title of the agency staff person who took the call.
- When the applicant withdraws an application, the eligibility worker must send a notice of action on MA to the applicant.
- C. Inability to Locate** The agency must send a letter to the last known address informing the applicant of the agency's attempt to locate him and asking that he contact the office. For applicants who are documented as homeless, maintain all correspondence at the local agency. If the applicant does not respond within 45 days of the date of application, deny the application.
- D. Duplicate Applications** The worker will review a duplicate application to verify there are no changes in circumstances, request(s) for coverage, or other actions that need to be acted on. Applications received requesting MA for individuals who already have an application recorded (i.e. pending) or who are currently active and receiving coverage will be denied due to duplication of request.

For duplicate applications submitted by individuals currently enrolled in coverage, the denial notice must include the member's coverage status, as appropriate:

- *the application has been approved for a new level or type of coverage; or*
- *the application has been denied for new services, but the member remains enrolled in their current level or type of coverage; or*
- *the requested coverage was denied and the member's existing coverage is being terminated.*

Subchapter Subject M0140 INCARCERATED INDIVIDUALS	Page ending with M0140.001	Page 1

M0140.000 Incarcerated Individuals General Information

A. Introduction

An incarcerated individual, or offender, is an inmate of a public institution. Inmates include those under the authority of the Virginia Department of Corrections (DOC), held in a regional or local jail, those on work release, and inmates of a Virginia Department of Juvenile Justice (DJJ) facility.

For juveniles not in a facility but within the authority of DJJ, see section M0280.300 D. See section M0280.301 regarding an individual who is not considered to be an inmate of a public institution.

An individual released from jail under a court probation order due to a medical emergency is NOT an inmate of a public institution because he is no longer incarcerated.

B. Policy Principles

An individual is not eligible for full benefit Medicaid coverage while incarcerated. These individuals may apply for medical assistance and (if approved) receive coverage limited to inpatient hospitalization services. Inpatient hospitalization may include long-term inpatient services, such as admission to a rehabilitation facility.

The offender must meet eligibility requirements for a full-benefit covered group. Medicaid non-financial eligibility requirements include

- Virginia residency requirements (see M0230)
- Citizenship or immigration status (see M0220)
- A Social Security Number (SSN) or proof of application for an SSN (see M0240)
- Institutional status requirement of being an inmate in a public institution (see M0280)

Medicaid financial eligibility requirements for the individuals covered group include

- Resources (if applicable) within resource limit (Chapter M06 for F&C; Chapter S11 for ABD)
- Income within income limit (Chapter M04 & M07 for F&C covered groups; Chapter S08 for ABD covered groups)

C. Covered Group

The individual is evaluated for eligibility in the covered group in which they would otherwise be eligible except for being incarcerated. The primary covered groups an offender may meet include:

- MAGI Adults (M0330.250)
- Pregnant Women (M0330.400)
- Child Under Age 19 (M0330.300)
- Aged, Blind or Disabled (M0320.300)
- Former Foster Care Child Under Age 26 Years (M0330.109)

D. Immigration Status Requirements

An incarcerated person must meet immigration requirements (see M0220). A non-citizen who meets all Medicaid eligibility requirements except for immigration status and has received an inpatient hospitalization may be evaluated for coverage as an Emergency Services Alien see M0140.200.C.3

eManual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date July 2019
Subchapter Subject M0140 APPLICATION PROCESSING	Page ending with M0140.200	Page 2

M0140.100 COMMUNICATION

A. Introduction Direct communication between an offender and staff at the Cover Virginia Incarcerated Unit (CVIU) or LDSS may be limited or prohibited depending on the facility. Staff employed by the facility or DOC may assist in coordinating the application process and communicating information to the offender, or to CVIU/LDSS.

B. Policy The facility may designate staff who are permitted to assist with applications.. Communication with facility staff is limited only to information related to the case or application. Access to case information by facility staff is terminated when the offender is released and/or no longer incarcerated.

Case assistance for offenders held by the DOC will be coordinated by the Department of Corrections, Medicaid Program Unit, 6900 Atmore Drive, Richmond, Virginia 23225.

Case assistance for offenders in regional and local jails is handled in coordination with the facility, their staff, and any authorized representative(s) (see M0110.110).

Send all notices and other correspondence to the mailing address or via secure email as indicated on the application. If the applicant has designated an authorized representative to act on his behalf and receive notices, send a copy of the correspondence and notices to the authorized representative.

M0140.200 APPLICATION GUIDELINES

A. Introduction Any application, renewal, or case review for an offender will be processed in the required time standards following applicable Medicaid eligibility policy (see M0130.100).

B. Policy Offenders may file their own applications. An authorized representative may assist in applying or renewing coverage. An offender may add or change an authorized representative at any time.

An authorized representative designation is valid for the life of the application (see M0110.110.E) unless a written statement indicates such designation will cease when incarceration ends.

See Broadcast in Fusion dated 3/8/2019 [Cover Virginia Incarcerated Unit \(CVIU\)](#) and 5/19/2019 [Updates to Cover Virginia Incarcerated Unit \(CVIU\) Procedures](#) (<https://fusion.dss.virginia.gov/broadcasts>) for instructions explaining how to send offender applications received by the local agency to Cover Virginia for processing.

If the offender is approved, the Commonwealth of Virginia (COV) Medicaid Card is suppressed (not mailed).

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date October 2022
Subchapter Subject M0140 INCARCERATED INDIVIDUALS	Page ending with M0140.200	Page 3

**C. Offender
Application
Processing**

An application is not to be refused or denied because an applicant is incarcerated. A person is not required to have had an inpatient hospitalization in order to apply for Medicaid. The agency must evaluate the eligibility of all MA enrollees, with respect to circumstances that may change, at least every 12 months unless the enrollee is pregnant (see M1520.200 p.9).

**1. New
Application**

An offender who does not have active Medicaid coverage may apply while incarcerated. Coverage is based on the month of application and can include up to three months of coverage (if requested) prior to the month of application, provided eligibility requirements are met.

Ongoing coverage in AC 108 or AC 109 is effective the first day of the month of application or the date when incarceration begins, whichever is later.

**2. Re-entry
Process**

A medical assistance application for an offender with no active Medicaid coverage and an anticipated release date within 45 days is handled as part of a “Re-Entry” process *and will follow the same procedure as a New Application (ref M0140.200.C.1).* *If the offender is approved the case will have a redetermination conducted for ongoing Medicaid coverage.* This is a new application and an eligibility determination for Medicaid coverage will be made based on the information as reported or known at the time of release from the facility.

If the person is approved but is unable to or does not provide a post-release address where he will reside (e.g. reports as homeless or moving to a temporary shelter) the case will be transferred to the LDSS of his pre-incarceration, if known. If there is no known address, or the individual lived outside of Virginia prior to incarceration and intends to remain in the state, transfer the case to the LDSS where the correctional facility is physically located.

If the application is approved the worker will confirm that a new Commonwealth of Virginia Medicaid Card has been generated and a copy of the Notice of Action sent to the anticipated post-release address.

**3. Emergency
Services**

A non-citizen who meets all Medicaid eligibility requirements except for immigration status, and has received an inpatient hospitalization, may qualify for coverage of emergency medical care. This care must have been provided in a hospital emergency room or as an inpatient in a hospital. Determine eligibility for emergency services using policy in M0220.400 and enroll eligible individuals using the procedures in M0220.600 D.

For cases processed at the Cover Virginia Incarcerated Unit (CVIU) the individual will be enrolled in the appropriate AC 112 or AC 113 and the case will be retained at the CVIU for ongoing case maintenance.

Emergency Services coverage in AC 112 or AC 113 is effective the first day of the month of application, the first day of the retroactive period, or the date when incarceration begins, whichever is earliest

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date July 2022
Subchapter Subject M0140 INCARCERATED INDIVIDUALS	Page ending with M0140.300	Page 4

M0140.300 CASE MAINTENANCE

A. Ongoing Case Maintenance

Case maintenance may include updates such as when the inmate is moved to another facility, change of an authorized representative, updates to demographics, or other changes affecting Medicaid eligibility or coverage.

Update to an offender's case are handled by the CVIU. Facilities will use a CVIU Communication Form to report changes. Local agencies will use the LDSS to Cover Virginia Communication Form #032-03-0458-00-eng to report changes.

B. Partial Reviews

If a change occurs it may be necessary to re-evaluate the offender's Medicaid coverage. This may include release from incarceration, change of anticipated release date, death, an inmate turning age 65 years old, becoming eligible for Medicare, or end of a pregnancy (see M0140.001 G).

The eligibility worker will handle such changes within 30 days and re-evaluate the offender for continued coverage.

For an offender case that involves a spenddown, see M1350.850.

C. Redetermination

An offender with ongoing approved Medicaid coverage is subject to an annual (every 12 months) redetermination of coverage. The CVIU processes redeterminations of incarcerated individuals (see M1520.200 A).

Do not initiate a renewal of eligibility of a pregnant woman during her pregnancy. Eligibility as a pregnant woman ends effective the last day of the *12th month following the month in which her pregnancy ends*. When eligibility as a pregnant woman ends, prior to the cancellation of her coverage, determine if the woman meets the definition for another Medicaid covered group (see M0310.002). If the woman meets the definition of a full-benefit covered group, determine if an ex parte renewal can be completed or if a renewal form is required and take appropriate action.

Follow Ex Parte Renewal procedure as found in M1520.200 B. 1 if applicable. If unable to process an Ex Parte renewal, see M1520.200 B. 2 and 3 for procedures.

D. Pre-Release Review

An offender with active Medicaid coverage and a reported release date of 45 days or less requires a "Pre-Release" partial review. Eligibility will be evaluated for ongoing Medicaid coverage and processed based on the information as reported or known at the time of release.

If the offender is approved and remains eligible for ongoing Medicaid coverage, the worker will cancel the existing aid category (AC108 or AC109) on the day prior to the actual release date and *enter* coverage in the new AC as of the date of release.

Manual Title Virginia Medical Assistance Eligibility	Chapter M01	Page Revision Date October 2022
Subchapter Subject M0140 INCARCERATED INDIVIDUALS	Page ending with M0140.300	Page 5

The worker will confirm a new Commonwealth of Virginia Medicaid Card has been generated and copy of the Notice of Action sent to the post-release address.

If eligibility for ongoing Medicaid is denied, cancel existing Medicaid coverage the day prior to actual date of release.

An offender with active Medicaid coverage (AC108/109) and released to the community before a Pre-Release Review can be conducted by the CVIU will transfer the offender's case to the locality for review. The CVIU will send a CPU to LDSS Communication Form to alert the locality for the need to review the member for ongoing Medicaid coverage and any other requested benefits.

1. Release to a Community Living Arrangement

An offender entering a household with existing benefits after incarceration may affect Medicaid eligibility for those in the household.

The CVIU will process Pre-Release Reviews if approved, the case will be assigned to the locality where the ex-offender plans to reside.

If the person is approved but cannot or will not provide an address where he will reside (e.g. reports as homeless or moving to a temporary shelter), the case will be transferred to the LDSS of his pre-incarceration, if known. If there is no known address or the individual lived outside of Virginia prior to incarceration and intends to remain in the state, transfer the case to the LDSS where the correctional facility is physically located.

2. Release to an Institutional Placement, LTSS, or HCBS

When an offender is being released and needs to be placed in an institution or receive home and community-based services (HCBS), the CVIU will collaborate with LDSS in the locality where the individual will be residing for processing the application to ensure the eligible individual can receive necessary medical support/services when released.

E. Split Cases

For case maintenance, an offender with active Medicaid coverage in aid category 108 or 109 should be placed in his own case in VaCMS and assigned to the CVIU. If the incarcerated individual is the case name and other household members with active coverage are on the case, the local agency will be responsible for removing any other member(s), setting up a new case, and transferring the offender's case to the CVIU.

M0210.000 GENERAL RULES & PROCEDURES

M0210.001 PRINCIPLES OF MEDICAID ELIGIBILITY DETERMINATION

A. Introduction

Medicaid is an assistance program which pays medical service providers for services rendered to eligible needy individuals. An individual's need for medical care, the state of his health, or his coverage by private health insurance, have no effect on his Medicaid eligibility.

The eligibility determination consists of an evaluation of an individual's situation which compares each of the individual's circumstances to an established standard or definition. The evaluation provides a structured decision-making process. An individual must be evaluated for eligibility in all covered groups for which he meets the definition, and the applicant/enrollee shall be informed of all known factors that affect eligibility.

B. Eligibility Requirements

Although all the requirements that follow may not be applicable in a particular individual's situation, they must be looked at and evaluated.

1. Nonfinancial Eligibility Requirements

The Medicaid nonfinancial eligibility requirements are:

- a. Legal presence in the U.S., effective January 1, 2006 (M0210.150).
- b. Citizenship/alien status (M0220).
- c. Virginia residency (M0230).
- d. Social Security number (SSN) provision/application requirements (M0240).
- e. Assignment of rights to medical benefits and pursuit of support from the absent parent requirements (M0250).
- f. Application for other benefits (M0270).
- g. Institutional status requirements (M0280).
- h. Covered group requirements (M03).

2. Financial Eligibility Requirements

The Medicaid financial eligibility requirements are:

- a. Asset transfer for individuals who need long-term care (subchapter M1450).
- b. Resources within resource limit appropriate to the individual's covered group. (Chapter M06 for F&C covered groups; Chapter S11 for ABD covered groups).
- c. Income within income limit appropriate to the individual's covered group. (Chapters *M04 and M07* for F&C covered groups; Chapter S08 for ABD covered groups).

Manual Title	Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date October 2013
Subchapter Subject M0210 NONFINANCIAL ELIGIBILITY REQUIREMENTS		Page ending with M0210.100	Page 2

3. Example

EXAMPLE: On January 5, 2006, Mr. H applies for Medicaid. He is in a nursing facility in Virginia, and has been there since July 5, 2005. When evaluating his application, the worker finds that he:

- is a U.S. citizen,
- is currently a Virginia resident residing in a medical institution in Virginia,
- provided his SSN,
- refused to provide third party liability and medical support information,
- has applied for all benefits to which he is entitled,
- meets the institutional status requirements,
- is age 67 years and meets a covered group requirement.

He currently has \$5,000 in the bank. His income is \$600 per month Social Security (SS). Since he refused to provide third party liability and medical support information, he does not meet the assignment of right requirements and his application must be denied. He is also informed of the resource limit and that he is ineligible for Medicaid because his resources exceed the limit.

M0210.100 INELIGIBLE PERSONS

A. Introduction

The individuals listed in this section are not eligible for Medicaid. However, their income and resources may be considered in determining the eligibility of others in the household who have applied for Medicaid.

B. Certain Recipients of General Relief (GR)

A recipient of General Relief (GR) maintenance who does not meet a Medicaid covered group is not eligible for Medicaid.

An applicant for Medicaid and Supplemental Security Income (SSI) who receives GR from the interim assistance component may become eligible for Medicaid following the establishment of SSI eligibility. Eligibility for an SSI payment is effective the month **following** the SSI application month. When the Medicaid application is dated in the same month as the SSI application, Medicaid eligibility can be effective the month of application if the applicant meets all Medicaid eligibility requirements and another covered group requirement in the application month.

C. Essential Spouse of an ABD Individual

An essential spouse of an aged, blind, or disabled person who does not himself/herself meet a covered group is not eligible for Medicaid.

D. Individual Who Refuses to Assign Rights

By signing the application for medical assistance, an applicant assigns his rights to third party payments. Should the individual for any reason subsequently refuse to assign rights to third-party payments or support for himself or anyone for whom he can legally assign rights, he is not eligible for Medicaid. Failure to assign rights for another person will not affect the eligibility of that other person.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date October 2013
Subchapter Subject M0210 NONFINANCIAL ELIGIBILITY REQUIREMENTS	Page ending with M0210.150	Page 3

- E. Individual Who Refuses to Pursue Support From an Absent Parent** *An individual applying for Medicaid for himself and on behalf of a child meets the requirement to cooperate with the pursuit of medical support from an absent parent for the child by signing the application. If DMAS requires the individual, other than a categorically needy pregnant woman, to take further action to cooperate with the pursuit of medical support, the individual must cooperate to continue to be eligible for Medicaid. If the individual refuses to cooperate in the pursuit of medical support, he is not eligible for Medicaid. Eligibility could exist if the individual meets a covered group and the individual chooses not to apply for the child.*
- F. Individual Found Guilty of Medicaid Fraud** *An individual found guilty by a court of Medicaid fraud is not eligible for Medicaid. Ineligibility will last for a period of 12 months beginning with the month of conviction.*
- G. Individual Who Refuses to Supply or Apply For an SSN** *Any individual, except a child under age 1 born to a Medicaid or FAMIS eligible mother, or an illegal alien, who does not apply for an SSN account number or who fails or refuses to furnish all SSNs to the Department of Social Services is not eligible for medical assistance coverage.*

M0210.150 LEGAL PRESENCE

- A. Legal Presence (Effective January 1, 2006)** *Effective January 1, 2006, Section 63.2-503.1 of the Code of Virginia requires most applicants for or recipients of public assistance who are age 19 or older to provide proof of citizenship or legal presence in the U.S. Applicants or recipients age 19 or older for whom medical assistance is requested must prove their citizenship or legal presence. Individuals who, on June 30, 1997, were Medicaid eligible and were residing in long-term care facilities or participating in home and community-based waivers, and who continue to maintain that status (eligible for Medicaid and reside in long-term care facilities or participate in home and community-based waivers) are **exempt** from this requirement. **Non-citizens applying for Medicaid payment for emergency services are not subject to the legal presence requirement.***
- An individual who is applying on behalf of another and is not requesting assistance for himself is not subject to the legal presence requirement.*
- B. Documents That Demonstrate Legal Presence** *An applicant may demonstrate legal presence by presenting one of the following documents:*
- valid evidence of U.S. citizenship;
 - valid evidence of legal permanent resident status;
 - valid evidence of conditional resident alien status;
 - a valid SSN verified by the Social Security Administration (SSA);
 - a U.S. non-immigrant visa;
 - a Resident Alien Card, form I-551, showing lawful permanent residence (green card);
 - a pending or approved application for legal asylum;

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	January 2021
Subchapter Subject	Page ending with	Page
M0210 NONFINANCIAL ELIGIBILITY REQUIREMENTS	M0210.200	4

- a refugee or temporary protected status document; or
- a pending application for an adjustment of residence status.

C. Failure to Provide Proof of Legal Presence

At the time of application, an applicant who cannot provide documentation that he is a citizen or legally present must sign an affidavit under oath attesting that he is a U.S. citizen or legally present in the United States in order to meet the requirement for proof of legal presence for either:

- a period of 90 days or until it is determined that he is not legally present in the U.S., whichever is earlier; or
- indefinitely if the applicant provides a copy of a completed application for a birth certificate within the United States or its territories that has been filed and is pending. The affidavit's validity shall terminate upon the applicant's receipt of a birth certificate or determination that a birth certificate does not exist because the applicant is not a citizen of the United States.

The Affidavit Of United States Citizenship Or Legal Presence In The United States is available at

<https://fusion.dss.virginia.gov/bp/BP-Home/Medical-Assistance/Forms>.

NOTE: The individual's address on the affidavit form must be the individual's **residence** address, not the mailing address.

D. Relationship to Other Medicaid Requirements

Providing proof of legal presence or submitting a signed affidavit meets the legal presence eligibility requirement. To be eligible for Medicaid, however, the individual must meet all other state and federal Medicaid eligibility requirements. Submission of the affidavit without proof of application for an SSN as required by M0130.200.D does **NOT** meet the SSN requirement.

M0210.200 COVERED GROUPS

A. Introduction

An individual who meets the nonfinancial eligibility requirements must also meet the definition for a Medicaid covered group. Covered groups include individuals who are age 65 or older, blind, disabled, under age 19, pregnant women, and the parent(s) or caretaker-relative of a dependent child. Medicaid financial eligibility requirements vary depending upon the covered group for which eligibility is being determined.

See chapter M03 for the covered groups' definitions, policy and procedures.

M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS

M0220.001 GENERAL PRINCIPLES

A. Introduction

This subchapter explains in detail how to determine if an individual is a citizen or alien eligible for full Medicaid benefits (referred to as “full benefit aliens”) or emergency services only (referred to as “emergency services aliens”). The federal Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (PRWORA) made major changes to the Medicaid eligibility of non-citizens of the United States. These changes eliminated the “permanently residing under color of law” (PRUCOL) category of aliens. The Medicaid benefits for which an alien is eligible are based upon whether or not the alien is a “qualified” alien as well as the alien’s date of entry into the United States.

With some exceptions, the Deficit Reduction Act of 2005 (DRA) required applicants for Medicaid and Medicaid recipients to verify their United States citizenship and identity to be able to qualify for Medicaid benefits. The citizenship and identity (C&I) verification requirements became effective July 1, 2006. The Children’s Health Insurance Program Reauthorization Act of 2009 (CHIPRA) allows additional exemptions from the C&I verification requirements and provides states with the option to verify C&I through the use of an electronic data match with the Social Security Administration (SSA). It also requires states to enroll otherwise eligible individuals prior to providing C&I verification *or immigration status*, and grant them a “reasonable opportunity” period after enrollment to provide documentation, if necessary.

The policy and procedures for determining whether an individual is a citizen or a “full-benefit” or “emergency services” alien are contained in the following sections:

M0220.100 Citizenship & Naturalization;
M0220.200 Alien Immigration Status
M0220.300 Full Benefit Aliens
M0220.400 Emergency Services Aliens
M0220.500 Aliens Eligibility Requirements
M0220.600 Aliens Entitlement & Enrollment
M0220, *Appendix 9* Emergency Services Aliens Entitlement & Enrollment

B. Declaration of Citizenship/Alien Status

The Immigration Reform and Control Act (IRCA) requires as a condition of eligibility that the adult applicant who is head of the household (with exceptions below) declare in writing under penalty of perjury whether or not the individual(s) for whom he is applying is a citizen or national of the United States, and if not, that the individual is a lawfully admitted alien. For children under 18 years of age, the declaration is made by an adult family member. The declaration statement is on the application form.

EXCEPTION: An individual who is an “unqualified” alien (as defined in section M0220.410) does NOT complete the declaration.

Individuals who are required to sign the declaration and who fail or refuse to sign are NOT eligible for any Medicaid services.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	October 2013
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.100	2

M0220.100 CITIZENSHIP AND NATURALIZATION

A. Introduction

A citizen or naturalized citizen of the United States meets the citizenship requirement for medical assistance (*MA*) eligibility, and is eligible for all *MA* services if he meets all other eligibility requirements.

B. Citizenship Determination

1. Individual Born in the United States

An individual born in the United States, any of its territories (Guam, Puerto Rico, United States Virgin Islands, or Northern Mariana Islands), American Samoa, or Swain's Island is a United States citizen.

A child born in the United States to non-citizen parents who are in the United States as employees of a foreign country's government may not meet the United States citizen requirement. When a child born in the United States to non-citizen parents is a United States citizen by birth, the child may not meet the Virginia residency requirements in M0230.201 because of the parents' temporary stay in the United States.

2. Individual Born Outside the U.S.

a. Individual Born to or Adopted by U.S. Citizen Parents

A child or individual born outside the United States to U.S. citizen parents (the mother, if the child was born out-of-wedlock) automatically becomes a citizen by birth. A child under age 18 years who is a lawful permanent resident, who is currently residing permanently in the U.S. in the legal and physical custody of a U.S. citizen parent, and who meets the requirements applicable to adopted children under immigration law automatically becomes a citizen when there is a final adoption of the child, and does not have to apply for citizenship.

b. Individual Born to Naturalized Parents

A child born outside the United States to alien parents automatically becomes a citizen after birth, if his parents (the mother, if the child was born out-of-wedlock) are naturalized before he becomes 16 years of age.

c. Naturalized Individual

A child or individual born outside the U.S. and not automatically a citizen as in a) or b) above must have been naturalized to be considered a citizen.

C. Verification

1. Requirements

The DRA requires that satisfactory documentation of citizenship and identity must be obtained for all enrollees who claim to be U.S. citizens. Enrollees who claim U.S. citizenship must have a declaration of citizenship AND documentary evidence of citizenship and identity in their case records.

2. Exceptions to Verification Requirements

The following groups of individuals are NOT required to provide verification of C&I. Document in the case record why an individual is exempt from verifying C&I:

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	October 2019
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.100	3

- a. All foster care children and IV-E Adoption Assistance children;
- b. Individuals born to mothers who were eligible for MA in any state on the date of the individuals' birth;
- c. Individuals entitled to or enrolled in Medicare, individuals receiving Social Security benefits on the basis of a disability and SSI recipients currently entitled to SSI payments. Former SSI recipients are not included in the exemption. The local department of social services (LDSS) must have verification from the Social Security Administration (such as a SVES response) of an individual's Medicare enrollment, benefits entitlement or current SSI recipient status.

When an individual loses an exception status and his C&I has not previously been verified, the individual must be given a reasonable opportunity to provide C&I.

NOTE: A parent or caretaker who is applying for a child, but who is NOT applying for MA for himself, is NOT required to verify his or her C&I.

3. Verification Required One Time

Once verification of C&I has been provided, it is not necessary to obtain verification again. Documentary evidence may be accepted without requiring the individual to appear in person. C&I documentation must be stored in the case record.

4. Enroll Under Good Faith Effort

If an individual meets all other eligibility requirements and declares that he is a citizen, he is to be enrolled under a good faith effort. **Do not request verification of C&I from the applicant, and do not delay or deny application processing for proof of C&I.**

If the applicant meets all other eligibility requirements:

- Approve the application and enroll the applicant in MA, AND
- Specify on the Notice that the individual may have to provide documentation of C&I if it cannot be obtained by other means, OR
- Include the Reasonable Opportunity Insert, available at [https://fusion.dss.virginia.gov/Portals/\[bp\]/Files/Medical%20Assistance%20Guidance/medicaid_reasonable_opportunity_insertrev_03-09-10.pdf?ver=2019-06-04-151050-230](https://fusion.dss.virginia.gov/Portals/[bp]/Files/Medical%20Assistance%20Guidance/medicaid_reasonable_opportunity_insertrev_03-09-10.pdf?ver=2019-06-04-151050-230) with the Notice.

The individual remains eligible for MA while the agency attempts to verify C&I through the data matching process described in M0220.100 D below, or if necessary, requests verification from the individual. The same good faith effort requirements apply should an individual lose his exemption from providing C&I verification.

D. Procedures for Documenting C&I

CHIPRA allows the option for verification of C&I for individuals newly enrolled in Medicaid or Family Access to Medical Insurance Security Plan (FAMIS) using a data match with SSA to confirm the consistency of a declaration of citizenship with SSA records in lieu of presentation of original documentation. This option, implemented in March 2010, allows for a monthly exchange of data between the Medicaid Management Information System

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	June 2016
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.100	4

(MMIS) and SSA for the documentation of C&I for individuals enrolled in the Medicaid and FAMIS programs. In order for this process to be used to verify citizenship and identity, the individual's SSN must be verified by SSA (see M0240).

For eligibility determinations processed through VaCMS, the Social Security data match takes place when the individual's information is sent through the Hub. For cases not processed in VaCMS, the SSA data match will take place after the individual has been enrolled in MMIS.

1. MMIS Data Matches SSA

If the information in the MMIS matches the information contained in the SSA files, the MMIS will be updated to reflect the verification of C&I. No further action is needed on the part of the eligibility worker, and the enrollee will not be required to provide any additional documentation, if the SSA match code in MMIS shows that SSA verified the individual's C&I.

2. MMIS Data Does Not Match SSA

If the information in the MMIS does not match the information in the SSA files, a discrepancy report will be generated monthly listing the inconsistent information. Eligibility staff is expected to review the report to see if the report lists any enrollees who were rejected because SSA could not verify the enrollee's citizenship and identity.

a. SSA Cannot Verify C&I

If the SSA data match result does not verify the individual's C&I, eligibility workers must review the information in the system to determine if a typographical or other clerical error occurred. If it is determined that the discrepancy was the result of an error, steps must be taken to correct the information in the system so that SSA can verify C&I when a new data match with SSA occurs in the future.

If the inconsistency is not the result of a typographical or other clerical error, the individual must be given a reasonable opportunity period of 90 days to either resolve the issue with SSA or provide verification of C&I. The eligibility worker must send a written notification to the enrollee that informs the enrollee of the discrepancy and gives him 90 calendar days from the date of the notice to either resolve the discrepancy with the SSA and to provide written verification of the correction, OR provide acceptable documentation of C&I to the LDSS.

The notice must specify the date of the 90th day, and must state that, if the requested information is not provided by the 90th day, the individual's Medicaid coverage will be canceled. Include with the notice the "Birth Certificates and Proof of Citizenship for Medicaid" Fact Sheet available on at <https://fusion.dss.virginia.gov/bp/BP-Home/Medical-Assistance/References>. Acceptable forms of documentation for C&I are also included in Appendix 1 to this subchapter.

b. Individual Does Not Provide Verification in 90 Days

If the individual does not provide the information necessary to meet the C&I documentation requirements by the 90th day, his coverage must be canceled. Send an advance notice, and cancel coverage at the end of the month in which the 90th day occurs.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	July 2022
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.200	4a

c. Discrepancy Resolved With SSA Within 90 Days

If written verification is received that corrects the SSA discrepancy within the 90 days, update the system accordingly so that the enrollee's information will be included in a future data match for C&I verification. The individual continues to remain enrolled pending the results of the subsequent data match.

If this subsequent data match with SSA results in verified C&I, MMIS will automatically enter code "CV" in the Cit Lvl and Identity fields in the individual's MMIS record. No further match will be done with the SSA files for C&I verification.

d. Verification of C&I Provided Within 90 Days

If the individual provides acceptable verification of his C&I within the 90 days, update the appropriate demographic fields in MMIS (and ADAPT, if the case is in ADAPT) with the appropriate codes. No further match will be done with the SSA files for C&I verification.

3. Subsequent Applications

If the individual who lost coverage for failure to provide C&I documentation files a subsequent application, a new reasonable opportunity period is not granted. The individual must provide acceptable documentation of C&I prior to approval of the re-application.

M0220.200 ALIEN IMMIGRATION STATUS

A. Introduction

An alien's immigration status is used to determine whether the alien meets the definition of a "full benefit" alien. All aliens who meet the state residency, covered group and all other nonfinancial eligibility requirements (except SSN for illegal aliens), and who meet all financial eligibility requirements are eligible for Medicaid coverage of emergency services. "Full benefit" aliens may be eligible for all Medicaid covered services. "Emergency services" aliens may be eligible for emergency services only.

B. Procedure

An alien's immigration status must be verified. Use the procedures in sections M0220.201 and 202 below to verify immigration status. After the alien's immigration status is verified, use the policy and procedures in section M0220.300 to determine if the alien is a full benefit alien. If the alien is a full benefit alien and is eligible for Medicaid, use the policy and procedures in section M0220.600 to enroll the alien in Medicaid.

If the alien is an emergency services alien who is eligible for Medicaid, use the policy and procedures in section *M0220.600 D* to enroll an eligible emergency services alien in Medicaid for emergency services only.

C. Changes in Immigration Status

If a "full benefit" alien who was admitted to the U.S with immigration status in one of the "seven-year" alien groups listed in M0220.313.A becomes a Lawful Permanent Resident, he is considered to have full benefit status for the purposes of Medicaid eligibility for the first seven years of residency in the U.S.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	July 2022
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.201	4b

M0220.201 IMMIGRATION STATUS VERIFICATION

A. Verification Procedures

An alien's immigration status is verified by the official document issued by the United States Citizenship and Immigration Services (USCIS) and a comparison with the Systematic Alien Verification for Entitlements (SAVE) system. SAVE interfaces with the Federal Hub for applications processed in VaCMS. The EW does not need to obtain the alien status document when immigration status is verified through the Hub. If immigration status cannot be verified through the Hub, the EW must see the original document or a photocopy; submission of just an alien number is NOT sufficient verification.

If the alien has an alien number but no USCIS document, or has no alien number and no USCIS document, use the **secondary verification** SAVE procedure in M0220.202 below if the alien provides verification of his or her identity.

If the agency cannot promptly verify immigration status of an individual in the Hub/SAVE, the agency must provide a 90-calendar-day reasonable opportunity period for the individual's immigration status to be verified and may not delay, deny, reduce or terminate benefits for an individual whom the agency determines to be otherwise eligible for Medicaid during such reasonable the opportunity period.

If the individual does not provide the information necessary to meet the documentation requirements by the 90th day, their coverage must be canceled. Send an advance notice, and cancel coverage at the end of the month in which the 90th day occurs.

NOTE: If the alien claims to be an illegal alien, do not use the verification procedures in this section or the SAVE procedures. Go to section M0220.400 below to determine the illegal alien's eligibility.

B. Documents That Verify Status

Appendix 7 to this subchapter contains a list of typical immigration documents used by lawfully present aliens.

Verify lawful permanent resident status by a Resident Alien Card or Permanent Resident Card (Form I-551), or for recent arrivals a temporary I-551 stamp in a foreign passport or on Form I-94.

Verify lawful admission by a Resident Alien Card (issued from August 1989 until December 1997) or Permanent Resident Card (Form I-551); a Re-entry Permit; or a Form I-688B with a provision of law section 274A.12(A)(1). Afghan and Iraqi immigrants admitted to the U.S. under a Special Immigrant Visa will have either (1) a Form I-551 or (2) a passport or I-94 form indicating categories SI1, SI2, SI3, SQ1, SQ2, or SQ3 and bearing the Department of Homeland Security stamp or notation.

Form I-151 (Alien Registration Receipt Card – the old aka “green card”), Form AR-3 and AR-3a are earlier versions of the Resident Alien Card (Form I-551). An alien with one of the older cards who does not have an I-551 should be referred to USCIS to obtain the application forms for the I-551. The forms may be ordered by calling 1-800-375-5283. When an I-151 is presented, refer the alien to USCIS, but accept the document for further verification (see M0220.201.E below).

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	July 2022
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.202	5

C. Letters that Verify Status

The USCIS and the Office of Refugee Resettlement (ORR) issue letters that are used in lieu of or in conjunction with USCIS forms to identify alien status. If the letter is the only document provided, it is necessary to verify the status of the alien. For USCIS letters, contact the USCIS at 1-800-375-5283 for assistance in identifying the alien's status. For ORR letters, contact the toll-free ORR Trafficking Verification Line at 866-401-5510 (see Appendix 2 of this subchapter). Do not verify ORR letters via the SAVE system.

D. Local USCIS Office Documents

Some USCIS offices have developed their own stamps. Therefore, it is possible that a locally produced stamp or legend will be on an USCIS form. If there is any question as to the veracity or status of the document, contact USCIS.

E. Expired or Absent Documentation

If an applicant presents an expired USCIS document or is unable to present any document showing his immigration status, refer the individual to the USCIS district office to obtain evidence of status **unless** he provides an alien registration number. *Allow the individual a 90-calendar-day reasonable opportunity period to provide the documentation.*

*If the individual meets all other Medicaid eligibility requirements, do not delay, deny, reduce or terminate the individual's eligibility for Medicaid **on the basis of alien status**. If the individual does not provide the information necessary to meet the documentation requirements by the 90th day, their coverage must be canceled. Send an advance notice, and cancel coverage at the end of the month in which the 90th day occurs.*

If the applicant provides an alien registration number with supporting verification of his identity, use the SAVE procedures in M0220.202 below to verify immigration status.

If an applicant presents an expired I-551 or I-151, follow procedures for initiating a primary verification. If the alien presents any expired document other than an expired I-551 or I-151, follow procedures for initiating a secondary verification.

If the alien does not provide verification of his identity, his immigration status cannot be determined, and he must be considered an unqualified alien.

M0220.202 SYSTEMATIC ALIEN VERIFICATION FOR ENTITLEMENTS (SAVE)

A. SAVE

Aliens must submit documentation of immigration status before eligibility for the full package of Medicaid benefits can be determined. SAVE interfaces with the Federal Hub for applications processed in VaCMS. The following procedures are applicable when immigration status cannot fully be verified by the Hub.

If the documentation provided appears valid and meets requirements, eligibility is determined based on the documentation provided AND a comparison of the documentation provided with immigration records maintained by the USCIS. The comparison is made by using the SAVE system established by Section 121 of the Immigration Reform and Control Act of 1986 (IRCA).

1. Primary Verification

Primary verification is the automated method of accessing the USCIS data bank. SAVE regulations require that automated access be attempted prior to initiating secondary verification. There are some specific instances, however, when the agency will forego the primary verification method and initiate secondary verification (see **Secondary Verification**).

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	March 2011
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.202	6

SAVE is accessed by the Alien Registration Number. SAVE is accessed directly by the local agency. The alien registration number begins with an "A" and should be displayed on the alien's USCIS document(s).

Information obtained through SAVE should be compared with the original USCIS document. If discrepancies are noted, the secondary verification process must be initiated. No negative action may be taken on the basis of the automated verification only.

A primary verification document must be **initiated prior to case approval**. The primary verification document must be filed in the case record.

2. Secondary Verification

Secondary verification is required in the following situations:

- a. The alien has an alien number but no USCIS document, or the alien has no alien number and no USCIS document.
- b. Primary verification generates the message "Institute Secondary Verification" or "No File Found."
- c. Discrepancies are revealed when comparing primary verification to the original immigration document.
- d. Immigration documents have no Alien Registration Number (A-Number).
- e. Documents contain an A-Number in the A60 000 000 or A80 000 000 series.
- f. The document presented is an USCIS Fee Receipt.
- g. The document presented is Form I-181 or I-94 in a foreign passport that is endorsed "Processed for I-551, Temporary Evidence of Lawful Permanent Residence," and the I-181 or I-94 is more than one year old.

When secondary verification is required, the agency must complete the top portion of a Document Verification Request (Form G-845) or initiate an on-line request for a secondary verification through SAVE. The G-845 is *available at* <http://www.uscis.gov>. Click on "Forms."

B. Document Verification Request (Form G-845)

If the alien has filed an USCIS application for or received a change in status, the application for or change in status in itself is not sufficient basis for determining immigration status. Likewise, any document which raises a question of whether USCIS contemplates enforcing departure is not sufficient basis for determining the alien's status. In such situations, verify the alien's status with USCIS using the Document Verification Request (Form G-845). For an alien who entered the U.S. before 8-22-96 and whose status is adjusted to a qualified status after he entered the U.S. use the Form G-845 Supplement to request the period of continuous presence in the U.S. The G-845 Supplement (S) is *available at* <http://www.uscis.gov>. Click on "Forms."

Form G-845 should be completed as fully as possible by the submitting agency. It is essential that the form contain enough information to identify the alien.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	July 2022
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.202	6a

A separate form must be completed for each alien. Completely legible copies (front and back) of the alien immigration documents must be stapled to the upper left corner of Form G-845. Copies of other documents used to make the initial alien status determination such as marriage records or court documents must also be attached.

Once the requirement to obtain secondary verification is determined, the agency must initiate the request within ten work days. The USCIS mailing address is subject to frequent changes. Obtain the current mailing address from the SAVE web site at <http://www.uscis.gov>. Click on “Direct Filing Addresses for Form G-845.”

A photocopy of the completed G-845 form must be filed in the record as evidence that the form has been forwarded to USCIS.

The USCIS maintains a record of arrivals and departures from the United States for most legal entrants, and LDSS can obtain the required information from their USCIS office. The USCIS does not maintain an arrival and departure record for Canadian and Mexican border crossers. For these immigrants, as well as immigrants whose status was adjusted and whose original date of entry cannot be verified by USCIS, LDSS will need to verify continuance presence by requiring the immigrant to provide documentation showing proof of continuous presence.

Acceptable documentation includes:

- letter from employer
- school or medical records
- series of pay stubs
- shelter expense receipts, such as utility bills

in the immigrant’s name that verify continuous presence for the period of time in question.

C. Agency Action

When the primary verification response requires the eligibility worker to initiate a secondary verification from USCIS, do not delay, deny, reduce or terminate the individual’s eligibility for Medicaid **on the basis of alien status**. If the applicant meets all other Medicaid eligibility requirements, approve the application and enroll the applicant in Medicaid. *Allow 90 calendar days for the secondary verification to be received. If the secondary verification or the individual do not provide the information necessary to meet the documentation requirements by the 90th day, coverage must be canceled. Send an advance notice, and cancel coverage at the end of the month in which the 90th day occurs*

Upon receipt of the G-845 or response to the on-line query, compare the information with the case record. Timely notice must be given to the individual when Medicaid benefits are denied or reduced.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	July 2022
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.202	6b

Note: When a secondary verification is requested for an alien with an expired I-551, the G-845 or response to the on-line SAVE query should indicate that the person continues to have lawful permanent resident status. When a secondary verification is requested for an alien with an expired I-151, the G-845 or response to the on-line SAVE query will indicate that the documentation is expired; however, do not delay, deny, reduce or terminate an individual's eligibility for Medicaid on the basis of an expired I-151.

Once information has been obtained through SAVE, aliens with a permanent status are no longer subject to the SAVE process. Aliens with a temporary or conditional status are subject to SAVE at the time of application and when the temporary or conditional status expires.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	January 2022
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.300	7

M0220.300 FULL BENEFIT ALIENS

A. Policy

A “full benefit” alien is

- an alien who receives SSI (M0220.305);
- an American Indian born in Canada to whom the provisions of section 289 of the Immigration and Nationality Act (INA) apply, or a member of an Indian tribe (as defined in section 4(e) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b(e)) (M0220.306);
- a “qualified” alien (defined in M0220.310 below) who entered the U.S. before 8-22-96;
- a qualified alien refugee; asylee; deportee; Amerasian; Cuban or Haitian entrant; victim of a severe form of trafficking; or a qualified Afghan or Iraqi immigrant admitted to the U.S. on a Special Immigrant Visa *or an Afghan special immigrant who meets the criteria in M0220, Appendix 4*; who entered the U.S. on or after 8-22-96, but only for the first 7 years of residence in the U.S. (M0220.313.C) *unless the criteria in M0220 Appendix 4 are applicable*.
- effective 12-27-20, *a qualified alien who is a Compact of Free Association (COFA) migrant (also referred to as compact citizens). COFA is a compact between the United States and the three Pacific Island sovereign states of Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau—known as the Freely Associated States.*
- before 4-1-21, a qualified LPR who entered the U.S. on or after 8-22-96 who has at least 40 qualifying quarters of work, but only **AFTER** 5 years of residence in the U.S. (M0220.313 B). Effective 4-1-21, a qualified LPR who entered the U.S. on or after 8-22-96 and who has resided in the U.S. for at least five years is no longer required to have any qualifying quarters of work to receive full Medicaid benefits;
- *the following qualified aliens, but only AFTER 5 years of residence in the U.S.:*
 - *a parolee under section 212(d)(5) of the Immigration and Nationality Act for a period of at least 1 year;*
 - *an alien who is granted conditional entry pursuant to section 203(a)(7) of the Immigration and Nationality Act as in effect prior to April 1, 1980;*
 - *an alien, and/or an alien parent of battered children and/or an alien child of a battered parent who is battered or subjected to extreme cruelty while in the U.S.*
- a qualified alien who meets the veteran or active duty military requirements in M0220.311 below; or
- a lawfully residing non-citizen child under age 19 or pregnant woman who meets the requirements in M0220.314 below.

A full benefit alien is eligible for full Medicaid benefits if he/she meets all other Medicaid eligibility requirements.

Aliens who are not “full benefit” aliens are “emergency services” aliens and may be eligible for emergency Medicaid services only if they meet all other Medicaid eligibility requirements. See section M0220.400 for emergency services aliens.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	July 2022
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.305	8

B. Procedure

- 1. Step 1**

First, determine if the alien receives SSI. Section M0220.305 describes this group of aliens who receive SSI.

If the alien does NOT receive SSI, go to Step 2.

If the alien receives SSI, go to Step 6.
- 2. Step 2**

Second, determine if the alien is an American Indian born in Canada or a member of an Indian tribe as defined in section 4(e) of the Indian Self- Determination and Education Assistance Act (25 U.S.C. 450b(e)). Section M0220.306 describes this group of aliens.

If NO, go to Step 3. If YES, go to Step 6.
- 3. Step 3**

Third, determine if the alien is a “qualified” alien eligible for full benefits (a full benefit qualified alien).

 - Section M0220.310 defines “qualified” aliens.
 - Section M0220.311 defines qualified veteran or active duty military aliens.
 - Section M0220.312 describes qualified aliens who entered the U.S. before 8-22-96.
 - Section M0220.313 describes qualified aliens who entered the U.S. on or after 8-22-96.

If the alien is NOT a qualified alien eligible for full benefits, go to step 4.

If the alien is a qualified alien eligible for full benefits, go to step 6.
- 4. Step 4**

Fourth, determine if the alien is a lawfully residing non-citizen child under age 19 or pregnant woman. See section M0220.314.

If the alien is NOT a lawfully residing non-citizen under age 19 or pregnant woman, go to Step 5.

If the alien is a lawfully residing non-citizen child under age 19 or pregnant woman, go to Step 6.
- 5. Step 5**

The alien is an “**emergency services**” alien. Go to Section M0220.400 which defines emergency services aliens, then to M0220.500 which contains the eligibility requirements applicable to all aliens, then to *M0220.600 D*, which contains the entitlement and enrollment policy and procedures for emergency services aliens.
- 6. Step 6**

Use Section M0220.500, which contains the Medicaid eligibility requirements applicable to all aliens, to determine the alien’s Medicaid eligibility. Then use Section M0220.600, which contains the entitlement and enrollment procedures for **full benefit** aliens, to enroll an eligible full benefit alien.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date April 2021
Subchapter Subject M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	Page ending with M0220.305	Page 8a

M0220.305 ALIENS RECEIVING SSI

A. Policy

An SSI recipient meets the Medicaid full benefit alien status requirements. Some SSI recipients who are aliens would have lost SSI and Medicaid eligibility. The Balanced Budget Act of 1997 restored SSI eligibility for certain groups of aliens:

- a legal alien who was receiving SSI on August 22, 1996, may continue to receive SSI if he/she meets all other SSI eligibility requirements.
- an alien who was blind or disabled on August 22, 1996, and who is residing legally in the U.S. may receive SSI in the future if he/she meets all other SSI eligibility requirements.
- a legal alien who is receiving SSI for months after July 1996 on the basis of an SSI application filed before January 1, 1979, is exempted from the SSI legal alien requirements, and is eligible for SSI if he/she meets all other SSI eligibility requirements.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	September 2010
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.310	9

B. *SSI Extension for Elderly and Disabled Refugees Act*

The SSI Extension for Elderly and Disabled Refugees Act (P.L. 110-328), enacted on September 30, 2008, allows elderly or disabled aliens subject to the seven-year time limit for receiving SSI to receive up to two additional years of SSI benefits. Although the Social Security Administration makes the determination of eligibility for the SSI extension, the categories of seven-year aliens to which the SSI extension may apply are listed in M0220.313 A.1 through A.4.

Individuals receiving SSI benefits on the basis of the SSI extension also meet the alien status requirement for full-benefit Medicaid eligibility.

C. Procedure

Verify the alien's SSI current payment status on the SDX or through SVES. If the alien currently receives SSI, and/or received SSI during the period for which Medicaid coverage is requested, the alien meets the alien status requirements for Medicaid with no further development.

Determine the alien SSI recipient's Medicaid eligibility using the policy and procedures for full benefit aliens in section M0220.600 below.

M0220.306 CERTAIN AMERICAN INDIANS

A. Policy

An alien who is

- an American Indian born in Canada to whom the provisions of section 289 of the Immigration and Nationality Act (INA) apply, or
- a member of an Indian tribe (as defined in section 4(e) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b(e)),

meets the Medicaid full benefit alien status requirements.

B. Procedure

Verify the status of an American Indian born in Canada from *USCIS* documents that the individual presents, or via the SAVE system.

Verify the status of a member of an Indian tribe as defined in section 4(e) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b(e)) from official documents that the individual presents.

M0220.310 QUALIFIED ALIENS DEFINED

A. Qualified Aliens Defined

A qualified alien is an alien who, at the time he applies for, receives or attempts to receive Medicaid is:

1. Lawful Permanent Resident

an alien who is lawfully admitted for permanent residence under the Immigration and Nationality Act.

2. Refugee

an alien who is admitted to the U.S. under the Immigration and Nationality Act as a **refugee under section 207 of the INA**, or an alien

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	July 2008
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.310	10

who is admitted to the U.S. as **an Amerasian immigrant** pursuant to section 584 of the Foreign Operations, Export Financing, and Related Programs Appropriations Act 1988 (as contained in section 101(e) of Public Law 100-202 and amended by the 9th proviso under MIGRATION AND REFUGEE ASSISTANCE in title II of the Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1989, Public Law 100-461, as amended).

The refugee will have a Form I-94 identifying him/her as a refugee under section 207 of the INA. The Amerasian immigrant will have an I-94 coded AM1, AM2, or AM3, or an I-551 coded AM6, AM7, or AM8.

3. **Conditional Entrant**

an alien who is granted conditional entry pursuant to section 203(a)(7) of the Immigration and Nationality Act as in effect prior to April 1, 1980.

Aliens admitted to the United States as conditional entrants pursuant to 203(a)(7) of the Immigration and Nationality Act (INA) (8 USC 1153(a)(7)) have an *USCIS* Form I-94 bearing the stamped legend "Refugee - Conditional Entry" and a citation of the INA section.

NOTE: Section 203(a)(7) of the INA was made obsolete by the Refugee Act of 1980 (P.L.96-212) and replaced by section 207 of the INA effective April 1, 1980.

4. **Asylee**

an alien who is granted asylum under section 208 of the Immigration and Nationality Act. Aliens granted asylum will have a Form I-94 and a letter.

5. **Parolee**

an alien who is paroled into the U.S. under section 212(d)(5) of the Immigration and Nationality Act for a period of at least 1 year. Aliens in this group will have a Form I-94 indicating that the bearer has been paroled pursuant to section 212(d)(5) of the INA.

6. **Deportee-- Deportation Withheld**

an alien whose deportation is being withheld under section 243(h) of the INA (as in effect immediately before the effective date of section 307 of division C of Public Law 104-208) or section 241(b)(3) of the INA (as amended by section 305(a) of division C of Public Law 104-208). These aliens will have an order from an immigration judge showing that deportation has been withheld under section 243(h) or section 241(b)(3) of the INA and/or a Form I-94.

7. **Cuban or Haitian Entrant**

an alien who is a Cuban and Haitian entrant as defined in section 501(e) of the Refugee Education Assistance Act of 1980. A Cuban or Haitian Entrant is a person from Cuba or Haiti who

- has been granted parole by *USCIS* for humanitarian or public interest reasons, unless a final order of deportation or exclusion has been issued;
- has an application for asylum pending with *USCIS*, unless a final order of deportation or exclusion has been issued;

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	July 2008
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.310	11

- is subject to *USCIS* exclusion or deportation proceedings, unless a final order of deportation or exclusion has been issued.

a. Humanitarian, Public Interest, Application for Asylum

To meet the humanitarian, public interest or application for asylum status, the Cuban or Haitian entrant must be from Cuba or Haiti and must have an I-94 with one or more of the following notations:

- humanitarian parole;
- public interest parole;
- section 212(d)(5);
- parole; or
- Form I-589 filed.

Contact *USCIS* if there is reason to believe that a final order of exclusion or deportation has been issued.

b. Subject to Exclusion or Deportation

To be subject to exclusion or deportation proceedings, the Cuban or Haitian entrant must be from Cuba or Haiti and must have letters or notices which indicate ongoing exclusion or deportation proceedings that apply to the individual. Contact *USCIS* if there is reason to believe that a final order of exclusion or deportation has been issued.

8. Battered Alien

an alien, and/or an alien parent of battered children and/or an alien child of a battered parent who is battered or subjected to extreme cruelty while in the U.S. who meets the following requirements:

- a. the perpetrator is a spouse, parent or other household member of the spouse or parent's family who was residing in the home at the time of the incident but is no longer in the home. The alien must not now be residing in the same household as the individual responsible for the battery or extreme cruelty, and
 - the alien was battered or subjected to extreme cruelty while in the U.S. by a spouse or a parent, or by a member of the spouse or parent's family residing in the same household as the alien, and the spouse or parent consented to or acquiesced in such battery or cruelty;
 - the alien's child was battered or subjected to extreme cruelty while in the U.S. by a spouse or a parent of the alien (without the active participation of the alien in the battery or cruelty), or by a member of the spouse or parent's family residing in the same household as the alien, and the spouse or parent consented or acquiesced to such battery or cruelty and the alien did not actively participate in such battery or cruelty; or

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	January 2022
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.311	12

- the alien child resides in the same household as a parent who has been battered or subjected to extreme cruelty while in the U.S. by that parent's spouse, or by a member of the spouse's family residing in the same household as the parent and the spouse consented or acquiesced to such battery or cruelty.
- b. the agency providing benefits determines (according to the guidelines to be issued by the U.S. Attorney General) that there is a substantial connection between the battery or cruelty and the need for benefits; and
- c. the alien has a petition approved by or pending with USCIS for one of the following:
 - status as an immediate relative (spouse or child) of a U.S. citizen;
 - classification changed to immigrant;
 - status as the spouse or child of a lawful permanent resident alien (LPR); or
 - suspension of deportation and adjustment to LPR status based on battery or extreme cruelty by a spouse or parent who is a U.S. citizen or LPR alien.

9. Afghan or Iraqi Special Immigrant

an alien who is lawfully admitted into the U.S. on a Special Immigrant Visa (SIV) for permanent residency *or an Afghan special immigrant who meets the criteria in M0220, Appendix 4*. Aliens in this group include the principal SIV holder, his spouse, and his children under age 21 living in the home. Afghan and Iraqi Special Immigrants will have either (1) a Form I-551 or (2) a passport or I-94 form indicating categories SI1, SI2, SI3, SQ1, SQ2, or SQ3 and bearing the Department of Homeland Security stamp or notation. *Other qualified Afghan special immigrants will have one of the documents listed in M0220, Appendix 4.*

10. Victims of Trafficking

an alien who has been granted nonimmigrant status under section 101(a)(15)(T) or who has a pending application that sets forth a prima facie (has sufficient evidence) case for eligibility for such status.

M0220.311 VETERAN & ACTIVE DUTY MILITARY ALIENS

A. Veterans or Active Duty Military Aliens

An alien lawfully residing in the state (not here illegally) is always eligible for full Medicaid benefits (if he/she meets all other Medicaid eligibility requirements) **regardless of the date of entry into the U. S.**, if he or she meets one of the following conditions:

1. he/she is a qualified alien and is a veteran discharged honorably not on account of alienage, and who fulfills the minimum active-duty service requirements of section 5303A(d) of title 38, United States Code;
2. he/she is a qualified alien and is on active duty (other than active duty for training) in the Armed Forces of the United States (not in the Armed Forces Reserves),
3. he/she is the
 - a) spouse or the unmarried dependent child of a living (not deceased) qualified alien who meets the conditions of 1. or 2. above, or

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	October 2016
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.311	13

- b) the unremarried surviving spouse of an individual described in 1. or 2. above who is deceased, if the spouse was married to the veteran
- before the expiration of fifteen years after the termination of the period of service in which the injury or disease causing the death of the veteran was incurred or aggravated; or
 - for one year or more; or
 - for any period of time if a child was born of the marriage or was born to them before the marriage.

A divorced person is not a spouse.

A “dependent child” for this section’s purposes is one whom the Veterans Administration (VA) has determined to meet the VA definition of “dependent child.” According to the VA, a dependent child is an unmarried child under age 18, an unmarried child between ages 18 and 23 who is attending a VA-approved school, or a “helpless” child who became disabled before attaining age 18.

B. Verification

Acceptable verification of honorable discharge or active duty status include the following documents:

1. Discharge Status

For discharge status, an original or notarized copy of the veteran’s discharge papers (DD 214) issued by the branch of service in which the alien was a member verifies whether he/she was honorably discharged for a reason other than alien status.

Other documentation which is acceptable under the Department of Defense (DOD) or VA guidelines can be substituted for the DD 214 form.

A self declaration under penalty of perjury may be accepted pending receipt of acceptable documentation.

2. Active Duty Status

For active duty military status, an original or notarized copy of the alien’s current orders showing the individual is on full-time duty in the U.S. Army, Navy, Air Force, Marine Corps, or Coast Guard (full-time National Guard duty is NOT active military status), or a military identification card (DD Form 2 (active)) verifies whether the alien is in active duty military status.

Other documentation which is acceptable under the Department of Defense (DOD) or VA guidelines can be substituted for the current orders or military ID card.

A self declaration under penalty of perjury may be accepted pending receipt of acceptable documentation.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	January 2010
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.312	14

C. Services Available To Eligibles

A qualified alien who meets the veteran or active duty military requirements above and who meets all other Medicaid eligibility requirements is eligible for the full package of Medicaid covered services available to the alien's covered group.

D. Entitlement & Enrollment of Eligibles

The Medicaid entitlement policy and enrollment procedures for eligible veteran/active duty military aliens are found in section M0220.600 below.

M0220.312 QUALIFIED ALIENS WHO ENTERED U.S. BEFORE 8-22-96

A. Qualified Aliens--Entered U.S. Before 8-22-96

Qualified aliens (as defined in M0220.310 above) who were living in the U.S. prior to 8-22-96 and who meet all other Medicaid eligibility requirements are eligible for the full package of Medicaid benefits available to the covered group they meet.

1. Full Benefit Qualified Aliens

These "full benefit" qualified aliens who entered the U.S. before 8-22-96 are:

- Lawful Permanent Residents,
- Refugees under section 207, and Amerasian immigrants,
- Conditional Entrants under section 203(a)(7),
- Asylees under section 208,
- Parolees under section 212(d)(5),
- Deportees whose deportation is withheld under section 243(h) or 241(b)(3),
- Cuban or Haitian Entrants, and
- Battered aliens, alien parents of battered children, and/or alien children of battered parents.

NOTE: If the qualified alien is a veteran or in active duty military status, or is the spouse or the unmarried dependent child of a qualified alien who meets the conditions in M0220.311 above, the alien is a full benefit alien.

2. Adjusted Status

When an alien entered the U.S. before 8-22-96 with an unqualified alien status and the alien's status is adjusted to a qualified status after the alien entered the U.S., the alien's qualified status is considered to be effective back to the date he/she entered the U.S. if:

- the alien was physically present in the U.S. before 8-22-96, and
- the alien remained physically present in the U.S. from the date of entry to the status adjustment date.

The date of entry will be the first day of the verified period of continuous presence in the U.S. (see M0220.202).

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	January 2022
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.313	14a

- B. Services Available To Eligibles** A qualified alien who entered the U.S. before 8-22-96 and who meets all other Medicaid eligibility requirements is eligible for the full package of Medicaid covered services available to the alien's covered group.
- C. Entitlement & Enrollment of Eligibles** The Medicaid entitlement policy and enrollment procedures for eligible qualified aliens who entered the U.S. before 8-22-96 are found in section M0220.600 below.

M0220.313 QUALIFIED ALIENS WHO ENTERED U.S. ON OR AFTER 8-22-96

- A. No Limit on Residency in the U.S.** Effective 12-27-20, *qualified aliens who are Compact of Free Association (COFA) migrants (also referred to as compact citizens) are full benefit aliens. COFA is a compact between the United States and the three Pacific Island sovereign states of Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau—known as the Freely Associated States.*
- B. First 7 Years of Residence in U.S.** During the first seven years of residence in the U.S., six (6) groups of qualified aliens (as defined in M0220.310 above) who entered the U.S. on or after 8-22-96 are eligible for the full package of Medicaid benefits available to the covered group they meet (if they meet all other Medicaid eligibility requirements), even if their status is adjusted later to LPR.. These 6 groups of qualified aliens who entered the U.S. on or after 8-22-96 are:
- 1. Refugees** Refugees under section 207 and Amerasian immigrants are full benefit aliens for 7 years from the date of entry into the U.S. Once 7 years have passed from the date the refugee entered the U.S., the refugee becomes an “emergency services” alien.
 - 2. Asylees** Asylees under section 208 are full benefit aliens for 7 years from the date asylum in the U.S. is granted. Once 7 years have passed from the date the alien is granted asylum in the U.S., the asylee becomes an “emergency services” alien.
 - 3. Deportees** Deportees whose deportation is withheld under section 243(h) or section 241(b)(3) are full benefit aliens for 7 years from the date withholding is granted. After 7 years have passed from the date the withholding was granted, the deportee becomes an “emergency services” alien.
- NOTE: If the qualified alien is a veteran or in active duty military status, or is the spouse or the unmarried dependent child of a qualified alien who meets the conditions in M0220.313 above, the alien is a full benefit alien.
- 4. Cuban or Haitian Entrants** Cuban and Haitian entrants as defined in section 501(e) of the Refugee Education Assistance Act of 1980 are full benefit aliens for 7 years from the date they enter the U.S. After 7 years have passed from the date they entered the U.S., a Cuban or Haitian entrant becomes an “emergency services” alien.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	January 2022
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.313	14b

5. Victims of a Severe Form of Trafficking

Victims of a severe form of trafficking as defined by the Trafficking Victims Protection Act of 2000, P.L. 106-386 are full benefit aliens for 7 years **from the date they are certified or determined eligible** by the Office of Refugee Resettlement (ORR). Victims of a severe form of trafficking are identified by either a letter of certification (for adults) or a letter of eligibility (for children under age 18 years) issued by the ORR (see Appendix 5 of this subchapter). **The date of certification/eligibility specified in the letter is the date of entry for a victim of a severe form of trafficking.** After 7 years have passed from the certification/eligibility date, a victim of a severe form of trafficking becomes an “emergency services” alien unless his status is adjusted.

6. Afghan or Iraqi Immigrant Admitted to the U.S. on a Special Immigrant Visa

The Department of Defense Appropriations Act of 2010, enacted on December 19, 2009, provides that Iraqi and Afghan Special Immigrants are eligible for Medicaid benefits to the same extent and for the same time period as refugees. The legislation supersedes prior legislative authority that limited Special Immigrants to benefits for an 8-month time period. Provided that all other eligibility requirements are met, Iraqi and Afghan Special Immigrants are eligible for Medicaid benefits for the first seven years after entry into the United States (U.S.).

For Afghan special immigrants who do not hold a Special Immigrant Visa, see M0220, Appendix 4.

7. After 7 Years Residence in U.S.

After seven years of residence in the U.S., the qualified refugee, Amerasian, asylee, deportee, Cuban or Haitian entrant, victim of a severe form of trafficking, or Afghan or Iraqi Special Immigrant (as defined in M0220.310 above) who entered the U.S. on or after 8-22-96 is no longer eligible for full Medicaid benefits and becomes an “emergency services” alien.

C. AFTER 5 Years of Residence in U.S.

The following qualified aliens who entered the U.S. **on or after 8-22-96** are eligible for the full package of Medicaid benefits available to the covered group they meet (if they meet all other Medicaid eligibility requirements) after 5 years of residence in the U.S.:

- *a parolee under section 212(d)(5) of the Immigration and Nationality Act for a period of at least 1 year;*
- *an alien who is granted conditional entry pursuant to section 203(a)(7) of the Immigration and Nationality Act as in effect prior to April 1, 1980;*
- *an alien, and/or an alien parent of battered children and/or an alien child of a battered parent who is battered or subjected to extreme cruelty while in the U.S.*
- *LPRs (as defined in M0220.310 above). For eligibility determinations for months prior to April 2021, an LPR who entered the U.S. on or after 8-22-96 and who has resided in the U.S. for five years must also have at least 40 qualifying quarters of work. Effective 4-1-21, a qualified lawful permanent resident who entered the U.S. on or after 8-22-96 and who has resided in the U.S. for at least five years is no longer required to have any qualifying quarters of work to receive full Medicaid benefits.*

1. LPR

When an LPR entered the U.S. on or after 8-22-96, the LPR is an **“emergency services” alien during the first 5 years** the LPR is in the U.S., regardless of work quarters.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	April 2021
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.313	14c

Note: If the LPR had prior immigration status in one of the “seven-year” alien groups listed in M0220.313.A, he is considered to have “seven-year” status for the purposes of Medicaid eligibility for the first seven years of residency in the U.S. To determine former status of a LPR, check the coding on the I-551 for codes RE-6, RE-7, RE-8, or RE-9. Contact the USCIS at 1-800-375-5283 for assistance in identifying the former status for other seven year aliens.

Effective 4-1-21, AFTER 5 years have passed from the date of entry into the U.S., LPRs are “full benefit” aliens. *For eligibility determinations for months prior to April 2021*, LPRs who DO NOT have at least 40 qualifying quarters of work remain emergency services aliens after 5 years have passed from the date of entry into the U.S.

2. Qualifying Quarter

- A qualifying quarter of work means a quarter of coverage as defined under Title II of the Social Security Act which is worked by the alien and/or
- all the qualifying quarters worked by the spouse of such alien during their marriage and the alien remains married to such spouse or such spouse is deceased, and all of the qualifying quarters worked by a parent of such alien while the alien was under age 18 years.

See Appendix 3 to this subchapter for procedures for verifying quarters of coverage under Title II of the Social Security Act.

Any quarter of coverage, beginning after December 31, 1996, in which the alien, spouse or parent of the alien applicant received any federal means-tested public benefit (such as SSI, TANF, Supplemental Nutrition Assistance Program [SNAP] and **full-benefit** Medicaid) **cannot** be credited to the alien for purposes of meeting the 40 quarter requirement. Medicaid coverage for **emergency services** does not impact the 40 quarter requirement.

D. Services Available To Eligibles

1. Refugee, Amerasian, Asylee, Deportee, Cuban or Haitian Entrant, Victim of a Severe Form of Trafficking; Afghan or Iraqi Special Immigrant

The following immigrants:

- qualified refugee,
- Amerasian,
- asylee,
- deportee,
- Cuban or Haitian entrant,
- victim of a severe form of trafficking, or

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date October 2022
Subchapter Subject M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	Page ending with M0220.313	Page 14d

- Afghan or Iraqi Special Immigrant (as defined in M0220.310 above *and in M0220, Appendix 4*),
- *Ukraine Humanitarian Parolees (see Appendix 4)*

who entered the U.S. on or after 8-22-96 and who meets all other Medicaid eligibility requirements is eligible for the full package of Medicaid covered services available to the alien's covered group during the first 7 years of residence in the U.S. After 7 years of residence in the U.S., the refugee, Amerasian, asylee, deportee, Cuban or Haitian entrant, victim of a severe form of trafficking, or Afghan or Iraqi Special Immigrant who entered the U.S. on or after 8-22-96 is no longer eligible for full Medicaid benefits and is eligible for emergency services only.

2. LPR

Effective 4-1-21, after five years of residence in the U.S., an LPR who entered the U.S. on or after 8-22-96 is eligible for the **full package of Medicaid benefits** available to the covered group he/she meets if he/she meets all other Medicaid eligibility requirements.

For eligibility determinations for months prior to April 2021, LPRs who DO NOT have at least 40 qualifying quarters of work remain emergency services aliens after 5 years have passed from the date of entry into the U.S.

E. Entitlement & Enrollment for those Eligible

The Medicaid entitlement policy and enrollment procedures for full benefit qualified aliens who entered the U.S. on or after 8-22-96 are found in section M0220.600 below.

The Medicaid entitlement policy and enrollment procedures for emergency services qualified aliens who entered the U.S. on or after 8-22-96 are found in section M0220.700 below.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	January 2022
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.314	14e

M0220.314 LAWFULLY RESIDING NON-CITIZEN CHILDREN UNDER AGE 19 AND PREGNANT WOMEN

A. Policy

Section 214 of CHIPRA of 2009 gives states the option to provide Medicaid and FAMIS/FAMIS MOMS coverage to certain individuals who are lawfully residing in the United States and are otherwise eligible for assistance. Virginia has elected to cover children under the age of 19 and pregnant women who are lawfully residing in the U.S.

Noncitizens are lawfully residing in the U.S. if they have been admitted lawfully into the U.S. and have not overstayed the period for which they were admitted, or they have current permission to stay or live in the U.S.

This policy does **not** apply to individuals who receive temporary relief from removal under the Deferred Action for Childhood Arrivals (DACA) process announced by the U.S. Department of Homeland Security on June 15, 2012.

Children born in the U.S. to foreign diplomat parents (i.e. neither parent is a U.S. citizen) must have their own lawful status. They may apply for immediate LPR status.

Children under age 19 and pregnant women who are in one of the lawfully residing non-citizen alien groups described below must have their immigration status verified at the time of the initial eligibility determination and at each annual renewal of eligibility to ensure that they are lawfully residing in the U.S. and that their immigration status has not changed.

NOTE: All aliens who meet the alien status eligibility requirements for Medicaid and FAMIS/FAMIS MOMS must also meet the Virginia state residency requirements to be eligible for coverage under the programs.

For a pregnant woman who is not lawfully residing in the U.S., use Chapter M23 to evaluate her eligibility for FAMIS Prenatal Coverage. If she is not eligible for FAMIS Prenatal Coverage, evaluate her eligibility for the coverage of emergency services using M0220.500.

B. Eligible Alien Groups

Lawfully residing children under age 19 and pregnant women meet Medicaid and FAMIS/FAMIS MOMS alien requirements without regard to their date of arrival or length of time in the U.S. Children under 19 or pregnant women are lawfully residing aliens if they are:

1. a qualified alien as defined in section 431 of PRWORA (8 U.S.C § 1641). See M0220.310;
2. an alien in a nonimmigrant status who has not violated the terms of the status under which he or she was admitted or to which he or she has changed after admission. This group includes individuals with valid visas;
3. an alien who has been paroled into the United States pursuant to section 212(d)(5) of the Immigration and nationality Act (INA) (8 U.S.C § 1182 (d)(5)) for less than 1 year, except for an alien paroled for prosecution, for deferred inspection or pending removal proceedings;
4. an alien who belongs to one of the following classes:
 - a. aliens currently in temporary resident status pursuant to section 210 or 245A of the INA (8 U.S.C §§ 1160 or 1255a, respectively),

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	July 2022
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.400	15

- b. aliens currently under Temporary Protected Status (TPS) pursuant to section 244 of the INA (8 U.S.C. § 1254a), and pending applicants for TPS who have been granted employment authorization,
 - c. aliens who have been granted employment authorization under 8 CFR 274a.12(c)(9), (10), (16), (18), (20), (22), or (24),
 - d. Family Unity beneficiaries pursuant to section 301 of Pub. L. 101-649, as amended,
 - e. aliens currently under Deferred Enforced Departure (DED) pursuant to a decision made by the President,
 - f. aliens currently in deferred action status, except for individuals receiving deferred status as a result of the Deferred Action for Childhood Arrivals (DACA) process, announced by the U.S. Department of Homeland Security on June 15, 2012, or
 - g. aliens whose visa petition has been approved and who have a pending application for adjustment of status.
5. a pending applicant for asylum under section 208(a) of the INA (8 U.S.C. § 1158), or for withholding of removal under section 241(b)(3) of the INA (8 U.S.C. § 1231), or under the Convention Against Torture who has been granted employment authorization, or such an applicant under the age of 19 who has had an application pending for at least 180 days;
 6. an alien who has been granted withholding of removal under the Convention Against Torture;
 7. a child who has a pending application for Special Immigrant Juvenile status as described in section 101(a)(27)(J) of the INA (8 U.S.C. § 1101(a)(27)(J));
 8. an alien who is lawfully present in the Commonwealth of the Northern Mariana Islands under 48 U.S.C. § 1806 (e); or
 9. an alien who is lawfully present in American Samoa under the immigration laws of American Samoa.

M0220.400 EMERGENCY SERVICES ALIENS

A. Policy

Any alien who does NOT meet the requirements for full benefits as described in section M0220.300 through 314 above is an “emergency services” alien and is eligible for emergency Medicaid services only, if he or she meets all of the Medicaid nonfinancial and financial eligibility requirements.

B. Procedure

- Section M0220.410 describes the qualified aliens who entered the U.S. on or after 8-22-96 who are emergency services aliens.
- Section M0220.411 defines “unqualified” aliens.
- Section M0220.500 contains the Medicaid eligibility requirements applicable to full benefit and emergency services aliens.
- Section *M0220.600 D* contains the entitlement and enrollment procedures for emergency services aliens.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	January 2022
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.410	16

M0220.410 EMERGENCY-SERVICES-ONLY QUALIFIED ALIENS WHO ENTERED U.S. ON OR AFTER 8-22-96

- A. First 5 Years of Residence in U.S.** During the first five years of residence in the U.S., four groups of qualified aliens (as defined in M0220.310 above) who entered the U.S. on or after 8-22-96 are eligible for **emergency Medicaid services only** provided they meet all other Medicaid eligibility requirements.
- 1. Lawful Permanent Residents (LPRs)** An LPR who enters the U.S. on or after 8-22-96 is an “emergency services” alien during the first 5 years the LPR is in the U.S., regardless of work quarters.

Note: If the LPR had prior Refugee status, he may be considered to have Refugee status for the purposes of Medicaid eligibility. To determine former Refugee status of a Lawful Permanent Resident, check the coding on the I-551 for codes RE-6, RE-7, RE-8, or RE-9. Refer to M0220.313.A.1.
 - 2. Conditional Entrants** A qualified Conditional Entrant who enters the U.S. on or after 8-22-96 is an “emergency services” alien *during the first 5 years the Conditional Entrant is in the U.S.*
 - 3. Parolees** A qualified parolee who enters the U.S. on or after 8-22-96 is an “emergency services” alien during the first 5 years the parolee is in the U.S.
 - 4. Battered Aliens** A qualified battered alien who enters the U.S. on or after 8-22-96 is an “emergency services” alien during the first 5 years the battered alien is in the U.S.
- B. AFTER 5 Years of Residence in U.S.**
- 1. Lawful Permanent Residents Without 40 Work Quarters** For months prior to 4-1-21, Lawful Permanent Residents who DO NOT have at least 40 qualifying quarters of work remain emergency services aliens after residing in the U.S. for 5 years. Effective 4-1-21, Lawful Permanent Residents become full benefit aliens after 5 years of residing in the U.S. with no work requirement.
 - 2. Conditional Entrants** A qualified Conditional Entrant who enters the U.S. on or after 8-22-96 *and has resided in the U.S. for at least 5 years is a full benefit alien.*
 - 3. Parolees** A qualified parolee who enters the U.S. on or after 8-22-96 *and has resided in the U.S. for at least 5 years is a full benefit alien.*
 - 4. Battered Aliens** A qualified battered alien who enters the U.S. on or after 8-22-96 *and has resided in the U.S. for at least 5 years is a full benefit alien.*

Virginia Medical Assistance Eligibility	M02	July 2022
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.410	17

**C. AFTER 7 Years of
Residence in U.S.**

- 1. Refugees** After 7 years of residence in the U.S., a refugee or Amerasian immigrant who entered the U.S. on or after 8-22-96 is no longer eligible for full Medicaid benefits and becomes an “emergency services” alien.
- 2. Asylees** After 7 years have passed since asylum was granted, an asylee who entered the U.S. on or after 8-22-96 is no longer eligible for full Medicaid benefits and becomes an “emergency services” alien.
- 3. Deportees** After 7 years have passed since deportation was withheld, a deportee who entered the U.S. on or after 8-22-96 is no longer eligible for full Medicaid benefits and becomes an “emergency services” alien.
- 4. Cuban or Haitian Entrants** After 7 years of residence in the U.S., a Cuban or Haitian Entrant who entered the U.S. on or after 8-22-96 is no longer eligible for full Medicaid benefits and becomes an “emergency services” alien.
- 5. Afghan and Iraqi Special Immigrants** Medicaid coverage for Afghan and Iraqi Special Immigrants who are eligible in a Medicaid covered group cannot begin earlier than December 26, 2007. After 7 years of residence in the U.S., Afghan and Iraqi Special Immigrants are no longer eligible for full Medicaid benefits and become “emergency services” aliens.

After the applicable limited time period expires, individuals become “emergency services” aliens unless the requirements in M0220.313 B or M0220.314 are met.

**D. Services Available
To Eligibles**

An emergency services alien who meets all Medicaid eligibility requirements is eligible for Medicaid coverage of emergency services only.

**E. Entitlement &
Enrollment of
Eligibles**

The Medicaid entitlement policy and enrollment procedures for emergency services aliens are found in section *M0220.600 D* below.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	July 2022
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.411	18

M0220.411 UNQUALIFIED ALIENS

A. Unqualified Aliens

Aliens who do not meet the qualified alien definition M0220.310 above and who are **NOT** lawfully residing non-citizen children under age 19 or pregnant women per M0220.314 above are “unqualified” aliens. Unqualified aliens, with the exception of pregnant women who are eligible for FAMIS Prenatal Coverage, are eligible for emergency services only if they meet all other Medicaid eligibility requirements. Unqualified aliens include illegal and non-immigrant aliens.

For a pregnant woman who is not lawfully residing in the U.S. per M0220.314, use Chapter M23 to evaluate her eligibility for FAMIS Prenatal Coverage. If she is not eligible for FAMIS Prenatal Coverage, evaluate her eligibility for the coverage of emergency services using *M0220.400 and M220.600 D*.

B. Illegal aliens

Illegal aliens were never legally admitted to the U.S. or were legally admitted for a limited period of time and did not leave when that period expired. If an alien remains in the U.S. after his visa expires, he becomes an illegal alien.

C. Non-immigrant Aliens

Aliens who are lawfully admitted to the U.S. for a temporary or limited period of time, and the limited period has **not** expired, are non-immigrant aliens. Regardless of the individual’s immigration status, accept declaration of Virginia residency on the application as verification of residency unless the individual resides on the grounds of a foreign embassy. Do **NOT** require individuals who have been admitted into the U.S. on non-immigrant visas to sign a statement of intended residency.

Non-immigrants have the following types of USCIS documentation:

- Form I-94 Arrival-Departure Record,
- Form I-185 Canadian Border Crossing Card,
- Form I-186 Mexican Border Crossing Card,
- Form SW-434 Mexican Border Visitor's Permit,
- Form I-95A Crewman's Landing Permit.

Note: If the alien remains in the U.S. after the limited time period (visa) is over, he becomes an illegal alien.

Non-immigrants include:

1. **Visitors** visitors for business or pleasure, including exchange visitors;
2. **Foreign Government Representative** foreign government representatives on official business and their families and servants. Note: if the foreign government representative resides on the grounds of a foreign embassy, he does not meet the Virginia residency requirement;
3. **Travel Status** aliens in travel status while traveling directly through the U.S.;
4. **Crewmen** Crewmen on shore leave;
5. **Treaty Traders** treaty traders and investors and their families;
6. **Travel Status** aliens in travel status while traveling directly through the U.S.;

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	July 2017
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.500	19

- 7. **Foreign Students** foreign students;
- 8. **International Organization** international organization representatives and personnel, and their families and servants;
- 9. **Temporary Workers** temporary workers including some agricultural contract workers;
- 10. **Foreign Press** members of foreign press, radio, film, or other information media and their families.

M0220.500 ALIENS ELIGIBILITY REQUIREMENTS

- A. **Policy** An alien must meet all other Medicaid eligibility requirements to be eligible for any Medicaid services. The eligibility requirements are:

- 1. **Residency** the Virginia residency requirements (M0230);

Regardless of the individual's immigration status *or whether or not his documentation (e.g. visa) has expired*, accept declaration of Virginia residency on the application as verification of residency. Do **NOT** require individuals who have been admitted into the U.S. on non-immigrant visas and other non-immigrants to sign a statement of intended residency.

- 2. **Social Security Number (SSN)** the SSN provision/application requirements (M0240);

An alien eligible only for Medicaid payment of emergency services *is not required* to apply for or provide an SSN. This includes emergency services only aliens as defined in M0220.410 and unqualified aliens as defined in M0220. 411.

Any non-citizen who is only eligible to receive an SSN for a valid non-work reason is not required to provide or apply for an SSN. These individuals include, but are not limited to, non-citizens admitted to the U.S. on non-immigrant visas and individuals who do not intend to work in the U.S. and would only have needed an SSN for the purposes of receiving public assistance.

Virginia Medical Assistance Eligibility	M02	April 2019
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.500	20

3. **Assignment of Rights and Pursuit of Support from Absent Parents** the assignment of rights to medical benefits requirements (M0250);
4. **Application for Other Benefits** the requirements regarding application for other benefits (M0270);
5. **Institutional Status** the institutional status requirements (M0280);
6. **Covered Group** the covered group requirements (chapter M03). *Individuals who are eligible for Medicaid payment of emergency services only must meet a covered group that covers emergency medical services; emergency services are not covered for individuals in Plan First or the Medicare Savings Programs (Qualified Medicare Beneficiaries, Special Low Income Medicare Beneficiaries, Qualified Individuals).*

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	July 2022
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.600	21

7. Financial Eligibility

the asset transfer requirements (see subchapter M1450) apply.

Resources must be within the resource limit appropriate to the individual's covered group. (Chapter M06 for F&C covered groups; Chapter S11 for ABD covered groups).

Income must be within the income limit appropriate to the individual's covered group (Chapter M04 for Modified Adjusted Gross Income [MAGI] covered groups; Chapter M07 for F&C Medically Needy covered groups, and Chapter S08 for ABD covered groups). Spenddown provisions apply to individuals who meet a Medically Needy covered group. All medical expenses count toward meeting the spenddown, but once an entitlement date is determined after the individual meets the spenddown, only emergency services rendered on or after the entitlement date are covered for emergency services aliens.

M0220.600 ENTITLEMENT & ENROLLMENT

A. Policy

An alien who is determined eligible for full Medicaid benefits and who meets all Medicaid eligibility requirements (including covered group requirements) is eligible for all Medicaid-covered services available to the recipient's covered group.

B. Application & Entitlement

1. Application Processing

The eligibility worker must take the application and develop it in the same manner as any other individual's application. All eligibility requirements, including covered group requirements must be met.

2. Entitlement

If the applicant is found eligible for Medicaid, ongoing eligibility may exist unless the recipient is on a spenddown.

3. Spenddown

Spenddown provisions apply to medically needy individuals who have excess income.

4. Notice

Appropriate notice must be sent to the applicant of the status of his application and of his Medicaid eligibility.

C. Enrollment Procedures

Once a full benefit alien is found eligible for Medicaid, he must be enrolled in VaCMS using the following data:

1. Country

In this field, Country, enter the code of the alien's country of origin.

2. Cit Status

In this field, Citizenship Status, enter the Citizenship code that applies to the alien. Below, next to the Citizenship code, is the corresponding Alien Code from the Alien Code Chart in Appendix 5 to this subchapter. Eligible alien codes are:

R = refugee (Alien Chart codes F1, F2, G1, G2); also used for Afghan and Iraqi Special Immigrants (Alien Chart Code Z1).

E = entrant (Alien Chart code D1).

P = full benefit qualified aliens (Alien Chart codes A1, A2, A3, B1, B3, C1, CC1, D1, D3, E1, E3, H1, H2, I1, I3, J1, J2, K1);

I = legal immigrant children under age 19 only (Alien Chart codes Y1, Y2, Y3)

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	October 2022
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.500	22

3. Entry Date THIS FIELD MUST BE ENTERED. Enter the date on which the alien entered the U.S., except for asylees and deportees. For asylees, enter the date asylum was granted. For deportees, enter the date deportation withholding was granted.

4. Appl Dt In this field, Application Date, enter the date of the alien's Medicaid application upon which the eligibility coverage period is based.

5. Coverage Begin Date In this field, Coverage Begin Date, enter the date the alien's Medicaid entitlement begins.

6. Coverage End Date Enter data in this field only if eligibility is a closed period of eligibility in the past. Enter the date the alien's Medicaid entitlement ended.

7. AC Enter the AC code applicable to the alien's covered group.

D. Emergency Services Only Aliens

Unqualified aliens, and qualified aliens eligible for emergency services only are eligible for Medicaid coverage of emergency medical care only. This care must be provided in a hospital emergency room or as an inpatient in a hospital.

Effective July 1, 2022, an emergency services only alien who meets all other Medicaid eligibility requirements is enrolled in Medicaid with ongoing coverage. Emergency services are no longer certified by the LDSS or DMAS, and the LDSS does not obtain an emergency services certification.

Applications received prior to July 1, 2022, are subject to the policies and procedures in M0220, Appendix 9. For an individual whose certification period begins prior to July 1, 2022 and expires on or after July 1, 2022, re-evaluate the individual's eligibility for ongoing coverage.

An emergency services alien will be assigned to one of the following Aid Categories (AC) by VaCMS:

- AC 112 for adults in Modified Adjusted Gross Income (MAGI) based covered groups
- AC 113 for children and adults in non-MAGI Families and Children's (F&C) and all Medically Needy (MN) covered groups.

For cases processed at Cover Virginia, the individual will be enrolled in the appropriate AC, and the case will be transferred to the local agency for ongoing case maintenance. *For CVIU incarcerated individuals refer to Policy M0140.200.3 C.*

Once an emergency services alien is found eligible in VaCMS, the enrollment will transfer into the Medicaid enrollment system. Any claims for emergency services will be sent by the provider or treating physician to DMAS for review and reimbursement. Medicaid coverage for emergency services only aliens will be restricted to emergency services (including dialysis).

Appropriate notice must be sent to the applicant of the status of his application and the duration of his eligibility. The notice must specify that their Medicaid coverage is limited to emergency services.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	July 2022
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.600	23

Once an emergency services alien is found eligible in VaCMS, the enrollment will transfer into the Medicaid enrollment system. Any claims for emergency services will be sent by the provider or treating physician to DMAS for review and reimbursement. Medicaid coverage for emergency services only aliens will be restricted to emergency services (including dialysis).

Appropriate notice must be sent to the applicant of the status of his application and the duration of his eligibility. The notice must specify that their Medicaid coverage is limited to emergency services.

Once an emergency services alien is enrolled, any requests for coverage of emergency services will not require a new Medicaid application. The individual will be subject to an annual renewal following the policies in subchapter M1520.200. Follow the policies in subchapter M1520.100 for any reported change to the alien's situation.

A Medicaid card will not be generated for an individual enrolled as an emergency services alien.

The provider or treating physician will be responsible for submitting all claim request for payment of an emergency service for an approved member, including labor & delivery and dialysis. Refer providers to the Virginia Medicaid Hospital Provider Manual, Chapter VI "Documentation Guidelines."

Providers with questions regarding the submission or payment of claims for emergency services may contact DMAS at:

*Division of Program Operations
Department of Medical Assistance Services (DMAS)
600 E. Broad Street, Suite 1300
Richmond, VA 23219*

Citizenship & Identity Procedures

Workers are to use the following procedures when citizenship and identity verification is required to determine the individual's continued eligibility.

A. Documents

Establishing U.S. Citizenship and Identity

1. Documents that Verify Citizenship and Identity

Both U.S. Citizenship and identity are verified by a:

- U.S. Passport,
- Certificate of Naturalization, or
- Certificate of U. S. Citizenship

Documentary evidence issued by a federally recognized Indian tribe which identifies the tribe that issued the document, identifies the individual by name and confirms membership, enrollment or affiliation with the tribe (tribal enrollment card, certificate of degree of Indian blood, Tribal census. document, documents on Tribal letterhead) If the individual presents one of these documents, he has verified his citizenship and identity. **Photocopies of original documents are acceptable.**

2. Documents that Verify Identity

a. Documents

The agency must accept any of the documents listed below as proof of identity, provided such document has a photograph or other identifying information including, but not limited to, name, age, sex, race, height, weight, eye color or address. **Photocopies of original documents are acceptable.**

- Identity documents listed at 8 CFR 274a.2(b)(1)(v)(B)(I), except a driver's license issued by a Canadian government authority
- Driver's license issued by a State or Territory
- School identification card
- U.S. military card or draft record
- Identification card issued by the Federal, State or local government
- Military dependent's identification card
- U.S. Coast Guard Merchant Mariner's card
- For children under age 19, a clinic, doctor, hospital or school record, including preschool or daycare records

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	October 2013
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	Appendix 1	2

- *Two documents containing consistent information that corroborates an applicant's identity. Such documents include, but are not limited to, employer identification cards, high school and college diplomas (including high school equivalency diplomas), marriage certificates, divorce decrees and property deeds or titles.*
- *Finding of identity from a Federal or State governmental agency. The agency may accept as proof of identity a finding of identity from a Federal agency or another State agency, including but not limited to a public assistance, law enforcement, internal revenue or tax bureau, or corrections agency, if the agency has verified and certified the identity of the individual*

b. Affidavit

If the applicant does not have any document specified above and identity is not verified, the applicant may submit an affidavit signed, under penalty of perjury, by another person who can reasonably attest to the applicant's identity. Such affidavit must contain the applicant's name and other identifying information. The affidavit does not have to be notarized.

3. Documents that Verify Citizenship

a. Documents

The agency must accept any of the documents listed below as proof of U.S. Citizenship. **Photocopies of original documents are acceptable.**

- *Civil Service employment by the U.S. government prior to 1976*
- *Evidence of compliance with the Child Citizen Act of 2000*
- *Final adoption decree showing U.S. birth, or if adoption is not final, a statement from a State-approved adoption agency that shows the child's name and U.S. place of birth*
- *Homeland Security's Systematic Alien Verification for Entitlements Database (used when individual has become a Naturalized Citizen but information did not show up in SSA database)*
- *Northern Mariana Card for individuals born before 11/4/1986 (I-873)*
- *Office of Vital Records*
- *Official Military Records showing a U.S. birth Report/Certificate of birth abroad of U.S. citizen (dS-1350, FS-240 or FS-545)*
- *U.S. Birth Certificate*
- *U.S. citizen ID card (I-197 or I-179)*

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	October 2013
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	Appendix 1	3

- *Medical records, including but not limited to, hospital, clinic or doctor records or admission papers from a nursing facility, skilled care facility or other institution that indicate a U.S. place of birth*
- *Life, health or other insurance records that indicate a U.S. place of birth*
- *Official religious record recorded in the U.S. indicating a U.S. birth*
- *School records, including pre-school, Head Start and day care, showing child's name and U.S. place of birth*
- *Federal or state census records showing U.S. citizenship or U.S. place of birth*
- *Certification of U.S. birth*
- *A Certification of Report of Birth, issued to U.S. citizens who were born outside the U.S.*
- *A report of Birth Abroad of a U.S. citizen*

b. Affidavit

If no other documentation exists, the individual may submit an affidavit signed, under penalty of perjury, by another person who can reasonably attest to the applicant's identity. Such affidavit must contain the applicant's name and other identifying information. The affidavit does not have to be notarized.

C. Agency Actions

1. Documentation From Case Record and Individual

Documentation of citizenship and/or identity may be obtained from a number of different sources, *including the sources listed below. Photocopies of original documents are acceptable.*

- Existing LDSS agency records, as long as the documentation conforms to Medicaid policy for citizenship and identity verification in M0220 of the Medicaid Eligibility Manual.
- *A federal agency or another State agency. A verification of citizenship made by a federal or state agency is acceptable, as long as the verification was done on or after July 1, 2006. No further documentation of citizenship or identity is required.*

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	October 2017
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	Appendix 1	4

- Applicants and Recipients. All applicants and recipients, **except** SSI recipients, Medicare beneficiaries, SSDI beneficiaries, individuals born to Medicaid-eligible mothers, all foster care children and IV-E Adoption Assistance children, must provide documents that show proof of United States citizenship and proof of the person's identity if the local DSS is unable to verify citizenship and identity using a data match with the SSA. Contact information for obtaining the various acceptable documents is available on the VDSS local agency intranet and the DSS public website and may be given to individuals to facilitate their obtaining documentation.
- DMAS, for individuals born in Puerto Rico who are unable to provide a birth certificate issued on or after July 1, 2010.

Puerto Rico invalidated all birth certificates issued prior to July 1, 2010 and reissued the birth certificates. For individuals born in Puerto Rico **who are applying for Medicaid for the first time**, only a birth certificate issued on or after July 1, 2010 may be accepted from the individual. Should an individual born in Puerto Rico be unable to present a birth certificate issued on or after July 1, 2010, contact your Regional Medical Assistance Specialist, who will refer the case to DMAS. DMAS will obtain official birth verification on behalf of the local DSS. If the person is reapplying and the agency has a birth certificate issued prior to July 1, 2010 on record, no additional verification is required.

2. Authorized Representative

For individuals who have authorized representatives, such as the disabled or individuals who are institutionalized, initiate efforts to assist in securing documentation with the appropriate representative.

3. Individuals Who No Longer Meet Exception

When an individual loses the exception status, and his citizenship and identity has not been previously verified, it must be verified for him to remain eligible for Medicaid. If the individual's eligibility in another covered group must be determined (due to the loss of SSI benefits, for example), obtain the documentation of citizenship and identity at the time of the eligibility review. If the verification is not readily available, the individual must be allowed a reasonable opportunity to obtain the documentation. See M0220.100 A 3.

Verify the SSI recipient's or Medicare beneficiary's entitlement to benefits through the Federal Hub or SOLQ-I. A copy of the printout must be placed in the case file.

4. Individual NOT Required to Submit Documents in Person

Individuals do not have to submit their citizenship and identity to the agency worker in person. They may mail the original document for the agency to copy and mail back to the individual, **or they may submit a photocopy of the document(s).**

5. Special Populations Needing Assistance

The agency shall assist special populations who need additional assistance, such as the homeless, *intellectually disabled*, or physically incapacitated individual who lacks someone who can act on his behalf, to provide necessary documentation.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	October 2013
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	Appendix 1	5

6. Failure to Provide Requested Verifications

Failure to provide satisfactory evidence of citizenship and identity, after being provided a reasonable opportunity to present such documentation, is to result in the termination of MA.

An enrollee who fails to cooperate with the agency in presenting documentary evidence of citizenship may be denied or terminated. Failure to cooperate consists of failure by a recipient or that individual's representative, after being notified, to take a required action within the reasonable opportunity time period.

7. Notification Requirements

Prior to the termination of benefits, the enrollee must be sent written notice at least 10 calendar days (plus one day for mailing) prior to the effective date of the closure.

A Notice of Action and appeal rights must be sent to an individual whose application is denied because of failure to provide citizenship and/or identity verification.

8. Maintain Documents in Case Record

The agency must maintain copies of the documents used to verify citizenship and identity in the individual's case record or data base and must make the documents available for state and federal audits.

9. No Reporting Requirements

There are no monthly reporting requirements. However, the Medical Assistance Program Consultants may conduct reviews of cases where eligibility was denied or terminated because of lack of citizenship and/or identity verification.

10. Refer Cases of Suspected Fraud to DMAS

If documents are determined to be inconsistent with pre-existing information, are counterfeit, or are altered, refer the individual to DMAS for investigation into potential fraud and abuse. See section M1700.200 for fraud referral procedures.

Sample Letters of Certification/Eligibility for Victims of a Severe Form of Trafficking

[Used For Adults]

HHS Tracking Number

(Address)

CERTIFICATION LETTER

Dear _____:

This letter confirms that you have been certified by the U.S. Department of Health and Human Services (HHS) pursuant to section 107 (b) of the Trafficking Victims Protection Act of 2000. Your certification date is _____. Certification does not confer immigration status.

With this certification, you are eligible for benefits and services under any Federal or State program or activity funded or administered by any Federal agency to the same extent as an individual who is admitted to the United States as a refugee under section 207 of the Immigration and Nationality Act, provided you meet other eligibility criteria.

You should present this letter when you apply for benefits or services. Benefit-issuing agencies should call the trafficking verification line at (866) 401-5510 to verify the validity of this document and to inform HHS of the benefits for which you have applied.

Sincerely,

[Signed]
Director/Acting Director
Office of Refugee Resettlement

Sample Letters of Certification/Eligibility for Victims of a Severe Form of Trafficking

[Used For Children Under Age 18 Years]

HHS Tracking Number

(Address)

Dear _____:

This letter confirms that pursuant to section 107 (b) of the Trafficking Victims Protection Act of 2000, you are eligible for benefits and services under any Federal or State program or activity funded or administered by any Federal agency to the same extent as an individual who is admitted to the United States as a refugee under section 207 of the Immigration and Nationality Act, provided you meet other eligibility criteria.

Your initial eligibility date is _____. This letter does not confer immigration status.

You should present this letter when you apply for benefits or services. Benefit-issuing agencies should call the trafficking verification line at (866) 401-5510 to verify the validity of this document and to inform HHS of the benefits for which you have applied.

Sincerely,

[Signed]

SSA Quarters of Coverage Verification Procedures for Lawful Permanent Residents *for Eligibility* *Determinations for Months Prior to April 1, 2021*

This appendix contains the process for determining the number of qualifying quarters (QQ) with which a lawful permanent resident (LPR) who entered the U.S. on or after 8-22-96 can be credited and is to be used in conjunction with the State Verification Exchange System (SVES) User Guide.

I. Procedures:

A. To determine the number of QQ available to a LPR applicant, ask the applicant the following questions:

1. How many years has the applicant, the applicant's spouse, or the applicant's parents (before the applicant turned 18) lived in this country?
2. How many years has the applicant, the applicant's spouse, or the applicant's parents (before the applicant turned 18) commuted to work in the U.S. from another country before coming to the U.S. to live, or worked abroad for a U.S. company, or worked in self-employment while a legal resident of the U.S.?

(If the total number of years to both questions is less than 10 years, **STOP** because the applicant cannot meet the 40 QQ requirement.)

3. In how many of the years reported in the answer to question 1 did the applicant, the applicant's spouse, or the applicant's parent earn money through work?
- B. To determine whether the applicant's earnings were sufficient to establish "quarters of coverage" in those years, refer to the income chart in section II .

If the answer to question 3 is 10 years or more, verify from INS documents or other documents the date of entry into the country for the applicant, spouse and/or parent. If the dates are consistent with having 10 or more years of work, initiate a SVES inquiry.

- C. Complete or obtain from the applicant a completed "Consent for Release of Information" (see page 4 of this appendix) with the full name, social security number and date of birth of each individual (self, spouse, or parent) whose work history is relevant. In addition, the applicant must provide a form signed by each such individual, except deceased persons, giving SSA permission to release information through SVES on that individual to the agency and/or the applicant. Retain the consent form in the case file to document the individual's consent. A consent form is valid for 12 months from the time of the signature.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	March 2011
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	Appendix 3	2

- D. Information received through SVES will not report earnings for the current year nor possibly the last year's earnings (i.e. the lag period). The SVES report will also not include employment that is not covered under Social Security (i.e. not requiring payment of FICA/Social Security tax). The applicant must provide verification of earnings through pay stubs, W-2 forms, tax records, employer records, or other documents, if quarters of the lag period or non-covered employment are needed to meet the 40-quarter minimum. Use the information contained in section II to determine QQ for lag periods and non-covered earnings.

If the alien believes the information from SSA is inaccurate or incomplete, beyond the current two-year lag period, advise the applicant to provide the verification to SSA to correct the inaccurate income records.

In evaluating the verification received directly from the applicant or through SVES, **exclude** any quarter, beginning January 1997, in which the person who earned the quarter received benefits from the TANF, SSI, or Medicaid, or SNAP Programs or the food assistance block grant program in Puerto Rico.

- E. In situations when consent to release information through SVES cannot be obtained from a parent or spouse, other than death, request information about quarters of coverage directly from the Social Security Administration. Complete or obtain from the applicant a Request for Quarters of Coverage (QC) History Based on Relation form, SSA-513. The form specify the period(s) for which the verification is requested. Submit the completed form to:

Social Security Administration
P.O. Box 33015
Baltimore, Maryland 21290-3015

- F. When the SSA is unable to determine if a quarter should be allowed, the SVES inquiry will show "Z" or "#" codes. If an applicant cannot meet the 40-quarter minimum without using a questionable quarter, SSA will investigate the questionable quarter(s) and will either confirm or deny the quarter. Use Form SSA-512, "Request to Resolve Questionable Quarters of Coverage (QC)," to resolve quarters before 1978. A copy of the SVES report must accompany the completed form. Submit Form SSA-512 to:

Social Security Administration
Office of Central Records Operations
P.O. Box 33015
Baltimore, Maryland 21290-3015

For questionable quarters for 1978 or later, the applicant must complete Form SSA-7008. "Request for Correction of Earnings." This form is available at local SSA offices. At the top of the form write "Welfare Reform." Submit the form and proof of earnings to:

Social Security Administration
Office of Central Records Operations
P.O. Box 30016
Baltimore, Maryland 21290-3016

Virginia Medical Assistance Eligibility	M02	April 2013
Subchapter Subject M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	Page ending with Appendix 3	Page 3

II. Establishing Quarters:

Use the following information to (1) determine whether the applicant's earnings as reported in section I.A were sufficient to establish quarters of coverage and (2) to determine the number of QQ during lag periods and when the reported employment is not a covered earning for Social Security reporting purposes:

- A quarter is a period of 3 calendar months ending with March 31, June 30, September 30 and December 31 of any year.
- Social Security quarters of coverage are credits earned by working at a job or as a self-employed individual. A maximum of four credits or quarters can be earned each year.
- For 1978 and later, credits are based solely on the total yearly amount of earnings. The number of creditable QQ are obtained by dividing the total earned income by the increment amount for the year. All types of earnings follow this rule. The amount of earnings needed to earn a credit increases and is different for each year. The amount of earnings needed for each credit and the amount needed for a year in order to receive four credits are listed below.
- A current year quarter may be included in the 40-quarter computation. Use the current year amount as the divisor to determine the number of quarters available.

If you need to use quarters before 1978:

- A credit was earned for each calendar quarter in which an individual was paid \$50 or more in wages (including agricultural wages for 1951-1955);
- Four credits were earned for each taxable year in which an individual's net earnings from self-employment were \$400 or more; and/or
- A credit was earned for each \$100 (limited to a total of 4) of agricultural wages paid during the year for years 1955-1977.

<i>Year</i>	<i>Increment Amount</i>	<i>Amount Required for 4 QCs</i>

Afghan Special Immigrants

The majority of Afghan special immigrants entering into the U.S. fall into one of three groups:

1. Holders of a Special Immigrant Visa,
2. Special Immigrant Parolees (SIP), who are individuals granted Special Immigrant (SI/SQ) Parole (per section 602(B)(1) AAPA/Section 1059(a) NDAA 2006), and
3. Non Special Immigrant Parolees entering the United States without SI/SQ parole due to the urgent nature of their arrival (Humanitarian status).

The United States Congress passed a Continuing Resolution on October 1, 2021, allowing individuals with a humanitarian parole status to receive full Medicaid (within certain parameters). Section 2502 of the [Continuing Resolution](#) provides that certain Afghan nationals who receive parole “shall be eligible for resettlement assistance, entitlement programs, and other benefits available to refugees” to include Medicaid, until March 1, 2023 (or until their parole expires). Eligible parolees are those who either:

- Were paroled into the United States between July 31, 2021, and September 30, 2022
- Are a qualifying relative of someone who received parole in that period (CR section 2502(a)(1)(B)), even if they receive parole after Sept 30, 2022.

Individuals with (1) SIV status, (2) SIP status, and (3) Humanitarian Parolee Status issued between July 31, 2021, and September 30, 2021, are qualified for evaluation in Medicaid and FAMIS without a five-year residency bar (provided that all other eligibility requirements are met).

Exception: Humanitarian Parolees who arrived **before July 31, 2021**, are eligible only for Medicaid coverage of emergency medical services and Health Insurance Marketplace coverage. Many of these individuals have already been enrolled in subsidized Marketplace coverage or have been granted asylum and are therefore eligible for Medicaid or FAMIS without the 5-year bar.

Children under 19 years and pregnant women with SIV, SIP, or Humanitarian status meet the definition of lawfully residing aliens for Medicaid and FAMIS/FAMIS MOMS coverage.

Afghan Special Immigrant visa holders will have either (1) a passport or I-94 form indicating category SI1, SI2, SI3, SQ1, SQ2, or SQ3 and bearing the Department of Homeland Security stamp or notation or an I-151 (“green card”) indicating SI6, SI7, SI8, SQ6, SQ7, or SQ8.

Special Immigrant Parolees will have an I-94 form noting SQ or SI Parole (per section 602(B)(1) AAPA/Sec 1059(a) NDAA 2006).

If an individual has attested to eligible immigration status and is found otherwise eligible for Medicaid, but verification of that status cannot be obtained, do not deny or delay coverage. Enroll the individual and give a 90-day reasonable opportunity period.

Ukraine Humanitarian Parolees

The U.S. Department of Homeland Security (DHS) is providing support and humanitarian relief to Ukrainians who have been displaced by Russia's February 24, 2022 invasion and fled Ukraine. The United States Congress passed the Additional Ukraine Supplemental Appropriations Act (AUSAA) and was signed on May 21, 2022 by President Biden. This measure confers eligibility for all Ukrainian Humanitarian Parolees for mainstream federal benefits as well as resettlement services funded by the Office Refugee Resettlement (ORR).

Certain Ukraine nationals entering the U.S. may be eligible for health coverage through Medicaid, the Children's Health Insurance Program (CHIP), the Health Insurance Marketplace, or Refugee Medical Assistance (RMA). These individuals may be granted a range of lawful non-citizen statuses, including parole, temporary protected status (TPS), immigrant and nonimmigrant visas, and refugee or asylees. The primary non-citizen immigrant statuses include:

1. Parolees: Ukrainian nationals who enter the United States as parolees on or **between February 24, 2022 and September 30, 2023** are eligible for Medicaid or CHIP to the same extent as refugees, without a five-year waiting period, if they meet other eligibility requirements. These Ukrainian parolees are considered "qualified non-citizens" for purposes of Medicaid and CHIP eligibility since they are eligible for the same benefits as refugees.

Ukrainian nationals who are paroled into the U.S. **after September 30, 2023** and are the spouse or child of a parolee described above, or who is the parent, legal guardian, or primary caregiver of a parolee described above who is determined to be an unaccompanied child will also be eligible for Medicaid and CHIP to the same extent as refugees.

2. Temporary Protected Status (TPS): Ukrainian nationals (and individuals having no nationality who last habitually resided in Ukraine) are eligible to apply for TPS. This includes Ukrainians granted TPS or have pending applications for TPS and who have been granted employment authorization. The TPS designation is effective **April 19, 2022 and will remain in effect through October 19, 2023**.
3. Refugees: Some Ukrainian nationals may be granted refugee status and resettled into the U.S. are eligible for full Medicaid or CHIP benefits, without application of the five-year waiting period, if they otherwise meet all other Medicaid eligibility requirements.
4. Lawfully Residing individual: Children under age 19 and pregnant women who are in one of the lawfully residing non-citizen alien groups (see M0220.314) and meet the definition of a lawfully residing alien for Medicaid and FAMIS/FAMIS MOMS coverage may be eligible for assistance.
5. Emergency Services: Ukrainian non-citizens who do not qualify for full Medicaid benefits based on their immigration status may be eligible for "emergency services Medicaid" if they meet all other eligibility requirements. An individual eligible only for emergency Medicaid is permitted to enroll in Marketplace coverage if they meet all Marketplace eligibility requirements.

Ukrainian parolees will generally have foreign passports with a DHS stamp admitting them with a PAR, DT, or UHP Class of Admission (COA). DHS will be using the existing COA code DT and PAR for some Ukrainians who were paroled into the U.S. Additional COA code(s) will be programmed into Hub logic in early fall of 2022.

If an individual has attested to eligible immigration status and is found otherwise eligible for Medicaid, but verification of that status cannot be obtained, do not deny or delay coverage. Enroll the individual and give a 90-day reasonable opportunity period.

Proof of U.S. Citizenship and Identity for Medicaid

Effective July 1, 2006, individuals who declare on a Medicaid application that they are United States citizens must provide proof of citizenship and identity. Individuals who are already enrolled in Medicaid must provide this documentation at the time of their next Medicaid renewal.

Some common documents that may be used to meet the citizenship and identity requirement are listed below. Representatives from your local department of social services can tell you what other documents may be acceptable. If you have difficulty obtaining one of the documents listed or have any questions, please discuss your situation with your eligibility worker. Whenever possible, we will allow additional time for you to obtain the necessary documentation.

The following documents are proof of both citizenship and identity; no additional documents are necessary to meet the Medicaid requirement to provide proof of citizenship and identity.				
Document	Shows Proof Of	Issued By	Fee	For More Information, Contact
U.S. Passport (unexpired or expired)	Citizenship & Identity (if issued with limitation and expired, only shows proof of identity)	U.S. Department of State	Varies	(202) 647-4000 or www.state.gov
Certificate of Naturalization (N-550 or N-570)	Citizenship & Identity	U.S. Department of Homeland Security, Bureau of Citizenship and Immigration Services	Varies	1-800-375-5283 or www.uscis.gov
Certificate of Citizenship (N-560 or N-561)—issued when a person was born outside U.S. to U.S. Citizen parent(s)	Citizenship & Identity	U.S. Department of Homeland Security, Bureau of Citizenship and Immigration Services	Varies	1-800-375-5283 or www.uscis.gov

The following documents may be used to prove citizenship only. You must also provide proof of identity.			
Document	Shows Proof Of	Issued By	Fee
U.S. Public Birth Record ("Birth Certificate")—must contain original embossed seal	Citizenship—(Must also provide proof of identity)	The state, commonwealth, territory or local jurisdiction	Va. Birth Cert. \$12
			For citizens born in Virginia: Department of Health, Division of Vital Records: (804) 662-6200 or www.vdh.virginia.gov (will also assist citizens born outside Virginia with finding contact information for their birth state)

		b. A qualified alien on active duty (other than active duty for training) in the Armed Forces of the United States (not in the Armed Forces Reserves)	Yes	R
		The spouse or the unmarried dependent child (see M0220.311 A) of a living (not deceased) qualified alien who meets the conditions in a. or b. above	Yes	P
		The unremarried surviving spouse of an individual described in a. or b. above who is deceased, if the spouse was married to the veteran <ul style="list-style-type: none">before the expiration of fifteen years after the termination of the period of service in which the injury or disease causing the death of the veteran was incurred or aggravated; orfor one year or more; orfor any period of time if a child was born of the marriage or was born to them before the marriage.	Yes	P
		Recipients of Supplemental Security Income (SSI)	Yes	P
		An alien who is <ul style="list-style-type: none">an American Indian born in Canada to whom the provisions of section 289 of the Immigration and Nationality Act (INA) apply, ora member of an Indian tribe (as defined in section 4(e) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b(e)),	Yes	P
		Compact of Free Association (COFA) migrants who are citizens of the Federated States of Micronesia, the Republic of the Marshall Islands, or the Republic of Palau.	Yes Effective 12/27/20	P

Arrived in U.S. on or after 8/22/1996	Regardless of length of residency in U.S.	Individuals other than pregnant women with no immigration documents (undocumented)	No—Eligible for Emergency Services Coverage Only	A
		For a pregnant woman who is not lawfully residing in the U.S., go to Chapter M23.		
		Deferred Action Childhood Arrivals (DACA)	No—Eligible for Emergency Services Coverage Only	A
		Individuals whose immigration status has expired and who do not meet any other immigration status	No—Eligible for Emergency Services Coverage Only	A
		Lawful Permanent Resident who has resided in the U.S. for fewer than 5 years, and/or prior to 4-1-21, without at least 40 qualify quarters of work coverage on record with the Social Security Administration. Effective 4-1-21, there is no longer a work requirement. The 5 year residency requirement remains in effect.	No—Eligible for Emergency Services Coverage Only	A

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date July 2022
Subchapter Subject M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	Page ending with Appendix 9	Page 1

EMERGENCY SERVICES ALIENS ENTITLEMENT & ENROLLMENT PRIOR TO JULY 1, 2022

A. Policy Unqualified aliens, and qualified aliens eligible for emergency services only are eligible for Medicaid coverage of emergency medical care only. This care must be provided in a hospital emergency room or as an inpatient in a hospital.

**B. Entitlement-
Enrollment Period** If the applicant is found eligible and is certified for emergency services, eligibility exists only for the period of coverage certified by the eligibility worker or DMAS staff on the Emergency Medical Certification form #DMAS Form 2019NR.

Once an eligibility period is established, additional requests for coverage of emergency services within 6 months will not require a new Medicaid application. However, each request for Medicaid coverage of an emergency service or treatment requires a new, separate certification and a review of the alien's income and resources and any change in situation that the alien reports.

With the exception of dialysis patients, an emergency services alien must file a new Medicaid application after the 6-month eligibility period is over if the individual receives an emergency service and wants Medicaid coverage for that service.

DMAS will certify dialysis patients for up to a one year period of services without the need for a new Medicaid application. However, due to edits in MMIS, only one six-month certification period at a time can be entered. The worker must manually enter the second certification period of up to six months (as certified by DMAS) after the first period expires.

The dialysis patient must reapply for Medicaid after his full certification period expires.

**C. Enrollment
Procedures** Once an emergency services alien is found eligible for coverage of emergency services, enroll the individual in the eligibility and enrollment system using the following data:

In this field, Country of Origin, enter the code of the alien's country of origin.

2. Citizenship Status

In this field, Citizenship Status code, enter :

A = Emergency services alien (Alien Chart codes B2, C2, C3, CC2, D2, E2, F3, G3, H3, I2, codes J3 through V3, Z2) other than dialysis patient.

D = Emergency services alien who receives dialysis.

V = Visitor, non-immigrant alien (Alien Chart codes W1, W2, W3).

The Alien Codes Chart is found in Appendix 5 to this subchapter.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	July 2022
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	Appendix 9	2

NOTE: Foreign visitors are not usually eligible for Medicaid because usually they do not meet the Virginia state residency requirement.

3. **Entry date** **THIS FIELD MUST BE ENTERED.** Enter the date on which the alien entered the U.S., except for asylees and deportees. For asylees, enter the date asylum was granted. For deportees, enter the date deportation withholding was granted.
4. **App Dt** In this field, application date, enter the date of the alien's Medicaid application upon which the eligibility coverage period is based.
5. **Covered Dates Begin** In this field, coverage begin date, enter the begin date of the emergency service(s).
6. **Covered Dates End** In this field, coverage end date, enter the date when the alien's emergency service(s) ends. When the emergency service(s) received was related to labor and delivery, the end date includes the day of discharge even though it is not counted to determine the length of stay for certification purposes.
7. **AC** Enter the code applicable to the alien's covered group.

D. Notices

Appropriate notice must be sent to the applicant of the status of his application and the duration of his eligibility.

The USCIS requires that all benefit applicants who are denied benefits based **solely or in part** on the SAVE response be provided with adequate written notice of the denial as well as the information necessary to contact USCIS, so that the individual may correct his records in a timely manner, if necessary. The fact sheet, "Information for Applicants: Verification of Immigration Status and How to Correct Your Record with USCIS" (Form # 032-03-0427-00) must be included with the Notice of Action when benefits are denied, **including the approval of emergency-services-only Medicaid coverage**, and with the Advance Notice of Proposed Action when benefits are subsequently cancelled based on the results of a SAVE inquiry. The fact sheet is available at [https://fusion.dss.virginia.gov/Portals/\[bp\]/Files/SAVE/Inform%20for%20Applicants%20Verification%20of%20Immigration%20Status.pdf?ver=2019-05-29-135745-363](https://fusion.dss.virginia.gov/Portals/[bp]/Files/SAVE/Inform%20for%20Applicants%20Verification%20of%20Immigration%20Status.pdf?ver=2019-05-29-135745-363).

A Medicaid card will not be generated for an individual enrolled as an emergency services alien.

The agency must contact the provider(s) and supply the eligibility dates and Medicaid number for billing purposes by sending a copy of the completed Emergency Medical Certification #DMAS Form 2019NR, to the provider(s).

M0230.000 VIRGINIA RESIDENCY REQUIREMENTS

M0230.001 POLICY PRINCIPLES

A. Policy

An individual must be a Virginia resident in order to be eligible for Medicaid, but is not required to have a fixed address. This subchapter, M0230, explains in detail how to determine if an individual is a Virginia resident.

An individual placed by a Virginia government agency in an institution is considered a Virginia resident for Medicaid purposes even when the institution is in another state (section M0230.203 below).

For all other individuals, Virginia residency is dependent on whether the individual is under age 21 years or is age 21 or older (sections M0230.201 and 202 below).

B. Retention of Residency

Residence is retained until abandoned. Temporary absence from Virginia with subsequent return to the state, or intent to return when the purposes of the absence have been accomplished, does not interrupt continuity of Virginia residence.

C. Non-immigrant Aliens

*Regardless of an individual's immigration status, accept declaration of Virginia residency on the application as verification of residency. Do **NOT** require individuals who have been admitted into the U.S. on non-immigrant visas and other non-immigrants to sign a statement of intended residency.*

D. Cross-Reference to Intra-State Transfer

Procedures for handling cases where individuals who are Virginia residents move from one Virginia locality to another are described in subchapter M1520.

E. No Fixed Address

The agency cannot deny Medicaid to an eligible Virginia resident just because the resident has no fixed address. A Virginia resident is not required to have a fixed address in order to receive Medicaid.

For an eligible Virginia resident who does not have a fixed address, use the local social services department's address for the Medicaid card and inform the resident that he must come to the social services department to receive his card until he obtains a fixed address.

F. Length of Residency

The agency may not deny Medicaid eligibility because an individual has not resided in Virginia for a specified period of time.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date March 2011
Subchapter Subject M0230 VIRGINIA RESIDENCY REQUIREMENTS	Page ending with M0230.100	Page 2

G. Residency in Virginia Prior to Admission to Institution

The agency may not deny Medicaid eligibility to an individual in an institution who meets the Virginia residency requirements previously identified in this subchapter, because the individual did not establish residence in Virginia before entering the institution.

H. Temporary Absence

The agency may not deny or terminate Medicaid eligibility because of that individual's temporary absence from Virginia if the individual intends to return to Virginia when the purpose of the absence has been accomplished, UNLESS another state has determined that the individual is a resident there for Medicaid purposes.

I. Disputed or Unclear Residency

If state residency is unclear or is in dispute, contact the regional specialist for help in resolution. When two or more states cannot resolve the residency, the state where the individual is physically located becomes the state of residence.

M0230.100 DEFINITION OF TERMS

A. Introduction

For purposes of this subchapter only, the terms in this section have the following meanings:

B. Institution

An establishment that furnishes (in single or multiple facilities) food, shelter, and some treatment or services to four or more persons unrelated to the proprietor is an **institution**.

For purposes of state placement of an individual, the term "institution" also includes foster care homes approved by the state and providing food, shelter and supportive services to one or more persons unrelated to the proprietor.

C. In An Institution

"In an institution" refers to an individual who is admitted to live in an institution and receives treatment or services provided there that are appropriate to his requirements.

D. Incapable of Indicating Intent

An individual is incapable of declaring his intent to reside in Virginia or any state if the individual:

- has an I.Q. of 49 or less or has a mental age of 7 or less, based on tests acceptable to the Virginia Department of Behavioral Health and Developmental Services (DBHDS);
- is judged legally incompetent; or
- is found incapable of declaring intent to reside in a specific state based on medical documentation obtained from a physician, psychologist, or other professional licensed by the State in the field of mental retardation.

E. Virginia Government Agency

A Virginia government agency is any state or local government agency, and any entity recognized by State law as being under contract with a Virginia state or local government agency.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date May 2015
Subchapter Subject M0230 VIRGINIA RESIDENCY REQUIREMENTS	Page ending with M0230.201	Page 3

M0230.200 RESIDENCY REQUIREMENTS

M0230.201 INDIVIDUALS UNDER AGE 21

A. Under Age 21 NOT In An Institution

An individual under age 21 is considered a resident of Virginia if he:

- a. is married or emancipated from his parents, is capable of indicating intent and is residing in Virginia with the intent to reside Virginia.
- b. is not emancipated but is not living with a parent or caretaker and is presently residing in Virginia with the intent to reside in Virginia;
- c. lives with a parent or caretaker who is presently residing in Virginia with the intent to reside in Virginia;
- d. is a non-IV-E (state/local) foster care child whose custody is held by Virginia (see M230.204 C. and D.);
- e. *is a non-IV-E foster care child whose custody is held by another state but who has been placed with and is residing in Virginia with a parent or caretaker relative;*
- f. is a non-IV-E child adopted under an adoption assistance agreement with Virginia (see M230.204 C. and D.);
- g. is a non-IV-E foster care child whose custody is held by a licensed, private foster care agency in Virginia, regardless of the state in which the child physically resides;
- h. is under age 21 and is residing in another state for temporary period (for reasons such as medical care, education or training, vacation, (or visit) but is still in the custody of his/her parent(s) who reside in Virginia.
- i. is living with a parent(s) who is a non-immigrant alien (admitted to the U.S. for a temporary or limited time) when the parent has declared his intent to reside in Virginia permanently or for an indefinite period of time, and no other information is contrary to the stated intent.

B. Under Age 21 In An Institution

If the individual was placed in the institution by a state government agent, go to section M0230.203 below.

An institutionalized individual (who was not placed in the institution by a state government) who is under age 21 and is not married or emancipated, is a resident of Virginia if:

1. the individual's parent or legal guardian was a Virginia resident at the time of the individual's institutional placement;
2. the individual's parent or legal guardian who applies for Medicaid is a Virginia resident and the individual is institutionalized in Virginia; or
3. the individual's parent(s) has abandoned the individual, no legal guardian has been appointed, and the individual is institutionalized in Virginia.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date May 2015
Subchapter Subject M0230 VIRGINIA RESIDENCY REQUIREMENTS	Page ending with M0230.202	Page 4

C. Under Age 21, Custody or Adoption Agreement with Another State

When another state's child-placing agency has custody of a child who lives in Virginia with a foster family, the child is NOT a Virginia resident unless the child is eligible as a IV-E Foster Care child and receives a IV-E Foster Care maintenance payment.

1. IV-E Eligible Children

A Title IV-E Foster Care child who lives in Virginia and who receives a Title IV-E maintenance payment from another state meets the Virginia residency requirements for Medicaid.

A Title IV-E Adoption Assistance child who lives in Virginia and has a Title IV-E Adoption Assistance agreement in effect with another state's child-placing agency meets the Virginia residency requirements for Medicaid.

2. Non-IV-E Foster Care Children

A non-IV-E Foster Care child placed in Virginia from another state does NOT meet the Virginia residency requirements for Medicaid *unless placed with and residing in Virginia with a parent or caretaker-relative*.

3. Foster Care Children with SSI

A foster care child who receives Supplemental Security Income (SSI) benefits meets the Virginia residency requirement regardless of which state's child-placing agency maintains custody.

4. Non-IV-E Adoption Assistance and Adoptive Placement Children

A child who lives in Virginia with an adoptive family is considered to be living with a parent, regardless of whether a final order of adoption has been entered in court. When his adoptive parent is a Virginia resident, the child is a Virginia resident for Medicaid eligibility purposes. A Non-IV-E Adoption Assistance child whose adoption assistance agreement is signed by another state's child-placing agency is a Virginia resident when the child lives in Virginia with the adoptive parent(s).

M0230.202 INDIVIDUALS AGE 21 OR OLDER

A. Introduction

For an individual age 21 or older, the determination of state residency depends on

- whether or not the individual is in an institution, and
- whether or not the individual is capable of indicating his or her intent to reside in the state.

B. Age 21 Or Older NOT In An Institution

For any individual age 21 or older NOT residing in an institution, the state of residence is Virginia when:

- the individual is living in Virginia with or without a fixed address with the intention to reside in Virginia;
- the individual is living in Virginia and entered the state with a job commitment or seeking employment (whether or not currently employed).
- the individual is incapable of indicating intent and the individual is living in Virginia.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date October 2013
Subchapter Subject M0230 VIRGINIA RESIDENCY REQUIREMENTS	Page ending with M0230.203	Page 5

C. Age 21 Or Older In An Institution **If the individual was placed in the institution by a state government agent, go to section M0230.203 below.**

- 1. Capable of Stating Intent** An individual in an institution who is age 21 or over and who is capable of declaring his intent to reside in Virginia, is a resident of Virginia if the individual is in an institution in Virginia with the intent to remain permanently or for an indefinite period.
- 2. Incapable of Stating Intent** An individual in an institution who is age 21 or over and who became incapable of stating intent at or after age 21 is a Virginia resident if he or she is residing in Virginia.

M0230.203 STATE PLACEMENT IN INSTITUTION

A. Policy

Any agency of the state, including an entity recognized under state law as being under contract with the state for such purposes, that arranges for an individual to be placed in an institution located in another state, is recognized as acting on behalf of the state in making the placement. The state arranging or actually making the placement is considered the individual's state of residence. When an individual is placed by state or local government in an institution in another state, the individual remains the responsibility of the placing state unless the state or local government agency in the other state assumes responsibility for the individual's care or Medicaid eligibility.

When an individual is placed by a Virginia government agency in an institution in another state, the individual remains the responsibility of Virginia unless

- a state or local government agency in the other state assumes responsibility for the individual's care or Medicaid eligibility,
- the individual is a child who receives a IV-E foster care or adoption assistance payment, or
- the individual is a child who receives **non-IV-E adoption assistance** and the state in which he is placed is a reciprocal state under the interstate compact, verified by the central office Deputy Compact Administrator, Adoption Unit, Division of Family Services, Virginia Department of Social Services (DSS).

B. State Placement

Placement by a state government agency is any action taken by the agency, beyond providing general information to the individual and his family, to arrange admission to an institution for the individual. The following actions do not constitute state placement:

- providing basic information to individuals about other states' Medicaid programs or about the availability of health care services and facilities in other states;
- assisting an individual, who is capable of declaring intent and who independently decides to move out-of-state, in locating an institution in another state.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date October 2016
Subchapter Subject M0230 VIRGINIA RESIDENCY REQUIREMENTS	Page ending with M0230.204	Page 6

1. Lack Of Facilities

When a placement is initiated by a state because the state lacks a sufficient number of appropriate facilities to provide services to its residents, the state making the placement is the individual's state of residence for Medicaid purposes.

2. Individual Leaves Facility

When a competent individual leaves the facility in which he was placed by a state, that individual's state of residence for Medicaid purposes is the state where the individual is physically located.

C. Individual Placed Out-of-State by Virginia Government

An individual can leave Virginia and retain Virginia residency if he is placed in an institution outside Virginia by a Virginia government agency. Out-of-state placement into a long-term care facility must be preauthorized by the Director of the Virginia Department of Medical Assistance Services for Virginia Medicaid to pay for the institutional care.

When a competent individual voluntarily leaves the facility in which Virginia placed him, he becomes a resident of the state where he is physically located.

M0230.204 CASH ASSISTANCE PROGRAM RECIPIENTS

A. Introduction

Certain individuals are considered residents of Virginia for Medicaid purposes if they live in Virginia and receive a cash assistance payment specified below in this section. Some recipients of cash assistance from a Virginia social services agency who do NOT reside in Virginia are considered residents of Virginia for Medicaid purposes, as specified below.

B. Auxiliary Grants Recipients

An individual receiving an Auxiliary Grants (AG) payment from a locality in Virginia is considered a Virginia resident.

An individual who receives a State Supplement of SSI payment from another state is considered a resident of the state making the State Supplement payment.

C. IV-E Payment Recipients

For an individual of any age who receives federal foster care or adoption assistance payments under Title IV-E of the Social Security Act, the state of residence for Medicaid eligibility is the state where the child lives.

D. Non-IV-E Foster Care Payment Recipients

A child in foster care receiving a non-IV-E (state and local) payment whose custody is held by another state but who has been placed with and is residing in Virginia with a parent or care-taker relative is considered a resident of Virginia. If the child is not living with a parent or care-taker relative, the child is a resident of the state that is making the non IV-E payment.

E. Non-IV-E Adoption Assistance Payment Recipients

The non IV-E (state/local) Adoption Assistance recipient is a resident of the state in which the child's adoptive parent(s) resides, regardless of whether a final order of adoption has been entered in court.

M0240.000 SOCIAL SECURITY NUMBER REQUIREMENTS

M0240.001 GENERAL PRINCIPLES

A. Policy

To be eligible for medical assistance (MA), an individual must provide his Social Security number (SSN) as well as the SSN of any person for whom MA is requested, or must provide proof of application for an SSN. This requirement applies to both the Medicaid and FAMIS Programs.

Exceptions – the SSN requirement does not apply to:

- an alien who is eligible only for Medicaid payment of emergency services, as defined in subchapter M0220,
- a non-citizen who is only eligible to receive an SSN for a valid non-work reason,
- a child under age one born to a Medicaid-eligible or FAMIS- covered mother (see M0330.301 B. 2 and M2220.100.), or
- an individual who refuses to obtain an SSN because of well-established religious objections.

An individual who is applying only for others and is not applying for himself is not required to provide an SSN for himself.

B. Failure to Meet SSN Requirement

Any individual for whom an application for an SSN has not been filed or for whom the SSN is not furnished **is not eligible** for MA EXCEPT for the following individuals.

1. Child Under Age 1

A child under age one born to a Medicaid-eligible or to a FAMIS-covered mother is deemed to have applied and been found eligible for MA, whether or not the eligibility requirements, including SSN, have actually been met. This includes an infant born to a mother in FAMIS Prenatal Coverage who is *assigned to* Aid Category 110 AND who is NOT in managed care.

An infant born to a mother in FAMIS Prenatal Coverage who *is assigned to* AC 110 and who IS in managed care OR who *is assigned to* in AC 111 is not a deemed newborn; however, the infant is not required to provide an SSN or proof of application for an SSN in order to be enrolled. See M0240.200 C.

2. Individual With Religious Objections

An individual who refuses to obtain an SSN due to well-established religious objections must provide documentation of (1) membership of a recognized religious sect or division of the sect and (2) adherence to the tenets or teachings of the sect or division of the sect and for that reason being conscientiously opposed to applying for or using a national identification number.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date July 2021
Subchapter Subject M0240 SOCIAL SECURITY NUMBER REQUIREMENTS	Page ending with M0240.001	Page 2

3. Emergency-Services Aliens and other Non-Citizens

An alien eligible for Medicaid payment of emergency services only, as defined in M0220.410 and M0220.41, is not required to provide or apply for an SSN.

Any non-citizen who is only eligible to receive an SSN for a valid non-work reason is not required to provide or apply for an SSN. These individuals include, but are not limited to, undocumented aliens, non-citizens admitted to the U.S. on non-immigrant visas and individuals who do not intend to work in the U.S. and would only have needed an SSN for the purposes of receiving public assistance.

C. Relationship to Other Medicaid Requirements

An applicant who cannot provide documentation that he is a citizen or legally present at the time of application must sign an affidavit under oath attesting that he is a U.S. citizen or legally present in the U.S. in order to temporarily meet the requirement for proof of legal presence (see M0210.150). **Submission of the affidavit without proof of application for an SSN does NOT meet the SSN requirement.**

D. Verification

1. Name

The name entered in the official case record and computer enrollment systems for an applicant must match the applicant's name on his Social Security card or Social Security Administration (SSA) records verification. It is important to spell the name correctly so that when the Medicaid Management Information System (MMIS) sends the enrollee information to SSA for the Medicare Buy-in or the citizenship and identity match, the enrollee can be matched to SSA records.

The Federally managed Data Services Hub verifies the individual's name and SSN with the SSA for cases processed in the Virginia Case Management System (VaCMS). For an individual whose name and SSN cannot be verified in VaCMS and for all individuals whose cases are not processed in VaCMS, either the State Verification Exchange System (SVES) or the State Online Query-Internet system (SOLQ-I) SSA Title II and Title XVI results may be used.

2. SSN

The individual's SSN must be verified. The worker may use the SOLQ-I or SVES to verify an individual's SSN.

3. Verification Systems - SVES & SOLQ-I

SVES verifies the individual's SSN, name spelling, entitlement to SSA benefits and the amount of the benefit, entitlement to SSI and the amount, and entitlement to Medicare & the Medicare premium amounts. SVES tells the worker what is wrong with the name, if the name is incorrectly spelled.

The SOLQ-I verifies the individual's SSN, entitlement to SSA benefits and the amount of the benefit, entitlement to SSI and the amount, and entitlement to Medicare & the Medicare premium amounts. SOLQ-I does not verify the individual's name according to the SSA records.

E. Procedure

Section M0240.100 below explains in detail how to determine if an individual meets the SSN requirements when the individual or child does not have an SSN.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date July 2022
Subchapter Subject M0240 SOCIAL SECURITY NUMBER REQUIREMENTS	Page ending with M0240.200	Page 3

M0240.100 APPLICATION FOR SSN

A. Policy

If an SSN has not been issued for the individual or the individual's child(ren), the applicant must cooperate in applying for a number with the local Social Security Administration Office (SSA). Instruct the applicant to submit form SS-5, the Application for Social Security Number, to the SSA and to obtain a receipt from SSA verifying that the application was submitted. The SS-5 is available online at:
<http://www.socialsecurity.gov/ssnumber/ss5.htm>.

The agency must provide a 90-calendar-day reasonable opportunity period for the individual to obtain and provide an SSN and may not delay, deny, reduce or terminate benefits for an individual whom the agency determines to be otherwise eligible for Medicaid during such reasonable the opportunity period. If the application for an SSN was made through hospital enumeration, the agency must allow 120 calendar days for the SSN to be obtained and provided.

The applicant must provide the SSN to the local social services department as soon as it is received and the number must be verified and entered in the eligibility/enrollment system.

1. Newborns

In the case of a newborn child, the applicant/recipient may satisfy this requirement by requesting that an SSN be applied for by hospital staff in conjunction with the filing of the birth record at the time of the child's birth. Form SSA-2853 will be given to the mother by hospital staff as verification of application for the child's SSN.

For an infant born to a mother in FAMIS Prenatal Coverage who is assigned to AC 110 and who is in managed care OR who is enrolled in AC 111, see M0240.200 C.

2. Failure to Apply for SSN

Applicants who refuse to furnish an SSN or to show proof of application for a number are ineligible for Medicaid.

3. Retroactive Eligibility

An individual who provides proof of application for an SSN after he applies for medical assistance, meets the application for SSN requirement in the three months retroactive to his medical assistance application.

M0240.200 FOLLOW-UP REQUIREMENTS FOR SSN APPLICATION

A. Applicant Applied for SSN

When an applicant who has applied for an SSN is determined eligible for medical assistance, he is enrolled with a pseudo-SSN. The worker must obtain the enrollee's SSN when it is assigned and enter it into the enrollee's records.

For an infant born to a mother in FAMIS Prenatal Coverage who is assigned to AC 110 and who is in managed care OR who is assigned to AC 111, see M0240.200 C.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date July 2022
Subchapter Subject M0240 SOCIAL SECURITY NUMBER REQUIREMENTS	Page ending with M0240.200	Page 4

**B. Follow-Up
Procedures for
Individuals Who
Are Not Infants
Born to Women
Enrolled in FAMIS
Prenatal Coverage**

The follow-up procedures below do not apply to individuals listed in M0240.100 B.

1. Documentation

If the applicant does not have an SSN, the agency must document in the record the date he applied for an SSN.

**2. Entering
Computer
Systems**

If a date is necessary when entering the individual the eligibility/enrollment system, use the date the individual applied for an SSN, or the individual's date of birth, preceded by "000" as the individual's SSN.

For example, an individual applied for an SSN on October 13, 2006. Enter "000101306" as the individual's SSN in the eligibility/enrollment system.

3. Follow-up

a. Follow-up in 90 Calendar Days

After enrollment of the eligible individual, the agency must follow-up within 90 *calendar* days of the Social Security number application date or 120 *calendar* days if application was made through hospital enumeration.

b. Check for Receipt of SSN

Check the system records for the enrollee's SSN. If the SSN still has "000" the first 3 digits, contact the enrollee to obtain the enrollee's SSN verbally or by mail. *If the individual has not applied for an SSN, send advance notice that the individual is no longer eligible for coverage and cancel coverage.*

c. Verify SSN by a computer system inquiry of the SSA records.

d. Enter Verified SSN in the eligibility/enrollment system.

**4. Renewal
Action**

If the enrollee's SSN has not been assigned by the 90-day follow-up, the worker must follow-up no later than the enrollee's annual renewal, by checking the systems for the enrollee's SSN and by contacting the enrollee if necessary.

a. Check for Receipt of SSN

Before or at renewal, the SSN must be entered into the eligibility/enrollment system. Check the system records for the enrollee's SSN. If the SSN has "000" as the first 3 digits, contact the enrollee to obtain the enrollee's SSN verbally or by mail, or on the renewal form if a renewal form is required.

b. Verify SSN by a computer system inquiry of the SSA records.

c. Enter Verified SSN in the eligibility/enrollment system.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date July 2022
Subchapter Subject M0240 SOCIAL SECURITY NUMBER REQUIREMENTS	Page ending with M0240.300	Page 5

d. SSN Not Provided by Renewal Deadline

The worker must assist the enrollee in obtaining the applied-for SSN. The worker will ask the enrollee for the assigned SSN at the first renewal, and give a deadline date for the enrollee to provide the SSN.

If the enrollee does not provide the SSN by the deadline, the worker will ask the enrollee why it was not provided to the worker:

- Did the enrollee ever receive the SSN from SSA?
- If not, why not?

If the problem is **not** an SSA administrative problem, the worker must cancel MA coverage for the enrollee whose SSN is not provided.

C. Follow-Up Procedures For an Infant Born to a Woman Enrolled in FAMIS Prenatal Coverage

An infants born to a mother enrolled in FAMIS Prenatal Coverage assigned to Aid Category (AC) 110 and who is NOT in managed care is a deemed newborn. Follow up on the SSN is not required until the time of the newborn's first renewal.

An infant born to a mother in FAMIS Prenatal Coverage who is assigned to AC 110 and who IS in managed care OR who is assigned to AC 111 is not a deemed newborn; however, the infant is not required to provide an SSN or proof of application for an SSN in order to be enrolled. Follow the procedures in M0240.200 B.3 above 90 days following the infant's enrollment to determine if an SSN has been assigned. If the SSN number has not yet been issued at 90 days, obtain the SSN or proof of application for an SSN at the first renewal of the infant's coverage.

M0240.300 SSN Verification Requirements

A. SSN Provided By Individual

The individual's SSN must be verified. When the individual provides his SSN, the worker may use the SOLQ-I or SVES to verify the individual's SSN. The individual is not eligible for MA and cannot be enrolled in the eligibility/enrollment system if his SSN is not verified.

B. Procedures

1. Enter Verified SSN in Systems

Enter the eligible enrollee's verified SSN in the eligibility/enrollment system.

2. Resolving Unverified SSN Discrepancies

a. Data Entry Error Caused Discrepancy

If it is determined that the discrepancy was the result of an error made while entering the SSN in the system, steps must be taken to correct the information in the eligibility/enrollment system so that a new data match with SSA can occur in the next month.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date July 2022
Subchapter Subject M0240 SOCIAL SECURITY NUMBER REQUIREMENTS	Page ending with M0240.400	Page 6

b. Discrepancy Not Caused by Data Entry Error

If the discrepancy is not the result of a typographical or other data entry error, the individual must be given a period of 10 *calendar* days to resolve the issue or provide written verification from SSA of the individual's correct SSN. The eligibility worker must send a written notification to the enrollee that informs the enrollee of the SSN discrepancy and gives him 10 *calendar* days from the date of the notice to either resolve the discrepancy with the SSN or to provide written verification of his correct SSN to the worker. The notice must inform the individual that if he does not verify his SSN by the deadline, his Medicaid coverage will be canceled.

c. Individual Provides SSN Verification

If verification of the SSN is received within the 10 *calendar days*, update the eligibility/enrollment system accordingly so that the enrollee's information will be included in a future data match.

d. SSN Verification Not Provided

If verification of the SSN is NOT received within the 10 *calendar* days, send the individual an advanced notice of proposed cancellation and cancel the individual's coverage in the eligibility/enrollment system.

M0240.400 SOCIAL SECURITY NUMBER DISCREPANCIES

A. Policy

To be eligible for medical assistance (MA), an individual must provide his Social Security number (SSN) as well as the SSN of any person for whom MA is requested, or must provide proof of application for an SSN.

As required by 42 CFR 435.910(g), "the agency must verify each SSN of each applicant and recipient with the SSA [Social Security Administration], as prescribed by the Commissioner, to insure that each SSN was furnished to that individual, and to determine whether any others were issued."

In addition, 42 CFR 435.920 states, "In redetermining eligibility, the agency must review case records to determine whether they contain the recipient's SSN or, in the case of families, each family member's SSN."

The Medical Assistance enrollment system generates a Social Security number and citizenship report (RS-O-485-A) and makes the report available to the local departments of social services (LDSS) on a monthly basis. LDSS agencies are responsible for reviewing the monthly report and correcting any discrepancies. If the agency is not able to resolve SSN discrepancies in a timely manner, an ineligible individual should not receive Medicaid services. Refer to Medicaid Policy M0240.300 regarding SSN Verification Requirements.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date July 2021
Subchapter Subject M0240 SOCIAL SECURITY NUMBER REQUIREMENTS	Page ending with M0240.400	Page 7

Staff at the Department of Medical Assistance Services will oversee and monitor the process of SSN resolution on a monthly basis to ensure that action has been taken to correct Social Security Numbers in the system.

B. Process

1. Generation of the RS-O-485-A Report

The RS-O-485-A Report is produced monthly and posted for LDSS review.

2. VDSS Requirements

It is the responsibility of the LDSS to review the report and research each entry to resolve any discrepancies concerning an individual's social security number. An ineligible individual should not receive Medicaid services.

VDSS is responsible for implementing the necessary procedures to ensure that all corrections or changes will be made within a 30-day period and updated in the MMIS system accordingly. Policy guidelines are located in the Medicaid Policy Manual. See Policy M0240.300

3. DMAS Review

DMAS staff will concurrently review an internal report showing how long each individual discrepancy continues to appear. The number of new (first time) and repeat (not first time on report) occurrences will be noted. Repeat occurrences will be further broken down by those that have appeared from prior month, in the prior two months, in the prior three months, and the total that have been on the report for four or more months.

4. Forward List to VDSS

DMAS will provide a monthly outcome report of the number of discrepancies reported and the individuals with discrepancies that remain on the report after 90 days.

This report will be forwarded to the VDSS Medical Assistance Programs Manager and to the VDSS Regional Medicaid consultants for review. VDSS will review the report and provide to DMAS a corrective action plan for resolving the discrepancies. All discrepancies must be resolved within 30 days of receiving the report from DMAS.

M0250.000 ASSIGNMENT OF RIGHTS AND PURSUIT OF SUPPORT FROM THE ABSENT PARENT REQUIREMENTS

M0250.001 GENERAL PRINCIPLES

A. Introduction

The assignment of rights to medical support and the pursuit of support from absent parent(s) are Medicaid nonfinancial requirements that must be met as a condition of Medicaid eligibility. *The assignment of rights to medical support requirement also applies to children eligible for the Family Access to Medical Insurance Security Plan (FAMIS).*

B. Policy and Procedures

The policy and procedures for the local agency to follow in determining if an individual has met the Medicaid assignment of rights and pursuit of support from absent legally responsible relatives are contained in the following sections:

- M0250.100 Assignment of Rights.
- M0250.200 Procedures for the Assignment of Rights.
- M0250.300 Pursuit of Medical Support From the Absent Parent.

M0250.100 ASSIGNMENT OF RIGHTS

A. Assignment of Rights Policy

To be eligible for Medicaid, a Medicaid applicant or recipient must:

- assign his rights to medical support and payment for medical care from any third party to the Department of Medical Assistance Services (DMAS) if he is applying for himself;
- assign the rights of any other individual for whom he applies and can make an assignment of rights to support and third party payments;
- cooperate with the agency in identifying (to the extent he is able) potentially liable insurers and other third parties who may be liable to pay for the individual's, and any other individual for whom he applies and can assign rights for care and medical services.

B. Individual Unable To Assign Rights

If the individual is unable to his assign rights, a spouse, legally appointed guardian or conservator, attorney-in-fact (person who has the individual's power-of-attorney), or the authorized representative can make such an assignment. If the individual is a child, the parent, legal custodian, authorized representative, or the adult relative with whom the child lives and who signed the application can assign rights.

If the person who has the authority to assign the applicant's/recipient's rights refuses to assign the rights, the person who has the authority to assign the rights will be ineligible for Medicaid. However, the applicant/recipient will meet the assignment of rights requirement and can be eligible for Medicaid if he meets all other eligibility requirements.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date October 2013
Subchapter Subject M0250 ASSIGNMENT OF RIGHTS AND PURSUIT OF SUPPORT	Page ending with M0250.200	Page 2

M0250.200 PROCEDURES FOR ASSIGNMENT OF RIGHTS

A. Forms

The assignment of rights information is *incorporated into the online and paper applications for medical assistance (MA)*.

By signing the application for *MA*, the individual assigns his/her own rights and the rights of anyone for whom the individual has applied and can assign rights.

B. Refusal To Assign Rights Or Cooperate

An individual who is able to assign rights but who refuses or fails to meet the assignment of rights requirements in this subchapter is not eligible for Medicaid. Deny or cancel Medicaid coverage to an individual who:

- refuses to assign his own rights if he applies for himself,
- refuses to assign the rights of any other applicant for whom he can make an assignment, or
- refuses to cooperate in identifying and providing liable third party information, unless cooperation has been waived for good cause.

C. Cooperation – Assignment of Rights

Cooperation in assisting the agency in securing medical support and payments includes requiring the individual to:

- provide identifying information about liable third parties, such as the liable person's insurance company and policy number, the medical services covered by the insurance policy, etc.;
- appear as a witness at a court or other proceeding;
- provide information, or attest to lack of information, under penalty of perjury;
- pay to the agency any medical care funds received that are covered by the assignment of rights; and
- take any other reasonable steps to assist the state in pursuing any liable third party.

Should DMAS or the local agency request information from the individual, including information about third party liability, or otherwise require cooperation with the pursuit of medical support and/or third party liability as outlined in M0250.200 C. above, the individual must cooperate with the pursuit of medical support in order for the individual's eligibility to continue.

1. Waiver of Cooperation

A waiver of the cooperation requirement in identifying and providing liable third party information is allowed if the agency finds that cooperation is against the best interests of the individual, or other person for whom he/she can assign rights, because the agency anticipates that cooperation will result in reprisal against or cause physical or emotional harm to the individual or other person.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	October 2013
Subchapter Subject	Page ending with	Page
M0250 ASSIGNMENT OF RIGHTS AND PURSUIT OF SUPPORT	M0250.300	3

- 2. Documentation** Document the case record with the reason(s) the individual refuses to cooperate in identifying and providing liable third party information and the reason(s) the agency finds that cooperation is against the best interests of the individual or other person for whom he/she can assign rights.

M0250.300 PURSUIT OF MEDICAL SUPPORT FROM THE ABSENT PARENT

- A. Policy** To be eligible for Medicaid, an individual applicant or recipient must cooperate with the agency in obtaining medical support and payments from, or derived from, the absent parent(s) of a child for whom the individual is applying, unless the individual establishes good cause for not cooperating. The individual's non-cooperation does NOT affect the individual's Plan First eligibility, nor the individual's child(ren)'s Medicaid eligibility.

A pregnant woman is not required to cooperate with DCSE when requesting assistance for herself and her child(ren) born out of wedlock. If she is or was married, she is required to cooperate in pursuing medical support for her legitimate child(ren) from the legitimate child(ren)'s absent father.

A married pregnant woman who meets the medical assistance support requirement **cannot be denied** medical assistance for failure to cooperate in pursuing support even when ineligible for another program because of failure to cooperate with pursuit of support.

B. Definition of Cooperation

- 1. Application** By signing the application for Medicaid, the individual meets the eligibility requirement to cooperate in pursuing support from the absent parent(s) of the child for whom the individual is applying. No further action by the applicant is required at the time of application.

The individual is not required to contact DCSE about pursuing support from the absent parent. If the individual chooses to request DCSE services, the individual's continued cooperation with DCSE **is required** for the individual to remain eligible for Medicaid.

- 2. Ongoing** After the individual's application has been approved, if DCSE, DMAS or the local agency requests information from the individual about the absent parent, or otherwise requires the individual's cooperation with the pursuit of medical support from the absent parent, the individual must cooperate in order for the individual's eligibility to continue.

Medicaid enrollees who were approved for Medicaid before January 1, 2007, and who were referred to DCSE, must continue to cooperate with DCSE in the pursuit of medical support from the absent parent to remain eligible for Medicaid.

C. Local DSS Agency Responsibility

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	January 2021
Subchapter Subject	Page ending with	Page
M0250 ASSIGNMENT OF RIGHTS AND PURSUIT OF SUPPORT	M0250.300	4

1. Applicants

Explain and offer the Division of Child Support Enforcement (DCSE) services to all Medicaid applicants who apply for Medicaid for themselves and/or on behalf of children who have an absent parent. A child's parent is not considered absent if the absence is due to death, single parent adoption, artificial insemination, or termination of parental rights.

Give the applicant the DCSE Fact Sheet available on the intranet at <https://fusion.dss.virginia.gov/bp/BP-Home/Medical-Assistance/References>.

2. Enrollees

If the local agency or DMAS requires from the enrollee information related to medical support from the absent parent, such as the policy number of the health insurance policy the absent parent has that covers the child, and the enrollee refuses to give it to the requesting agency but does not have good cause for refusing, the enrollee is no longer eligible for Medicaid because of failure to cooperate in pursuing medical support and third party liability. The child(ren) remain eligible for Medicaid.

a. Enrollees who were approved before January 1, 2007

For a Medicaid enrollee who was approved for Medicaid before January 1, 2007, and was referred to DCSE, the local agency must take action when notified by DCSE that the enrollee is not cooperating in the pursuit of medical support from the absent parent. The child(ren)'s eligibility for Medicaid is NOT affected.

b. Enrollees who applied on or after January 1, 2007

If the enrollee who applied for Medicaid on/after January 1, 2007, chooses to apply for DCSE services and DCSE opens a case for the applicant, the enrollee must cooperate with DCSE in the pursuit of medical support from the absent parent, unless there is good cause for not cooperating. If the agency is notified by DCSE that the enrollee is not cooperating, the agency worker must take appropriate action on the enrollee's Medicaid coverage; the child(ren)'s eligibility for Medicaid is NOT affected.

If the recipient wants to claim good cause for not cooperating, contact a Medical Assistance Program Consultant for instructions.

3. TANF Recipients

If an applicant for or recipient of Temporary Assistance for Needy Families (TANF) fails to cooperate with DCSE, the individual's eligibility for Medicaid is not impacted unless the individual previously requested assistance from DCSE for Medicaid purposes per M0250.300 C.2.b above.

D. DCSE

DCSE District Offices have the responsibility of pursuing support from absent legally responsible parent(s), establishing paternity when the alleged father is absent from the home, and notifying the local DSS when the enrollee does not cooperate. This responsibility entails locating the parent(s), determining ability to support, collecting support from legally responsible parent(s), establishing medical support and/or health insurance covering the applicant child(ren), and court action to secure support from the absent legally responsible parent.

The booklet, "Child Support and You", form #032-01-945, gives an overview of DCSE services and the addresses for the district offices.

Subchapter Subject M0270 APPLICATION FOR OTHER BENEFITS	Page ending with M0270.100	Page 1

M0270.000 APPLICATION FOR OTHER BENEFITS

M0270.100 GENERAL PRINCIPLE

A. Policy

Because Medicaid is a “last pay” medical assistance program, it is important that the individual and agency worker assess the other benefits for which an individual is eligible based on his or her own activities or based on indirect qualification through family circumstances.

As a condition of eligibility, an individual must take all necessary steps to apply for and obtain any annuities, pensions, retirement, and disability benefits to which he/she is entitled, unless he/she can show good cause for not doing so.

1. Steps to Pursue Other Benefits

An individual must take all appropriate steps to pursue eligibility for other benefits. This includes

- applying for the benefit, and
- providing the source of the other benefit with the necessary information to determine the individual’s eligibility for the benefit.

2. Refusal To Apply

Refusal to apply for a benefit or refusal to accept a benefit to which the individual is entitled will result in the inability of a local agency to determine the individual’s Medicaid eligibility.

In the case of a minor or an incapacitated individual, a parent or other responsible person must pursue benefits for which the minor or the incapacitated individual might be entitled. If such benefits are not pursued, eligibility must be denied.

A non-applicant parent or spouse cannot be required to apply for any benefit on their own behalf. A child’s or spouse’s Medicaid eligibility cannot be denied due to the failure of the non-applicant parent or spouse to apply for or accept a benefit for which the non-applicant parent or spouse might be entitled.

3. Good Cause For Not Applying

An individual meets this requirement for Medicaid, despite failure to apply for other benefits or take other steps necessary to obtain them, if the individual has good cause for not doing so. For example, good cause exists if:

- the individual is unable to apply for other benefits because of illness;
- it would be useless to apply because the individual had previously applied and the other benefit source turned him down for a reason(s) that has not changed;
- it would result in no additional benefit which would affect the individual’s Medicaid eligibility or amount of Medicaid services.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date July 2021
Subchapter Subject M0270 APPLICATION FOR OTHER BENEFITS	Page ending with M0270.200	Page 2

B. Procedure

The types of benefits for which an individual must apply and/or accept are listed in section M0270.200 below.

The procedures to follow are in section M0270.300 below.

M0270.200 TYPES OF BENEFITS**A. Benefits Excluded From Requirement to Apply**

An applicant is NOT required to apply for benefits or assistance that is based on the individual's need. An individual is not required to apply for cash assistance program benefits such as Supplemental Security Income (SSI) or Temporary Assistance For Needy Families (TANF).

Payments such as child support, alimony, accelerated life insurance, etc., are NOT benefits for which an individual must apply.

B. Types of Benefits For Which An Individual Must Apply**1. Benefit Characteristics**

Benefits for which the individual must apply have the following characteristics in common:

- require an application or similar action;
- have conditions for eligibility;
- make payments on an ongoing or one-time basis.

2. Major Benefit Programs

Annuities, pensions, retirement and disability benefits to which an individual may be entitled and for which he must apply, if he appears to be entitled, include but are not limited to:

- a. Veterans' Compensation and Pensions, including apportionment of augmented dependents' benefits
- b. Social Security Title II benefits, *including full or reduced retirement benefits, survivors benefits, and disability benefits. See M0310.122 for more information about these benefits.*
- c. Railroad Retirement Benefits
- d. Unemployment Compensation
- e. Worker's Compensation
- f. Black Lung Benefits
- g. Civil Service and Federal Employee Retirement System Benefits
- h. Military Pensions

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date April 2020
Subchapter Subject M0270 APPLICATION FOR OTHER BENEFITS	Page ending with M0270.300	Page 3

- i. *Coverage under Medicare A, B or D, or any combination of Medicaid A, B, and D, if it is likely that the individual would meet the eligibility criteria for any or all of those programs.*

3. Other Benefits

Other benefits to which an individual may be entitled and for which he must apply, if he appears to be entitled, include but are not limited to:

- a. private insurance company disability, income protection, etc., benefits when the individual has such a policy;
- b. private pension plan benefits;
- c. union benefits.

M0270.300 AGENCY PROCEDURES

A. Written Notice

The local agency Eligibility Worker (EW) must advise the individual in writing on a dated notice that the individual must apply for other benefits for which he or she is potentially eligible. The written notice must list the benefits for which the individual must apply.

B. Identify Potential Eligibility For Other Benefits

Obtain clues to an individual's possible eligibility for other benefits from:

- information obtained from the interview, including responses to leading questions on the application;
- the recipient's responses on a redetermination form and/or interview;
- inquiries received from another agency;
- agency knowledge of pension plans and benefits;
- third party reports;
- computer system inquiries.

C. Disability Referral Processing

Do not hold the Disability Determination Services (DDS) referral while waiting for the applicant to provide proof of his/her application for disability benefits; send it immediately to the DDS.

D. Medicare

Individuals are required to apply for coverage under Medicare A, B or D, or any combination of Medicaid A, B, and D, if it is likely that the individual would meet the eligibility criteria for any or all of those programs. The following individuals may be covered by Medicare:

- *people age 65 or older,*
- *individual under age 65 with disabilities who have been entitled to Social Security or Railroad Retirement Board disability benefits for 24 months. For individuals diagnosed with amyotrophic lateral sclerosis (ALS), Medicare coverage begins the first month the individual receives disability benefits.*

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date April 2020
Subchapter Subject M0270 APPLICATION FOR OTHER BENEFITS	Page ending with M0270.300	Page 4

- *individuals with End Stage Renal Disease (permanent kidney failure requiring dialysis or transplant).*

The state agrees to pay any applicable premiums and cost-sharing (except those applicable under Part D) for individuals required to apply for Medicare.

Application for Medicare is a condition of eligibility unless the state does not pay the Medicare premiums, deductibles or co-insurance (except those applicable under Part D) for persons covered by the Medicaid eligibility group under which the individual is applying.

E. Verification

The individual must provide verification of application for the benefits specified on the notice prior to enrollment.

Verify the application for benefits via a systems search whenever possible. Written or verbal verification from the agency or organization issuing the benefit(s) is also acceptable. When verbal verification is provided, document the case record with the name of the individual who provided the verification and the date. Retain documentation of the application for other benefits in the case record.

If the individual cannot apply for the benefit before the end of the allowed processing time due to circumstances beyond his control (i.e. the agency or organization issuing the benefit cannot give him appointment within that time frame) accept verification of the appointment and enroll the individual if he is otherwise eligible. Follow up with the individual after the application for the benefit to obtain verification.

M0280.000 INSTITUTIONAL STATUS REQUIREMENTS

M0280.001 GENERAL PRINCIPLES

A. Introduction

To be eligible for Medicaid, an institutionalized individual must meet the institutional status requirement. An individual does not necessarily have to live in an institution (facility) to be considered an "inmate of a public institution." While inmates of public institutions are generally NOT eligible for Medicaid, incarcerated individuals may be eligible for Medicaid payment limited to inpatient hospitalization, provided they meet all other eligibility requirements.

B. Procedure

This subchapter, M0280, contains the Medicaid institutional status policy, inmate of a public institution policy and procedures for determining whether an individual meets the Medicaid institutional status eligibility requirement.

M0280.100 DEFINITION OF TERMS

A. Child Care Institution

A child care institution is a

- non-profit private child-care institution, or
- a public child care institution that accommodates no more than 25 children which has been licensed by the state in which it is located or has been approved by the agency of the state responsible for licensing or approval of institutions of this type, as meeting the standards established for licensing.

The term "child care institution" does NOT include detention facilities, forestry camps, training schools or any other facility operated primarily for the detention of children who are determined to be delinquent.

B. Inpatient

Inpatient means a patient who has been admitted to a medical institution as an inpatient on recommendation of a physician or dentist and who is admitted and receives room, board and professional services in the institution for a 24 hour period or longer, or is expected by the institution to receive room, board and professional services in the institution for a 24 hour period or longer even though it later develops that the patient dies, is discharged or is transferred to another medical facility and does not actually stay in the institution for 24 hours.

C. Institution

An institution is an establishment that furnishes (in single or multiple facilities) food, shelter and some treatment or services to four or more persons unrelated to the proprietor.

D. Institution for the Treatment of Mental Diseases (IMD)

An IMD is a hospital, nursing facility or other institution with more than 16 beds that is primarily engaged in providing diagnosis, treatment or care, including medical attention, nursing care and related services, to persons with mental diseases. A psychiatric residential treatment facility for children and adolescents is an IMD. An institution for individuals with intellectual disabilities is NOT an IMD. *A list of IMDs in Virginia is contained in M0280, Appendix 2*

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date May 2015
Subchapter Subject M0280 INSTITUTIONAL STATUS REQUIREMENTS	Page ending with M0280.100	Page 2

E. Institution for Individuals with Intellectual Disabilities

An “institution for individuals with intellectual disabilities” means an institution that is primarily for the diagnosis, treatment, or rehabilitation of individuals with Intellectual Disabilities or persons with related conditions that provides, in a protected residential setting, ongoing evaluation, planning, 24-hour supervision, coordination, and integration of health or rehabilitative services to help each individual function at his greatest ability. An intermediate care facility for individuals with intellectual disabilities (ICF-ID) is not an IMD. Therefore, an individual under age 65 who is in an ICF-ID meets the institutional status eligibility requirement.

F. Medical Facility

A medical facility is an institution that:

- is organized to provide medical care, including nursing and convalescent care,
- has the necessary professional personnel, equipment, and facilities to manage the medical, nursing and other health needs of patients,
- is authorized under state law to provide medical care, and
- is staffed by professional personnel who are responsible to the institution for professional medical and nursing services.

G. Public Institution (Facility)

A public institution is an institution that is the responsibility of a governmental unit or over which a governmental unit exercises administrative control, and which is NOT a medical facility.

The following are NOT public facilities for this section's purposes:

- a medical facility, including a nursing facility;
- a publicly operated community residence (serves no more than 16 residents);
- a child care institution, for children who receive foster care payments under Title IV-E, that accommodates no more than 25 children;
- an institution certified as an ICF-ID for individuals with mental retardation or related conditions.

H. Publicly Operated Community Residence

A publicly operated community residence is a public residential facility (institution) with 16 beds or less, that provides some services beyond food and shelter such as social services, help with personal living activities or training in socialization and life skills. Occasional medical or remedial care may also be provided.

Publicly operated community residences do NOT include the following facilities even though these facilities have 16 or *fewer* beds:

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date April 2021
Subchapter Subject M0280 INSTITUTIONAL STATUS REQUIREMENTS	Page ending with M0280.200	Page 3

- residential facilities located on the grounds of, or adjacent to, any large (more than 16 beds) institution;
- correctional or holding facilities for individuals who are prisoners, who have been arrested or detained pending disposition of charges, or who are held under court order as material witnesses or juveniles
- educational or vocational training institutions that primarily provide an approved, accredited or recognized program to individuals residing there
- hospitals, nursing facilities, and intermediate care facilities for individuals with intellectual disabilities.

NOTE: An individual residing in a public educational or vocational training institution for purposes of securing education or vocational training is NOT an inmate of a public institution, and therefore may be eligible for Medicaid, even though the educational or training facility is not a publicly operated community residence.

I. Residential Institution

An institution that does not meet the definition of a “medical facility.”

M0280.200 INSTITUTIONAL STATUS RULE

A. Introduction

Federal regulations in 42 CFR 435.1008 prohibit federal financial participation (FFP) for individuals who are inmates of a public institution, *with certain exceptions for patients in an IMD.*

Federal regulations limit FFP for individuals who are age 22 years or over but under age 65 years and who are patients in an institution for the treatment of mental diseases (IMD). An individual who is age 22 or over, but under age 65 and who is enrolled in Medicaid at the time of admission to an IMD may remain enrolled in Medicaid. The Department of Medical Assistance Services (DMAS) will coordinate with the Centers for Medicare and Medicaid Services (CMS) to ensure that no unauthorized FFP occurs.

There is no prohibition on FFP for individuals under age 22 years if they are receiving inpatient psychiatric services.

NOTE: an ICF-ID is not an IMD.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date April 2021
Subchapter Subject M0280 INSTITUTIONAL STATUS REQUIREMENTS	Page ending with M0280.201	Page 4

B. Procedures

The policy and procedures for determining whether an individual is in an IMD are contained in subchapter M1430.

The policy and procedures for determining whether an individual is an inmate of a public institution are contained in the following sections:

- M0280.201 Individuals in Medical Facilities
- M0280.202 Individuals in Residential Facilities
- M0280.300 Inmate of A Public Institution
- M0280.301 Who Is NOT An Inmate of A Public Institution
- M0280.400 Procedures For Determining Institutional Status
- M0280.500 Individuals Moving To or From Public Institutions
- M0280.600 Departmental Responsibility.

See Appendix 1 to this subchapter for an Institutional Status Quick Reference Guide.

M0280.201 INDIVIDUALS IN MEDICAL FACILITIES**A. Public or Private**

The public or private ownership or administration of a **medical** facility is irrelevant because a medical facility is not a public institution as defined in this subchapter.

B. Individuals in IMDs

The following individuals in public or private IMDs are NOT eligible for *enrollment into* Medicaid because they do not meet the institutional status requirement:

- an individual who is age 22 or over, but under age 65;
- an individual who is under age 22 who is NOT receiving inpatient psychiatric services in the IMD.

An individual who is age 22 or over, but under age 65 and who is enrolled in Medicaid at the time of admission to an IMD may remain enrolled in Medicaid. The Department of Medical Assistance Services (DMAS) will coordinate with the Centers for Medicare and Medicaid Services (CMS) to ensure that no unauthorized FFP occurs.

1. Patient Under Age 22 or 65 Years and Older in an IMD

An individual is in an IMD when he/she is admitted to live there and receive treatment or services provided there that are appropriate to his/her requirements. A patient in an IMD is an individual who is receiving needed professional services that are directed by a licensed practitioner of the healing arts toward maintenance, improvement, or protection of health or lessening of illness, disability, or pain. An individual is *considered to be* in an IMD from the date of admission to the IMD until discharge from the IMD.

An individual who is age 65 or older and who is a patient in a public or private IMD meets the institutional status requirement for Medicaid. An individual who is under age 22, who is a patient in a public or private IMD and who is receiving inpatient psychiatric services in the IMD meets the institutional status requirement for Medicaid.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date April 2021
Subchapter Subject M0280 INSTITUTIONAL STATUS REQUIREMENTS	Page ending with M0280.201	Page 4a

2. Patient Age 22-65 Years

*An individual who is age 22 or over, but under age 65 and who is enrolled in a Medicaid at the time of admission to an IMD may remain enrolled in Medicaid. **Do not cancel coverage.** The Department of Medical Assistance Services (DMAS) will coordinate with the Centers for Medicare and Medicaid Services (CMS) to ensure that no unauthorized FFP occurs.*

For an individual age 22 or over, but under age 65 and who is a patient residing in an IMD at the time of application, follow the policy and procedures in M1510.102 A.5.

3. Conditional Release From IMD

A patient in an IMD who is transferred or discharged to a medical facility that is not an IMD, including a patient under conditional release or convalescent leave from the IMD, meets the institutional status requirement and may be eligible for Medicaid.

C. ICF-ID

An ICF-ID is not an IMD. Therefore, an individual under age 65 who is in an ICF-ID meets the institutional status eligibility requirement.

D. Residential Facilities With Certified Medical Beds

Some institutions have both medical and residential sections. Individuals in the residential section (or beds) are residents of a residential facility. If the resident receives Medicaid Community-based Care (CBC) waiver services, use chapter M14 to determine the individual's eligibility. If the resident does not receive Medicaid CBC, he is not in long-term care; use the Medicaid eligibility requirements for non institutionalized individuals.

Individuals in the medical certified portion (or beds) of an institution are patients in a medical facility. Use chapter M14 in determining their Medicaid eligibility.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date May 2015
Subchapter Subject M0280 INSTITUTIONAL STATUS REQUIREMENTS	Page ending with M0280.202	Page 5

E. Cross Reference

If the individual has been, or is expected to be, in the medical facility or medical section of the facility for 30 or more consecutive days, the individual is receiving long-term care. Chapter 14 contains additional eligibility policy for individual in long term care.

M0280.202 INDIVIDUALS IN RESIDENTIAL FACILITIES**A. Institutions With Medical and Residential Sections**

Some institutions have both medical and residential sections. An individual in the medical certified section (or beds) of the institution is a patient in a medical facility. If the individual has been, or is expected to be, in the medical facility for 30 or more consecutive days, the individual is receiving long-term care. Go to chapter M14 to determine the individual's eligibility.

An individual in the residential portion (or beds) of the institution is a resident of a residential facility. Use this subchapter to determine the resident's institutional status.

B. Private Residence or Group Home

An individual who lives in a private residence in the community that is not an institution (it is an establishment that provides food, shelter and some services to three or less persons unrelated to the proprietor) is not living in an institution. **A group home that has a capacity of no more than three residents is not an institution.**

C. Private Residential Facility

A resident of any age in a private residential facility meets the institutional status requirement for Medicaid UNLESS the individual is incarcerated, as defined below.

D. Public Residential Facility

A resident of any age in a PUBLIC residential facility meets the institutional status requirement for Medicaid UNLESS:

- the public residential facility has more than 16 beds, or
- the individual is an inmate - an incarcerated adult or a juvenile in detention - as described in section M0280.300 below, and is not an individual listed in M0280.301 below.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date October 2019
Subchapter Subject M0280 INSTITUTIONAL STATUS REQUIREMENTS	Page ending with M0280.300	Page 6

M0280.300 INMATE OF A PUBLIC INSTITUTION

A. Policy

Inmates of public institutions fall into three groups:

- individuals living in ineligible public institutions;
- incarcerated adults; and
- juveniles in detention.

An individual is an inmate of a public institution from the date of admission to the public institution until discharge, or from the date of actual incarceration in a prison, county or city jail or juvenile detention facility until permanent release, bail, probation or parole. An individual is considered incarcerated until permanent release, bail, probation or parole.

Incarcerated individuals (adults and juveniles) who are hospitalized can be eligible for Medicaid payment limited to services received during an inpatient hospitalization, provided they meet all other Medicaid eligibility requirements.

An individual released from jail under a court probation order due to a medical emergency is NOT an inmate of a public institution because he is no longer incarcerated.

B. Public Residential Facility Residents

An individual who lives in a public residential facility that serves more than 16 residents is NOT eligible for Medicaid.

A public residential facility that does not meet the definition of a “publicly operated community residence” in section M0280.100 above, is an “ineligible public institution.”

The following are ineligible public institutions:

- public residential institutions with more than 16 beds
- residential facilities located on the grounds of, or adjacent to, a public institution with more than 16 beds:

C. Incarcerated Adults

Offenders can be eligible for Medicaid payment limited to services received during an inpatient hospitalization of 24 hours or longer.

Offenders include:

- individuals under the authority of the Department of Corrections (DOC)
- individuals held in regional and local jails, including those on work release

Individuals are not eligible for full benefit Medicaid coverage while they are living in a correctional facility, regional or local jail. *For a juvenile in a facility, refer to M0280.300.D below and Appendix 1.*

Virginia Medical Assistance Eligibility	M02	July 2020
Subchapter Subject M0280 INSTITUTIONAL STATUS REQUIREMENTS	Page ending with M0280.300	Page 7

An offender who transfers temporarily to a halfway house, residential re-entry center (RRC), or residential treatment facility prior to a formal probation release order is still an inmate of a public institution and can only be eligible for Medicaid payment limited to services received during an inpatient hospitalization. Note: some drug or alcohol rehabilitation centers may be referred to as a “halfway house”; the eligibility worker should confirm the individual is not an inmate or incarcerated.

Once an incarcerated individual who is enrolled in Medicaid is released from the correctional facility, he may be eligible for all benefits available under the Medicaid covered group he meets.

D. Juveniles in Detention

In determining whether a juvenile (individual under age 21 years) is incarcerated, the federal Medicaid regulations distinguish between the nature of the detention, pre- and post- disposition situations, and types of facilities.

1. Held for Care, Protection or Best Interest

A juvenile who is in a detention center due to care, protection or in the best interest of the child can be eligible for full benefit Medicaid or Family Access to Medical Insurance Security (FAMIS) coverage.

2. Held for Criminal Activity

a. Prior to Court Disposition

The following juveniles can be eligible for Medicaid payment limited to services received during an inpatient hospitalization.

- juvenile who is in a detention center due to criminal activity
- juvenile who has criminal charges pending (no court disposition has been made) who is ordered by the judge to go to a treatment facility, then come back to court for disposition when the treatment is completed

b. After Court Disposition

Juveniles who are on probation with a plan of release which includes residence in a detention center are inmates of a public institution. If they go to any of the secure juvenile correctional facilities, they are inmates of a public institution and can only be eligible for Medicaid payment limited to inpatient hospitalization. A list of secure detention facilities in Virginia is available on the Department of Juvenile Justice’s web site at http://www.djj.virginia.gov/pdf/Residential/Detention_Home_Contacts.pdf. Because this list is subject to change, consult the list whenever eligibility must be evaluated for a juvenile who is reportedly in a detention center.

If the juvenile goes to a non-secure group home, he can be eligible for Medicaid or FAMIS because a non-secure group home is not a detention center.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date May 2015
Subchapter Subject M0280 INSTITUTIONAL STATUS REQUIREMENTS	Page ending with M0280.301	Page 8

3. Type of Facility

The type of facility, whether it is residential or medical and whether it is public or private must be determined. A juvenile is not eligible *for full-benefit Medicaid* if he/she is a resident of an ineligible public residential facility. *He can be eligible for Medicaid coverage limited to inpatient hospitalization if he is admitted to a medical facility for inpatient services.*

EXAMPLE #1: A juvenile is detained for criminal activity. He is placed on probation with specific conditions of release, including a stay of 30 days or longer at a detention facility. The facility is identified as a juvenile detention center, not a treatment center. Upon release from the detention center, he will be placed on probation and will live with his mother. Because of the nature of his custody (criminal activity) and the nature of the facility (a detention center is a public institution) he is not eligible for *full-benefit Medicaid/FAMIS* during the period of incarceration, *but can be eligible for Medicaid coverage for inpatient hospitalization.* After he is released from the detention center and while he is on probation, he is NOT an inmate of a public institution and may be eligible for *full benefit Medicaid/FAMIS.*

M0280.301 WHO IS NOT AN INMATE OF A PUBLIC INSTITUTION

A. Who Is NOT An Inmate of a Public Institution

An individual is NOT an inmate of a public institution if:

- he is in a public educational or vocational training institution for purposes of securing education or vocational training OR
- he is in a public institution for a temporary period pending other arrangements appropriate to his needs.

B. Educational or Vocational Institution

An individual residing in a public educational or vocational training institution for purposes of securing education or vocational training is NOT an inmate of a public institution, and therefore may be eligible for Medicaid.

C. Temporary Stay

An individual residing in a public institution for a temporary period pending other arrangements appropriate to his needs is NOT an inmate of a public institution, and therefore may be eligible for Medicaid.

D. Admitted Under TDO

An individual over age 18 who was arrested or detained, but did not reside overnight in a prison or jail before being admitted to a public institution under a temporary detention order (TDO) is NOT an inmate of a public institution because he did not reside in the jail or prison immediately before admission to the treatment facility.

E. Arrested Then Admitted to Medical Facility

An individual who, after arrest but before booking, is escorted by police to a hospital for medical treatment and held under guard is NOT an inmate of a public institution and may be eligible for Medicaid. He is not an inmate of a public institution because he did not reside in a jail, prison or secure detention facility immediately prior to admission to the medical facility.

F. Inmate Out On Bail

An inmate in a prison or jail prior to arraignment, conviction, or sentencing is not eligible for Medicaid unless he/she is out on bail or released on his/her own recognizance.

Manual Title	Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date July 2020
Subchapter Subject	M0280 INSTITUTIONAL STATUS REQUIREMENTS	Page ending with M0280.301	Page 9

G. Probation, Parole, Conditional Release, Furlough

An individual released from prison or jail on probation, parole, or release order, with a condition of:

- home arrest
- community services
- outpatient treatment
- inpatient treatment (not inpatient hospitalization)

is not an inmate of a public institution and may be eligible for Medicaid.

An individual released from prison or jail under a court order due to a medical emergency, *medical treatment*, or *pregnancy* is NOT an inmate of a public institution and may be eligible for Medicaid.

An individual released from a correctional facility on furlough, for example during a pregnancy, is not an inmate of a public institution while furloughed and may be eligible for Medicaid.

H. Juvenile in Detention Center Due to Care, Protection, Best Interest

A minor in a juvenile detention center prior to disposition (judgment) due to care, protection or the best interest of the child (e.g., Child Protective Services [CPS]), if there is a specific plan for that child that makes the detention center stay temporary, is NOT an inmate of a public institution and may be eligible for Medicaid.

This could include a juvenile awaiting placement but who is still physically present in the juvenile detention center.

I. Juvenile on Probation in Secure Treatment Center

A minor placed on probation by a juvenile court and placed in a secure treatment facility is NOT an inmate of a public institution and may be eligible for Medicaid.

J. Juvenile On Conditional Probation

A minor placed on probation by a juvenile court with, as a condition of probation, treatment in a psychiatric hospital or a residential treatment center, or treatment as an outpatient may be eligible for Medicaid.

However, if the minor is NOT on probation but is ordered to the treatment facility, he remains an inmate of a public institution and not eligible for full benefit Medicaid. He may be eligible for Medicaid coverage limited to inpatient hospitalization.

K. Juvenile On Probation in Secure Treatment Center

A minor placed on probation by a juvenile court and placed in a secure treatment facility may be eligible for Medicaid.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date July 2020
Subchapter Subject M0280 INSTITUTIONAL STATUS REQUIREMENTS	Page ending with M0280.600	Page 10

M0280.500 INDIVIDUALS MOVING TO OR FROM PUBLIC INSTITUTIONS

A. Moves To Public Institution

If a currently eligible individual enters a public institution, a partial review must be completed to determine if he continues to meet institutional status requirements for continued coverage, as well as all other Medicaid eligibility requirements.

Outstanding bills for covered medical services incurred prior to his admission and during his Medicaid coverage period will be paid.

B. Moving From Public Institution

Although a person may not be eligible for Medicaid while living in a specified public institution or part thereof, he may apply for such assistance as a part of prerelease planning. If he is found eligible (except for institutional status), do not enroll until he leaves the institution to live elsewhere.

C. Resident Admitted to Medical Facility

A resident of an ineligible public institution may be eligible for Medicaid coverage limited to inpatient hospitalization when admitted to a medical institution (general hospital or nursing facility) for inpatient care.

M0280.600 DEPARTMENTAL RESPONSIBILITY

A. Incarcerated Individuals

The Cover Virginia Incarcerated Unit (CVIU) is responsible for case management of incarcerated individuals with active Medicaid coverage enrolled in aid categories 108 and 109, regardless of the facility where the offender resides. See M0140 for *additional information*.

B. All Other Institutions

Local social services departments are responsible for the Medicaid eligibility determination and enrollment of individuals in institutions **EXCEPT** for incarcerated individuals in aid category 108 or 109. The local DSS agency in the Virginia locality where the individual last resided outside of an institution is the responsible DSS agency. If the individual resided outside of Virginia immediately before admission to the institution, the responsible local DSS is the DSS agency serving the locality where the institution is located.

When a local department carries responsibility for eligibility determination and enrollment of an individual living in an institution, the department is also responsible for:

- advising the institution of the individual's eligibility for Medicaid and enrollment in the program;
- submitting a DMAS-225 form to the institution to indicate the patient's eligibility and availability of current patient pay information in the Medicaid Management Information System (MMIS), if applicable; and
- seeing that the Medicaid card is forwarded to the institution for the enrollee's use.

M0210.000 GENERAL RULES & PROCEDURES

M0210.001 PRINCIPLES OF MEDICAID ELIGIBILITY DETERMINATION

A. Introduction

Medicaid is an assistance program which pays medical service providers for services rendered to eligible needy individuals. An individual's need for medical care, the state of his health, or his coverage by private health insurance, have no effect on his Medicaid eligibility.

The eligibility determination consists of an evaluation of an individual's situation which compares each of the individual's circumstances to an established standard or definition. The evaluation provides a structured decision-making process. An individual must be evaluated for eligibility in all covered groups for which he meets the definition, and the applicant/enrollee shall be informed of all known factors that affect eligibility.

B. Eligibility Requirements

Although all the requirements that follow may not be applicable in a particular individual's situation, they must be looked at and evaluated.

1. Nonfinancial Eligibility Requirements

The Medicaid nonfinancial eligibility requirements are:

- a. Legal presence in the U.S., effective January 1, 2006 (M0210.150).
- b. Citizenship/alien status (M0220).
- c. Virginia residency (M0230).
- d. Social Security number (SSN) provision/application requirements (M0240).
- e. Assignment of rights to medical benefits and pursuit of support from the absent parent requirements (M0250).
- f. Application for other benefits (M0270).
- g. Institutional status requirements (M0280).
- h. Covered group requirements (M03).

2. Financial Eligibility Requirements

The Medicaid financial eligibility requirements are:

- a. Asset transfer for individuals who need long-term care (subchapter M1450).
- b. Resources within resource limit appropriate to the individual's covered group. (Chapter M06 for F&C covered groups; Chapter S11 for ABD covered groups).
- c. Income within income limit appropriate to the individual's covered group. (Chapters *M04 and M07* for F&C covered groups; Chapter S08 for ABD covered groups).

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date October 2013
Subchapter Subject M0210 NONFINANCIAL ELIGIBILITY REQUIREMENTS	Page ending with M0210.100	Page 2

3. Example

EXAMPLE: On January 5, 2006, Mr. H applies for Medicaid. He is in a nursing facility in Virginia, and has been there since July 5, 2005. When evaluating his application, the worker finds that he:

- is a U.S. citizen,
- is currently a Virginia resident residing in a medical institution in Virginia,
- provided his SSN,
- refused to provide third party liability and medical support information,
- has applied for all benefits to which he is entitled,
- meets the institutional status requirements,
- is age 67 years and meets a covered group requirement.

He currently has \$5,000 in the bank. His income is \$600 per month Social Security (SS). Since he refused to provide third party liability and medical support information, he does not meet the assignment of right requirements and his application must be denied. He is also informed of the resource limit and that he is ineligible for Medicaid because his resources exceed the limit.

M0210.100 INELIGIBLE PERSONS

A. Introduction

The individuals listed in this section are not eligible for Medicaid. However, their income and resources may be considered in determining the eligibility of others in the household who have applied for Medicaid.

B. Certain Recipients of General Relief (GR)

A recipient of General Relief (GR) maintenance who does not meet a Medicaid covered group is not eligible for Medicaid.

An applicant for Medicaid and Supplemental Security Income (SSI) who receives GR from the interim assistance component may become eligible for Medicaid following the establishment of SSI eligibility. Eligibility for an SSI payment is effective the month **following** the SSI application month. When the Medicaid application is dated in the same month as the SSI application, Medicaid eligibility can be effective the month of application if the applicant meets all Medicaid eligibility requirements and another covered group requirement in the application month.

C. Essential Spouse of an ABD Individual

An essential spouse of an aged, blind, or disabled person who does not himself/herself meet a covered group is not eligible for Medicaid.

D. Individual Who Refuses to Assign Rights

By signing the application for medical assistance, an applicant assigns his rights to third party payments. Should the individual for any reason subsequently refuse to assign rights to third-party payments or support for himself or anyone for whom he can legally assign rights, he is not eligible for Medicaid. Failure to assign rights for another person will not affect the eligibility of that other person.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date October 2013
Subchapter Subject M0210 NONFINANCIAL ELIGIBILITY REQUIREMENTS	Page ending with M0210.150	Page 3

E. Individual Who Refuses to Pursue Support From an Absent Parent

An individual applying for Medicaid for himself and on behalf of a child meets the requirement to cooperate with the pursuit of medical support from an absent parent for the child by signing the application. If DMAS requires the individual, other than a categorically needy pregnant woman, to take further action to cooperate with the pursuit of medical support, the individual must cooperate to continue to be eligible for Medicaid. If the individual refuses to cooperate in the pursuit of medical support, he is not eligible for Medicaid. Eligibility could exist if the individual meets a covered group and the individual chooses not to apply for the child.

F. Individual Found Guilty of Medicaid Fraud

An individual found guilty by a court of Medicaid fraud is not eligible for Medicaid. Ineligibility will last for a period of 12 months beginning with the month of conviction.

G. Individual Who Refuses to Supply or Apply For an SSN

Any individual, except a child under age 1 born to a Medicaid or FAMIS eligible mother, or an illegal alien, who does not apply for an SSN account number or who fails or refuses to furnish all SSNs to the Department of Social Services is not eligible for medical assistance coverage.

M0210.150 LEGAL PRESENCE

A. Legal Presence (Effective January 1, 2006)

Effective January 1, 2006, Section 63.2-503.1 of the Code of Virginia requires most applicants for or recipients of public assistance who are age 19 or older to provide proof of citizenship or legal presence in the U.S. Applicants or recipients age 19 or older for whom medical assistance is requested must prove their citizenship or legal presence. Individuals who, on June 30, 1997, were Medicaid eligible and were residing in long-term care facilities or participating in home and community-based waivers, and who continue to maintain that status (eligible for Medicaid and reside in long-term care facilities or participate in home and community-based waivers) are **exempt** from this requirement. **Non-citizens applying for Medicaid payment for emergency services are not subject to the legal presence requirement.**

An individual who is applying on behalf of another and is not requesting assistance for himself is not subject to the legal presence requirement.

B. Documents That Demonstrate Legal Presence

An applicant may demonstrate legal presence by presenting one of the following documents:

- valid evidence of U.S. citizenship;
- valid evidence of legal permanent resident status;
- valid evidence of conditional resident alien status;
- a valid SSN verified by the Social Security Administration (SSA);
- a U.S. non-immigrant visa;
- a Resident Alien Card, form I-551, showing lawful permanent residence (green card);
- a pending or approved application for legal asylum;

Manual Title	Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date January 2021
Subchapter Subject M0210 NONFINANCIAL ELIGIBILITY REQUIREMENTS		Page ending with M0210.200	Page 4

- a refugee or temporary protected status document; or
- a pending application for an adjustment of residence status.

C. Failure to Provide Proof of Legal Presence

At the time of application, an applicant who cannot provide documentation that he is a citizen or legally present must sign an affidavit under oath attesting that he is a U.S. citizen or legally present in the United States in order to meet the requirement for proof of legal presence for either:

- a period of 90 days or until it is determined that he is not legally present in the U.S., whichever is earlier; or
- indefinitely if the applicant provides a copy of a completed application for a birth certificate within the United States or its territories that has been filed and is pending. The affidavit's validity shall terminate upon the applicant's receipt of a birth certificate or determination that a birth certificate does not exist because the applicant is not a citizen of the United States.

The Affidavit Of United States Citizenship Or Legal Presence In The United States is available at

<https://fusion.dss.virginia.gov/bp/BP-Home/Medical-Assistance/Forms>.

NOTE: The individual's address on the affidavit form must be the individual's **residence** address, not the mailing address.

D. Relationship to Other Medicaid Requirements

Providing proof of legal presence or submitting a signed affidavit meets the legal presence eligibility requirement. To be eligible for Medicaid, however, the individual must meet all other state and federal Medicaid eligibility requirements. Submission of the affidavit without proof of application for an SSN as required by M0130.200.D does **NOT** meet the SSN requirement.

M0210.200 COVERED GROUPS

A. Introduction

An individual who meets the nonfinancial eligibility requirements must also meet the definition for a Medicaid covered group. Covered groups include individuals who are age 65 or older, blind, disabled, under age 19, pregnant women, and the parent(s) or caretaker-relative of a dependent child. Medicaid financial eligibility requirements vary depending upon the covered group for which eligibility is being determined.

See chapter M03 for the covered groups' definitions, policy and procedures.

M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS

M0220.001 GENERAL PRINCIPLES

A. Introduction

This subchapter explains in detail how to determine if an individual is a citizen or alien eligible for full Medicaid benefits (referred to as “full benefit aliens”) or emergency services only (referred to as “emergency services aliens”). The federal Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (PRWORA) made major changes to the Medicaid eligibility of non-citizens of the United States. These changes eliminated the “permanently residing under color of law” (PRUCOL) category of aliens. The Medicaid benefits for which an alien is eligible are based upon whether or not the alien is a “qualified” alien as well as the alien’s date of entry into the United States.

With some exceptions, the Deficit Reduction Act of 2005 (DRA) required applicants for Medicaid and Medicaid recipients to verify their United States citizenship and identity to be able to qualify for Medicaid benefits. The citizenship and identity (C&I) verification requirements became effective July 1, 2006. The Children’s Health Insurance Program Reauthorization Act of 2009 (CHIPRA) allows additional exemptions from the C&I verification requirements and provides states with the option to verify C&I through the use of an electronic data match with the Social Security Administration (SSA). It also requires states to enroll otherwise eligible individuals prior to providing C&I verification *or immigration status*, and grant them a “reasonable opportunity” period after enrollment to provide documentation, if necessary.

The policy and procedures for determining whether an individual is a citizen or a “full-benefit” or “emergency services” alien are contained in the following sections:

M0220.100 Citizenship & Naturalization;
M0220.200 Alien Immigration Status
M0220.300 Full Benefit Aliens
M0220.400 Emergency Services Aliens
M0220.500 Aliens Eligibility Requirements
M0220.600 Aliens Entitlement & Enrollment
M0220, *Appendix 9* Emergency Services Aliens Entitlement & Enrollment

B. Declaration of Citizenship/Alien Status

The Immigration Reform and Control Act (IRCA) requires as a condition of eligibility that the adult applicant who is head of the household (with exceptions below) declare in writing under penalty of perjury whether or not the individual(s) for whom he is applying is a citizen or national of the United States, and if not, that the individual is a lawfully admitted alien. For children under 18 years of age, the declaration is made by an adult family member. The declaration statement is on the application form.

EXCEPTION: An individual who is an “unqualified” alien (as defined in section M0220.410) does NOT complete the declaration.

Individuals who are required to sign the declaration and who fail or refuse to sign are NOT eligible for any Medicaid services.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	October 2013
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.100	2

M0220.100 CITIZENSHIP AND NATURALIZATION

A. Introduction

A citizen or naturalized citizen of the United States meets the citizenship requirement for medical assistance (*MA*) eligibility, and is eligible for all *MA* services if he meets all other eligibility requirements.

B. Citizenship Determination

1. Individual Born in the United States

An individual born in the United States, any of its territories (Guam, Puerto Rico, United States Virgin Islands, or Northern Mariana Islands), American Samoa, or Swain's Island is a United States citizen.

A child born in the United States to non-citizen parents who are in the United States as employees of a foreign country's government may not meet the United States citizen requirement. When a child born in the United States to non-citizen parents is a United States citizen by birth, the child may not meet the Virginia residency requirements in M0230.201 because of the parents' temporary stay in the United States.

2. Individual Born Outside the U.S.

a. Individual Born to or Adopted by U.S. Citizen Parents

A child or individual born outside the United States to U.S. citizen parents (the mother, if the child was born out-of-wedlock) automatically becomes a citizen by birth. A child under age 18 years who is a lawful permanent resident, who is currently residing permanently in the U.S. in the legal and physical custody of a U.S. citizen parent, and who meets the requirements applicable to adopted children under immigration law automatically becomes a citizen when there is a final adoption of the child, and does not have to apply for citizenship.

b. Individual Born to Naturalized Parents

A child born outside the United States to alien parents automatically becomes a citizen after birth, if his parents (the mother, if the child was born out-of-wedlock) are naturalized before he becomes 16 years of age.

c. Naturalized Individual

A child or individual born outside the U.S. and not automatically a citizen as in a) or b) above must have been naturalized to be considered a citizen.

C. Verification

1. Requirements

The DRA requires that satisfactory documentation of citizenship and identity must be obtained for all enrollees who claim to be U.S. citizens. Enrollees who claim U.S. citizenship must have a declaration of citizenship AND documentary evidence of citizenship and identity in their case records.

2. Exceptions to Verification Requirements

The following groups of individuals are NOT required to provide verification of C&I. Document in the case record why an individual is exempt from verifying C&I:

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	October 2019
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.100	3

- a. All foster care children and IV-E Adoption Assistance children;
- b. Individuals born to mothers who were eligible for MA in any state on the date of the individuals' birth;
- c. Individuals entitled to or enrolled in Medicare, individuals receiving Social Security benefits on the basis of a disability and SSI recipients currently entitled to SSI payments. Former SSI recipients are not included in the exemption. The local department of social services (LDSS) must have verification from the Social Security Administration (such as a SVES response) of an individual's Medicare enrollment, benefits entitlement or current SSI recipient status.

When an individual loses an exception status and his C&I has not previously been verified, the individual must be given a reasonable opportunity to provide C&I.

NOTE: A parent or caretaker who is applying for a child, but who is NOT applying for MA for himself, is NOT required to verify his or her C&I.

3. Verification Required One Time

Once verification of C&I has been provided, it is not necessary to obtain verification again. Documentary evidence may be accepted without requiring the individual to appear in person. C&I documentation must be stored in the case record.

4. Enroll Under Good Faith Effort

If an individual meets all other eligibility requirements and declares that he is a citizen, he is to be enrolled under a good faith effort. **Do not request verification of C&I from the applicant, and do not delay or deny application processing for proof of C&I.**

If the applicant meets all other eligibility requirements:

- Approve the application and enroll the applicant in MA, AND
- Specify on the Notice that the individual may have to provide documentation of C&I if it cannot be obtained by other means, OR
- Include the Reasonable Opportunity Insert, available at [https://fusion.dss.virginia.gov/Portals/\[bp\]/Files/Medical%20Assistance%20Guidance/medicaid_reasonable_opportunity_insertrev_03-09-10.pdf?ver=2019-06-04-151050-230](https://fusion.dss.virginia.gov/Portals/[bp]/Files/Medical%20Assistance%20Guidance/medicaid_reasonable_opportunity_insertrev_03-09-10.pdf?ver=2019-06-04-151050-230) with the Notice.

The individual remains eligible for MA while the agency attempts to verify C&I through the data matching process described in M0220.100 D below, or if necessary, requests verification from the individual. The same good faith effort requirements apply should an individual lose his exemption from providing C&I verification.

D. Procedures for Documenting C&I

CHIPRA allows the option for verification of C&I for individuals newly enrolled in Medicaid or Family Access to Medical Insurance Security Plan (FAMIS) using a data match with SSA to confirm the consistency of a declaration of citizenship with SSA records in lieu of presentation of original documentation. This option, implemented in March 2010, allows for a monthly exchange of data between the Medicaid Management Information System

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	June 2016
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.100	4

(MMIS) and SSA for the documentation of C&I for individuals enrolled in the Medicaid and FAMIS programs. In order for this process to be used to verify citizenship and identity, the individual's SSN must be verified by SSA (see M0240).

For eligibility determinations processed through VaCMS, the Social Security data match takes place when the individual's information is sent through the Hub. For cases not processed in VaCMS, the SSA data match will take place after the individual has been enrolled in MMIS.

1. MMIS Data Matches SSA

If the information in the MMIS matches the information contained in the SSA files, the MMIS will be updated to reflect the verification of C&I. No further action is needed on the part of the eligibility worker, and the enrollee will not be required to provide any additional documentation, if the SSA match code in MMIS shows that SSA verified the individual's C&I.

2. MMIS Data Does Not Match SSA

If the information in the MMIS does not match the information in the SSA files, a discrepancy report will be generated monthly listing the inconsistent information. Eligibility staff is expected to review the report to see if the report lists any enrollees who were rejected because SSA could not verify the enrollee's citizenship and identity.

a. SSA Cannot Verify C&I

If the SSA data match result does not verify the individual's C&I, eligibility workers must review the information in the system to determine if a typographical or other clerical error occurred. If it is determined that the discrepancy was the result of an error, steps must be taken to correct the information in the system so that SSA can verify C&I when a new data match with SSA occurs in the future.

If the inconsistency is not the result of a typographical or other clerical error, the individual must be given a reasonable opportunity period of 90 days to either resolve the issue with SSA or provide verification of C&I. The eligibility worker must send a written notification to the enrollee that informs the enrollee of the discrepancy and gives him 90 calendar days from the date of the notice to either resolve the discrepancy with the SSA and to provide written verification of the correction, OR provide acceptable documentation of C&I to the LDSS.

The notice must specify the date of the 90th day, and must state that, if the requested information is not provided by the 90th day, the individual's Medicaid coverage will be canceled. Include with the notice the "Birth Certificates and Proof of Citizenship for Medicaid" Fact Sheet available on at <https://fusion.dss.virginia.gov/bp/BP-Home/Medical-Assistance/References>. Acceptable forms of documentation for C&I are also included in Appendix 1 to this subchapter.

b. Individual Does Not Provide Verification in 90 Days

If the individual does not provide the information necessary to meet the C&I documentation requirements by the 90th day, his coverage must be canceled. Send an advance notice, and cancel coverage at the end of the month in which the 90th day occurs.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	July 2022
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.200	4a

c. Discrepancy Resolved With SSA Within 90 Days

If written verification is received that corrects the SSA discrepancy within the 90 days, update the system accordingly so that the enrollee's information will be included in a future data match for C&I verification. The individual continues to remain enrolled pending the results of the subsequent data match.

If this subsequent data match with SSA results in verified C&I, MMIS will automatically enter code "CV" in the Cit Lvl and Identity fields in the individual's MMIS record. No further match will be done with the SSA files for C&I verification.

d. Verification of C&I Provided Within 90 Days

If the individual provides acceptable verification of his C&I within the 90 days, update the appropriate demographic fields in MMIS (and ADAPT, if the case is in ADAPT) with the appropriate codes. No further match will be done with the SSA files for C&I verification.

3. Subsequent Applications

If the individual who lost coverage for failure to provide C&I documentation files a subsequent application, a new reasonable opportunity period is not granted. The individual must provide acceptable documentation of C&I prior to approval of the re-application.

M0220.200 ALIEN IMMIGRATION STATUS

A. Introduction

An alien's immigration status is used to determine whether the alien meets the definition of a "full benefit" alien. All aliens who meet the state residency, covered group and all other nonfinancial eligibility requirements (except SSN for illegal aliens), and who meet all financial eligibility requirements are eligible for Medicaid coverage of emergency services. "Full benefit" aliens may be eligible for all Medicaid covered services. "Emergency services" aliens may be eligible for emergency services only.

B. Procedure

An alien's immigration status must be verified. Use the procedures in sections M0220.201 and 202 below to verify immigration status. After the alien's immigration status is verified, use the policy and procedures in section M0220.300 to determine if the alien is a full benefit alien. If the alien is a full benefit alien and is eligible for Medicaid, use the policy and procedures in section M0220.600 to enroll the alien in Medicaid.

If the alien is an emergency services alien who is eligible for Medicaid, use the policy and procedures in section *M0220.600 D* to enroll an eligible emergency services alien in Medicaid for emergency services only.

C. Changes in Immigration Status

If a "full benefit" alien who was admitted to the U.S with immigration status in one of the "seven-year" alien groups listed in M0220.313.A becomes a Lawful Permanent Resident, he is considered to have full benefit status for the purposes of Medicaid eligibility for the first seven years of residency in the U.S.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	July 2022
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.201	4b

M0220.201 IMMIGRATION STATUS VERIFICATION

A. Verification Procedures

An alien's immigration status is verified by the official document issued by the United States Citizenship and Immigration Services (USCIS) and a comparison with the Systematic Alien Verification for Entitlements (SAVE) system. SAVE interfaces with the Federal Hub for applications processed in VaCMS. The EW does not need to obtain the alien status document when immigration status is verified through the Hub. If immigration status cannot be verified through the Hub, the EW must see the original document or a photocopy; submission of just an alien number is NOT sufficient verification.

If the alien has an alien number but no USCIS document, or has no alien number and no USCIS document, use the **secondary verification** SAVE procedure in M0220.202 below if the alien provides verification of his or her identity.

If the agency cannot promptly verify immigration status of an individual in the Hub/SAVE, the agency must provide a 90-calendar-day reasonable opportunity period for the individual's immigration status to be verified and may not delay, deny, reduce or terminate benefits for an individual whom the agency determines to be otherwise eligible for Medicaid during such reasonable the opportunity period.

If the individual does not provide the information necessary to meet the documentation requirements by the 90th day, their coverage must be canceled. Send an advance notice, and cancel coverage at the end of the month in which the 90th day occurs.

NOTE: If the alien claims to be an illegal alien, do not use the verification procedures in this section or the SAVE procedures. Go to section M0220.400 below to determine the illegal alien's eligibility.

B. Documents That Verify Status

Appendix 7 to this subchapter contains a list of typical immigration documents used by lawfully present aliens.

Verify lawful permanent resident status by a Resident Alien Card or Permanent Resident Card (Form I-551), or for recent arrivals a temporary I-551 stamp in a foreign passport or on Form I-94.

Verify lawful admission by a Resident Alien Card (issued from August 1989 until December 1997) or Permanent Resident Card (Form I-551); a Re-entry Permit; or a Form I-688B with a provision of law section 274A.12(A)(1). Afghan and Iraqi immigrants admitted to the U.S. under a Special Immigrant Visa will have either (1) a Form I-551 or (2) a passport or I-94 form indicating categories SI1, SI2, SI3, SQ1, SQ2, or SQ3 and bearing the Department of Homeland Security stamp or notation.

Form I-151 (Alien Registration Receipt Card – the old aka “green card”), Form AR-3 and AR-3a are earlier versions of the Resident Alien Card (Form I-551). An alien with one of the older cards who does not have an I-551 should be referred to USCIS to obtain the application forms for the I-551. The forms may be ordered by calling 1-800-375-5283. When an I-151 is presented, refer the alien to USCIS, but accept the document for further verification (see M0220.201.E below).

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	July 2022
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.202	5

C. Letters that Verify Status

The USCIS and the Office of Refugee Resettlement (ORR) issue letters that are used in lieu of or in conjunction with USCIS forms to identify alien status. If the letter is the only document provided, it is necessary to verify the status of the alien. For USCIS letters, contact the USCIS at 1-800-375-5283 for assistance in identifying the alien's status. For ORR letters, contact the toll-free ORR Trafficking Verification Line at 866-401-5510 (see Appendix 2 of this subchapter). Do not verify ORR letters via the SAVE system.

D. Local USCIS Office Documents

Some USCIS offices have developed their own stamps. Therefore, it is possible that a locally produced stamp or legend will be on an USCIS form. If there is any question as to the veracity or status of the document, contact USCIS.

E. Expired or Absent Documentation

If an applicant presents an expired USCIS document or is unable to present any document showing his immigration status, refer the individual to the USCIS district office to obtain evidence of status **unless** he provides an alien registration number. *Allow the individual a 90-calendar-day reasonable opportunity period to provide the documentation.*

*If the individual meets all other Medicaid eligibility requirements, do not delay, deny, reduce or terminate the individual's eligibility for Medicaid **on the basis of alien status**. If the individual does not provide the information necessary to meet the documentation requirements by the 90th day, their coverage must be canceled. Send an advance notice, and cancel coverage at the end of the month in which the 90th day occurs.*

If the applicant provides an alien registration number with supporting verification of his identity, use the SAVE procedures in M0220.202 below to verify immigration status.

If an applicant presents an expired I-551 or I-151, follow procedures for initiating a primary verification. If the alien presents any expired document other than an expired I-551 or I-151, follow procedures for initiating a secondary verification.

If the alien does not provide verification of his identity, his immigration status cannot be determined, and he must be considered an unqualified alien.

M0220.202 SYSTEMATIC ALIEN VERIFICATION FOR ENTITLEMENTS (SAVE)

A. SAVE

Aliens must submit documentation of immigration status before eligibility for the full package of Medicaid benefits can be determined. SAVE interfaces with the Federal Hub for applications processed in VaCMS. The following procedures are applicable when immigration status cannot fully be verified by the Hub.

If the documentation provided appears valid and meets requirements, eligibility is determined based on the documentation provided AND a comparison of the documentation provided with immigration records maintained by the USCIS. The comparison is made by using the SAVE system established by Section 121 of the Immigration Reform and Control Act of 1986 (IRCA).

1. Primary Verification

Primary verification is the automated method of accessing the USCIS data bank. SAVE regulations require that automated access be attempted prior to initiating secondary verification. There are some specific instances, however, when the agency will forego the primary verification method and initiate secondary verification (see **Secondary Verification**).

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	March 2011
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.202	6

SAVE is accessed by the Alien Registration Number. SAVE is accessed directly by the local agency. The alien registration number begins with an "A" and should be displayed on the alien's USCIS document(s).

Information obtained through SAVE should be compared with the original USCIS document. If discrepancies are noted, the secondary verification process must be initiated. No negative action may be taken on the basis of the automated verification only.

A primary verification document must be **initiated prior to case approval**. The primary verification document must be filed in the case record.

2. Secondary Verification

Secondary verification is required in the following situations:

- a. The alien has an alien number but no USCIS document, or the alien has no alien number and no USCIS document.
- b. Primary verification generates the message "Institute Secondary Verification" or "No File Found."
- c. Discrepancies are revealed when comparing primary verification to the original immigration document.
- d. Immigration documents have no Alien Registration Number (A-Number).
- e. Documents contain an A-Number in the A60 000 000 or A80 000 000 series.
- f. The document presented is an USCIS Fee Receipt.
- g. The document presented is Form I-181 or I-94 in a foreign passport that is endorsed "Processed for I-551, Temporary Evidence of Lawful Permanent Residence," and the I-181 or I-94 is more than one year old.

When secondary verification is required, the agency must complete the top portion of a Document Verification Request (Form G-845) or initiate an on-line request for a secondary verification through SAVE. The G-845 is *available at* <http://www.uscis.gov>. Click on "Forms."

B. Document Verification Request (Form G-845)

If the alien has filed an USCIS application for or received a change in status, the application for or change in status in itself is not sufficient basis for determining immigration status. Likewise, any document which raises a question of whether USCIS contemplates enforcing departure is not sufficient basis for determining the alien's status. In such situations, verify the alien's status with USCIS using the Document Verification Request (Form G-845). For an alien who entered the U.S. before 8-22-96 and whose status is adjusted to a qualified status after he entered the U.S. use the Form G-845 Supplement to request the period of continuous presence in the U.S. The G-845 Supplement (S) is *available at* <http://www.uscis.gov>. Click on "Forms."

Form G-845 should be completed as fully as possible by the submitting agency. It is essential that the form contain enough information to identify the alien.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	July 2022
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.202	6a

A separate form must be completed for each alien. Completely legible copies (front and back) of the alien immigration documents must be stapled to the upper left corner of Form G-845. Copies of other documents used to make the initial alien status determination such as marriage records or court documents must also be attached.

Once the requirement to obtain secondary verification is determined, the agency must initiate the request within ten work days. The USCIS mailing address is subject to frequent changes. Obtain the current mailing address from the SAVE web site at <http://www.uscis.gov>. Click on “Direct Filing Addresses for Form G-845.”

A photocopy of the completed G-845 form must be filed in the record as evidence that the form has been forwarded to USCIS.

The USCIS maintains a record of arrivals and departures from the United States for most legal entrants, and LDSS can obtain the required information from their USCIS office. The USCIS does not maintain an arrival and departure record for Canadian and Mexican border crossers. For these immigrants, as well as immigrants whose status was adjusted and whose original date of entry cannot be verified by USCIS, LDSS will need to verify continuance presence by requiring the immigrant to provide documentation showing proof of continuous presence.

Acceptable documentation includes:

- letter from employer
- school or medical records
- series of pay stubs
- shelter expense receipts, such as utility bills

in the immigrant’s name that verify continuous presence for the period of time in question.

C. Agency Action

When the primary verification response requires the eligibility worker to initiate a secondary verification from USCIS, do not delay, deny, reduce or terminate the individual’s eligibility for Medicaid **on the basis of alien status**. If the applicant meets all other Medicaid eligibility requirements, approve the application and enroll the applicant in Medicaid. *Allow 90 calendar days for the secondary verification to be received. If the secondary verification or the individual do not provide the information necessary to meet the documentation requirements by the 90th day, coverage must be canceled. Send an advance notice, and cancel coverage at the end of the month in which the 90th day occurs*

Upon receipt of the G-845 or response to the on-line query, compare the information with the case record. Timely notice must be given to the individual when Medicaid benefits are denied or reduced.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	July 2022
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.202	6b

Note: When a secondary verification is requested for an alien with an expired I-551, the G-845 or response to the on-line SAVE query should indicate that the person continues to have lawful permanent resident status. When a secondary verification is requested for an alien with an expired I-151, the G-845 or response to the on-line SAVE query will indicate that the documentation is expired; however, do not delay, deny, reduce or terminate an individual's eligibility for Medicaid on the basis of an expired I-151.

Once information has been obtained through SAVE, aliens with a permanent status are no longer subject to the SAVE process. Aliens with a temporary or conditional status are subject to SAVE at the time of application and when the temporary or conditional status expires.

Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.300	7

M0220.300 FULL BENEFIT ALIENS

A. Policy

A “full benefit” alien is

- an alien who receives SSI (M0220.305);
- an American Indian born in Canada to whom the provisions of section 289 of the Immigration and Nationality Act (INA) apply, or a member of an Indian tribe (as defined in section 4(e) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b(e)) (M0220.306);
- a “qualified” alien (defined in M0220.310 below) who entered the U.S. before 8-22-96;
- a qualified alien refugee; asylee; deportee; Amerasian; Cuban or Haitian entrant; victim of a severe form of trafficking; or a qualified Afghan or Iraqi immigrant admitted to the U.S. on a Special Immigrant Visa *or an Afghan special immigrant who meets the criteria in M0220, Appendix 4*; who entered the U.S. on or after 8-22-96, but only for the first 7 years of residence in the U.S. (M0220.313.C) *unless the criteria in M0220 Appendix 4 are applicable*.
- effective 12-27-20, *a qualified alien who is a Compact of Free Association (COFA) migrant (also referred to as compact citizens). COFA is a compact between the United States and the three Pacific Island sovereign states of Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau—known as the Freely Associated States.*
- before 4-1-21, a qualified LPR who entered the U.S. on or after 8-22-96 who has at least 40 qualifying quarters of work, but only **AFTER** 5 years of residence in the U.S. (M0220.313 B). Effective 4-1-21, a qualified LPR who entered the U.S. on or after 8-22-96 and who has resided in the U.S. for at least five years is no longer required to have any qualifying quarters of work to receive full Medicaid benefits;
- *the following qualified aliens, but only AFTER 5 years of residence in the U.S.:*
 - *a parolee under section 212(d)(5) of the Immigration and Nationality Act for a period of at least 1 year;*
 - *an alien who is granted conditional entry pursuant to section 203(a)(7) of the Immigration and Nationality Act as in effect prior to April 1, 1980;*
 - *an alien, and/or an alien parent of battered children and/or an alien child of a battered parent who is battered or subjected to extreme cruelty while in the U.S.*
- a qualified alien who meets the veteran or active duty military requirements in M0220.311 below; or
- a lawfully residing non-citizen child under age 19 or pregnant woman who meets the requirements in M0220.314 below.

A full benefit alien is eligible for full Medicaid benefits if he/she meets all other Medicaid eligibility requirements.

Aliens who are not “full benefit” aliens are “emergency services” aliens and may be eligible for emergency Medicaid services only if they meet all other Medicaid eligibility requirements. See section M0220.400 for emergency services aliens.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	July 2022
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.305	8

B. Procedure

- 1. Step 1**

First, determine if the alien receives SSI. Section M0220.305 describes this group of aliens who receive SSI.

If the alien does NOT receive SSI, go to Step 2.

If the alien receives SSI, go to Step 6.
- 2. Step 2**

Second, determine if the alien is an American Indian born in Canada or a member of an Indian tribe as defined in section 4(e) of the Indian Self- Determination and Education Assistance Act (25 U.S.C. 450b(e)). Section M0220.306 describes this group of aliens.

If NO, go to Step 3. If YES, go to Step 6.
- 3. Step 3**

Third, determine if the alien is a “qualified” alien eligible for full benefits (a full benefit qualified alien).

 - Section M0220.310 defines “qualified” aliens.
 - Section M0220.311 defines qualified veteran or active duty military aliens.
 - Section M0220.312 describes qualified aliens who entered the U.S. before 8-22-96.
 - Section M0220.313 describes qualified aliens who entered the U.S. on or after 8-22-96.

If the alien is NOT a qualified alien eligible for full benefits, go to step 4.

If the alien is a qualified alien eligible for full benefits, go to step 6.
- 4. Step 4**

Fourth, determine if the alien is a lawfully residing non-citizen child under age 19 or pregnant woman. See section M0220.314.

If the alien is NOT a lawfully residing non-citizen under age 19 or pregnant woman, go to Step 5.

If the alien is a lawfully residing non-citizen child under age 19 or pregnant woman, go to Step 6.
- 5. Step 5**

The alien is an “**emergency services**” alien. Go to Section M0220.400 which defines emergency services aliens, then to M0220.500 which contains the eligibility requirements applicable to all aliens, then to *M0220.600 D*, which contains the entitlement and enrollment policy and procedures for emergency services aliens.
- 6. Step 6**

Use Section M0220.500, which contains the Medicaid eligibility requirements applicable to all aliens, to determine the alien’s Medicaid eligibility. Then use Section M0220.600, which contains the entitlement and enrollment procedures for **full benefit** aliens, to enroll an eligible full benefit alien.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date April 2021
Subchapter Subject M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	Page ending with M0220.305	Page 8a

M0220.305 ALIENS RECEIVING SSI

A. Policy

An SSI recipient meets the Medicaid full benefit alien status requirements. Some SSI recipients who are aliens would have lost SSI and Medicaid eligibility. The Balanced Budget Act of 1997 restored SSI eligibility for certain groups of aliens:

- a legal alien who was receiving SSI on August 22, 1996, may continue to receive SSI if he/she meets all other SSI eligibility requirements.
- an alien who was blind or disabled on August 22, 1996, and who is residing legally in the U.S. may receive SSI in the future if he/she meets all other SSI eligibility requirements.
- a legal alien who is receiving SSI for months after July 1996 on the basis of an SSI application filed before January 1, 1979, is exempted from the SSI legal alien requirements, and is eligible for SSI if he/she meets all other SSI eligibility requirements.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	September 2010
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.310	9

B. *SSI Extension for Elderly and Disabled Refugees Act*

The SSI Extension for Elderly and Disabled Refugees Act (P.L. 110-328), enacted on September 30, 2008, allows elderly or disabled aliens subject to the seven-year time limit for receiving SSI to receive up to two additional years of SSI benefits. Although the Social Security Administration makes the determination of eligibility for the SSI extension, the categories of seven-year aliens to which the SSI extension may apply are listed in M0220.313 A.1 through A.4.

Individuals receiving SSI benefits on the basis of the SSI extension also meet the alien status requirement for full-benefit Medicaid eligibility.

C. Procedure

Verify the alien's SSI current payment status on the SDX or through SVES. If the alien currently receives SSI, and/or received SSI during the period for which Medicaid coverage is requested, the alien meets the alien status requirements for Medicaid with no further development.

Determine the alien SSI recipient's Medicaid eligibility using the policy and procedures for full benefit aliens in section M0220.600 below.

M0220.306 CERTAIN AMERICAN INDIANS

A. Policy

An alien who is

- an American Indian born in Canada to whom the provisions of section 289 of the Immigration and Nationality Act (INA) apply, or
- a member of an Indian tribe (as defined in section 4(e) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b(e)),

meets the Medicaid full benefit alien status requirements.

B. Procedure

Verify the status of an American Indian born in Canada from *USCIS* documents that the individual presents, or via the SAVE system.

Verify the status of a member of an Indian tribe as defined in section 4(e) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b(e)) from official documents that the individual presents.

M0220.310 QUALIFIED ALIENS DEFINED

A. Qualified Aliens Defined

A qualified alien is an alien who, at the time he applies for, receives or attempts to receive Medicaid is:

1. Lawful Permanent Resident

an alien who is lawfully admitted for permanent residence under the Immigration and Nationality Act.

2. Refugee

an alien who is admitted to the U.S. under the Immigration and Nationality Act as a **refugee under section 207 of the INA**, or an alien

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	July 2008
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.310	10

who is admitted to the U.S. as **an Amerasian immigrant** pursuant to section 584 of the Foreign Operations, Export Financing, and Related Programs Appropriations Act 1988 (as contained in section 101(e) of Public Law 100-202 and amended by the 9th proviso under MIGRATION AND REFUGEE ASSISTANCE in title II of the Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1989, Public Law 100-461, as amended).

The refugee will have a Form I-94 identifying him/her as a refugee under section 207 of the INA. The Amerasian immigrant will have an I-94 coded AM1, AM2, or AM3, or an I-551 coded AM6, AM7, or AM8.

3. **Conditional Entrant**

an alien who is granted conditional entry pursuant to section 203(a)(7) of the Immigration and Nationality Act as in effect prior to April 1, 1980.

Aliens admitted to the United States as conditional entrants pursuant to 203(a)(7) of the Immigration and Nationality Act (INA) (8 USC 1153(a)(7)) have an *USCIS* Form I-94 bearing the stamped legend "Refugee - Conditional Entry" and a citation of the INA section.

NOTE: Section 203(a)(7) of the INA was made obsolete by the Refugee Act of 1980 (P.L.96-212) and replaced by section 207 of the INA effective April 1, 1980.

4. **Asylee**

an alien who is granted asylum under section 208 of the Immigration and Nationality Act. Aliens granted asylum will have a Form I-94 and a letter.

5. **Parolee**

an alien who is paroled into the U.S. under section 212(d)(5) of the Immigration and Nationality Act for a period of at least 1 year. Aliens in this group will have a Form I-94 indicating that the bearer has been paroled pursuant to section 212(d)(5) of the INA.

6. **Deportee-- Deportation Withheld**

an alien whose deportation is being withheld under section 243(h) of the INA (as in effect immediately before the effective date of section 307 of division C of Public Law 104-208) or section 241(b)(3) of the INA (as amended by section 305(a) of division C of Public Law 104-208). These aliens will have an order from an immigration judge showing that deportation has been withheld under section 243(h) or section 241(b)(3) of the INA and/or a Form I-94.

7. **Cuban or Haitian Entrant**

an alien who is a Cuban and Haitian entrant as defined in section 501(e) of the Refugee Education Assistance Act of 1980. A Cuban or Haitian Entrant is a person from Cuba or Haiti who

- has been granted parole by *USCIS* for humanitarian or public interest reasons, unless a final order of deportation or exclusion has been issued;
- has an application for asylum pending with *USCIS*, unless a final order of deportation or exclusion has been issued;

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	July 2008
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.310	11

- is subject to *USCIS* exclusion or deportation proceedings, unless a final order of deportation or exclusion has been issued.

a. Humanitarian, Public Interest, Application for Asylum

To meet the humanitarian, public interest or application for asylum status, the Cuban or Haitian entrant must be from Cuba or Haiti and must have an I-94 with one or more of the following notations:

- humanitarian parole;
- public interest parole;
- section 212(d)(5);
- parole; or
- Form I-589 filed.

Contact *USCIS* if there is reason to believe that a final order of exclusion or deportation has been issued.

b. Subject to Exclusion or Deportation

To be subject to exclusion or deportation proceedings, the Cuban or Haitian entrant must be from Cuba or Haiti and must have letters or notices which indicate ongoing exclusion or deportation proceedings that apply to the individual. Contact *USCIS* if there is reason to believe that a final order of exclusion or deportation has been issued.

8. Battered Alien

an alien, and/or an alien parent of battered children and/or an alien child of a battered parent who is battered or subjected to extreme cruelty while in the U.S. who meets the following requirements:

- a. the perpetrator is a spouse, parent or other household member of the spouse or parent's family who was residing in the home at the time of the incident but is no longer in the home. The alien must not now be residing in the same household as the individual responsible for the battery or extreme cruelty, and
 - the alien was battered or subjected to extreme cruelty while in the U.S. by a spouse or a parent, or by a member of the spouse or parent's family residing in the same household as the alien, and the spouse or parent consented to or acquiesced in such battery or cruelty;
 - the alien's child was battered or subjected to extreme cruelty while in the U.S. by a spouse or a parent of the alien (without the active participation of the alien in the battery or cruelty), or by a member of the spouse or parent's family residing in the same household as the alien, and the spouse or parent consented or acquiesced to such battery or cruelty and the alien did not actively participate in such battery or cruelty; or

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	January 2022
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.311	12

- the alien child resides in the same household as a parent who has been battered or subjected to extreme cruelty while in the U.S. by that parent's spouse, or by a member of the spouse's family residing in the same household as the parent and the spouse consented or acquiesced to such battery or cruelty.
- b. the agency providing benefits determines (according to the guidelines to be issued by the U.S. Attorney General) that there is a substantial connection between the battery or cruelty and the need for benefits; and
- c. the alien has a petition approved by or pending with USCIS for one of the following:
 - status as an immediate relative (spouse or child) of a U.S. citizen;
 - classification changed to immigrant;
 - status as the spouse or child of a lawful permanent resident alien (LPR); or
 - suspension of deportation and adjustment to LPR status based on battery or extreme cruelty by a spouse or parent who is a U.S. citizen or LPR alien.

9. Afghan or Iraqi Special Immigrant

an alien who is lawfully admitted into the U.S. on a Special Immigrant Visa (SIV) for permanent residency *or an Afghan special immigrant who meets the criteria in M0220, Appendix 4*. Aliens in this group include the principal SIV holder, his spouse, and his children under age 21 living in the home. Afghan and Iraqi Special Immigrants will have either (1) a Form I-551 or (2) a passport or I-94 form indicating categories SI1, SI2, SI3, SQ1, SQ2, or SQ3 and bearing the Department of Homeland Security stamp or notation. *Other qualified Afghan special immigrants will have one of the documents listed in M0220, Appendix 4.*

10. Victims of Trafficking

an alien who has been granted nonimmigrant status under section 101(a)(15)(T) or who has a pending application that sets forth a prima facie (has sufficient evidence) case for eligibility for such status.

M0220.311 VETERAN & ACTIVE DUTY MILITARY ALIENS

A. Veterans or Active Duty Military Aliens

An alien lawfully residing in the state (not here illegally) is always eligible for full Medicaid benefits (if he/she meets all other Medicaid eligibility requirements) **regardless of the date of entry into the U. S.**, if he or she meets one of the following conditions:

1. he/she is a qualified alien and is a veteran discharged honorably not on account of alienage, and who fulfills the minimum active-duty service requirements of section 5303A(d) of title 38, United States Code;
2. he/she is a qualified alien and is on active duty (other than active duty for training) in the Armed Forces of the United States (not in the Armed Forces Reserves),
3. he/she is the
 - a) spouse or the unmarried dependent child of a living (not deceased) qualified alien who meets the conditions of 1. or 2. above, or

Manual Title	Chapter	Page Revision Date

Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.311	13

- b) the unremarried surviving spouse of an individual described in 1. or 2. above who is deceased, if the spouse was married to the veteran
- before the expiration of fifteen years after the termination of the period of service in which the injury or disease causing the death of the veteran was incurred or aggravated; or
 - for one year or more; or
 - for any period of time if a child was born of the marriage or was born to them before the marriage.

A divorced person is not a spouse.

A “dependent child” for this section’s purposes is one whom the Veterans Administration (VA) has determined to meet the VA definition of “dependent child.” According to the VA, a dependent child is an unmarried child under age 18, an unmarried child between ages 18 and 23 who is attending a VA-approved school, or a “helpless” child who became disabled before attaining age 18.

B. Verification

Acceptable verification of honorable discharge or active duty status include the following documents:

1. Discharge Status

For discharge status, an original or notarized copy of the veteran’s discharge papers (DD 214) issued by the branch of service in which the alien was a member verifies whether he/she was honorably discharged for a reason other than alien status.

Other documentation which is acceptable under the Department of Defense (DOD) or VA guidelines can be substituted for the DD 214 form.

A self declaration under penalty of perjury may be accepted pending receipt of acceptable documentation.

2. Active Duty Status

For active duty military status, an original or notarized copy of the alien’s current orders showing the individual is on full-time duty in the U.S. Army, Navy, Air Force, Marine Corps, or Coast Guard (full-time National Guard duty is NOT active military status), or a military identification card (DD Form 2 (active)) verifies whether the alien is in active duty military status.

Other documentation which is acceptable under the Department of Defense (DOD) or VA guidelines can be substituted for the current orders or military ID card.

A self declaration under penalty of perjury may be accepted pending receipt of acceptable documentation.

Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.312	14

**C. Services Available
To Eligibles**

A qualified alien who meets the veteran or active duty military requirements above and who meets all other Medicaid eligibility requirements is eligible for the full package of Medicaid covered services available to the alien's covered group.

**D. Entitlement &
Enrollment of
Eligibles**

The Medicaid entitlement policy and enrollment procedures for eligible veteran/active duty military aliens are found in section M0220.600 below.

M0220.312 QUALIFIED ALIENS WHO ENTERED U.S. BEFORE 8-22-96

**A. Qualified Aliens--
Entered U.S.
Before 8-22-96**

Qualified aliens (as defined in M0220.310 above) who were living in the U.S. prior to 8-22-96 and who meet all other Medicaid eligibility requirements are eligible for the full package of Medicaid benefits available to the covered group they meet.

**1. Full Benefit
Qualified
Aliens**

These "full benefit" qualified aliens who entered the U.S. before 8-22-96 are:

- Lawful Permanent Residents,
- Refugees under section 207, and Amerasian immigrants,
- Conditional Entrants under section 203(a)(7),
- Asylees under section 208,
- Parolees under section 212(d)(5),
- Deportees whose deportation is withheld under section 243(h) or 241(b)(3),
- Cuban or Haitian Entrants, and
- Battered aliens, alien parents of battered children, and/or alien children of battered parents.

NOTE: If the qualified alien is a veteran or in active duty military status, or is the spouse or the unmarried dependent child of a qualified alien who meets the conditions in M0220.311 above, the alien is a full benefit alien.

**2. Adjusted
Status**

When an alien entered the U.S. before 8-22-96 with an unqualified alien status and the alien's status is adjusted to a qualified status after the alien entered the U.S., the alien's qualified status is considered to be effective back to the date he/she entered the U.S. if:

- the alien was physically present in the U.S. before 8-22-96, and
- the alien remained physically present in the U.S. from the date of entry to the status adjustment date.

The date of entry will be the first day of the verified period of continuous presence in the U.S. (see M0220.202).

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	January 2022
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.313	14a

- B. Services Available To Eligibles** A qualified alien who entered the U.S. before 8-22-96 and who meets all other Medicaid eligibility requirements is eligible for the full package of Medicaid covered services available to the alien's covered group.
- C. Entitlement & Enrollment of Eligibles** The Medicaid entitlement policy and enrollment procedures for eligible qualified aliens who entered the U.S. before 8-22-96 are found in section M0220.600 below.

M0220.313 QUALIFIED ALIENS WHO ENTERED U.S. ON OR AFTER 8-22-96

- A. No Limit on Residency in the U.S.** Effective 12-27-20, *qualified aliens who are Compact of Free Association (COFA) migrants (also referred to as compact citizens) are full benefit aliens. COFA is a compact between the United States and the three Pacific Island sovereign states of Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau—known as the Freely Associated States.*
- B. First 7 Years of Residence in U.S.** During the first seven years of residence in the U.S., six (6) groups of qualified aliens (as defined in M0220.310 above) who entered the U.S. on or after 8-22-96 are eligible for the full package of Medicaid benefits available to the covered group they meet (if they meet all other Medicaid eligibility requirements), even if their status is adjusted later to LPR.. These 6 groups of qualified aliens who entered the U.S. on or after 8-22-96 are:
- 1. Refugees** Refugees under section 207 and Amerasian immigrants are full benefit aliens for 7 years from the date of entry into the U.S. Once 7 years have passed from the date the refugee entered the U.S., the refugee becomes an “emergency services” alien.
 - 2. Asylees** Asylees under section 208 are full benefit aliens for 7 years from the date asylum in the U.S. is granted. Once 7 years have passed from the date the alien is granted asylum in the U.S., the asylee becomes an “emergency services” alien.
 - 3. Deportees** Deportees whose deportation is withheld under section 243(h) or section 241(b)(3) are full benefit aliens for 7 years from the date withholding is granted. After 7 years have passed from the date the withholding was granted, the deportee becomes an “emergency services” alien.
- NOTE: If the qualified alien is a veteran or in active duty military status, or is the spouse or the unmarried dependent child of a qualified alien who meets the conditions in M0220.313 above, the alien is a full benefit alien.
- 4. Cuban or Haitian Entrants** Cuban and Haitian entrants as defined in section 501(e) of the Refugee Education Assistance Act of 1980 are full benefit aliens for 7 years from the date they enter the U.S. After 7 years have passed from the date they entered the U.S., a Cuban or Haitian entrant becomes an “emergency services” alien.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	January 2022
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.313	14b

5. Victims of a Severe Form of Trafficking

Victims of a severe form of trafficking as defined by the Trafficking Victims Protection Act of 2000, P.L. 106-386 are full benefit aliens for 7 years **from the date they are certified or determined eligible** by the Office of Refugee Resettlement (ORR). Victims of a severe form of trafficking are identified by either a letter of certification (for adults) or a letter of eligibility (for children under age 18 years) issued by the ORR (see Appendix 5 of this subchapter). **The date of certification/eligibility specified in the letter is the date of entry for a victim of a severe form of trafficking.** After 7 years have passed from the certification/eligibility date, a victim of a severe form of trafficking becomes an “emergency services” alien unless his status is adjusted.

6. Afghan or Iraqi Immigrant Admitted to the U.S. on a Special Immigrant Visa

The Department of Defense Appropriations Act of 2010, enacted on December 19, 2009, provides that Iraqi and Afghan Special Immigrants are eligible for Medicaid benefits to the same extent and for the same time period as refugees. The legislation supersedes prior legislative authority that limited Special Immigrants to benefits for an 8-month time period. Provided that all other eligibility requirements are met, Iraqi and Afghan Special Immigrants are eligible for Medicaid benefits for the first seven years after entry into the United States (U.S.).

For Afghan special immigrants who do not hold a Special Immigrant Visa, see M0220, Appendix 4.

7. After 7 Years Residence in U.S.

After seven years of residence in the U.S., the qualified refugee, Amerasian, asylee, deportee, Cuban or Haitian entrant, victim of a severe form of trafficking, or Afghan or Iraqi Special Immigrant (as defined in M0220.310 above) who entered the U.S. on or after 8-22-96 is no longer eligible for full Medicaid benefits and becomes an “emergency services” alien.

C. AFTER 5 Years of Residence in U.S.

The following qualified aliens who entered the U.S. **on or after 8-22-96** are eligible for the full package of Medicaid benefits available to the covered group they meet (if they meet all other Medicaid eligibility requirements) after 5 years of residence in the U.S.:

- *a parolee under section 212(d)(5) of the Immigration and Nationality Act for a period of at least 1 year;*
- *an alien who is granted conditional entry pursuant to section 203(a)(7) of the Immigration and Nationality Act as in effect prior to April 1, 1980;*
- *an alien, and/or an alien parent of battered children and/or an alien child of a battered parent who is battered or subjected to extreme cruelty while in the U.S.*
- *LPRs (as defined in M0220.310 above). For eligibility determinations for months prior to April 2021, an LPR who entered the U.S. on or after 8-22-96 and who has resided in the U.S. for five years must also have at least 40 qualifying quarters of work. Effective 4-1-21, a qualified lawful permanent resident who entered the U.S. on or after 8-22-96 and who has resided in the U.S. for at least five years is no longer required to have any qualifying quarters of work to receive full Medicaid benefits.*

1. LPR

When an LPR entered the U.S. on or after 8-22-96, the LPR is an **“emergency services” alien during the first 5 years** the LPR is in the U.S., regardless of work quarters.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	April 2021
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.313	14c

Note: If the LPR had prior immigration status in one of the “seven-year” alien groups listed in M0220.313.A, he is considered to have “seven-year” status for the purposes of Medicaid eligibility for the first seven years of residency in the U.S. To determine former status of a LPR, check the coding on the I-551 for codes RE-6, RE-7, RE-8, or RE-9. Contact the USCIS at 1-800-375-5283 for assistance in identifying the former status for other seven year aliens.

Effective 4-1-21, AFTER 5 years have passed from the date of entry into the U.S., LPRs are “full benefit” aliens. *For eligibility determinations for months prior to April 2021*, LPRs who DO NOT have at least 40 qualifying quarters of work remain emergency services aliens after 5 years have passed from the date of entry into the U.S.

2. Qualifying Quarter

- A qualifying quarter of work means a quarter of coverage as defined under Title II of the Social Security Act which is worked by the alien and/or
- all the qualifying quarters worked by the spouse of such alien during their marriage and the alien remains married to such spouse or such spouse is deceased, and all of the qualifying quarters worked by a parent of such alien while the alien was under age 18 years.

See Appendix 3 to this subchapter for procedures for verifying quarters of coverage under Title II of the Social Security Act.

Any quarter of coverage, beginning after December 31, 1996, in which the alien, spouse or parent of the alien applicant received any federal means-tested public benefit (such as SSI, TANF, Supplemental Nutrition Assistance Program [SNAP] and **full-benefit** Medicaid) **cannot** be credited to the alien for purposes of meeting the 40 quarter requirement. Medicaid coverage for **emergency services** does not impact the 40 quarter requirement.

D. Services Available To Eligibles

1. Refugee, Amerasian, Asylee, Deportee, Cuban or Haitian Entrant, Victim of a Severe Form of Trafficking; Afghan or Iraqi Special Immigrant

The following immigrants:

- qualified refugee,
- Amerasian,
- asylee,
- deportee,
- Cuban or Haitian entrant,
- victim of a severe form of trafficking, or

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date October 2022
Subchapter Subject M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	Page ending with M0220.313	Page 14d

- Afghan or Iraqi Special Immigrant (as defined in M0220.310 above *and in M0220, Appendix 4*),
- *Ukraine Humanitarian Parolees (see Appendix 4)*

who entered the U.S. on or after 8-22-96 and who meets all other Medicaid eligibility requirements is eligible for the full package of Medicaid covered services available to the alien's covered group during the first 7 years of residence in the U.S. After 7 years of residence in the U.S., the refugee, Amerasian, asylee, deportee, Cuban or Haitian entrant, victim of a severe form of trafficking, or Afghan or Iraqi Special Immigrant who entered the U.S. on or after 8-22-96 is no longer eligible for full Medicaid benefits and is eligible for emergency services only.

2. LPR

Effective 4-1-21, after five years of residence in the U.S., an LPR who entered the U.S. on or after 8-22-96 is eligible for the **full package of Medicaid benefits** available to the covered group he/she meets if he/she meets all other Medicaid eligibility requirements.

For eligibility determinations for months prior to April 2021, LPRs who DO NOT have at least 40 qualifying quarters of work remain emergency services aliens after 5 years have passed from the date of entry into the U.S.

E. Entitlement & Enrollment for those Eligible

The Medicaid entitlement policy and enrollment procedures for full benefit qualified aliens who entered the U.S. on or after 8-22-96 are found in section M0220.600 below.

The Medicaid entitlement policy and enrollment procedures for emergency services qualified aliens who entered the U.S. on or after 8-22-96 are found in section M0220.700 below.

Manual Title	Chapter	Page Revision Date

M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.314	14e

M0220.314 LAWFULLY RESIDING NON-CITIZEN CHILDREN UNDER AGE 19 AND PREGNANT WOMEN

A. Policy

Section 214 of CHIPRA of 2009 gives states the option to provide Medicaid and FAMIS/FAMIS MOMS coverage to certain individuals who are lawfully residing in the United States and are otherwise eligible for assistance. Virginia has elected to cover children under the age of 19 and pregnant women who are lawfully residing in the U.S.

Noncitizens are lawfully residing in the U.S. if they have been admitted lawfully into the U.S. and have not overstayed the period for which they were admitted, or they have current permission to stay or live in the U.S.

This policy does **not** apply to individuals who receive temporary relief from removal under the Deferred Action for Childhood Arrivals (DACA) process announced by the U.S. Department of Homeland Security on June 15, 2012.

Children born in the U.S. to foreign diplomat parents (i.e. neither parent is a U.S. citizen) must have their own lawful status. They may apply for immediate LPR status.

Children under age 19 and pregnant women who are in one of the lawfully residing non-citizen alien groups described below must have their immigration status verified at the time of the initial eligibility determination and at each annual renewal of eligibility to ensure that they are lawfully residing in the U.S. and that their immigration status has not changed.

NOTE: All aliens who meet the alien status eligibility requirements for Medicaid and FAMIS/FAMIS MOMS must also meet the Virginia state residency requirements to be eligible for coverage under the programs.

For a pregnant woman who is not lawfully residing in the U.S., use Chapter M23 to evaluate her eligibility for FAMIS Prenatal Coverage. If she is not eligible for FAMIS Prenatal Coverage, evaluate her eligibility for the coverage of emergency services using M0220.500.

B. Eligible Alien Groups

Lawfully residing children under age 19 and pregnant women meet Medicaid and FAMIS/FAMIS MOMS alien requirements without regard to their date of arrival or length of time in the U.S. Children under 19 or pregnant women are lawfully residing aliens if they are:

1. a qualified alien as defined in section 431 of PRWORA (8 U.S.C § 1641). See M0220.310;
2. an alien in a nonimmigrant status who has not violated the terms of the status under which he or she was admitted or to which he or she has changed after admission. This group includes individuals with valid visas;
3. an alien who has been paroled into the United States pursuant to section 212(d)(5) of the Immigration and nationality Act (INA) (8 U.S.C § 1182 (d)(5)) for less than 1 year, except for an alien paroled for prosecution, for deferred inspection or pending removal proceedings;
4. an alien who belongs to one of the following classes:
 - a. aliens currently in temporary resident status pursuant to section 210 or 245A of the INA (8 U.S.C §§ 1160 or 1255a, respectively),

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	July 2022
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.400	15

- b. aliens currently under Temporary Protected Status (TPS) pursuant to section 244 of the INA (8 U.S.C. § 1254a), and pending applicants for TPS who have been granted employment authorization,
 - c. aliens who have been granted employment authorization under 8 CFR 274a.12(c)(9), (10), (16), (18), (20), (22), or (24),
 - d. Family Unity beneficiaries pursuant to section 301 of Pub. L. 101-649, as amended,
 - e. aliens currently under Deferred Enforced Departure (DED) pursuant to a decision made by the President,
 - f. aliens currently in deferred action status, except for individuals receiving deferred status as a result of the Deferred Action for Childhood Arrivals (DACA) process, announced by the U.S. Department of Homeland Security on June 15, 2012, or
 - g. aliens whose visa petition has been approved and who have a pending application for adjustment of status.
5. a pending applicant for asylum under section 208(a) of the INA (8 U.S.C. § 1158), or for withholding of removal under section 241(b)(3) of the INA (8 U.S.C. § 1231), or under the Convention Against Torture who has been granted employment authorization, or such an applicant under the age of 19 who has had an application pending for at least 180 days;
 6. an alien who has been granted withholding of removal under the Convention Against Torture;
 7. a child who has a pending application for Special Immigrant Juvenile status as described in section 101(a)(27)(J) of the INA (8 U.S.C. § 1101(a)(27)(J));
 8. an alien who is lawfully present in the Commonwealth of the Northern Mariana Islands under 48 U.S.C. § 1806 (e); or
 9. an alien who is lawfully present in American Samoa under the immigration laws of American Samoa.

M0220.400 EMERGENCY SERVICES ALIENS

A. Policy

Any alien who does NOT meet the requirements for full benefits as described in section M0220.300 through 314 above is an “emergency services” alien and is eligible for emergency Medicaid services only, if he or she meets all of the Medicaid nonfinancial and financial eligibility requirements.

B. Procedure

- Section M0220.410 describes the qualified aliens who entered the U.S. on or after 8-22-96 who are emergency services aliens.
- Section M0220.411 defines “unqualified” aliens.
- Section M0220.500 contains the Medicaid eligibility requirements applicable to full benefit and emergency services aliens.
- Section *M0220.600 D* contains the entitlement and enrollment procedures for emergency services aliens.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	January 2022
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.410	16

M0220.410 EMERGENCY-SERVICES-ONLY QUALIFIED ALIENS WHO ENTERED U.S. ON OR AFTER 8-22-96

- A. First 5 Years of Residence in U.S.** During the first five years of residence in the U.S., four groups of qualified aliens (as defined in M0220.310 above) who entered the U.S. on or after 8-22-96 are eligible for **emergency Medicaid services only** provided they meet all other Medicaid eligibility requirements.
- 1. Lawful Permanent Residents (LPRs)** An LPR who enters the U.S. on or after 8-22-96 is an “emergency services” alien during the first 5 years the LPR is in the U.S., regardless of work quarters.

Note: If the LPR had prior Refugee status, he may be considered to have Refugee status for the purposes of Medicaid eligibility. To determine former Refugee status of a Lawful Permanent Resident, check the coding on the I-551 for codes RE-6, RE-7, RE-8, or RE-9. Refer to M0220.313.A.1.
 - 2. Conditional Entrants** A qualified Conditional Entrant who enters the U.S. on or after 8-22-96 is an “emergency services” alien *during the first 5 years the Conditional Entrant is in the U.S.*
 - 3. Parolees** A qualified parolee who enters the U.S. on or after 8-22-96 is an “emergency services” alien during the first 5 years the parolee is in the U.S.
 - 4. Battered Aliens** A qualified battered alien who enters the U.S. on or after 8-22-96 is an “emergency services” alien during the first 5 years the battered alien is in the U.S.
- B. AFTER 5 Years of Residence in U.S.**
- 1. Lawful Permanent Residents Without 40 Work Quarters** For months prior to 4-1-21, Lawful Permanent Residents who DO NOT have at least 40 qualifying quarters of work remain emergency services aliens after residing in the U.S. for 5 years. Effective 4-1-21, Lawful Permanent Residents become full benefit aliens after 5 years of residing in the U.S. with no work requirement.
 - 2. Conditional Entrants** A qualified Conditional Entrant who enters the U.S. on or after 8-22-96 *and has resided in the U.S. for at least 5 years is a full benefit alien.*
 - 3. Parolees** A qualified parolee who enters the U.S. on or after 8-22-96 *and has resided in the U.S. for at least 5 years is a full benefit alien.*
 - 4. Battered Aliens** A qualified battered alien who enters the U.S. on or after 8-22-96 *and has resided in the U.S. for at least 5 years is a full benefit alien.*

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	July 2022
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.410	17

**C. AFTER 7 Years of
Residence in U.S.**

- 1. Refugees** After 7 years of residence in the U.S., a refugee or Amerasian immigrant who entered the U.S. on or after 8-22-96 is no longer eligible for full Medicaid benefits and becomes an “emergency services” alien.
- 2. Asylees** After 7 years have passed since asylum was granted, an asylee who entered the U.S. on or after 8-22-96 is no longer eligible for full Medicaid benefits and becomes an “emergency services” alien.
- 3. Deportees** After 7 years have passed since deportation was withheld, a deportee who entered the U.S. on or after 8-22-96 is no longer eligible for full Medicaid benefits and becomes an “emergency services” alien.
- 4. Cuban or Haitian Entrants** After 7 years of residence in the U.S., a Cuban or Haitian Entrant who entered the U.S. on or after 8-22-96 is no longer eligible for full Medicaid benefits and becomes an “emergency services” alien.
- 5. Afghan and Iraqi Special Immigrants** Medicaid coverage for Afghan and Iraqi Special Immigrants who are eligible in a Medicaid covered group cannot begin earlier than December 26, 2007. After 7 years of residence in the U.S., Afghan and Iraqi Special Immigrants are no longer eligible for full Medicaid benefits and become “emergency services” aliens.

After the applicable limited time period expires, individuals become “emergency services” aliens unless the requirements in M0220.313 B or M0220.314 are met.

**D. Services Available
To Eligibles**

An emergency services alien who meets all Medicaid eligibility requirements is eligible for Medicaid coverage of emergency services only.

**E. Entitlement &
Enrollment of
Eligibles**

The Medicaid entitlement policy and enrollment procedures for emergency services aliens are found in section *M0220.600 D* below.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	July 2022
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.411	18

M0220.411 UNQUALIFIED ALIENS

A. Unqualified Aliens

Aliens who do not meet the qualified alien definition M0220.310 above and who are **NOT** lawfully residing non-citizen children under age 19 or pregnant women per M0220.314 above are “unqualified” aliens. Unqualified aliens, with the exception of pregnant women who are eligible for FAMIS Prenatal Coverage, are eligible for emergency services only if they meet all other Medicaid eligibility requirements. Unqualified aliens include illegal and non-immigrant aliens.

For a pregnant woman who is not lawfully residing in the U.S. per M0220.314, use Chapter M23 to evaluate her eligibility for FAMIS Prenatal Coverage. If she is not eligible for FAMIS Prenatal Coverage, evaluate her eligibility for the coverage of emergency services using *M0220.400 and M220.600 D*.

B. Illegal aliens

Illegal aliens were never legally admitted to the U.S. or were legally admitted for a limited period of time and did not leave when that period expired. If an alien remains in the U.S. after his visa expires, he becomes an illegal alien.

C. Non-immigrant Aliens

Aliens who are lawfully admitted to the U.S. for a temporary or limited period of time, and the limited period has **not** expired, are non-immigrant aliens. Regardless of the individual’s immigration status, accept declaration of Virginia residency on the application as verification of residency unless the individual resides on the grounds of a foreign embassy. Do **NOT** require individuals who have been admitted into the U.S. on non-immigrant visas to sign a statement of intended residency.

Non-immigrants have the following types of USCIS documentation:

- Form I-94 Arrival-Departure Record,
- Form I-185 Canadian Border Crossing Card,
- Form I-186 Mexican Border Crossing Card,
- Form SW-434 Mexican Border Visitor's Permit,
- Form I-95A Crewman's Landing Permit.

Note: If the alien remains in the U.S. after the limited time period (visa) is over, he becomes an illegal alien.

Non-immigrants include:

1. **Visitors** visitors for business or pleasure, including exchange visitors;
2. **Foreign Government Representative** foreign government representatives on official business and their families and servants. Note: if the foreign government representative resides on the grounds of a foreign embassy, he does not meet the Virginia residency requirement;
3. **Travel Status** aliens in travel status while traveling directly through the U.S.;
4. **Crewmen** Crewmen on shore leave;
5. **Treaty Traders** treaty traders and investors and their families;
6. **Travel Status** aliens in travel status while traveling directly through the U.S.;

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	July 2017
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.500	19

- 7. **Foreign Students** foreign students;
- 8. **International Organization** international organization representatives and personnel, and their families and servants;
- 9. **Temporary Workers** temporary workers including some agricultural contract workers;
- 10. **Foreign Press** members of foreign press, radio, film, or other information media and their families.

M0220.500 ALIENS ELIGIBILITY REQUIREMENTS

- A. **Policy** An alien must meet all other Medicaid eligibility requirements to be eligible for any Medicaid services. The eligibility requirements are:

- 1. **Residency** the Virginia residency requirements (M0230);

Regardless of the individual's immigration status *or whether or not his documentation (e.g. visa) has expired*, accept declaration of Virginia residency on the application as verification of residency. Do **NOT** require individuals who have been admitted into the U.S. on non-immigrant visas and other non-immigrants to sign a statement of intended residency.

- 2. **Social Security Number (SSN)** the SSN provision/application requirements (M0240);

An alien eligible only for Medicaid payment of emergency services *is not required* to apply for or provide an SSN. This includes emergency services only aliens as defined in M0220.410 and unqualified aliens as defined in M0220. 411.

Any non-citizen who is only eligible to receive an SSN for a valid non-work reason is not required to provide or apply for an SSN. These individuals include, but are not limited to, non-citizens admitted to the U.S. on non-immigrant visas and individuals who do not intend to work in the U.S. and would only have needed an SSN for the purposes of receiving public assistance.

M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.600	21

7. Financial Eligibility

the asset transfer requirements (see subchapter M1450) apply.

Resources must be within the resource limit appropriate to the individual's covered group. (Chapter M06 for F&C covered groups; Chapter S11 for ABD covered groups).

Income must be within the income limit appropriate to the individual's covered group (Chapter M04 for Modified Adjusted Gross Income [MAGI] covered groups; Chapter M07 for F&C Medically Needy covered groups, and Chapter S08 for ABD covered groups). Spenddown provisions apply to individuals who meet a Medically Needy covered group. All medical expenses count toward meeting the spenddown, but once an entitlement date is determined after the individual meets the spenddown, only emergency services rendered on or after the entitlement date are covered for emergency services aliens.

M0220.600 ENTITLEMENT & ENROLLMENT

A. Policy

An alien who is determined eligible for full Medicaid benefits and who meets all Medicaid eligibility requirements (including covered group requirements) is eligible for all Medicaid-covered services available to the recipient's covered group.

B. Application & Entitlement

1. Application Processing

The eligibility worker must take the application and develop it in the same manner as any other individual's application. All eligibility requirements, including covered group requirements must be met.

2. Entitlement

If the applicant is found eligible for Medicaid, ongoing eligibility may exist unless the recipient is on a spenddown.

3. Spenddown

Spenddown provisions apply to medically needy individuals who have excess income.

4. Notice

Appropriate notice must be sent to the applicant of the status of his application and of his Medicaid eligibility.

C. Enrollment Procedures

Once a full benefit alien is found eligible for Medicaid, he must be enrolled in VaCMS using the following data:

1. Country

In this field, Country, enter the code of the alien's country of origin.

2. Cit Status

In this field, Citizenship Status, enter the Citizenship code that applies to the alien. Below, next to the Citizenship code, is the corresponding Alien Code from the Alien Code Chart in Appendix 5 to this subchapter. Eligible alien codes are:

R = refugee (Alien Chart codes F1, F2, G1, G2); also used for Afghan and Iraqi Special Immigrants (Alien Chart Code Z1).

E = entrant (Alien Chart code D1).

P = full benefit qualified aliens (Alien Chart codes A1, A2, A3, B1, B3, C1, CC1, D1, D3, E1, E3, H1, H2, I1, I3, J1, J2, K1);

I = legal immigrant children under age 19 only (Alien Chart codes Y1, Y2, Y3)

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date October 2022
Subchapter Subject M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	Page ending with M0220.500	Page 22

3. Entry Date THIS FIELD MUST BE ENTERED. Enter the date on which the alien entered the U.S., except for asylees and deportees. For asylees, enter the date asylum was granted. For deportees, enter the date deportation withholding was granted.

4. Appl Dt In this field, Application Date, enter the date of the alien's Medicaid application upon which the eligibility coverage period is based.

5. Coverage Begin Date In this field, Coverage Begin Date, enter the date the alien's Medicaid entitlement begins.

6. Coverage End Date Enter data in this field only if eligibility is a closed period of eligibility in the past. Enter the date the alien's Medicaid entitlement ended.

7. AC Enter the AC code applicable to the alien's covered group.

D. Emergency Services Only Aliens

Unqualified aliens, and qualified aliens eligible for emergency services only are eligible for Medicaid coverage of emergency medical care only. This care must be provided in a hospital emergency room or as an inpatient in a hospital.

Effective July 1, 2022, an emergency services only alien who meets all other Medicaid eligibility requirements is enrolled in Medicaid with ongoing coverage. Emergency services are no longer certified by the LDSS or DMAS, and the LDSS does not obtain an emergency services certification.

Applications received prior to July 1, 2022, are subject to the policies and procedures in M0220, Appendix 9. For an individual whose certification period begins prior to July 1, 2022 and expires on or after July 1, 2022, re-evaluate the individual's eligibility for ongoing coverage.

An emergency services alien will be assigned to one of the following Aid Categories (AC) by VaCMS:

- AC 112 for adults in Modified Adjusted Gross Income (MAGI) based covered groups
- AC 113 for children and adults in non-MAGI Families and Children's (F&C) and all Medically Needy (MN) covered groups.

For cases processed at Cover Virginia, the individual will be enrolled in the appropriate AC, and the case will be transferred to the local agency for ongoing case maintenance. *For CVIU incarcerated individuals refer to Policy M0140.200.3 C.*

Once an emergency services alien is found eligible in VaCMS, the enrollment will transfer into the Medicaid enrollment system. Any claims for emergency services will be sent by the provider or treating physician to DMAS for review and reimbursement. Medicaid coverage for emergency services only aliens will be restricted to emergency services (including dialysis).

Appropriate notice must be sent to the applicant of the status of his application and the duration of his eligibility. The notice must specify that their Medicaid coverage is limited to emergency services.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	July 2022
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	M0220.600	23

Once an emergency services alien is found eligible in VaCMS, the enrollment will transfer into the Medicaid enrollment system. Any claims for emergency services will be sent by the provider or treating physician to DMAS for review and reimbursement. Medicaid coverage for emergency services only aliens will be restricted to emergency services (including dialysis).

Appropriate notice must be sent to the applicant of the status of his application and the duration of his eligibility. The notice must specify that their Medicaid coverage is limited to emergency services.

Once an emergency services alien is enrolled, any requests for coverage of emergency services will not require a new Medicaid application. The individual will be subject to an annual renewal following the policies in subchapter M1520.200. Follow the policies in subchapter M1520.100 for any reported change to the alien's situation.

A Medicaid card will not be generated for an individual enrolled as an emergency services alien.

The provider or treating physician will be responsible for submitting all claim request for payment of an emergency service for an approved member, including labor & delivery and dialysis. Refer providers to the Virginia Medicaid Hospital Provider Manual, Chapter VI "Documentation Guidelines."

Providers with questions regarding the submission or payment of claims for emergency services may contact DMAS at:

*Division of Program Operations
Department of Medical Assistance Services (DMAS)
600 E. Broad Street, Suite 1300
Richmond, VA 23219*

Citizenship & Identity Procedures

Workers are to use the following procedures when citizenship and identity verification is required to determine the individual's continued eligibility.

A. Documents

Establishing U.S. Citizenship and Identity

1. Documents that Verify Citizenship and Identity

Both U.S. Citizenship and identity are verified by a:

- U.S. Passport,
- Certificate of Naturalization, or
- Certificate of U. S. Citizenship

Documentary evidence issued by a federally recognized Indian tribe which identifies the tribe that issued the document, identifies the individual by name and confirms membership, enrollment or affiliation with the tribe (tribal enrollment card, certificate of degree of Indian blood, Tribal census. document, documents on Tribal letterhead) If the individual presents one of these documents, he has verified his citizenship and identity. **Photocopies of original documents are acceptable.**

2. Documents that Verify Identity

a. Documents

The agency must accept any of the documents listed below as proof of identity, provided such document has a photograph or other identifying information including, but not limited to, name, age, sex, race, height, weight, eye color or address. **Photocopies of original documents are acceptable.**

- Identity documents listed at 8 CFR 274a.2(b)(1)(v)(B)(I), except a driver's license issued by a Canadian government authority
- Driver's license issued by a State or Territory
- School identification card
- U.S. military card or draft record
- Identification card issued by the Federal, State or local government
- Military dependent's identification card
- U.S. Coast Guard Merchant Mariner's card
- For children under age 19, a clinic, doctor, hospital or school record, including preschool or daycare records

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	October 2013
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	Appendix 1	2

- *Two documents containing consistent information that corroborates an applicant's identity. Such documents include, but are not limited to, employer identification cards, high school and college diplomas (including high school equivalency diplomas), marriage certificates, divorce decrees and property deeds or titles.*
- *Finding of identity from a Federal or State governmental agency. The agency may accept as proof of identity a finding of identity from a Federal agency or another State agency, including but not limited to a public assistance, law enforcement, internal revenue or tax bureau, or corrections agency, if the agency has verified and certified the identity of the individual*

b. Affidavit

If the applicant does not have any document specified above and identity is not verified, the applicant may submit an affidavit signed, under penalty of perjury, by another person who can reasonably attest to the applicant's identity. Such affidavit must contain the applicant's name and other identifying information. The affidavit does not have to be notarized.

3. Documents that Verify Citizenship

a. Documents

The agency must accept any of the documents listed below as proof of U.S. Citizenship. **Photocopies of original documents are acceptable.**

- *Civil Service employment by the U.S. government prior to 1976*
- *Evidence of compliance with the Child Citizen Act of 2000*
- *Final adoption decree showing U.S. birth, or if adoption is not final, a statement from a State-approved adoption agency that shows the child's name and U.S. place of birth*
- *Homeland Security's Systematic Alien Verification for Entitlements Database (used when individual has become a Naturalized Citizen but information did not show up in SSA database)*
- *Northern Mariana Card for individuals born before 11/4/1986 (I-873)*
- *Office of Vital Records*
- *Official Military Records showing a U.S. birth Report/Certificate of birth abroad of U.S. citizen (dS-1350, FS-240 or FS-545)*
- *U.S. Birth Certificate*
- *U.S. citizen ID card (I-197 or I-179)*

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	October 2013
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	Appendix 1	3

- *Medical records, including but not limited to, hospital, clinic or doctor records or admission papers from a nursing facility, skilled care facility or other institution that indicate a U.S. place of birth*
- *Life, health or other insurance records that indicate a U.S. place of birth*
- *Official religious record recorded in the U.S. indicating a U.S. birth*
- *School records, including pre-school, Head Start and day care, showing child's name and U.S. place of birth*
- *Federal or state census records showing U.S. citizenship or U.S. place of birth*
- *Certification of U.S. birth*
- *A Certification of Report of Birth, issued to U.S. citizens who were born outside the U.S.*
- *A report of Birth Abroad of a U.S. citizen*

b. Affidavit

If no other documentation exists, the individual may submit an affidavit signed, under penalty of perjury, by another person who can reasonably attest to the applicant's identity. Such affidavit must contain the applicant's name and other identifying information. The affidavit does not have to be notarized.

C. Agency Actions

1. Documentation From Case Record and Individual

Documentation of citizenship and/or identity may be obtained from a number of different sources, *including the sources listed below. Photocopies of original documents are acceptable.*

- Existing LDSS agency records, as long as the documentation conforms to Medicaid policy for citizenship and identity verification in M0220 of the Medicaid Eligibility Manual.
- *A federal agency or another State agency. A verification of citizenship made by a federal or state agency is acceptable, as long as the verification was done on or after July 1, 2006. No further documentation of citizenship or identity is required.*

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	October 2017
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	Appendix 1	4

- Applicants and Recipients. All applicants and recipients, **except** SSI recipients, Medicare beneficiaries, SSDI beneficiaries, individuals born to Medicaid-eligible mothers, all foster care children and IV-E Adoption Assistance children, must provide documents that show proof of United States citizenship and proof of the person's identity if the local DSS is unable to verify citizenship and identity using a data match with the SSA. Contact information for obtaining the various acceptable documents is available on the VDSS local agency intranet and the DSS public website and may be given to individuals to facilitate their obtaining documentation.
- DMAS, for individuals born in Puerto Rico who are unable to provide a birth certificate issued on or after July 1, 2010.

Puerto Rico invalidated all birth certificates issued prior to July 1, 2010 and reissued the birth certificates. For individuals born in Puerto Rico **who are applying for Medicaid for the first time**, only a birth certificate issued on or after July 1, 2010 may be accepted from the individual. Should an individual born in Puerto Rico be unable to present a birth certificate issued on or after July 1, 2010, contact your Regional Medical Assistance Specialist, who will refer the case to DMAS. DMAS will obtain official birth verification on behalf of the local DSS. If the person is reapplying and the agency has a birth certificate issued prior to July 1, 2010 on record, no additional verification is required.

2. Authorized Representative

For individuals who have authorized representatives, such as the disabled or individuals who are institutionalized, initiate efforts to assist in securing documentation with the appropriate representative.

3. Individuals Who No Longer Meet Exception

When an individual loses the exception status, and his citizenship and identity has not been previously verified, it must be verified for him to remain eligible for Medicaid. If the individual's eligibility in another covered group must be determined (due to the loss of SSI benefits, for example), obtain the documentation of citizenship and identity at the time of the eligibility review. If the verification is not readily available, the individual must be allowed a reasonable opportunity to obtain the documentation. See M0220.100 A 3.

Verify the SSI recipient's or Medicare beneficiary's entitlement to benefits through the Federal Hub or SOLQ-I. A copy of the printout must be placed in the case file.

4. Individual NOT Required to Submit Documents in Person

Individuals do not have to submit their citizenship and identity to the agency worker in person. They may mail the original document for the agency to copy and mail back to the individual, **or they may submit a photocopy of the document(s).**

5. Special Populations Needing Assistance

The agency shall assist special populations who need additional assistance, such as the homeless, *intellectually disabled*, or physically incapacitated individual who lacks someone who can act on his behalf, to provide necessary documentation.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	October 2013
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	Appendix 1	5

6. Failure to Provide Requested Verifications

Failure to provide satisfactory evidence of citizenship and identity, after being provided a reasonable opportunity to present such documentation, is to result in the termination of MA.

An enrollee who fails to cooperate with the agency in presenting documentary evidence of citizenship may be denied or terminated. Failure to cooperate consists of failure by a recipient or that individual's representative, after being notified, to take a required action within the reasonable opportunity time period.

7. Notification Requirements

Prior to the termination of benefits, the enrollee must be sent written notice at least 10 calendar days (plus one day for mailing) prior to the effective date of the closure.

A Notice of Action and appeal rights must be sent to an individual whose application is denied because of failure to provide citizenship and/or identity verification.

8. Maintain Documents in Case Record

The agency must maintain copies of the documents used to verify citizenship and identity in the individual's case record or data base and must make the documents available for state and federal audits.

9. No Reporting Requirements

There are no monthly reporting requirements. However, the Medical Assistance Program Consultants may conduct reviews of cases where eligibility was denied or terminated because of lack of citizenship and/or identity verification.

10. Refer Cases of Suspected Fraud to DMAS

If documents are determined to be inconsistent with pre-existing information, are counterfeit, or are altered, refer the individual to DMAS for investigation into potential fraud and abuse. See section M1700.200 for fraud referral procedures.

Sample Letters of Certification/Eligibility for Victims of a Severe Form of Trafficking

[Used For Adults]

HHS Tracking Number

(Address)

CERTIFICATION LETTER

Dear _____:

This letter confirms that you have been certified by the U.S. Department of Health and Human Services (HHS) pursuant to section 107 (b) of the Trafficking Victims Protection Act of 2000. Your certification date is _____. Certification does not confer immigration status.

With this certification, you are eligible for benefits and services under any Federal or State program or activity funded or administered by any Federal agency to the same extent as an individual who is admitted to the United States as a refugee under section 207 of the Immigration and Nationality Act, provided you meet other eligibility criteria.

You should present this letter when you apply for benefits or services. Benefit-issuing agencies should call the trafficking verification line at (866) 401-5510 to verify the validity of this document and to inform HHS of the benefits for which you have applied.

Sincerely,

[Signed]
Director/Acting Director
Office of Refugee Resettlement

M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	Appendix 3	1

SSA Quarters of Coverage Verification Procedures for Lawful Permanent Residents *for Eligibility* *Determinations for Months Prior to April 1, 2021*

This appendix contains the process for determining the number of qualifying quarters (QQ) with which a lawful permanent resident (LPR) who entered the U.S. on or after 8-22-96 can be credited and is to be used in conjunction with the State Verification Exchange System (SVES) User Guide.

I. Procedures:

A. To determine the number of QQ available to a LPR applicant, ask the applicant the following questions:

1. How many years has the applicant, the applicant's spouse, or the applicant's parents (before the applicant turned 18) lived in this country?
2. How many years has the applicant, the applicant's spouse, or the applicant's parents (before the applicant turned 18) commuted to work in the U.S. from another country before coming to the U.S. to live, or worked abroad for a U.S. company, or worked in self-employment while a legal resident of the U.S.?

(If the total number of years to both questions is less than 10 years, **STOP** because the applicant cannot meet the 40 QQ requirement.)

3. In how many of the years reported in the answer to question 1 did the applicant, the applicant's spouse, or the applicant's parent earn money through work?
- B. To determine whether the applicant's earnings were sufficient to establish "quarters of coverage" in those years, refer to the income chart in section II .

If the answer to question 3 is 10 years or more, verify from INS documents or other documents the date of entry into the country for the applicant, spouse and/or parent. If the dates are consistent with having 10 or more years of work, initiate a SVES inquiry.

- C. Complete or obtain from the applicant a completed "Consent for Release of Information" (see page 4 of this appendix) with the full name, social security number and date of birth of each individual (self, spouse, or parent) whose work history is relevant. In addition, the applicant must provide a form signed by each such individual, except deceased persons, giving SSA permission to release information through SVES on that individual to the agency and/or the applicant. Retain the consent form in the case file to document the individual's consent. A consent form is valid for 12 months from the time of the signature.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	March 2011
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	Appendix 3	2

- D. Information received through SVES will not report earnings for the current year nor possibly the last year's earnings (i.e. the lag period). The SVES report will also not include employment that is not covered under Social Security (i.e. not requiring payment of FICA/Social Security tax). The applicant must provide verification of earnings through pay stubs, W-2 forms, tax records, employer records, or other documents, if quarters of the lag period or non-covered employment are needed to meet the 40-quarter minimum. Use the information contained in section II to determine QQ for lag periods and non-covered earnings.

If the alien believes the information from SSA is inaccurate or incomplete, beyond the current two-year lag period, advise the applicant to provide the verification to SSA to correct the inaccurate income records.

In evaluating the verification received directly from the applicant or through SVES, **exclude** any quarter, beginning January 1997, in which the person who earned the quarter received benefits from the TANF, SSI, or Medicaid, or SNAP Programs or the food assistance block grant program in Puerto Rico.

- E. In situations when consent to release information through SVES cannot be obtained from a parent or spouse, other than death, request information about quarters of coverage directly from the Social Security Administration. Complete or obtain from the applicant a Request for Quarters of Coverage (QC) History Based on Relation form, SSA-513. The form specify the period(s) for which the verification is requested. Submit the completed form to:

Social Security Administration
P.O. Box 33015
Baltimore, Maryland 21290-3015

- F. When the SSA is unable to determine if a quarter should be allowed, the SVES inquiry will show "Z" or "#" codes. If an applicant cannot meet the 40-quarter minimum without using a questionable quarter, SSA will investigate the questionable quarter(s) and will either confirm or deny the quarter. Use Form SSA-512, "Request to Resolve Questionable Quarters of Coverage (QC)," to resolve quarters before 1978. A copy of the SVES report must accompany the completed form. Submit Form SSA-512 to:

Social Security Administration
Office of Central Records Operations
P.O. Box 33015
Baltimore, Maryland 21290-3015

For questionable quarters for 1978 or later, the applicant must complete Form SSA-7008. "Request for Correction of Earnings." This form is available at local SSA offices. At the top of the form write "Welfare Reform." Submit the form and proof of earnings to:

Social Security Administration
Office of Central Records Operations
P.O. Box 30016
Baltimore, Maryland 21290-3016

Virginia Medical Assistance Eligibility	M02	April 2013
Subchapter Subject M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	Page ending with Appendix 3	Page 3

II. Establishing Quarters:

Use the following information to (1) determine whether the applicant's earnings as reported in section I.A were sufficient to establish quarters of coverage and (2) to determine the number of QQ during lag periods and when the reported employment is not a covered earning for Social Security reporting purposes:

- A quarter is a period of 3 calendar months ending with March 31, June 30, September 30 and December 31 of any year.
- Social Security quarters of coverage are credits earned by working at a job or as a self-employed individual. A maximum of four credits or quarters can be earned each year.
- For 1978 and later, credits are based solely on the total yearly amount of earnings. The number of creditable QQ are obtained by dividing the total earned income by the increment amount for the year. All types of earnings follow this rule. The amount of earnings needed to earn a credit increases and is different for each year. The amount of earnings needed for each credit and the amount needed for a year in order to receive four credits are listed below.
- A current year quarter may be included in the 40-quarter computation. Use the current year amount as the divisor to determine the number of quarters available.

If you need to use quarters before 1978:

- A credit was earned for each calendar quarter in which an individual was paid \$50 or more in wages (including agricultural wages for 1951-1955);
- Four credits were earned for each taxable year in which an individual's net earnings from self-employment were \$400 or more; and/or
- A credit was earned for each \$100 (limited to a total of 4) of agricultural wages paid during the year for years 1955-1977.

<i>Year</i>	<i>Increment Amount</i>	<i>Amount Required for 4 QCs</i>
2013	\$1,160	\$4,640

Afghan Special Immigrants

The majority of Afghan special immigrants entering into the U.S. fall into one of three groups:

1. Holders of a Special Immigrant Visa,
2. Special Immigrant Parolees (SIP), who are individuals granted Special Immigrant (SI/SQ) Parole (per section 602(B)(1) AAPA/Section 1059(a) NDAA 2006), and
3. Non Special Immigrant Parolees entering the United States without SI/SQ parole due to the urgent nature of their arrival (Humanitarian status).

The United States Congress passed a Continuing Resolution on October 1, 2021, allowing individuals with a humanitarian parole status to receive full Medicaid (within certain parameters). Section 2502 of the [Continuing Resolution](#) provides that certain Afghan nationals who receive parole “shall be eligible for resettlement assistance, entitlement programs, and other benefits available to refugees” to include Medicaid, until March 1, 2023 (or until their parole expires). Eligible parolees are those who either:

- Were paroled into the United States between July 31, 2021, and September 30, 2022
- Are a qualifying relative of someone who received parole in that period (CR section 2502(a)(1)(B)), even if they receive parole after Sept 30, 2022.

Individuals with (1) SIV status, (2) SIP status, and (3) Humanitarian Parolee Status issued between July 31, 2021, and September 30, 2021, are qualified for evaluation in Medicaid and FAMIS without a five-year residency bar (provided that all other eligibility requirements are met).

Exception: Humanitarian Parolees who arrived **before July 31, 2021**, are eligible only for Medicaid coverage of emergency medical services and Health Insurance Marketplace coverage. Many of these individuals have already been enrolled in subsidized Marketplace coverage or have been granted asylum and are therefore eligible for Medicaid or FAMIS without the 5-year bar.

Children under 19 years and pregnant women with SIV, SIP, or Humanitarian status meet the definition of lawfully residing aliens for Medicaid and FAMIS/FAMIS MOMS coverage.

Afghan Special Immigrant visa holders will have either (1) a passport or I-94 form indicating category SI1, SI2, SI3, SQ1, SQ2, or SQ3 and bearing the Department of Homeland Security stamp or notation or an I-151 (“green card”) indicating SI6, SI7, SI8, SQ6, SQ7, or SQ8.

Special Immigrant Parolees will have an I-94 form noting SQ or SI Parole (per section 602(B)(1) AAPA/Sec 1059(a) NDAA 2006).

If an individual has attested to eligible immigration status and is found otherwise eligible for Medicaid, but verification of that status cannot be obtained, do not deny or delay coverage. Enroll the individual and give a 90-day reasonable opportunity period.

Ukraine Humanitarian Parolees

The U.S. Department of Homeland Security (DHS) is providing support and humanitarian relief to Ukrainians who have been displaced by Russia's February 24, 2022 invasion and fled Ukraine. The United States Congress passed the Additional Ukraine Supplemental Appropriations Act (AUSAA) and was signed on May 21, 2022 by President Biden. This measure confers eligibility for all Ukrainian Humanitarian Parolees for mainstream federal benefits as well as resettlement services funded by the Office Refugee Resettlement (ORR).

Certain Ukraine nationals entering the U.S. may be eligible for health coverage through Medicaid, the Children's Health Insurance Program (CHIP), the Health Insurance Marketplace, or Refugee Medical Assistance (RMA). These individuals may be granted a range of lawful non-citizen statuses, including parole, temporary protected status (TPS), immigrant and nonimmigrant visas, and refugee or asylees. The primary non-citizen immigrant statuses include:

1. Parolees: Ukrainian nationals who enter the United States as parolees on or **between February 24, 2022 and September 30, 2023** are eligible for Medicaid or CHIP to the same extent as refugees, without a five-year waiting period, if they meet other eligibility requirements. These Ukrainian parolees are considered "qualified non-citizens" for purposes of Medicaid and CHIP eligibility since they are eligible for the same benefits as refugees.

Ukrainian nationals who are paroled into the U.S. **after September 30, 2023** and are the spouse or child of a parolee described above, or who is the parent, legal guardian, or primary caregiver of a parolee described above who is determined to be an unaccompanied child will also be eligible for Medicaid and CHIP to the same extent as refugees.

2. Temporary Protected Status (TPS): Ukrainian nationals (and individuals having no nationality who last habitually resided in Ukraine) are eligible to apply for TPS. This includes Ukrainians granted TPS or have pending applications for TPS and who have been granted employment authorization. The TPS designation is effective **April 19, 2022 and will remain in effect through October 19, 2023**.
3. Refugees: Some Ukrainian nationals may be granted refugee status and resettled into the U.S. are eligible for full Medicaid or CHIP benefits, without application of the five-year waiting period, if they otherwise meet all other Medicaid eligibility requirements.
4. Lawfully Residing individual: Children under age 19 and pregnant women who are in one of the lawfully residing non-citizen alien groups (see M0220.314) and meet the definition of a lawfully residing alien for Medicaid and FAMIS/FAMIS MOMS coverage may be eligible for assistance.
5. Emergency Services: Ukrainian non-citizens who do not qualify for full Medicaid benefits based on their immigration status may be eligible for "emergency services Medicaid" if they meet all other eligibility requirements. An individual eligible only for emergency Medicaid is permitted to enroll in Marketplace coverage if they meet all Marketplace eligibility requirements.

Ukrainian parolees will generally have foreign passports with a DHS stamp admitting them with a PAR, DT, or UHP Class of Admission (COA). DHS will be using the existing COA code DT and PAR for some Ukrainians who were paroled into the U.S. Additional COA code(s) will be programmed into Hub logic in early fall of 2022.

If an individual has attested to eligible immigration status and is found otherwise eligible for Medicaid, but verification of that status cannot be obtained, do not deny or delay coverage. Enroll the individual and give a 90-day reasonable opportunity period.

Proof of U.S. Citizenship and Identity for Medicaid

Effective July 1, 2006, individuals who declare on a Medicaid application that they are United States citizens must provide proof of citizenship and identity. Individuals who are already enrolled in Medicaid must provide this documentation at the time of their next Medicaid renewal.

Some common documents that may be used to meet the citizenship and identity requirement are listed below. Representatives from your local department of social services can tell you what other documents may be acceptable. If you have difficulty obtaining one of the documents listed or have any questions, please discuss your situation with your eligibility worker. Whenever possible, we will allow additional time for you to obtain the necessary documentation.

The following documents are proof of both citizenship and identity; no additional documents are necessary to meet the Medicaid requirement to provide proof of citizenship and identity.				
Document	Shows Proof Of	Issued By	Fee	For More Information, Contact
U.S. Passport (unexpired or expired)	Citizenship & Identity (if issued with limitation and expired, only shows proof of identity)	U.S. Department of State	Varies	(202) 647-4000 or www.state.gov
Certificate of Naturalization (N-550 or N-570)	Citizenship & Identity	U.S. Department of Homeland Security, Bureau of Citizenship and Immigration Services	Varies	1-800-375-5283 or www.uscis.gov
Certificate of Citizenship (N-560 or N-561)—issued when a person was born outside U.S. to U.S. Citizen parent(s)	Citizenship & Identity	U.S. Department of Homeland Security, Bureau of Citizenship and Immigration Services	Varies	1-800-375-5283 or www.uscis.gov

The following documents may be used to prove citizenship only. You must also provide proof of identity.				
Document	Shows Proof Of	Issued By	Fee	For More Information, Contact
U.S. Public Birth Record ("Birth Certificate")—must contain original embossed seal	Citizenship—(Must also provide proof of identity)	The state, commonwealth, territory or local jurisdiction	Va. Birth Cert. \$12	For citizens born in Virginia: Department of Health, Division of Vital Records: (804) 662-6200 or www.vdh.virginia.gov (will also assist citizens born outside Virginia with finding contact information for their birth state)

		Individuals whose immigration status has expired and who do not meet any other immigration status	No—Eligible for Emergency Services Coverage Only	A
		Lawful Permanent Resident who has resided in the U.S. for fewer than 5 years, and/or prior to 4-1-21, without at least 40 qualify quarters of work coverage on record with the Social Security Administration. Effective 4-1-21, there is no longer a work requirement. The 5 year residency requirement remains in effect.	No—Eligible for Emergency Services Coverage Only	A

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date July 2022
Subchapter Subject M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	Page ending with Appendix 9	Page 1

EMERGENCY SERVICES ALIENS ENTITLEMENT & ENROLLMENT PRIOR TO JULY 1, 2022

A. Policy Unqualified aliens, and qualified aliens eligible for emergency services only are eligible for Medicaid coverage of emergency medical care only. This care must be provided in a hospital emergency room or as an inpatient in a hospital.

**B. Entitlement-
Enrollment Period** If the applicant is found eligible and is certified for emergency services, eligibility exists only for the period of coverage certified by the eligibility worker or DMAS staff on the Emergency Medical Certification form #DMAS Form 2019NR.

Once an eligibility period is established, additional requests for coverage of emergency services within 6 months will not require a new Medicaid application. However, each request for Medicaid coverage of an emergency service or treatment requires a new, separate certification and a review of the alien's income and resources and any change in situation that the alien reports.

With the exception of dialysis patients, an emergency services alien must file a new Medicaid application after the 6-month eligibility period is over if the individual receives an emergency service and wants Medicaid coverage for that service.

DMAS will certify dialysis patients for up to a one year period of services without the need for a new Medicaid application. However, due to edits in MMIS, only one six-month certification period at a time can be entered. The worker must manually enter the second certification period of up to six months (as certified by DMAS) after the first period expires.

The dialysis patient must reapply for Medicaid after his full certification period expires.

**C. Enrollment
Procedures** Once an emergency services alien is found eligible for coverage of emergency services, enroll the individual in the eligibility and enrollment system using the following data:

In this field, Country of Origin, enter the code of the alien's country of origin.

**2. Citizenship
Status** In this field, Citizenship Status code, enter :

A = Emergency services alien (Alien Chart codes B2, C2, C3, CC2, D2, E2, F3, G3, H3, I2, codes J3 through V3, Z2) other than dialysis patient.

D = Emergency services alien who receives dialysis.

V = Visitor, non-immigrant alien (Alien Chart codes W1, W2, W3).

The Alien Codes Chart is found in Appendix 5 to this subchapter.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	July 2022
Subchapter Subject	Page ending with	Page
M0220.000 CITIZENSHIP & ALIEN REQUIREMENTS	Appendix 9	2

NOTE: Foreign visitors are not usually eligible for Medicaid because usually they do not meet the Virginia state residency requirement.

3. **Entry date** **THIS FIELD MUST BE ENTERED.** Enter the date on which the alien entered the U.S., except for asylees and deportees. For asylees, enter the date asylum was granted. For deportees, enter the date deportation withholding was granted.
4. **App Dt** In this field, application date, enter the date of the alien's Medicaid application upon which the eligibility coverage period is based.
5. **Covered Dates Begin** In this field, coverage begin date, enter the begin date of the emergency service(s).
6. **Covered Dates End** In this field, coverage end date, enter the date when the alien's emergency service(s) ends. When the emergency service(s) received was related to labor and delivery, the end date includes the day of discharge even though it is not counted to determine the length of stay for certification purposes.
7. **AC** Enter the code applicable to the alien's covered group.

D. Notices

Appropriate notice must be sent to the applicant of the status of his application and the duration of his eligibility.

The USCIS requires that all benefit applicants who are denied benefits based **solely or in part** on the SAVE response be provided with adequate written notice of the denial as well as the information necessary to contact USCIS, so that the individual may correct his records in a timely manner, if necessary. The fact sheet, "Information for Applicants: Verification of Immigration Status and How to Correct Your Record with USCIS" (Form # 032-03-0427-00) must be included with the Notice of Action when benefits are denied, **including the approval of emergency-services-only Medicaid coverage**, and with the Advance Notice of Proposed Action when benefits are subsequently cancelled based on the results of a SAVE inquiry. The fact sheet is available at [https://fusion.dss.virginia.gov/Portals/\[bp\]/Files/SAVE/Inform%20for%20Applicants%20Verification%20of%20Immigration%20Status.pdf?ver=2019-05-29-135745-363](https://fusion.dss.virginia.gov/Portals/[bp]/Files/SAVE/Inform%20for%20Applicants%20Verification%20of%20Immigration%20Status.pdf?ver=2019-05-29-135745-363).

A Medicaid card will not be generated for an individual enrolled as an emergency services alien.

The agency must contact the provider(s) and supply the eligibility dates and Medicaid number for billing purposes by sending a copy of the completed Emergency Medical Certification #DMAS Form 2019NR, to the provider(s).

M0230.000 VIRGINIA RESIDENCY REQUIREMENTS

M0230.001 POLICY PRINCIPLES

A. Policy

An individual must be a Virginia resident in order to be eligible for Medicaid, but is not required to have a fixed address. This subchapter, M0230, explains in detail how to determine if an individual is a Virginia resident.

An individual placed by a Virginia government agency in an institution is considered a Virginia resident for Medicaid purposes even when the institution is in another state (section M0230.203 below).

For all other individuals, Virginia residency is dependent on whether the individual is under age 21 years or is age 21 or older (sections M0230.201 and 202 below).

B. Retention of Residency

Residence is retained until abandoned. Temporary absence from Virginia with subsequent return to the state, or intent to return when the purposes of the absence have been accomplished, does not interrupt continuity of Virginia residence.

C. Non-immigrant Aliens

*Regardless of an individual's immigration status, accept declaration of Virginia residency on the application as verification of residency. Do **NOT** require individuals who have been admitted into the U.S. on non-immigrant visas and other non-immigrants to sign a statement of intended residency.*

D. Cross-Reference to Intra-State Transfer

Procedures for handling cases where individuals who are Virginia residents move from one Virginia locality to another are described in subchapter M1520.

E. No Fixed Address

The agency cannot deny Medicaid to an eligible Virginia resident just because the resident has no fixed address. A Virginia resident is not required to have a fixed address in order to receive Medicaid.

For an eligible Virginia resident who does not have a fixed address, use the local social services department's address for the Medicaid card and inform the resident that he must come to the social services department to receive his card until he obtains a fixed address.

F. Length of Residency

The agency may not deny Medicaid eligibility because an individual has not resided in Virginia for a specified period of time.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date March 2011
Subchapter Subject M0230 VIRGINIA RESIDENCY REQUIREMENTS	Page ending with M0230.100	Page 2

G. Residency in Virginia Prior to Admission to Institution

The agency may not deny Medicaid eligibility to an individual in an institution who meets the Virginia residency requirements previously identified in this subchapter, because the individual did not establish residence in Virginia before entering the institution.

H. Temporary Absence

The agency may not deny or terminate Medicaid eligibility because of that individual's temporary absence from Virginia if the individual intends to return to Virginia when the purpose of the absence has been accomplished, UNLESS another state has determined that the individual is a resident there for Medicaid purposes.

I. Disputed or Unclear Residency

If state residency is unclear or is in dispute, contact the regional specialist for help in resolution. When two or more states cannot resolve the residency, the state where the individual is physically located becomes the state of residence.

M0230.100 DEFINITION OF TERMS

A. Introduction

For purposes of this subchapter only, the terms in this section have the following meanings:

B. Institution

An establishment that furnishes (in single or multiple facilities) food, shelter, and some treatment or services to four or more persons unrelated to the proprietor is an **institution**.

For purposes of state placement of an individual, the term "institution" also includes foster care homes approved by the state and providing food, shelter and supportive services to one or more persons unrelated to the proprietor.

C. In An Institution

"In an institution" refers to an individual who is admitted to live in an institution and receives treatment or services provided there that are appropriate to his requirements.

D. Incapable of Indicating Intent

An individual is incapable of declaring his intent to reside in Virginia or any state if the individual:

- has an I.Q. of 49 or less or has a mental age of 7 or less, based on tests acceptable to the Virginia Department of Behavioral Health and Developmental Services (DBHDS);
- is judged legally incompetent; or
- is found incapable of declaring intent to reside in a specific state based on medical documentation obtained from a physician, psychologist, or other professional licensed by the State in the field of mental retardation.

E. Virginia Government Agency

A Virginia government agency is any state or local government agency, and any entity recognized by State law as being under contract with a Virginia state or local government agency.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date May 2015
Subchapter Subject M0230 VIRGINIA RESIDENCY REQUIREMENTS	Page ending with M0230.201	Page 3

M0230.200 RESIDENCY REQUIREMENTS

M0230.201 INDIVIDUALS UNDER AGE 21

A. Under Age 21 NOT In An Institution

An individual under age 21 is considered a resident of Virginia if he:

- a. is married or emancipated from his parents, is capable of indicating intent and is residing in Virginia with the intent to reside Virginia.
- b. is not emancipated but is not living with a parent or caretaker and is presently residing in Virginia with the intent to reside in Virginia;
- c. lives with a parent or caretaker who is presently residing in Virginia with the intent to reside in Virginia;
- d. is a non-IV-E (state/local) foster care child whose custody is held by Virginia (see M230.204 C. and D.);
- e. *is a non-IV-E foster care child whose custody is held by another state but who has been placed with and is residing in Virginia with a parent or caretaker relative;*
- f. is a non-IV-E child adopted under an adoption assistance agreement with Virginia (see M230.204 C. and D.);
- g. is a non-IV-E foster care child whose custody is held by a licensed, private foster care agency in Virginia, regardless of the state in which the child physically resides;
- h. is under age 21 and is residing in another state for temporary period (for reasons such as medical care, education or training, vacation, (or visit) but is still in the custody of his/her parent(s) who reside in Virginia.
- i. is living with a parent(s) who is a non-immigrant alien (admitted to the U.S. for a temporary or limited time) when the parent has declared his intent to reside in Virginia permanently or for an indefinite period of time, and no other information is contrary to the stated intent.

B. Under Age 21 In An Institution

If the individual was placed in the institution by a state government agent, go to section M0230.203 below.

An institutionalized individual (who was not placed in the institution by a state government) who is under age 21 and is not married or emancipated, is a resident of Virginia if:

1. the individual's parent or legal guardian was a Virginia resident at the time of the individual's institutional placement;
2. the individual's parent or legal guardian who applies for Medicaid is a Virginia resident and the individual is institutionalized in Virginia; or
3. the individual's parent(s) has abandoned the individual, no legal guardian has been appointed, and the individual is institutionalized in Virginia.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date May 2015
Subchapter Subject M0230 VIRGINIA RESIDENCY REQUIREMENTS	Page ending with M0230.202	Page 4

C. Under Age 21, Custody or Adoption Agreement with Another State

When another state's child-placing agency has custody of a child who lives in Virginia with a foster family, the child is NOT a Virginia resident unless the child is eligible as a IV-E Foster Care child and receives a IV-E Foster Care maintenance payment.

1. IV-E Eligible Children

A Title IV-E Foster Care child who lives in Virginia and who receives a Title IV-E maintenance payment from another state meets the Virginia residency requirements for Medicaid.

A Title IV-E Adoption Assistance child who lives in Virginia and has a Title IV-E Adoption Assistance agreement in effect with another state's child-placing agency meets the Virginia residency requirements for Medicaid.

2. Non-IV-E Foster Care Children

A non-IV-E Foster Care child placed in Virginia from another state does NOT meet the Virginia residency requirements for Medicaid *unless placed with and residing in Virginia with a parent or caretaker-relative*.

3. Foster Care Children with SSI

A foster care child who receives Supplemental Security Income (SSI) benefits meets the Virginia residency requirement regardless of which state's child-placing agency maintains custody.

4. Non-IV-E Adoption Assistance and Adoptive Placement Children

A child who lives in Virginia with an adoptive family is considered to be living with a parent, regardless of whether a final order of adoption has been entered in court. When his adoptive parent is a Virginia resident, the child is a Virginia resident for Medicaid eligibility purposes. A Non-IV-E Adoption Assistance child whose adoption assistance agreement is signed by another state's child-placing agency is a Virginia resident when the child lives in Virginia with the adoptive parent(s).

M0230.202 INDIVIDUALS AGE 21 OR OLDER

A. Introduction

For an individual age 21 or older, the determination of state residency depends on

- whether or not the individual is in an institution, and
- whether or not the individual is capable of indicating his or her intent to reside in the state.

B. Age 21 Or Older NOT In An Institution

For any individual age 21 or older NOT residing in an institution, the state of residence is Virginia when:

- the individual is living in Virginia with or without a fixed address with the intention to reside in Virginia;
- the individual is living in Virginia and entered the state with a job commitment or seeking employment (whether or not currently employed).
- the individual is incapable of indicating intent and the individual is living in Virginia.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date October 2013
Subchapter Subject M0230 VIRGINIA RESIDENCY REQUIREMENTS	Page ending with M0230.203	Page 5

C. Age 21 Or Older In An Institution **If the individual was placed in the institution by a state government agent, go to section M0230.203 below.**

- 1. Capable of Stating Intent** An individual in an institution who is age 21 or over and who is capable of declaring his intent to reside in Virginia, is a resident of Virginia if the individual is in an institution in Virginia with the intent to remain permanently or for an indefinite period.
- 2. Incapable of Stating Intent** An individual in an institution who is age 21 or over and who became incapable of stating intent at or after age 21 is a Virginia resident if he or she is residing in Virginia.

M0230.203 STATE PLACEMENT IN INSTITUTION

A. Policy

Any agency of the state, including an entity recognized under state law as being under contract with the state for such purposes, that arranges for an individual to be placed in an institution located in another state, is recognized as acting on behalf of the state in making the placement. The state arranging or actually making the placement is considered the individual's state of residence. When an individual is placed by state or local government in an institution in another state, the individual remains the responsibility of the placing state unless the state or local government agency in the other state assumes responsibility for the individual's care or Medicaid eligibility.

When an individual is placed by a Virginia government agency in an institution in another state, the individual remains the responsibility of Virginia unless

- a state or local government agency in the other state assumes responsibility for the individual's care or Medicaid eligibility,
- the individual is a child who receives a IV-E foster care or adoption assistance payment, or
- the individual is a child who receives **non-IV-E adoption assistance** and the state in which he is placed is a reciprocal state under the interstate compact, verified by the central office Deputy Compact Administrator, Adoption Unit, Division of Family Services, Virginia Department of Social Services (DSS).

B. State Placement

Placement by a state government agency is any action taken by the agency, beyond providing general information to the individual and his family, to arrange admission to an institution for the individual. The following actions do not constitute state placement:

- providing basic information to individuals about other states' Medicaid programs or about the availability of health care services and facilities in other states;
- assisting an individual, who is capable of declaring intent and who independently decides to move out-of-state, in locating an institution in another state.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date October 2016
Subchapter Subject M0230 VIRGINIA RESIDENCY REQUIREMENTS	Page ending with M0230.204	Page 6

1. Lack Of Facilities

When a placement is initiated by a state because the state lacks a sufficient number of appropriate facilities to provide services to its residents, the state making the placement is the individual's state of residence for Medicaid purposes.

2. Individual Leaves Facility

When a competent individual leaves the facility in which he was placed by a state, that individual's state of residence for Medicaid purposes is the state where the individual is physically located.

C. Individual Placed Out-of-State by Virginia Government

An individual can leave Virginia and retain Virginia residency if he is placed in an institution outside Virginia by a Virginia government agency. Out-of-state placement into a long-term care facility must be preauthorized by the Director of the Virginia Department of Medical Assistance Services for Virginia Medicaid to pay for the institutional care.

When a competent individual voluntarily leaves the facility in which Virginia placed him, he becomes a resident of the state where he is physically located.

M0230.204 CASH ASSISTANCE PROGRAM RECIPIENTS

A. Introduction

Certain individuals are considered residents of Virginia for Medicaid purposes if they live in Virginia and receive a cash assistance payment specified below in this section. Some recipients of cash assistance from a Virginia social services agency who do NOT reside in Virginia are considered residents of Virginia for Medicaid purposes, as specified below.

B. Auxiliary Grants Recipients

An individual receiving an Auxiliary Grants (AG) payment from a locality in Virginia is considered a Virginia resident.

An individual who receives a State Supplement of SSI payment from another state is considered a resident of the state making the State Supplement payment.

C. IV-E Payment Recipients

For an individual of any age who receives federal foster care or adoption assistance payments under Title IV-E of the Social Security Act, the state of residence for Medicaid eligibility is the state where the child lives.

D. Non-IV-E Foster Care Payment Recipients

A child in foster care receiving a non-IV-E (state and local) payment whose custody is held by another state but who has been placed with and is residing in Virginia with a parent or care-taker relative is considered a resident of Virginia. If the child is not living with a parent or care-taker relative, the child is a resident of the state that is making the non IV-E payment.

E. Non-IV-E Adoption Assistance Payment Recipients

The non IV-E (state/local) Adoption Assistance recipient is a resident of the state in which the child's adoptive parent(s) resides, regardless of whether a final order of adoption has been entered in court.

M0240.000 SOCIAL SECURITY NUMBER REQUIREMENTS

M0240.001 GENERAL PRINCIPLES

A. Policy

To be eligible for medical assistance (MA), an individual must provide his Social Security number (SSN) as well as the SSN of any person for whom MA is requested, or must provide proof of application for an SSN. This requirement applies to both the Medicaid and FAMIS Programs.

Exceptions – the SSN requirement does not apply to:

- an alien who is eligible only for Medicaid payment of emergency services, as defined in subchapter M0220,
- a non-citizen who is only eligible to receive an SSN for a valid non-work reason,
- a child under age one born to a Medicaid-eligible or FAMIS- covered mother (see M0330.301 B. 2 and M2220.100.), or
- an individual who refuses to obtain an SSN because of well-established religious objections.

An individual who is applying only for others and is not applying for himself is not required to provide an SSN for himself.

B. Failure to Meet SSN Requirement

Any individual for whom an application for an SSN has not been filed or for whom the SSN is not furnished **is not eligible** for MA EXCEPT for the following individuals.

1. Child Under Age 1

A child under age one born to a Medicaid-eligible or to a FAMIS-covered mother is deemed to have applied and been found eligible for MA, whether or not the eligibility requirements, including SSN, have actually been met. This includes an infant born to a mother in FAMIS Prenatal Coverage who is *assigned to* Aid Category 110 AND who is NOT in managed care.

An infant born to a mother in FAMIS Prenatal Coverage who *is assigned to* AC 110 and who IS in managed care OR who *is assigned to* in AC 111 is not a deemed newborn; however, the infant is not required to provide an SSN or proof of application for an SSN in order to be enrolled. See M0240.200 C.

2. Individual With Religious Objections

An individual who refuses to obtain an SSN due to well-established religious objections must provide documentation of (1) membership of a recognized religious sect or division of the sect and (2) adherence to the tenets or teachings of the sect or division of the sect and for that reason being conscientiously opposed to applying for or using a national identification number.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date July 2021
Subchapter Subject M0240 SOCIAL SECURITY NUMBER REQUIREMENTS	Page ending with M0240.001	Page 2

3. Emergency-Services Aliens and other Non-Citizens

An alien eligible for Medicaid payment of emergency services only, as defined in M0220.410 and M0220.41, is not required to provide or apply for an SSN.

Any non-citizen who is only eligible to receive an SSN for a valid non-work reason is not required to provide or apply for an SSN. These individuals include, but are not limited to, undocumented aliens, non-citizens admitted to the U.S. on non-immigrant visas and individuals who do not intend to work in the U.S. and would only have needed an SSN for the purposes of receiving public assistance.

C. Relationship to Other Medicaid Requirements

An applicant who cannot provide documentation that he is a citizen or legally present at the time of application must sign an affidavit under oath attesting that he is a U.S. citizen or legally present in the U.S. in order to temporarily meet the requirement for proof of legal presence (see M0210.150). **Submission of the affidavit without proof of application for an SSN does NOT meet the SSN requirement.**

D. Verification

1. Name

The name entered in the official case record and computer enrollment systems for an applicant must match the applicant's name on his Social Security card or Social Security Administration (SSA) records verification. It is important to spell the name correctly so that when the Medicaid Management Information System (MMIS) sends the enrollee information to SSA for the Medicare Buy-in or the citizenship and identity match, the enrollee can be matched to SSA records.

The Federally managed Data Services Hub verifies the individual's name and SSN with the SSA for cases processed in the Virginia Case Management System (VaCMS). For an individual whose name and SSN cannot be verified in VaCMS and for all individuals whose cases are not processed in VaCMS, either the State Verification Exchange System (SVES) or the State Online Query-Internet system (SOLQ-I) SSA Title II and Title XVI results may be used.

2. SSN

The individual's SSN must be verified. The worker may use the SOLQ-I or SVES to verify an individual's SSN.

3. Verification Systems - SVES & SOLQ-I

SVES verifies the individual's SSN, name spelling, entitlement to SSA benefits and the amount of the benefit, entitlement to SSI and the amount, and entitlement to Medicare & the Medicare premium amounts. SVES tells the worker what is wrong with the name, if the name is incorrectly spelled.

The SOLQ-I verifies the individual's SSN, entitlement to SSA benefits and the amount of the benefit, entitlement to SSI and the amount, and entitlement to Medicare & the Medicare premium amounts. SOLQ-I does not verify the individual's name according to the SSA records.

E. Procedure

Section M0240.100 below explains in detail how to determine if an individual meets the SSN requirements when the individual or child does not have an SSN.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date July 2022
Subchapter Subject M0240 SOCIAL SECURITY NUMBER REQUIREMENTS	Page ending with M0240.200	Page 3

M0240.100 APPLICATION FOR SSN

A. Policy

If an SSN has not been issued for the individual or the individual's child(ren), the applicant must cooperate in applying for a number with the local Social Security Administration Office (SSA). Instruct the applicant to submit form SS-5, the Application for Social Security Number, to the SSA and to obtain a receipt from SSA verifying that the application was submitted. The SS-5 is available online at:
<http://www.socialsecurity.gov/ssnumber/ss5.htm>.

The agency must provide a 90-calendar-day reasonable opportunity period for the individual to obtain and provide an SSN and may not delay, deny, reduce or terminate benefits for an individual whom the agency determines to be otherwise eligible for Medicaid during such reasonable the opportunity period. If the application for an SSN was made through hospital enumeration, the agency must allow 120 calendar days for the SSN to be obtained and provided.

The applicant must provide the SSN to the local social services department as soon as it is received and the number must be verified and entered in the eligibility/enrollment system.

1. Newborns

In the case of a newborn child, the applicant/recipient may satisfy this requirement by requesting that an SSN be applied for by hospital staff in conjunction with the filing of the birth record at the time of the child's birth. Form SSA-2853 will be given to the mother by hospital staff as verification of application for the child's SSN.

For an infant born to a mother in FAMIS Prenatal Coverage who is assigned to AC 110 and who is in managed care OR who is enrolled in AC 111, see M0240.200 C.

2. Failure to Apply for SSN

Applicants who refuse to furnish an SSN or to show proof of application for a number are ineligible for Medicaid.

3. Retroactive Eligibility

An individual who provides proof of application for an SSN after he applies for medical assistance, meets the application for SSN requirement in the three months retroactive to his medical assistance application.

M0240.200 FOLLOW-UP REQUIREMENTS FOR SSN APPLICATION

A. Applicant Applied for SSN

When an applicant who has applied for an SSN is determined eligible for medical assistance, he is enrolled with a pseudo-SSN. The worker must obtain the enrollee's SSN when it is assigned and enter it into the enrollee's records.

For an infant born to a mother in FAMIS Prenatal Coverage who is assigned to AC 110 and who is in managed care OR who is assigned to AC 111, see M0240.200 C.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date July 2022
Subchapter Subject M0240 SOCIAL SECURITY NUMBER REQUIREMENTS	Page ending with M0240.200	Page 4

**B. Follow-Up
Procedures for
Individuals Who
Are Not Infants
Born to Women
Enrolled in FAMIS
Prenatal Coverage**

The follow-up procedures below do not apply to individuals listed in M0240.100 B.

1. Documentation

If the applicant does not have an SSN, the agency must document in the record the date he applied for an SSN.

**2. Entering
Computer
Systems**

If a date is necessary when entering the individual the eligibility/enrollment system, use the date the individual applied for an SSN, or the individual's date of birth, preceded by "000" as the individual's SSN.

For example, an individual applied for an SSN on October 13, 2006. Enter "000101306" as the individual's SSN in the eligibility/enrollment system.

3. Follow-up

a. Follow-up in 90 Calendar Days

After enrollment of the eligible individual, the agency must follow-up within 90 *calendar* days of the Social Security number application date or 120 *calendar* days if application was made through hospital enumeration.

b. Check for Receipt of SSN

Check the system records for the enrollee's SSN. If the SSN still has "000" the first 3 digits, contact the enrollee to obtain the enrollee's SSN verbally or by mail. *If the individual has not applied for an SSN, send advance notice that the individual is no longer eligible for coverage and cancel coverage.*

c. Verify SSN by a computer system inquiry of the SSA records.

d. Enter Verified SSN in the eligibility/enrollment system.

**4. Renewal
Action**

If the enrollee's SSN has not been assigned by the 90-day follow-up, the worker must follow-up no later than the enrollee's annual renewal, by checking the systems for the enrollee's SSN and by contacting the enrollee if necessary.

a. Check for Receipt of SSN

Before or at renewal, the SSN must be entered into the eligibility/enrollment system. Check the system records for the enrollee's SSN. If the SSN has "000" as the first 3 digits, contact the enrollee to obtain the enrollee's SSN verbally or by mail, or on the renewal form if a renewal form is required.

b. Verify SSN by a computer system inquiry of the SSA records.

c. Enter Verified SSN in the eligibility/enrollment system.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date July 2022
Subchapter Subject M0240 SOCIAL SECURITY NUMBER REQUIREMENTS	Page ending with M0240.300	Page 5

d. SSN Not Provided by Renewal Deadline

The worker must assist the enrollee in obtaining the applied-for SSN. The worker will ask the enrollee for the assigned SSN at the first renewal, and give a deadline date for the enrollee to provide the SSN.

If the enrollee does not provide the SSN by the deadline, the worker will ask the enrollee why it was not provided to the worker:

- Did the enrollee ever receive the SSN from SSA?
- If not, why not?

If the problem is **not** an SSA administrative problem, the worker must cancel MA coverage for the enrollee whose SSN is not provided.

C. Follow-Up Procedures For an Infant Born to a Woman Enrolled in FAMIS Prenatal Coverage

An infants born to a mother enrolled in FAMIS Prenatal Coverage assigned to Aid Category (AC) 110 and who is NOT in managed care is a deemed newborn. Follow up on the SSN is not required until the time of the newborn's first renewal.

An infant born to a mother in FAMIS Prenatal Coverage who is assigned to AC 110 and who IS in managed care OR who is assigned to AC 111 is not a deemed newborn; however, the infant is not required to provide an SSN or proof of application for an SSN in order to be enrolled. Follow the procedures in M0240.200 B.3 above 90 days following the infant's enrollment to determine if an SSN has been assigned. If the SSN number has not yet been issued at 90 days, obtain the SSN or proof of application for an SSN at the first renewal of the infant's coverage.

M0240.300 SSN Verification Requirements

A. SSN Provided By Individual

The individual's SSN must be verified. When the individual provides his SSN, the worker may use the SOLQ-I or SVES to verify the individual's SSN. The individual is not eligible for MA and cannot be enrolled in the eligibility/enrollment system if his SSN is not verified.

B. Procedures

1. Enter Verified SSN in Systems

Enter the eligible enrollee's verified SSN in the eligibility/enrollment system.

2. Resolving Unverified SSN Discrepancies

a. Data Entry Error Caused Discrepancy

If it is determined that the discrepancy was the result of an error made while entering the SSN in the system, steps must be taken to correct the information in the eligibility/enrollment system so that a new data match with SSA can occur in the next month.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date July 2022
Subchapter Subject M0240 SOCIAL SECURITY NUMBER REQUIREMENTS	Page ending with M0240.400	Page 6

b. Discrepancy Not Caused by Data Entry Error

If the discrepancy is not the result of a typographical or other data entry error, the individual must be given a period of 10 *calendar* days to resolve the issue or provide written verification from SSA of the individual's correct SSN. The eligibility worker must send a written notification to the enrollee that informs the enrollee of the SSN discrepancy and gives him 10 *calendar* days from the date of the notice to either resolve the discrepancy with the SSN or to provide written verification of his correct SSN to the worker. The notice must inform the individual that if he does not verify his SSN by the deadline, his Medicaid coverage will be canceled.

c. Individual Provides SSN Verification

If verification of the SSN is received within the 10 *calendar days*, update the eligibility/enrollment system accordingly so that the enrollee's information will be included in a future data match.

d. SSN Verification Not Provided

If verification of the SSN is NOT received within the 10 *calendar* days, send the individual an advanced notice of proposed cancellation and cancel the individual's coverage in the eligibility/enrollment system.

M0240.400 SOCIAL SECURITY NUMBER DISCREPANCIES

A. Policy

To be eligible for medical assistance (MA), an individual must provide his Social Security number (SSN) as well as the SSN of any person for whom MA is requested, or must provide proof of application for an SSN.

As required by 42 CFR 435.910(g), "the agency must verify each SSN of each applicant and recipient with the SSA [Social Security Administration], as prescribed by the Commissioner, to insure that each SSN was furnished to that individual, and to determine whether any others were issued."

In addition, 42 CFR 435.920 states, "In redetermining eligibility, the agency must review case records to determine whether they contain the recipient's SSN or, in the case of families, each family member's SSN."

The Medical Assistance enrollment system generates a Social Security number and citizenship report (RS-O-485-A) and makes the report available to the local departments of social services (LDSS) on a monthly basis. LDSS agencies are responsible for reviewing the monthly report and correcting any discrepancies. If the agency is not able to resolve SSN discrepancies in a timely manner, an ineligible individual should not receive Medicaid services. Refer to Medicaid Policy M0240.300 regarding SSN Verification Requirements.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date July 2021
Subchapter Subject M0240 SOCIAL SECURITY NUMBER REQUIREMENTS	Page ending with M0240.400	Page 7

Staff at the Department of Medical Assistance Services will oversee and monitor the process of SSN resolution on a monthly basis to ensure that action has been taken to correct Social Security Numbers in the system.

B. Process

1. Generation of the RS-O-485-A Report

The RS-O-485-A Report is produced monthly and posted for LDSS review.

2. VDSS Requirements

It is the responsibility of the LDSS to review the report and research each entry to resolve any discrepancies concerning an individual's social security number. An ineligible individual should not receive Medicaid services.

VDSS is responsible for implementing the necessary procedures to ensure that all corrections or changes will be made within a 30-day period and updated in the MMIS system accordingly. Policy guidelines are located in the Medicaid Policy Manual. See Policy M0240.300

3. DMAS Review

DMAS staff will concurrently review an internal report showing how long each individual discrepancy continues to appear. The number of new (first time) and repeat (not first time on report) occurrences will be noted. Repeat occurrences will be further broken down by those that have appeared from prior month, in the prior two months, in the prior three months, and the total that have been on the report for four or more months.

4. Forward List to VDSS

DMAS will provide a monthly outcome report of the number of discrepancies reported and the individuals with discrepancies that remain on the report after 90 days.

This report will be forwarded to the VDSS Medical Assistance Programs Manager and to the VDSS Regional Medicaid consultants for review. VDSS will review the report and provide to DMAS a corrective action plan for resolving the discrepancies. All discrepancies must be resolved within 30 days of receiving the report from DMAS.

M0250.000 ASSIGNMENT OF RIGHTS AND PURSUIT OF SUPPORT FROM THE ABSENT PARENT REQUIREMENTS

M0250.001 GENERAL PRINCIPLES

A. Introduction

The assignment of rights to medical support and the pursuit of support from absent parent(s) are Medicaid nonfinancial requirements that must be met as a condition of Medicaid eligibility. *The assignment of rights to medical support requirement also applies to children eligible for the Family Access to Medical Insurance Security Plan (FAMIS).*

B. Policy and Procedures

The policy and procedures for the local agency to follow in determining if an individual has met the Medicaid assignment of rights and pursuit of support from absent legally responsible relatives are contained in the following sections:

- M0250.100 Assignment of Rights.
- M0250.200 Procedures for the Assignment of Rights.
- M0250.300 Pursuit of Medical Support From the Absent Parent.

M0250.100 ASSIGNMENT OF RIGHTS

A. Assignment of Rights Policy

To be eligible for Medicaid, a Medicaid applicant or recipient must:

- assign his rights to medical support and payment for medical care from any third party to the Department of Medical Assistance Services (DMAS) if he is applying for himself;
- assign the rights of any other individual for whom he applies and can make an assignment of rights to support and third party payments;
- cooperate with the agency in identifying (to the extent he is able) potentially liable insurers and other third parties who may be liable to pay for the individual's, and any other individual for whom he applies and can assign rights for care and medical services.

B. Individual Unable To Assign Rights

If the individual is unable to his assign rights, a spouse, legally appointed guardian or conservator, attorney-in-fact (person who has the individual's power-of-attorney), or the authorized representative can make such an assignment. If the individual is a child, the parent, legal custodian, authorized representative, or the adult relative with whom the child lives and who signed the application can assign rights.

If the person who has the authority to assign the applicant's/recipient's rights refuses to assign the rights, the person who has the authority to assign the rights will be ineligible for Medicaid. However, the applicant/recipient will meet the assignment of rights requirement and can be eligible for Medicaid if he meets all other eligibility requirements.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date October 2013
Subchapter Subject M0250 ASSIGNMENT OF RIGHTS AND PURSUIT OF SUPPORT	Page ending with M0250.200	Page 2

M0250.200 PROCEDURES FOR ASSIGNMENT OF RIGHTS

A. Forms

The assignment of rights information is *incorporated into the online and paper applications for medical assistance (MA)*.

By signing the application for MA, the individual assigns his/her own rights and the rights of anyone for whom the individual has applied and can assign rights.

B. Refusal To Assign Rights Or Cooperate

An individual who is able to assign rights but who refuses or fails to meet the assignment of rights requirements in this subchapter is not eligible for Medicaid. Deny or cancel Medicaid coverage to an individual who:

- refuses to assign his own rights if he applies for himself,
- refuses to assign the rights of any other applicant for whom he can make an assignment, or
- refuses to cooperate in identifying and providing liable third party information, unless cooperation has been waived for good cause.

C. Cooperation – Assignment of Rights

Cooperation in assisting the agency in securing medical support and payments includes requiring the individual to:

- provide identifying information about liable third parties, such as the liable person's insurance company and policy number, the medical services covered by the insurance policy, etc.;
- appear as a witness at a court or other proceeding;
- provide information, or attest to lack of information, under penalty of perjury;
- pay to the agency any medical care funds received that are covered by the assignment of rights; and
- take any other reasonable steps to assist the state in pursuing any liable third party.

Should DMAS or the local agency request information from the individual, including information about third party liability, or otherwise require cooperation with the pursuit of medical support and/or third party liability as outlined in M0250.200 C. above, the individual must cooperate with the pursuit of medical support in order for the individual's eligibility to continue.

1. Waiver of Cooperation

A waiver of the cooperation requirement in identifying and providing liable third party information is allowed if the agency finds that cooperation is against the best interests of the individual, or other person for whom he/she can assign rights, because the agency anticipates that cooperation will result in reprisal against or cause physical or emotional harm to the individual or other person.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	October 2013
Subchapter Subject	Page ending with	Page
M0250 ASSIGNMENT OF RIGHTS AND PURSUIT OF SUPPORT	M0250.300	3

- 2. Documentation** Document the case record with the reason(s) the individual refuses to cooperate in identifying and providing liable third party information and the reason(s) the agency finds that cooperation is against the best interests of the individual or other person for whom he/she can assign rights.

M0250.300 PURSUIT OF MEDICAL SUPPORT FROM THE ABSENT PARENT

- A. Policy** To be eligible for Medicaid, an individual applicant or recipient must cooperate with the agency in obtaining medical support and payments from, or derived from, the absent parent(s) of a child for whom the individual is applying, unless the individual establishes good cause for not cooperating. The individual's non-cooperation does NOT affect the individual's Plan First eligibility, nor the individual's child(ren)'s Medicaid eligibility.

A pregnant woman is not required to cooperate with DCSE when requesting assistance for herself and her child(ren) born out of wedlock. If she is or was married, she is required to cooperate in pursuing medical support for her legitimate child(ren) from the legitimate child(ren)'s absent father.

A married pregnant woman who meets the medical assistance support requirement **cannot be denied** medical assistance for failure to cooperate in pursuing support even when ineligible for another program because of failure to cooperate with pursuit of support.

B. Definition of Cooperation

- 1. Application** By signing the application for Medicaid, the individual meets the eligibility requirement to cooperate in pursuing support from the absent parent(s) of the child for whom the individual is applying. No further action by the applicant is required at the time of application.

The individual is not required to contact DCSE about pursuing support from the absent parent. If the individual chooses to request DCSE services, the individual's continued cooperation with DCSE **is required** for the individual to remain eligible for Medicaid.

- 2. Ongoing** After the individual's application has been approved, if DCSE, DMAS or the local agency requests information from the individual about the absent parent, or otherwise requires the individual's cooperation with the pursuit of medical support from the absent parent, the individual must cooperate in order for the individual's eligibility to continue.

Medicaid enrollees who were approved for Medicaid before January 1, 2007, and who were referred to DCSE, must continue to cooperate with DCSE in the pursuit of medical support from the absent parent to remain eligible for Medicaid.

C. Local DSS Agency Responsibility

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M02	January 2021
Subchapter Subject	Page ending with	Page
M0250 ASSIGNMENT OF RIGHTS AND PURSUIT OF SUPPORT	M0250.300	4

1. Applicants

Explain and offer the Division of Child Support Enforcement (DCSE) services to all Medicaid applicants who apply for Medicaid for themselves and/or on behalf of children who have an absent parent. A child's parent is not considered absent if the absence is due to death, single parent adoption, artificial insemination, or termination of parental rights.

Give the applicant the DCSE Fact Sheet available on the intranet at <https://fusion.dss.virginia.gov/bp/BP-Home/Medical-Assistance/References>.

2. Enrollees

If the local agency or DMAS requires from the enrollee information related to medical support from the absent parent, such as the policy number of the health insurance policy the absent parent has that covers the child, and the enrollee refuses to give it to the requesting agency but does not have good cause for refusing, the enrollee is no longer eligible for Medicaid because of failure to cooperate in pursuing medical support and third party liability. The child(ren) remain eligible for Medicaid.

a. Enrollees who were approved before January 1, 2007

For a Medicaid enrollee who was approved for Medicaid before January 1, 2007, and was referred to DCSE, the local agency must take action when notified by DCSE that the enrollee is not cooperating in the pursuit of medical support from the absent parent. The child(ren)'s eligibility for Medicaid is NOT affected.

b. Enrollees who applied on or after January 1, 2007

If the enrollee who applied for Medicaid on/after January 1, 2007, chooses to apply for DCSE services and DCSE opens a case for the applicant, the enrollee must cooperate with DCSE in the pursuit of medical support from the absent parent, unless there is good cause for not cooperating. If the agency is notified by DCSE that the enrollee is not cooperating, the agency worker must take appropriate action on the enrollee's Medicaid coverage; the child(ren)'s eligibility for Medicaid is NOT affected.

If the recipient wants to claim good cause for not cooperating, contact a Medical Assistance Program Consultant for instructions.

3. TANF Recipients

If an applicant for or recipient of Temporary Assistance for Needy Families (TANF) fails to cooperate with DCSE, the individual's eligibility for Medicaid is not impacted unless the individual previously requested assistance from DCSE for Medicaid purposes per M0250.300 C.2.b above.

D. DCSE

DCSE District Offices have the responsibility of pursuing support from absent legally responsible parent(s), establishing paternity when the alleged father is absent from the home, and notifying the local DSS when the enrollee does not cooperate. This responsibility entails locating the parent(s), determining ability to support, collecting support from legally responsible parent(s), establishing medical support and/or health insurance covering the applicant child(ren), and court action to secure support from the absent legally responsible parent.

The booklet, "Child Support and You", form #032-01-945, gives an overview of DCSE services and the addresses for the district offices.

M0270.000 APPLICATION FOR OTHER BENEFITS

M0270.100 GENERAL PRINCIPLE

A. Policy

Because Medicaid is a “last pay” medical assistance program, it is important that the individual and agency worker assess the other benefits for which an individual is eligible based on his or her own activities or based on indirect qualification through family circumstances.

As a condition of eligibility, an individual must take all necessary steps to apply for and obtain any annuities, pensions, retirement, and disability benefits to which he/she is entitled, unless he/she can show good cause for not doing so.

1. Steps to Pursue Other Benefits

An individual must take all appropriate steps to pursue eligibility for other benefits. This includes

- applying for the benefit, and
- providing the source of the other benefit with the necessary information to determine the individual’s eligibility for the benefit.

2. Refusal To Apply

Refusal to apply for a benefit or refusal to accept a benefit to which the individual is entitled will result in the inability of a local agency to determine the individual’s Medicaid eligibility.

In the case of a minor or an incapacitated individual, a parent or other responsible person must pursue benefits for which the minor or the incapacitated individual might be entitled. If such benefits are not pursued, eligibility must be denied.

A non-applicant parent or spouse cannot be required to apply for any benefit on their own behalf. A child’s or spouse’s Medicaid eligibility cannot be denied due to the failure of the non-applicant parent or spouse to apply for or accept a benefit for which the non-applicant parent or spouse might be entitled.

3. Good Cause For Not Applying

An individual meets this requirement for Medicaid, despite failure to apply for other benefits or take other steps necessary to obtain them, if the individual has good cause for not doing so. For example, good cause exists if:

- the individual is unable to apply for other benefits because of illness;
- it would be useless to apply because the individual had previously applied and the other benefit source turned him down for a reason(s) that has not changed;
- it would result in no additional benefit which would affect the individual’s Medicaid eligibility or amount of Medicaid services.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date July 2021
Subchapter Subject M0270 APPLICATION FOR OTHER BENEFITS	Page ending with M0270.200	Page 2

B. Procedure

The types of benefits for which an individual must apply and/or accept are listed in section M0270.200 below.

The procedures to follow are in section M0270.300 below.

M0270.200 TYPES OF BENEFITS**A. Benefits Excluded From Requirement to Apply**

An applicant is NOT required to apply for benefits or assistance that is based on the individual's need. An individual is not required to apply for cash assistance program benefits such as Supplemental Security Income (SSI) or Temporary Assistance For Needy Families (TANF).

Payments such as child support, alimony, accelerated life insurance, etc., are NOT benefits for which an individual must apply.

B. Types of Benefits For Which An Individual Must Apply**1. Benefit Characteristics**

Benefits for which the individual must apply have the following characteristics in common:

- require an application or similar action;
- have conditions for eligibility;
- make payments on an ongoing or one-time basis.

2. Major Benefit Programs

Annuities, pensions, retirement and disability benefits to which an individual may be entitled and for which he must apply, if he appears to be entitled, include but are not limited to:

- a. Veterans' Compensation and Pensions, including apportionment of augmented dependents' benefits
- b. Social Security Title II benefits, *including full or reduced retirement benefits, survivors benefits, and disability benefits. See M0310.122 for more information about these benefits.*
- c. Railroad Retirement Benefits
- d. Unemployment Compensation
- e. Worker's Compensation
- f. Black Lung Benefits
- g. Civil Service and Federal Employee Retirement System Benefits
- h. Military Pensions

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date April 2020
Subchapter Subject M0270 APPLICATION FOR OTHER BENEFITS	Page ending with M0270.300	Page 3

- i. *Coverage under Medicare A, B or D, or any combination of Medicaid A, B, and D, if it is likely that the individual would meet the eligibility criteria for any or all of those programs.*

3. Other Benefits

Other benefits to which an individual may be entitled and for which he must apply, if he appears to be entitled, include but are not limited to:

- a. private insurance company disability, income protection, etc., benefits when the individual has such a policy;
- b. private pension plan benefits;
- c. union benefits.

M0270.300 AGENCY PROCEDURES

A. Written Notice

The local agency Eligibility Worker (EW) must advise the individual in writing on a dated notice that the individual must apply for other benefits for which he or she is potentially eligible. The written notice must list the benefits for which the individual must apply.

B. Identify Potential Eligibility For Other Benefits

Obtain clues to an individual's possible eligibility for other benefits from:

- information obtained from the interview, including responses to leading questions on the application;
- the recipient's responses on a redetermination form and/or interview;
- inquiries received from another agency;
- agency knowledge of pension plans and benefits;
- third party reports;
- computer system inquiries.

C. Disability Referral Processing

Do not hold the Disability Determination Services (DDS) referral while waiting for the applicant to provide proof of his/her application for disability benefits; send it immediately to the DDS.

D. Medicare

Individuals are required to apply for coverage under Medicare A, B or D, or any combination of Medicaid A, B, and D, if it is likely that the individual would meet the eligibility criteria for any or all of those programs. The following individuals may be covered by Medicare:

- *people age 65 or older,*
- *individual under age 65 with disabilities who have been entitled to Social Security or Railroad Retirement Board disability benefits for 24 months. For individuals diagnosed with amyotrophic lateral sclerosis (ALS), Medicare coverage begins the first month the individual receives disability benefits.*

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date April 2020
Subchapter Subject M0270 APPLICATION FOR OTHER BENEFITS	Page ending with M0270.300	Page 4

- *individuals with End Stage Renal Disease (permanent kidney failure requiring dialysis or transplant).*

The state agrees to pay any applicable premiums and cost-sharing (except those applicable under Part D) for individuals required to apply for Medicare.

Application for Medicare is a condition of eligibility unless the state does not pay the Medicare premiums, deductibles or co-insurance (except those applicable under Part D) for persons covered by the Medicaid eligibility group under which the individual is applying.

E. Verification

The individual must provide verification of application for the benefits specified on the notice prior to enrollment.

Verify the application for benefits via a systems search whenever possible. Written or verbal verification from the agency or organization issuing the benefit(s) is also acceptable. When verbal verification is provided, document the case record with the name of the individual who provided the verification and the date. Retain documentation of the application for other benefits in the case record.

If the individual cannot apply for the benefit before the end of the allowed processing time due to circumstances beyond his control (i.e. the agency or organization issuing the benefit cannot give him appointment within that time frame) accept verification of the appointment and enroll the individual if he is otherwise eligible. Follow up with the individual after the application for the benefit to obtain verification.

M0280.000 INSTITUTIONAL STATUS REQUIREMENTS

M0280.001 GENERAL PRINCIPLES

A. Introduction

To be eligible for Medicaid, an institutionalized individual must meet the institutional status requirement. An individual does not necessarily have to live in an institution (facility) to be considered an "inmate of a public institution." While inmates of public institutions are generally NOT eligible for Medicaid, incarcerated individuals may be eligible for Medicaid payment limited to inpatient hospitalization, provided they meet all other eligibility requirements.

B. Procedure

This subchapter, M0280, contains the Medicaid institutional status policy, inmate of a public institution policy and procedures for determining whether an individual meets the Medicaid institutional status eligibility requirement.

M0280.100 DEFINITION OF TERMS

A. Child Care Institution

A child care institution is a

- non-profit private child-care institution, or
- a public child care institution that accommodates no more than 25 children which has been licensed by the state in which it is located or has been approved by the agency of the state responsible for licensing or approval of institutions of this type, as meeting the standards established for licensing.

The term "child care institution" does NOT include detention facilities, forestry camps, training schools or any other facility operated primarily for the detention of children who are determined to be delinquent.

B. Inpatient

Inpatient means a patient who has been admitted to a medical institution as an inpatient on recommendation of a physician or dentist and who is admitted and receives room, board and professional services in the institution for a 24 hour period or longer, or is expected by the institution to receive room, board and professional services in the institution for a 24 hour period or longer even though it later develops that the patient dies, is discharged or is transferred to another medical facility and does not actually stay in the institution for 24 hours.

C. Institution

An institution is an establishment that furnishes (in single or multiple facilities) food, shelter and some treatment or services to four or more persons unrelated to the proprietor.

D. Institution for the Treatment of Mental Diseases (IMD)

An IMD is a hospital, nursing facility or other institution with more than 16 beds that is primarily engaged in providing diagnosis, treatment or care, including medical attention, nursing care and related services, to persons with mental diseases. A psychiatric residential treatment facility for children and adolescents is an IMD. An institution for individuals with intellectual disabilities is NOT an IMD. *A list of IMDs in Virginia is contained in M0280, Appendix 2*

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date May 2015
Subchapter Subject M0280 INSTITUTIONAL STATUS REQUIREMENTS	Page ending with M0280.100	Page 2

E. Institution for Individuals with Intellectual Disabilities

An “institution for individuals with intellectual disabilities” means an institution that is primarily for the diagnosis, treatment, or rehabilitation of individuals with Intellectual Disabilities or persons with related conditions that provides, in a protected residential setting, ongoing evaluation, planning, 24-hour supervision, coordination, and integration of health or rehabilitative services to help each individual function at his greatest ability. An intermediate care facility for individuals with intellectual disabilities (ICF-ID) is not an IMD. Therefore, an individual under age 65 who is in an ICF-ID meets the institutional status eligibility requirement.

F. Medical Facility

A medical facility is an institution that:

- is organized to provide medical care, including nursing and convalescent care,
- has the necessary professional personnel, equipment, and facilities to manage the medical, nursing and other health needs of patients,
- is authorized under state law to provide medical care, and
- is staffed by professional personnel who are responsible to the institution for professional medical and nursing services.

G. Public Institution (Facility)

A public institution is an institution that is the responsibility of a governmental unit or over which a governmental unit exercises administrative control, and which is NOT a medical facility.

The following are NOT public facilities for this section's purposes:

- a medical facility, including a nursing facility;
- a publicly operated community residence (serves no more than 16 residents);
- a child care institution, for children who receive foster care payments under Title IV-E, that accommodates no more than 25 children;
- an institution certified as an ICF-ID for individuals with mental retardation or related conditions.

H. Publicly Operated Community Residence

A publicly operated community residence is a public residential facility (institution) with 16 beds or less, that provides some services beyond food and shelter such as social services, help with personal living activities or training in socialization and life skills. Occasional medical or remedial care may also be provided.

Publicly operated community residences do NOT include the following facilities even though these facilities have 16 or *fewer* beds:

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date April 2021
Subchapter Subject M0280 INSTITUTIONAL STATUS REQUIREMENTS	Page ending with M0280.200	Page 3

- residential facilities located on the grounds of, or adjacent to, any large (more than 16 beds) institution;
- correctional or holding facilities for individuals who are prisoners, who have been arrested or detained pending disposition of charges, or who are held under court order as material witnesses or juveniles
- educational or vocational training institutions that primarily provide an approved, accredited or recognized program to individuals residing there
- hospitals, nursing facilities, and intermediate care facilities for individuals with intellectual disabilities.

NOTE: An individual residing in a public educational or vocational training institution for purposes of securing education or vocational training is NOT an inmate of a public institution, and therefore may be eligible for Medicaid, even though the educational or training facility is not a publicly operated community residence.

I. Residential Institution

An institution that does not meet the definition of a “medical facility.”

M0280.200 INSTITUTIONAL STATUS RULE

A. Introduction

Federal regulations in 42 CFR 435.1008 prohibit federal financial participation (FFP) for individuals who are inmates of a public institution, *with certain exceptions for patients in an IMD.*

Federal regulations limit FFP for individuals who are age 22 years or over but under age 65 years and who are patients in an institution for the treatment of mental diseases (IMD). An individual who is age 22 or over, but under age 65 and who is enrolled in Medicaid at the time of admission to an IMD may remain enrolled in Medicaid. The Department of Medical Assistance Services (DMAS) will coordinate with the Centers for Medicare and Medicaid Services (CMS) to ensure that no unauthorized FFP occurs.

There is no prohibition on FFP for individuals under age 22 years if they are receiving inpatient psychiatric services.

NOTE: an ICF-ID is not an IMD.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date April 2021
Subchapter Subject M0280 INSTITUTIONAL STATUS REQUIREMENTS	Page ending with M0280.201	Page 4

B. Procedures

The policy and procedures for determining whether an individual is in an IMD are contained in subchapter M1430.

The policy and procedures for determining whether an individual is an inmate of a public institution are contained in the following sections:

- M0280.201 Individuals in Medical Facilities
- M0280.202 Individuals in Residential Facilities
- M0280.300 Inmate of A Public Institution
- M0280.301 Who Is NOT An Inmate of A Public Institution
- M0280.400 Procedures For Determining Institutional Status
- M0280.500 Individuals Moving To or From Public Institutions
- M0280.600 Departmental Responsibility.

See Appendix 1 to this subchapter for an Institutional Status Quick Reference Guide.

M0280.201 INDIVIDUALS IN MEDICAL FACILITIES**A. Public or Private**

The public or private ownership or administration of a **medical** facility is irrelevant because a medical facility is not a public institution as defined in this subchapter.

B. Individuals in IMDs

The following individuals in public or private IMDs are NOT eligible for *enrollment into* Medicaid because they do not meet the institutional status requirement:

- an individual who is age 22 or over, but under age 65;
- an individual who is under age 22 who is NOT receiving inpatient psychiatric services in the IMD.

An individual who is age 22 or over, but under age 65 and who is enrolled in Medicaid at the time of admission to an IMD may remain enrolled in Medicaid. The Department of Medical Assistance Services (DMAS) will coordinate with the Centers for Medicare and Medicaid Services (CMS) to ensure that no unauthorized FFP occurs.

1. Patient Under Age 22 or 65 Years and Older in an IMD

An individual is in an IMD when he/she is admitted to live there and receive treatment or services provided there that are appropriate to his/her requirements. A patient in an IMD is an individual who is receiving needed professional services that are directed by a licensed practitioner of the healing arts toward maintenance, improvement, or protection of health or lessening of illness, disability, or pain. An individual is *considered to be* in an IMD from the date of admission to the IMD until discharge from the IMD.

An individual who is age 65 or older and who is a patient in a public or private IMD meets the institutional status requirement for Medicaid. An individual who is under age 22, who is a patient in a public or private IMD and who is receiving inpatient psychiatric services in the IMD meets the institutional status requirement for Medicaid.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date April 2021
Subchapter Subject M0280 INSTITUTIONAL STATUS REQUIREMENTS	Page ending with M0280.201	Page 4a

2. Patient Age 22-65 Years

*An individual who is age 22 or over, but under age 65 and who is enrolled in a Medicaid at the time of admission to an IMD may remain enrolled in Medicaid. **Do not cancel coverage.** The Department of Medical Assistance Services (DMAS) will coordinate with the Centers for Medicare and Medicaid Services (CMS) to ensure that no unauthorized FFP occurs.*

For an individual age 22 or over, but under age 65 and who is a patient residing in an IMD at the time of application, follow the policy and procedures in M1510.102 A.5.

3. Conditional Release From IMD

A patient in an IMD who is transferred or discharged to a medical facility that is not an IMD, including a patient under conditional release or convalescent leave from the IMD, meets the institutional status requirement and may be eligible for Medicaid.

C. ICF-ID

An ICF-ID is not an IMD. Therefore, an individual under age 65 who is in an ICF-ID meets the institutional status eligibility requirement.

D. Residential Facilities With Certified Medical Beds

Some institutions have both medical and residential sections. Individuals in the residential section (or beds) are residents of a residential facility. If the resident receives Medicaid Community-based Care (CBC) waiver services, use chapter M14 to determine the individual's eligibility. If the resident does not receive Medicaid CBC, he is not in long-term care; use the Medicaid eligibility requirements for non institutionalized individuals.

Individuals in the medical certified portion (or beds) of an institution are patients in a medical facility. Use chapter M14 in determining their Medicaid eligibility.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date May 2015
Subchapter Subject M0280 INSTITUTIONAL STATUS REQUIREMENTS	Page ending with M0280.202	Page 5

E. Cross Reference

If the individual has been, or is expected to be, in the medical facility or medical section of the facility for 30 or more consecutive days, the individual is receiving long-term care. Chapter 14 contains additional eligibility policy for individual in long term care.

M0280.202 INDIVIDUALS IN RESIDENTIAL FACILITIES**A. Institutions With Medical and Residential Sections**

Some institutions have both medical and residential sections. An individual in the medical certified section (or beds) of the institution is a patient in a medical facility. If the individual has been, or is expected to be, in the medical facility for 30 or more consecutive days, the individual is receiving long-term care. Go to chapter M14 to determine the individual's eligibility.

An individual in the residential portion (or beds) of the institution is a resident of a residential facility. Use this subchapter to determine the resident's institutional status.

B. Private Residence or Group Home

An individual who lives in a private residence in the community that is not an institution (it is an establishment that provides food, shelter and some services to three or less persons unrelated to the proprietor) is not living in an institution. **A group home that has a capacity of no more than three residents is not an institution.**

C. Private Residential Facility

A resident of any age in a private residential facility meets the institutional status requirement for Medicaid UNLESS the individual is incarcerated, as defined below.

D. Public Residential Facility

A resident of any age in a PUBLIC residential facility meets the institutional status requirement for Medicaid UNLESS:

- the public residential facility has more than 16 beds, or
- the individual is an inmate - an incarcerated adult or a juvenile in detention - as described in section M0280.300 below, and is not an individual listed in M0280.301 below.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date October 2019
Subchapter Subject M0280 INSTITUTIONAL STATUS REQUIREMENTS	Page ending with M0280.300	Page 6

M0280.300 INMATE OF A PUBLIC INSTITUTION

A. Policy

Inmates of public institutions fall into three groups:

- individuals living in ineligible public institutions;
- incarcerated adults; and
- juveniles in detention.

An individual is an inmate of a public institution from the date of admission to the public institution until discharge, or from the date of actual incarceration in a prison, county or city jail or juvenile detention facility until permanent release, bail, probation or parole. An individual is considered incarcerated until permanent release, bail, probation or parole.

Incarcerated individuals (adults and juveniles) who are hospitalized can be eligible for Medicaid payment limited to services received during an inpatient hospitalization, provided they meet all other Medicaid eligibility requirements.

An individual released from jail under a court probation order due to a medical emergency is NOT an inmate of a public institution because he is no longer incarcerated.

B. Public Residential Facility Residents

An individual who lives in a public residential facility that serves more than 16 residents is NOT eligible for Medicaid.

A public residential facility that does not meet the definition of a “publicly operated community residence” in section M0280.100 above, is an “ineligible public institution.”

The following are ineligible public institutions:

- public residential institutions with more than 16 beds
- residential facilities located on the grounds of, or adjacent to, a public institution with more than 16 beds:

C. Incarcerated Adults

Offenders can be eligible for Medicaid payment limited to services received during an inpatient hospitalization of 24 hours or longer.

Offenders include:

- individuals under the authority of the Department of Corrections (DOC)
- individuals held in regional and local jails, including those on work release

Individuals are not eligible for full benefit Medicaid coverage while they are living in a correctional facility, regional or local jail. *For a juvenile in a facility, refer to M0280.300.D below and Appendix 1.*

Virginia Medical Assistance Eligibility	M02	July 2020
Subchapter Subject M0280 INSTITUTIONAL STATUS REQUIREMENTS	Page ending with M0280.300	Page 7

An offender who transfers temporarily to a halfway house, residential re-entry center (RRC), or residential treatment facility prior to a formal probation release order is still an inmate of a public institution and can only be eligible for Medicaid payment limited to services received during an inpatient hospitalization. Note: some drug or alcohol rehabilitation centers may be referred to as a “halfway house”; the eligibility worker should confirm the individual is not an inmate or incarcerated.

Once an incarcerated individual who is enrolled in Medicaid is released from the correctional facility, he may be eligible for all benefits available under the Medicaid covered group he meets.

D. Juveniles in Detention

In determining whether a juvenile (individual under age 21 years) is incarcerated, the federal Medicaid regulations distinguish between the nature of the detention, pre- and post- disposition situations, and types of facilities.

1. Held for Care, Protection or Best Interest

A juvenile who is in a detention center due to care, protection or in the best interest of the child can be eligible for full benefit Medicaid or Family Access to Medical Insurance Security (FAMIS) coverage.

2. Held for Criminal Activity

a. Prior to Court Disposition

The following juveniles can be eligible for Medicaid payment limited to services received during an inpatient hospitalization.

- juvenile who is in a detention center due to criminal activity
- juvenile who has criminal charges pending (no court disposition has been made) who is ordered by the judge to go to a treatment facility, then come back to court for disposition when the treatment is completed

b. After Court Disposition

Juveniles who are on probation with a plan of release which includes residence in a detention center are inmates of a public institution. If they go to any of the secure juvenile correctional facilities, they are inmates of a public institution and can only be eligible for Medicaid payment limited to inpatient hospitalization. A list of secure detention facilities in Virginia is available on the Department of Juvenile Justice’s web site at http://www.djj.virginia.gov/pdf/Residential/Detention_Home_Contacts.pdf. Because this list is subject to change, consult the list whenever eligibility must be evaluated for a juvenile who is reportedly in a detention center.

If the juvenile goes to a non-secure group home, he can be eligible for Medicaid or FAMIS because a non-secure group home is not a detention center.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date May 2015
Subchapter Subject M0280 INSTITUTIONAL STATUS REQUIREMENTS	Page ending with M0280.301	Page 8

3. Type of Facility

The type of facility, whether it is residential or medical and whether it is public or private must be determined. A juvenile is not eligible *for full-benefit Medicaid* if he/she is a resident of an ineligible public residential facility. *He can be eligible for Medicaid coverage limited to inpatient hospitalization if he is admitted to a medical facility for inpatient services.*

EXAMPLE #1: A juvenile is detained for criminal activity. He is placed on probation with specific conditions of release, including a stay of 30 days or longer at a detention facility. The facility is identified as a juvenile detention center, not a treatment center. Upon release from the detention center, he will be placed on probation and will live with his mother. Because of the nature of his custody (criminal activity) and the nature of the facility (a detention center is a public institution) he is not eligible for *full-benefit Medicaid/FAMIS* during the period of incarceration, *but can be eligible for Medicaid coverage for inpatient hospitalization.* After he is released from the detention center and while he is on probation, he is NOT an inmate of a public institution and may be eligible for *full benefit Medicaid/FAMIS.*

M0280.301 WHO IS NOT AN INMATE OF A PUBLIC INSTITUTION

A. Who Is NOT An Inmate of a Public Institution

An individual is NOT an inmate of a public institution if:

- he is in a public educational or vocational training institution for purposes of securing education or vocational training OR
- he is in a public institution for a temporary period pending other arrangements appropriate to his needs.

B. Educational or Vocational Institution

An individual residing in a public educational or vocational training institution for purposes of securing education or vocational training is NOT an inmate of a public institution, and therefore may be eligible for Medicaid.

C. Temporary Stay

An individual residing in a public institution for a temporary period pending other arrangements appropriate to his needs is NOT an inmate of a public institution, and therefore may be eligible for Medicaid.

D. Admitted Under TDO

An individual over age 18 who was arrested or detained, but did not reside overnight in a prison or jail before being admitted to a public institution under a temporary detention order (TDO) is NOT an inmate of a public institution because he did not reside in the jail or prison immediately before admission to the treatment facility.

E. Arrested Then Admitted to Medical Facility

An individual who, after arrest but before booking, is escorted by police to a hospital for medical treatment and held under guard is NOT an inmate of a public institution and may be eligible for Medicaid. He is not an inmate of a public institution because he did not reside in a jail, prison or secure detention facility immediately prior to admission to the medical facility.

F. Inmate Out On Bail

An inmate in a prison or jail prior to arraignment, conviction, or sentencing is not eligible for Medicaid unless he/she is out on bail or released on his/her own recognizance.

Manual Title	Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date July 2020
Subchapter Subject	M0280 INSTITUTIONAL STATUS REQUIREMENTS	Page ending with M0280.301	Page 9

G. Probation, Parole, Conditional Release, Furlough

An individual released from prison or jail on probation, parole, or release order, with a condition of:

- home arrest
- community services
- outpatient treatment
- inpatient treatment (not inpatient hospitalization)

is not an inmate of a public institution and may be eligible for Medicaid.

An individual released from prison or jail under a court order due to a medical emergency, *medical treatment*, or *pregnancy* is NOT an inmate of a public institution and may be eligible for Medicaid.

An individual released from a correctional facility on furlough, for example during a pregnancy, is not an inmate of a public institution while furloughed and may be eligible for Medicaid.

H. Juvenile in Detention Center Due to Care, Protection, Best Interest

A minor in a juvenile detention center prior to disposition (judgment) due to care, protection or the best interest of the child (e.g., Child Protective Services [CPS]), if there is a specific plan for that child that makes the detention center stay temporary, is NOT an inmate of a public institution and may be eligible for Medicaid.

This could include a juvenile awaiting placement but who is still physically present in the juvenile detention center.

I. Juvenile on Probation in Secure Treatment Center

A minor placed on probation by a juvenile court and placed in a secure treatment facility is NOT an inmate of a public institution and may be eligible for Medicaid.

J. Juvenile On Conditional Probation

A minor placed on probation by a juvenile court with, as a condition of probation, treatment in a psychiatric hospital or a residential treatment center, or treatment as an outpatient may be eligible for Medicaid.

However, if the minor is NOT on probation but is ordered to the treatment facility, he remains an inmate of a public institution and not eligible for full benefit Medicaid. He may be eligible for Medicaid coverage limited to inpatient hospitalization.

K. Juvenile On Probation in Secure Treatment Center

A minor placed on probation by a juvenile court and placed in a secure treatment facility may be eligible for Medicaid.

Manual Title Virginia Medical Assistance Eligibility	Chapter M02	Page Revision Date July 2020
Subchapter Subject M0280 INSTITUTIONAL STATUS REQUIREMENTS	Page ending with M0280.600	Page 10

M0280.500 INDIVIDUALS MOVING TO OR FROM PUBLIC INSTITUTIONS

A. Moves To Public Institution

If a currently eligible individual enters a public institution, a partial review must be completed to determine if he continues to meet institutional status requirements for continued coverage, as well as all other Medicaid eligibility requirements.

Outstanding bills for covered medical services incurred prior to his admission and during his Medicaid coverage period will be paid.

B. Moving From Public Institution

Although a person may not be eligible for Medicaid while living in a specified public institution or part thereof, he may apply for such assistance as a part of prerelease planning. If he is found eligible (except for institutional status), do not enroll until he leaves the institution to live elsewhere.

C. Resident Admitted to Medical Facility

A resident of an ineligible public institution may be eligible for Medicaid coverage limited to inpatient hospitalization when admitted to a medical institution (general hospital or nursing facility) for inpatient care.

M0280.600 DEPARTMENTAL RESPONSIBILITY

A. Incarcerated Individuals

The Cover Virginia Incarcerated Unit (CVIU) is responsible for case management of incarcerated individuals with active Medicaid coverage enrolled in aid categories 108 and 109, regardless of the facility where the offender resides. See M0140 for *additional information*.

B. All Other Institutions

Local social services departments are responsible for the Medicaid eligibility determination and enrollment of individuals in institutions **EXCEPT** for incarcerated individuals in aid category 108 or 109. The local DSS agency in the Virginia locality where the individual last resided outside of an institution is the responsible DSS agency. If the individual resided outside of Virginia immediately before admission to the institution, the responsible local DSS is the DSS agency serving the locality where the institution is located.

When a local department carries responsibility for eligibility determination and enrollment of an individual living in an institution, the department is also responsible for:

- advising the institution of the individual's eligibility for Medicaid and enrollment in the program;
- submitting a DMAS-225 form to the institution to indicate the patient's eligibility and availability of current patient pay information in the Medicaid Management Information System (MMIS), if applicable; and
- seeing that the Medicaid card is forwarded to the institution for the enrollee's use.

M0310.000 GENERAL RULES & PROCEDURES

M0310.001 GENERAL PRINCIPLES OF MEDICAID COVERED GROUPS

A. Introduction

An individual who meets all the non-financial eligibility requirements in Chapter M02 and who is not an ineligible person listed in M0210.100, must meet a Medicaid covered group in order to be eligible for Medicaid. Chapter M03 explains in detail each of the Medicaid covered groups and how to determine if an individual meets the covered group requirements.

The Medicaid covered groups are divided into two classifications: the categorically needy (CN) and the medically needy (MN). CN individuals meet all Medicaid non-financial requirements (see M02) and the definition for a covered group. MN individuals meet all Medicaid non-financial requirements and resource requirements, but have income in excess of the Medicaid limits. MN individuals may be placed on a spenddown (SD). The covered groups are also divided into Aged, Blind and Disabled (ABD) and Families & Children (F&C) covered groups. Within some covered groups are several definitions of eligible individuals. Some individuals may meet the requirements of more than one group. The agency must verify the individual meets a definition for a covered group and the group's financial requirements.

B. Refugees

If the Medicaid applicant is a refugee, first determine if the refugee meets the requirements in a Medicaid covered group using the policy and procedures in this chapter. If the refugee does not meet the requirements of a Medicaid covered group, the refugee is not eligible for Medicaid under a Medicaid covered group. Go to the Refugee Resettlement Program Manual Volume XVIII to determine the refugee's eligibility for assistance under the Refugee Resettlement Program.

The requirements for the Refugee Other (Cash Assistance) and Refugee Medicaid Other and Refugee Medicaid Unaccompanied Minors programs are found in another manual: the Refugee Resettlement Program Manual Volume XVIII.

C. Covered Group Information

This subchapter contains the general principles for determining if the individual meets a definition and covered group(s).

- M0310.002 contains the list of Covered Groups;
- M0310.100 - M0310.134 contains the Definitions;
- M0320 contains the detailed policy and covered group requirements for the Aged, Blind and Disabled Groups;
- M0330 contains the detailed policy and covered group requirements for the Families & Children Groups, *and includes the Modified Adjusted Gross Income (MAGI) Adults covered group, effective January 1, 2019.*

**A. Categorically
Needy (CN)**

The ABD, and F&C (including the *MAGI Adults*) covered groups in the CN classification are listed below.

1. ABD Groups

- a. SSI cash assistance recipients who meet more restrictive Medicaid resource eligibility requirements.
- b. Auxiliary Grants (AG) cash assistance recipients.
- c. ABD individuals who are institutionalized in a medical institution, who meet all Medicaid eligibility requirements and have income before exclusions that is less than 300% of the SSI individual payment limit.
- d. ABD individuals who receive or are applying for Medicaid-approved community-based care services, who meet all Medicaid eligibility requirements and who have income before exclusions that is less than 300% of the SSI individual payment limit.
- e. ABD individuals who have a “protected” status:
 - 1) individuals who received OAA, AB, APTD, or ADC as of August 1972, and meet specified requirements.
 - 2) individuals who are former SSI/AG recipients and meet specified requirements.
 - 3) individuals who are widows(ers) and meet specified requirements.
 - 4) individuals who are classified as 1619(b) by Social Security and meet specified requirements.
 - 5) individuals who are adult disabled children and meet specified requirements
- f. Hospice--a hospice patient is a person who is terminally ill and has elected to receive hospice care; if the individual is not aged, presume that the individual is disabled.
- g. Qualified Medicare Beneficiaries (QMBs).
- h. Special Low-income Medicare Beneficiaries (SLMBs).
- i. Qualified Disabled and Working Individuals (QDWIs).
- j. Qualified Individuals (QIs).
- k. ABD With Income \leq 80% Federal Poverty Limit (ABD 80% FPL).
- l. MEDICAID WORKS.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date October 2018
Subchapter Subject M0310 GENERAL RULES & PROCEDURES	Page ending with M0310.002	Page 4

**2. F&C Groups,
Including the
MAGI Adult
Group**

- a. foster care children receiving IV-E and adoption assistance children receiving IV-E.
- b. Low income families with children (LIFC) eligible children, parents, non-parent caretaker-relatives, and EWBs (*essential to the well-being* applications submitted prior to October 1, 2013).
- c. Children under age 1 born to mothers who were eligible for and receiving MA at the time of the child's birth.
- d. Individuals under age 21
 1. Title IV-E Eligible Foster Care children who do not receive a Title IV-E maintenance payment
 2. Non-IV-E Foster Care
 3. Juvenile Justice Department children
 4. Non-IV-E Adoption Assistance children
 4. Individuals in an ICF or ICF-MR
- e. Former foster care children under age 26 years (Effective January 1, 2014)
- f. Pregnant women
- g. Plan First; Family Planning Services
- h. Children under age 19 years
- i. Breast and Cervical Cancer Prevention and Treatment Act (BCCPTA). Women and men screened and diagnosed with breast or cervical cancer under the Centers for Disease Control and Prevention's (CDC) Breast and Cervical Cancer Early Detection Program (BCCEDP) and eligible to receive Medicaid under the BCCPTA.
- j. *MAGI Adults, 19 – 64 years of age (Effective January 1, 2019)*

**B. Medically Needy
(MN)**

The ABD and the F&C covered groups in the MN classification are listed below.

1. ABD Groups

- a. Aged - age 65 years or older.
- b. Blind - meets the blind definition
- c. Disabled - meets the disability definition.
- d. Individuals who received Medicaid in December 1973 as AB/APTD-related MN and who continue to meet the December 1973 eligibility requirements.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date April 2022
Subchapter Subject M0310 GENERAL RULES & PROCEDURES	Page ending with M0310.102	Page 5

2. F&C Groups

- a. Children under age 18
- b. Children under age 1
- c. Pregnant Women
- d. Children *with* Special Needs *for Medical or Rehabilitative Care*
- e. Individuals under age 21

E. Refugees

“Refugees” are a special group of individuals who have an alien status of “refugee”, and are eligible for Medicaid under a different federal funding source. Virginia receives full federal funding with no state matching funds for the medical assistance provided to these individuals during the first 8 months they are in the U.S.

There are two aid categories (ACs) for this group. AC 078 is used for Refugee Other and Refugee Medicaid Other and AC 079 is used for Refugee Medicaid Unaccompanied Minors. The policy and procedures used to determine whether an individual is eligible in this group are found in the Refugee Resettlement Program Manual, Volume XVIII.

M0310.100 DEFINITION OF TERMS**A. Introduction**

The terms used in the covered groups policy and procedures and the procedures for determining if an individual meets a definition are stated in sections M0310.101 through 131 below.

M0310.101 ABD**A. ABD Definition**

"ABD" is the short name used to refer to aged, blind or disabled individuals.

B. Procedures

See the following sections for the procedures to use to determine if an individual meets an ABD definition:

- M0310.105 Age and Aged
- M0310.106 Blind
- M0310.112 Disabled

M0310.102 ADOPTION ASSISTANCE**A. Definition**

Adoption Assistance is a Title XX of the Social Security Act social services program that provides cash assistance and/or social services to adoptive parents who adopt "hard to place" foster care children who were in the custody of a local department of social services or a child placing agency licensed by the state of Virginia.

1. Residing in Virginia

Adoption assistance children are children who reside in Virginia who are adopted under a Title IV-E or Non-IV-E (state-local) adoption assistance agreement with a department of social services or in conjunction with a child-placing agency.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date April 2022
Subchapter Subject M0310 GENERAL RULES & PROCEDURES	Page ending with M0310.102	Page 6

- 2) Children *with* special needs *for* medical *or* rehabilitative care adopted under a Non IV-E Adoption Assistance agreement with a Virginia local department of social services or a Virginia private, non-profit child placement agency in conjunction with a local department of social services, in accordance with policies established by the State Board of Social Services.

a. Documentation must indicate that the child has special needs *for* medical *or* rehabilitative care

One of the following documents must indicate the child's special needs for medical or rehabilitative care:

- an adoption assistance agreement specifying that the child has a special need *for* medical *or* rehabilitative care; the agreement does NOT need to specify a particular diagnosis or condition.
- an amendment to the adoption assistance agreement specifying that the child has a special need *for* medical *or* rehabilitative care.
- a signed letter on official letterhead from the state that facilitated the adoption assistance agreement confirming that the child has a special need *for* medical *or* rehabilitative care.

b. Virginia Medicaid coverage for children with special needs *for* medical *or* rehabilitative care

Medicaid coverage is to be provided to any child who has been determined to be a Non-IV-E Adoption Assistance Child with special needs *for* medical *or* rehabilitative care for whom there is in effect an adoption assistance agreement between a local Virginia department of social services (LDSS) or a Virginia child-placing agency and an adoptive parent(s).

Virginia Medicaid coverage MAY be provided to a child with special needs *for* medical *or* rehabilitative care for whom there is in effect an adoption assistance agreement between another state's child-placing agency and an adoptive parent(s) IF the other state reciprocates with Virginia per the Interstate Compact on Adoption and Medical Assistance (ICAMA).

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date April 2022
Subchapter Subject M0310 GENERAL RULES & PROCEDURES	Page ending with M0310.104	Page 6a

3. Verification**a. Adoption assistance agreement with Virginia agency**

A child's status as an adoption assistance child is verified by the LDSS agency foster care/adoption assistance worker. Documentation of the child's IV-E or Non-IV-E adoption assistance eligibility must be part of the Medicaid case record.

Verification of a child's status as a Virginia IV-E, Non-IV-E, or adoption assistance child with special needs *for medical or rehabilitative care* is obtained through the local agency's Service Programs Division.

b. IV-E adoption assistance agreement with another state

When the IV-E adoption assistance agreement is with another state and the IV-E child resides in Virginia, verification of the child's status as a Title IV-E adoption assistance recipient is verified through the Deputy Compact Administrator, Adoption Unit, Division of Family Services, Virginia Department of Social Services.

c. Non-IV-E adoption assistance agreement with another state

Verification of the child's Non-IV-E adoption assistance status with another state, and the state's reciprocal agreement under the Interstate Compact on Adoption and Medical Assistance (ICAMA), is obtained through the Deputy Compact Administrator, Adoption Unit, Division of Family Services, Virginia Department of Social Services.

If the state that signed the non-IV-E adoption assistance agreement does NOT reciprocate Non-IV-E adoption assistance eligibility with Virginia, then the Non-IV-E Adoption Assistance child is not eligible for Virginia Medicaid in the Adoption Assistance classification of the "Individuals Under Age 21" covered group.

M0310.103 AFDC**A. Aid To Families With Dependent Children (AFDC)**

AFDC is the short name of the Aid to Families With Dependent Children cash assistance program that was operated in Virginia prior to the February 1, 1997, implementation of TANF (Temporary Assistance to Needy Families). It was a federally funded assistance program under Title IV-A of the Social Security Act. In Virginia, AFDC was replaced by TANF on February 1, 1997.

B. Procedure

AFDC is defined here because of the occasional references in Medicaid policy to the AFDC program that was in effect on July 16, 1996. There are no current recipients of AFDC because the AFDC program no longer exists.

M0310.104 AG**A. Auxiliary Grants (AG)**

"AG" is the short name for the Auxiliary Grants Program. AG is Virginia's assistance program that supplements the federal Supplemental Security Income (SSI) assistance program. AG is Virginia's "State Supplementation of SSI." AG is available only to ABD financially eligible individuals who reside in licensed Adult Care Residences (ACRs).

B. Procedure

Check the local agency records of AG recipients. If the individual is eligible for and receiving an AG payment, he is an AG recipient for Medicaid purposes.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date July 2020
Subchapter Subject M0310 GENERAL RULES & PROCEDURES	Page ending with M0310.106	Page 7

M0310.105 AGE and AGED

A. Age

“Age” is the individual's age reached on the anniversary of birth. If the year but not the month and day of the individual's birth is known, July 1 is assigned for both eligibility determination and enrollment.

For covered groups with a maximum age requirement, an individual meets the age requirement for the month of his birthday unless his birthday falls on the first day of the month.

Examples:

Gracie has been enrolled in the Child Under 19 covered group. She turns 19 on August 15. She continues to be eligible in the Child Under 19 covered group through the month of August.

Oliver has been enrolled in the MAGI Adults covered group. He turns 65 on July 1. Therefore, he is no longer eligible for the MAGI Adults covered group for the month of July.

B. Aged

“Aged,” means age 65 years or older.

C. Procedures

For individuals under age 21, accept the date of birth provided on the application/redetermination form. No verification is required.

For aged individuals, verify the individual's age by Social Security records or documents in the individual's possession. Acceptable documents include:

- birth certificate or notification of birth;
- hospital or physician's record;
- court record of adoption;
- baptismal record;
- midwife's record of birth;
- form VS95 from state Bureau of Vital Statistics; or
- marriage records.

M0310.106 BLIND

A. Definition

The Medicaid blindness definition is the same as that of the Supplemental Security Income (SSI) blindness definition.

Blindness is defined by using one of two criteria. The first criteria indicates that blindness is defined as having best corrected central visual acuity of 20/200 or less in the better eye. The second criteria indicates that blindness is defined as the contraction of the visual field in the better eye with the widest diameter subtending an angle around the point of fixation no greater than 20 degrees.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date July 2020
Subchapter Subject M0310 GENERAL RULES & PROCEDURES	Page ending with M0310.107	Page 8

B. Procedures

An SSI recipient who receives SSI as blind meets the blindness definition for Medicaid. Verify the SSI recipient's SSI eligibility via SVES (State Verification Exchange System).

Virginia no longer maintains a central registry of individuals who have been certified as blind or visually impaired. For an individual who alleges blindness or a visual impairment but does not receive SSI or Social Security Disability Income benefits, refer to section M0310.112 B to establish whether or not the individual requires a referral to the Disability Determination Services (DDS). If the individual requires a determination of blindness, refer the individual to the DDS using the procedure in M0310.112 E. 1.

M0310.107 CARETAKER-RELATIVE**A. Definitions****1. Caretaker-relative**

A "caretaker-relative" is an individual who is not a parent, but who

- is a relative, of a specified degree, of a dependent child (as defined in M0310.111) and
- is living with and assuming continuous responsibility for day to day care of the dependent child (as defined in M0310.111) in a place of residence maintained as his or their own home.

A caretaker-relative is also referred to as a "non-parent caretaker" to distinguish the caretaker-relative from the parent.

2. Specified Degree

A relative of specified degree of the dependent child is

- any blood relative, including those of half-blood and including first cousins, nephews or nieces and persons of preceding generations as denoted by prefixes of grand, great, or great-great;
- a stepfather, stepmother, stepbrother, and stepsister;
- a relative by adoption following entry of the interlocutory or final order, whichever is first; the same relatives by adoption as listed above: including first cousins, nephews or nieces and persons of preceding generations as denoted by prefixes of grand, great, or great-great, and stepfather, stepmother, stepbrother, and stepsister.
- spouses of any persons named in the above groups even after the marriage is terminated by death or divorce.

Neither severance of parental rights nor adoption terminates the relationship to biological relatives.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date July 2020
Subchapter Subject M0310 GENERAL RULES & PROCEDURES	Page ending with M0310.107	Page 9

B. Procedures

1. **Relationship** The relationship as declared on the application/redetermination form is used to determine the caretaker-relative's relationship to the child. No verification is required.
2. ***Child Living in the Home*** A child's presence in the home as declared on the application/ redetermination form is used to determine if the child is living in the home with a parent or a caretaker-relative. No verification is required.
3. **Parent and Stepparent in Home** The presence of a parent in the home does not impact a stepparent's eligibility in the Low Income Families with Children (LIFC) covered group. Both the parent and stepparent may be eligible in the LIFC covered group. See M0330.300.
4. **Parent and Other Relative in Home** When a parent is in the home, no relative other than a stepparent can be eligible for Medicaid in the LIFC covered group. See M0330.300.
2. **Caretaker-Relative Living in the Home** A caretaker-relative who is absent from the home is considered living with a child in the household if the absence is temporary and the caretaker-relative intends to return home when the purpose of the absence (such as military service, vacation, education, medical care or rehabilitation) is complete.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date May 2015
Subchapter Subject M0310 GENERAL RULES & PROCEDURES	Page ending with M0310.109	Page 10

M0310.108 CATEGORICALLY NEEDY (CN)

A. CN Definition

"CN" is the short name for "categorically needy." CN is a federal classification of a Medicaid covered group. The CN covered groups include both the mandatory categorically needy groups listed in the federal Medicaid regulations as well as the optional groups Virginia has chosen to cover in the Medicaid State Plan.

B. Procedures

See subchapter M0320 for the policy and procedures to use to determine if an individual meets an ABD CN covered group.

See subchapter M0330 for the policy and procedures to use to determine if an individual meets a F&C CN covered group.

M0310.109 COVERED GROUP

A. Definition

The federal Medicaid law and the State Plan for Medicaid describe the groups of individuals who may be eligible for Medicaid benefits. These groups of individuals are the Medicaid covered groups. The individuals in the covered groups must meet specified definitions, such as age or disability, and other specified requirements such as living in a medical facility.

The covered groups are classified in Virginia as CN and MN. The covered groups are divided into the ABD and F&C covered groups for financial eligibility purposes.

B. Procedure

The covered groups are listed in section M0310.002.

The detailed requirements of the covered groups are in subchapters M0320 and M0330.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date May 2015
Subchapter Subject M0310 GENERAL RULES & PROCEDURES	Page ending with M0310.111	Page 11

M0310.110 CHILD

A. Definition

The definition of "child" that is applicable depends on the individual's covered group.

1. Covered Groups to Which Modified Adjusted Gross Income (MAGI) Is Applicable

a. Tax-filer Household

A child is an individual of any age who is claimed as a tax dependent by a biological or adopted parent or step-parent.

b. Non-filer Household

A child is an individual under age 19.

2. F&C Non-MAGI, ABD and MN covered groups

A child is an individual under age 21 years who has not been legally emancipated from his/her parent(s).

A married individual under age 21 is a child unless he/she has been legally emancipated from his/her parents by a court. Marriage of a child does not emancipate a child from his/her parents and does not relieve the parents of their legal responsibility to support the child.

M0310.111 DEPENDENT CHILD

A. Definition

The definition of "dependent child" is the definition in section 406(a) of the Social Security Act: the term "dependent child" means a child who is:

- under the **age of 18**, OR
- under the **age of 19** and is a **full-time student** in a secondary school or in the equivalent level of vocational or technical training, or in a General Educational Development (GED) program IF he may be reasonably expected to complete the secondary school, training or program before *or in the month* he attains age 19; **AND**

NOTE: The above definition of a full-time student does NOT apply when determining student status for the student earned income exclusion. See sections M0720.500 B.2 and M0720.510 for the student income exclusion requirements.

- **living in the home of a parent or a caretaker-relative** of the first, second, third, fourth or fifth degree of relationship in a place of residence maintained by one or more of such relatives as his or their own home. See section M0310.107 for the definition of a caretaker-relative.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date September 2012
Subchapter Subject M0310 GENERAL RULES & PROCEDURES	Page ending with M0310.111	Page 12

B. Age & School Enrollment

1. Age

The child's date of birth declared on the application/redetermination form is used to determine if the child meets the age requirement. No verification is required.

A child who becomes 18 after the first day of his birth month meets the age requirement in the month of his 18th birthday; he is still considered under age 18 during his birth month. If he becomes age 18 on the first day of his birth month, he is age 18 for the whole birth month.

An 18 year old child does **not** meet the age requirement in the month following the month in which his 18th birthday occurs unless the child is enrolled full-time in a secondary school or vocational/technical school of secondary equivalency, AND the child is reasonably expected to complete the program of secondary school or vocational/technical training before or in the month he attains age 19.

2. School Enrollment

Accept the declaration of school enrollment.

C. Living With a Parent or Caretaker-Relative

1. Relationship

The child's relationship to the parent or caretaker-relative with whom he lives as declared on the application or redetermination document is used to determine if the child is living with a relative. No verification is required.

For the purpose of determining a relationship, neither death, divorce, *nor* adoption terminates relationship to the biological relatives.

3. Child's Father

Virginia law considers a man who is legally married to the mother of a child on the date of the child's birth to be the legal father of the child **UNLESS** DCSE or a court has determined that another man is the child's father. NOTE: The mother's marriage at the time of the child's birth does not require verification; the mother's declaration is sufficient.

The man listed on the application form as the child's father is considered the father when:

- the mother was not married to another man on the child's birth date, or
- the mother was married to another man on the child's birth date but DCSE or a court determined that the man listed on the application is the child's father

unless documentation, such as the child's birth certificate, shows that another man is the child's father.

See M0310.123 for the definition of a parent.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date April 2019
Subchapter Subject M0310 GENERAL RULES & PROCEDURES	Page ending with M0310.111	Page 13

4. Child Living in the Home

A child's presence in the home as declared on the application/redetermination is used to determine if the child is living in the home with a parent or caretaker-relative. No verification is required unless the information contained in the application does not clearly establish whether or not the child is living with the parent or care-taker relative.

A dependent child is considered living with only one parent for Medicaid eligibility purposes. When separated/divorced parents who claim to have equal physical custody of the child both apply for Medicaid and neither spouse has other children under age 18 in the home, obtain a copy of the custody agreement and verify the custody arrangements. If the custody is divided exactly equally between both parents, the parents must decide which parent the dependent child lives with for Medicaid purposes.

A child who is living away from the home is considered living with his parents in the household if:

- the child is not emancipated, and
- the absence is temporary and the child intends to return to the parent's home when the purpose of the absence (such as vacation, visit, education, rehabilitation, placement in a facility for less than 30 days) is complete.

NOTE: If the stay in the medical facility has been or is expected to be 30 days or more, go to M1410.010 to determine if the child is institutionalized in long-term care.

Children living in foster homes or medical institutions are NOT temporarily absent from the home. They are indefinitely absent from home and are NOT living with their parents or siblings for Medicaid purpose.

Children placed in Level C psychiatric residential treatment facilities (PRTF) are considered absent from their home if their stay in the facility has been 30 days or more. A child who is placed in a Level C PRTF is considered NOT living with his parents for Medicaid eligibility purposes as of the first day of the month in which the 30th day of residential placement occurs. Modified Adjusted Gross Income (MAGI) methodology contained in Chapter M04 is applicable to children in PRTFs; long-term care rules do not apply to these children.

5. Parent Living in the Home

A parent who is absent from the home is considered living with his child in the household if the absence is temporary and the parent intends to return home when the purpose of the absence (such as military service, vacation, education, medical care or rehabilitation) is complete.

M0310.112 DISABLED

A. Introduction

For individuals who meet no other full-benefit covered group and claim to have a disabling condition, Medicaid eligibility uses the same definition of “being disabled” that the Social Security Administration (SSA) uses.

1. Definition of a Disabled Individual

For an individual 18 or older, the SSA defines “being disabled” as an individual’s inability to do any substantial gainful activity (SGA) or work because of a severe, medically determinable physical or mental impairment or combination of impairments. This impairment(s) has lasted or is expected to last for a continuous period of not less than 12 months, or the impairment is expected to result in death.

For a child under 18, the SSA defines “being disabled” as having a medically determinable physical or mental impairment or combination of impairments that causes marked and severe functional limitations. These limitations must have lasted or be expected to last for a period of not less than 12 continuous months, or the impairment is expected to result in death. However, a child cannot be found disabled if, at application, the child is performing SGA and is not currently entitled to Supplemental Security Income (SSI) benefits.

2. Disability Determination Services

Disability Determination Services (DDS) is a division of the Virginia Department for *Aging and* Rehabilitative Services (*DARS*) DDS is charged with making disability determinations for individuals who allege they are disabled for the purpose of qualifying for Social Security Disability Insurance (SSDI) and/or Supplemental Security Income (SSI) disability or blindness benefits, and/or Medicaid. An individual must file separate applications for SSDI/SSI benefits with SSA and for Medicaid with LDSS.

The Department of Medical Assistance Services (DMAS) contracts with *DARS* to have DDS process disability and blindness claims and make determinations of “disabled” or “not disabled” based upon federal regulations. DDS uses the same definitions of disability and blindness and the same evaluation criteria for all three programs. See M0310.106 for the definition of blindness.

3. Factors Involved in a Disability Decision

The LDSS does not determine whether or not an individual meets the disability requirements. DDS determines whether or not an individual is disabled as defined by the SSA by evaluating a series of factors in sequential order. The following information is intended to provide a general overview for the LDSS worker of this sequential process and does not provide a complete explanation of the disability determination process:

a. Engaged in Substantial Gainful Activity (SGA)?

Is the individual currently engaged in substantial gainful activity (SGA)?
SGA means work that: (1) involves doing significant and productive physical or mental duties and (2) is done (or intended) for pay or profit and (3) earnings are above a certain amount. If an individual is working and earning SGA, a finding must be made that the person is not disabled, and no medical evaluation is done. If the individual is not earning SGA, DDS proceeds to the next step.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date September 2010
Subchapter Subject M0310 GENERAL RULES & PROCEDURES	Page ending with M0310.112	Page 22

b. Severe Impairment?

Does the individual have a severe impairment, as defined by SSA, that meets the durational requirement (i.e. has lasted or is expected to last for a continuous period of not less than 12 months, or which is expected to result in death)? If no, the person is not disabled. If yes, DDS will proceed to the next step.

c. Impairment Equals Severity Requirements?

Does the individual have an impairment that meets or equals the severity requirements of a medical condition contained in the Social Security Listing of Impairments? If yes, a finding of disability is made. If no, DDS will proceed to the next step.

d. Prevents Performing Past Relevant Work?

Does the individual have an impairment that prevents him from performing past relevant work? If the individual can perform past relevant work, the person will be found not disabled. If the individual cannot perform past relevant work, DDS will proceed to the next step.

e. Prevents Performing Any Work?

Does the individual have an impairment that prevents him from performing any substantial gainful employment? If the individual cannot perform any work, the person will be found disabled. If the person has the capacity to adjust to other types of work, the person will be found not disabled. Age, education, training and skills acquired in past work are considered in making this determination.

**4. Other Benefits
Related to
Disability**

a. Benefits Administered by the SSA

The SSA uses the SSA disability definition in the determination of eligibility for SDDI and SSI benefits.

b. Benefits Administered by the Railroad Retirement Board (RRB)

The RRB makes disability determinations for railroad employees who have applied for the Railroad Retirement (RR) disability benefits. A determination of “total” disability means the individual is disabled for all regular work. “Occupational” disability means the individual is disabled for regular railroad occupation, but is not “totally” disabled. Individuals who receive a “total” disability determination are disabled using the SSA criteria.

B. Policy

*The following individuals meet the definition of being disabled for the purposes of meeting a Medicaid covered group and are **not to** be referred to DDS:*

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date October 2017
Subchapter Subject M0310 GENERAL RULES & PROCEDURES	Page ending with M0310.112	Page 23

- individuals who received SSDI or SSI disability benefits or RR total disability benefits in one or more of the 12 months preceding the Medicaid application and whose benefits were terminated for a reason **other than no longer meeting the disability or blindness requirements.**
- individuals who have been determined disabled or blind by DDS for Medicaid or for SSA, without a subsequent decision by SSA reversing the disability determination, and
- individuals who have been determined “totally” disabled by the RRB.

C. Procedures for Verifying Disability Status

- | | |
|---|---|
| 1. Receives SSDI/SSI Disability Benefits | Verify SSDI/SSI disability status through a SVES (State Verification Exchange System) or SOLQ (State Online Verification Query) request or through documentation provided to the applicant by the SSA. |
| 2. Receives RRB Disability Benefits | Verify RRB disability by contacting the RRB National Telephone Service at 1-877-772-5772 or through documentation provided to the applicant by the RRB. |
| 3. Determined Disabled by DDS | If disability status cannot be ascertained after reviewing SVES or SOLQ, contact your regional DDS office to verify disability status. Contact information for the regional DDS offices is contained in Appendix 2 of this subchapter. |
| 4. Incarcerated Disabled Individual | Although benefits administered by the Social Security Administration are suspended while an individual is incarcerated, a disabled individual continues to meet the definition of a disabled individual while incarcerated. |

D. When a DDS Disability Determination is Required

- The DDS makes a disability determination for Medicaid when the individual alleges a disabling condition and has never applied for disability benefits from SSA or has not been denied disability within the past 12 months; **or**
- the individual alleges a disabling condition and SSA has not yet made a determination on a pending SSDI/SSI claim; **or**
- the individual alleges a disabling condition which is different from that considered by SSA or is in addition to that considered by SSA.

An individual must have his disability determined by DDS if he:

- is claiming to have a disabling condition but does not receive SS/SSI disability benefits or RR total disability benefits, **and**
- has not been denied SSDI or SSI disability benefits in the past 12 months.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date October 2019
Subchapter Subject M0310 GENERAL RULES & PROCEDURES	Page ending with M0310.112	Page 24

1. Individual Under Age 19 and Not Receiving Long-term Care

A child under age 19 who is not receiving LTC services and who is claiming to have a disabling condition must have his disability determined by DDS if:

- he is not eligible for FAMIS Plus or FAMIS, or
- it is 90 calendar days prior to his 19th birthday.

Do **NOT** refer a disabled child under age 19 to DDS for the sole purpose of participation in the Health Insurance Premium Payment (HIPP) program

2. Individual Under 21 in LTC

a. Facility-based Care

An individual under age 21 in a nursing facility or intermediate care facility for the intellectually disabled (ICF-ID) must have his disability determined if

- he is not eligible in the Individuals Under 21 covered group, or
- it is 90 calendar days prior to his **21st** birthday.

b. Home and Community-based Services (HCBS)

A child who is receiving HCBS waiver services and has not previously had a disability determination must have his disability determined prior to his **18th** birthday because he will no longer be eligible in the F&C 300% SSI covered group (*under which parental income is not counted*), once he turns 18. The child must be evaluated for coverage as a blind or disabled individual using the income and resource rules applicable to blind/disabled institutionalized individuals. For a child under 19 who is not disabled, MAGI income counting rules require that parental income be included in the eligibility determination.

Ninety days (90) prior to the child turning age 18, the eligibility worker must contact the parent or responsible party and send a verification checklist to request the required documents to start the DDS referral process. Follow the procedure in M0310.112 G below to make a referral to DDS.

Note: The local DSS is not responsible for initiating a DDS referral for a child turning 18 who receives SSI. The child will have a review of continuing disability and SSI eligibility completed by the SSA. The child remains disabled for Medicaid purposes unless and until his disability status is discontinued by SSA.

E. When an LDSS Referral to DDS is Required

1. Disability Determination Has Not Been Made

The DDS must make a determination of disability when the applicant alleges a disability and a disability determination has not been made by SSA or the RRB. The DDS must make a disability determination within a time frame that will allow the LDSS to process the application within 90 days, provided all medical information has been submitted.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date July 2019
Subchapter Subject M0310 GENERAL RULES & PROCEDURES	Page ending with M0310.112	Page 24a

2. SSA Denied Disability Within the Past 12 Months

SSA decisions made within the past 12 months are final decisions for Medicaid purposes unless:

- a) The applicant alleges a condition that is **new** or **in addition** to the condition(s) already considered by SSA,

OR

- b) The applicant alleges his condition has **changed** or **deteriorated** causing a new period of disability **AND** he requested SSA reopen or reconsider his claim **AND** SSA has refused to do so or denied it for non-medical reasons. Proof of the decision made by SSA is required.

If the applicant indicates that one of the above exceptions applies, the Medicaid referral should be documented appropriately and sent to the DDS. After reviewing the Medicaid referral and Social Security decision, the DDS may determine that the SSA decision addressed all the conditions reported to Medicaid. In this situation, the DDS will determine that no exception applies and that the SSA decision is still binding. In this situation, the DDS will not make an independent disability determination for Medicaid. Instead, the DDS will document that an exception does not apply and that the SSA determination is still binding until the end of the 12-month period.

If the conditions in a or b above do not exist, the SSA denial of disability is final for Medicaid purposes. **DO NOT** make a referral to DDS for a disability determination.

3. SSA Denied Disability More Than 12 Months Ago

If the applicant alleges a disability and SSA denied the disability more than 12 months ago, follow the procedure in M0310.112 G below to make a referral to DDS. DDS will accept and fully develop the Medicaid referral if more than 12 months have passed since the most recent SSA medical determination, regardless of appeal status with SSA, and for any reason.

F. Decision Pathway for DDS Referrals

When determining whether or not a referral to DDS is required, the worker should ask the following questions:

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date January 2014
Subchapter Subject M0310 GENERAL RULES & PROCEDURES	Page ending with M0310.112	Page 25

Has the individual applied for SSDI or SSI?

If no, refer to DDS.

If yes and a decision **has not** been made, refer to DDS.

If yes and a decision **has** been made, was the disability allowed or denied?

If allowed, refer to M0310.112 B, because another determination of disability may not be necessary.

If denied, look at the date of the last determination.

If the last SSA denial determination was made more than 12 months in the past, refer to DDS *regardless of whether or not the decision is in an appeal with SSA*.

If the last SSA denial determination was made less than 12 months in the past, and there is a new condition that has not been evaluated by SSA, refer to DDS.

If the last SSA denial determination was made less than 12 months in the past, and there has not been a worsening of a condition already evaluated by SSA, do not refer to DDS.

If the last SSA denial determination was made less than 12 months in the past, but there is a worsening of a condition already evaluated by SSA, ask if the individual has filed for a reconsideration or reopening of his case with SSA.

If yes and the case is currently under reconsideration, do not refer to DDS. The SSA decision remains binding unless SSA reverses the decision.

If yes and the SSA refused to reconsider his case because he does not meet the SSI eligibility requirements, refer to DDS.

If no, do **NOT** refer to DDS. The individual must initiate an appeal of his denial with SSA. Unless SSA refuses the appeal request or turns it down for non-disability related reasons, the disability determination remains binding for 12 months.

G. LDSS Procedures When a Disability Determination is Required

There are two types of DDS referrals for the purposes of Medicaid eligibility: non-expedited and expedited. Most referrals are non-expedited. Expedited referrals are limited to individuals who are hospitalized and require a Medicaid disability determination so they can be transitioned directly from the hospital to a rehabilitation facility

For both types of referrals, the eligibility worker must request the necessary verifications needed to determine eligibility so that the application can be processed when the disability determination is received.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date January 2021
Subchapter Subject M0310 GENERAL RULES & PROCEDURES	Page ending with M0310.112	Page 26

**1. LDSS
Referrals to
DDS for Non-
expedited
Cases**

- a. Send the following forms to the applicant for completion immediately, giving the applicant 10 calendar days to return the completed forms:
 - a copy of the Frequently Asked Questions—Disability Determinations for Medicaid (form #032-03-0426), available on SPARK at <https://fusion.dss.virginia.gov/bp/BP-Home/Medical-Assistance/References>, explaining the disability determination process and the individual's obligations;
 - the Disability Report Adult (SSA-3368-BK), available at <http://www.socialsecurity.gov/online/ssa-3368.pdf>, or the Disability Report Child (SSA-3820-BK), available at <http://www.socialsecurity.gov/online/ssa-3820.pdf>,
 - an Authorization to Disclose Information to the Social Security Administration form (SSA-827), available at <http://www.socialsecurity.gov/online/ssa-827.pdf>.
- b. In most cases, the DDS referral is transmitted electronically to DDS through VaCMS. Form 3368-BK or 3830-BK and SSA-827 are uploaded to VaCMS for submission to DDS. No DDS Referral Form is used for electronic submissions. Follow the instructions in the Quick Reference Guide "Sending a DDS Referral in the VaCMS," available in VaCMS.
- c. If the DDS referral cannot be completed in VaCMS, manually submit the referral. Complete the DDS Referral Form, available at <https://fusion.dss.virginia.gov/bp/BP-Home/Medical-Assistance/Forms>. Use the DDS Referral Form that corresponds with the DDS Regional Office to which the LDSS has been assigned (#032-03-0095, #032-03-0096, #032-03-0097, or #032-03-0098). To the form, attach the following:
 - the completed Disability Report
 - the signed Authorization to Disclose Information
 - copies of paystubs, if the applicant is currently working.

If the individual's application was filed with the assistance of a hospital-based eligibility assistance organization, a copy of the consent to release information to the organization must be included with the referral so DDS staff can communicate with them, if necessary.

Mail the DDS Referral form and attachments to the *DDS Central Regional (Richmond) Office*. See *Appendix 1* to this subchapter for the *contact information*. **Do not send referrals to DDS via the courier.**

**2. Expedited
Referrals for
Hospitalized
Individuals
Awaiting
Transfer to a
Rehabilitation
Facility**

The 2004 Budget Bill mandated that DDS make a disability determination within seven (7) working days of the receipt of a referral from the LDSS when the Medicaid applicant is hospitalized, needs to be transferred directly to a rehabilitation facility AND the individual does not already have a disability application pending with DDS. To ensure that the DDS is able to make the disability determination within the mandated timeframe, the procedures below shall be followed:

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date January 2021
Subchapter Subject M0310 GENERAL RULES & PROCEDURES	Page ending with M0310.112	Page 27

- a. Hospital staff shall simultaneously send:
 - the Medicaid application and a cover sheet, available on Fusion at to the LDSS or the hospital outstationed eligibility worker
 - the medical documentation (disability report, authorizations to release information and medical records) and cover sheet to the DDS.
- b. LDSS shall **immediately** upon receipt of the Medicaid application:
 - fax a completed DDS Referral Form (#032-03-0095, #032-03-0096, #032-03-0097, or #032-03-0098) *available at <https://fusion.dss.virginia.gov/bp/BP-Home/Medical-Assistance/Forms>, to the DDS Central Regional Office at 804- 527-4518* to verify receipt of the Medicaid application unless it is known to the agency that the individual already has a pending disability claim with DDS. If the individual already has a pending disability claim with DDS, the claim cannot be treated as an expedited referral.
 - give priority to processing the applications and immediately request any verifications needed; and
 - process the application as soon as the DDS disability determination and all necessary verifications are received; and
 - notify the hospital contact identified on the cover sheet of the action on the application and provide the Medicaid enrollee number, if eligible.
- c. DDS shall make a disability determination within seven (7) working days and fax the result of the disability decision to the LDSS. DDS is not responsible for notifying either the applicant or the hospital of the outcome of the disability determination.

If DDS is unable to render a decision within 7 working days, DDS will send a communication to the LDSS advising that the disability determination has been delayed.

3. Application Processing When DDS Referral is Pending

If the completed forms are not returned by the applicant within 45 calendar days from the date of application, the applicant is considered not to meet the covered group and the application must be denied.

Individuals who require a disability determination must meet all non-financial requirements other than covered group, within 45 calendar days or the application must be denied. If these requirements are met, the application timeframe may be extended to 90 days while DDS is making the disability determination. If any non-financial requirement other than covered group is not met by the 45th calendar day, his application must be denied and DDS must be notified of the denial.

DDS does NOT stop the disability determination process when the individual meets all non-financial requirements, but has excess resources (see M0130.100 B.4) because he might reduce his resources while the

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date January 2022
Subchapter Subject M0310 GENERAL RULES & PROCEDURES	Page ending with M0310.112	Page 28

application is pending for the disability determination. DDS does NOT stop the disability determination when the individual has excess income because of possible spenddown eligibility

4. LDSS Responsibilities for Communication with DDS

The LDSS must make every effort to provide DDS with complete and accurate information and shall report all changes in address, medical condition, and earnings to the DDS on pending applications.

5. Evaluation for Plan First and Referral to Health Insurance Marketplace

While an individual's application is pending during the non-expedited disability determination process, evaluate his eligibility *in non-ABD covered groups (e.g. MAGI Adults and Plan First)*. *If the individual is not eligible for full Medicaid coverage*, refer the individual to the Health Insurance Marketplace (HIM) for evaluation for the Advance Premium Tax Credit (APTC).

H. Notification of DDS Decision to LDSS

1. Hospitalized Individuals

The DDS will advise the agency of the applicant's disability status as soon as it is determined by either SSA or the DDS. For hospitalized individuals who meet the requirements for an expedited disability determination, DDS will fax the outcome of the disability determination directly to the LDSS responsible for processing the application and enrolling the eligible individual.

2. Individuals Not Hospitalized

For all other disability determinations, DDS will notify the LDSS responsible for processing the application and enrolling the eligible individual by an alert in VaCMS. If the claim is denied, DDS will also include a personalized denial notice to be sent to the applicant explaining the outcome of his disability determination.

3. Disability Cannot Be Determined Timely

A disability determination cannot be completed within the allotted time when there is missing or incomplete medical information. DDS will notify the applicant about 75 days from the application date of the delay. DDS will notify the LDSS by an alert in VaCMS. The LDSS must send the applicant a Notice of Action to extend the pending application.

4. DDS Rescinds Disability Denial

DDS will notify the agency if it rescinds its denial of an applicant's disability to continue an evaluation of the individual's medical evidence. If the Medicaid application has been denied, the agency must reopen the application and notify the applicant of the action. The application continues to pend until notification is received from DDS of the disability determination. If an appeal has been filed with DMAS, the agency must notify the DMAS Appeals Division so that the appeal may be closed (see M1650.100).

I. LDSS Action & Notice to the Applicant

The eligibility worker must complete the Medicaid eligibility determination immediately after receiving notice of the applicant's disability status and send the applicant a Notice of Action regarding the disability determination and the agency's decision on the Medicaid application.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date October 2017
Subchapter Subject M0310 GENERAL RULES & PROCEDURES	Page ending with M0310.112	Page 28a

J. Applicant is Deceased

When a Medicaid applicant who has been referred to DDS dies or when the applicant is deceased at the time of the Medicaid application, DDS will determine if the disability requirement for Medicaid eligibility was met. The LDSS must immediately notify DDS of the individual's death and make every effort to provide a copy of the death certificate.

K. Subsequent SSA or RRB Disability Decisions

When SSA or the RRB make a disability decision subsequent to the *DDS* (Medicaid) decision which differs from the *DDS* decision, the SSA or RRB decision must be followed in determining Medicaid eligibility unless one of the conditions in M0310.112 E.2 above applies.

1. SSA/RRB Approval

If SSA approves disability or the RRB approves total disability, the disability definition is met. If DDS initially denied disability and the decision is reversed, re-evaluate the denied Medicaid application. The individual's Medicaid entitlement is based on the Medicaid application date, including the retroactive period, if all eligibility requirements were met during the retroactive period. However, eligibility as a disabled individual cannot begin prior to the disability onset date (month) established by SSA. Do not send the claim back to DDS for an earlier onset date.

Disability Approved More Than 12 Months Past

If, based upon the re-evaluation, the individual is determined to be eligible and more than 12 months have passed since the application was filed, complete an eligibility renewal to determine whether or not the individual remains eligible.

Spenddown

If, based upon the re-evaluation, the individual is determined not eligible for Medicaid but met the requirements in Chapter M13 for placement on a spenddown, a first prospective and additional 6 month spenddown budget periods may be established to cover the period of time between the date of application and the date action is taken on his case. A new application is not required for each 6 month spenddown budget period leading up to the date of processing, however, verification of all income and resources for those time periods must be obtained.

2. SSA Denial or Termination And Appeal

If SSA denies disability, the disability definition is not met. If the individual has been enrolled in Medicaid as disabled and is not eligible in another covered group, send an advance notice to the enrollee to cancel Medicaid.

If the individual appeals the SSA's disability decision timely (within 60 calendar days from the SSA notification or with good cause for exceeding 60 days) and SSA agrees to reconsider the decision, the Medicaid coverage must be reinstated until the final decision on the SSA appeal is made. **The individual must provide verification that he filed the appeal and SSA agreed to reconsider the case.** The individual must also provide verification of the decisions made at all levels of appeal in order for Medicaid to continue during the process. The Medicaid coverage will continue until a final decision is made and the individual has no right to further SSA appeals.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date January 2017
Subchapter Subject M0310 GENERAL RULES & PROCEDURES	Page ending with M0310.114	Page 28b

The levels of administrative review are in the following order:

- a. reconsideration,
- b. the hearing before an administrative law judge (ALJ), and
- c. the Appeals Council

For example: An individual is enrolled in Medicaid as disabled. However, his SSA claim is denied at the ALJ hearing level. If the individual fails to appeal the ALJ decision to the Appeals Council and the Appeals Council does not decide on its own to review the case, the ALJ decision becomes the final decision once the 60-day deadline for requesting further review has passed. Because the individual no longer meets the disabled definition for another covered group, his Medicaid coverage must be canceled.

6. RRB Denial, Termination and RRB Appeal

If RRB denies disability, the disability definition is not met. If the individual has been enrolled in Medicaid as disabled and is not eligible in another covered group, send an advance notice to the recipient to cancel Medicaid.

Persons who believe that their claims have not been adjudicated correctly may ask for reconsideration by the Board's Office of Programs. If not satisfied with that review, the applicant may appeal to the Board's Bureau of Hearings and Appeals. Further, if the individual timely appeals the RRB disability decision, Medicaid coverage must be reinstated until the final decision on the RRB appeal is made. The individual must provide verification that he filed a timely appeal with RRB and must provide verification of the decisions made at all levels of appeal in order for Medicaid to continue during the process.

7. Subsequent SSA/SSI Disability Decisions

If the individual appeals a disability denial and the decision is subsequently reversed, reopen and re-evaluate the denied Medicaid application as long as the disability onset month is prior to the month of application or is no later than 90 days after the month of application. If the individual has moved to another locality in Virginia, it is the responsibility of the agency that processed the application to reopen the application and determine eligibility prior to transferring the case. See M1510.104.

M0310.113 RESERVED

M0310.114 FAMILIES & CHILDREN (F&C)

"Families & Children (F&C)" is the group of individuals that consists of

- children under 19,
- pregnant women,
- specified subgroups of children under age 21,
- former Virginia foster care children under age 26 (effective January 1, 2014), and
- parent/caretakers of dependent children under age 18.

Also included in the F&C groups are individuals eligible only for family planning services (Plan First) and participants in BCCPTA.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date January 2020
Subchapter Subject M0310 GENERAL RULES & PROCEDURES	Page ending with M0310.115	Page 29

M0310.115 FOSTER CARE

A. Definition

Foster Care provides maintenance and care for children whose custody is held by:

- a local board of social services;
- a licensed private, non-profit child placement agency;
- the Department of Juvenile Justice; or
- the child's parent(s), under a non-custodial agreement.

Federal regulations define "foster care" as "24-hour substitute care for children placed away from their parents or guardians and for whom the State agency has placement and care responsibility" (45 C.F.R. §1355.20). Transfer of the legal custody of the child is not a component when determining if a child is considered to be in foster care. The federal definition is based upon the child being placed outside of the home and who has placement and care responsibility for the child. If a child is placed outside of the home and LDSS is the case manager with placement and care responsibility, then the federal government considers the child to be in foster care. For the federal government, the term "placement and care" means that LDSS is legally accountable for the day-to-day care and protection of the child through either a court order or a voluntary placement agreement.

1. Custody

Custody may be given to an agency by the court or may be retained by the parent(s) or guardian when a non-custodial agreement is involved. If custody is retained by the parent under a parental agreement with the Community Policy and Management Team (CPMT), the child is NOT in foster care.

2. Child Placing Agency

A child placing agency is an agency that is licensed by the State Department of Social Services for child placing services. Not all child placing agencies provide adoption services; some may provide foster home placement. The services offered must be identified in the description given for the license. The foster care service unit of the local department of social services should be familiar with the function of the child placing agency, and whether or not it is licensed.

3. Independent Living and Fostering Futures

A foster care child who is under age 18 who is in an Independent Living arrangement and receives full or partial support from a local social services agency, continues to meet the foster care definition and may be eligible in the covered group of Individuals Under Age 21. A child age 18 and over who is in an Independent Living arrangement with a local department of social services or in the Fostering Futures Program is considered a former foster care child and may be eligible in the Former Foster Care Child Under Age 26 covered group.

4. Kinship Guardianship Payments

Kinship Guardianship Payments are not income. These payments are a stipend paid to a relative caregiver who has assumed custody of a child as an alternative to that child remaining in foster care.

Children who are eligible for Title IV-E KinGAP (federal funds) Payments are categorically eligible for Medicaid.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date January 2020
Subchapter Subject M0310 GENERAL RULES & PROCEDURES	Page ending with M0310.115	Page 30

5. Independent Living

A foster care child who is under age 21, who is in an Independent Living arrangement and receives full or partial support from a local social services agency, continues to meet the foster care definition and may be eligible in the covered group of Individuals Under Age 21.

6. Non-custodial and Parental Agreements

a. Non-custodial Agreement

A non-custodial agreement is an agreement between the child's parent or guardian and the local Board of Social Services. The parent(s) or guardian retains legal custody of the child. The social services agency agrees to provide financial assistance and/or services to the child, such as placement in and payment for residential facility services.

Non-custodial agreements are used when LDSS serves as the case manager and has placement and care responsibilities to place a child outside of his home for treatment.

Children with non-custodial agreements are considered to be in foster care for Medicaid eligibility purposes.

b. Parental Agreement

A parental agreement is an agreement between the child's parent or guardian and an agency **other than DSS** which is designated by the CPMT. The other agency designated by the CPMT has placement and care responsibility for the child and agrees to provide financial assistance and/or services to the child, such as placement in and payment for residential facility services.

Parental agreements are used when an agency other than LDSS is designated by the CPMT as case manager and the child is placed outside of the home for treatment.

Children with parental agreements ARE NOT considered to be in foster care for Medicaid eligibility purposes.

c. Placement

Federal Title IV-E funds can only be claimed if LDSS has placement and care responsibility for the child **and** the child is placed by LDSS outside the child's home. If the LDSS has placement and care responsibility for the child and the child is placed in the child's home, the child is not eligible for Title IV-E funds and is a Non-IV-E foster child for Medicaid eligibility purposes.

7. Department of Juvenile Justice

A child in the custody of the Virginia Department of Juvenile Justice or who is the responsibility of a court is a "Department of Juvenile Justice (DJJ) child."

B. Procedures

1. IV-E Foster Care

Children who are eligible for and receive Title IV-E (AFDC-FC) foster care maintenance payments *or Title IV-E KinGAP payments* are IV-E Foster Care for Medicaid eligibility purposes. A child of a IV-E foster care child is also considered to be a IV-E foster care child when the mother's IV-E payment includes an allocation for her child.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date April 2017
Subchapter Subject M0310 GENERAL RULES & PROCEDURES	Page ending with M0310.116	Page 30a

A child who is eligible for IV-E Foster Care but who does not receive a IV-E Foster Care maintenance payment is considered a “Non-IV-E Foster Care” child for Medicaid eligibility purposes.

Children in the custody of another state’s social services agency, who are eligible for and receive Title IV-E Foster Care maintenance payments and who now reside in Virginia, are IV-E Foster Care for Medicaid eligibility purposes. Verify the child’s IV-E eligibility from the other state’s department of social services which makes the IV-E payment.

2. **Non IV-E Foster Care**
Children who are eligible for but do not receive IV-E maintenance payments or who are eligible for Non-IV-E (state/local) Foster Care (whether or not they receive a Non-IV-E payment), and who reside in Virginia are Non-IV-E Foster Care for Medicaid eligibility purposes.
3. **Non-IV-E Children in Another State’s Custody**
A child in the custody of another state’s social services agency who is not receiving IV-E foster care maintenance or SSI payments, does NOT meet the Virginia residency requirement for Medicaid (M0230) and is not eligible for Virginia Medicaid UNLESS the child has been placed with and is residing in Virginia with a parent or care-taker relative.
4. **Trial Home Visits**
A foster care or DJJ child continues to meet the foster care definition (either IV-E or non-IV-E) when placed by the agency in the child’s own home for a trial period of up to six months, if the child continues to be in the agency’s custody or remains the financial responsibility of DJJ or the court. Do not redetermine Medicaid eligibility during the 6 month trial home visit.

M0310.116 HOSPICE

A. Definition

"Hospice" is a covered group of terminally ill individuals whose life expectancy is 6 months or less and who have voluntarily elected to receive hospice care. The term “hospice” is also used to refer to the covered service for a terminally ill Medicaid recipient, regardless of his covered group. Hospice services can be provided in the individual’s home or in a medical facility, including a nursing facility.

1. **Hospice Care**
"Hospice care" means items and services are provided to a terminally ill individual by, or by others under arrangements made by, a hospice program under a written plan of care for the individual that is established and periodically reviewed by the individual's attending physician and the hospice program's medical director:
2. **Hospice Program**
A "hospice program" is a public agency or private organization which
 - is primarily engaged in providing hospice care, makes hospice care services available as needed on a 24-hour basis, and provides bereavement counseling for the terminally ill individual's immediate family;
 - provides hospice care in individuals' homes or in medical facilities on a short-term inpatient basis;
 - meets federal and state staffing, record-keeping and licensing requirements.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date September 2012
Subchapter Subject M0310 GENERAL RULES & PROCEDURES	Page ending with M0310.118	Page 31

B. Procedure

The individual must elect hospice care in a non-institutional setting. Election of hospice care is verified either verbally or in writing from the hospice care provider. If verification is verbal, document the case record.

M0310.117 INSTITUTION**A. Definition**

An **institution** is an establishment that furnishes (in single or multiple facilities) food, shelter, and some treatment or services to four or more persons unrelated to the proprietor.

B. Medical Institution (Facility)

A **medical institution** is an institution that:

- is organized to provide medical care, including nursing and convalescent care,
- has the necessary professional personnel, equipment, and facilities to manage the medical, nursing and other health needs of patients,
- is authorized under state law to provide medical care, and
- is staffed by professional personnel who are responsible to the institution for professional medical and nursing services.

C. Procedures

The procedures used to determine if an individual meets a covered group of individuals in institutions are contained in subchapters M0320 and M0330.

M0310.118 LIFC**A. Low Income Families with Children (LIFC)**

Low Income Families with Children (LIFC) is a covered group of individuals in families who have a dependent child(ren) living in the home, and whose income is within the Medicaid F&C income limits.

B. Procedure

Section *M0330.200* contains the detailed requirements for the LIFC covered group.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date September 2012
Subchapter Subject M0310 GENERAL RULES & PROCEDURES	Page ending with M0310.121	Page 32

M0310.120 MEDICALLY NEEDY (MN)

A. Definition

"MN" is the short name for "medically needy." MN is one of the two federal classifications of Medicaid covered groups. All MN covered groups are optional; the state can choose whether or not to cover MN individuals in its State Plan. However, if the state chooses to cover MN individuals, it must at least cover children under age 18, pregnant women and the protected group of individuals who were eligible as MN blind or disabled in December 1973 and continue to meet the December 1973 eligibility criteria. The state may choose to cover additional groups of individuals as MN.

The MN individual is one who has income and resources enough to meet his maintenance needs, but not enough to meet his medical needs. MN individuals whose income exceeds the MN income limit *may be placed on a spenddown (SD) and establish eligibility when incurred medical and/or remedial expenses equal or exceed the SD amount.*

B. Procedure

The procedures used to determine if an individual meets a MN covered group are in subchapter M0320 *for ABD and M0330 for F&C.*

M0310.121 MEDICARE BENEFICIARY

A. Definition

A Medicare beneficiary is an individual who is entitled to Medicare (Title XVIII of the Social Security Act). Medicare is a federally funded and administered health insurance program and consists of hospital insurance (Part A), medical insurance (Part B) and, beginning January 1, 2006, prescription drug coverage (Part D).

1. Part A

A person is entitled to Medicare Part A if he

a. is age 65 or older and:

- eligible for monthly Social Security benefits on the basis of covered work under the Social Security Act,
- a qualified Railroad Retirement beneficiary,
- not eligible for Social Security or Railroad Retirement benefits but meets the requirements of a special transitional provision,
- not eligible for Social Security or Railroad Retirement benefits but voluntarily enrolls and pays a monthly premium, or

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date July 2005
Subchapter Subject M0310 GENERAL RULES & PROCEDURES	Page ending with M0310.121	Page 33

- would be eligible for Social Security benefits if his governmental employment were covered work under the Social Security Act;
OR
- b. is under age 65, disabled and
 - entitled to or deemed entitled to Social Security disability benefits for more than 24 months,
 - would be entitled to Social Security disability benefits for more than 24 months if his governmental employment were covered work under the Social Security Act,
 - under specified circumstances, entitled to Railroad Retirement benefits because of disability,
 - loses his entitlement to disability benefits and Medicare Part A solely because he is engaging in substantial gainful employment but voluntarily elects to enroll and pay a monthly premium; OR
- c. is any age and has end-stage renal disease treated by a kidney transplant or a regular course of kidney dialysis and meets the special insured status requirements.

2. Part B

A person is eligible to enroll in Medicare Part B if he

- a. is entitled to premium-free Medicare Part A or pays a premium for Medicare Part A, OR
- b. is age 65 or older, a resident of the U.S., and either
 - a citizen of the U.S., or
 - an alien lawfully admitted for permanent residence who has resided in the U.S. continuously during the 5 years immediately prior to the month in which he or she applies for enrollment.

3. Part D

A person is eligible to enroll in Medicare Part D if he:

- a. is entitled to Medicare Part A and/or enrolled in Medicare Part B; and*
- b. is a resident of the United States.*

B. Procedures

A Medicare beneficiary may be eligible for Medicaid if he meets all of the Medicaid eligibility requirements including any one or more of the covered groups. Four of the Medicaid covered groups are specifically for Medicare beneficiaries and *provide a limited benefit package that pays costs related to Medicare, such as premiums, copays, and deductibles. These groups include Qualified Medicare Beneficiaries (QMBs), Special Low-income Medicare Beneficiaries (SLMBs), Qualified Disabled and Working Individuals (QDWIs) and Qualified Individuals (QI). QMBs, SLMBs, and QIs are also referred to as Medicare Savings Programs (MSP).*

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date January 2018
Subchapter Subject M0310 GENERAL RULES & PROCEDURES	Page ending with M0310.122	Page 34

See sections *M0320.601 (QMB)*, *M0320.602 (SLMB)*, and *M0320.603 (QI)* for the procedures to use to determine if an individual meets an MSP covered group. See section *M0320.604* for the procedures to use to determine if an individual meets the QDWI covered group.

M0310.122 OASDI

A. Old Age, Survivors & Disability Insurance (OASDI)

Old Age, Survivors & Disability Insurance (OASDI) is the federal insurance benefit program under Title II of the Social Security Act that provides cash benefits to workers and their families when the workers retire, become disabled or die.

OASDI is sometimes called RSDI - Retirement, Survivors & Disability Insurance. Because Title II of the Social Security Act is still officially called "Old Age, Survivors & Disability Insurance", the Medicaid manual uses the abbreviation "OASDI" interchangeably with "Title II" to refer to Title II Social Security benefits.

B. Entitlement

An individual is fully insured if he has at least 1 credit for each calendar year after 1950, or if later, after the year in which he attained age 21, and prior to the year in which he or she attains age 62 or dies or becomes disabled, whichever occurs earlier.

A worker is entitled to retirement insurance benefits if he is at least age 62, is fully insured and files an application for retirement insurance benefits.

A claimant who is the worker's spouse is entitled to spouse's benefits on the worker's record if the claimant is age 62 or over, has in care a child under age 16 or disabled who is entitled to benefits on the worker's record, and the claimant has been married to the worker for at least 1 year before filing the claim or the claimant is the natural mother or father of the worker's biological child.

A child is entitled to child's insurance benefits on a parent's work record if an application for child's benefits is filed, the child is or was dependent on the parent, the child is unmarried, the child is under age 18 or is age 18-19 and a full-time elementary or secondary school student or age 18 or over and under a disability which began before the child attained age 22; and the parent is entitled to retirement or disability insurance benefits, or died and was either fully or currently insured at the time of death.

When an insured worker dies, monthly cash benefits may be paid to eligible survivors as follows: widow(er)'s benefits, surviving child's benefits, mother's or father's benefits, and parent's benefits.

C. Procedures

Verify an individual's entitlement to OASDI by inquiring the MMIS computer system or entering the required data into the State Verification Exchange System (SVES). The individual's award letter from SSA is acceptable verification of OASDI entitlement.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date July 2018
Subchapter Subject M0310 GENERAL RULES & PROCEDURES	Page ending with M0310.124	Page 35

M0310.123 PARENT

A. Definition

Under federal regulations, a parent means either the mother or the father, married or unmarried, natural or adoptive following entry of the interlocutory or final adoption order, whichever comes first.

1. Mother Married on Child's Birth Date

A mother who was married at the time of her child's birth may name on the application someone other than her husband as the child's father. The man to whom she was married at the time of the child's birth, however, is considered the child's father unless DCSE or a court determines otherwise. DCSE or the court must exclude the mother's husband, considered the legal father, as the child's father before the paternity status of the man named on the application is determined.

2. Mother NOT Married on Child's Birth Date

If the mother was NOT married when the child was born, the man who is living in the home and who is listed on the application as the child's father is the child's acknowledged father, unless the agency receives evidence that contradicts the application, such as the child's birth certificate that has another man named as the child's father.

3. Paternity Evidence

If evidence of paternity is required to establish eligibility or ineligibility, such evidence must be entered in the eligibility case record.

B. Procedures

NOTE: The mother's marital status at the time of the child's birth does not require verification; her declaration of her marital status is sufficient.

Section M0330.200 contains the detailed requirements for the LIFC covered group in which a parent of a dependent child can be eligible for Medicaid.

M0310.124 PREGNANT WOMAN

A. Definition

A woman of any age who attests that she is pregnant meets the definition of a pregnant woman.

At the time of application, applicants are asked if they are pregnant and if so, how many babies are expected. The pregnant woman definition is met the first day of the month *in which* the woman attests she is pregnant. She meets the definition of a pregnant woman for the retroactive period if she was pregnant during the retroactive months.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date July 2022
Subchapter Subject M0310 GENERAL RULES & PROCEDURES	Page ending with M0310.125	Page 36

The definition of “pregnant woman” *for the purposes of the eligibility determination and covered group designation* is met for 12 months following the last day the woman was pregnant regardless of the reason the pregnancy ended, and continues to be met until the last day of the month in which the 12th month occurs.

After a woman’s eligibility as a pregnant woman is established for Medicaid or FAMIS MOMS, her entitlement continues for 12 months following the end of the month in which her pregnancy ends, regardless of income changes. Medicaid and FAMIS MOMS coverage ends the last day of the 12th month.

B. Procedures

1. No Further Verification of Pregnancy Required

If the woman has indicated on the application that she is pregnant or subsequently reports a pregnancy, no further information regarding her pregnancy is to be requested nor verification is to be required unless the agency has reason to question the applicant’s statement that she is pregnant.

If a woman is applying after the end of a pregnancy, her report of the birth or pregnancy end date is sufficient to establish (1) for purposes of retroactive coverage, her pregnancy in the three months prior to the child’s birth month or pregnancy end date, or (2) for purposes of new, prospective coverage through the end of the 12-month postpartum period, her pregnancy in the twelve months prior.

2. Covered Groups Eligibility

A pregnant woman may be eligible for Medicaid if she meets all of the Medicaid eligibility requirements including any one or more of the covered groups. Once eligibility is established in any covered group, changes in income do not affect her eligibility as long as she continues to meet the definition of a pregnant woman and all non-financial eligibility requirements.

See section M0330.400 for the pregnant woman covered group requirements and M0330.801 for the MN Pregnant Woman requirements.

M0310.125 QDWI

A. Qualified Disabled & Working Individuals (QDWI)

QDWI is the short name used to designate the Medicaid covered group of Medicare beneficiaries who are "Qualified Disabled and Working Individuals." A qualified disabled and working individual means an individual

- who is entitled to enroll for Medicare Part A,
- whose resources do not exceed twice the maximum amount of resources that an individual or couple may have and be eligible for SSI,
 - whose income does not exceed 200% of the federal poverty limit,
- who is NOT otherwise eligible for Medicaid.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date July 2022
Subchapter Subject M0310 GENERAL RULES & PROCEDURES	Page ending with M0310.128	Page 37

B. Procedure

QDWI is a mandatory covered group that the state plan must cover for the purpose of paying the beneficiary's Medicare Part A premium. See section M0320.604 for the procedures to use to determine if an individual meets the QDWI covered group.

M0310.126 Qualified Individuals**A. Qualified Individuals (QI)**

QI is the short name used to designate the Medicaid covered group of "Qualified Individuals." A qualified individual means a Medicare beneficiary

- who is entitled to Medicare Part A,
- who has resources that are within the resource limits for the Medicare Savings Programs (MSPs). See chapter section M1110.003 for the current resource limits; and
- whose income is equal to or more than 120% of the federal poverty level (FPL) and is less than 135% FPL.

B. Procedure

QI is a mandatory covered group that the State Plan must cover for the purpose of paying the Medicare Part B premium for the QI. See section M0320.603 for the procedures used to determine if an individual meets the QI covered group.

M0310.127 QMB**A. Qualified Medicare Beneficiary (QMB)**

QMB is the short name used to designate the Medicaid covered group of "Qualified Medicare Beneficiary." A qualified Medicare beneficiary means an individual

- who is entitled to enroll for Medicare Part A,
- who has resources that are within the resource limits for the Medicare Savings Programs (MSPs). See chapter section M1110.003 for the current resource limits; and
- whose income does not exceed 100% of the FPL.

B. Procedure

QMB is a mandatory covered group that the state plan must cover for the purpose of paying the beneficiary's Medicare premiums and cost sharing expenses. See section M0320.601 for the procedures to use to determine if an individual meets the QMB covered group.

M0310.128 RSDI**A. Retirement, Survivors & Disability Insurance (RSDI)**

Retirement, Survivors & Disability Insurance (RSDI) is another name for Old Age, Survivors & Disability Insurance (OASDI) - the federal insurance benefit program under Title II of the Social Security Act that provides cash benefits to workers and their families when the workers retire, become disabled or die.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date July 2017
Subchapter Subject M0310 GENERAL RULES & PROCEDURES	Page ending with M0310.131	Page 38

B. Procedure

RSDI Is not used in the Medicaid manual. Because Title II of the Social Security Act is still officially called “Old Age, Survivors & Disability Insurance”, the Medicaid manual uses the abbreviation “OASDI” interchangeably with “Title II” to refer to Title II Social Security benefits.

M0310.129 SLMB**A. Special Low-income Medicare Beneficiary (SLMB)**

SLMB is the short name used to designate the Medicaid covered group of “Special Low-income Medicare Beneficiary”. A special low-income Medicare beneficiary means an individual

- who is entitled to enroll for Medicare Part A,
- *who has resources that are within the resource limits for the Medicare Savings Programs (MSPs). See chapter section M1110.003 for the current resource limits; and*
- whose income exceeds the QMB income limit (100% of the FPL) but does NOT exceed the higher SLMB income limit, which is 120% of the FPL.

B. Procedure

SLMB is a mandatory covered group that the state plan must cover for the purpose of paying the beneficiary’s Medicare Part B premium. See section M0320.602 for the procedures to use to determine if an individual meets the SLMB covered group.

M0310.130 SSI**A. Supplemental Security Income (SSI)**

Supplemental Security Income (SSI) is the federal cash assistance benefit program under Title XVI of the Social Security Act that provides cash assistance to eligible aged, blind or disabled individuals to meet their shelter, food and clothing needs.

B. Procedures

Individuals who receive SSI (SSI recipients) are not “automatically” eligible for Medicaid in Virginia. SSI recipients must meet all of the Medicaid nonfinancial eligibility requirements and must meet the Medicaid resource eligibility requirements that are more restrictive than SSI’s resource requirements. See section M0320.101 for the procedures to use to determine if an SSI recipient meets a covered group.

M0310.131 STATE PLAN**A. Definition**

The State Plan for Medical Assistance is a comprehensive written statement submitted by the Department of Medical Assistance Services (DMAS) describing the nature and scope of Virginia’s Medicaid program. It contains all the information necessary for the federal Centers for Medicare and Medicaid Services (CMS) to determine whether the state plan can be approved for federal financial participation (FFP) in the state’s Medicaid program expenses.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date January 2014
Subchapter Subject M0310 GENERAL RULES & PROCEDURES	Page ending with M0310.135	Page 39

B. State Plan Governs Medicaid Eligibility Rules

The State Plan consists of preprinted material that covers the basic Medicaid requirements and individualized material written by DMAS that reflects the particular requirements and choices made by Virginia for its Medicaid program. The State Plan is included in DMAS' state regulations promulgated according to the Virginia Administrative Process Act (APA). The State Plan is kept and updated by DMAS.

The State Plan shows the eligibility requirements for Virginia Medicaid, including the mandatory and optional groups of individuals covered by Virginia Medicaid and the medical services covered by Medicaid for those groups. The covered groups eligibility requirements in this chapter are based on the State Plan.

M0310.132 TANF

A. Temporary Assistance for Needy Families (TANF)

TANF is the federally-funded (with matching funds from the states) block grant program in Title IV Part A of the Social Security Act that provides temporary cash assistance to needy families. In Virginia, TANF replaced the previous Title IV-A program called Aid to Families With Dependent Children (AFDC) on February 1, 1997.

M0310.133 BCCPTA

A. Breast and Cervical Cancer Prevention and Treatment Act (BCCPTA)

The BCCPTA created a Medicaid covered group for women and men age 18 through 64 who have been identified by the Centers for Disease Control and Prevention's (CDC) Breast and Cervical Cancer Early Detection Program (BCCEDP) as being in need of treatment for breast or cervical cancer.

B. Procedures

Section M0330.700 contains the detailed requirements for the BCCPTA covered group.

M0310.134 VIEW PARTICIPANT

A. Virginia Initiative for Employment not Welfare (VIEW) Participants

A VIEW participant is an individual who has signed the TANF Agreement of Personal Responsibility. *For renewals completed and changes reported prior to April 1, 2014*, VIEW participants have a higher earned income limit than non-VIEW participants. An individual under a TANF VIEW sanction is a VIEW participant for Medicaid purposes. An individual only receiving TANF transitional support services is not a VIEW participant for Medicaid purposes.

Modified Adjusted Gross Income (MAGI) methodology does not differ between VIEW participants and other individuals.

M0310.135 HIPP PROGRAM

A. Health Insurance Premium Payment (HIPP) Program

HIPP is a cost savings program administered by the DMAS for Medicaid enrollees which reimburses some or all of the employee portion of group health insurance premiums. HIPP is available to Medicaid enrollees when a family member is employed at least 30 hours per week and is enrolled in an employer's group health plan. Eligibility for HIPP is determined by the HIPP Unit at DMAS. Participation in HIPP is voluntary.

B. Procedures

M0130.200 G contains additional information about HIPP.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date October 2019
Subchapter Subject M0310 GENERAL RULES & PROCEDURES	Page ending with M0310.136	Page 40

M0310.136 MAGI ADULT

A. Definition

A MAGI Adult is a person who is not defined as a “child” (see M0310.110).

The 2018 Appropriations Act mandated that Medicaid in Virginia be expanded effective January 1, 2019. This new expanded coverage group is called MAGI Adults and covers individuals ages 19-64 who are not eligible for or enrolled in Medicare and who have income at or below 138% of FPL. Several new aid categories have been added for the MAGI Adults covered group.

- Childless adults, income less than 100% FPL;
- Childless adults, income less than 138% FPL (133% + 5% income disregard);
- Parent/Caretaker adult relatives, above current LIFC income limit and at or below 100% FPL;
- Parent/Caretaker adult relatives, above 100% FPL and at or below 138% FPL (133% + 5% income disregard);
- Presumptive eligible adult, income at or below 138% FPL (133% + 5% income disregard);
- Incarcerated adult who otherwise meet a Medicaid MAGI Adult aid category but not enrolled due to incarceration.

B. Procedure

The procedures used to determine if an individual meets the MAGI Adults covered group are contained in subchapters M0320 and M0330.

Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.000	Page 1

M0320.000 AGED, BLIND & DISABLED (ABD) GENERAL POLICY PRINCIPLES

A. Overview

A State Plan for Medicaid must include the mandatory federal categorically needy (CN) groups of individuals as well as the optional groups a state has elected to cover.

This subchapter divides the ABD covered groups into categorically needy and medically needy (MN) groups.

B. Procedure

Determine an individual's eligibility first in a CN covered group. This includes eligibility in the Modified Adjusted Gross Income (MAGI) Adults covered group (see M0330.250). If the individual is not eligible in a full-benefit CN covered group, determine the individual's eligibility as MN (on a spenddown).

An evaluation of eligibility for an aged, blind or disabled individual should follow this hierarchy:

1. If the individual is a current SSI/AG recipient, evaluate in this covered group. Exception-- if the individual requests MEDICAID WORKS, go to 5 below.
2. If the individual is a former SSI or AG recipient, evaluate first in the protected covered groups. Exception-- if the individual requests MEDICAID WORKS, go to 5 below.
3. If the individual does not meet the criteria for SSI/AG or protected, is between ages 19 and 64, and is not eligible for or enrolled in Medicare, evaluate next in the MAGI Adults covered group.
4. If the individual is aged and/or is eligible for or has Medicare, evaluate next in the ABD with income \leq 80% FPL covered group.
5. If a disabled individual has income at or below 80% FPL (including SSI recipients and 1619(b) individuals) and is going back to work, evaluate the individual in the MEDICAID WORKS covered group.
6. If the individual does not meet the requirements for MAGI Adults, 80% FPL group or MEDICAID WORKS, but meets the definition of an institutionalized individual, evaluate in the 300% of SSI covered groups.
7. If the individual is a Medicare beneficiary with income or resources in excess of the full-benefit Medicaid covered groups, evaluate in the Medicare Savings Programs (MSP) groups (QMB, SLMB, QI, QDWI).
8. If the individual is not eligible for Medicaid coverage in an MSP group AND he is at least age 19 years but under age 65 years or he requests a Plan First evaluation, evaluate in the Plan First covered group.
9. If the individual meets all the requirements, other than income, for coverage in a full benefit Medicaid group, evaluate as MN.

C. Referral to Health Insurance Marketplace

Unless an individual is incarcerated, an ABD individual who does not have Medicare and is not eligible for full Medicaid coverage must be referred to the Health Insurance Marketplace (HIM) so the applicant's eligibility for the APTC can be determined. Incarcerated individuals and those with Medicare are not referred to the HIM.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date July 2022
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.100	Page 2

D. Aid Categories

Aid Categories (ACs) are used in the eligibility and enrollment systems to denote covered group. Some covered groups have multiple ACs for designating disability status, age, income, and other demographic information. These ACs may be used for reporting and funding purposes. The policy sections for each ABD covered group in this subchapter contain the assigned ACs

Exception—ABD individuals of any age who have been determined to be eligible for Medicaid coverage of emergency services based on the alien status requirement policies in subchapter M0220 will be assigned to AC 113 regardless of their covered group.

M0320.001 ABD CATEGORICALLY NEEDY**A. Introduction**

To be eligible in an ABD covered group, the individual must meet all Medicaid non-financial requirements in chapter M02 and an “Aged,” “Blind” or “Disabled” definition in subchapter M0310. If he does not, then go to the Families & Children covered groups in subchapter M0330.

B. Procedures

The policy and procedures for determining whether an individual meets an ABD CN covered group are contained in the following sections:

- M0320.202 Conversion Cases
- M0320.203 Former SSI/AG Recipients
- M0320.206 Protected Adult Disabled Children
- M0320.207 Protected SSI Disabled Children
- M0320.300 ABD with Income \leq 80% FPL
- M0320.400 MEDICAID WORKS
- M0320.501 ABD In Medical Institution, Income \leq 300% SSI
- M0320.502 ABD Receiving CBC Services
- M0320.503 ABD Hospice
- M0320.601 Qualified Medicare Beneficiary (QMB)
- M0320.602 Special Low-income Medicare Beneficiary (SLMB)
- M0320.603 Qualified Individuals (QI)
- M0320.604 Qualified Disabled & Working Individual (QDWTI)

M0320.100 ABD CASH ASSISTANCE COVERED GROUPS**A. Legal base**

Medicaid eligibility for certain individuals is based on their receipt of cash assistance from another benefit program that has a cash assistance component.

B. Procedure

The policy and procedures for cash assistance recipients are found in the following sections:

- M0320.101 SSI Recipients
- M0320.102 AG Recipients

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date January 2019
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.101	Page 2a

M0320.101 SSI RECIPIENTS

A. Introduction

42 CFR 435.121 - SSI recipients are a mandatory CN Medicaid covered group. Many states automatically *enroll an individual in* Medicaid when the individual is approved for SSI. However, in Virginia, not all SSI recipients are eligible for Medicaid. Virginia has chosen to impose real property eligibility requirements that are more restrictive than the federal SSI real property eligibility requirements. SSI recipients living in Virginia must apply separately for Medicaid because they are subject to a resource evaluation.

The Social Security Administration may approve an SSI applicant as conditionally or presumptively eligible for SSI. Conditionally-eligible SSI recipients are being allowed time to dispose of excess resources. Presumptively blind or disabled SSI recipients are presumed to be blind or disabled; no final blindness or disability determination has been made. An individual who has been conditionally or presumptively approved for SSI is NOT eligible for Medicaid in the SSI Recipients covered group. Evaluate the individual's eligibility in the MAGI Adults covered group.

SSI payments for eligible individuals are effective the first day of the month following the month in which the SSI application was filed. When the Medicaid application is filed in the same month as the SSI application, the applicant is not eligible for Medicaid as an SSI recipient until the month for which he receives his first SSI payment. See policy M0320.101.C. When the SSA record indicates a payment code(s) of "C01" and no payment amount is shown, the individual is considered to be a SSI recipient for Medicaid purposes. If the SSA record indicates a code of EO1 or E02 and no SSI payment has been received in more than twelve months, the individual's SSI status must be confirmed.

Eligibility for months prior to SSI entitlement must be evaluated *in the MAGI Adults* covered group.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date January 2018
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.101	Page 3

B. Financial Eligibility

1. Resources

Determine if the SSI recipient has the following real property resource(s):

- 1) equity in non-exempt property contiguous to the individual's home which exceeds \$5,000 and none of the real property exclusions in sections M1130.100, M1130.140, S1130.150, or M1130.160 are applicable to the property;
- 2) interest in undivided heir property and the equity value of the individual's share that, when added to all other countable resources, exceeds the appropriate Medicaid resource limit. (The interest in the estate must be legally available.) If a partition suit is necessary to sell the interest, costs of partition and *individual's (recipient/applicant)* attorneys' fees may be deducted as described in M1120.215;
- 3) ownership (equity value) of the individual's former residence when the SSI recipient is in an institution for longer than 6 months. Determine if the former residence is excluded under policy in section M1130.100 D;
- 4) equity value in property owned jointly by the SSI recipient with another person in who is not the individual's spouse as tenants in common or joint tenants with the right of survivorship at common law. Determine if any of the real property exclusions in sections M1130.100, M1130.140, S1130.150, or M1130.160 apply to the property;
- 5) other real property; determine if any of the real property exclusions in sections M1130.100, M1130.140, S1130.150, or M1130.160 apply to the property.

When an SSI recipient has any of the real property listed in 1) through 5) above, ALL of the recipient's resources must be verified, evaluated, and counted together to determine if the SSI recipient meets the Medicaid resource requirements. Calculate resources according to the assistance unit policy in chapter M05. If current resources are within the limit, go on to determine income eligibility. If current resources are NOT within the limit, the individual is NOT eligible in this covered group; he may be eligible as MSP (which has more liberal resource methods and standards).

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date January 2018
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.101	Page 4

When an SSI recipient has no real property resource listed in 1) through 5) above, do NOT determine the SSI recipient's resources. The SSI recipient meets the Medicaid resource requirements because he receives SSI and does not have a real property resource listed above.

2. Income

Verify the SSI recipient's eligibility for SSI payments by an SSI awards notice and inquiring the State On-line Query-Internet (SOLQ-I) system, SDX (State Data Exchange) or SVES (State Verification Exchange System). If the recipient is eligible for SSI, he meets the Medicaid income eligibility requirement.

C. Entitlement & Enrollment

Eligible individuals in this group are entitled to full Medicaid coverage beginning the first day of the individual's application month if all eligibility requirements are met in that month, including the receipt of, or entitlement to, an SSI payment in that month. *When the SSA record indicates a payment code(s) of "C01" and no payment amount is shown, the individual is considered to be an SSI recipient for Medicaid purposes. If the SSA record indicates a code of E01 or E02 and no SSI payment has been received in more than twelve months, the individual's SSI status must be confirmed.*

Retroactive coverage is applicable to this covered group. However, if the individual did not receive, or was not entitled to, an SSI payment in the retroactive period, the individual is not eligible for retroactive Medicaid in the SSI recipient covered group. His retroactive eligibility must be evaluated in another Medicaid covered group.

The ACs are:

- 011 for an aged SSI recipient;
- 031 for a blind SSI recipient;
- 051 for a disabled SSI recipient.

D. Ineligible as SSI Recipient

If a non-institutionalized SSI recipient is ineligible for Medicaid because of resources, evaluate the individual's eligibility in all other Medicaid covered groups including, but not limited to, the ABD with Income \leq 80% FPL and the MSP covered groups.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date September 2012
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.201	Page 5

M0320.102 AG RECIPIENTS

- A. Policy** 42 CFR 435.234 - An Auxiliary Grants (AG) recipient is eligible for Medicaid if he meets the assignment of rights to medical support and third party payments requirements (see M0250). AG eligibility is determined using the AG eligibility policy in the Auxiliary Grant Eligibility Manual.
- B. Financial Eligibility** Verify the AG recipient's eligibility for AG by agency records. *Individuals who receive AG as "Conditional" SSI recipients do **not** meet the requirements for this covered group.*
- C. Entitlement & Enrollment** Eligible individuals in this group are entitled to full Medicaid coverage beginning the first day of the individual's application month if all eligibility requirements are met in that month. Retroactive coverage is applicable to this covered group.
- The ACs are:
- 012 for an aged AG recipient;
 - 032 for a blind AG recipient;
 - 052 for a disabled AG recipient.

M0320.200 PROTECTED COVERED GROUPS

- A. Legal base** Federal law and regulations require that the Medicaid eligibility status of certain groups of persons be protected even though they may not meet current eligibility requirements. These groups, and the applicable eligibility requirements, are described in this section.
- B. Procedure**
- M0320.201 Former Money Payment Recipients August 1972
 - M0320.202 Conversion Cases
 - M0320.203 Former SSI/AG Recipients
 - M0320.204 Protected Widows or Widowers
 - M0320.205 Qualified Severely Impaired Individuals (QSII)-1619(b)
 - M0320.206 Protected Adult Disabled Children
 - M0320.207 Protected SSI Disabled Children.

M0320.201 FORMER MONEY PAYMENT RECIPIENTS AUGUST 1972

- A. Policy** 42 CFR 435.114 and 42 CFR 435.134--The agency must provide Medicaid to individuals who meet the following conditions:
- 1. Entitled to OASDI In August 1972 & Received Cash Assistance**
- In August 1972, the individual was entitled to OASDI and
- he was receiving AFDC, Old Age Assistance (OAA), Aid to the Blind (AB), or Aid to the Permanently and Totally Disabled (APTD); or
 - he would have been eligible for one of those programs if he had applied and the Medicaid plan covered this optional group. The Virginia plan covered this group; or

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date May 2015
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.202	Page 6

- he would have been eligible for one of those programs if he was not in a medical institution or intermediate care facility and the Medicaid plan covered this optional group. The Virginia plan covered this group.

2. Would Currently Be Eligible If Increase Were Excluded

The individual would meet the F&C income limits for LIFC or currently eligible for SSI or AG except that the increase in OASDI under P.L. 92-336 raised his income over the F&C income limits or SSI. This includes an individual who

- meets all LIFC requirements or current SSI requirements except for the requirement to file an application; or
- would meet all current LIFC or SSI requirements if he were not in a medical institution or intermediate care facility and the Medicaid plan covers this optional group. The Virginia plan covers this group

B. Nonfinancial Requirements

The protected individual must meet all of the following criteria:

- he was a recipient of OAA, AB, APTD, or AFDC cash assistance as of August, 1972;
- his money payment was subsequently discontinued as a result of the 20% increase in Social Security benefits received in October, 1972;
- his current countable resources are less than or equal to the current resource limit for Medicaid; and
- his current countable income is less than or equal to the F&C income limit or the current SSI income limit, as appropriate, after excluding the 20% increase amount received in 1972. The current SSI standards are in subchapter S0810; *the F&C income limit is available from a Regional Medical Assistance Program consultant.*

Contact a Medicaid Assistance Consultant if you have an applicant you believe meets this covered group.

M0320.202 CONVERSION CASES

A. Policy

42 CFR 435.131, 435.133--Conversion cases are classified as categorically needy and consist of the following individuals:

- blind or disabled individuals eligible in December 1973;
- individuals eligible as essential spouses of aged, blind or disabled individuals in December 1973.

B. Eligibility Determination

The agency must continue the individual's Medicaid if

- the ABD individual continues to meet the December 1973 eligibility requirements of the applicable cash assistance program; and

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date September 2012
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.203	Page 7

- the essential spouse continues to meet the conditions that were in effect in December 1973 under the applicable cash assistance plan for having his needs included in computing the payment to the ABD individual.

C. Essential Spouse

The agency must provide Medicaid to any person who was eligible for Medicaid in December 1973 as an essential spouse of an aged, blind or disabled individual who was receiving cash assistance, if the conditions below are met. An “essential spouse” is defined as one who is living with the individual, whose needs were included in determining the amount of cash payment to the individual under OAA, AB, or APTD in December 1973, and who is determined essential to the individual’s well-being.

The spouse of the protected conversion person is included in the conversion case if:

- his/her needs were included in the OAA, AB, or APTD grant as of December, 1973, and
- he/she continues to live in the home of the protected individual

D. Blind or Disabled In December 1973

The agency must provide Medicaid to individuals who:

- meet all current Medicaid eligibility requirements except the criteria for blindness or disability;
- were eligible for Medicaid in December 1973 as blind or disabled individuals; and

for each consecutive month after December 1973, continue to meet the criteria for blindness or disability and the other eligibility requirements used under the Medicaid plan in December 1973.

Contact your Regional Medical Assistance Program Consultant if you have an applicant you believe meets this covered group.

M0320.203 FORMER SSI/AG RECIPIENTS

A. Policy

1. Nonfinancial Requirements

The protected former SSI/AG recipient must meet the nonfinancial eligibility requirements in chapter M02. The protected former SSI recipient is one who was eligible for and received **either**:

- SSA and SSI, or
- SSA and AG, or
- SSA, SSI, and AG

concurrently, but who became ineligible for SSI or AG due to any reason on or after April 1, 1977. The individual did not have to be receiving Medicaid at that time.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date September 2012
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.203	Page 8

An individual who concurrently received these benefits does not meet this covered group's requirements if one of the benefit payments was later recouped because the individual was not entitled to the payment.

2. Financial Requirements

The former SSI/AG recipient is eligible for Medicaid if:

- a. the individual meets the Medicaid resource requirements currently in effect, and the individual's income, less all SSA cost-of-living adjustments (COLAs) received since the most recent month SSI or AG was cancelled (including the COLA received in the month SSI or AG was cancelled) is within the current SSI income limit; OR
- b. the individual meets the AG requirements in effect at the time of application or redetermination, including residing in an approved AG home, and the individual's income less the amount of all SSA COLAs received since the most recent month SSI or AG was cancelled (including the COLA received in the month SSI or AG was cancelled) is within the current AG income limit applicable to a resident of that home.
- c. Any change in SSA benefits other than cost-of-living increases are not excluded, such as an increase due to change from disability benefits to widow's benefits.

EXAMPLE #1: Ms. C is age 71. She has never been enrolled in Medicaid before. She applied for Medicaid on February 12, 1997. She received SSA on her own record, in the amount of \$280, until March 1, 1994 when she began receiving widow's benefits of \$410. She received SSI until March 1, 1994, when SSI was cancelled due to her increased SSA benefit. She received COLA increases in her SSA in January of 1995, 1996, and 1997. Her current SSA is \$537. Her countable resources are less than the current Medicaid resource limit.

Ms. C meets the former SSI recipient protected individual criteria because she was eligible for and received SSA and SSI concurrently. Her countable income is her SSA amount prior to the January 1, 1995 COLA - \$410 - less the \$20 disregard. The result, \$390, is compared to the current SSI individual limit.

Because her resources are within the Medicaid limit, and her countable income of \$390 is within the current SSI limit, she is eligible for Medicaid as a protected former SSI recipient.

B. Eligibility Procedures

1. Assistance Unit

Use the assistance unit composition and resource deeming procedures policy in chapter M05 to determine when a spouse's resources or income are counted or deemed in determining the individual's eligibility.

If the protected individual lives with his/her spouse (or parent in the case of a blind/disabled child) whose resources and income would be counted or deemed in determining the individual's SSI or AG eligibility, the SSA cost-of-

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date September 2012
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.203	Page 9

living increase(s) (COLAs) received by the spouse (or parent) since the individual lost SSI or AG eligibility is also excluded in determining the protected individual's income eligibility under this section.

2. Resource Eligibility

Resource eligibility is determined by comparing the former SSI recipient's resources to the current Medicaid resource limit. Determine resources using policy in Chapter S11 (including the real property requirements that are more restrictive than SSI). Calculate resources according to the assistance unit policy in chapter M05. If current resources are within the limit, go on to determine income eligibility. If current resources are NOT within the limit, the individual is NOT eligible in this protected covered group.

3. Income Eligibility

a. Countable Income

In figuring income to compare to the current SSI or AG income limit, the income exclusions in chapter S08 are applicable including the \$20 exclusion.

When the individual meets the above criteria for a protected case and the individual's assistance unit's resources are within the Medicaid resource limit:

- 1) Identify the individual's, and the individual's spouse's (or parent's when applicable), amount of Social Security Title II benefits at the time of SSI termination.

If this amount is unknown and cannot be obtained, see item 4. below.

- 2) When the amount of Social Security Title II benefits at the time of SSI termination is determined:
 - add the Medicare premium amount to the Title II check amount if only the check amount is known (see item 5. below for Medicare premium amounts);
 - determine if any change in benefit had occurred between loss of SSI and the point of application. If questionable, multiply the prior Title II amount by the COLA percentages and compare to current entitlement. If the figures are significantly different, use the procedures in 4. below to obtain the amount of Title II at the time SSI was terminated;
 - if there were no changes, count the Title II amount at the time of SSI loss. Subtract the \$20 general exclusion;
 - count all other current sources of income, apply appropriate exclusions, total countable income.

b. Allocation For NBD Child(ren)

When determining the amount of a spouse's or parent's deable income, the allocation for a non blind or disabled (NBD) child(ren) in the home is the same regardless of locality (see M0530, Appendix 1). On the income worksheet, insert the SSI individual payment limit whenever the worksheet calls for the Medicaid income limit.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date September 2012
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.203	Page 10

c. Income Limit

Countable income is compared to the AG or SSI income limit for an individual or couple, as appropriate.

The SSI limit for a couple is used whenever evaluating a couple when both meet an ABD definition and both request Medicaid. The SSI limit for an individual is used when only one member of a couple applies or meets an ABD definition.

The SSI income limit reduced by one-third is used whenever an applicant/recipient lives in the home of another person throughout a month and does not pay his/her pro rata share of food and shelter expenses.

Compare total countable income to current appropriate SSI or AG income limit/payment amount as follows:

- 1) for a protected individual living with a protected or aged, blind, disabled (ABD) spouse who applies for Medicaid, compare the countable income to the current SSI payment limit for a couple. The SSI couple limit is reduced by one-third only if both members of the couple have their shelter and food provided by another person.

If income is within the appropriate limit, the individual spouse who meets the protected group criteria is eligible. If both spouses meet the protected group criteria, each is eligible as a former SSI recipient.

The non-protected spouse's eligibility is evaluated in another covered group.

- 2) for an individual living with a spouse and/or minor dependent children who meet a families and children category or do not apply for Medicaid, count only the individual's income and the spouse's deemed income (as determined by deeming procedures in chapter M05) and compare it to the SSI limit for an individual or couple as appropriate. If all food and shelter needs are provided by the spouse or someone else, compare the countable income to the SSI limit for an individual, reduced by one-third.
- 3) for a blind or disabled child living with a parent, calculate the parent's income (as determined by deeming procedures in chapter M05) and compare the child's countable income to the SSI payment limit for an individual. If all food and shelter needs are provided by the child's parent(s) or someone else, compare the total countable income to the SSI limit for an individual, reduced by one-third.

4. COLA Formula

If only the current Title II benefit amount is known OR the benefit was changed or recalculated after loss of SSI, use the formula below to figure the base Title II amount to use in determining financial eligibility. Divide the current Title II entitlement amount by the percentages given. Then follow the steps in item B.3.b. above to determine income eligibility.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date January 2022
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.203	Page 11

Note: There was no COLA in 2010, 2011 or 2016.

The Cost-of-living calculation formula

(The formula is the current Title II Benefit divided by the percentage increase to equal the benefit amount before the COLA change):

- a.
$$\frac{\text{Current Title II Benefit}}{1.059 \text{ (1/22 Increase)}} = \text{Benefit Before 1/22 COLA}$$
- b.
$$\frac{\text{Benefit Before 1/22 COLA}}{1.013 \text{ (1/21 Increase)}} = \text{Benefit Before 1/21 COLA}$$
- c.
$$\frac{\text{Benefit Before 1/21/ COLA}}{1.016 \text{ (1/20 Increase)}} = \text{Benefit Before 1/20 COLA}$$
- d.
$$\frac{\text{Benefit Before 1/20 COLA}}{1.028 \text{ (1/19 Increase)}} = \text{Benefit Before 1/19 COLA}$$

5. Medicare Premiums

a. Medicare Part B premium amounts:

1-1-22 \$170.10
 1-1-21...\$148.50
 1-1-20 \$144.60
 1-1-19 \$135.50
 1-1-18 \$134.00

Note: These figures are based on the individual becoming entitled to Medicare during the year listed. The individual's actual Medicare Part B premium may differ depending on when he became entitled to Medicare. **Verify the individual's Medicare Part B premium in SVES or SOLQ-I if it is necessary to know the premium amount for Medicaid eligibility or post-eligibility purposes.**

b. Medicare Part A premium amount:

1-1-22 \$499.00
 1-1-21 \$471.00
 1-1-20 \$458.00
 1-1-19 \$437.00
 1-1-18 \$422.00

Contact a Medical Assistance Program Consultant for amounts for years prior to 2016.

6. Evaluation

Individuals who are eligible when a cost-of-living increase is excluded are eligible.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date September 2012
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.204	Page 12

Individuals who are ineligible because of excess income after the cost-of-living increase(s) is excluded can only become Medicaid-eligible in another covered group. If they do not meet an F&C covered group, are not institutionalized, are not receiving CBC or do not have Medicare Part A, they must be determined eligible in a medically needy covered group.

The cost-of-living increase(s) is not excluded when determining income eligibility in ANY other covered group. However, these individuals must be identified for possible future protection as the SSI and AG income limits increase.

C. Entitlement & Enrollment

Eligible individuals in this group are entitled to full Medicaid coverage beginning the first day of the individual's application month if all eligibility requirements are met in that month. Retroactive coverage is applicable to this covered group.

The ACs are:

- 021 for an aged individual;
- 041 for a blind individual;
- 061 for a disabled individual.

D. Eligibility for Non-Protected Family Members

The amount of an SSA cost-of-living increase that must be excluded when determining eligibility for a former SSI recipient **cannot** be excluded when determining Medicaid eligibility of the individual's non-protected spouse and/or children living with the former SSI recipient.

The former SSI recipient is included in his/her non-protected spouse's unit if the non-protected spouse is aged, blind, or disabled.

The former SSI recipient is included as a member of the family unit when determining a child's eligibility in an F&C covered group. All of the protected recipient's income, including the cost-of-living increase(s), is counted.

M0320.204 PROTECTED WIDOWS OR WIDOWERS

A. Policy

Two groups of disabled widow(er)s who lost SSI eligibility because of receipt of or increase in Title II disabled widow(er)s' or Title II widow(er)'s benefits have their Medicaid categorically needy eligibility protected.

The first group consists of disabled widow(er)s who would be eligible for SSI except for the increase in disability benefits resulting from elimination of the reduction factor under P.L. 98-21 in January 1984.

The second group consists of (1) disabled widow(er)s age 60 through 64 years and (2) disabled widow(er)s age 50 through 59 years who would be eligible for SSI except for early receipt of Social Security benefits.

B. July 1989 Protected Widow(er)s

42 CFR 435.137 - A "July 1989 protected widow(er)" is an individual who became entitled to SSA benefits when he/she had attained age 50 but not age 60 years, and

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date September 2012
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.204	Page 13

- who applied for Medicaid before July 1, 1989,
- was entitled to monthly OASDI benefits under Title II of the Social Security Act for December 1983,
- was entitled to and received widow's or widower's disability benefits under section 202(e) or 202(f) of the Social Security Act for January 1984,
- lost SSI and/or AG because of the January 1984 increase in disabled widow(er)'s benefits due to elimination of the reduction factor,
- has been continuously entitled to an SSA widow(er)'s disability benefit under section 202(e) or 202(f) of the Social Security Act since the first month that increase was received, and
- would be eligible for SSI or AG if the amount of the increase and any subsequent COLAs in the widow(er)s' SSA benefits were excluded.

1. Nonfinancial Eligibility

Determine the widow(er)'s eligibility using the procedures below. The widow(er):

- applied for Medicaid as a protected individual prior to July 1, 1989;
- was entitled to and received a widow's or widower's benefit based on a disability under Section 202 (e) or (f) of the Social Security Act, for January 1984;
- became ineligible for SSI and/or AG payments because of the increase in the amount of his/her widow(er)'s benefit and:
 - the increase resulted from the elimination of the reduction factor for disabled widow(er)s entitled before age 60,
 - he/she became ineligible for SSI and/or AG payments in the first month in which that increase was paid to him/her, and
 - a retroactive payment of that increase for prior months was not made in that month;
- has been continuously entitled to a widow(er)'s disability benefit under Section 202 (e) or (f) of the Social Security Act from the first month that the increase in his/her widow(er)'s benefit was received;
- would be eligible for SSI or AG if the amount of that increase, and any subsequent cost-of-living adjustments (COLAs) in the widow(er)'s benefits, were deducted from his/her income.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date September 2012
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.204	Page 14

2. Financial Eligibility

a. Assistance Unit

Determine whose resources and income will be counted or deemed available according to the assistance unit policy in chapter M05.

b. Resource Eligibility

Resource eligibility is determined by comparing the widow(er)'s resources to the current Medicaid resource limit. Determine resources using policy in Chapter S11 (including the real property requirements that are more restrictive than SSI). If current resources are within the limit, go on to determine income eligibility.

If current resources are NOT within the limit, the individual is NOT eligible in this protected group; he/she may be eligible as *an MSP* (which has more liberal resource methods and standards).

c. Income Eligibility

- 1) If the individual received SSI (or SSI and AG) and is not currently residing in an approved AG home, the individual's gross SSA benefit amount that was effective in December 1983 plus other current countable income must be within the current SSI individual limit, or couple limit if the individual is married and living with his/her spouse. Calculate income according to the assistance unit policy in chapter M05. Instead of the protected individual's current SSA benefit amount, use the amount effective in December 1983.

Compare the total countable income to the appropriate SSI income limit. If countable income is within the SSI limit, the protected individual is eligible for Medicaid in this protected covered group.

- 2) If the individual received AG (or AG and SSI) and is currently residing in an approved AG home, the individual's income must be within the current AG limit (home's rate plus personal care allowance). Instead of the protected individual's current SSA benefit amount, use the amount effective in December 1983.

Compare the total countable income to the current AG limit (home's rate plus personal care allowance). If countable income is within that limit, the protected individual is eligible for Medicaid in this protected covered group.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date October 2016
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.204	Page 15

- 3) If the individual is not income-eligible, Medicaid eligibility may exist in another covered group. However, when determining eligibility in another covered group, count all current income including the current SSA benefit amount. If the individual does not meet an F&C covered group, is not institutionalized, is not receiving CBC or does not have Medicare Part A, he/she must be determined eligible in a medically needy covered group.

C. Protected Disabled Widow(er)

42 CFR § 435.138 specifies that categorically needy eligibility for Medicaid is protected for the group of disabled widow(er)s age 60 through 64 years who meet the criteria specified below. Under 42 USC § 1383c(d), Medicaid protected status was extended to the group of disabled widower(er)s age 50 through 59 years who meet the same criteria.

A protected disabled widow(er) is an individual who:

- is at least age 50 years (and has not attained age 65);
- is **not** eligible for Medicare Part A hospital insurance;
- becomes ineligible for SSI and/or AG because of mandatory application for and receipt of SSA Title II widow(er)'s disability benefits under section 202(e) or 202(f) of the Social Security Act (or any other provision of section 202 if they are also eligible for benefits under subsections (e) or (f) of the Act).
- would be eligible for SSI or AG if the SSA widow(er)'s benefit were excluded from income.

1. Nonfinancial Eligibility

The protected disabled widow(er) must:

- a. have received SSI and/or AG for the month before the month in which he/she began receiving SSA Title II disabled widow(er)'s benefits or widow(er)'s benefits;
- b. be eligible for SSI or AG if the SSA widow(er)s disability benefit were not counted as income.

2. Financial Eligibility

a. Assistance Unit

Determine whose resources and income will be counted or deemed available according to the assistance unit policy in chapter M05.

b. Resource Eligibility

Financial eligibility is determined by comparing the widow(er)'s resources to the current Medicaid resource limit. Determine resources using policy in Chapter S11 (including the real property requirements that are more restrictive than SSI). If current resources are within the limit, go on to determine income eligibility.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date October 2016
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.204	Page 16

If current resources are NOT within the limit, the individual is NOT eligible in this protected group; he/she may be eligible in an MSP covered group (which has more liberal resource methods and standards).

c. Income Eligibility

When determining a protected widow(er)'s eligibility in this covered group, the agency must deduct from the individual's income all of the Social Security benefits that made him or her ineligible for SSI.

- 1) If the individual received SSI (or SSI and AG) and is not currently residing in an approved AG home, the individual's SSA benefit that made him/her ineligible for SSI must be excluded. Other current countable income must be within the current SSI individual limit, or couple limit if the individual is married and living with his/her spouse. Exclude the protected individual's current SSA widow(er)'s benefit amount.

Compare the total countable income to the appropriate SSI income limit. If countable income is within the SSI limit, the protected individual is eligible for Medicaid in this protected covered group.

- 2) If the individual received AG (or AG and SSI) and is currently residing in an approved AG home, the individual's countable income must be within the current AG limit (home's rate plus personal care allowance). Exclude the protected individual's current SSA widow(er)'s benefit amount.

Compare the total countable income to the current AG limit (home's rate plus personal care allowance). If countable income is within that limit, the protected individual is eligible for Medicaid in this protected group.

- 3) If the individual is not income eligible, the individual must be evaluated for Medicaid eligibility in other covered groups. However, when determining eligibility in another covered group, count all current income including the current SSA benefit amount.

D. Entitlement & Enrollment

Eligible individuals in this group are entitled to full Medicaid coverage beginning the first day of the individual's application month if all eligibility requirements are met in that month. Retroactive coverage is applicable to this covered group.

The ACs are:

- 021 for an aged individual;
- 041 for a blind individual;
- 061 for a disabled individual.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date July 2018
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.205	Page 17

M0320.205 QUALIFIED SEVERELY IMPAIRED INDIVIDUALS (QSII)- 1619(B) STATUS

A. Introduction

42 CFR 435.121 - Under Section 1619(a) of the Social Security Act, a disabled individual who would otherwise lose SSI because of work and the demonstration of the ability to perform substantial gainful activity but continues to have a disabling impairment can continue to receive special SSI benefits if he continues to be financially eligible for SSI benefits based on income.

Section 1619(b) of the Act allows a disabled individual whose income is too high to retain financial eligibility for the special SSI benefit under Section 1619(a) and a blind individual who lost regular SSI payments to continue to receive Medicaid benefits under certain criteria specified in Section 1619(b).

The Social Security Administration (SSA) determines whether an individual who lost SSI because of earned income is eligible for 1619(b) status. The local department of social services determines whether an individual who has a 1619(b) status continues to be Medicaid eligible.

B. Identifying QSII Individuals

To identify a QSII individual, check the "Medicaid Test Indicator" field on the State Verification Exchange System (SVES) WMVE9068 screen *or the* SOLQ-I screen. If there is a code of A, B, or F, the individual has 1619(b) status.

Since eligibility for 1619(b) can change, check the SVES or SOLQ-I at each redetermination and when there is an indication that a change may have occurred.

C. Determining Eligibility

1. Nonfinancial Eligibility

The QSII individual must have been eligible for and receiving Medicaid coverage as an SSI recipient (must have met the more restrictive real property requirement) in the month immediately preceding the first month of the 1619(b) status. The "Current Pay Status Effective Date" field on the SVES WMVE9065 screen shows the first month of the 1619(b) status.

NOTE: If you cannot determine the first month of 1619(b) status, contact SSA.

2. Financial Eligibility

a. Resource Eligibility

Use the following to determine if the QSII recipient has real property resource(s):

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date October 2016
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.205	Page 18

- 1) equity in non-exempt property contiguous to the individual's home which exceeds \$5,000 and none of the real property exclusions in sections M1130.100, M1130.140, S1130.150, or M1130.160 are applicable to the property;
- 2) an interest in undivided heir property and the equity value of the individual's share that, when added to all other countable resources exceeds the appropriate Medicaid resource limit. (The interest in the estate must be legally available. If a partition suit is necessary to sell the interest, costs of partition and attorneys' fees may be deducted as described in M1120.215;
- 3) ownership (equity value) of an individual's former residence when the QSII recipient is in an institution for longer than 6 months. Determine if the former residence is excluded under policy in section M1130.100 D;
- 4) equity value in property owned jointly by the QSII recipient and another person who is not the individual's spouse as tenants in common or joint tenants with the right of survivorship at common law. Determine if any of the real property exclusions in sections M1130.100, M1130.140, S1130.150, or M1130.160 apply to the property;
- 5) other real property; determine if any of the real property exclusions in sections M1130.100, M1130.140, S1130.150, or M1130.160 apply to the property.

When a QSII recipient has any of the real property listed in 1) through 5) previously, ALL of the recipient's resources must be verified, evaluated, and counted together to determine if the recipient meets the Medicaid resource requirements. Calculate resources according to the assistance unit policy in chapter M05. If current resources are NOT within the limit, the individual is NOT eligible in this covered group; he/she may be eligible for Medicare Savings Program (MSP) limited-benefit Medicaid (which has more liberal resource methods and standards).

When a QSII recipient has no real property resource listed in 1) through 5) previously, do NOT determine the recipient's resources. The QSII recipient meets the Medicaid resource requirements because his resource eligibility for QSII has been determined by SSA and he does not have a real property resource as listed previously.

b. Income Eligibility

There are no income eligibility requirements for QSII individuals once they have been determined eligible as 1619(b).

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date September 2012
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.206	Page 19

D. Entitlement & Enrollment

Eligible individuals are entitled to full Medicaid coverage. The *ACs* are:

- 21 for an aged individual;
- 41 for a blind individual; or
- 61 for a disabled individual.

E. Individuals Ineligible as QSII

Individuals who are ineligible as QSII because they:

- did not receive Medicaid in the month immediately preceding the month in which SSA first determined them eligible under 1619(b) or
- lost 1619(b) status

must be evaluated for Medicaid eligibility in other covered groups.

NOTE: An individual who has 1619(b) status continues to meet the disabled definition. An individual who no longer has 1619(b) status may not meet the disabled definition.

M0320.206 PROTECTED ADULT DISABLED CHILDREN

A. Policy

Section 1634(c) of the Social Security Act was amended in 1987 (P.L. 99-643 §6(b)) to state that if any individual who has attained the age of 18 and is receiving benefits under Title XVI (the Supplemental Security Income program) on the basis of blindness or a disability which began before he or she attained the age of 22

- becomes entitled, on or after the effective date of this subsection (July 1, 1987), to child's insurance benefits which are payable under section 202(d) on the basis of such disability or to an increase in the amount of the child's insurance benefits which are so payable; and
- ceases to be eligible for SSI because of such child's insurance benefits under the title or because of the increase in such child's insurance benefits,

shall be treated as receiving SSI benefits for Medicaid eligibility purposes so long as he/she would be eligible for SSI in the absence of such child's insurance benefits or such increase.

B. Nonfinancial Eligibility

A protected adult disabled child is one who:

- has reached the age of 18 years and receives SSI payments on the basis of blindness or a disability which began before he or she reached the age of 22 years;
- on or after July 1, 1987, becomes entitled to SSA Title II disabled child's insurance benefits on the basis of such disability, or receives an increase in Title II disabled child's insurance benefits;

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date October 2016
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.206	Page 20

- becomes ineligible for SSI on or after July 1, 1987 because of the receipt of, or increase in, Title II disabled child's benefits;
- has resources within the current Medicaid resource limit; and
- has income which, in the absence of the Title II disabled child's benefit, or in the absence of the increase in such benefit, is within the current SSI income limit.

C. Financial Eligibility

Determine whose resources and income will be counted or deemed available according to the assistance unit policy in chapter M05.

1. Resources

Financial eligibility is determined by comparing the protected individual's resources to the current Medicaid resource limit. Determine resources using policy in Chapter S11 (including the real property requirements that are more restrictive than SSI). Calculate resources according to the assistance unit policy in chapter M05. If current resources are within the limit, go on to determine income eligibility.

If current resources are NOT within the limit, the individual is NOT eligible in this protected covered group; he/she may be eligible in an MSP covered group (which has more liberal resource methods and standards).

2. Income

a. Receipt of SSA Child's Benefits Causes SSI Ineligibility

If the individual began receiving adult disabled child's benefits and this receipt caused SSI ineligibility, then the entire adult disabled child's benefit amount and any subsequent increases in the benefit are excluded when determining the individual's countable income.

In determining whether the adult disabled child's income, in absence of the Title II adult disabled child's benefit is within the current SSI income limit, all of the adult disabled child's other current countable income must be within the current SSI individual limit, or couple limit if the individual is married and living with his/her spouse. Calculate income according to the assistance unit policy in chapter M05, including deeming of parent(s)' income when the individual is under age 21 and living with a parent(s). **Exclude all of the protected individual's current SSA adult disabled child's benefit amount.**

Compare the total countable income to the appropriate SSI income limit. If countable income is within the SSI limit, the protected individual is eligible for Medicaid in this protected covered group.

If countable income exceeds the SSI limit, determine the individual's eligibility in another Medicaid covered group.

b. Increase In SSA Child's Benefits Causes SSI Ineligibility

If the individual received an increase in disabled child's benefits and this increase caused SSI ineligibility, only the increase which caused SSI

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date April 2019
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.207	Page 21

ineligibility is excluded when determining the individual's countable income. Calculate income according to the assistance unit policy in chapter M05, including deeming of parent(s)' income when the individual is under age 21 and living with a parent(s). Exclude the amount of the increase which caused SSI ineligibility.

- 1) Compare the total countable income to the appropriate SSI income limit. If countable income is within the SSI limit, the protected individual is eligible for Medicaid in this protected covered group.

In this situation, the adult disabled child received SSI and SSA concurrently, and lost SSI because of an increase in SSA disabled child's benefits. The amount of the increase that caused SSI ineligibility is excluded. No subsequent increases in the disabled child's benefit are excluded when reviewing the individual's eligibility as a protected adult disabled child. However, if the protected adult disabled child becomes ineligible for Medicaid, evaluate his/her Medicaid eligibility as a protected former SSI recipient using the policy and procedures in Section M0320.201 of this chapter.

- 2) If countable income exceeds the SSI limit, determine the individual's eligibility in another covered group. If the individual does not meet an F&C MI covered group, is not institutionalized, is not receiving CBC or does not have Medicare Part A, he/she must be evaluated in a medically needy covered group.

D. Entitlement & Enrollment

Eligible individuals in this group are entitled to full Medicaid coverage beginning the first day of the individual's application month if all eligibility requirements are met in that month. Retroactive coverage is applicable to this covered group.

The ACs are:

- 021 for an aged individual;
- 041 for a blind individual;
- 061 for a disabled individual.

M0320.207 PROTECTED SSI DISABLED CHILDREN

A. Introduction

The Balanced Budget Act of 1997 (P.L. #105-33) created a new covered group which protects Medicaid eligibility for disabled children who received SSI, whose SSI is canceled solely because the children do not meet the SSI definition of childhood disability (revised per section 211(a) of the Personal Responsibility and Work Opportunity Act of 1996), and who would be paid SSI but for the change in the childhood disability definition.

Note: The group of Protected SSI Disabled Children is no longer applicable as all affected children are over age 18; however, it remains in federal regulations.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date January 2021
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.207	Page 22

B. Nonfinancial Eligibility Requirements

To be eligible in this protected covered group, the protected SSI disabled child must

- have had his/her SSI canceled solely because he/she does not meet the SSI definition of childhood disability (revised per section 211(a) of the Personal Responsibility and Work Opportunity Act of 1996);
- continue to meet the SSI childhood disability definition and regulations that were in effect prior to the effective date of the change in the disability definition (August 22, 1996); and
- be under age 18 years.

Note: All affected children are now over age 18 years.

1. Disability Determination Referral to Disability Determination Services (DDS)

An SSI disabled child is presumed to meet the childhood disability definition in effect prior to August 22, 1996, until he/she reaches age 18 years, unless there is an improvement in the child's condition. If the child's condition improves, complete

- DDS Referral Form, available on SPARK at <https://fusion.dss.virginia.gov/bp/BP-Home/Medical-Assistance/Forms>
- the Disability Report Child (SSA-3820-BK), available at <http://www.socialsecurity.gov/online/ssa-3820.pdf> and
- a minimum of 3 signed, original Authorization to Disclose Information to the Social Security Administration forms (SSA-827), available at <http://www.socialsecurity.gov/online/ssa-827.pdf> or a form for each medical provider if more than 3. "General Authorization for Medical Information" (form #032-03-311) for each medical practitioner reported by the individual on the report.

Send the report(s) and authorization forms to the DDS.

2. DDS Decision

If the DDS decides that the child continues to meet the childhood disability definition in effect prior to August 22, 1996, the child continues eligible in the protected group of SSI disabled children, provided the child meets the financial eligibility requirements in item C. below.

If the DDS decides that the child no longer meets the childhood disability definition in effect prior to August 22, 1996, the child no longer meets the protected group of SSI disabled children. Determine the child's eligibility in another covered group. If the child is not eligible in any covered group, send an advance notice to the authorized representative and take action to cancel the child's Medicaid coverage.

C. Financial Eligibility Procedures

1. Assistance Unit

Follow the policy and procedures in M0530.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date September 2012
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.300	Page 23

2. Resource Eligibility

Resource eligibility is determined by comparing the SSI disabled child's countable resources to the current ABD Medicaid resource limit. Determine resources using policy in Chapter S11 (including the real property requirements that are more restrictive than SSI). Calculate resources according to the assistance unit policy in subchapter M0530. If current resources are within the limit, go on to determine income eligibility.

If current resources are NOT within the limit, the child is NOT eligible in the protected SSI disabled children covered group; he/she may be eligible as *FAMIS Plus* (see M0330.300) if he/she is under age 19 years.

3. Income Eligibility

Income eligibility is determined by comparing the SSI disabled child's income to the current SSI payment limit for an individual. Determine countable income using policy in Chapter S08. Calculate income according to the assistance unit policy in subchapter M0530. If countable income is within the SSI payment limit, the child is eligible for Medicaid in the covered group of protected SSI disabled children.

D. Entitlement & Enrollment

Children eligible for Medicaid in the covered group of protected SSI disabled children are entitled to full Medicaid coverage beginning the first day of the individual's application month if all eligibility requirements are met in that month. Retroactive coverage is applicable to this covered group.

Eligible protected SSI disabled children are enrolled with program designation "61."

M0320.300 ABD WITH INCOME \leq 80% FEDERAL POVERTY LIMIT (FPL)

A. Policy

Section 1902(m) of the Social Security Act allows a State to provide full Medicaid benefits to the categorically needy covered group of aged, blind and disabled individuals whose income is less than or equal to a percentage of the federal poverty limit (FPL).

The 2000 Appropriations Act mandated that effective July 1, 2001, the State Plan for Medical Assistance be amended to add the covered group of aged, blind and disabled individuals with income less than or equal to 80% FPL.

An eligible individual's resources must be within the SSI resource limits.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date July 2021
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.400	Page 24

B. Financial Eligibility

1. **Assistance Unit** The assistance unit policy and procedures in chapter M05 apply to ABD individuals with income less than or equal to 80% FPL. If not institutionalized, deem or count any resources and income from the individual's spouse with whom he lives. If institutionalized with a community spouse, go to subchapter M1480.
2. **Resources** The resource limit is \$2,000 for an individual and \$3,000 for a couple.
The resource requirements in chapter S11 and Appendix 2 to chapter S11 apply to this covered group.
All of the individual's resources must be verified and evaluated. All nonexempt resources must be added together to determine if the individual meets the Medicaid resource requirements.
3. **Income** The income limits are \leq 80% of the FPL and are in section M0810.002. The income requirements in chapter S08 must be met.
4. **Income Exceeds 80% FPL** **Spenddown does not apply** to this covered group. If the individual's income exceeds the 80% FPL limit, he is not eligible in this covered group. Determine the individual's eligibility in all other Medicaid covered groups.

D. Entitlement

If all eligibility factors are met in the application month, entitlement to full Medicaid coverage in this covered group begins the first day of the application month.

ABD individuals in this covered group are entitled to retroactive coverage if they meet all the requirements in the retroactive period.

E. Enrollment

The ABD 80% group AC is:

- 029 for an aged individual;
- 039 for a blind individual;
- 049 for a disabled individual; or
- 109 for all incarcerated individuals.

M0320.400 MEDICAID WORKS

A. Policy

The Appropriations Act of 2006 authorized an amendment to the Virginia State Plan for Medical Assistance that allows disabled (including blind) individuals to work and earn higher income while retaining Medicaid coverage. This program is called MEDICAID WORKS and includes individuals:

- at least age 16 and are under age 65, **and**
- who have countable income less than or equal to 80% FPL.
Effective July 1, 2021, the income limit is 138% FPL.
or
- or who are SSI recipients or 1619(b) individuals), **and**
- who have countable resources less than or equal to \$2,000 for an individual and \$3,000 for a couple; **and**

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date July 2020
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.400	Page 25

- who are working or have a documented date for employment to begin in the future.

These individuals can retain Medicaid coverage by cost-sharing through the payment of a premium as long as they remain employed and their earned income is less than or equal to \$6,250 per month. This type of cost-sharing arrangement is known as a **Medicaid** buy-in (MBI) program. MEDICAID WORKS is Virginia's MBI program.

**B. Relationship Between
MEDICAID
WORKS and 1619(b)
Status**

An individual with SSI or eligible for Medicaid as a Qualified Severely Impaired Individual (QSII) (1619(b)) meet the income requirement for entry into MEDICAID WORKS and must not be discouraged from enrolling in MEDICAID WORKS. An individual who meets the criteria for 1619(b) status may choose to participate in MEDICAID WORKS because of the higher resource limit.

**C. Nonfinancial
Eligibility**

The individual must also meet the following additional nonfinancial criteria:

- The individual must be competitively employed in an integrated setting. Work must occur in a work setting in the community or in a personal business alongside people who do not have disabilities. Work performed in a sheltered workshop or similar setting is **not** considered competitive employment in an integrated setting. Contact a Regional Medical Assistance Program Consultant if there is a question about whether the employment meets the criteria for MEDICAID WORKS.
- The individual must receive pay at the minimum wage or at the prevailing wage or "going rate" in the community, and the individual must provide documentation that payroll taxes are withheld. Self-employment must be documented according to the policy contained in S0820.210.
- The individual must establish a Work Incentive (WIN) Account at a bank or other financial institution, such as a checking or savings account. The individual must provide documentation for the case record designating the account(s) as a WIN Account. The account must either be a new account or an existing account with *only the wages earned while in MEDICAID WORKS deposited into it. Increases in an enrollee's Social Security Disability benefits resulting from employment as a MEDICAID WORKS participant OR as a result of a COLA adjustment to the Social Security Disability benefits may also be deposited into the WIN account and will be excluded as described in M0320.400 D.3.b.3) as long as the increase is regularly deposited upon receipt into the WIN account.* The WIN account cannot contain the individual's *other* Social Security benefits.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date July 2021
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.400	Page 26

- All individuals requesting enrollment in MEDICAID WORKS must also sign a MEDICAID WORKS Agreement, available at <https://fusion.dss.virginia.gov/bp/BP-Home/Medical-Assistance/Forms>. The agreement outlines the individual's responsibilities as an enrollee in the program.

The individual must participate in cost sharing through the payment of a monthly premium to the Department of Medical Assistance Services. Note: Monthly premiums are not being charged at this time.

D. Financial Eligibility

1. Assistance Unit

Initial eligibility determination

In order to qualify for MEDICAID WORKS, the individual must meet the assistance unit policy and procedures in chapter M05 that apply to *ABD non-institutionalized individuals*. Individuals receiving SSI or who have 1619(b) status also meet the income requirement for entry into MEDICAID WORKS.

*Income from a non-ABD spouse, non-applicant/member ABD spouse, or parents is **not** considered deemable income and is not counted for the initial eligibility determination for individuals requesting to participate in MEDICAID WORKS.*

Resources from the individual's spouse with whom he lives or, if under age 21, the individual's parents with whom he lives, must be deemed available.

b. Ongoing eligibility

Once the individual is enrolled in MEDICAID WORKS, **the individual is treated as an assistance unit of one**. Spousal and parental resources and income are disregarded for ongoing enrollee eligibility.

2. Resources

a. Initial eligibility determination

For the initial eligibility determination, the resource limit is \$2,000 for an individual and \$3,000 for a couple. Resources must be evaluated for all individuals, including SSI recipients and QSII/(1619(b) individuals, who wish to qualify for MEDICAID WORKS. The resource requirements in chapter S11 and Appendix 2 to chapter S11 apply for the initial eligibility determination. The individual's countable, nonexempt resources must be verified. All countable resources, must be added together to determine if the individual's countable resources are within the limit.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date January 2022
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.400	Page 26a

b. Ongoing eligibility

Once the individual is enrolled in MEDICAID WORKS, the following resource policies apply:

- 1) For **earnings** accumulated **after** enrollment in MEDICAID WORKS, up to the current 1619(b) income threshold amount will be disregarded if deposited and retained in the WIN Account. The current 1619(b) threshold amount is \$46,340.
- 2) Resources accumulated while in MEDICAID WORKS and held in Internal Revenue Service (IRS)-approved retirement accounts, medical or health savings accounts, medical reimbursement (flex) accounts, education accounts, independence accounts, and other similar State-approved accounts are excluded. Examples of these accounts include Archer Medical Savings Accounts, 401(k)/403(b)/457(b)/503(b) accounts, traditional Individual Retirement Accounts (IRAs), Roth IRAs, SEP-IRAs, SIMPLE IRAs, and Thrift Savings Plans. The account must be designated as a WIN Account in order to be excluded. **Resources accumulated while in MEDICAID WORKS and held in IRS-approved accounts that have been designated as WIN**

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date April 2022
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.400	Page 27

Accounts are also excluded in all future Medicaid determinations for former MEDICAID WORKS enrollees. The account must be exclusively used to hold resources accumulated while in MEDICAID WORKS (including interest) in order for the exclusion to continue.

- 3) For **all** other resources, the resource requirements in chapter S11 and Appendix 2 to chapter S11 apply. All of the individual's countable, nonexempt resources must be verified and evaluated.

All nonexempt resources must be added together to determine if the individual meets the Medicaid resource requirements. The resource limit for resources not excluded in 1) or 2) above is \$2,000 for an individual.

3. Income

a. Initial eligibility determination

For the initial eligibility determination on or after July 1, 2021, the limit for total countable income (unearned and earned) is less than or equal to 138% of the FPL (\$1,563 per month for an individual or \$2,106 when the applicant has an ABD spouse who is also applying for or covered by Medicaid). The income requirements in chapter S08 must be met. Individuals who receive SSI or who have 1619(b) status are considered to meet the income requirements and no evaluation of income is necessary for the initial eligibility determination (see M0320.101).

b. Ongoing eligibility

Once the individual is enrolled in MEDICAID WORKS, the following income policies apply:

- 1) The income limit for earned income is \$6,250 per month (\$75,000 per year) (no change for 2022) as long as the funds are deposited in a WIN Account. The policy for determining countable earned income is contained in subchapter S0820.

If the individual is self-employed, net earnings from self-employment (NESE) must be demonstrated through documentation of Internal Revenue Service (IRS) filings, quarterly estimated taxes, business records, and/or business plans. The individual's signed allegation of self-employment is acceptable if no other evidence of NESE can be obtained. Follow the policy in S0820.220 for determining NESE.

- 2) The income limit for unearned income remains less than or equal to 138% of the FPL. The policy for determining countable unearned income is contained in subchapter S0830.
- 3) Any increase in an enrollee's Social Security Disability benefits resulting from employment as a MEDICAID WORKS participant OR as a result of a COLA adjustment to the Social Security Disability benefits will not be counted as long as the increase is regularly deposited upon receipt into the individual's WIN account.
- 4) Unemployment insurance benefits received due to loss of employment through no fault of the individual's own are not counted during the six-month safety net period (see M0320.400 G) as income as long as the payments are regularly deposited upon receipt into the individual's WIN account.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date July 2021
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.400	Page 28

**4. Income Exceeds
138% FPL at
Eligibility
Determination**

Spendedown does not apply to the Medicaid Works covered group. Therefore, admission into MEDICAID WORKS is not available to individuals whose income exceeds 138% of the FPL. Evaluate the individual's eligibility in all other Medicaid covered groups.

**E. Cost Sharing and
Premium Payment**

Cost sharing is required of all individuals enrolled in MEDICAID WORKS. Enrollees are responsible for copayments for services received (see M1850.100 B).

Premiums are assessed on a sliding scale based on the individual's income and are subject to change. Based on the sliding scale, some individuals may not owe a premium.

Note: premiums are not being charged at this time.

F. Good Cause

An individual may remain eligible for MEDICAID WORKS if one of the following good cause exceptions is met:

- If the individual is unable to maintain employment due to illness or unavoidable job loss, the individual may remain in MEDICAID WORKS for up to six months as long as any **required** premium payments continue to be made. The six-month period begins the first day of the month following the month in which the job loss occurred. The individual should be asked to provide documentation that he is unable to work from a medical or mental health practitioner or employer. However, do not cancel the individual's eligibility under MEDICAID WORKS due to the lack of documentation if the individual indicates that he is still seeking employment.
- DMAS may establish other good cause reasons. Requests for good cause other than the temporary loss of employment due to a documented illness or unavoidable job loss must be submitted to DMAS on the enrollee's behalf by the local department of social services.

G. Safety Net

Enrollees who are unable to sustain employment for longer than six months must be evaluated for continued coverage in all other Medicaid covered groups for which the individual meets the definition. Resources held in the WIN Account that are accumulated from the enrollee's earnings while in MEDICAID WORKS will be disregarded up to the 1619(b) threshold amount for this eligibility determination.

If found eligible and enrolled in another Medicaid covered group, the individual shall have a "safety-net" period of up to one year from MEDICAID WORKS termination and enrollment in another group to dispose of these excess resources before they are counted toward ongoing eligibility.

If the individual resumes working within the safety-net period, he may be re-enrolled in MEDICAID WORKS provided that all eligibility requirements are met, except that the resources in the WIN Account are disregarded up to the 1619(b) threshold amount. If the individual wishes to be re-enrolled in MEDICAID WORKS after the one-year safety net period, any resources retained in the WIN Account are countable.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date July 2021
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.400	Page 29

Resources accumulated while in MEDICAID WORKS and retained in an IRS-approved account described in M0320.400 D. 2. b. 2) that has been designated as a WIN Account are excluded in all future Medicaid determinations for former MEDICAID WORKS enrollees.

H. Benefit Package

Individuals enrolled in MEDICAID WORKS are entitled to the standard benefits available to full-benefit Medicaid enrollees (see Chapter M18), as well as Personal Assistance Services; MEDICAID WORKS enrollees do **not** have a patient pay. Intensive Behavioral Dietary Counseling is also covered for MEDICAID WORKS enrollees when a physician determines that the service is medically necessary.

I. Entitlement and Enrollment

Entitlement for MEDICAID WORKS is dependent upon meeting the requirements listed above.

There is no retroactive coverage under MEDICAID WORKS. The application date in the Virginia Case Management System (VaCMS) is the date the individual signed the MEDICAID WORKS Agreement. Coverage shall begin on the first day of the month following the month in which all requirements are met. If the applicant has a future start date for employment, the effective date of eligibility shall be no earlier than the first day of employment. However, unless employment begins on the first day of the month, MEDICAID WORKS enrollment will begin on the first of the following month.

The AC for MEDICAID WORKS is 059. Use the following procedures to enroll the individual in VaCMS:

New Application – Applicant is *Disabled* and enrolled in Medicaid

1. For the month of application and any retroactive months in which the person is eligible, enroll the individual in *the appropriate* AC in a closed period of coverage, beginning the first day of the month in which eligibility exists. The cancel date is the last day of the month in which the MEDICAID WORKS Agreement was signed. Use Cancel Code 042.
2. Reinstate the individual's coverage in MEDICAID WORKS using AC 059 beginning the first day of the following month (the first day of the month following the month in which the MEDICAID WORKS Agreement is signed). Use the same application date (the actual date of the initial application) that was used for the month of application.

DMAS approval is not required for participation in MEDICAID WORKS; however, information must be sent to DMAS after the individual is enrolled for tracking purposes. Use the MEDICAID WORKS Email Cover Sheet available at <https://fusion.dss.virginia.gov/bp/BP-Home/Medical-Assistance/Forms>, and **email** it together with the following information to DMAS at **dmasevaluation@dmass.virginia.gov**:

- the signed MEDICAID WORKS Agreement,
- the Work Incentive Account (WIN) information (a bank account statement or verification from the bank that the account was opened), and
- one of the following verifications of employment:
 - a pay stub showing current employment or
 - an employment letter with start date or
 - self-employment document(s).

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date July 2022
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.500	Page 30

Current Enrollee

1. Cancel current coverage using Cancel Code 042.
2. Reinstate in AC 059 beginning the first day of the following month. **Use the date the MEDICAID WORKS Agreement was signed for the application date.**

Send a Notice of Action to the applicant/recipient advising him of his eligibility and acceptance into MEDICAID WORKS. Do not send the Advance Notice of Proposed Action when a recipient moves to MEDICAID WORKS, because his Medicaid coverage has not been reduced or terminated.

Eligibility for MEDICAID WORKS continues as long as the enrollee continues to:

- be employed,
- meet the definition of disability or blindness,
- meet the age limitation, and
- does not exceed the income and resource limits for MEDICAID WORKS.

The MEDICAID WORKS enrollee continues to meet the disability criteria as long as SSA has not completed a Continuing Disability Review and has not determined that the individual no longer has a disabling condition. The fact that the MEDICAID WORKS enrollee is earning over the SSA substantial gainful activity amount has no bearing on whether he meets the disability criteria. If the enrollee's disability status is unclear, contact a Regional Medical Assistance Program Consultant for assistance.

The individual's continuing eligibility must be determined at least every 12 months.

If the individual is no longer eligible for MEDICAID WORKS, the eligibility worker must determine whether the individual remains eligible in any other covered group. **The policy in M0320.400 G above must be reviewed to determine whether the resource exclusion safety net rules apply.** If the individual is not eligible for Medicaid in any other covered group, coverage shall be cancelled effective the first of the month following the expiration of the 10-day advance notice.

M0320.500 300% of SSI INCOME LIMIT GROUPS

A. Introductions

The 300% of SSI income limit groups are for individuals who meet the definition of an institutionalized individual or have been *authorized* for long-term care (LTC) services (see M1410. B. 2) and are not eligible in any other full-benefit Medicaid covered group.

B. Covered Groups

- M0320.501 ABD in a Medical Institution, Income \leq 300% of SSI
- M0320.502 ABD Receiving Medicaid Waiver Services (CBC)
- M0320.503 ABD Hospice

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date July 2022
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.501	Page 31

M0320.501 ABD IN MEDICAL INSTITUTION, INCOME ≤ 300% SSI LIMIT

A. Policy

42 CFR 435.236 - The state plan includes the covered group of aged, blind or disabled individuals in medical institutions who

- meet the Medicaid resource requirements, and
- have income that does not exceed 300% of the SSI individual payment limit (see M0810.002 A. 3).

Individuals who are *authorized* for nursing facility care prior to admittance and are likely to receive the services for 30 days or more consecutive days may also be included in this covered group.

B. Financial Eligibility

1. Asset Transfer

The individual must meet the asset transfer policy in subchapter M1450.

2. Resources

a. Resource Eligibility – Married Individual

If the individual is married, use the resource policy in subchapter M1480. Evaluate countable resources using ABD resource policy in chapter S11.

If current resources are within the limit, go on to determine income eligibility.

If current resources are NOT within the limit, the individual is NOT eligible in this covered group; he may be eligible in an MSP covered group (which has more liberal resource methods and standards).

b. Resource Eligibility - Unmarried Individual

All of the individual's resources must be verified, evaluated, and counted together to determine if the individual meets the Medicaid resource requirements. Pay close attention to:

- 1) equity In non-exempt property contiguous to the individual's home which exceeds \$5,000 and none of the real property exclusions in sections M1130.100, M1130.140, S1130.150, or M1130.160 apply to the property; and
- 2) ownership of his/her former residence when the individual is in an institution for longer than 6 months. Determine if the former home is excluded in M1130.100 D.

If the individual is a blind or disabled child, DO NOT DEEM any resources or income from the child's parent; count only actual resources the parent makes available to the child. If current resources are within the limit, go on to determine income eligibility.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date April 2013
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.501	Page 32

If current resources are NOT within the limit, the individual is NOT eligible in this covered group; he/she may be eligible in an MSP covered group (which has more liberal resource methods and standards).

3. Income

To determine if an individual has income within the 300% of SSI limit, use **gross** income, not countable income. Determine what is income according to chapter S08 and subchapter M1460.

DO NOT subtract the \$20 general exclusion or any other income exclusions. The individual is an assistance unit of 1 person. DO NOT DEEM any income from the individual's spouse or parent.

Compare the total gross income to the 300% of SSI limit (see M0810.002 A. 3). If countable income is equal to or less than this limit, the individual is eligible for Medicaid in this covered group.

If the total gross income exceeds this limit, the individual is not eligible for Medicaid in this covered group. Evaluate his/her eligibility as medically needy.

C. Entitlement & Enrollment

Eligible individuals in this group are entitled to full Medicaid coverage beginning the first day of the individual's application month if all eligibility requirements are met in that month. Retroactive coverage is applicable to this covered group.

If the individual has Medicare Part A, re-calculate the individual's income - subtract appropriate exclusions. Compare the countable income to the QMB *and* SLMB limits.

1. Dual-eligible As QMB or SLMB

If the individual is also a Qualified Medicare Beneficiary (QMB) *or* Special Low Income Medicare Beneficiary (SLMB) - the individual has Medicare Part A and has countable income within the QMB *or* SLMB income limits - the AC is:

- 022 for an aged individual also QMB;
- 042 for a blind individual also QMB;
- 062 for a disabled individual also QMB;
- 025 for an aged individual also SLMB;
- 045 for a blind or disabled individual also SLMB.

2. Not QMB or SLMB

If the individual is NOT a QMB or SLMB - the individual does NOT have Medicare Part A, OR has countable income over the QMB *and* SLMB income limits - the AC is:

- 020 for an aged individual NOT also QMB *or* SLMB;
- 040 for a blind individual NOT also QMB *or* SLMB;
- 060 for a disabled individual NOT also QMB *or* SLMB.

D. Ineligible In This Covered Group

If the individual is not eligible for Medicaid in this covered group because of income, determine the individual's eligibility as medically needy spenddown. If the individual is not eligible for Medicaid in this covered group because of resources, determine the individual's eligibility as QMB, SLMB, QDWI or QI if he/she has Medicare Part A.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date July 2022
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.502	Page 33

M0320.502 ABD RECEIVING MEDICAID WAIVER SERVICES (CBC)

A. Policy

42 CFR 435.217 - The state plan includes the covered group of aged, blind or disabled individuals in the community who

- would be eligible for Medicaid if institutionalized;
- are *authorized* to receive Medicaid waiver services and have selected the option to receive Medicaid waiver services in lieu of nursing facility services;
- in the absence of the waiver services would require the level of care furnished in a hospital, nursing facility or ICF-MR; and
- have income that does not exceed 300% of the SSI individual payment limit (see M0810.002 A. 3).

Do not wait until the individual starts to receive the waiver services to determine eligibility in this covered group. Determine eligibility in this covered group if the individual is *authorized* (see subchapter M1420) to receive Medicaid waiver services and has selected the option to receive Medicaid waiver services in lieu of nursing facility services. Presume the individual will receive the services and go on to determine financial eligibility using the policy and procedures in C. below.

If the individual's eligibility was determined as an institutionalized individual prior to the receipt of waiver services, the EW must verify the receipt of Medicaid CBC services within 30 days of the date of the Notice of Action on Medicaid. If Medicaid CBC services did not start within 30 days of the date of the Notice of Action on Medicaid, the individual's continued eligibility must be re-evaluated as a non-institutionalized individual.

B. Financial Eligibility

1. Asset Transfer

The individual must meet the asset transfer policy in subchapter M1450.

2. Resources

a. Resource Eligibility - Unmarried Individual

All of the individual's resources must be verified, evaluated, and counted together to determine if the individual meets the Medicaid resource requirements in chapter S11 (ABD Resources). Pay close attention to:

- 1) equity in non-exempt property contiguous to the individual's home which exceeds \$5,000 and none of the real property exclusions in sections M1130.100, M1130.140, S1130.150, or M1130.160 apply to the property, and
- 2) ownership of his/her former residence when the individual has been away from his home property for longer than 6 months. Determine if the home property is excluded in M1130.100.

DO NOT DEEM any resources from a blind or disabled child's parent

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date April 2013
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.502	Page 34

living in the home. Count actual resources the parent makes available to the child.

If current resources are within the limit, then determine income eligibility.

If current resources are NOT within the limit, the individual is NOT eligible for Medicaid in this covered group.

b. Resource Eligibility - Married Individual

If the individual is married and has a community spouse, use the resource policy in subchapter M1480. If the individual is married, but has no community spouse, use the resource policy in subchapter M1460. Evaluate countable resources using ABD resource policy in chapter S11.

If current resources are within the limit, then determine income eligibility.

If current resources are NOT within the limit, the individual is NOT eligible in this covered group; he/she may be eligible in an MSP covered group (which has more liberal resource methods and standards).

3. Income

To determine if an individual has income within the 300% of SSI limit, use **gross** income, not countable income. Determine what is income according to chapter S08 and subchapter M1460.

DO NOT subtract the \$20 general exclusion or any other income exclusions. The individual is an assistance unit of 1 person. DO NOT DEEM any income from the individual's spouse or parent.

Compare the total gross income to the 300% of SSI limit (see M0810.002 A. 3). If countable income is equal to or less than this limit, the individual is eligible for Medicaid in this covered group.

If the total gross income exceeds this limit, the individual is not eligible for Medicaid in this covered group. Evaluate his/her eligibility as medically needy.

C. Entitlement & Enrollment

Eligible individuals in this group are entitled to full Medicaid coverage beginning the first day of the individual's application month if all eligibility requirements are met. Retroactive coverage does not apply to this covered group because an individual cannot be eligible in this covered group until he/she applies for Medicaid. [The individual cannot have received Medicaid covered waiver services in the retroactive period because he was not receiving Medicaid on or before the date he applied.]

If the individual has Medicare Part A, re-calculate the individual's income - subtract the appropriate exclusions. Compare the countable income to the QMB and SLMB limits.

1. Dual-eligible As QMB or SLMB

If the individual is also a Qualified Medicare Beneficiary (QMB) or Special Low Income Medicare Beneficiary (SLMB) - the individual has Medicare Part A and has countable income within the QMB or SLMB income limits - the AC is:

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date January 2019
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.503	Page 35

- 022 for an aged individual also QMB;
- 042 for a blind individual also QMB;
- 062 for a disabled individual also QMB;
- 025 for an aged individual also SLMB;
- 045 for a blind or disabled individual also SLMB.

2. Not QMB or SLMB

If the individual is NOT a QMB or SLMB - the individual does NOT have Medicare Part A, OR has countable income over the QMB and SLMB income limits - the AC is:

- 020 for an aged individual NOT also QMB or SLMB;
- 040 for a blind individual NOT also QMB or SLMB;
- 060 for a disabled individual NOT also QMB or SLMB.

D. Ineligible In This Covered Group

If the individual is not eligible for Medicaid in this covered group because of income, determine the individual's eligibility as medically needy spenddown. Determine the individual's eligibility as QMB, SLMB, QDWI or QI if he/she has Medicare Part A.

M0320.503 ABD HOSPICE

A. Policy

SMM 3580-3584 - The state plan includes the covered group of aged, blind or disabled individuals who are terminally ill and elect hospice benefits.

The ABD Hospice covered group is for individuals who have a signed a hospice election statement in effect for at least 30 consecutive days, and who are not eligible in any other full-benefit Medicaid covered group. Hospice care is a covered service for individuals in all full-benefit covered groups; individuals who need hospice services but who are eligible in another full-benefit covered group do not meet the Hospice covered group.

Individuals receiving hospice services in the ABD Hospice Covered group may also receive services the *Commonwealth Coordinated Care Plus (CCC Plus)* Waiver, if the services are authorized by the Department of Medical Assistance Services (DMAS) (see M1440.101).

The individual must elect hospice care. Election of hospice care is verified either verbally or in writing from the hospice. If the verification is verbal, document the case record. Eligibility in the Hospice covered group is ongoing as long as the individual continues to receive hospice care, subject to a renewal of eligibility at least once every 12 months. The eligibility worker must verify that the hospice agreement is current at the time of the annual Medicaid renewal.

The 30-day requirement begins on the day the hospice care election statement is signed. Once the hospice election has been in effect for 30 consecutive days, the 300% of SSI income limit is used to determine Medicaid eligibility. If the individual's income is within 300% of SSI, eligibility in the Hospice covered group may be determined beginning with the month in which the hospice election was signed.

Individuals who already meet the definition of institutionalization in M1410.010 B.2 at the time of hospice election meet the 30-day requirement, provided there is no break between institutionalization and hospice election.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date April 2013
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.503	Page 36

Individuals who meet the Hospice covered group may have their eligibility determined using the same financial requirements as institutionalized individuals.

B. Financial Eligibility

1. Asset Transfer

The individual in the hospice covered group must meet the asset transfer policy in subchapter M1450.

2. Resources

The hospice services recipient is an assistance unit of 1 person. All of the individual's resources must be verified, evaluated, and counted together to determine if the individual meets the Medicaid resource requirements.

If current resources are within the limit, go on to determine income eligibility.

If current resources are NOT within the limit, the individual is NOT eligible for Medicaid in this covered group. He/she may be eligible in *an MSP* covered group (which has more liberal resource methods and standards).

a. Unmarried Individual

If the individual is unmarried or is married and has no community spouse, use the resource policy in chapter S11 and subchapter M1460.

b. Married Individuals

If the individual is married and has a community spouse, use the resource policy in chapter S11 and subchapter M1480.

3. Income

To determine if an individual has income within the 300% of SSI limit, use **gross** income, not countable income. Determine what is income according to chapter S08 and subchapter M1460.

DO NOT subtract the \$20 general exclusion or any other income exclusions. The individual is an assistance unit of 1 person. DO NOT DEEM any income from the individual's spouse or parent.

Compare the total gross income to the 300% of SSI limit (see M0810.002 A. 3). If countable income is equal to or less than this limit, the individual is eligible for Medicaid in this covered group.

If the total gross income exceeds this limit, the individual is not eligible for Medicaid in this covered group. Evaluate his/her eligibility as medically needy.

C. Entitlement

Eligible individuals in this group are entitled to full Medicaid coverage beginning the first day of the month in which all eligibility requirements are met. Retroactive coverage is applicable to this covered group.

If the individual has Medicare Part A, re-calculate the individual's income, applying the appropriate exclusions. Compare the countable income to the QMB *and* SLMB limits.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date January 2019
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.503	Page 37

D. Enrollment

Eligible individuals must be enrolled in the appropriate AC. If the individual is aged, blind, or disabled as defined in M0310, he is enrolled under the AC. **AC (054) is used for “deemed-disabled” individuals only.** Use the appropriate Hospice AC when the individual is also authorized to receive *CCC Plus* waiver services.

For individuals who are ABD and entitled/enrolled in Medicare Part A, income must be recalculated (allowing appropriate disregards) to determine if the individual is dually eligible as a QMB or SLMB.

1. ABD Individual**a. Dual-eligible As QMB or SLMB**

If the individual is also a Qualified Medicare Beneficiary (QMB) or Special Low Income Medicare Beneficiary (SLMB) - the individual has Medicare Part A and has countable income within the QMB or SLMB income limits - the AC is:

- 022 for an aged individual also QMB;
- 042 for a blind individual also QMB;
- 062 for a disabled individual also QMB
- 025 for an aged individual also SLMB;
- 045 for a blind or disabled individual also SLMB.

b. Not QMB or SLMB

If the individual is NOT a Qualified Medicare Beneficiary (QMB) the individual does NOT have Medicare Part A, OR has countable income over the QMB income limit – the AC is:

- 020 for an aged individual NOT also QMB or SLMB;
- 040 for a blind individual NOT also QMB or SLMB;
- 060 for a disabled individual NOT also QMB or SLMB.

2. “Deemed” Disabled Individual

An individual who is “deemed” disabled based on the hospice election is enrolled using AC 054. Individuals in this AC who have also been approved to receive services under the EDCD Waiver do not need a disability determination.

E. Post-eligibility Requirements (Patient Pay)

A patient pay must be calculated for individuals who receive hospice services in a nursing facility (see subchapter M1470). Individuals who receive hospice services outside of a nursing facility do not have a patient pay.

Individuals who have elected hospice services and who also receive services available under the *CCC Plus* Waiver must have a patient pay calculation for the *CCC Plus* services (see subchapter M1470).

F. Ineligible In This Covered Group

There is no corresponding medically needy hospice covered group. If the individual is aged or has been determined blind or disabled, the individual must be evaluated in a medically needy covered group for medically needy spenddown.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date September 2012
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.601	Page 38

M0320.600 MEDICARE SAVINGS PROGRAM (MSP)

A. Introductions

The Medicare Saving Program is limited Medicaid coverage for individuals who are eligible for Medicare Part A and have income and resources within specific limits.

B. Covered Groups

- M0320.601 QMB
- M0320.602 SLMB
- M0320.603 QI

M0320.601 QUALIFIED MEDICARE BENEFICIARY (QMB)

A. Policy

42 CFR 435.121 - Qualified Medicare Beneficiaries are a mandatory CN covered group. Medicaid will pay the Medicare Part A premium (as well as the Part B premium) and deductibles and coinsurance for individuals eligible as QMB only.

A QMB is an individual who:

- is entitled to Medicare Part A hospital insurance benefits, but not entitled solely because he/she is eligible to enroll in Part A under section 1818A of the Act (1818A is applicable to QDWI);
- has resources that are within the resource limits for the Medicare Savings Programs (MSPs). See section M1110.003 for the current resource limits; and
- has income that does not exceed 100% of the federal poverty level (FPL).

B. Nonfinancial Eligibility

1. Entitled to Medicare Part A

The individual must be entitled to or must be enrolled in Medicare Part A. The individual does not have to be aged, blind or disabled. However, Medicare entitlement is limited to individuals who are age 65 or older, or who have received Title II social security benefits because of a disability for 24 months, or who have end stage renal (kidney) disease.

Enrollment in Part A of Medicare is verified by the individual's Medicare card, or by communication (such as SVES) with the Social Security Administration (SSA).

2. Individual Not Currently Enrolled In Medicare Part A

Individuals who are not currently enrolled in Medicare Part A must apply for and enroll in Medicare Part A at the local Social Security Administration (SSA) office, and must present verification of Medicare Part A enrollment to the local department of social services (DSS) in order to be eligible for

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date October 2016
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.601	Page 39

Medicaid as QMB.

If an individual appears to be eligible for Medicare but is not enrolled in Medicare, refer him to the SSA district office to apply for Medicare enrollment.

If an individual must pay a monthly premium for Medicare Part A, and cannot afford the premium, the SSA office will give the individual a bill for the premium when the individual is enrolled. The individual must present this bill and the Medicare Part A enrollment verification to the local DSS worker in order to be eligible for Medicaid as a QMB.

NOTE: A disabled working individual who is enrolled or is eligible to enroll in Medicare Part A under Section 1818A of the Social Security Act **cannot** be enrolled as a QMB; he may be eligible as a Qualified Disabled and Working Individual (QDWI). See M0320.604 below for information on the QDWI covered group.⁰

3. Verification Not Provided

If the applicant does not provide information documenting enrollment in Medicare Part A within the application processing time standard, he is not eligible for Medicaid as QMB, but may be eligible for Medicaid in another covered group.

C. Financial Eligibility

1. Assistance Unit

The assistance unit policy in chapter M05 applies to QMBs.

If the QMB individual is living with his spouse who is aged, blind, or disabled, but does not have Medicare Part A, and both apply for Medicaid, two different financial calculations must be completed for the unit because of the different income limits used in the eligibility determinations. One is the MSP QMB determination; the other is for the ABD spouse's CN or MN covered group.

2. Resources

The resource requirements in chapter S11 and Appendix 2 to chapter S11 must be met by the MSP Medicare beneficiary. Some of the real and personal property requirements are different for QMBs. The different requirements are identified in Appendix 2.

The resource limit for an individual is the resource limit for the MSPs. See section M1110.003 for the current resource limits.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date October 2019
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.601	Page 40

3. Income

The income requirements in chapter S08 must be met by QMBs. The income limits are in M0810.002. By law, for QMBs who have SSA benefits, the new QMB income limits are effective the first day of the second month following the month in which the federal poverty limit is updated. For QMBs who do NOT have SSA benefits, the new QMB income limits are effective the date the updated FPL is published. Local DSS are notified each year of the new FPL via the broadcast system. Check that system to ascertain when the SSA COLA must be counted in determining QMB income eligibility.

4. Income Exceeds QMB Limit

Spenddown does not apply to the MSP income limits. If the individual's income exceeds the QMB limit, he is not eligible as QMB and cannot spenddown to the QMB limit. Determine the individual's eligibility in the SLMB covered group below in M0320.602.

At application and renewal, if the eligible QMB individual's resources are within the medically needy limit and the individual meets a MN covered group, place the individual on two 6-month spenddown based on the MN income limit.

D. QMB Entitlement

Entitlement to Medicaid coverage for QMB only begins the first day of the month **following** the month in which Medicaid eligibility as a QMB is *determined and approved*, **not** the month of application. See M1520.102.A.2.

Because QMB coverage does not begin until the month following the month in which eligibility is *determined and approved*, an applicant who is eligible for QMB coverage must apply for Extra Help in order to receive the subsidy for the month of QMB approval. See chapter M20 for more information on Extra Help.

Retroactive eligibility does **not** apply to the QMB covered group. To be eligible for Medicaid in the retroactive period, and in the application month, a QMB must meet the requirements of another Medicaid covered group.

E. Enrollment

1. Aid Categories

The following ACs are used to enroll individuals who are only eligible as QMBs; they do not meet the requirements of another covered group:

- 023 for an aged QMB only;
- 043 for a blind QMB only;
- 063 for a disabled or end-stage renal disease QMB only.

2. Enrollee's Covered Group Changes To QMB

If a Medicaid enrollee becomes **ineligible** for full-coverage Medicaid because of an increase in income or resources, but is eligible as a QMB, the agency must send an advance notice of proposed action to the enrollee because services are being reduced. The notice must specify that he will remain eligible only for payment of Medicare premiums, deductibles and coinsurance amounts as a QMB.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date January 2017
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.601	Page 41

Cancel the enrollee's full coverage effective the last day of the month, using cancel reason "007." Reinstatement the enrollee's coverage with the begin date as the first day of the month following the cancellation effective date. The AC is QMB-only.

3. QMB Becomes Eligible For Full Coverage

When an enrolled QMB-only becomes eligible in another covered group which has full Medicaid coverage, except when he/she meets a spenddown, e.g., a QMB-only individual's resources change to below the MN limits:

- cancel the QMB-only coverage effective the last day of the month immediately **prior** to the month in which he/she became eligible in the full coverage covered group, using cancel reason "024";
- reinstate the enrollee's coverage with the begin date as the first day of the month in which he/she became eligible in the full coverage covered group, with the appropriate full coverage AC.

4. Spenddown Status

At application and redetermination, eligible QMBs who meet an MN covered group and who have resources that are within the lower MN resource limits are placed on two 6-month medically needy spenddowns. All spenddown periods are based on the application or renewal date, as appropriate. See M1370.

In order to be placed on spenddown, QMBs with end-stage renal disease must meet a medically needy covered group.

5. QMB Meets Spenddown

When an eligible QMB meets the spenddown, cancel the QMB-only coverage effective the day before the spenddown was met, using cancel reason "024". Reinstatement the enrollee's coverage with the first date the spenddown was met as the begin date of coverage, and enter the end date of the spenddown period as the end date of coverage. The aid category is medically needy dual-eligible:

- 028 for an aged MN individual also eligible as QMB;
- 048 for a blind MN individual also eligible as QMB;
- 068 for a disabled MN individual also eligible as QMB.

6. Spenddown Period Ends

After the spenddown period ends, reinstate the QMB-only coverage using the appropriate QMB-only AC. The begin date of the reinstated coverage is the first day of the month following the end of the spenddown period, and the application date is the date of the original application used to determine the initial QMB eligibility.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date September 2012
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.602	Page 42

**7. QMB Enters
Long-term Care**

The enrollment of a QMB who is admitted to long-term care and who becomes eligible for Medicaid in another covered group is handled like a QMB who meets a spenddown. Cancel the QMB-only coverage effective the last day of the month before the month of admission to long-term care, reason "024". Reinstate the coverage with the begin date as the first day of the month of admission to long-term care.

M0320.602 SPECIAL LOW INCOME MEDICARE BENEFICIARY (SLMB)

A. Policy

1902(a)(10)(E)(iii) and 1905(p)(3)(A)(ii) of the Act - Coverage of Special Low-income Medicare Beneficiaries is mandated by the federal Medicaid law. Medicaid will only pay the Medicare Part B premium for individuals eligible as SLMB.

An SLMB is an individual who meets all of the eligibility requirements for QMB (M0320.601 above) EXCEPT for income that exceeds the QMB limit but is less than the higher limit for SLMB. Like QMBs, eligible SLMBs who meet an MN covered group are also placed on a medically needy spenddown if resources are within the medically needy limit.

An SLMB individual

- is entitled to Medicare Part A hospital insurance benefits, but not entitled solely because he/she is eligible to enroll in Part A under section 1818A of the Act (1818A is applicable to QDWI);
- has resources that are within the resource limits for the Medicare Savings Programs (MSPs). See section M1110.003 for the current resource limits; and
- has income that exceeds the QMB limit (100% of the FPL) but is less than 120% of the FPL.

B. Nonfinancial Eligibility

1. Entitled to Medicare Part A

The individual must be entitled to or must be enrolled in Medicare Part A. The individual does not have to be aged, blind or disabled.

Enrollment in Part A of Medicare is verified by the individual's Medicare card, or by communication (such as SVES) with the Social Security Administration (SSA).

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date October 2016
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.602	Page 43

2. Individual Not Currently Enrolled In Medicare Part A

Individuals who are not currently enrolled in Medicare Part A must apply for and enroll in Medicare Part A at the local Social Security Administration (SSA) office, and must present verification of Medicare Part A enrollment to the local department of social services (DSS) in order to be eligible for Medicaid as SLMB.

If an individual appears to be eligible for Medicare but is not enrolled in Medicare, refer him/her to the SSA district office to apply for Medicare enrollment.

If an individual must pay a monthly premium for Medicare Part A, and cannot afford the premium, the SSA office will give the individual a bill for the premium when the individual is enrolled. The individual must present this bill and the Medicare Part A enrollment verification to the local DSS worker in order to be eligible for Medicaid as an SLMB.

NOTE: A disabled working individual who is enrolled or is eligible to enroll in Medicare Part A under Section 1818A of the Social Security Act **cannot** be enrolled as SLMB; he/she may be eligible as a Qualified Disabled and Working Individual (QDWI). See M0320.604 below for information on the QDWI covered group.

3. Verification Not Provided

If the applicant does not provide information documenting enrollment in Medicare Part A within the application processing time standard, he/she is not eligible for Medicaid as SLMB, but may be eligible in another covered group.

C. Financial Eligibility

1. Assistance Unit

The assistance unit policy in chapter M05 applies to SLMBs.

If the SLMB individual is living with his/her spouse who is aged, blind, or disabled, but does not have Medicare Part A, and both apply for Medicaid, two different financial calculations must be completed for the unit because of the different income limits used in the eligibility determinations. One is the MSP SLMB determination; the other is for the ABD spouse's CN or MN covered group.

2. Resources

The resource requirements in chapter S11 and Appendix 2 to Chapter S11 must be met by the SLMB. Some of the real and personal property requirements are different for SLMBs. The different requirements are identified in Appendix 2.

The resource limits are the resource limits for the Medicare Savings Programs (MSPs). See section M1110.003 for the current resource limits.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date January 2017
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.602	Page 44

3. Income

The income requirements in chapter S08 must be met by SLMBs. The income limits for SLMBs are in M0810.002. An SLMB's income must exceed the QMB limit and must be less than the SLMB limit.

By law, for SLMBs who have Title II benefits, the new SLMB income limits are effective the first day of the second month following the month in which the federal poverty limit is updated. For SLMBs who do NOT have Title II benefits, the new SLMB income limits are effective the date the updated federal poverty level is published.

Local DSS are notified each year of the new poverty limits via the broadcast system. Check that system to ascertain when the Title II COLA must be counted in determining SLMB income eligibility.

4. Income Equals or Exceeds SLMB Limit

Spenddown does not apply to the MSP income limits. If the individual's income is equal to or exceeds the SLMB limit, he/she is not eligible as SLMB and cannot spenddown to the SLMB limit. At application and redetermination, if the individual's resources are within the medically needy limit and the individual meets a medically needy covered group, place the individual on two 6-month spenddowns based on the MN income limit.

D. SLMB Entitlement

If all eligibility factors are met in the application month, entitlement to Medicaid as an SLMB begins the first day of the application month.

SLMBs are entitled to retroactive coverage if they meet all the SLMB requirements in the retroactive period. However, coverage under this group cannot begin earlier than January 1, 1993.

The eligible SLMB will only receive Medicaid payment of his/her Medicare Part B premium through the Medicaid Buy-In Agreement with SSA. **The SLMB will not receive a Medicaid card.**

E. Enrollment

1. Aid Category

The AC for all SLMBs is "053".

2. Enrollee's Covered Group Changes To SLMB

If a Medicaid recipient becomes ineligible for full-coverage Medicaid or QMB-only coverage because of an increase in income, but is eligible as an SLMB, the agency must send an advance notice of proposed action to the enrollee because services are being reduced. The notice must specify that he will remain eligible only for payment of Medicare Part B premiums as an SLMB.

Cancel the enrollee's full coverage effective the last day of the month, using cancel reason "007." Reinstate the enrollee's coverage with the begin date as the first day of the month following the cancellation effective date. The aid category (AC) is "053."

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date January 2017
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.602	Page 45

- 3. SLMB Becomes Eligible for Full Coverage**

When an enrolled SLMB becomes eligible in another covered group which has full Medicaid coverage, except when he/she meets a spenddown, e.g., an SLMB's resources change to below the MN limits:

 - cancel the SLMB coverage effective the last day of the month immediately prior to the month in which he/she became eligible in the full coverage covered group, using cancel reason "024";
 - reinstate the enrollee's coverage with the begin date as the first day of the month in which he/she became eligible in the full coverage covered group, with the appropriate full coverage AC.

- 4. Spenddown Status**

At application and redetermination, eligible SLMBs who meet an MN covered group and who have resources that are within the lower MN resource limits are also placed on two 6-month MN spenddowns.

All spenddown periods are based on the application or renewal date, as appropriate. See M1370.

SLMBs who are not determined disabled must be determined disabled or blind, or must be pregnant, under age 18 or under age 21 if in foster care or adoption assistance in order to meet a medically needy covered group for spenddown.

- 5. SLMB Meets Spenddown**

When an SLMB meets a spenddown, cancel his AC "053" coverage effective the date before the spenddown was met, using cancel reason "024". Reinstate the enrollee's coverage with the first date the spenddown was met as the begin date of coverage, and enter the end date of the spenddown period as the end date of coverage. The AC is medically needy dual-eligible as SLMB Plus:

 - 024 for an aged MN individual also eligible as SLMB;
 - 044 for a blind or disabled MN individual also eligible as SLMB.

- 6. Spenddown Period Ends**

After the spenddown period ends, reinstate the SLMB-only coverage using the AC 053.

The begin date of the reinstated AC 053 coverage is the first day of the month following the end of the spenddown period, and the application date is the date of the original application used to determine the initial SLMB eligibility.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date June 2016
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.603	Page 46

7. SLMB Enters Long-term Care

- The enrollment of an SLMB who is admitted to long-term care and who becomes eligible for Medicaid in the 300% of SSI covered group is handled like an SLMB who meets a spenddown. Cancel the SLMB-only coverage effective the last day of the month before the month of admission to long-term care, reason "024". Reinstatement the coverage with the begin date as the first day of the month of admission to long-term care using the appropriate AC for SLMB Plus.
- 025 for an aged individual also SLMB;
- 045 for a blind or disabled individual also SLMB.

M0320.603 QUALIFIED INDIVIDUAL (QI)

A. Policy

P.L. 105-33 (Balanced Budget Act of 1997) mandated Medicaid coverage of Qualified Individuals who would be QMBs except that their income exceeds the QMB income limit. Implemented on January 1, 1998, individuals in the QI covered group receive Medicaid coverage for the payment of their Medicare Part B premium.

Prior to 2015, funding for the QI covered group was subject to annual availability by Congress. QI funding became permanent in 2015, and the QI covered group is subject to the same policies regarding entitlement and enrollment as the SLMB covered group.

A QI

- is entitled to Medicare Part A hospital insurance benefits, but not entitled to Medicare Part A solely because he/she is a QDWI (enrolled in Part A under section 1818A of the Act);
- has resources that are within the resource limits for the Medicare Savings Programs (MSPs). See chapter section M1110.003 for the current resource limits; and
- has income that is equal to or exceeds the SLMB limit (120% of the FPL) but is less than the QI limit (135% of the FPL).

B. Nonfinancial Eligibility

1. Entitled to Medicare Part A

The QI must be entitled to or must be enrolled in Medicare Part A. The individual does not have to be aged, blind or disabled.

Enrollment in Part A of Medicare is verified by the individual's Medicare card, or by communication (such as SVES) with the Social Security Administration (SSA).

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date June 2016
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.603	Page 47

2. Individual Not Currently Enrolled In Medicare Part A

Individuals who are not currently enrolled in Medicare Part A must apply for and enroll in Medicare Part A at the local Social Security Administration (SSA) office, and must present verification of Medicare Part A enrollment to the local department of social services (DSS) in order to be eligible for Medicaid as a QI.

If an individual appears to be eligible for Medicare but is not enrolled in Medicare, refer him/her to the SSA district office to apply for Medicare enrollment.

If an individual must pay a monthly premium for Medicare Part A, and cannot afford the premium, the SSA office will give the individual a bill for the premium when the individual is enrolled. The individual must present this bill and the Medicare Part A enrollment verification to the local DSS worker in order to be eligible for Medicaid as a QI.

NOTE: A disabled working individual who is enrolled or is eligible to enroll in Medicare Part A under Section 1818A of the Social Security Act **cannot** be enrolled as a QI; he/she may be eligible as a Qualified Disabled and Working Individual (QDWI). See M0320.604 below for information on the QDWI covered group.

3. Verification Not Provided

If the applicant does not provide information documenting enrollment in Medicare Part A within the application processing time standard, he/she is not eligible for Medicaid as a QI, but may be eligible in another covered group.

C. Financial Eligibility

1. Assistance Unit

The ABD assistance unit policy in chapter M05 applies to *QIs*.

If the QI is living with his/her spouse who is aged, blind, or disabled, but does not have Medicare Part A, and both apply for Medicaid, two different financial calculations must be completed for the unit because of the different income limits used in the eligibility determinations. One is the QI determination; the other is for the ABD spouse's CN or MN covered group.

2. Resources

The resource requirements for QMBs in chapter S11 and Appendix 2 to Chapter S11 must be met by the QI.

The resource limits for QI are the resource limits for the MSPs. See section M1110.003 for the current resource limits.

3. Income

The income requirements in chapter S08 must be met by the QI. The income limits for QIs are in M0810.002. A QI's countable income must exceed the SLMB limit and must be less than the QI limit.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date October 2016
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.603	Page 48

By law, for QIs who have Title II benefits, the new income limits are effective the first day of the **second** month following the month in which the federal poverty limit is updated. For QIs who do NOT have Title II benefits, the new income limits are effective the date the updated federal poverty limit is published. Local DSS are notified each year of the new poverty limits via the broadcast system. Check that system to ascertain when the Title II COLA must be counted in determining QI income eligibility.

**4. Income Within
QI Limit**

When the individual's countable income is equal to or more than 120% of the FPL and is less than 135% of FPL (the QI limit), the individual is eligible for Medicaid as a QI. Go to subsection D below. If the individual's resources are within the MN limit and the individual meets a MN covered group, place the individual on two (2) 6-month spenddowns based on the MN income limit for his locality. See M0320.603 E.5 below.

**5. Income Equals
or Exceeds QI
Limit**

If the individual's income is equal to or exceeds the QI limit (135% of FPL), he/she is not eligible as QI.

D. QI Entitlement

If all eligibility factors are met in the application month, entitlement to Medicaid as a QI begins the first day of the application month. QIs are entitled to retroactive coverage if they meet all the QI requirements in the retroactive period.

E. Enrollment

1. Aid Category

The AC for all QIs is 056.

**2. Enrollee's
Covered Group
Changes To QI**

If Medicaid recipient becomes ineligible for full-coverage Medicaid but is eligible as a QI, the agency must send an advance notice of proposed action to the recipient because services are being reduced. The notice must specify that he will remain eligible only for payment of Medicare Part B premiums as a QI.

Cancel the recipient's full coverage effective the last day of the month, using cancel reason 007. Reinstate the recipient's coverage with the begin date as the first day of the month following the cancellation effective date. Specify the appropriate QI AC.

**3. Spenddown
Status**

At application and redetermination, eligible QIs who meet an MN covered group and who have resources that are within the lower MN resource limits are placed on two 6-month MN spenddowns. All spenddown periods are based on the application or renewal date, as appropriate. See M1370.

QIs who have not been determined disabled must be determined disabled or blind, or must be pregnant, under age 18 or under age 21 if in foster care or adoption assistance in order to meet a medically needy covered group for spenddown.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date June 2016
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.603	Page 49

4. ***QI Meets Spenddown*** *When a QI meets a spenddown, cancel his AC 056 coverage effective the day before the spenddown was met, using cancel reason 024. Reinstate the recipient's coverage with the first date the spenddown was met as the begin date of coverage, and enter the end date of the spenddown period as the end date of coverage, using the appropriate AC:*

- *018 for an aged MN individual;*
- *038 blind MN individual*
- *058 for a disabled MN individual.*

5. ***Spenddown Period Ends*** *After the spenddown period ends, reinstate the QI coverage using AC 056.*
- The begin date of the reinstated QI coverage is the first day of the month following the end of the spenddown period, and the application date is the date of the original application used to determine the initial QI eligibility.*

6. ***QI Enters LTC or Otherwise Becomes Eligible for Full Coverage*** *When an enrolled QI becomes institutionalized or eligible in another covered group which has full Medicaid coverage, cancel the QI coverage effective the last day of the month immediately prior to the month in which he became eligible in the full coverage covered group, using cancel reason 024. Reinstate the coverage with the begin date as the first day of the month of admission to long-term care using the appropriate AC for the full-coverage group.*

H. Covered Service

The eligible QI will only receive Medicaid payment of his/her Medicare Part B premium through the Medicaid Buy-In Agreement with SSA. The QI will not receive a Medicaid card.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date June 2016
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.604	Page 50

M0320.604 QDWI (QUALIFIED DISABLED & WORKING INDIVIDUALS)

A. Policy

42 CFR 435.121 - Coverage of Qualified Disabled & Working Individuals is mandated by the federal Medicaid law. Medicaid will only pay the Medicare Part A premium for individuals eligible as QDWI.

B. Nonfinancial Eligibility

1. Definition Requirements

The individual must:

- be less than 65 years of age.
- be employed.
- have been entitled to Social Security disability benefits and Medicare Part A but lost entitlement solely because earnings exceeded the substantial gainful activity (SGA) amount.
- continue to have the disabling physical or mental impairment or be blind as defined by SSI and Medicaid but because he/she is working and earning income over the SGA limit does not meet the disability definition.
- be eligible to enroll or be enrolled in Medicare Part A (hospital insurance) under Section 1818A of the Social Security Act.
- not be eligible for Medicaid in any other covered group.

The above definition requirements must be verified by the Social Security Administration (SSA). The individual must be enrolled in Medicare Part A under Section 1818-A of the Social Security Act. Enrollment in Part A of Medicare is verified by the individual's Medicare card, or by communication (such as SVES) with SSA.

NOTE: Blind individuals who lose SSA and Medicare because of earnings over SGA still meet the blind category for Medicaid purposes. Therefore, a blind individual whose countable income is within the medically needy, or QMB limits cannot be eligible as a qualified disabled and working individual.

2. Verification Not Provided

If the applicant does not provide information documenting enrollment in Medicare Part A within the application processing time standard, he/she is not eligible for Medicaid as QDWI, but may be eligible in another covered group.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date October 2016
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.604	Page 51

C. Financial Eligibility

The assistance unit policy in chapter M05 applies to QDWIs.

1. Assistance Unit

If the QDWI individual is living with his/her spouse who is aged, blind, or disabled, but does not have Medicare Part A, and both apply for Medicaid, two different financial calculations must be completed for the unit because of the different income limits used in the eligibility determinations. One is the QDWI determination; the other is for the ABD spouse's covered group.

2. Resources

The resource requirements in chapter S11 and Appendix 1 to Chapter S11 must be met by the QDWI Medicare beneficiary. Some of the real and personal property requirements are different for QDWIs. The different requirements are identified in Chapter S11, Appendix 1.

The resource limit for an individual is \$4,000 (twice the SSI resource limit for an individual); the resource limit for a couple is \$6,000 (twice the SSI resource limit for a couple).

3. Income

QDWIs must meet the income requirements in chapter S08. The income limits are in M0810.002. QDWIs do not receive Title II benefits.

4. Income Exceeds QDWI Limit

Spenddown does not apply to the MSP income limits. If the individual's income exceeds the QDWI limit, he/she is not eligible as QDWI and cannot spenddown to the QDWI limit. At application and redetermination, if the individual's resources are within the medically needy limit and the individual meets a medically needy covered group, place the individual on two 6-month spenddowns based on the MN income limit.

D. Entitlement

Entitlement to Medicaid as a QDWI begins the first day of the month in which the Medicaid application is filed, if all eligibility factors are met in that month, including enrollment in Medicare Part A under Section 1818A of the Social Security Act. Retroactive entitlement, up to three months prior to application, is applicable if all QDWI eligibility criteria were met during the period.

If the individual is not enrolled in Medicare Part A under Section 1818A as of the month he/she meets the Medicaid eligibility requirements, the individual's entitlement to Medicaid cannot begin until the first day of the month in which his Medicare Part A enrollment under Section 1818A is effective.

The eligible QDWI will only receive Medicaid payment of his/her Medicare Part A premium through the Medicaid Buy-In Agreement with SSA. **The QDWI will not receive a Medicaid card.**

E. Enrollment

1. Aid Category

The AC for all QDWIs is "055."

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date January 2017
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.604	Page 52

2. Enrollee's AC Changes To QDWI

An enrolled enrollee's AC cannot be changed to AC "055" using a "change" transaction in *VaCMS*. If a Medicaid enrollee becomes ineligible for full-coverage Medicaid, but is eligible as a QDWI, the agency must send an advance notice of proposed action to the enrollee because services are being reduced. The notice must specify that he will remain eligible only for payment of Medicare Part A premiums as a QDWI.

Cancel the enrollee's full coverage effective the last day of the month, using cancel reason "007." Reinstatement the enrollee's coverage as QDWI with the begin date as the first day of the month following the cancellation effective date. AC is "055."

3. QDWI's AC Changes To Full Coverage AC

When an enrolled QDWI becomes eligible in another covered group which has full Medicaid coverage (except when he/she meets a spenddown); e.g., he/she is no longer able to work and starts to receive SSA and SSI disability benefits:

- cancel the QDWI coverage effective the last day of the month immediately prior to the month in which he/she became eligible in the full coverage covered group, using cancel reason "024;"
- reinstate the enrollee's coverage with the begin date as the first day of the month in which he/she became eligible in the full coverage covered group, with the appropriate full coverage AC.

4. Spenddown Status

Eligible QDWIs who meet an MN covered group and who have resources that are within the lower MN resource limits are also placed on two 6-month medically needy spenddowns.

5. QDWI Meets Spenddown

When a QDWI meets a spenddown, cancel his AC "055" coverage effective the date before spenddown was met using cancel reason "024." Reinstatement coverage as medically needy beginning the day the spenddown was met and ending the last day of the spenddown budget period.

The AC is NOT dual-eligible:

- 018 for an aged MN individual NOT eligible as QMB;
- 038 for a blind MN individual NOT eligible as QMB;
- 058 for a disabled MN individual NOT eligible as QMB.

6. Spenddown Period Ends

After the spenddown period ends, reinstate the QDWI-only coverage using the AC "055."

The begin date of the reinstated AC "055" coverage is the first day of the month following the end of the spenddown period, and the application date is the date of the original application used to determine the initial QDWI eligibility.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date September 2012
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.700	Page 53

**7. QDWI Enters
Long-term Care**

The enrollment of a QDWI who is admitted to long-term care and who becomes eligible for Medicaid in another covered group is handled like a QDWI who meets a spenddown. Cancel the QDWI-only coverage effective the last day of the month before the admission to long-term care, reason “024.” Reinstatement the coverage with the begin date as the first day of the month of admission to long-term care.

M0320.700 MEDICALLY NEEDY (MN) GROUPS

A. Introduction

**1. Medically Needy
Individuals**

All medically needy covered groups are optional; the federal Medicaid law does not require the state to cover the MN groups in its Medicaid State Plan. Virginia has chosen to cover *individuals who*

- *meet all the nonfinancial requirements in chapter M02,*
- *meet the “Aged,” “Blind” or “Disabled” definitions in subchapter M0310,*
- *have countable resources within the MN resource limits,*
- *are not financially eligible in a full-benefit CN covered group; and*
- *have insufficient income to meet their medical care needs.*

**2. Spenddown
Feature**

The major feature of the MN covered groups is a spenddown. An individual who meets the nonfinancial and MN resource eligibility requirements but whose income exceeds the MN income limit may “spenddown” the excess income by deducting incurred medical expenses and become eligible for a limited period of MN Medicaid coverage. An individual who has excess income becomes eligible when he/she has incurred medical expenses equal to the difference between his/her income and the MN income limit.

**3. Different Benefit
Package**

Some medical services that are covered for the CN covered groups are not available to the MN groups. ICF-MR services and IMD services are not covered for MN eligibles. However, the basic services such as inpatient and outpatient hospital, physicians, X-rays, prescription drugs, home health services and Medicare premiums, coinsurance and deductibles are covered for the MN. LTC nursing facility and most *CBC* waiver services are also covered for the MN.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date October 2013
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.701	Page 54

B. ABD MN Covered Groups

The ABD MN covered groups are:

- M0320.701 ABD
- M0320.702 December 1973 Eligibles

M0320.701 ABD MN INDIVIDUALS

A. Legal Base

The federal authority for covering ABD MN individuals is found in 42CFR435.330.

B. Financial Eligibility

1. Assistance Unit

The assistance unit policy and procedures in chapter M05 apply to ABD MN. If married and not institutionalized, deem or count any resources and income from the individual's spouse with whom he/she lives. If married and institutionalized, go to subchapter M1480 for resource and income determination policy and procedures.

2. Resources

All of the individual's resources must be verified, evaluated, and counted together to determine if the individual meets the Medicaid resource requirements. The resources policy in chapter S11 applies.

If current resources are within the limit, go on to determine income eligibility.

If the individual is not eligible because of excess real property contiguous to the home, and he/she meets a medically needy Families & Children (F&C) definition, determine if the individual meets an F&C covered group since the F&C home property definition is more liberal for F&C. If the individual is not eligible because of other excess resources, he or she is not eligible as MN.

3. Income

Determine gross income according to chapter S08. Subtract the \$20 general exclusion and other exclusions. Compare the total countable income to the MN income limit for the individual's locality group (see section S0810.002) and calculate the MN spenddown amount. See chapter M13 for spenddown policy and procedures.

4. Income Eligibility

An individual becomes eligible in this MN covered group when he/she has incurred medical expenses equal to the difference between his/her income and the MN income limit (spenddown).

C. Entitlement

Individuals who become eligible after meeting a spenddown are entitled to full Medicaid coverage beginning the day the spenddown was met and ending the last day of the sixth month in the spenddown budget period. Retroactive coverage is applicable to this covered group.

Note: Individuals receiving LTC services are placed on monthly spenddowns (see M1460.700).

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date October 2016
Subchapter Subject M0320.000 AGED, BLIND & DISABLED GROUPS	Page ending with M0320.702	Page 55

D. Enrollment

Eligible individuals in this group are classified as medically needy (MN). If the individual has Medicare Part A, compare the individual's countable income to the QMB and SLMB limits.

The following ACs are used when the individual is ABD MN and QMB or SLMB:

- 028 for an aged individual also QMB;
- 048 for a blind individual also QMB;
- 068 for a disabled individual also QMB;
- 024 for an aged MN individual also SLMB;
- 044 for a blind or disabled MN individual also SLMB.

The following ACs are used when the individual is ABD MN and not QMB or SLMB:

- 018 for an aged individual NOT QMB or SLMB;
- 038 for a blind individual NOT QMB or SLMB;
- 058 for a disabled individual NOT QMB or SLMB.

D. Referral to Health Insurance Marketplace

When an ABD who does not have Medicare is placed on a spenddown, the individual must be referred to the Health Insurance Marketplace (HIM) so that the applicant's eligibility for the APTC can be determined. Individuals with Medicare are not referred to the HIM.

M0320.702 DECEMBER 1973 ELIGIBLES**A. Policy**

42 CFR 435.340 - If the State Plan covers the medically needy, the Plan must provide protected medically needy coverage for blind and disabled individuals eligible in December 1973.

B. Blind or Disabled in December 1973

This is an MN covered group of blind and disabled individuals who:

- were eligible as medically needy under the state plan in December 1973 on the basis of the blindness or disability criteria of the AB or APTD plan;
- for each consecutive month after December 1973 continue to meet the December 1973 blindness or disability criteria and the December 1973 financial eligibility requirements; and
- meet the **current** medically needy eligibility requirements except the blindness or disability criteria.

Continuing eligibility is determined on the basis of eligibility requirements in effect as of December, 1973 and current medically needy requirements.

Contact your Regional Medical Assistance Program Consultant if you have an applicant you believe meets this covered group.

M0330.000 FAMILIES & CHILDREN GROUPS

M0330.001 GENERAL POLICY PRINCIPLES

A. Overview

A State Plan for Medicaid must include the mandatory federal categorically needy (CN) groups of individuals as well as the optional groups a state has elected to cover. This subchapter divides the Families & Children (F&C) covered groups into categorically needy and medically needy (MN) groups.

Enroll children and adults who receive Supplemental Security Income (SSI) in the SSI Medicaid covered group (see M0320.101). Evaluate other disabled children and adults for eligibility in the F&C CN covered groups first because they do not have a resource requirement. Individuals who are eligible for or entitled to Medicare cannot be eligible in the MAGI Adults covered group.

B. Procedure

Determine an individual's eligibility first in a CN covered group. If the individual is not eligible as CN or for the Family Access to Medical Insurance Security Plan (FAMIS), go to the MN groups.

A determination of eligibility for a F&C child should follow this hierarchy:

1. If the child meets the definition of a foster care child, adoption assistance child, adoption assistance child with special needs for medical or rehabilitative care, or an individual under age 21, evaluate in these groups first.
2. If the child meets the definition of a *pregnant woman* or newborn child, evaluate in the pregnant woman/newborn child group.
3. If the child is under age 18 or is an individual under age 21 who meets the adoption assistance or foster care definition or is under age 21 in an intermediate care facility (ICF) or facility for individuals with intellectual disabilities (ICF-ID), AND is in a medical institution or has been *authorized* for Home and Community Based Services (HCBS) or has elected hospice, evaluate in the appropriate F&C 300% of SSI covered group.
4. If a child is under the age of 19, evaluate in this group.
5. If a child is a former foster care child under age 26 years, evaluate for coverage in this group.
6. If a child has income in excess of limits individual, evaluate for the Family Access to Medical Insurance Security Plan (FAMIS) eligibility (chapter M21).
7. If the child is a child under age 1, child under age 18, an individual under age 21 or an adoption assistance child with special needs for medical or rehabilitative care, but has income in excess of the appropriate F&C CN income limit, evaluate as MN.

A determination of eligibility for a F&C adult should follow this hierarchy:

1. If the individual meets the definition of a parent/caretaker relative, evaluate in the LIFC covered group.
2. If the individual is not eligible as LIFC, but meets the definition of a pregnant woman, evaluate in the pregnant woman/newborn child group. If the pregnant woman does not meet the definition of lawfully residing in M0220.314, evaluate for FAMIS Prenatal Coverage (see Chapter M23).

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date July 2022
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.100	Page 2

3. If the individual has been screened and diagnosed with breast or cervical cancer or pre-cancerous conditions by the Every Woman's Life program and does not meet the definition of for coverage as SSI, LIFC, Pregnant Woman or Child under 19, evaluate in the Breast and Cervical Cancer Prevention and Treatment Act (BCCPTA) covered group.
4. If the individual is a former foster care child under 26 years, and does not meet the definition of for coverage as SSI, LIFC, Pregnant Woman or Child under 19, evaluate in this covered group.
5. If the individual is between the ages of 19 and 64 and is not eligible for or entitled to Medicare, evaluate in the MAGI Adults group.
6. If the individual is not eligible as a MAGI Adult, LIFC individual, or pregnant woman *but* is in a medical institution, has been *authorized* for Home and Community Based Services or has elected hospice, evaluate in the appropriate F&C 300 % of SSI covered group.

If the individual is a parent or caretaker-relative of a dependent child and in a medical institution, the stay must be temporary while receiving treatment, rehabilitation, etc. for him to meet the definition of living in the home with the dependent child. There are no time limits on the amount of time the parent can be in a medical institution as long as he intends to return home. Verify with the parent the reason he is in a medical facility and ask about the intent to return home.

7. If the individual has excess income for full coverage in a Medicaid covered group and is between the ages of 19 and 64, evaluate for Plan First coverage.
8. If the individual is a pregnant woman but has excess income for coverage in a CN group or FAMIS MOMS evaluate as MN.

M0330.100 FAMILIES & CHILDREN CATEGORICALLY NEEDY

A. Introduction

An F&C individual must be a child under age 19 or must meet the adoption assistance, dependent child, foster care, parent or caretaker-relative of a dependent child living in the home, pregnant woman, or BCCPTA definition, or must have applied for Plan First.

The F&C covered groups are divided into the categorically needy (CN) and medically needy (MN) classifications. Always evaluate eligibility in the categorically needy groups and FAMIS before moving to MN.

B. Procedure

The policy and procedures for determining whether an individual meets an F&C CN covered group are contained in the following sections:

M0330.100 Families & Children Categorically Needy Groups
M0330.105 IV-E Foster Care & IV-E Adoption Assistance;
M0330.107 Individuals Under Age 21;
M0330.108 Adoption Assistance Children With Special Needs for Medical or Rehabilitative Care;
M0330.109 Former Foster Care Children Under Age 26 Years
M0330.200 Low Income Families With Children;

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date July 2022
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.105	Page 2a

M0330.250 MAGI Adults Group
M0330.300 Child Under Age 19 (FAMIS Plus);
M0330.400 Pregnant Women & Newborn Children;
M0330.500 300% of SSI Covered Groups
M0330.600 Plan First--Family Planning Services;
M0330.700 Breast and Cervical Cancer Prevention and Treatment Act

**C. Eligibility
Methodology
Used**

With the exception of the F&C 300% of SSI covered groups for institutionalized individuals, the F&C covered groups that require a financial eligibility determination use Modified Adjusted Gross Income (MAGI) methodology for evaluating countable income. The policies and procedures for MAGI methodology are contained in chapter M04 unless otherwise specified.

MAGI methodology is not applicable to the F&C 300% of SSI covered groups. See M0330.501 – M0330.503 for information regarding the applicable financial eligibility policies.

**D. Aid
Categories**

Aid Categories (ACs) are used in the eligibility and enrollment systems to denote coverage groups. Some covered groups have multiple ACs for designating disability status, age, income, and other demographic information. These ACs may be used for reporting and funding purposes. The policy sections for each CN covered group contain the assigned ACs.

Exception—F&C individuals who have been determined to be eligible for Medicaid coverage of emergency services only based on the alien status requirement policies in subchapter M0220 will be assigned to the following ACs regardless of their covered group:

- ***AC 112 for individuals in the Modified Adjusted Gross Income (MAGI) Adults covered group;***
- ***AC 113 for all other individuals.***

M0330.105 IV-E FOSTER CARE OR IV-E ADOPTION ASSISTANCE RECIPIENTS

A. Policy

42 CFR 435.145--The federal Medicaid law requires the State Plan to cover children who are eligible for foster care or adoption assistance payments under Title IV-E of the Social Security Act.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date October 2013
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.105	Page 3

B. Children Who Receive SSI

Foster care or adoption assistance children who receive SSI meet the eligibility requirements for IV-E foster care or adoption assistance. They cannot receive both SSI and IV-E payments, so most of them elect to receive the higher SSI payment. These children are enrolled in Medicaid in the appropriate Foster Care or Adoption Assistance AC.

C. Nonfinancial Eligibility Requirements

The child must be under age 21 years and must meet the IV-E foster care or IV-E adoption assistance definition in M0310.115 or M0310.102. The child meets the age requirement until the end of the month in which the child turns age 21.

The child must meet all the nonfinancial eligibility requirements in chapter M02. The IV-E eligibility determination meets the Medicaid requirements for Virginia residency and cooperation in pursuing support.

NOTE: IV-E eligible foster care or adoption assistance recipients meet the Medicaid institutional status requirements when they live in a public residential facility if the facility has less than 25 beds.

D. IV-E Foster Care

42 CFR 435.145---The federal Medicaid law requires the State Plan to cover children who are eligible for foster care maintenance payments under Title IV-E of the Social Security Act.

The child must meet the IV-E foster care definition in M0310.115 and must be receiving IV-E foster care maintenance payments. A child of a IV-E foster care child is also considered to be a IV-E foster care child when the mother's IV-E payment includes an allocation for her child.

The IV-E eligibility determination meets the Medicaid requirements for Virginia residency and cooperation in pursuing support.

NOTE: IV-E eligible foster care maintenance payment recipients meet the Medicaid institutional status requirements when they live in a public child care institution if the facility has less than 25 beds, or if they live in a publicly operated community residence that has no more than 16 beds. See section M0280.100 for definitions of public institutions.

E. IV-E Adoption Assistance

42 CFR 435.145--The federal Medicaid law requires the State Plan to cover children who are eligible for adoption assistance under Title IV-E of the Social Security Act and for whom a IV-E adoption assistance agreement between the LDSS and the adoptive parent(s) is in effect.

The child must meet the IV-E adoption assistance definition in M0310.102. The child does not have to receive a IV-E Adoption Assistance payment in order to meet the IV-E Adoption Assistance definition.

The IV-E Adoption Assistance eligibility determination meets the Medicaid requirements for Virginia residency and cooperation in pursuing support.

F. Financial Eligibility

A separate Medicaid financial eligibility determination is not made for IV-E eligible foster care or IV-E adoption assistance children, regardless of the state that makes the IV-E payment. Verify the child's IV-E foster care payment eligibility, or the child's IV-E adoption assistance eligibility via agency records.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date May 2015
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.107	Page 4

B. Entitlement

1. IV-E Foster Care Child

Entitlement to Medicaid as a IV-E Foster Care child begins the first day of the month of commitment or entrustment if a Medicaid application is filed within 4 months of commitment or entrustment. Retroactive entitlement prior to the month of commitment or entrustment is not allowed.

If the Medicaid application is filed more than 4 months after entrustment or commitment, entitlement may be retroactive up to 3 months prior to application if the child met all Medicaid eligibility requirements in the retroactive months. However, Medicaid entitlement cannot go back to the month of entrustment or commitment when the application is filed more than 4 months after entrustment or commitment.

2. IV-E Adoption Assistance Child

Entitlement to Medicaid as a IV-E Adoption Assistance child begins the first day of the application month if all eligibility factors are met in that month. Retroactive entitlement, up to three months prior to application, is applicable if all Medicaid eligibility criteria were met during the retroactive period.

C. Enrollment

The aid category (AC) for IV-E foster care children is “076.” The AC for IV-E Adoption Assistance children is “072”.

M0330.107 INDIVIDUALS UNDER AGE 21

A. Policy

42 CFR 435.222 – The federal Medicaid law allows the State Plan to cover reasonable classifications of individuals under age 21 years who do not receive cash assistance but who meet the income requirements of the state’s July 16, 1996 AFDC State Plan. Children under age 19 should be evaluated in the FAMIS Plus covered group if not eligible as individuals under age 21.

Individuals ages 19 and 20 should be evaluated in the Individuals Under Age 21 covered group when they are not eligible for Medicaid in any other full-benefit covered group.

The reasonable classifications of individuals under age 21 are:

- IV-E eligible foster care children who do NOT receive a IV-E maintenance payment,
- Non-IV-E foster care children,
- Department of Juvenile Justice (DJJ) children,
- Non-IV-E Adoption Assistance children,
- Children in intermediate care nursing facilities (ICF), and
- Children in intermediate care facilities for the *intellectually disabled* (ICF-ID).

B. Nonfinancial Eligibility Requirements

The individual must be under age 21 and meet the nonfinancial requirements in chapter M02.

C. Reasonable Classifications

The individual under age 21 must meet one of the following classifications:

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date April 2022
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.107	Page 5

1. Non IV-E Foster Care

Children who meet the foster care definition in M0310.115 but do not receive a IV-E maintenance payment are “individuals in foster homes, private institutions or independent living arrangements for whom a public or private nonprofit child-placing agency is assuming full or partial financial responsibility.” This group also includes DJJ children.

a. Children Living In Public Institutions

Non-IV-E foster care recipients meet the Medicaid institutional status requirements when they live in a public child care institution if the facility has less than 25 beds, or if they live in a publicly operated community residence that has no more than 16 beds. See section M0280.100 for definitions of public institutions.

When these children are placed in public residential institutions, the facility must not have capacity for more than 16 children (see M0280).

b. Child in Independent Living Arrangement

A child under age 18 in an independent living arrangement is eligible for Medicaid in this covered group if the child is receiving services from the local social services agency.

A child age 18 and over who is in an Independent Living arrangement with a local department of social services no longer meets the definition of a foster care child and may be eligible for Medicaid in the covered group of Former Foster Care Children Under Age 26 Years group. See M0330.109

2. Non-IV-E Adoption Assistance

Children under age 21 who meet the adoption assistance definition in M0310.102 for whom a Non-IV-E adoption assistance agreement between the local department of social services (LDSS) and the adoptive parent(s) is in effect are “individuals in adoptions subsidized in full or in part by a public agency.” If the child receives a Non-IV-E adoption assistance payment, or if the child was adopted under an adoption assistance agreement and is not eligible as a IV-E Adoption Assistance child, then the child meets the “Non-IV-E adoption assistance” definition.

Adoption assistance *children with special needs for medical or rehabilitative care* have additional requirements. See section M0330.805.

3. In ICF or ICF-ID

Children under age 21 who are patients in either an ICF or ICF-ID meet the classification of “individuals in an ICF or ICF- ID” in the Individual Under Age 21 covered group.

D. Assistance Unit

1. Non-IV-E Foster Care Children (Includes DJJ)

The child is an assistance unit of one effective the date the child is removed from the home and placed in foster care. Each child in foster care is evaluated as a separate assistance unit, even if the child is living with his/her siblings in a foster care home.

The child continues to meet the Individuals Under Age 21 covered group as long as he is under the supervision of the LDSS or DJJ, including during a trial visit in the child’s own home. The Modified Adjusted Gross Income (MAGI) household composition methodology contained in Chapter M04 is applicable.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date July 2018
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.107	Page 6

2. Adoptive Placement While in adoptive placement, the child may continue to be treated as a foster care child. However, once the interlocutory or the final order of adoption is entered, the child must be treated as a Non-IV-E adoption assistance child; see 3. below.

3. Non-IV-E Adoption Assistance-Interlocutory or Final Order Entered For applications received prior to October 1, 2013 and renewals completed prior to April 1, 2013, financial eligibility is determined using the assistance unit procedures in subchapter M0520, which require the inclusion of the child's adoptive parent(s) and sibling(s). An adoption assistance child must have his/her eligibility determined by counting or deeming (as appropriate) his/her parent's and sibling's income.

For applications received on or after October 1, 2013, use the policies and procedures contained in chapter M04.

4. Child in ICF or ICF- ID A child in an ICF or an ICF-ID is an institutionalized individual in a medical facility when he meets the definition of "institutionalized individual" in section M1410.010 B.2. When he meets the institutionalized individual definition, he is an assistance unit of one person.

E. Resources There is no resource test for the Individuals Under Age 21 covered group.

F. Income

1. Income Limits For the Individuals Under Age 21 covered group, the income limit is the income limit found in M04, *Appendix 5*.

The foster care or adoption subsidy payment is excluded when determining the unit's income eligibility.

Foster care and Adoption Assistance children in residential facilities do not have a different income limit. For a foster care/adoption assistance child living outside the State of Virginia, the income limit for the assistance unit is the income limit for the Virginia locality which holds custody, pays the adoption subsidy, or signed the adoption assistance agreement.

2. Income Exceeds F&C 100% Income Limit For foster care (including DJJ) and adoption assistance children whose income exceeds the Individuals Under Age 21 income limit, determine the child's Medicaid eligibility in the Child Under 19 covered group and for FAMIS if the child under 19 or as an MN Individual Under Age 21 if the child is over 19 but under 21 (see M0330.804). Ineligible individuals must be referred to the Health Insurance Marketplace for evaluation for the Advance Premium Tax Credit (APTC).

G. Entitlement & Enrollment

1. Entitlement Entitlement to Medicaid begins the first day of the month in which the Medicaid application is filed, if all eligibility factors are met in that month. Retroactive entitlement, up to three months prior to application, is applicable if all Medicaid eligibility criteria were met during the retroactive period.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date April 2022
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.108	Page 7

2. Enrollment

The aid category (AC) for individuals in the covered group of Individuals Under Age 21 is:

- 076 for a non-IV-E Foster Care child;
- 075 for a Department of Juvenile Justice child;
- 072 for a Non-IV-E Adoption Assistance child;
- 082 for a child under age 21 in an ICF or ICF-ID.

M0330.108 ADOPTION ASSISTANCE *CHILDREN WITH SPECIAL NEEDS FOR MEDICAL OR REHABILITATIVE CARE*

A. Policy

42 CFR 435.227 - The federal Medicaid law allows the State Plan to cover an individual under age 21 years:

- for whom a non-IV-E adoption assistance agreement between the state and the adoptive parent(s) is in effect;
- who cannot be placed with adoptive parents without Medicaid because the child has special needs for medical or rehabilitative care; and
- who was enrolled in Medicaid under any covered group before the adoption assistance agreement was entered into OR who would have been eligible for Medicaid before the adoption assistance agreement was entered into if the eligibility requirements and standards of the IV-E foster care program were used, without employing the threshold title IV-A eligibility determination.

If the child was not enrolled in Medicaid or would not have been eligible for Medicaid prior to the adoption assistance agreement being entered into, the child is **not** eligible for Medicaid in the Adoption Assistance *Children With Special Needs for Medical or Rehabilitative Care* covered group.

The child's eligibility in another covered group must be evaluated. If the child is under age 19, evaluate his eligibility in the FAMIS Plus covered group of Child Under Age 19 (see M0330.300). If the child is over age 19 but under age 21, the child may be eligible as a Non-IV-E Adoption Assistance child in the MN Individuals Under Age 21 covered group. See section M0330.804.

**B. Nonfinancial
Eligibility
Requirements**

The child must:

- be under age 21,
- meet the definition of a child *with special needs for medical or rehabilitative care adopted under a Non IV-E Adoption Assistance agreement* in M0310.102, and
- meet the nonfinancial requirements in chapter M02.

**C. Financial Eligibility
Requirements**
1. Assistance Unit

The assistance unit consists of only the child if the child was eligible for Medicaid prior to the adoption assistance agreement being entered into. The adoptive parent(s)' income and resources are **not** counted or deemed; only the child's own income and resources are counted.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date April 2022
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.109	Page 8

2. Resources

There is no resource test for the Adoption Assistance *Children With Special Needs for Medical or Rehabilitative Care* covered group.

3. Income

Adoption assistance children in residential facilities do not have a different income limit. The income limit for Individuals Under Age 21 for one person in the child's locality is used to determine eligibility in the Adoption Assistance *Children With Special Needs for Medical or Rehabilitative Care* covered group. See M04, Appendix 4.

For a Virginia adoption assistance *child with special needs for medical or rehabilitative care* living outside the State of Virginia, the income limit for the unit is the income limit for the Virginia locality that signed the adoption assistance agreement.

The adoption subsidy payment is excluded when determining the child's financial eligibility.

If the child's countable income exceeds the income limit for Individuals Under Age 21, evaluate the child in the Adoption Assistance *Children With Special Needs for Medical or Rehabilitative Care* MN covered group (see M0330.805). Ineligible individuals must be referred to the Health Insurance Marketplace for evaluation for the APTC.

D. Entitlement & Enrollment

Entitlement to Medicaid begins the first day of the month in which the Medicaid application is filed, if all eligibility factors are met in that month. Retroactive entitlement, up to three months prior to application, is applicable if all Medicaid eligibility criteria were met during the retroactive period.

The AC for individuals in the Adoption Assistance *Children With Special Needs for Medical or Rehabilitative Care* covered group is "072."

M0330.109 FORMER FOSTER CARE CHILDREN UNDER AGE 26 YEARS**A. Policy**

P.L. 111-148 (The Affordable Care Act) - The federal Medicaid law requires the State Plan to cover individuals who were formerly in Title IV-E or non-IV-E foster care or the Unaccompanied Refugee Minors Program (URM) when the individual:

- was in the custody of a local department of social services in Virginia, another state, or a U.S. Territory, and receiving Medicaid until his discharge from foster care upon turning 18 years or older, or
- was in the URM program in Virginia or another state and receiving Medicaid until his discharge upon turning 18 years or older.
- is not eligible for Medicaid in another mandatory Medicaid covered group (LIFC parent, Pregnant Woman, Child Under age 19 or SSI), and
- is under age 26 years.

A child age 18 and over who is in an Independent Living arrangement or in the Fostering Futures Program with a local department of social services may be eligible in this covered group.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date April 2018
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.200	Page 9

B. Nonfinancial Eligibility Requirements

The individual must meet all the nonfinancial eligibility requirements in chapter M02. If the individual is not a U.S. citizen, he must meet the alien status requirements. These requirements differ depending on the age and pregnancy status of the individual. See subchapter M0220.

D. Entitlement

Entitlement as a former foster care child begins the first day of the month following the month the child was no longer in the custody of a local department of social services or the URM Program if the child was enrolled in Medicaid during the month foster care ended.

Accept the individual's declaration of enrollment in foster care or the URM Program and enrollment in Medicaid at the time turned at least 18.

If Medicaid coverage of a former foster care child was previously discontinued when the child turned 18, he may reapply for coverage and be eligible in this covered group if he meets the requirements in this section. The policies regarding entitlement in M1510 apply.

Individuals in this covered group receive full Medicaid coverage, including long-term care (LTC) services. Do not move enrollees in this covered group who need LTC to the 300% of SSI covered group.

E. Enrollment

The AC for former foster care children is "070."

M0330.200 LOW INCOME FAMILIES WITH CHILDREN (LIFC)

A. Policy

Section 1931 of the Act - The federal Medicaid law requires the State Plan to cover *(1) dependent children under age 18 or under the age of 19 and full-time students in a secondary school or in the equivalent level of vocational or technical training, or in a General Educational Development (GED) program IF they may be reasonably expected to complete the secondary school, training or program before or in the month they attain age 19; and (2) parents or caretaker-relatives of dependent children who meet the financial eligibility requirements of the July 16, 1996 AFDC state plan. This covered group is called "Low Income Families With Children" (LIFC).*

Public Law 111-148 (The Affordable Care Act) requires that coverage for all children under the age of 19 be consolidated in the Child Under Age 19 (FAMIS Plus) covered group. Virginia has chosen to implement this coverage effective October 1, 2013. Children are not enrolled as LIFC except when the child *meets the definition of a dependent child in M0310.111* and his parents are receiving LIFC Extended Medicaid coverage (see M1520.500). In these situations, if the child's household income exceeds the limit for coverage in the Child Under Age 19 group, the child must be evaluated for LIFC Extended Medicaid coverage with his family.

B. Nonfinancial Eligibility

The individual must meet all the nonfinancial eligibility requirements in chapter M02.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date July 2018
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.200	Page 10

A LIFC child must meet the definition of a dependent child in M0310.111. The adult with whom the child lives must be the child's parent or caretaker-relative, as defined in M0310.107. The presence of a parent in the home does not impact a stepparent's eligibility in the LIFC covered group. Both the parent and stepparent may be eligible in the LIFC covered group. When a parent(s) is in the home, no relative (*i.e. caretaker/relative*) other than *another parent or a stepparent* can be eligible for Medicaid in the LIFC covered group.

C. Financial Eligibility

Modified Adjusted Gross Income (MAGI) methodology is applicable to the LIFC covered group. The policies and procedures contained in Chapter M04 are used to determine eligibility for LIFC individuals.

1. Basis For Eligibility ("Assistance Unit")

The basis for financial eligibility is the LIFC individual's MAGI household. See M0430.100.

2. Resources

There is no resource test for the LIFC covered group.

3. Income

The income limits, policies and procedures used to determine eligibility in the LIFC covered group are contained in Chapter M04.

4. Income Exceeds Limit

If the individual's income exceeds the LIFC income limit, the individual is not eligible as LIFC. Ineligible individuals must be referred to the Health Insurance Marketplace for evaluation for the APTC. Spenddown does not apply to the LIFC income limits.

Note: LIFC families who have been enrolled in Medicaid for at least three of the past six months and who are no longer eligible due to excess earned income must be evaluated for continued eligibility in LIFE Extended Medicaid. See M1520.400.

D. Entitlement

Entitlement to Medicaid as an LIFC individual begins the first day of the month in which the Medicaid application is filed, if all eligibility factors are met in that month. Retroactive entitlement, up to three months prior to application, is applicable if all Medicaid eligibility criteria were met during the retroactive period.

E. Enrollment

The ACs for individuals in the LIFC covered group are:

- 081 for an LIFC individual in a family with one or no parent in the home;
- 083 for LIFC individuals in a two-parent (including a stepparent) household.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date October 2019
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.250	Page 10a

M0330.250 MAGI ADULTS (EFFECTIVE JANUARY 1, 2019)

A. Policy

The Virginia 2018 Appropriations Act mandated that effective January 1, 2019, the State Plan for Medical Assistance be amended to add a new covered group for adults between the ages of 19 – 64. This mandate is titled “New Health Coverage Options for Virginia Adults” and the new covered group will be known as MAGI (Modified Adjusted Gross Income) Adults.

This new group may be designated in various reports, documentation, or publications of other agencies as New Enrolled Adults, Newly Enrolled Adults, or Medicaid Expansion Adults.

The MAGI Adults Group includes:

- MAGI Parent/Caretaker Relatives (AC 100, AC 101) who meet Medicaid requirements within a MAGI Adult group and must be responsible for a dependent child under age 18 (or less than age 19, still in school and expected to graduate by his 19th birthday);
- MAGI Childless Adults (AC 102, AC 103) who meet Medicaid requirements within a MAGI Adults group and are not responsible for a dependent child or claim such a child on his tax return;
- MAGI Presumptive Eligible Adults (AC 106) who meet Medicaid requirements within a MAGI Adults group and have had a determination made by an authorized PE Hospital; and
- MAGI Incarcerated Adults (AC 108) who would otherwise be eligible for Medicaid as a MAGI Adult except for being incarcerated in a Department of Corrections (DOC) facility or a local / regional jail.

Note: All HPE applications are processed by hospitals and enrolled at Cover Virginia. See M0120.500.D - Hospital Presumptive Eligibility.

B. Procedure

Eligible individuals in the MAGI Adults group must:

- be an individual between the ages of 19 and 64;
- have income at or below 138% *FPL* (133% *FPL* + 5% *FPL* disregard);
- not be entitled to or enrolled in Medicare Part A or B;
- not be eligible in a Medicaid mandatory covered group or the BCCPTA covered group.
- meet any other criteria as outlined in the particular aid categories.

A person in the MAGI Adults covered group may receive long term services and supports (LTSS) in either a facility or home and community based services (waiver) setting. The individual is still required to be assessed and approved for such care.

C. Non-Financial Eligibility

The individual must meet all the nonfinancial eligibility requirements in chapter M02. If the individual is not a U.S. citizen, he must meet the alien status requirements. These requirements differ depending on the age and pregnancy status of the individual. See subchapter M0220.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date October 2018
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.250	Page 10b

D. Resources *Although no resource test is applicable for MAGI Adults coverage, the worker must evaluate certain resources for any individuals seeking Medicaid payment for LTSS. These include asset transfers, trusts, annuities, and the home equity limit. See M1410.050*

E. Financial Eligibility *MAGI methodology is applicable to the MAGI Adults covered group. The policies and procedures contained in Chapters M04 are used to determine eligibility for these individuals.*

1. Basis For Eligibility *The basis for financial eligibility is the individual's MAGI household. See M0430.100.*

2. Income *The income limits, policies and procedures used to determine eligibility in this covered group are contained in Chapter M04.*

3. Income Exceeds Limit *If the individual's income exceeds the MAGI Adults income limit, the individual must be evaluated for eligibility in any other full benefit Medicaid group. If not eligible in a full benefit category, the individual must be evaluated for any limited benefit coverage for which they may be eligible.*

4. Spenddown *Spenddown does not apply to any MAGI Adults covered group.*

F. Referral to Health Insurance Marketplace *If the individual is not eligible for any full benefit Medicaid coverage group due to income over the applicable limit, the individual must be referred to the HIM for evaluation for the APTC.*

G. Entitlement *Entitlement in Medicaid as a MAGI Adult begins the first day of the month in which the Medicaid application is filed, if all eligibility factors are met in that month. Retroactive entitlement, up to three months prior to application, is applicable if all Medicaid eligibility criteria were met during the retroactive period; however, retroactive coverage in the MAGI Adults group is not available for any month prior to January 1, 2019.*

H. Enrollment *The Medicaid aid categories for MAGI Adults are:*

AC	Meaning
100	Parent/caretaker relative; income above the LIFC limit and below 100% FPL (no 5% disregard)
101	Parent/caretaker relative; income greater than 100% FPL, but less than or equal to 138% FPL (133% + 5% disregard)
102	Childless adult; income at or below 100% FPL (no disregard)
103	Childless adult; income greater than 100% FPL, but less than or equal to 138% FPL (133% + 5% disregard)
106	Presumptively-eligible MAGI Adult; income at or below 138% FPL (133% + 5% disregard)
108	Incarcerated adult

I. Long Term Services and Supports *Once medical assessment and financial evaluation are approved, a MAGI Adult may receive facility based or home and community based LTSS.*

Patient pay does not apply to MAGI Adults.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date October 2013
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.300	Page 11

M0330.300 CHILD UNDER AGE 19

A. Policy

The Affordable Care Act requires that all coverage for children under age 19 be consolidated into one covered group. The authority for coverage of these children is found in 42CFR 435.11. 8. Virginia will begin covering children in this group effective October 1, 2013. The income limit for this group is 143% FPL.

Coverage under the Child Under Age 19 covered group is also known as FAMIS Plus in printed materials.

B. Nonfinancial Eligibility

The child must be under age 19 years. The child's date of birth must be provided, but birth verification is not required. Any child under age 19 years can be eligible in this covered group regardless of the child's living arrangements or the child's mother's Medicaid eligibility.

The child must meet the nonfinancial eligibility requirements in chapter M02.

A child no longer meets this covered group effective the end of the month in which the child reaches age 19 years, provided he was under age 19 on the first day of the month. If the child was born on the first day of the month, his eligibility ends the last day of the month prior to the month he reaches age 19.

NOTE: a child who has excess income for Medicaid may be evaluated for FAMIS eligibility.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date January 2019
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.300	Page 12

C. Financial Eligibility

Modified Adjusted Gross Income (MAGI) methodology is applicable to this covered group. The MAGI policies and procedures are contained in Chapter M04.

1. Assistance Unit

The assistance unit for this covered group is the MAGI household.

2. Resources

There is no resource test.

3. Income

MAGI income rules are applicable to this covered group. The income limits for the Child Under Age 19 covered group are contained in M04, Appendix 2.

4. Income Changes

Any changes in a Medicaid-eligible child's income that occur after his eligibility has been established affect eligibility. Recalculate income and compare to the income limits.

5. Income Exceeds Limit

A child under age 19 whose income exceeds the income limit for this covered group may be eligible for FAMIS. The income limit for FAMIS is 200% FPL *plus a 5% FPL income disregard*. See Chapters M21 and M04 to determine FAMIS eligibility.

If countable income exceeds the limit for Medicaid and FAMIS *and the child is under age 18*, the opportunity for a Medically Needy (MN) evaluation must be offered (see M0330.803). *Ineligible children, other than incarcerated children*, must be referred to the Health Insurance Marketplace for evaluation for the APTC.

D. Entitlement

Eligible children are entitled to full Medicaid coverage beginning the first day of the child's application month if all eligibility requirements are met in that month, but no earlier than the date of the child's birth. Retroactive coverage is applicable to this covered group.

Eligible children are entitled to all Medicaid covered services as described in chapter M18.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date January 2021
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.400	Page 13

E. Enrollment

The Medicaid ACs for children are:

AC	Meaning
090	child under age 6; income greater than 109% FPL, but less than or equal to 143% FPL
091	child under age 6; income less than or equal to 109% FPL
092	<ul style="list-style-type: none"> child age 6-19; insured or uninsured with income less than or equal to 109% FPL; child age 6-19; insured with income greater than 109% FPL and less than or equal to 143% FPL
094	child age 6-19; uninsured with income greater than 109% FPL and less than or equal to 143% FPL

Do not change the AC when a child's health insurance is paid for by Medicaid through the HIPD program.

M0330.400 PREGNANT WOMEN & NEWBORN CHILDREN**A. Policy**

The federal Medicaid law requires the Medicaid State Plan to cover categorically needy (CN) pregnant women and newborn children whose family income is within 143% of the federal poverty level (FPL). The law allows the State Plan to cover these pregnant women and newborns regardless of their resources.

B. Nonfinancial Eligibility**1. Pregnant Woman**

42CFR 435.116- The woman must meet the pregnant woman definition in M0310.124.

The pregnant woman must meet all the nonfinancial eligibility requirements in chapter M02.

Non-citizen pregnant women who meet the lawfully residing policy in M0220.314 meet the citizenship requirements for full coverage in the pregnant woman group.

*A pregnant woman who does not meet the lawfully residing policy in M022.314 may be eligible for FAMIS Prenatal Coverage if they apply for coverage no later than the month their child is born. Use **Chapter M23** to evaluate the pregnant woman for eligibility under FAMIS Prenatal Coverage*

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date July 2021
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.400	Page 14

2. Newborn Child

42 CFR 435.117 - A child born to a woman who was eligible for Medicaid or to an individual covered by FAMIS at the time the child was born (including a newborn child born to an alien eligible for Medicaid payment of emergency services only) is eligible as a newborn child under age 1 year.

Exceptions:

A child born to a woman enrolled under Hospital Presumptive Eligibility (HPE); an application must be submitted for the child's Medicaid eligibility to be determined since no Medicaid application was submitted for the child's mother.

An infant born to a woman in FAMIS Prenatal Coverage who is enrolled in AC 111 and/or enrolled in managed care must be evaluated for ongoing coverage. The infant is not considered a deemed-eligible newborn. See Chapter M023.

a. Eligible To Age 1

A child no longer meets this covered group effective the end of the month in which the child reaches age 1, provided he was under age 1 on the first day of the month. If the child was born on the first day of the month, his eligibility ends the last day of the month prior to the month he reaches age 1.

Any child born a Medicaid-eligible woman will continue to be eligible up to age 1. If the child's mother was covered by Medicaid as a categorically needy individual in a state other than Virginia at the time of the child's birth, verification of the mother's Medicaid coverage must be provided by the parent or authorized representative.

b. No Other Eligibility Requirements

No other nonfinancial or financial eligibility requirements need to be met by the newborn child.

C. Financial Eligibility

Eligibility for CN Pregnant Women is based on the Modified Adjusted Gross Income (MAGI) methodology contained in Chapter M04.

1. Assistance Unit

The unborn child or children are included in the household size for a pregnant woman's eligibility determination. Refer to the procedures for determining the MAGI household in Chapter M04.

2. Resources

There is no resource test.

3. Income

Women enrolled as Pregnant Women are not subject to renewals during the pregnancy. The income limits for Pregnant Women are contained in M04, Appendix 2.

4. Income Changes After Eligibility Established

a. Pregnant Woman

Once eligibility is established as a pregnant woman, changes in income do not affect her eligibility as long as she meets the pregnant definition and the other nonfinancial eligibility requirements. This also includes situations where eligibility is established in the retroactive period.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date July 2022
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.400	Page 15

For example, a married pregnant woman applies for Medicaid on October 10. She received a medical service in the retroactive period. Her expected delivery date is January 15. She and her husband have been unemployed since June 23. Her husband began earning \$3,000 a month on October 9; she remains unemployed. Since they had no income during the retroactive period, she is found eligible for retroactive coverage effective July 1.

Because her available income (from her husband) changed after she established eligibility on July 1, the change in income does not affect her eligibility and she remains eligible for Medicaid in October and subsequent months until she no longer meets the pregnant woman definition or other nonfinancial requirements.

b. Newborn

Income changes do NOT affect the certain newborn's eligibility for the first year of the child's enrollment as a certain newborn.

The mother's failure to complete a renewal of her own eligibility and/or the eligibility of other children in the household does NOT affect the eligibility of the certain newborn.

5. Income Exceeds Limit

If the pregnant woman's income exceeds the 143% FPL limit, she is not eligible in this covered group. Determine her eligibility for FAMIS MOMS. If the pregnant woman is not eligible for FAMIS MOMS, evaluate her eligibility as MN (see M0330.801). Ineligible women, other than incarcerated women, must be referred to the Health Insurance Marketplace for evaluation for the APTC.

D. Entitlement

Eligible pregnant women are entitled to full Medicaid coverage beginning the first day of the individual's application month if all eligibility requirements are met in that month. Retroactive coverage is applicable to this covered group if the woman was pregnant during the retroactive month(s).

The newborn's Medicaid coverage begins the date of the child's birth. A renewal must be completed for the newborn in the last month in which the child meets the Newborn Children Under Age 1 covered group and must include SSN or proof of application, as well as verification of income.

Eligible pregnant women and newborns are entitled to all Medicaid covered services as described in chapter M18.

After her eligibility is established as a pregnant woman, the woman's Medicaid entitlement continues *for 12 months following the end of the month in which her pregnancy ends*, regardless of income changes. Medicaid coverage ends the last day of the 12th month.

If a Medicaid or FAMIS MOMS recipient who applied effective November 1, 2021 [or a CHIPRA214 (lawfully residing individual) who applied effective April 1, 2022] whose pregnancy has ended reapplies for coverage after July 1, 2022, she is entitled to the remainder of the 12 month post-partum period she would have received had her coverage not been canceled.

E. Enrollment

The AC for pregnant women who are not incarcerated is 091. The AC for pregnant women who are incarcerated is 109. The AC for newborns born to women who were enrolled in Medicaid is 093.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date January 2019
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.501	Page 16

M0330.500 300% of SSI INCOME LIMIT GROUPS

M0330.501 F&C IN MEDICAL INSTITUTION, INCOME \leq 300% SSI

A. Policy

42 CFR 435.236 - The State Plan includes the covered group of individuals who meet a families & children definition who are in medical institutions and who

- meet the Medicaid resource requirements; and
- have income that does not exceed 300% of the SSI individual payment limit (see M0810.002 A. 3).

B. Nonfinancial Eligibility

An individual is eligible in this covered group if he/she meets the nonfinancial requirements in M02.

The individual must be a child under age 18, under age 21 who meets the adoption assistance or foster care definition or under age 21 in an ICF or ICF-ID, or must be a parent or caretaker-relative of a dependent child, or a pregnant woman as defined in M0310. *If the individual is a parent or caretaker-relative of a dependent child, the stay in the medical institution must be temporary while receiving treatment, rehabilitation, etc. for him to meet the definition of living in the home with the dependent child.*

C. Financial Eligibility

When determining income to compare to the 300% of SSI income limit, use the ABD income policy and procedures, regardless of the individual's definition or covered group. MAGI methodology is not used to determine eligibility for this covered group.

When determining resources, use F&C resource policy in chapter **M06** for unmarried F&C individuals; use ABD resource policy for married F&C individuals.

The individual must also meet the asset transfer policy in M1450.

1. Resources

a. Resource Eligibility – Married Individual Age 18 and Older

When determining resources for a married F&C institutionalized individual with a community spouse, use the resource policy in subchapter M1480. When determining resources for a married F&C institutionalized individual who has no community spouse, use the resource policy in subchapter M1460. Evaluate countable resources using ABD resource policy in chapter S11.

If current resources are within the limit, go on to determine income eligibility.

If current resources are NOT within the limit, the individual is NOT eligible in this covered group; he/she may be eligible in a different covered group (which has more liberal resource methods and standards).

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date May 2015
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.501	Page 17

b. Resource Eligibility – Unmarried Individual Age 18 and Older

When determining resources for an unmarried F&C institutionalized individual, use the Medicaid F&C resource requirements in chapter M06. All of the individual's resources must be verified, evaluated, and counted together to determine if the individual meets the F&C resource limit of \$1,000. Pay close attention to ownership of his/her former residence when the individual is in an institution. Determine if the former home is excluded in **M06**.

If current resources are within the limit, go on to determine income eligibility. If current resources are NOT within the limit, the individual is NOT eligible in this covered group; he/she may be eligible in a different covered group.

c. Resource Eligibility – Child Under Age 18

Children under age 18 are not subject to a resource test.

2. Income

To determine if an individual has income within the 300% SSI income limit, **use gross income**, not countable income, and **use the ABD income policy and procedures in chapter S08 and subchapter M1460**. Determine what is income according to subchapter S0815, ABD What Is Not Income and subchapter M1460, LTC Financial Eligibility. **DO NOT** subtract the \$20 general exclusion or any other income exclusions.

The individual is an assistance unit of 1 person. **DO NOT** deem any income from a spouse or parent.

Compare the **total gross income** to the 300% of SSI income limit (see M810.002 A. 3.). If gross income is less than or equal to this limit, the individual is eligible for Medicaid in this covered group.

If the total gross income exceeds the 300% of SSI income limit, the individual is not eligible for Medicaid in the covered group of F&C individuals in medical institutions.

D. Entitlement & Enrollment

Eligible individuals in this group are entitled to full Medicaid coverage beginning the first day of the individual's application month if all eligibility requirements are met in that month. Retroactive coverage is applicable to this covered group.

Eligible individuals in this group are classified as **300% SSI**. If the individual has Medicare Part A, re-calculate the individual's income - subtract appropriate ABD income exclusions. Compare the countable income to the QMB limit.

1. Dual-eligible As QMB

If the individual is also a Qualified Medicare Beneficiary (QMB) – the individual has Medicare Part A and has countable income within the QMB income limit - the program designation is "062."

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date July 2022
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.502	Page 18

2. Not QMB

If the individual is NOT a Qualified Medicare Beneficiary (QMB) - the individual does NOT have Medicare Part A, OR has countable income over the QMB income limit - the AC is “060.”

E. Ineligible In This Covered Group

If the individual is not eligible for Medicaid in this covered group because of income, determine the individual’s eligibility as medically needy. For unmarried individuals, redetermine resources using the F&C medically needy policy in chapter M06. Do not recalculate resources of a married individual.

Determine the individual’s eligibility as QMB, SLMB, QDWI or QI if *the individual* has Medicare Part A.

M0330.502 F&C RECEIVING WAIVER SERVICES (CBC)**A. Policy**

42 CFR 435.217 - The State Plan includes the covered group of individuals who meet a families & children definition who live in the community, who would be eligible for Medicaid if institutionalized;

are *authorized* to receive Medicaid waiver services and have selected the option to receive Medicaid waiver services in lieu of nursing facility care;

in the absence of the waiver services would require the level of care furnished in a hospital, nursing facility or ICF- ID; and

have income that does not exceed 300% of the SSI individual payment limit (see M0810.002 A. 3).

B. Nonfinancial Eligibility

An individual who receives Medicaid waiver services is eligible in this covered group if *the individual*:

1. meets the nonfinancial requirements in M02.
2. is not in a medical institution, may be in a residential institution that meets the institutional status requirements; and
3. is a child under age 18, under age 21 and meets the adoption assistance or foster care definition, a parent or caretaker-relative of a dependent child, or a pregnant woman as defined in M0310.

Verify receipt of Medicaid waiver services; use the procedures in chapter M14.

Do not wait until the individual starts to receive the waiver services to determine eligibility in this covered group. Determine eligibility in this covered group if the *individual* is *authorized* to receive Medicaid waiver services, has not been placed on a waiting list for services, and has selected the option to receive Medicaid waiver services in lieu of nursing facility services. Presume that the *individual* will receive the services and go on to determine financial eligibility using the policy and procedures in C. below. If determined eligible, the individual is not entitled to Medicaid in this covered group unless the policy in item D. below is met. See item D. below for the entitlement and enrollment procedures.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date May 2015
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.502	Page 19

C. Financial Eligibility

When determining **income** to compare to the 300% of SSI income limit, use the ABD income policy and procedures, regardless of the individual's definition or covered group. MAGI methodology is not used to determine eligibility for this covered group.

When determining **resources**, use F&C resource policy in chapter **M06** for unmarried F&C individuals; use ABD resource policy for married F&C individuals.

The individual must also meet the asset transfer policy in M1450.

1. Resources

a. Resource Eligibility - Married Individual Age 18 and Older

When determining resources for a married F&C institutionalized individual with a community spouse, use the resource policy in subchapter M1480. When determining resources for a married F&C institutionalized individual who has no community spouse, use the resource policy in subchapter M1460. **Evaluate countable resources using ABD resource policy in chapter S11.**

b. Resource Eligibility - Unmarried Individual Age 18 and Older

When determining resources for an unmarried F&C institutionalized individual, use the Medicaid F&C resource requirements in chapter **M06**. All of the individual's resources must be verified, evaluated, and counted together to determine if the individual meets the F&C resource limit of \$1,000. Pay close attention to

- ownership of his/her former residence when the individual is in an institution. Determine if the former home is excluded in **M06**.

DO NOT DEEM any resources from a child's parent living in the home.

If current resources are within the limit, go on to determine income eligibility.

If current resources are NOT within the limit, the individual is NOT eligible in this covered group. He/she may be eligible as medically needy in a medically needy covered group.

c. Resource Eligibility – Child Under Age 18

Children under age 18 are not subject to a resource test.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date May 2015
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.502	Page 20

2. Income

To determine if an individual has income within the 300% SSI income limit, **use gross income**, not countable income, and use the ABD income policy and procedures in **chapter S08** and **subchapter M1460**. Determine what is considered income according to subchapter **S0815, ABD What Is Not Income** and subchapter **M1460, LTC Financial Eligibility**. **DO NOT** subtract the \$20 general exclusion or any other income exclusions.

The F&C waiver services individual is an assistance unit of 1 person. **DO NOT** deem any income from a spouse or parent.

Compare the **total gross income** to the 300% of SSI income limit (see M0810.002 A.3). If gross income is less than or equal to this limit, the individual is eligible for Medicaid in the CN covered group of F&C individuals receiving Medicaid waiver services.

If the total gross income **exceeds** the 300% of SSI income limit, the individual is **not** eligible for Medicaid in the covered group of F&C individuals receiving Medicaid waiver services.

D. Entitlement & Enrollment

Eligible individuals in this group are entitled to full Medicaid coverage beginning the first day of the individual's application month if all eligibility requirements are met in that month. Retroactive coverage is applicable to this covered group.

Eligible individuals in this group are classified as 300% of SSI. If the individual has Medicare Part A, re-calculate the individual's income - subtract the appropriate ABD income exclusions. Compare the countable income to the QMB limit.

1. Dual-eligible As QMB

If the individual is also a Qualified Medicare Beneficiary (QMB) – the individual has Medicare Part A and has countable income within the QMB income limit - the AC is “062.”

2. Not QMB

If the individual is NOT a QMB – the individual does NOT have Medicare Part A, OR has countable income over the QMB income limit - the AC is “060.”

E. Ineligible In This Covered Group

If the individual is not eligible for Medicaid in this covered group because of income, determine the individual's eligibility as medically needy spenddown. For unmarried individuals, re-determine resources using the F&C medically needy policy in chapter M06. Do not recalculate resources of a married individual.

Determine the individual's eligibility as QMB, SLMB, QDWI or QI if he/she has Medicare Part A.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date May 2015
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.503	Page 21

M0330.503 F&C HOSPICE

A. Policy

SMM 3580-3584 - The State Plan includes the covered group of children under age 21, pregnant women and parents or caretaker-relatives of dependent children who are terminally ill and who elect hospice benefits. The hospice covered group is for individuals who are not eligible in any other full-benefit Medicaid covered group.

Individuals receiving hospice services in the F&C Hospice Covered group may also receive services under the Elderly and Disabled with Consumer Direction (EDCD) Waiver, if the services are authorized by DMAS (see M1440.101).

To be eligible in the hospice covered group, the individual must file an election statement with a particular hospice which must be in effect for 30 or more consecutive days. Eligibility in the Hospice covered group is ongoing as long as the individual continues to receive hospice care, subject to a renewal of eligibility at least once every 12 months. The eligibility worker must verify that the hospice agreement is current at the time of the annual renewal.

The 30-day requirement begins on the effective date of the hospice care election. Once the hospice election has been in effect for each of 30 consecutive days, the 300% of SSI income limit is used to determine Medicaid eligibility. If the individual's income is within the limit, eligibility begins the effective date of the hospice election.

In situations where the 30-day requirement has already been met, the individual does not have to meet it again when he/she elects hospice care. When there is no break in time between eligibility in a medical facility and the effective date of hospice election, the individual does not have to wait another 30 days for eligibility in the hospice covered group.

B. Nonfinancial Eligibility

A terminally ill individual who elects hospice services is eligible in this covered group if he/she meets the *non-financial requirements in M02, and:*

1. is not in a medical institution, may be in a residential institution that meets the institutional status requirements; and
2. *is a child under age 18, under age 21 and meets the adoption assistance or foster care definition, a parent or caretaker-relative of a dependent child, or a pregnant woman as defined in M0310.*

The individual must elect hospice care. Election of hospice care is verified either verbally or in writing from the hospice. If the verification is verbal, document case record.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date May 2015
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.503	Page 22

C. Financial Eligibility

When determining **income** to compare to the 300% of SSI income limit, use the ABD income policy and procedures, regardless of the individual's definition or covered group. *MAGI methodology is not used to determine eligibility for this covered group.*

When determining **resources**, use F&C resource policy in *chapter M06* for unmarried F&C individuals; use ABD resource policy for married F&C individuals.

The individual must also meet the asset transfer policy in M1450. When determining **resources**, use F&C resource policy for unmarried F&C individuals; use ABD resource policy for married F&C individuals.

1. Resources

a. Resource Eligibility - Married Individual Age 18 and Older

When determining resources for a married F&C hospice individual with a community spouse, use the resource policy in subchapter M1480. When determining resources for a married F&C hospice individual who has no community spouse, use the resource policy in subchapter M1460. **Evaluate countable resources using ABD resource policy in chapter S11.**

If current resources are within the limit, go on to determine income eligibility.

If current resources are NOT within the limit, the individual is NOT eligible in this covered group; he/she may be eligible as medically needy in a medically needy covered group.

b. Resource Eligibility - Unmarried Individual Age 18 and Older

When determining resources for an unmarried F&C hospice individual, use the Medicaid F&C resource requirements in chapter **M06**. All of the individual's resources must be verified, evaluated, and counted together to determine if the individual meets the F&C resource limit of \$1,000.

DO NOT DEEM any resources from a child's parent living in the home.

If current resources are within the limit, go on to determine income eligibility.

If current resources are NOT within the limit, the individual is NOT eligible in this covered group. He/she may be eligible as medically needy in a medically needy covered group.

c. Resource Eligibility – Child Under Age 18

Children under age 18 are not subject to a resource test.

2. Income

To determine if an individual has income within the 300% SSI income limit, **use gross income**, not countable income, and **use the ABD income policy and procedures in chapter S08**. Determine what is considered income according to **subchapter S0815, ABD What Is Not Income**. DO NOT subtract the \$20 general exclusion or any other income exclusions.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date September 2012
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.503	Page 23

The individual is an assistance unit of 1 person. DO NOT DEEM any income from the individual's spouse or parent.

Compare the total gross income to the 300% SSI income limit (see M0810.002 A. 3.). If countable income is equal to or less than this limit, the individual is eligible for Medicaid in the hospice covered group.

If the total gross income exceeds this limit, the individual is not eligible for Medicaid in the hospice covered group. Evaluate his/her eligibility as medically needy.

D. Entitlement & Enrollment

The hospice services recipient must elect hospice services and the election must be in effect for 30 days. The 30 day period begins on the effective date of the hospice election. Upon 30 days elapsing from the effective date of the hospice election, and the election is in effect for the entire 30 days, eligibility in the hospice covered group begins with the effective date of the hospice election if all other eligibility factors are met.

1. Entitlement

Eligible individuals in this group are entitled to full Medicaid coverage beginning the first day of the individual's application month if all eligibility requirements are met in that month. Retroactive coverage is applicable to this covered group.

Eligible individuals in this group are classified as categorically needy CN. If the individual has Medicare Part A, evaluate his/her eligibility as ABD hospice in M0320.402.

2. Enrollment

If the individual is eligible in any other full-coverage Medicaid covered group, he is enrolled under that aid category (AC) and not the Hospice AC (054). Enroll with AC 054 for an individual who meets an F&C definition, *has income within 300% of the SSI limit*, but who is not eligible in any other full-coverage Medicaid covered group.

E. Post-eligibility Requirements (Patient Pay)

Individuals who receive hospice services in a nursing facility have a patient pay calculation (see subchapter M1470). Individuals who receive hospice services outside of a nursing facility do not have a patient pay.

Individuals who have elected hospice services and who also receive Medicaid Long-term Care services available under the EDCD Waiver must have a patient pay calculation for the EDCD services (see subchapter M1470).

F. Ineligible In This Covered Group

There is no corresponding medically needy hospice covered group. Evaluate the individual in another covered group.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date May 2015
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.600	Page 24

M0330.600 PLAN FIRST - FAMILY PLANNING SERVICES

A. Policy

Plan First, Virginia's family planning services health program covers individuals who are not eligible for another full or limited-benefit Medicaid covered group or FAMIS. This optional covered group is available to individuals regardless of their age, gender, disability status, insured status or if they previously had a sterilization procedure. Plan First covers only family planning services, including transportation to receive family planning services.

The income limit for Plan First is 200% FPL. While there are no specific age requirements for Plan First, eligibility for Plan First is not determined for children under 19 years or for individuals age 65 years and older unless the child's parent or the individual requests an evaluation for Plan First.

Individuals who are eligible for Plan First must be referred to the Federal Health Insurance Marketplace for an evaluation for the APTC, because they are not eligible for full Medicaid coverage.

If the information contained in the application indicates **potential** eligibility in a full-benefit Medicaid covered group (e.g., the applicant has a child under 18 in the home or alleges disability), in another limited benefit covered group (e.g., the individual has Medicare) or in FAMIS, the worker must determine whether eligibility exists in another covered group before the individual(s) can be determined eligible for Plan First.

If additional information is needed to complete the eligibility determination in another Medicaid covered group, the applicant must be given the opportunity to provide the additional information needed. If the additional information is not provided by the deadline, determine the applicant's eligibility for Plan First only.

When an individual age 19 through 64 years is not eligible for Medicaid in any other covered group, evaluate his eligibility for Plan First unless the individual has indicated otherwise on the application or communicated the desire to opt out to the LDSS by other means.

When a Medicaid enrollee no longer meets the requirements for his current covered group, prior to cancelling his coverage he must be evaluated in all covered groups for which he may meet the definition. If the individual is age 19 through 64 years and is not eligible for full-benefit Medicaid coverage or as a Medicare beneficiary, he must be evaluated for Plan First unless he has declined that coverage. If a child is under age 19 or an individual is age 65 or older, evaluate for Plan First only if the child's parent or the individual requests the coverage.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date January 2019
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.600	Page 25

B. Nonfinancial Requirements

Individuals in this covered group must meet the Medicaid nonfinancial requirements in chapter M02.

Division of Child Support Enforcement (DCSE) services are available to all Medicaid recipients, but cooperation with DCSE is not a condition of eligibility for this covered group.

C. Financial Eligibility

Refer to chapters M05 and M07 for applications submitted before October 1, 2013 and for renewals completed before April 1, 2014. Refer to Chapter M04 for eligibility determinations completed on applications submitted on or after October 1, 2013.

1. Assistance Unit

Use the assistance unit policy in chapter M05 to determine the individual's financial eligibility for applications submitted before October 1, 2013 and for renewals completed before April 1, 2014. Refer to chapter M04 for eligibility determinations completed on applications submitted on or after October 1, 2013.

2. Resources

There is no resource test.

3. Income

The income limit for this group is 200% FPL. The income limits are contained in M04, Appendix 5.

4. Spenddown

Spenddown does not apply to Plan First. However, because an individual enrolled in the Plan First covered group does not receive full Medicaid coverage, if he meets a MN covered group listed in M0320 or M0330, he must be evaluated to determine if he could become eligible for full Medicaid coverage as medically needy (MN) by meeting a spenddown. At application and redetermination, Plan First enrollees who meet the MN covered group and resource requirements are placed on two six-month spenddown budget periods within the 12 month renewal period. They may also be eligible for a retroactive MN spenddown determination. See chapter M13 for spenddown instructions.

D. Entitlement and Enrollment

1. Begin Date

Eligibility in the Plan First covered group begins the first day of the month in which the application is filed, if all eligibility factors are met in the month.

2. Retroactive Coverage

Individuals in this covered group are entitled to retroactive coverage if they meet all the requirements in the retroactive period.

3. Enrollment

The AC for Plan First enrollees is "080."

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date April 2021
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.700	Page 26

M0330.700 BREAST AND CERVICAL CANCER PREVENTION AND TREATMENT ACT (BCCPTA)

A. Policy

The Breast and Cervical Cancer Prevention and Treatment Act (BCCPTA) of 2000 (P.L. 106-354) provides for payment of medical services, including long-term care (LTC) (see Chapter M14) for certain women and men with breast cancer or women with cervical cancer

Individuals eligible for the BCCPTA program must be age 18 through 64. They must have been screened and certified as needing treatment for breast or cervical cancer (including pre-cancerous conditions) by a medical provider operating under the Center for Disease Control and Prevention's Breast and Cervical Cancer Early Detection Program (BCCEDP) and referred to LDSS for a Medicaid eligibility determination. These individuals must not have creditable health insurance coverage for treatment of breast or cervical cancer.

Virginia's BCCEDP program, Every Woman's Life, is administered by the Virginia Department of Health. Screening locations can be found at <http://www.vdh.virginia.gov/every-womans-life/clients/> / Information can also be obtained by calling 1-866-395-4968.

Through an agreement between Virginia and the District of Columbia (D.C.), residents of northern Virginia (the cities of Alexandria, Fairfax, Falls Church, Manassas, Manassas Park and the counties of Arlington, Fairfax, Loudoun and Prince William) are allowed to be screened and diagnosed for breast or cervical cancer and pre-cancerous conditions through the DC Center for Disease Control and Prevention's "Project Wish" program. Individuals who are screened and certified as needing treatment for breast or cervical cancer through Project Wish may be eligible for Virginia Medicaid, provided they meet the requirements of the BCCPTA covered group. These individuals will receive a Virginia BCCPTA Application Form from the DC providers and will be instructed to submit the application directly to the local department of social services in their home locality.

Individuals diagnosed with cancer by a provider who is not operating under the BCCEDP are not eligible in this covered group. *Every Woman's Life is responsible for determining if an individual was diagnosed by a BCCEDP provider. Refer individuals who indicate to the local agency that they received a breast or cervical cancer diagnosis but do not provide the BCCPTA Application Form to Every Woman's Life (see above for contact information).*

B. Nonfinancial Eligibility

1. Required Nonfinancial Requirements

BCCPTA individuals must meet the Medicaid nonfinancial requirements in chapter M02.

In addition, BCCPTA individuals must not be eligible for Medicaid under the following mandatory categorically needy covered groups:

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date October 2013
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.700	Page 27

- LIFC;
- Pregnant Women;
- Child Under Age 19;
- SSI recipients.

2. Creditable Health Insurance Coverage

BCCPTA *individuals* must not have creditable health insurance coverage. Creditable health insurance coverage includes:

- a group health plan;
- health insurance coverage under any hospital or medical service policy or certificate, hospital or medical service plan contract or health maintenance organization contract offered by a health insurance issuer;
- Medicare;
- Medicaid;
- armed forces insurance a medical care program of the Indian Health Service (IHS) or of a tribal organization;
- a state health risk pool.

There may be situations where an *individual* has creditable health insurance coverage as defined above, but the coverage does not include treatment of breast or cervical cancer due to a period of exclusion or exhaustion of lifetime benefits, or the woman may have a high deductible. The *individual* is not eligible for Medicaid in the BCCPTA covered group because *of the* creditable health insurance.

C. Financial Eligibility

There are no Medicaid financial requirements for the BCCPTA covered group. The BCCEDP has income and resource requirements that are used to screen *individuals* for this program.

Individuals requesting Medicaid coverage of LTC services must provide verification of their resources and income and must meet all the LTC eligibility requirements in chapter M14.

D. Application Procedures

The application procedures for *individuals* who meet the BCCPTA non-financial requirements have been streamlined to facilitate the prompt enrollment and immediate access to services for *individuals* who are in need of treatment for breast or cervical cancer. In addition to the nonfinancial information required to evaluate eligibility in the BCCPTA covered group, the following information is needed for enrollment in Medicaid:

- name,
- address,
- sex and race,
- date of birth,
- country of origin and entry date, if an alien.

Individuals who meet the description of individuals in the LIFC, Pregnant Women, *Child Under Age 19*, or SSI recipients covered groups must complete the appropriate *MA* application for the covered group and must have an *MA* eligibility determination completed prior to determining their eligibility in the BCCPTA covered group. If not eligible in the LIFC,

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date April 2019
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.700	Page 28

Pregnant Women, FAMIS Plus, or SSI recipients covered groups, then determine their eligibility in the BCCPTA covered group.

1. Application Form

This covered group has a special application, BCCPTA Medicaid Application (form #032-03-384), **that must be initiated by a BCCEDP provider**, including those affiliated with Project Wish operating in the District of Columbia. The application includes the BCCEDP certification of the individual's need for treatment and the information needed to determine the nonfinancial eligibility in the BCCPTA covered group. Appendix 7 to subchapter M0120 contains a sample of the BCCPTA Medicaid Application form.

If eligibility in another Medicaid covered group must first be determined, the applicant must be given the appropriate Medicaid application.

2. Application Processing Time Frames

BCCPTA Medicaid applications filed by individuals who do not meet the description of an individual in the LIFC, Pregnant Women, FAMIS Plus, or SSI recipients covered groups must be processed within 10 working days of the agency's receipt of the signed application.

BCCPTA Medicaid applications filed by individuals who meet the description of an individual in the LIFC, MI Pregnant Women, FAMIS Plus, or SSI recipients covered groups must be processed as soon as possible, but no later than 45 calendar days of the agency's receipt of the signed application.

3. Notices

If the BCCPTA Medicaid application is the only application required and no additional information is required, the eligibility decision must be made immediately and applicant must be notified of the decision within 10 working days of the agency's receipt of the application.

If a decision cannot be made within 10 working days of receipt of the BCCPTA application, the worker must send a "Notice of Action on Medicaid", form #032-03-008, on the 10th day stating why action has not been taken, specifying what information is needed and a deadline for submitting the information.

E. Entitlement

1. Entitlement Begin Date

Eligibility under this covered group is met the beginning of the month the screening is completed if the individual later has a positive diagnosis as a result of the screening and is determined to be in need of treatment for breast and/or cervical cancer.

Eligible BCCPTA individuals are entitled to full Medicaid coverage beginning the first day of the individual's application month if all eligibility requirements are met in that month. *Coverage is to be provided throughout the person's course of treatment, and no limit is placed upon the number of years an eligible person may be covered as long as physician certifies at renewal that treatment for the breast or cervical condition is still required.*

2. Retroactive Entitlement

Retroactive coverage is applicable to this covered group if the individual was screened by a medical provider operating under the BCCEDP and diagnosed as needing treatment for breast or cervical cancer in the retroactive month(s).

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date April 2022
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.800	Page 29

F. Enrollment

The aid category for BCCPTA individuals is "066".

G. Benefit Package

The BCCPTA group is a full-benefit covered group. All Medicaid-covered services are available to BCCPTA enrollees, including long-term care in a facility or in a community-based care waiver.

H. Renewal

Annual renewal requirements are applicable to the BCCPTA covered group. At the time of the annual renewal, the recipient must provide a statement from a medical provider verifying continued treatment for breast or cervical cancer. The BCCPTA Redetermination (form #032-03-653) is used for the renewal. See M1520.200 for renewal requirements.

M0330.800 FAMILIES & CHILDREN MEDICALLY NEEDY GROUPS**A. Introduction**

An F&C medically needy individual must

- be a child under age 18, or 21, or
- meet the adoption assistance, foster care or pregnant woman definition in subchapter M0310.

B. Procedure

The policy and procedures for determining whether an individual meets an F&C MN covered group are contained in the following sections:

- M0330.801 Pregnant Women;
- M0330.802 Newborn Children Under Age 1;
- M0330.803 Children Under Age 18;
- M0330.804 Individuals Under Age 21;
- M0330.805 Adoption Assistance Children With Special Needs for Medical or Rehabilitative Care.

C. Referral to Health Insurance Marketplace

When an individual meets an F&C MN covered group is not eligible solely due to excess income and is placed on a MN spenddown, the individual must be referred to the Health Insurance Marketplace (HIM) so that the applicant's eligibility for the APTC can be determined.

Note: Individuals with Medicare are not referred to the HIM.

D. Aid Categories

Aid Categories (ACs) are used in the eligibility and enrollment systems to denote coverage groups. Some covered groups have multiple ACs for designating disability status, age, income, and other demographic information. These ACs may be used for reporting and funding purposes. The policy sections for each MN covered group contain the assigned ACs

Exception—MN individuals of any age who have been determined to be eligible for Medicaid coverage of emergency services based on the alien status requirement policies in subchapter M0220 will be assigned to AC 113 regardless of their covered group.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date October 2018
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.801	Page 30

***M0330.801* PREGNANT WOMEN**

A. Nonfinancial Eligibility

42 CFR 435.301(b)(1)(i)--If the state chooses to cover the medically needy, the State Plan must provide medically needy coverage to all pregnant women during the course of their pregnancy who, except for income and resources, would be eligible for Medicaid as categorically needy.

A pregnant woman's Medicaid eligibility is first determined in the CN pregnant women covered group which has no resource limit and has an income limit that is higher than the medically needy income limit. If a pregnant woman is not eligible as a *CN Pregnant Woman* because her income is too high, evaluate as FAMIS MOMS. If the individual is not eligible for FAMIS MOMS, then evaluate as MN. She may spenddown to the lower MN income limit IF her resources are within the MN resource limit.

A pregnant woman is eligible in this MN covered group if she meets the pregnant woman definition in M0310.119 and meets the nonfinancial requirements in chapter M02.

B. Financial Eligibility

1. Assistance Unit

The assistance unit policy and procedures in chapter M05 apply to medically needy pregnant women. If the pregnant woman is not institutionalized, consider the resources and income of a pregnant woman's spouse with whom she lives and, if the pregnant woman is under age 21, the pregnant woman's parent(s) with whom she lives. If a pregnant woman also applies for other assistance unit members living with her who do not meet an F&C medically needy covered group, separate financial eligibility determinations are done for the unit. One is the F&C medically needy determination for the pregnant woman. The other financial eligibility determination is based on the other individual's(s) covered group(s).

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date July 2022
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.801	Page 31

2. Resources

All of the individual's resources must be verified, evaluated, and counted together to determine if the individual meets the Medicaid resource requirements. The resources policy in chapter M06 applies.

If the individual is married and institutionalized, use the resource policy in subchapter M1480.

a. Resources Within The Limit

If current resources are within the limit, go on to determine income eligibility.

b. Resources Exceed The Limit

If current resources exceed the limit, she is not eligible in this covered group.

3. Income

Determine MN countable income according to chapter M07. Subtract the appropriate exclusions. Compare the total countable income to the MN income limit for the individual's locality group (see M0710, Appendix 5 for the MN income limits).

4. Income Exceeds MN Limit

Because the MN pregnant woman's income exceeds the 133% FPL limit, it also exceeds the MN limit. She becomes eligible in this MN covered group when she has incurred medical expenses equal to the difference between her income and the MN income limit (spenddown). See chapter M13 for spenddown policy and procedures.

5. Income Changes

Any changes in a medically needy pregnant woman's income that occur after her eligibility has been established, **do not** affect her eligibility as long as she meets the pregnant woman definition, the nonfinancial and MN resource eligibility requirements.

The spenddown liability must be recalculated when an income change is reported prior to eligibility being established.

C. Entitlement

Eligible women in this MN group are entitled to full Medicaid coverage beginning the first day the spenddown is met. The woman is entitled to MN coverage *for 12 months following the end of the month in which her pregnancy ends*. Her MN Medicaid coverage ends the last day of *the 12th month following the month her pregnancy ends*, regardless of when the spenddown period ends, without the need for a new application or an additional spenddown period.

Retroactive coverage is applicable to this covered group.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date July 2022
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.801	Page 32

Example:

A pregnant woman applied for Medicaid on January 5, 2022. Her estimated date of delivery is May 10, 2022. Her income exceeds the income limit for 2 persons for Medicaid and FAMIS MOMS. Her resources are within the medically needy resource limit for the retroactive period and ongoing, and she is placed on a retroactive spenddown for the period October 1, 2021, through December 31, 2021, and a prospective spenddown for the period January 1, 2022 through June 30, 2022. She delivered the child and met the spenddown on May 20, 2022. She was enrolled in MN coverage effective May 20, 2022. Although her spenddown period ends on June 30, her MN Medicaid coverage does not end until May 31, 2023, *the last day of the 12th month following the end of the month the child was born.*

Note: The eligibility worker must evaluate the individual's eligibility in all other covered groups prior to taking action to cancel the MN coverage.

D. Enrollment

Eligible individuals in this group are enrolled in AC 097.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date June 2016
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.802	Page 33

M0330.802 NEWBORN CHILDREN UNDER AGE 1

A. Policy

42 CFR 435.301 (b)(1)(iii) - If the state chooses to cover the MN, the State Plan must provide MN coverage to all newborn children born on or after October 1, 1984 to a woman who is eligible as MN and is receiving Medicaid on the date of the child's birth. Coverage must be provided to those newborn children whose mothers were eligible as MN but whose coverage was restricted to Medicaid payment for labor and delivery as an emergency service. The child remains eligible for one year.

B. Nonfinancial Eligibility

A child who meets this covered group:

- is under age of 1 year;
- was born to a mother who is found eligible for Medicaid as medically needy or meets spenddown effective on or before the date of the child's birth.

If the child's mother was covered by Medicaid as a medically needy individual in a state other than Virginia at the time of the child's birth, verification of the mother's Medicaid coverage must be provided by the parent or authorized representative.

1. Continued Eligibility When Mother Becomes Ineligible

Any child born to an eligible pregnant woman will continue to be eligible in this covered group **up to age 1**.

EXAMPLE #4: A pregnant woman applied for Medicaid on October 24, 2008. Her estimated date of conception is March 24, 2008, and her due date is December 20, 2008. Her income exceeds the CN limit for 2 persons. Her resources are within the medically needy resource limit and she is placed on a spenddown for the period October 1, 2008 through March 31, 2009. She meets the spenddown on November 15, 2008, and is enrolled in Medicaid as MN effective November 15, 2008 through March 31, 2009.

Her child is born on November 30, 2008, and is enrolled in Medicaid as an MN newborn. The mother's Medicaid coverage is canceled effective January 31, 2009, the last day of the month in which the 60th day occurred after her pregnancy ended. The newborn's Medicaid coverage continues through November 30, 2009, the end of the month in which he turns one year old. *A renewal of the child's coverage must be completed for his coverage to continue past age one.*

2. Covered Group Eligibility Ends

The child no longer meets this covered group effective:

- the end of the month in which the child reaches age 1 year; or
- the end of the month in which the child no longer resides in Virginia.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date June 2016
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.803	Page 34

B. Financial Eligibility

No other nonfinancial or financial eligibility requirements need to be met by the child.

C. Entitlement & Enrollment

Eligible newborns in this MN group are entitled to full Medicaid coverage beginning the date of the child's birth. Retroactive coverage is applicable to this covered group, but coverage cannot begin prior to the date of the child's birth. *A renewal must be completed for the newborn before system cut-off in the last month in which the child meets the Newborn Children Under Age 1 covered group and must include SSN or proof of application, as well as verification of income and resources.*

Eligible children in this group are enrolled in aid category 099.

M0330.803 CHILDREN UNDER AGE 18**A. Nonfinancial Eligibility**

42 CFR 435.301(b)(1)(ii) - If the state chooses to cover the medically needy, the State Plan must provide medically needy coverage to all children under 18 years of age who, except for income and resources, would be eligible for Medicaid as categorically needy.

A child is eligible in this MN covered group if he/she has not attained age 18 years and meets the nonfinancial requirements in chapter M02.

A child under age 18's Medicaid eligibility is first determined in the Child Under Age 19 covered group *and for FAMIS*, which *have* no resource limits and *have* income limits that are higher than the medically needy income limit. If a child under age 18 is not eligible *for Medicaid in the Child Under 19 covered group or for FAMIS* because the child's countable income is too high, *and* the child's resources are within the MN resource limit, *evaluate the child's in the MN Children Under Age 18 covered group.*

B. Financial Eligibility**1. Assistance Unit**

The assistance unit policy and procedures in chapter M05 apply to this covered group. If not institutionalized, count or deem any resources and income from the child's spouse and/or parent with whom he/she lives.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date June 2016
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.803	Page 35

2. Resources

All of the individual's resources must be verified, evaluated, and counted together to determine if the individual meets the Medicaid resource requirements. The resources policy in chapter M06 applies.

If the child is married and institutionalized, use the resource policy in subchapter M1480.

a. Resources Within The Limit

If the child's resources are within the MN limit, go on to determine income eligibility.

b. Resources Exceed The Limit

If the child's resources are NOT within the limit, the child is NOT eligible for Medicaid because of excess resources.

3. Income

Determine MN countable income according to chapter M07. Subtract the appropriate exclusions. Compare the total countable income to the MN income limit for the child's locality group (see section M0710, Appendix 5 for the MN income limits).

4. Income Exceeds MN and FAMIS Limits

Because the Child Under Age 19 and FAMIS income limits are higher than the MN income limits, the child becomes eligible in the MN children under age 18 covered group when the child has incurred medical expenses equal to the difference between his/her income and the MN income limit (spenddown). See chapter M13 for spenddown policy and procedures.

5. Income is under the MN and FAMIS Limits

Because of the differences between the Child Under 19 covered group/FAMIS (MAGI) and MN (non-MAGI) income-counting rules, such as the treatment of a stepparent's income, a child may be ineligible for Medicaid as a Child Under 19 or for FAMIS coverage but have countable income under the income limit for MN coverage. In this case, the child's spenddown liability is \$0.00 (zero dollars). Even if the spenddown liability is \$0.00, MN coverage cannot be open-ended. Enroll the child in two back-to-back six-month periods of coverage, without the need for a new application. Complete a renewal following the procedures in M1520 at the end of the second spenddown period. Continue to enroll the child in two consecutive six-month periods of coverage per year as long as he continues to be eligible as MN at renewal.

C. Entitlement & Enrollment

Children who become eligible after meeting a spenddown are entitled to full medically needy Medicaid coverage beginning the day the spenddown was met. Retroactive coverage is applicable to this covered group.

Eligible children in this group are *enrolled* in aid category 088.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date May 2015
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.804	Page 36

M0330.804 INDIVIDUALS UNDER AGE 21

A. Policy

42 CFR 435.308(b) - A state may choose to provide medically needy coverage to reasonable classifications of individuals under 21 years of age who are not eligible for coverage as categorically needy but who meet the medically needy resource and income requirements.

Virginia has chosen to cover the following reasonable classifications of individuals under age 21:

- Non-IV-E Foster Care children
- Department of Juvenile Justice (DJJ) children,
- Non-IV-E Adoption Assistance children,
- Children in intermediate care nursing facilities (ICF), and
- Children in an ICF-*ID*.

NOTE: the ICF- *ID* services are **not** covered for medically needy individuals, but other Medicaid covered services such as prescription drugs, physicians, inpatient and outpatient hospital services are covered for medically needy patients in ICF- *IDs*.

B. Nonfinancial Eligibility

The individual must be under age 21 and meet the nonfinancial requirements in chapter M02. The child meets the age requirement until the end of the month in which the child turns age 21.

C. Reasonable Classifications

The individual under age 21 must meet one of the following classifications:

1. Non IV-E Foster Care

Children who meet the foster care definition in M0310.115 but do not receive a IV-E maintenance payment are “individuals in foster homes, private institutions or independent living arrangements for whom a public or private nonprofit child-placing agency is assuming full or partial financial responsibility.” This group also includes DJJ children.

c. Children Living In Public Institutions

Non-IV-E foster care children meet the Medicaid institutional status requirements when they live in a public child care institution if the facility has less than 25 beds, or if they live in a publicly operated community residence that has no more than 16 beds. See section M0280.100 for definitions of public institutions.

When these children are placed in public residential institutions, the facility must not have capacity for more than 16 children (see M0280).

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date April 2022
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.804	Page 37

d. Child in Independent Living Arrangement

A child in an independent living arrangement is eligible for Medicaid in this covered group if the child is receiving services from the local social services agency.

2. Non-IV-E Adoption Assistance

Children under age 21 who meet the adoption assistance definition in M0310.102 for whom a Non-IV-E adoption assistance agreement between the LDSS and the adoptive parent(s) is in effect are “individuals in adoptions subsidized in full or in part by a public agency.” If the child receives a Non-IV-E adoption assistance payment, or if the child was adopted under an adoption assistance agreement and is not eligible as a IV-E Adoption Assistance child, then the child meets the “Non-IV-E adoption assistance” definition.

Adoption assistance *children with special needs for medical or rehabilitative care* have additional requirements. See section M0330.805.

3. In ICF or ICF-ID

Children under age 21 who are patients in either an ICF or ICF- ID meet the classification of “individuals in an ICF or ICF- ID” in the Individual Under Age 21 covered group.

D. Assistance Unit

a. Non-IV-E Foster Care Children (Includes DJJ)

The child is an assistance unit of one effective the date the child is removed from the home and placed in foster care. Each child in foster care is evaluated as a separate assistance unit, even if the child is living with his/her siblings in a foster care home.

A foster care or DJJ child continues to be a single person unit during a trial visit in his own home. A “trial visit” is no longer than six months for this section’s purposes.

b. Adoptive Placement

While in adoptive placement, the child may continue to be treated as a foster care child. However, once the interlocutory or the final order of adoption is entered, the child must be treated as a Non-IV-E adoption assistance child; see 3. below.

c. Non-IV-E Adoption Assistance-Interlocutory or Final Order Entered

Financial eligibility is determined using the assistance unit procedures in subchapter M0520, which require the inclusion of the child’s adoptive parent(s) and sibling(s). An adoption assistance child must have his/her eligibility determined by counting or deeming (as appropriate) his/her parent’s and sibling’s income.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date May 2015
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.804	Page 38

d. Child in ICF or ICF- ID

A child in an ICF or an ICF- *ID* is an institutionalized individual in a medical facility when he meets the definition of “institutionalized individual” in section M1410.010 B.2. When he meets the institutionalized individual definition, he is an assistance unit of one person.

E. Resources

The resource limit and requirements are found in chapter M06.

If the resources exceed the limit, the child is not eligible for Medicaid. If the child is under age 19, determine the child’s eligibility as FAMIS Plus because that classification has no resource limits.

F. Income

The MN income requirements are found in subchapter M0710.

1. Income Limits

For the MN Individuals Under Age 21 covered group, the income limit is the medically needy income limit found in chapter M0710, Appendix 5.

The foster care or adoption subsidy payment is excluded when determining the unit’s income eligibility.

Foster care or adoption assistance children in residential facilities do not have a different income limit. For a foster care/adoption assistance child living outside the State of Virginia, the MN income limit for the unit is the income limit for the Virginia locality which holds custody, pays the adoption subsidy, or signed the adoption assistance agreement.

2. Income Exceeds MN Income Limit

If the unit’s resources are within the medically needy limit, but the income exceeds the medically needy income limit, the unit is placed on a spenddown. All medical expenses of the unit members are used to meet the spenddown. Once the spenddown is met, only the child and family members who meet an MN covered group and who applied for Medicaid are enrolled in Medicaid.

G. Entitlement & Enrollment

1. Entitlement

Entitlement to Medicaid begins the first day of the month in which the Medicaid application is filed, if all eligibility factors are met in that month. If the individual is eligible after meeting a spenddown, entitlement begins the date the spenddown was met and ends after the last day of the spenddown period.

Retroactive entitlement, up to three months prior to application, is applicable if all Medicaid eligibility criteria were met during the retroactive period.

2. Enrollment

The aid category for medically needy individuals in the MN covered group of Individuals Under Age 21 are:

- 086 for an MN Non-IV-E foster care, MN Non-IV-E adoption assistance,
- 085 for an MN Juvenile Justice Department child;
- 098 for an MN child under age 21 in an ICF or ICF- *ID*.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date April 2022
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.805	Page 39

M0330.805 ADOPTION ASSISTANCE *CHILDREN WITH SPECIAL NEEDS FOR MEDICAL OR REHABILITATIVE CARE*

A. Policy

42 CFR 435.308(b) - A state may choose to provide medically needy coverage to a child under age 21 years

- for whom a non-IV-E adoption assistance agreement between the state and the adoptive parent(s) is in effect;
- who cannot be placed with adoptive parents without Medicaid because the child has special needs for medical or rehabilitative care; and
- who was enrolled in Medicaid under any covered group before the adoption assistance agreement was entered into OR who would have been eligible for Medicaid before the adoption assistance agreement was entered into if the eligibility requirements and standards of the IV-E foster care program were used, without employing the threshold title IV-A eligibility determination.

If the child was not enrolled in Medicaid and would not have been eligible for Medicaid prior to the adoption assistance agreement being entered into, the child is **not** eligible for Medicaid in the Adoption Assistance *Children With Special Needs for Medical or Rehabilitative Care* MN covered group. The child may be eligible in the MN Non-IV-E Adoption Assistance classification of Individuals Under Age 21 in section M0330.804.

B. Nonfinancial Eligibility

The child must

- be under age 21,
- meet the definition of a child *with special needs for medical or rehabilitative care adopted under a Non IV-E Adoption Assistance agreement* in M0310.102, and
- meet the nonfinancial requirements in chapter M02.

C. Financial Eligibility

1. Assistance Unit

The assistance unit consists of only the child if the child was eligible for Medicaid prior to the adoption assistance agreement being entered into. The adoptive parent(s)' income and resources are **not** counted or deemed; only the child's own income and resources are counted.

A child in an ICF or an ICF-MR is an institutionalized individual in a medical facility when he meets the definition of "institutionalized individual" in section M1410.010 B.2. When he meets the institutionalized individual definition, he is an assistance unit of one person. The child's eligibility is determined in the F&C 300% SSI covered group in M0330.501.

Manual Title Virginia Medical Assistance Eligibility	Chapter M03	Page Revision Date April 2022
Subchapter Subject M0330.000 FAMILIES & CHILDREN GROUPS	Page ending with M0330.805	Page 40

2. Resources

The resource limits and requirements are found in chapter M06.

If the resources exceed the limit, the child is not eligible for Medicaid as medically needy. If the child is under age 19, determine the child's eligibility as F&C CN because that classification has no resource limits.

3. Income

Adoption assistance children in residential facilities do not have a different income limit. The MN income limit for one person in the child's locality is used to determine the child's MN eligibility. For an adoption assistance child living outside the State of Virginia, the income limit for the child is the income limit for the Virginia locality which signed the adoption assistance agreement.

The adoption subsidy payment is excluded when determining the child's financial eligibility.

If the child's countable income exceeds the MN income limit, the child is placed on a spenddown. Only the child's medical expenses are used to meet the spenddown. Once the spenddown is met, the child is enrolled in Medicaid.

D. Entitlement & Enrollment

Eligible individuals in this MN group are entitled to full Medicaid coverage beginning the first day of the individual's application month if all eligibility requirements are met in that month. Individuals who become eligible after meeting a spenddown are entitled to full Medicaid coverage beginning the day the spenddown was met and ending the last day of the sixth month in the spenddown period. Retroactive coverage is applicable to this covered group.

The AC for individuals in the Adoption Assistance *Children With Special Needs for Medical or Rehabilitative Care* MN covered group is "086."

M0410.000 MODIFIED ADJUSTED GROSS INCOME (MAGI)

M0410.100 MAGI GENERAL INFORMATION

A. Introduction

Beginning October 1, 2013, determinations of eligibility for most families and children (F&C) Medicaid covered groups and the Family Access to Medical Insurance Security Plan (FAMIS) will be done using the Modified Adjusted Gross Income (MAGI) methodology.

Effective January 1, 2019, determination of eligibility for adults age 19-64 without Medicare will be evaluated using MAGI income methodology. These newly eligible individuals are referred to as MAGI Adults.

MAGI methodology will also be used to determine eligibility for participation in the Federal Health Insurance Marketplace. Medicaid, FAMIS and the Federal Health Insurance Marketplace (HIM) are called insurance affordability programs. Medicaid and FAMIS are collectively referred to as medical assistance (MA) programs.

For all case actions effective October 26, 2019, verification of earned and unearned income will be evaluated using attested income and reasonable compatibility rules. Whenever possible, income reported on the application will be verified through electronic data sources.

The goal of using MAGI methodology for all insurance affordability programs is to align financial eligibility rules, provide a seamless and coordinated system of eligibility and enrollment, and maintain the eligibility of low-income populations, especially children.

B. Legal Base

The Patient Protection and Affordable Care Act of 2010 (Pub. L. No. 111-148), as amended by the Health Care and Education Reconciliation Act of 2010 (Pub. L. No. 111-152) (collectively referred to as the Affordable Care Act [ACA]) is the legal base for the changes required to be made in the Medicaid and CHIP (FAMIS) eligibility determinations. The 2018 Appropriations Act provided funding for New Health Coverage Options for Virginia Adults. Effective January 1, 2019, determination of eligibility for adults between the ages of 19-64 without Medicare will be evaluated using MAGI income methodology. Adults eligible under the expansion of coverage will be referred to as Modified Adjusted Gross Income (MAGI) Adults. Individuals in the MAGI Adults covered group are not subject to a resource test unless the individual requests Medicaid payment for LTC/LTSS. The resource and home equity requirements for MAGI Adults are contained in M1460.

MAGI and household income are defined in section 36B(d)(2)(A) and (B) of the Internal Revenue Service Code (IRC). The MAGI-based methodology under the Medicaid statute includes certain unique income counting and household (HH) composition rules reflected in the Centers for Medicare and Medicaid Services (CMS) regulations at 42 CFR 435.603 and discussed in section III.B. of the preamble to the eligibility final rule published in the Federal Register on March 23, 2012.

C. Policy Principles

1. What is MAGI?

MAGI:

- is a methodology for how income is counted and how household composition and family size are determined,
- is based on federal tax rules for determining adjusted gross income (with some modification), and

Manual Title Virginia Medical Assistance Eligibility	Chapter M04	Page Revision Date July 2021
Subchapter Subject M04 MODIFIED ADJUSTED GROSS INCOME (MAGI)	Page ending with M0410.100	Page 2

2. MAGI Rules

- has no resource test (Exception: MAGI Adults requesting coverage of Long Term Care services are subject to certain asset/resource requirements)
- MAGI has an income disregard equal to 5% of the federal poverty level (FPL) for the Medicaid or FAMIS individual's household size. The disregard is only given if the individual is not eligible for coverage due to excess income. It is applicable to individuals in both full-benefit and limited-benefit covered groups.
- If the individual meets multiple Medicaid covered groups (and/or FAMIS) his gross income is compared first to the income limit of the group with the highest income limit under which the individual could be eligible.
- If the income exceeds the limit, the 5% FPL disregard can be allowed, and the income again is compared to the income limit.
- When considering tax dependents in the tax filer's household, the tax dependent may not necessarily live in the tax filer's home.
- Under MAGI counting rules, an individual may be counted in more than one household but is only evaluated for eligibility in his household.
- Use non-filer rules when the household does not file taxes.
- Use non-filer rules when the applicant is claimed as a tax dependent by someone outside the applicant's household.
- Non-filer rules may be used in multi-generational household.

3. Eligibility Based on MAGI

MAGI methodology is used for eligibility determinations for insurance affordability programs including Medicaid, FAMIS, the Advance Premium Tax Credit (APTC) and cost sharing reductions through the Health Insurance Marketplace for the following individuals:

- Children under 19
- Parent/caretaker relatives of children under the age of 18 - Low Income Families With Children (LIFC)
- Pregnant women, *including FAMIS MOMS and FAMIS Prenatal Coverage*
- Individuals Under Age 21
- Adults between the ages of 19 and 64 not eligible or enrolled in Medicare (effective January 1,2019)
- Individuals in Plan First.

4. Eligibility NOT Based on MAGI

MAGI methodology is NOT used for eligibility determinations for:

- individuals for whom the eligibility worker is not required to make an income determination:

Manual Title Virginia Medical Assistance Eligibility	Chapter M04	Page Revision Date April 2022
Subchapter Subject M04 MODIFIED ADJUSTED GROSS INCOME (MAGI)	Page ending with M0410.100	Page 3

- Supplemental Security Income (SSI) recipients.
- IV-E foster care or adoption assistance recipients
- Deemed newborns
- BCCPTA (Breast and Cervical Cancer Prevention and Treatment Act) enrollees
- Auxiliary Grants.

b. individuals who are eligible on the basis of being aged (age 65 or older), blind or disabled;

- individuals eligible for or enrolled in Medicare;
- individuals evaluated as Medically Needy (MN);

5. Adoption Assistance Children with Special Needs for Medical or Rehabilitative Care

An adoption assistance child *with special needs for medical or rehabilitative care* is subject to MAGI methodology for the child's initial Medicaid eligibility determination. These children are in their own household apart from parents and siblings. Parents' and siblings' income is not counted for these children.

6. MAGI Adults

a. MAGI methodology is used to determine eligibility for the following individuals with income at or below 138% (133% + 5% disregard) of the Federal Poverty Limit:

- Parents and caretaker- relatives with excess income for LIFC
- Disabled individuals not eligible for or entitled to Medicare or individuals alleging disability who have not been determined disabled
- Childless adults ages 19-64
- Incarcerated individuals ages 19-64. Incarcerated individuals are eligible for inpatient hospital services only; inpatient hospitalization may include long-term inpatient services, such as admission to a rehabilitation facility.
- Non-citizens eligible for emergency services only
- Individuals eligible for Long Term Care Services and Support (LTSS) ages 19-64
Note: See Chapter M14 for LTSS screening requirements.

b. The following individuals are not eligible under the MAGI ADULTS group:

- Individuals pregnant at initial application or redetermination of eligibility
- Individuals under the age of 19 or 65 and over
- Individuals eligible for or enrolled in Medicare Part A or B

Manual Title Virginia Medical Assistance Eligibility	Chapter M04	Page Revision Date October 2019
Subchapter Subject M04 MODIFIED ADJUSTED GROSS INCOME (MAGI)	Page ending with M0420.100	Page 4

- Individuals eligible in the following covered groups:
 - LIFC (parents and caretaker-relatives)
 - Pregnant Women
 - Adoption Assistance and Foster Care Children
 - Former Foster Care Children Under Age 26
 - BCCPTA
- Supplemental Security Income (SSI) recipients and protected individuals.

7. Children in Level C Psychiatric Residential Treatment Facilities (PRTFs)

Children placed in Level C PRTFs are considered absent from their home if their stay in the facility has been 30 consecutive days or more. A child who is placed in a Level C PRTF is considered NOT living with his parents for MAGI purposes as of the first day of the month in which the 30th day of psychiatric residential placement occurs. Long-term care rules do not apply. See M0520.100 B.3.

M0420.100 Definitions

A. Introduction

The definitions below are used in this chapter. Some of the definitions are also in subchapter M0310. Some of the definitions are from the IRC.

B. Definitions

1. Advance Premium Tax Credit (APTC)

is a tax credit that an individual or family with taxable income of at least 100% FPL but no more than 400% FPL can take in advance to lower their monthly health insurance premium. Eligibility for the APTC is determined by the federal HIM using MAGI rules for tax-filer households. Projected annual household income, rather than monthly income, is evaluated.

2. Attested Income

means the agency must review income information attested by the applicant and utilize online systems information verifications that are available to the agency without requiring verifications from the individual or family. The agency has ready access to Supplemental Nutrition Assistance Program (SNAP) and TANF records, some wage and payment information, information from SSA through SVES or SOLQ-I and other verified income in the eligibility record or system. Verification of income from available sources, including the VEC, may be used if it is dated within the previous 12 months.

3. Caretaker Relative

means a non-parent relative of a “dependent” child by blood, adoption, or marriage with whom the child lives, who assumes primary responsibility for the child’s care. When a parent is in the home, no adult relative other than a stepparent can be eligible for Medicaid in the LIFC covered group.

4. Child

means a natural, biological, adopted, or stepchild.

5. Childless Adult

a childless adult is someone who does not meet the definition of an LIFC parent or caretaker-relative.

6. Coverage Gap and Gap-filling Rule

occurs when the difference in eligibility rules between the APTC and Medicaid/FAMIS creates a situation in which an applicant may appear to be financially ineligible for both the APTC (household income is too low) and Medicaid or FAMIS (household income is too high). The gap-filling rule is applied in such cases to help mitigate the coverage gap.

Manual Title Virginia Medical Assistance Eligibility	Chapter M04	Page Revision Date October 2022
Subchapter Subject M04 MODIFIED ADJUSTED GROSS INCOME (MAGI)	Page ending with M0420.100	Page 5

1. **Dependent Child** means a child under age 18, or age 18 and a full-time student in a secondary school is expected to graduate prior to his 19th birthday, and who lives with his parent or caretaker-relative.
2. **Family** means the tax filer (including married tax filers filing jointly) and all claimed tax dependents.
3. **Family Size** means the number of persons counted as an individual's household. The family size of a pregnant woman's household includes the pregnant woman plus the number of children she is expected to deliver. When determining the family size of other individuals who have a pregnant woman in their household, the pregnant woman is counted as just one person.
4. **Household**

A household is determined by tax dependency. Parents, children and siblings are included in the same household. A child claimed by non-custodial parent is evaluated for eligibility in the household in which he is living and is also counted in the family size of the parent claiming him as a dependent. There can be multiple households living in the home.

This definition is different from the use of the word household in other programs such as the Supplemental Nutrition Assistance Program (SNAP).
5. **MAGI Adult** is an individual between the ages of 19-64 who is not eligible for or enrolled in Medicare and who has income at or below 138% of FPL.
6. **Non-filer Household** means individuals who do not expect to file a Federal tax return and/or do not expect to be claimed as a tax dependent for the taxable year in which an initial determination or renewal of eligibility is being made. A non-filer household can also be a child who lives in the household with his custodial parent who is claimed on his non-custodial parent's taxes.
7. **Parent** for the purposes of MAGI methodology, means a natural, biological, adoptive, or stepparent. When both the child's parent and stepparent are living in the home with the dependent child, both may be eligible in the LIFC covered group.
8. **Reasonable Compatibility**

means the income attested to (declared) by the applicant is within 20% of income information obtained from electronic sources OR that both the attested income and any electronic income verification are below the applicable income limit. If the income from both sources meets the 20% requirement or the income from both sources is below the limit, then the attestation is considered verified.

The applicant's income reported on the application is compared through a match with income verification available from electronic income sources. The eligibility/enrollment system will compare the reported income with the income from the data match and determine if reasonable compatibility exists. If reasonable compatibility exists, the income will be labeled verified, and no further verification of the income is necessary.

If reasonable compatibility does not exist or income data was not available through available electronic sources and the attestation is below the medical assistance income level, additional verification of income is required.

Manual Title Virginia Medical Assistance Eligibility	Chapter M04	Page Revision Date April 2019
Subchapter Subject M04 MODIFIED ADJUSTED GROSS INCOME (MAGI)	Page ending with M0430.100	Page 6

- 9. Sibling** means a natural, biological, stepsibling or half-sibling.
- 10. Tax-Dependent** means an individual for whom another individual claims a deduction for a personal exemption under section 151 of the Internal Revenue Code of 1986 for a taxable year.
- 11. Tax-filer Household** means individuals who expect to file a Federal tax return and/or who expect to be claimed as a tax dependent for the taxable year in which an initial determination or renewal of eligibility is being made.
- 12. Tax Filing Threshold** *is the minimum amount of income an individual must earn in order to be required to file a federal income tax return. The amount varies depending on the individual's age, marital status and number of dependents. The amount generally changes annually.*

M0430.100 MAGI HOUSEHOLD COMPOSITION

A. Introduction

The household composition is the basis for the financial eligibility determination for each person in the home who applies for MA. Eligibility is based on the countable income of the household members.

. Included in the MAGI household composition are:

- stepparents and stepchildren,
- children/siblings with income,
- children ages 21 and older who are claimed as tax dependents, and
- adult tax dependents.

B. Household Composition Rules

Tax filers and tax dependents use the tax household rules with limited exceptions. In most cases, the household is determined by principles of tax dependency.

- Parents, children and siblings are included in the same household.
- Stepparents and parents are treated the same.
- Children and siblings with or without income are included in the same household as the rest of the family.
- Older children are included in the family if claimed as tax dependent by the parents.
- Married couples living together are **always** included in each other's household even if filing separately.
- Married couples that are separated and not living together but file jointly are not included in each other's household.
- Dependent parents may be included in the household if they are claimed for income tax purposes.

1. Tax Filer Household Composition

The tax filer household is determined based on the rules of tax dependency. Parents, children and siblings are included in the same household. The tax filer's household consists of the tax filer and all tax dependents who **are expected to be claimed for the current year**. This could include non-custodial children claimed by the tax filer, but living outside the tax filer's home and dependent parents claimed by the tax filer, but living outside the tax filer's home.

Manual Title Virginia Medical Assistance Eligibility	Chapter M04	Page Revision Date April 2022
Subchapter Subject M04 MODIFIED ADJUSTED GROSS INCOME (MAGI)	Page ending with M0430.100	Page 7

The tax filer household is composed of the individual who expects to file a tax return this year and does not expect to be claimed as a dependent by another tax filer. The household consists of the tax filer and all individuals the tax filer expects to claim as a tax dependent.

2. Tax Dependent Household Composition

means all dependents expected to be claimed by another tax filer for the taxable year. Except for adoption assistance children *with special needs for medical or rehabilitative care* and children who have been in a Level C PRTF for at least 30 consecutive days, the household of a tax dependent who does not meet an exception in M0430.100 B.2 below is the same as the tax filer's household.

If the tax dependent is living with a tax filer other than a parent or spouse or is living separately from the parent claiming him as a dependent, the tax dependent is included in the tax filer household, but the tax filer is NOT included in the tax dependent's household.

An adoption assistance child *with special needs for medical or rehabilitative care* or a child who has been in a Level C PRTF for at least 30 consecutive days is in his own household with no parents or siblings.

Exceptions to the tax household composition rules apply when:

- individuals other than biological, adopted or stepchildren are claimed as tax dependents,
- children are claimed by non-custodial parents,
- children under age 19 live with both parents and expect to be claimed as a tax dependent by one parent, but parents (married or unmarried) do not expect to file jointly,
- the tax dependent is *an* adoption assistance child *with special needs for medical or rehabilitative care* or a child who has been in a Level C PRTF for at least consecutive 30 days.

3. Non Filer Household Composition

The Non Tax Filer household rules mirror the tax filer rules to the maximum extent possible.

- The household consists of parents and children under age 19.
Exception: An adoption assistance child *with special needs for medical or rehabilitative care* or a child who has been in a Level C PRTF for at least 30 consecutive days is in his own household with no parents or siblings.
- Non-filer rules are used when a child is claimed as a tax dependent of someone not living in the home.
- Non-filer rules are used in the case of a multi-generational household where the tax dependent is also the parent of a child.
- Spouses, parents, stepparents and children living together are included in the same household. Exception: An adoption assistance child *with special needs for medical or rehabilitative care* or a child who has been in a Level C PRTF for at least 30 consecutive days is in his own household with no parents or siblings.
- Children under age 19 living with a relative other than a parent are included in a household only with siblings/stepsiblings under age 19 who also live in the home.

Manual Title Virginia Medical Assistance Eligibility	Chapter M04	Page Revision Date April 2019
Subchapter Subject M04 MODIFIED ADJUSTED GROSS INCOME (MAGI)	Page ending with M0430.200	Page 8

- For non-filers, a “child” is defined as under age 19.

4. Married Couple

In the case of a married couple living together, the spouse is always included in the household of the other spouse, regardless of their tax filing status. This includes a tax dependent living with both a tax filer parent AND the dependent’s spouse. The tax dependent’s household includes his spouse, the tax filer, any other parent in the home, and any siblings in the home who are also claimed by the same tax filer.

5. Tax Filer is Under Age 19

If the tax filer is under age 19, lives in the home with his parent(s) AND is not expected to be claimed as a dependent by anyone, the parent(s) are included in the child’s household.

6. Gap-filling Rule

States are required to use household income, as calculated by the federal HIM for the APTC eligibility determination, to determine eligibility for Medicaid or FAMIS if **all** of the following conditions apply:

- The individual is in a tax filer household* (including those who meet a tax dependent household exception in M0430.100 B.2). APTC methodology does not apply to non-filer households.
- Current monthly household income, using Medicaid/FAMIS MAGI-based methods is over the applicable *monthly* income limit (including the 5% FPL disregard) for the individual’s covered group.
- The *total* income already received *plus* projected income for the **calendar** year in which eligibility is being determined, using MAGI methods applied by the HIM for the purposes of APTC eligibility, is below 100% FPL (i.e. the lower income threshold for APTC eligibility). See M04, Appendix 1.

This requirement is referred to the gap-filling rule. See M0450.400 for gap-filling rule evaluation procedures and examples.

M0430.200 TAX FILER HOUSEHOLD EXAMPLES

A. Married Parents and Their Tax Dependent Children

Sam and Sally are a married couple. They file taxes jointly and claim their two children Susie and Sarah as tax dependents. All of them applied for MA.

The MAGI household is the same as their tax household because the tax filers are a married couple filing jointly and claiming their dependent children. No additional individuals live in the home.

Ask the following questions for each tax dependent to determine if exceptions exist:

- Is Susie the tax dependent of someone other than a spouse or a biological, adopted, or stepparent? No, also applies to Sarah
- Is Susie a child living with both parents, but the parents do not expect to file a joint tax return? No, also applies to Sarah
- Is Susie a child who expects to be claimed by a non-custodial parent? No, also applies to Sarah

Manual Title Virginia Medical Assistance Eligibility	Chapter M04	Page Revision Date October 2018
Subchapter Subject M04 MODIFIED ADJUSTED GROSS INCOME (MAGI)	Page ending with M0430.200	Page 9

The following table shows each person's MAGI household:

Person	# - Household Composition	Reason
Sam	4 - Sam, Sally, Susie, Sarah	Tax-filer & dependents
Sally	4 - Sally, Sam, Susie, Sarah	Tax filer & dependents
Susie	4 - Susie, Sam, Sally, Sarah	Tax dependent, tax-filer parents and other tax dependent
Sarah	4 - Sarah, Sam, Sally, Susie	Tax dependent, tax-filer parents and other tax dependent

B. Parent, Stepparent, and Parent's Child (not child of stepparent)

John and Joan are a married couple. They file taxes jointly and claim Joan's son by a first marriage, JP age 17, as a tax dependent. All of them applied for MA.

The tax household includes John, Joan and JP. Since no one is claimed as a tax dependent by anyone else, the tax household and MAGI household are the same.

Ask the following questions for each tax dependent to determine if exceptions exist:

- Is JP the tax dependent of someone other than a spouse or a biological, adopted, or stepparent? No
- Is JP a child living with both parents, but the parents do not expect to file a joint tax return? No
- Is JP a child who expects to be claimed by a non-custodial parent? No

The following table shows each person's tax filer household:

Person	# - Household Composition	Reason
John	3 - John, Joan, JP	Tax-filer & dependents
Joan	3 - Joan, John, JP	Tax-filer & dependents
JP	3 - JP, Joan, John	Tax dependent and tax-filer parents

C. Husband and Wife (Childless Adults)

Regina and Tyrone, both age 33, are a married couple. Regina is unemployed. The couple file taxes together. Both applied for MA.

Person	#-Household Composition	Reason
<i>Regina</i>	<i>2-Regina, Tyrone</i>	<i>Tax-filers</i>
<i>Tyrone</i>	<i>2-Tyrone, Regina</i>	<i>Tax-filers</i>

D. Father and Child

Elyse, age 20, is single and lives with her father. Her father does not claim her on his taxes. Elyse applied for MA.

Person	# - Household Composition	Reason
<i>Elyse</i>	<i>1-Elyse</i>	<i>Tax-filer</i>

Manual Title Virginia Medical Assistance Eligibility	Chapter M04	Page Revision Date October 2018
Subchapter Subject M04 MODIFIED ADJUSTED GROSS INCOME (MAGI)	Page ending with M0430.300	Page 10

M0430.300 NON TAX FILER HOUSEHOLD EXAMPLES

A. Example for non-filer HH with child over age 19

Jill lives with her daughter, Lea, age 24 and her son, Mike, age 15. Lea and Mike's father is deceased. Jill and Mike receive Social Security survivor's benefits. They do not file taxes. All applied for MA. The following table shows each person's MAGI household:

For individuals who neither file a tax return nor are claimed as a tax dependent for the taxable year in which an initial determination or renewal of eligibility is being made, the household consists of the individual and, if living with the individual:

- the individual's spouse
- the individual's natural, adopted and stepchildren under the age 19
- the individual's natural, adopted and stepparents and natural, adoptive and step siblings under the age of 19.

Person	# - Household Composition	Reason
Jill	2 Jill, Mike	Non tax filer household-parent and child under age 19
Mike	2 Mike, Jill	Non tax filer household-child under age 19 and parent
Lea	1-Lea	Non-filer over age 19 (MAGI Adults)

B. Married Parents and Their Dependent Children

Josh and Penny are a married couple. They live with their children Daisy and Kate, both under age 18. They do not expect to file federal taxes this year so non-filer rules are used. All applied for MA. The following table shows each person's MAGI household:

Person	# - Household Composition	Reason
Josh	Josh, Penny, Daisy, Kate	Non -filer household-married parents living with 2 children in common
Penny (Spouse)	Josh, Penny, Daisy, Kate	Non- filer household-married parents living with 2 children in common
Daisy	Josh, Penny, Daisy, Kate	Non- filer household-married parents living with 2 children in common
Kate	Josh, Penny, Daisy, Kate	Non- filer household-married parents living with 2 children in common

Manual Title Virginia Medical Assistance Eligibility	Chapter M04	Page Revision Date October 2018
Subchapter Subject M04 MODIFIED ADJUSTED GROSS INCOME (MAGI)	Page ending with M0430.400	Page 11

C. Parent, Stepparent, and Parent's Child (not child of stepparent)

Paul and Pattie are a married couple. They live with Pattie's son by a first marriage, Edgar age 17. They do not plan to file taxes this year. The household for the MAGI determination is the non-filer household which includes Paul (stepparent/spouse), Pattie (parent/spouse) and Edgar (child/stepchild). All of them applied for MA. The following table shows each person's tax filer household:

Person	# - Household Composition	Reason
Paul	3-Paul, Pattie, Edgar	Non filers – spouses, parent, stepparent and child/stepchild under age 19
Pattie	3-Pattie, Paul, Edgar	Non filers - spouses, parent, stepparent and child/stepchild under age 19
Edgar	3-Edgar, Paul, Pattie	Non filer lives with parents

M0430.400 TAX FILER AND NON TAX FILER HOUSEHOLD EXAMPLES

A. Parent and Child Claimed by Non-custodial Parent

Linda and her daughter, Liza (age 6), live in the home. Linda works and claims only herself as a tax dependent. Liza is claimed by her father who does not live in the home. Both applied for MA.

Linda is a tax filer claiming only herself. Her tax household and MAGI household are the same. Liza is a tax dependent claimed by a non-custodial parent so a tax dependent exception exists and non-filer rules must be used. The following table shows each person's MAGI household:

Person	# - Household Composition	Reason
Linda	1– Linda	Tax-filer with no tax dependent
Liza	2 – Liza, Linda	Non-filer child and parent living in the home

B. Three Generation Household – Grandmother is Tax Filer

Mary is a working grandmother who claims her daughter, Samantha, age 20 and a full-time student, and granddaughter, Joy, age 2 as tax dependents. Although Samantha has a part-time job, she is not required to file taxes. All applied for MA.

The tax household includes Mary (the tax filer), Samantha (Mary's dependent child), and Joy (Mary's tax dependent). Mary's MAGI household is the same as her tax household and includes Mary, Samantha and Joy. Samantha's MAGI household is the same as Mary's because Samantha is a tax dependent and no tax dependent exceptions exist. Joy's is also a tax dependent, but meets an exception because she is not the child of the tax filer. Her MAGI household is a non-filer household and includes just Samantha and Joy; parent and child living in the home.

Manual Title Virginia Medical Assistance Eligibility	Chapter M04	Page Revision Date October 2018
Subchapter Subject M04 MODIFIED ADJUSTED GROSS INCOME (MAGI)	Page ending with M0430.400	Page 12

The following table shows each person's MAGI household:

Person	# - Household Composition	Reason
Mary	3 – Mary, Samantha, Joy	Tax-filer & dependents
Samantha	3 – Samantha, Mary, Joy	Tax-filer & dependents
Joy	2 – Joy, Samantha	Non-filer parent and child

C. Three Generation Household – Second Generation Tax Filer

Rose is a tax dependent of her daughter, Lee, age 18. Lee works and claims her son, Peter, and Rose as tax dependents. All applied for MA.

The tax household includes Lee (tax filer), Rose (tax dependent), and Peter (tax dependent). Rose is not the child of the tax filer so a tax dependent exception exists and non-filer rules are used for her MAGI household. Lee is a tax filer with dependents so her MAGI household is the same as her tax household. Peter is a tax dependent living with his tax filer parent so his MAGI household is the same as the tax household.

The following table shows each person's MAGI household:

Person	# - Household Composition	Reason
Rose	2– Rose and Lee	Non-filer, has child under age 19
Lee	3 – Lee, Rose and Peter	Tax-filer with dependents
Peter	3 – Peter, Lee and Rose	Tax dependent lives with tax-filer parent and parent's other tax dependent

D. Two Parents Not Married To Each Other, One Is Tax Filer With Children, One Is Child Of One Parent And Other Is Child-In-Common

Bob and Ann live together with Bob's son, John age 14, and their child-in-common, Jane age 12. Ann works and files taxes claiming both children as dependents. Bob does not file taxes. All applied for MA.

Bob is a non-filer and is not claimed as a tax dependent of anyone. His MAGI household uses non-filer rules and includes Bob and his children living in the home. Ann is a tax filer with tax dependents; her MAGI household is the same as her tax household. John is a tax dependent of someone other than his parent so non-filer rules are used. John's MAGI household includes John, his father Bob and his sibling Jane. Jane is a tax dependent of her tax filer mother, but her parents are not filing jointly so non-filer rules are used and her MAGI household includes her parents and siblings.

The following table shows each person's MAGI household:

Person	# - Household Composition	Reason
Bob	3 - Bob, John and Jane	Non-filer with children
Ann	3 – Ann, John and Jane	Tax filer and her dependents
John	3 - John, Bob, and Jane	Non-filer with parent and siblings-no direct relation to tax filer Ann
Jane	4 – Jane, Bob, Ann and John	Non-filer child with 2 parents and half-sibling

Manual Title Virginia Medical Assistance Eligibility	Chapter M04	Page Revision Date October 2018
Subchapter Subject M04 MODIFIED ADJUSTED GROSS INCOME (MAGI)	Page ending with M0430.400	Page 13

E. Two Parents Not Married To Each Other, Both File Taxes; 1 Child-In-Common, One Child Not In Common; Mom Is Pregnant

Jill and Max are both tax filers. Also in the home are Max's son, Mark and their child-in-common, May. Jill is pregnant, expecting 1 baby. Max claims both children on his taxes. All applied for MA.

Jill is a tax filer who claims no additional dependents. Her MAGI household is the same as her tax household for Medicaid coverage in the LIFC covered group and includes her unborn child when determining her eligibility as a pregnant woman. Max is a tax filer with two dependent children; his MAGI household is the same as his tax household. Mark is a tax dependent living with his tax filer parent and no exceptions exist; his MAGI household is the same as the tax household. May is a tax dependent, but her parents are not filing jointly so an exception exists and non-filer rules are used for her MAGI household.

The following table shows each person's MAGI household:

Person	# - Household Composition	Reason
Jill	2 – Jill and 1 unborn	Tax-filer pregnant woman; no other dependents
Jill	1 – Jill	Tax filer household for determining eligibility as LIFC
Max	3 – Max, Mark and May	Tax filer and two dependent children
Mark	3 – Mark, Max and May	Tax filer rules, tax household rules for person filing for him
May	4 – May, Max, Jill and Mark	Non-filer rules child with parents not filing jointly, non-married parents and half sibling.

F. Tax Filer, Spouse, Their Child, His Child Not Living In the Home

Gerry and Bree are married and file their taxes jointly. Also in the home is their son, Tad age 7, whom they claim as their dependent. They also claim Gerry's daughter, Tansy age 10, who does not live with them. Gerry, Bree and Tad applied for MA.

Gerry and Bree are tax filers who are married, filing jointly claiming two dependent children. Their MAGI household is the same as their tax household.

Tad is a tax dependent child and no tax dependent exceptions exist; Tad's MAGI household is the same as the tax household. The following table shows each person's MAGI household:

Person	# - Household Composition	Reason
Gerry	4 – Gerry, Bree, Tad and Tansy	Tax filers and dependent children
Bree	4 – Gerry, Bree, Tad and Tansy	Tax filers and dependent children
Tad	4 – Gerry, Bree, Tad, Tansy	Tax filer and dependents

Manual Title Virginia Medical Assistance Eligibility	Chapter M04	Page Revision Date July 2021
Subchapter Subject M04 MODIFIED ADJUSTED GROSS INCOME (MAGI)	Page ending with M0440.100	Page 14

G. Tax Filer, Her Son and Her Nephew

Daria lives with her son, Jack age 11, and her nephew Billy age 8. All applied for MA.

Daria is a tax filer who claims her son and nephew as dependents. Her MAGI household is the same as her tax household. Jack is a tax dependent and no exceptions exist; his MAGI household is the same as the tax household. Billy is a tax dependent claimed by a tax filer who is not his parent so an exception exists and non-filer rules are used. Billy's MAGI household consists of Billy only because he has no parents or siblings in the home. The following table shows each person's MAGI household:

Person	# - Household Composition	Reason
Daria	3 – Daria, Jack and Billy	Tax filer and dependents
Jack	3 – Daria, Jack and Billy	Tax filer and dependents
Billy	1 – Billy	Non filer rules; Daria is not his parent, Jack is not his sibling

H. Tax Filer, Spouse, Their Child, His Parent Not Living In the Home

Dave lives with his wife Jean and their child, Cathy age 8. Dave files taxes separately from his wife who files her own taxes each year. Dave claims their child Cathy and his mother, Becky, as his tax dependents. Dave, Jean and Cathy applied for MA.

Dave's MAGI household includes the individuals in his tax household and his wife, Jean because married spouses are always included in each other's MAGI household. Jean is also a tax filer with no additional dependents. Jean's MAGI household includes Dave because married spouses are always included in each other's MAGI household. Cathy is a tax dependent whose parents are not filing jointly so non-filer rules are used; her MAGI household includes herself and her parents. The following table shows each person's MAGI household:

Person	# - Household Composition	Reason
Dave	4 – Dave, Jean, Cathy and Becky	Tax filer, spouse, dependent child and dependent parent
Jean	2 – Dave, Jean,	Tax filer and spouse
Cathy	3 – Cathy, Dave, Jean	Non filer rules; child and parents in home

M0440.100 HOUSEHOLD INCOME

A. General Rule

The income counted under MAGI rules is the income counted for federal tax purposes with few exceptions. All taxable income sources and some non-taxable income sources are counted for the MA eligibility determinations.

Whenever possible, income, *including income from self-employment*, reported on the application will be verified through available electronic data sources. The agency must utilize online systems that are available to the agency without requiring verifications from the individual or family. If no data sources exist to verify the attestation, and the attestation is below the medical assistance income level, documentation of income is required. The agency has ready access to Supplemental Nutrition Assistance Program (SNAP) and TANF records, some wage and payment information and information from SSA through SVES or SOLQ-I. Verification of income from available sources, including the VEC, may be used if it is dated within the previous 12 months. The agency must include in each applicant's case record facts to support the agency's decision on the case.

Manual Title Virginia Medical Assistance Eligibility	Chapter M04	Page Revision Date October 2022
Subchapter Subject M04 MODIFIED ADJUSTED GROSS INCOME (MAGI)	Page ending with M0440.100	Page 15

The reported income of a child must be verified regardless of whether or not the attested income is above or below the tax-filing threshold amount.

If an income calculation must be made, use the information in subchapter M0710 for estimating income, subchapter M0720 for sources of earned income, and subchapter M0730 for sources of unearned income with the exceptions in B. below. The sources of income listed in this section are organized in table form in M04, Appendix 7.

B. MAGI Income Rules

1. Income That is Counted

- a. Gross earned income is counted. There are no earned income disregards.
- b. Earnings and unearned income, including Social Security benefits, of everyone in the household are counted, except the income of
 - a tax dependent *of any age* who is claimed by his parent(s), or
 - a child under 19 in a non-filer household who is living with a parent or parents

who is not required to file taxes because the tax filing threshold is not met.

For children and tax dependents, Social Security income only counts toward the total household income if the individual is required to file a federal tax return. *Any Social Security benefits the child or dependent may receive do not count as unearned income in determining whether the tax filing threshold is met.*

- c. Income of a child under 19 in a non-filer household who is NOT living with a parent or parents and who is not required to file taxes because the tax filing threshold is not met.

When determining the total household income of a child who is NOT living with a parent (for example, living with a grandparent) *or an individual being claimed by a non-parent*, the *dependent's* income is always counted in determining *their own* eligibility, even if the income is below the tax filing threshold.

Effective, January 1, 2022, the Tax Filing Threshold for MAGI income counting purposes is \$1,100 in unearned income and \$12,550 in earned income. Social Security benefits do not count as unearned income in determining whether the tax filing threshold is met.

- d. Interest, including tax-exempt interest, is counted.
- e. Foreign income is counted.
- f. Stepparent income is counted.

Manual Title Virginia Medical Assistance Eligibility	Chapter M04	Page Revision Date October 2022
Subchapter Subject M04 MODIFIED ADJUSTED GROSS INCOME (MAGI)	Page ending with M0440.100	Page 16

- g. Effective January 1, 2019, alimony received is not countable.

Alimony received prior to January 1, 2019, is countable. An individual whose divorce decree was finalized prior to January 1, 2019, has the option with the IRS to adopt the new IRS alimony rule by modifying the divorce agreement. If an individual whose divorce decree was finalized prior to January 1, 2019, does not want alimony received on or after January 1, 2019 to be countable for the MAGI income determination, the individual must provide a copy of the modified divorce agreement to the eligibility worker.

- h. An amount received as a lump sum is counted only in the month received
- i. Military pay based upon age or years of service (other types of military pay are also counted and excluded; see M0720.290)
- j. Census income.
- k. Unemployment Compensation is counted as unearned income.

Exception: Additional benefits of \$600 per week paid under the under the Federal Pandemic Unemployment Compensation program are not counted. See M0440.100 B.2.n.

2. Income That is Not Counted

- a. Child support received is not counted as income (it is not taxable income).
- b. Workers Compensation is not counted.
- c. When a child *or other dependent* is included in a parent or stepparent's household, the *individual's* income is not countable as household income unless *they are* required to file taxes because the tax-filing threshold is met. Any Social Security benefits the individual may have do not count in determining whether the tax filing threshold is met.
- d. Veterans benefits which are **not** taxable in IRS Publication 525 are not counted:
- Education, training, and subsistence allowances,
 - Disability compensation and pension payments for disabilities paid either to veterans or their families,
 - Veterans' insurance proceeds and dividends paid either to veterans or their beneficiaries, including the proceeds of a veteran's endowment policy paid before death,
 - Grants for homes designed for wheelchair living and motor vehicles for veterans who lost their sight or the use of their limbs,
 - Interest on insurance dividends left on deposit with the VA,
 - Benefits under a dependent-care assistance program,
 - The death gratuity paid to a survivor of a member of the Armed Forces who died after September 10, 2001, or
 - Payments made under the VA's compensated work therapy program.
- e. For divorce agreements finalized on or after January 1, 2019, no deduction is allowed for alimony paid. For divorce agreements finalized prior to January 1, 2019, alimony **paid** to a separated or former spouse outside the home is deducted from countable income.

Manual Title Virginia Medical Assistance Eligibility	Chapter M04	Page Revision Date July 2021
Subchapter Subject M04 MODIFIED ADJUSTED GROSS INCOME (MAGI)	Page ending with M0440.100	Page 16a

- f. Interest paid on student loans is deducted from countable income.
- g. Gifts, inheritances, and proceeds from life insurance are not counted.
- h. A parsonage allowance is not counted.
- i. Scholarships, awards, or fellowship grants used for education purposes and not for living expenses are not counted.
- j. Student loans

Effective January 1, 2019, student loan debt forgiven due to death or disability of student is not counted as income.

Amounts that an employer paid in 2020 for an employee's student loan principal and interest are not counted in the employee's MAGI.

- k. Difficulty of Care Payments, which include (1) payments designated by the payer as compensation for providing additional care that is required for a physically, mentally or emotionally disabled qualified foster care individual living in the provider's home and (2) payments to care providers who provide care under a Medicaid home and-community-based Waiver to an individual in the care provider's home. The care provider's home is the residence in which the care provider resides and regularly performs the routines of the care provider's life. If the care provider moves into an individual's home to care for that individual and performs the routines of the care provider's life in that residence, it is considered the care provider's home.
- l. General Welfare Payments for Indian Tribes are not countable. To qualify under the general welfare exclusion, the payments must be made pursuant to a governmental program for the promotion of the general welfare based on need and not represent compensation for services (See <https://www.irs.gov/pub/irs-drop/n-12-75.pdf>)
- m. Kinship Guardianship Payments are not income. These payments are a stipend paid to a relative caregiver who has assumed custody of a child as an alternative to that child remaining in foster care.
- n. Under the Federal Pandemic Unemployment Compensation Program, eligible individuals who are collecting certain Unemployment Compensation, including regular unemployment compensation, will receive an additional \$600 in federal benefits per week for weeks of unemployment ending on or before July 31, 2020. **The \$600 weekly Pandemic Unemployment Compensation payments (monthly equivalent of \$2,580) are not counted as income.**
- o. *COVID-19 relief payments provided under federal law* are not counted as income.

Manual Title Virginia Medical Assistance Eligibility	Chapter M04	Page Revision Date April 2022
Subchapter Subject M04 MODIFIED ADJUSTED GROSS INCOME (MAGI)	Page ending with M0440.100	Page 16b

- p. Tax filers who do not itemize their deductions are permitted to deduct from their MAGI up to \$300 in charitable contributions made by an eligible individual in tax years beginning in 2020.

3. Income From Self-employment

The agency must utilize online systems that are available to the agency to attempt to verify self-employment income. If the income cannot be verified through online data sources, an individual reporting self-employment income must provide verification of business expenses, income, *and applicable adjustments with forms or schedules including but not limited to* IRS Form 1040, *Schedule I*, Schedule C (business expenses), Schedule E (expenses from rental income) and Schedule F (expenses from farming). If the individual alleges that his current income is not accurately represented by tax records, obtain additional information (such as business records) that documents current income.

Manual Title Virginia Medical Assistance Eligibility	Chapter M04	Page Revision Date October 2018
Subchapter Subject M04 MODIFIED ADJUSTED GROSS INCOME (MAGI)	Page ending with M0440.100	Page 17

Business expenses are expenses directly related to producing goods or services and without which the goods or services could not be produced. Allowable business expenses include, but are not limited to, the following:

- payments on the interest of the purchase price of, and loans for, capital assets such as real property, equipment, machinery and other goods of a durable nature;
- insurance premiums;
- legal fees;
- expenses for routine maintenance and repairs;
- advertising costs;
- bookkeeping costs.
- depreciation and capital losses. If the losses exceed income, the resulting negative dollar amount offsets other countable income.

Expenses that are not deducted for MAGI purposes include the following: payments on the principal of the purchase price of, and loans for, capital assets, such as real property, equipment, machinery and other goods of a durable nature; the principal and interest on loans for capital improvements of real property; net losses from previous periods; federal, state, and local taxes; personal expenses, entertainment expenses, and personal transportation; and money set aside for retirement purposes.

4. Private Accident/Health Plan Benefits

Private accident, health plan, and disability benefits are benefits paid from a plan provided by an employer or purchased by the individual. Social Security benefits and Supplemental Security Income (SSI) are not private benefits.

Benefits received for personal injury or sickness through an accident or health plan that is paid for by an employer are countable income.

If the individual pays the entire cost of the accident or health plan, benefits received from the plan are NOT income.

If both the employer and the individual pay for the plan, only the benefits received through the employer's payments are income.

5. American Indian-Alaska Native Payments

In addition, the following payments to American Indian/Alaska Natives are not counted as income:

- a. distributions received from the Alaska Native Corporations and Settlement Trusts (Public Law 100-241),
- b. distributions from any property held in trust, subject to Federal restrictions, located within the most recent boundaries of a prior Federal reservation, or otherwise under the Supervision of the Interior,

Manual Title Virginia Medical Assistance Eligibility	Chapter M04	Page Revision Date April 2022
Subchapter Subject M04 MODIFIED ADJUSTED GROSS INCOME (MAGI)	Page ending with M0440.100	Page 18

- c. distribution and payments from rents, leases, rights of way, royalties, usage rights, or natural resource extractions and harvest from:
 - rights of any lands held in trust located within the most recent boundaries of a prior Federal reservation or under the supervision of the Secretary of the Interior,
 - federally protected rights regarding off-reservation hunting, fishing, gathering or usage of natural resources,
 - distributions resulting from real property ownership interests related to natural resources and improvements,
 - located on or near a reservation or within the most recent boundaries of a prior Federal reservation, or
 - resulting from the exercise of federally-protected rights relating to such property ownership interests.
- d. payments resulting from ownership interests in or usage rights to items that have unique religious, spiritual, traditional, or cultural significance or right or rights that support subsistence or a traditional lifestyles according to applicable Tribal Law or custom.
- e. Student financial assistance provided under the Bureau of Indian Affairs Education Program.

6. Income from Crowdsourcing

Crowdsourcing or crowdfunding is a practice to raise funds online for donations, fund a project, or underwrite a venture by requesting small amounts of money from a large number of people. Examples of crowdsourcing websites include GoFundME, YouCaring, Kickstarter, or IndieGoGo. The treatment of the funds as income depends on the reason the funds were solicited.

If the individual or someone on his behalf is raising donations to go toward medical costs or bills, money raised is considered a gift and is not countable under MAGI rules.

If there is an exchange of goods or services *between the beneficiary and donor*, money raised is considered earned income and is countable. Platform fees or costs, including the cost per transaction, percentage of donation to the online host site, and costs to a payment processor, are not counted as income.

7. Withdrawals from Retirement Funds

Money that is withdrawn from retirement funds, such as Individual Retirement Accounts (IRAs) and 401K accounts, on an early or emergency basis (i.e. before the individual is eligible to receive periodic payments) is not income. It is the conversion of the individual's resource from one form to another.

Manual Title Virginia Medical Assistance Eligibility	Chapter M04	Page Revision Date January 2021
Subchapter Subject M04 MODIFIED ADJUSTED GROSS INCOME (MAGI)	Page ending with M0440.100	Page 18a

**C. Monthly Income
Determinations**

Medicaid and FAMIS income eligibility is determined using current monthly income. **Sources and amounts of income that are verified electronically and are reasonably compatible do not require additional verification.**

When income cannot be verified electronically **or** the information reported is not reasonably compatible (see M0420.100 for the definition), the individual must be asked to provide current verification of the household income so a point-in-time income eligibility determination can be made.

Manual Title Virginia Medical Assistance Eligibility	Chapter M04	Page Revision Date July 2021
Subchapter Subject M04 MODIFIED ADJUSTED GROSS INCOME (MAGI)	Page ending with M0440.100	Page 19

- C. Steps for Calculating MAGI** For tax filers whose income is verified in the Hub as being reasonably compatible, no MAGI calculation is required.
For non-filers or any other individuals whose income cannot be verified by the Hub, use the following steps for calculating an individual's MAGI. Subtract or include any deductions listed below as reported by the individual.

Adjusted Gross Income (AGI)	
Include: <ul style="list-style-type: none"> • Wages, salaries, tips, etc. • Taxable interest • Taxable amount of pension, annuity or Individual Retirement Account (IRA) distributions and Social Security benefits • Business Income, farm income, capital gain, other gains (or loss) • Unemployment Compensation • Ordinary dividends • Rental real estate, royalties, partnerships • S corporations, trusts, etc. • Taxable refunds, credits, or offset of state and local income taxes • Other income 	Deduct: <ul style="list-style-type: none"> • Certain self-employment expenses • Student loan interest deduction • Educator expenses • IRA deduction • Moving expenses • Penalty on early withdrawal of savings • Health savings account deduction • Domestic production activities deduction • Certain business expenses of reservists, performing artists, and fee-basis government officials • Alimony paid prior to January 1, 2019 (but not child support paid) • For tax filers who do not itemize and report the deduction, up to \$300 in charitable contributions made by an eligible individual in tax years beginning in 2020.
Do Not Include: Veteran's disability payments, Worker's Compensation or child support received. Pre-tax contributions, such as those for child care, commuting, employer-sponsored health insurance, flexible spending accounts and retirement plans such as 401(k) and 403(b), are not included in AGI but are not listed above because they are already subtracted out of W-2 wages and salaries, amounts that an employer paid in 2020 for an employee's student loan principal and interest.	
Note: Check the IRS website for detailed requirements for the income and deduction categories above.	
Add (+) back certain income	<ul style="list-style-type: none"> • Non-taxable Social Security benefits • Tax –exempt interest • Foreign earned income and housing expenses for Americans living abroad
Exclude (-)from income	<ul style="list-style-type: none"> • Social Security benefits received by a child are not countable for his eligibility when a parent is in the household, unless the child is required to file taxes. • Scholarships, awards, or fellowship grants used for education purposes and not for living expenses • Certain American Indian and Alaska Native income derived from distributions, payments, ownership interests, real property usage rights and student financial assistance • Gifts, inheritances, and proceeds from life insurance • An amount received as a lump sum is counted only in the month received. • Parsonage allowance • Effective January 1, 2019, student loan debt forgiven due to death or disability of student is not counted as income. • Grants for homes designed for wheelchair living and motor vehicles for veterans who lost their sight or the use of their limbs • Difficulty of Care Payments • General Welfare Payments for Indian Tribes • Kinship Guardianship Payments • Pandemic Unemployment Compensation payments paid under the Federal Pandemic Unemployment Compensation Program. • <i>COVID-19 relief payments provided under federal law</i>

Manual Title Virginia Medical Assistance Eligibility	Chapter M04	Page Revision Date April 2022
Subchapter Subject M04 MODIFIED ADJUSTED GROSS INCOME (MAGI)	Page ending with M0450.100	Page 20

M0450.100 STEPS FOR DETERMINING MAGI-BASED ELIGIBILITY

A. Determine Household Composition

1. Does the individual expect to file taxes?

- a. If No - Continue to Step 2
- b. If Yes - Does the individual expect to be claimed as a tax dependent by anyone else?
 - 1) If No - the household consists of the tax filer, a spouse living with the tax filer, and all persons whom the tax filer expects to claim as a tax dependent. For a tax filer under age 19, parents living in the home are also in the individual's household.
 - 2) If Yes - Continue to Step 2

2. Does the Individual Expect to be Claimed As a Tax Dependent?

- a. If No - Continue to Step 3
- b. If Yes - Does the individual meet **any** of the following exceptions?
 - 1) the individual expects to be claimed as a tax dependent of someone other than a spouse or a biological, adopted, or stepparent; **or**
 - 2) the individual is a child (under age 19) living with both parents, but the parents do not expect to file a joint tax return; **or**
 - 3) the individual is a child who expects to be claimed by a non-custodial parent; **or**
 - 4) the child is an adoption assistance child *with special needs for medical or rehabilitative care*.

If No to 1) through 4) above - the household is the household of the tax filer claiming her/him as a tax dependent.

If Yes to any of 1) through 4) above - Continue to Step 3.

3. Individual Is Neither Tax Filer Nor Tax Dependent Or Meets An Exception In 2. b Above

For individuals, other than adoption assistance children *with special needs for medical or rehabilitative care*, who neither expect to file a tax return nor expect to be claimed as a tax dependent, as well as tax dependents who meet one of the exceptions in 2.b above, the household consists of the individual and, if living with the individual:

- the individual's spouse;
- the individual's natural, adopted and step children under the age 19; and
- In the case of individuals under age 19, the individual's natural, adopted and stepparents and natural, adoptive and stepsiblings under age 19.

The household of an adoption assistance child *with special needs for medical or rehabilitative care* consists only of the child.

Manual Title Virginia Medical Assistance Eligibility	Chapter M04	Page Revision Date October 2018
Subchapter Subject M04 MODIFIED ADJUSTED GROSS INCOME (MAGI)	Page ending with M0450.100	Page 21

B. Determine the MA Income for Each Member of the Household

1. **Is Any Household Member The Child Or Expected Tax Dependent Of Another Member Of The Household?**
 - a. If yes - is the individual expected to be required to file a tax return?
 - 1) If yes, continue to Step 2 and include child's income in total household income.
 - 2) If no, continue to Step 2, but do not include child's income in total household income.
 - b. If no, continue to Step 2.
2. **Determine MAGI Income For Each Member**

Determine MAGI-based income of each member of the individual's household, unless income of such member is flagged as not being counted in step 1. Recall that, for purposes of MA eligibility, the following rules apply:

 - An amount received as a lump sum is counted as income only in the month received.
 - Scholarships, awards or fellowship grants used for education purposes and not for living expenses are excluded from income.
 - Certain distributions, payments and student financial assistance for American Indians/Alaska Natives are excluded from income.
 - Child support is not countable income.
 - Social Security benefits received by a child are not countable for his eligibility when a parent is in the household, unless the child is required to file taxes.
 - Interest paid on student loans is deducted from income.
 - Foreign income and interest, including tax-exempt interest, are counted.
3. **Using the 5% of FPL Disregard**

If the individual's household income is over the income limit for his covered group, subtract an amount equal to 5% of FPL for his household size (see M04, Appendix 1). Compare the countable income against the income limit for the individual's covered group to determine his income eligibility.

If the individual meets multiple Medicaid covered groups (and/or FAMIS) his gross income is compared first to the income limit of the full-benefit covered group with the highest income limit for which the individual could be eligible. If the income exceeds the limit, subtract 5% FPL based on his household size and compare the income again to the income limit. If he is still not eligible, the same process is followed for Plan First, if the individual is age 19 through 64 years.

C. Household Income

Household income is the sum of the MAGI-based income for every member of the individual's household as determined in step 2 above.

Manual Title Virginia Medical Assistance Eligibility	Chapter M04	Page Revision Date October 2018
Subchapter Subject M04 MODIFIED ADJUSTED GROSS INCOME (MAGI)	Page ending with M0450.200	Page 22

M0450.200 INCOME EXAMPLES – TAX FILER HOUSEHOLDS

A. Example #1 Tax Filer Single Parent, Two Children (Using Jan. 18, 2018 figures)

Tom is a single parent living in Henrico County (Group II) with his two children, Jack and Betty, ages 6 and 10, whom he claims as tax dependents. Tom earns \$3,000 per month, with projected annual income of \$36,000.

The MAGI households are:

Person	# - Household Composition	Reason
Tom	3 – Tom, Jack, Betty	Tax-filer & 2 dependents
Jack	3 – Jack, Tom, Betty	Tax dependent, taxpayer & other tax dependent
Betty	3 – Betty, Tom, Jack	Tax dependent, taxpayer & other tax dependent

Tom (parent) eligibility determination:

Potential covered groups:

LIFC (full-coverage MA)
MAGI Adults (full-coverage-MA)
Plan First (limited coverage)

Monthly Income limits:

LIFC, Group II for HH of 3 = \$589
MAGI Adults for HH of 3=\$2,391
Plan First 200% FPL for HH of 3 = \$3,464
5% FPL Disregard for HH of 3 = \$86

Tom's gross HH income of \$3,000.00 exceeds the LIFC income limit of \$589 for a HH of 3, so he is entitled to a 5% FPL disregard.

\$3,000.00 gross household income
- 86.00 5% FPL Disregard for HH of 3
\$2,914.00 countable income (after disregard)

His countable income of \$2,914.00 is compared to the LIFC income limit for HH of 3 which is \$589 ; income exceeds the LIFC limit. Tom is not eligible for full-coverage MA.

His countable income of \$2,914 is compared to the MAGI Adult income limit for household of 3 which is \$2,391. Toms income exceeds the MAGI Adult, therefore making him ineligible for full coverage MA

Tom's gross HH income of \$3,000.00 is then compared to the Plan First 200% FPL income limit for 3 which is \$3,464. As his income is under the limit, no disregard is needed; Tom is eligible for Plan First.

Tom is also referred to the Health Insurance Marketplace (HIM)

Manual Title Virginia Medical Assistance Eligibility	Chapter M04	Page Revision Date October 2018
Subchapter Subject M04 MODIFIED ADJUSTED GROSS INCOME (MAGI)	Page ending with M0450.200	Page 23

Jack (child) eligibility determination:Potential covered groups:

Child < Age 19

FAMIS

Monthly Income limits:

Child < 19 143% FPL for a HH of 3 = \$2,477

FAMIS 200% FPL for HH of 3 = \$3,464

5% FPL Disregard for HH of 3 = \$86

The gross HH income for Jack of \$3,000 (his father's earnings) exceeds the Medicaid Child < Age 19 143% FPL income limit for 3 (\$2,477), so Jack is entitled to the 5% disregard.

\$3,000.00 gross household income

- 86.00 5% FPL Disregard for HH of 3

\$2,914.00 countable income (after 5% disregard)

The countable income of \$2,914.00 still exceeds the Medicaid Child < Age 19 143% FPL limit (\$2,477), Jack is not eligible for Medicaid.

The gross HH income for Jack of \$3,000 is then compared to the FAMIS income limit for a HH of 3 which is \$3,404. As the gross HH income is less than the FAMIS income limit (\$3,404) Jack is eligible for FAMIS.

If the gross HH income had been over the FAMIS income limit, the 5% disregard would have been used and compared to the FAMIS income limit.

Betty (child) eligibility determination:

Betty's (the other child) income eligibility determination is the same as Jack's; she is eligible for FAMIS too.

B. Example #2
Tax Filer/Three
Generation Household

(Using Jan. 18, 2018
figures)

Mary Lewis is a 52-year-old working grandmother living in Louisa County (Group I). Mary claims her daughter (Samantha), age 20 and a full-time student, and granddaughter Joy (Samantha's daughter), age 2, as tax dependents who both live in the household with her.

Mary earns \$4,500/month (\$54,000/year).

Samantha earns \$300/month (\$3,600/year)

Projected annual income for tax household = Mary's income (Samantha not required to file) = \$54,000 per year

Manual Title Virginia Medical Assistance Eligibility	Chapter M04	Page Revision Date October 2018
Subchapter Subject M04 MODIFIED ADJUSTED GROSS INCOME (MAGI)	Page ending with M0450.200	Page 24

Tax household = Mary, Samantha, and Joy.

MAGI Households:

Person	# - Household Composition	Reason
Mary	3 – Mary, Samantha, Joy	Tax-filer & 2 tax dependents
Samantha	3 – Samantha, Mary, Joy	Tax dependent, tax filer, & other tax dependent
Joy	2 – Joy, Samantha	Non-filer child & child's parent with whom child lives

Mary's eligibility determination:

Potential covered groups:

Plan First
MAGI Adult

Monthly Income Limits:

Plan First income limit for HH of 3 = \$3,464
MAGI Adult income limit for HH of 3=\$2,391
5% FPL Disregard for HH of 3 = \$86

HH gross monthly income:

\$4,500 Mary's earnings
(Samantha's earnings are excluded because she is a child for tax purposes and is not required to file taxes).

4,500.00 gross household income
- 86.00 5% FPL Disregard for HH of 3
\$4,414.00 countable income (after 5% FPL disregard)

Her gross income of \$4,500 is compared to the MAGI Adult income limit for household of 3 which is \$2,391. Mary's income exceeds the MAGI Adult limit.

After subtracting the 5% FPL disregard, the countable income of \$4,414.00 is then compared to the MAGI Adult income limit of \$2,391 and her countable income exceeds the MAGI Adult limit, Mary is not eligible for full coverage MA.

The gross HH income of \$4,500.00 is compared to the Plan First 200% FPL income limit for 3, \$3,490. As the gross HH income exceeds the limit, she is entitled to the 5% FPL disregard.

The countable income of \$4,414.00 is then compared to the Plan First income limit of \$3,464; but as her countable income exceeds the Plan First limit, Mary is not eligible for Plan First.

Mary is referred to the HIM

Manual Title Virginia Medical Assistance Eligibility	Chapter M04	Page Revision Date October 2018
Subchapter Subject M04 MODIFIED ADJUSTED GROSS INCOME (MAGI)	Page ending with M0450.200	Page 25

Samantha's eligibility determination:

Potential covered groups:

LIFC
MAGI Adult
Plan First.

Monthly Income limits:

LIFC, Group I for HH of 3 = \$484
MAGI Adult income limit for HH of 3=\$2,391
Plan First for HH of 3 = \$3,464
5% FPL Disregard for HH of 3 = \$86

HH monthly income:

\$4,500 Mary's earnings
(Samantha's income is not counted in this HH).

As \$4,500 exceeds the LIFC limit for 3 (\$484) she is entitled to the 5% FPL disregard. Her income eligibility is determined as follows:

\$4,500.00 gross household income
- 86.00 5% FPL Disregard for HH of 3
\$4,414.00 countable income

Samantha's countable income of \$4,414 still exceeds the LIFC income limit for 3 of \$484 so she is not eligible for LIFC (full-coverage) MA.

Her countable income of \$4,414 is compared to the MAGI Adult income limit for household of 3 which is \$2,391. Mary's income exceeds the MAGI Adult limit, therefore, making her ineligible for full coverage MA

The gross HH income of \$4,500.00 is compared to the Plan First 200% FPL income limit for 3 which is \$3,464, and as Samantha exceeds this amount, the 5% FPL Disregard (\$86) can be deducted. The countable income of \$4,414 is greater than the Plan First income limit of \$3,464. Samantha is not eligible for Plan First, and is referred to the HIM.

An alternate method, which accomplishes the same results, is to compare the Plan First 205% FPL (200% FPL + 5% FPL Disregard) for a HH of 3 which is \$3,551. As the countable income amount of \$4,500 is greater the income limit of \$3,551, Samantha is not eligible for Plan First, and is referred to the HIM.

Joy's eligibility determination

HH gross monthly income:

\$300 Samantha's earnings (Mary's income is not counted in this HH).

Potential covered group:

Child < Age 19

The HH income is \$300 which is less than the Medicaid Child < Age 19 limit for 2 (\$1,936). Joy is eligible for Medicaid in the Child < Age 19 covered group.

The 5% disregard is not necessary since the gross household income is within the Medicaid Child < Age 19 income limit.

Manual Title Virginia Medical Assistance Eligibility	Chapter M04	Page Revision Date October 2018
Subchapter Subject M04 MODIFIED ADJUSTED GROSS INCOME (MAGI)	Page ending with M0450.200	Page 26

C. Example # 3
Tax Filer with
Dependent Outside of
the Home (Using
January 18, 2018
figures)

John applies for Medicaid for himself and his child Richard. John files taxes and claims Richard as well as his 17-year-old daughter, Bridget, who does not live with him. John works part time making \$800 a month and Bridget works part time making \$625 a month. They live in Fairfax County (Group III).

Person	# - Household Composition	Reason
John	3 - John, Richard, Bridget	Tax filer and dependents
Richard	3 - Richard, John, Bridget	Tax dependent, tax filer, and other dependent

Even though Bridget has income over the tax filing threshold (\$6,300 in 2016) and is required to file taxes on her own, she is part of John's tax filing household as a dependent, so her income counts toward any HH in which she is included, in this case, the HH of her father John.

John's eligibility determination:

Potential covered groups:

LIFC
MAGI Adult
Plan First

Monthly income limits:

LIFC (Group III) HH of 3 = \$807
MAGI Adult income limit for HH of 3=\$2,391
Plan First HH of 3 = \$3,464
5% FPL Disregard for HH of 3 = \$86

John's gross HH income of \$1,425.00 exceeds the LIFC income limit for 3 of \$807, and he is entitled to the 5% FPL disregard.

\$1,425.00 gross household income
- 86.00 5% FPL Disregard for HH of 3
\$1,339.00 countable income

His countable income of \$1,339 is less than the MAGI Adult limit of \$2,304 for 3. John is eligible for full coverage in the MAGI Adult coverage group.

Bridget's eligibility determination

Bridget was not applied for.

Manual Title Virginia Medical Assistance Eligibility	Chapter M04	Page Revision Date October 2018
Subchapter Subject M04 MODIFIED ADJUSTED GROSS INCOME (MAGI)	Page ending with M0450.300	Page 27

Richards's eligibility determination:Potential covered groups:

Child < Age 19

FAMIS

Monthly Income limits:

Child < 19 - 143% FPL for a HH of 3 = \$2,477

FAMIS 200% FPL for HH of 3 = \$3,464

5% FPL Disregard for HH of 3 = \$86

Richard's gross HH income of \$1,425 (his father's and sibling's earnings) is less than the FAMIS 200% income limit of \$3,464. And as the HH income does not exceed the Medicaid Child < Age 19 income of \$2,477, the 5% disregard is not needed. Richard is eligible for full-coverage MA.

M0450.300 INCOME EXAMPLES – NON TAX FILER HOUSEHOLDS**A. Example #1**

Robb lives in the City of Norfolk (Group II) with his sons, and does not file taxes. He receives of \$2,500 per month disability income. His children receive monthly interest on trust accounts their grandparent's setup. Mike is 16 years old and receives \$500 per month while Ike is 13 years old and receives \$400 per month.

**Non Tax Filer Single
Parent, Two Children
(Using Jan. 18, 2018
figures)**

The MAGI households are:

Person	# - Household Composition	Reason
Robb	3 – Robb, Mike & Ike	Non tax filer & his 2 children < 19
Mike	3 – Mike, Robb & Ike	Non-filer child < 19, his parent & his sibling < 19
Ike	3 – Ike, Robb & Mike	Non-filer child < 19, his parent & his sibling < 19

Manual Title Virginia Medical Assistance Eligibility	Chapter M04	Page Revision Date October 2018
Subchapter Subject M04 MODIFIED ADJUSTED GROSS INCOME (MAGI)	Page ending with M0450.300	Page 28

HH income:

\$2,500.00 Robb's disability benefit income
 + 500.00 Mike's trust income
 + 400.00 Ike's trust income
 \$3,400.00 gross household income

Robb's gross HH's of \$3,400 monthly income exceeds the LIFC income limit for 3 of \$589 per month, thus entitled to the 5% disregard. His income eligibility is determined as follows:

\$3,400.00 gross household income
 - 86.00 5% disregard
 \$3,314.00 countable income

As his countable income exceeds the LIFC income limit of \$589, he is ineligible for full coverage MA.

His gross income of \$3,400.00 is compared to the MAGI Adults income limit for household of 3 which is \$2,391. After applying the 5% disregard, Robb's income exceeds the MAGI Adults limit. Robb is ineligible for full coverage MA.

His gross HH income of \$3,400.00 is then compared to the Plan First 200% FPL income limit for 3 of \$3,464. As the income is less than the Plan First income limit, he is eligible for Plan First. Robb is also referred to the HIM.

Mike's eligibility determination:Potential covered groups:

Child < Age 19
 FAMIS

Monthly Income limits:

Child < Age 19, 143% FPL for a HH of 3 = \$2,477
 FAMIS, 200% FPL for HH of 3 = \$3,464
 5% FPL for 3 = \$86

HH income:

\$2,500.00 Robb's disability benefit income
 + 500.00 Mike's trust income
 + 400.00 Ike's trust income
 \$3,400.00 gross household income

Mike's gross HH's \$3,400 monthly income exceeds the Medicaid Child < Age 19 143% FPL income limit for 3, \$2,477, so he is entitled to the 5% disregard. Mike's income eligibility is determined as follows:

\$3,400.00 gross household income
 - 86.00 5% FPL disregard
 \$3,314.00 countable income

Manual Title Virginia Medical Assistance Eligibility	Chapter M04	Page Revision Date October 2018
Subchapter Subject M04 MODIFIED ADJUSTED GROSS INCOME (MAGI)	Page ending with M0450.300	Page 29

Mike's countable income of \$3,314.00 exceeds the Medicaid Child < Age 19 143% FPL income limit for 3, \$2,477. Mike is not eligible for Medicaid.

His gross HH income of \$3,400.00 is then compared to the FAMIS 200% FPL income limit for 3, \$3,464. He is eligible for FAMIS because his gross HH income is less than the FAMIS income limit for the household size.

Ike's income eligibility determination:

Potential covered groups:

Child < Age 19
FAMIS

Monthly Income limits:

Child < Age 19, 143% FPL for a HH of 3 = \$2,477
FAMIS, 200% FPL for HH of 3 = \$3,464
5% FPL for 3 = \$86

HH income:

\$2,500.00 Robb's disability benefit income
+ 500.00 Mike's trust income
+ 400.00 Ike's trust income
\$3,400.00 gross household income

Ike's countable income of \$3,314.00 exceeds the Medicaid Child < Age 19 143% FPL income limit for 3, \$2,477. Mike is not eligible for Medicaid.

As his gross monthly income exceeded the Medicaid Child < Age 19 143% income limit of \$2,477, he is entitled to the 5% disregard. Ike's income eligibility is determined as follows:

\$3,400.00 gross household income
- 86.00 5% FPL disregard
\$3,314.00 countable income

As his countable income exceeds the income limit of \$2,477, he is ineligible for Medicaid child <19, and move to the next step.

His gross HH income of \$3,400.00 is compared to the FAMIS 200% FPL income limit for 3 of \$3,464. He is eligible for FAMIS because his gross HH income is less than the FAMIS income limit for the household size of 3.

This example also illustrates as even though Mike and Ike had different trust account income, it made no difference in the results, and both eligible for FAMIS coverage.

Manual Title Virginia Medical Assistance Eligibility	Chapter M04	Page Revision Date October 2018
Subchapter Subject M04 MODIFIED ADJUSTED GROSS INCOME (MAGI)	Page ending with M0450.300	Page 30

B. Example #2
Non Tax Filer Three
Generation Household
(Using Jan. 18, 2018
figures)

Sally Green is age 64, a grandmother who does not expect to file taxes this year. She is neither blind or disabled. She lives with her daughter Jane, age 20 and a full-time student, and her granddaughter Dee (Jane's daughter), age 2. Sally takes care of Dee while Jane is attending school and working at her part-time job. Jane is pregnant with 1 unborn. They live in Hanover, a Group I locality. Sally doesn't have Medicare.

Income:

Sally receives SSA widow's benefits of \$1,000 per month.

Jane earns \$300 per month or \$3,600 annually and is not required to file taxes.

The MAGI non-filer households are:

Person	# - Household Composition	Reason
Sally	1 – Sally	Non-filer grandmother
Jane (PG)	3 – Jane, Jane's unborn child & Dee	Non-filer, her unborn child & non-filer's child < 19
Jane (LIFC)	2 – Jane, Dee	Non-filer & non-filer's child < 19
Dee	2 – Dee, Jane	Non-filer child < 19 & non-filer child's parent

Sally's eligibility determination:

Potential covered groups:

Plan First

MAGI Adult

Monthly Income limits:

MAGI Adult income limit for HH of 1=\$1,346

Plan First 200% FPL income limit for HH of 1 = \$2,024

5% FPL for 1 = \$51

HH gross monthly income = \$1,000 Sally's SSA benefits

Her gross income of \$1,000 is less than the MAGI Adult limit of \$1,346 for 1. Sally is eligible for full coverage in the MAGI Adult coverage group.

Manual Title Virginia Medical Assistance Eligibility	Chapter M04	Page Revision Date October 2018
Subchapter Subject M04 MODIFIED ADJUSTED GROSS INCOME (MAGI)	Page ending with M0450.300	Page 31

Jane's eligibility determination:Potential covered groups:*LIFC**MAGI Adult**Medicaid Pregnant Women*Monthly Income limits:*LIFC, Group I for HH of 2 = \$381**Pregnant Women 143% FPL for a HH of 3 = \$2,477**MAGI Adult income limit for HH of 3=\$2,391**5% FPL for 3 = \$86**HH monthly income = \$300 Jane's income.*

Jane is over age 19, not a child and not counted as a dependent for anyone else. Jane's earnings must be counted even though she is not required to file taxes. As her mother (Sally) is not in Jane's her tax filing HH, Sally's income is not counted when determining Jane's eligibility. The HH would consist of Jane and her daughter Dee.

\$300 is less than the LIFC limit for 2 (\$381) so the 5% disregard is not applied (it is not necessary). Jane is eligible for Medicaid in the LIFC covered group.

If Jane had been over income for the LIFC covered group, the step to apply the 5% disregard would have been used. If she was found over the LIFC income limit, a review as a Medicaid Pregnant Woman 143% income limit would have been used.

Dee's eligibility determination:Potential covered groups:*Child < Age 19**FAMIS*Monthly Income limits:*Child < Age 19 143% FPL for a HH of 2 = \$1,962**FAMIS, 200% FPL for HH of 2 = \$2,585**5% FPL for 2 = \$65*HH monthly income:*\$300 (Jane's gross earnings)*

As HH income \$300 is less than the Medicaid Child < Age 19 143% FPL income limit for 2 (\$1,962), Dee is eligible for Medicaid. The 5% disregard is not necessary since she qualified in this aid category.

Manual Title Virginia Medical Assistance Eligibility	Chapter M04	Page Revision Date April 2022
Subchapter Subject M04 MODIFIED ADJUSTED GROSS INCOME (MAGI)	Page ending with M0450.400	Page 32

Dee's eligibility determination:

Potential covered groups:

Child < Age 19
FAMIS

Monthly Income limits:

Child < Age 19 143% FPL for a HH of 2 = \$1,962
FAMIS, 200% FPL for HH of 2 = \$2,585
5% FPL for 2 = \$65

HH monthly income:

\$300 (Jane's gross earnings)

\$300 is less than the Medicaid Child < Age 19 143% FPL income limit for 2 (\$1,962) so Dee is eligible for Medicaid in the Child < Age 19 covered group. The 5% disregard is not applied because it is not necessary; her gross HH income is within the Medicaid Child < Age 19 income limit.

M0450.400 GAP-FILLING RULE EVALUATION

A. When to Complete Gap-Filling Evaluation

Complete a gap-filling evaluation to determine eligibility for Medicaid or FAMIS whenever **all** of the following conditions apply:

- The individual is in a tax filer household (regardless of whether or not a tax dependent exception in M0430.100 B.2 is met). APTC methodology does not apply to non-filer households or if married parents file separately and live in the same home.
- Current monthly household income, using Medicaid/FAMIS MAGI-based methods is over the applicable monthly income limit (including the 5% FPL disregard) for the individual's covered group.
- The total of income already received plus projected income for the **calendar** year in which eligibility is being determined, using MAGI methods applied by the HIM for the purposes of APTC eligibility, is below 100% FPL (i.e. the lower income threshold for APTC eligibility). See M04, Appendix 1. The individual's prior income for the calendar year, or lack of income, is included in the calculation of annual income when determining financial eligibility.

Note: The individual does not need to apply for the APTC prior to applying for Medicaid or having the gap-filling evaluation completed.

The gap-filling evaluation is applicable to the eligibility determination for retroactive and ongoing coverage.

If the eligibility and enrollment system is unable to determine eligibility using the gap-filling evaluation, the evaluation must be completed outside the system and documented in the electronic record. If the individual is eligible, the coverage must be entered directly into *the Medicaid Enterprise System (MES—formerly the Medicaid Management Information System [MMIS])*, and the renewal date must be updated for January of the following year.

Manual Title Virginia Medical Assistance Eligibility	Chapter M04	Page Revision Date October 2019
Subchapter Subject M04 MODIFIED ADJUSTED GROSS INCOME (MAGI)	Page ending with M0450.400	Page 33

B. Non-financial Requirements

The individual must meet a MAGI covered group (Children under 19, LIFC, Pregnant Women, Individuals Under Age 21, Adults age 19-64, Plan First).and all non-financial eligibility criteria for that covered group.

C. Household Income Calculation

Under the gap-filling rule, the individual's household income must be calculated according to the MAGI rules used for APTC purposes and compared to the APTC 100% FPL annual income limit for the household size in M04 listed in, Appendix 1. If the annual income at or below the APTC 100% FPL amount, the income is then compared to the Medicaid annual income limits for the individual's covered group or to the FAMIS or FAMIS MOMS income limits to determine the individual's eligibility.

Only tax-filer rules are used for determining household composition for gap-filling determinations. Neither the tax dependent exceptions used for Medicaid/FAMIS MAGI-specific household composition nor non-filer rules are applicable. For example, if a child lives with both parents, and the parents are unmarried, the child is in the tax-filer household of the parent who claims the child as a tax dependent.

Financial eligibility is based on income already received and projected income for the calendar year in which benefits are sought. If the local agency knows the determination of annual income made by the HIM, it may use that information for the purposes of applying the gap filling rule. Otherwise, the worker must obtain income information from the individual or authorized representative.

1. Verification of Income

Income reported as received for the calendar year in which benefits are sought as well as current monthly income must be verified.

If the information provided is reasonably compatible with information obtained by the worker from electronic sources such as the VEC, or documentation is available from other social services program, such as TANF or SNAP, and the systems information is dated within the past 12 months, the agency must determine eligibility based upon the information available. If there is a discrepancy between what is stated on the application and the information obtained from online systems/agency knowledge, contact the enrollee to obtain clarification of reported income.

2. Countable Income

Income that is listed in M0440.100 B as countable for the Medicaid/FAMIS MAGI evaluation is also countable for the gap-filling evaluation. Additionally, the following income **is counted** for the gap-filling evaluation only if it is countable for taxes:

- Payments made to American Indian/Alaska Natives as described in M0440.100 B.5.
- Scholarships/Awards and fellowship income, regardless of its intended use
- Lump sum payments received in the calendar year for which benefits are sought are included in the annual income calculation only

3. Income Evaluation

If the annual income as determined by the HIM is not known, the eligibility worker must calculate the annual income.

Manual Title Virginia Medical Assistance Eligibility	Chapter M04	Page Revision Date July 2019
Subchapter Subject M04 MODIFIED ADJUSTED GROSS INCOME (MAGI)	Page ending with M0450.400	Page 34

- First, add together income already received for the year. Do not convert the income.
- Next, calculate the projected income for the remainder of the year based on the current monthly income, unless the individual's income is expected to change (e.g. current employment is terminating).
- Add income already received to projected income to obtain the **annual** projected income for the current calendar year.
- Compare the **annual** projected income to the 100% FPL **annual** income limits for the MAGI household size in M04, Appendix 1.
- If the **annual** income is less than or equal to 100% FPL, compare the **annual** income to the **annual** income limit for the individual's covered group.
- For the individual to be eligible for Medicaid or FAMIS as a result of applying the gap-filling rule, the countable income must be no more than the **annual** income limit for the individual's covered group. The 5% income disregard used for the Medicaid/FAMIS MAGI determination does not apply. See M04 Appendices 2-6 for income limits.

4. Renewals

A renewal of eligibility must be completed in January of the following year and annually thereafter. At the time of *initial* enrollment, change the renewal date to January of the following year. Evaluate the individual's eligibility using Medicaid/FAMIS MAGI methodology before applying gap-filling methodology. A gap-filling evaluation may not be necessary for future eligibility determinations/renewals since tax dependency status and/or income may have changed.

If a woman who is eligible based on gap-filling methodology is pregnant or in the post-partum period in January, do not complete the renewal until the month in which the 60th day following the end of the pregnancy occurs.

5. Individual Not Eligible Using Gap-filling Methodology

If the individual's household income is determined to be over the Medicaid and FAMIS income limits after the gap-filling rule evaluation or the individual does not provide the necessary verifications for the gap-filling evaluation **and** he meets a MN covered group, he must be offered the opportunity to be placed on a MN spenddown.

D. Example Situation – Coverage Gap and Gap Filling Rule

A 10-year-old child lives with both parents, who are not married, and the child is expected to be claimed as a tax dependent by one parent. His parents apply for the APTC through the federal HIM, which uses tax filers income methodology. The child is determined to not be eligible for the APTC because his countable income is below the lower income threshold (it is too low) for APTC eligibility.

The HIM refers the application to Virginia for a Medicaid/FAMIS eligibility determination. The child meets a tax dependent exception in M0430.100 B.2 (he lives with both parents, is claimed as a tax dependent by one parent, and the parents do not expect to file jointly). The child's eligibility for Medicaid or FAMIS is determined using non-filer methodology. Because he is under 19 and both parents are in his household, the income of both parents is counted. His household income with the 5% FPL disregard is over the limit for both Medicaid and FAMIS.

Manual Title Virginia Medical Assistance Eligibility	Chapter M04	Page Revision Date April 2019
Subchapter Subject M04 MODIFIED ADJUSTED GROSS INCOME (MAGI)	Page ending with M0450.400	Page 35

**E. Example – Gap Filling Evaluation
Unmarried Couple and Child in Common**

Maria and Tony are an unmarried couple who live with their 12-year-old daughter, Anita. Maria and Tony are both employed. Anita is claimed as a tax dependent by Maria, who works part time. Maria applies for Medicaid only for Anita. Because Anita lives with both parents, but the parent's file taxes separately and only one parent claims her as a tax dependent, Anita meets a tax dependent exemption. Her eligibility must be evaluated using non-filer rules.

Because she is under age 19, Anita's MAGI household consists of Anita and both parents. Both Maria's and Tony's income is counted for Anita's eligibility. Her countable income, including with the 5% FPL disregard, is over the limits for both Medicaid and FAMIS.

The eligibility worker notes that a potential gap-filling situation exists. The worker evaluates Anita's eligibility for Medicaid or FAMIS using the APTC rules. Under the APTC rules, Anita's household consists of Anita (tax dependent) and Maria (tax filer); Tony is not in Anita's household because he does not claim Anita on his taxes. Maria's income from her part time job is *under the APTC 100% FPL annual income limit and under the Medicaid annual income limit for a Child Under 19 (143% FPL). Therefore, Anita is eligible for Medicaid under the gap-filling rule.*

The following tables show the household formation and income used.

For the Medicaid/FAMIS evaluation:

Person	# - MAGI Household Composition Non-filer rules	Income to count for Medicaid/FAMIS eligibility
Anita	3 – Anita, Maria, Tony	Maria, Tony

For the gap-filling evaluation

Person	# - APTC Household Composition	Income to count for Medicaid/FAMIS eligibility
Anita	2 – Maria, Anita	Maria, and (non-excluded) income from Anita

**F. Example – Gap Filling Evaluation—
(Using 2019 Income Limits)**

An application was filed on 7/4/18 by Tom (tax-filer) for his two children Tia (age 8) and Tony (age 10). The household size is 3 (Tom, Tia and Tony) Tom was unemployed from January –June and started a new job in July. Tom earns \$1750 bi-weekly. Only one pay was received in July (\$940.62). The income is calculated as $\$1,750 \times 2.15 = \$3,762.50$. The 5% FPL disregard amount of \$89 is deducted ($\$3,762.50 - 89 = \$3,673.50$) and income exceeds the monthly FPL limits for FAMIS (\$3,555). The worker requests income already received during the current tax year and Tom's employer verifies the following:

January- June	\$0
July 23	\$940.62
August – December (projected)	\$18,812.50
Total Projected Annual Income	\$19,753.12

The total annual projected income is of \$19,753.12 is under the 100% annual FPL for household size 3 (\$21,330). The projected annual amount of \$19,753.12 is compared to the 143% annual FPL limit for household size of 3 (\$30,502) and both children are eligible for Medicaid.

Manual Title Virginia Medical Assistance Eligibility	Chapter M04	Page Revision Date July 2019
Subchapter Subject M04 MODIFIED ADJUSTED GROSS INCOME (MAGI)	Page ending with M0450.400	Page 36

Since the child's countable income is under the lower financial threshold for the APTC and he has excess income using non-filer rules, the child's eligibility must be evaluated using gap-filling rules.

G. Example – Gap Filling Evaluation—Childless Adult (Using 2019 Income Limits)

Lee, age 27, is a tax-filer and applies for Medicaid on June 1. He is attending graduate school and works part-time as a teaching assistant. His income for June is \$1,625. The 5% FPL disregard amount of \$53 is deducted (\$1,625 - \$53 = \$1,572) and income exceeds the limit for the MAGI Adults covered group for a HH of 1 (\$1,436). Lee is not eligible for Medicaid using MAGI methodology.

Lee calls the worker when he receives the denial notice and tells the worker that his income is higher in the summer and less during the remainder of the year *and requests to be evaluated for retroactive coverage for March- May*. A potential gap-filling situation exists, so the worker requests verification of Lee's income from January through May. He provides his paystubs for January (\$710), February (\$720), March (\$697), April (\$752), and May (\$715). -His total year to date income is \$3,594.

Lee also provides a letter from his employer that states his teaching income for September thru December will be a guaranteed amount of \$715 per month. The worker uses a projected amount for September – December of \$715 per month, which totals \$2,860.

January - May	\$3,594
June- August	\$4,875
September- December (projected)	\$2,860
Total Projected Annual Income	\$11,329

The total annual projected income of \$11,329 is under the 100% annual FPL of \$12,490 for household size of 1. The projected annual amount of \$11,329 is compared to the 133% annual FPL limit for household size of 1 (\$16,612). *Lee is eligible for retroactive Medicaid coverage and ongoing coverage as a MAGI Adult.*

M0510.000 GENERAL RULES & PROCEDURES

M0510.001 ASSISTANCE UNIT GENERAL PRINCIPLES

A. Introduction

Medicaid is an assistance program which pays medical service providers for services rendered to eligible needy individuals. An individual's need is based on his financial eligibility--the amount of his resources and income.

Financial eligibility is determined in relation to specific resource and income limits. The income and resource limits are established in relation to the number of persons in the assistance unit. The assistance unit is the basis for the financial eligibility determination. Eligibility is based on the countable income and resources of the assistance unit members and of legally responsible relatives who are not included in the assistance unit and who live in the home. All of the resources and income which the individual has available to him, including resources and income "deemed" to be available to him, are counted.

B. Procedures

This subchapter contains the general policy and procedure for determining *the composition of* an individual's assistance unit for the financial eligibility determination.

- The Legal Base is contained in M0510.002;
- Definitions are contained in M0510.100;
- General Procedures are contained in M0510.200.

The detailed family/budget unit policy and procedures for individuals in *all Families & Children (F&C) Medically Needy (MN)* covered groups are contained in M0520.

*Chapter M04 contains the procedures for determining the household size for the following F&C covered groups for all **eligibility determinations for applications submitted on or after October 1, 2013 and renewals made after April 1, 2014:***

- *CN Pregnant Women & Newborn Children;*
- *Plan First;*
- *Child Under Age 19 (FAMIS Plus);*
- *Low Income Families With Children (LIFC);*
- *Individuals Under Age 21;*
- *Special Medical Needs Adoption Assistance.*

The detailed assistance unit policy and procedures for individuals in an ABD covered group are contained in M0530.

M0510.002 LEGAL BASE

A. Federal Law

The federal Medicaid law in Title XIX, section 1902(a)(17)(D), requires that a state plan for medical assistance include reasonable standards for determining

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date October 2013
Subchapter Subject M0510.000 MEDICAID ASSISTANCE UNIT	Page ending with M0510.100	Page 2

eligibility for and the extent of medical assistance under the state plan. These standards must provide for reasonable evaluation of resources and income. The standards must:

- take into account only such income and resources as are available to the applicant or recipient;
- take into account only such income and resources as would not be disregarded under the Supplemental Security Income (SSI) program for aged, blind and disabled individuals, or the title IV-A program (AFDC program in effect on 7-16-96) for all other individuals;
- NOT take into account the financial responsibility of any individual for any applicant or recipient of assistance under the plan unless such applicant or recipient is such individual's spouse or such individual's child who is under age 21.

B. Federal Regulations

Federal regulations in 42 CFR 435.601 state that when determining Medicaid eligibility, the agency must apply the financial methodologies and requirements of the cash assistance program that is most closely categorically related to the individual's covered group, EXCEPT:

- when determining the financial responsibility of relatives, and
- when using more restrictive or more liberal resource methodologies than those of the cash assistance program, as specified in the State Plan.

Federal regulations in 42 CFR 435.602 state that, except for a spouse of an individual or a parent for a child who is under age 21, the agency must not consider income and resources of any relative as available to an individual.

C. Virginia Medicaid Policy

When determining whose resources and income to count available to the individual applicant or recipient, Medicaid must take into account the resources and income of the individual's spouse or parent (if the individual is under age 21) with whom the individual lives. For the aged, blind and disabled (ABD) covered groups, Medicaid must use the SSI program methods for counting and "deeming" spouses' and parents' resources and income to an individual, except where they would result in "illegal" deeming of resources or income from a relative or person who is not legally responsible for the individual according to the federal Medicaid regulations. For the (F&C) *MN* covered groups, Medicaid must use the 7-16-96 AFDC program methods for counting and "deeming" spouses' and parents' resources and income to an individual, except where they would result in "illegal" deeming of resources or income from a relative or person who is not legally responsible for the individual according to the federal Medicaid regulations.

Subchapter M0520 explains how to count the resources and income of a spouse or parent for the F&C *MN* covered groups. Subchapter M0530 explains how to count the resources and income of a spouse or parent for the ABD covered groups.

M0510.100 DEFINITIONS

A. Introduction

The terms used in this subchapter are defined below in this section.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date October 2013
Subchapter Subject M0510.000 MEDICAID ASSISTANCE UNIT	Page ending with M0510.100	Page 3

B. Assistance Unit

The Medicaid assistance unit is the individual or family who applies for Medicaid and whose financial eligibility is determined. The assistance unit for the F&C *MN* covered groups is called the “family unit” or the “budget unit.”

The assistance unit for an ABD individual is just the individual, unless the individual is married, living with his/her spouse and the spouse is also ABD. In this situation, the assistance unit is the married ABD couple.

C. Budget Unit

The budget unit (BU) is the term used for the assistance unit for F&C *MN* individuals in a family when specific circumstances exist. The BU is a sub-unit of the family unit (FU). It contains some, but not all, members of the family unit.

D. Family Unit

The family unit is the name for the assistance unit when determining eligibility for an F&C individual or family. The family unit consists of all individuals listed on the application form as living in the household and among whom legal responsibility for support exists.

Federal Medicaid law and regulations prohibit deeming resources or income from anyone other than a parent to a child under age 21 or from spouse to a spouse. An individual cannot be ineligible or have his spenddown liability increased because of counting income and resources of non-legally responsible individuals living in the household.

The family unit must be further divided into “budget units” when the family unit does not meet the resource or income limit, and

- the family unit contains a stepparent, an acknowledged father not married to the mother, a married Medicaid minor or a Medicaid minor parent in the home, or
- a child in the family unit has resources or income of his/her own.

The unit must include the legally responsible relative(s) with whom the individual lives (parent for child under age 21 and spouse for spouse) unless the spouse or the parent receives an SSI or IV-E foster care/adoption subsidy payment. Spouse refers to a person who would be defined as married to the individual under applicable state law. Parent refers to the natural or adoptive parent of the child.

E. Deeming

Deeming is the process of considering the income and resources of another person, who is not included in the assistance, family or budget unit, to be the income and resources of the individual who is applying for or receiving Medicaid. Deemed income and resources are counted available to the eligible individual whether or not they are actually made available to him/her.

The federal Medicaid regulations require that the income and resources of certain individuals other than the applicant be included (deemed available) when determining an individual's Medicaid eligibility. These individuals

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date July 2003
Subchapter Subject M0510.000 MEDICAID ASSISTANCE UNIT	Page ending with M0510.200	Page 4

are the individual's responsible relatives--the individual's parent when the individual is under age 21 and the individual's spouse, except when the parent or spouse receives SSI or IV-E assistance payments. Except for a spouse of an individual, or a parent for a child who is under age 21, the agency must not consider resources and income of any relative as available to an individual.

Resources and income deemed **to** an individual are not considered resources or income in subsequent deeming calculations of the individual's resources or income.

F. Deemor

A deemor is an individual whose income and resources are subject to deeming. Such individuals include ineligible parents and ineligible spouses. It does not matter whether these individuals have sufficient income or resources to deem, they are still considered to be deemors. The type of income such an individual receives (e.g., public income maintenance payments such as TANF, VA pension based on need, etc.) does not exclude him/her from this definition for an ABD determination. For F&C determinations, recipients of SSI or IV-E payments are NOT deemors.

G. Illegal Deeming

Illegal deeming is a procedure which results in counting or deeming resources or income to an individual from a person who is not the individual's spouse, or who is not the individual's parent if the individual is under age 21.

M0510.200 GENERAL PROCEDURES

A. Introduction

This section contains the general policy and procedure for determining the individual's assistance unit for the financial eligibility determination.

B. Institutionalized Individuals

When an individual is institutionalized in a medical facility or Medicaid waiver services, the individual is an assistance unit of one person. *Go to chapter M14 to determine eligibility for institutionalized individuals.*

C. Non Institutionalized Individuals

1. Child Under Age 19

a. Does Not Receive SSI

Determine the child's F&C MI eligibility first (if pregnant, use the 133% pregnant woman limits), even if child is also foster care or adoption assistance. If the child has excess income for MI, then determine the child's MN eligibility for spenddown. Use the F&C family/budget unit policy in M0520.

If the child is also blind or disabled and does NOT receive SSI, determine F&C MI eligibility first. Use the F&C family/budget unit policy in

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date April 2020
Subchapter Subject M0510.000 MEDICAID ASSISTANCE UNIT	Page ending with M0510.200	Page 5

M0520. If the child has excess income for MI, then determine the child's ABD MN eligibility for spenddown, using the ABD assistance unit policy in M0530.

b. Receives SSI

If the child receives SSI, determine the child's eligibility as an SSI recipient. If the child is not eligible for Medicaid as an SSI recipient (e.g. because of excess resources), determine the child's eligibility as F&C. *If* the child is pregnant or under age 19, use the F&C family/budget unit policy in M0520.

**2. Individual
Age 19 but
Under 21**

a. Receives SSI

If the child is age 19 or 20 and is not eligible for Medicaid as an SSI recipient, e.g., because of excess resources, determine his/her F&C eligibility IF he/she also meets an F&C covered group because the F&C real property requirements are different from the ABD requirements. Use the F&C family/budget unit policy in M0520.

If he/she does NOT meet an F&C covered group, he/she is not eligible for Medicaid.

b. Disabled or Blind Child

If the child is disabled or blind, first determine the child's ABD eligibility using the ABD assistance unit policy in M0530. If not eligible as ABD and the child meets an F&C covered group, use the F&C family/budget unit policy in M0520.

c. Pregnant Woman

If the individual is pregnant, determine F&C MI eligibility first. Use the family/budget unit policy in M0520. If the individual is not eligible as MI, she should meet the MN pregnant woman group. Use the F&C family/budget unit policy in M0520 when determining her MN eligibility.

**3. Individual
Age 21 and
Older**

a. Pregnant Woman

If the individual is pregnant, determine F&C MI eligibility first. Use the family/budget unit policy in M0520. If the individual is not eligible as MI, she should meet the MN pregnant woman group. Use the F&C family/budget unit policy in M0520 when determining her MN eligibility.

b. Other Individuals

If the individual is aged, disabled or blind, first determine the individual's ABD assistance unit in M0530. If the individual is not eligible as ABD and he/she meets an F&C covered group, use the F&C family/budget unit policy in M0520.

M0520.000 FAMILIES & CHILDREN (F&C) MEDICALLY NEEDY FAMILY/BUDGET UNIT

M0520.001 OVERVIEW

A. Introduction

This subchapter contains the policy and procedures for determining the assistance unit for certain individual or families who meet an F&C MN covered group. Refer to M0510.001 for information and instructions on when to use the policies in M0520.

For F&C MN and Extended Medicaid, financial eligibility determination purposes, the assistance unit is called the “family” unit. A household is divided into one or more family units.

The family unit’s financial eligibility is determined first for F&C MN eligibility determinations. If the family unit has resources or income that cannot be verified or that exceeds the limit for the individual’s covered group, the family unit is divided into “budget” units if certain requirements are met.

B. Policy

Medicaid law prohibits the consideration of resources and income of any person other than a spouse or parent in the final Medicaid eligibility determination. Resources and income CANNOT be counted

- from a stepparent to a stepchild;
- from a sibling to a sibling;
- from a child to a parent;
- from a spouse or parent living apart from the individual, unless it is a voluntary or court-ordered or DCSE-ordered contribution (exception for individuals in long-term care);
- from an alien sponsor to the alien.

The family unit will include any child(ren) under age 21 living in the home for whom a unit member is legally responsible regardless of whether or not the child(ren) meet(s) a covered group, unless the child is specifically excluded.

1. **Member In One Unit** An applicant/recipient can be a member of only one family unit or one budget unit at a time.
2. **May Exclude A Child** The applicant can choose to exclude any child(ren) from the family unit for any reason. If the parent wants to exclude a child who has been listed on the application, the request for exclusion must be in writing. None of the excluded child's needs are considered, and none of his income or resources are counted or deemed available to the unit. The advantages and disadvantages of the choice must be explained to the applicant or recipient.
3. **Child Living Away From Home** A parent, or a child under age 21 who has not been emancipated, is considered living in the household for family unit composition purposes if the absence is temporary and the parent or child intends to return to the home when the purpose of the absence (such as employment, military service, education, rehabilitation, medical care, vacation, visit) is completed.

Children living in foster homes/institutions are NOT temporarily absent from home. They are indefinitely absent from home and are NOT living with their parents or siblings for Medicaid purposes.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date April 2021
Subchapter Subject M0520.000 F&C MN FAMILY/BUDGET UNIT	Page ending with M0520.001	Page 2

4. Psychiatric Residential Treatment Facilities (PRTFs)

Children residing in a PRTF (*formerly called a Level C PRTF*) are not temporarily absent from home. They are indefinitely absent from home and are not living with their parents or siblings for Medicaid purposes, if their stay in the facility has been 30 calendar days or longer. Long-term care rules do not apply to these children.

If the child is placed in a PRTF, verify *that the facility is* on the Magellan website at <https://www.magellanofvirginia.com/for-providers/residential-program-process>. Click on **Medicaid Contracted Residential Treatments Service Providers**. *PRTFs are denoted as Provider Type = 077 and Provider Specialty = blank*. If the facility is not a PRTF facility, the child is NOT considered living away from his parents.

5. Medical Facilities

Children in medical institutions (facilities) are temporarily absent from home if their stay in the medical facility is less than 30 consecutive days. If the stay has been, or is expected to be, 30 or more consecutive days, go to section M1410.010 to determine if the child is institutionalized in long-term care. A child who is institutionalized in a medical facility or Medicaid waiver services is NOT considered living with his or her parents for Medicaid eligibility purposes.

6. Parent/Caretaker-Relative Living in the Home

A parent/caretaker-relative who is absent from the home is considered living with a child in the household if the absence is temporary and the parent/caretaker-relative intends to return home when the purpose of the absence (such as military service, vacation, education, medical care or rehabilitation) is complete.

C. Procedure

This section contains an overview of the F&C family unit and budget unit rules. The detailed policy and procedures are contained in the following sections:

- M0520.010 Definitions;
- M0520.100 Family Unit Rules;
- M0520.200 Budget Unit Rules;
- M0520.300 Deeming From Spouse;
- M0520.400 Deeming From Parent;
- M0520.500 Changes In Status;
- M0520.600 Pregnant Woman Budget Unit;
- M0520.700 Individual Under Age 21 Family Unit.

This section contains definitions of the terms used in the F&C family/budget unit policy and procedures.

B. Acknowledged Father

In Virginia, a man who is legally married to the mother of a child on the child's date of birth is considered to be the legal father of the child **UNLESS** another man has been determined by DCSE or a court to be the child's father. The man listed on the application form as the child's father is considered to be the child's acknowledged father when:

- the mother was not married to another man on the child's birth date, or
- the mother was married to another man on the child's birth date but DCSE or a court determined that the man listed on the application is the child's father,

unless documentation, such as the child's birth certificate, shows that another man is the child's father.

NOTE: Her declaration on the application of the child's father's name is sufficient unless there is evidence that contradicts the application. The mother's marital status at the time of the child's birth does not require verification; her declaration of her marital status is sufficient. See M0310.123 for the definition of a parent.

C. Household

For this subchapter's purposes, the "household" is everyone living in the residence and who is listed on the Application for Benefits as living in the residence.

D. Legal Emancipation

"Legal emancipation" from parents means that the parents and child have gone through court and a judge has declared that the parents have surrendered the right to the care, custody and earnings of the child and have renounced parental duties.

A married Medicaid minor is NOT emancipated unless a court has declared the married minor emancipated from his or her parent(s).

E. Legally Responsible Relative

A legally responsible relative is a person who is related to the individual applicant or recipient and who has a legal obligation under federal and state law to support the individual applicant/recipient.

Under federal Medicaid law and regulations, the only relatives who are legally responsible relatives are the following relative(s) with whom the individual applicant or recipient lives:

- the individual's spouse, and
- the individual's parent if the individual is a child under age 21 years.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2017
Subchapter Subject M0520.000 F&C MN FAMILY/BUDGET UNIT	Page ending with M0520.100	Page 3

F. Medicaid Minor A child under age 21 years is a Medicaid minor.

M0520.100 FAMILY UNIT RULES

A. Introduction This section contains the rules that apply to the family unit within a household applying for Medicaid. The family unit consists of the individuals in the household among whom legal responsibility for support exists. A parent or non-parent caretaker can choose to exclude any child from the family unit by excluding the child from the Medicaid application (see M0520.001 B).

B. Family Unit Composition When determining composition of the F&C family unit, start with the individual who applies for Medicaid and who meets a *MN* F&C covered group's requirements. These covered groups are:

- MN Pregnant Women ;
- MN Newborn Children;
- MN Children Under Age 18;
- MN Individuals < 21 in foster care, adoption assistance, and ICF or an ICF-MR.

Begin forming the family unit(s) by identifying a pregnant woman in the household, if any. If the household does not contain a pregnant woman, begin forming the family unit(s) by identifying the child(ren) who meets an F&C *MN* covered group.

1. Member In One Unit At A Time An applicant/recipient's Medicaid eligibility can only be determined in one F&C family unit at a time.

2. Include Responsible Relative(s) The unit must include the legally responsible relative(s) with whom the individual lives (parent for child under age 21 and spouse for spouse), EXCEPT when:

- the child is in foster care and is placed in his/her home for a trial visit; or
- the spouse or the parent receives an SSI or IV-E foster care/adoption subsidy payment. Do not include SSI and IV-E Foster Care/Adoption Assistance recipients in the unit.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date July 2012
Subchapter Subject M0520.000 F&C MN FAMILY/BUDGET UNIT	Page ending with M0520.100	Page 4

Include a TANF recipient who is a responsible relative in the unit but **do not count the TANF grant as income**. Non-TANF income is counted as income to the unit.

The unit must also include all individuals in the household for whom each individual in the unit is legally responsible except

- excluded individuals;
- SSI recipients, and
- IV-E recipients.

For example, a child age 10 lives with his mother and his 5 year-old sister who receives SSI; all are included on the application. The family unit consists of the 10 year old child and his mother who is legally responsible for him, but not his SSI recipient sister even though the mother is also legally responsible for her.

3. Child Under 21 Living Away From Home

A child under age 21 who is living away from home is considered living with his/her parent(s) in the household for family unit composition purposes if:

- the child is not emancipated, and
- the absence is temporary and the child intends to return to the parent's home when the purpose of the absence (such as education, rehabilitation, medical care, vacation, visit) is completed.

Children in medical institutions (facilities) are temporarily absent from home if their stay in the medical facility is less than 30 consecutive days. If the stay has been, or is expected to be, 30 or more consecutive days, go to section M1410.010 to determine if the child is institutionalized in long-term care. A child who is institutionalized in a medical facility or Medicaid waiver services is NOT considered living with his parents for Medicaid eligibility purposes.

Children placed in *Level C PRTFs* are considered absent from their home if their stay in the facility has been **30** days or more. A child who is placed in a *Level C PRTF* is considered NOT living with his parents for Medicaid eligibility purposes as of the first day of the month in which the 30th day of psychiatric residential placement occurs. Long-term care rules do not apply to these children.

If the child is placed in a PRTF, verify that it is a Level C facility on the Department of Medical Assistance Services web site at http://dmasva.dmas.virginia.gov/Content_pgs/obh-home.aspx. If the facility is not a Level C facility, the child is considered not to be living away from his parents.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2017
Subchapter Subject M0520.000 F&C MN FAMILY/BUDGET UNIT	Page ending with M0520.100	Page 5

4. Pregnant Woman

An individual who meets the pregnant woman definition is counted as at least **two persons** when her eligibility is being determined in the MI Pregnant Woman or MN Pregnant Woman covered group. The unborn child (or children, if medical documentation verifies more than one fetus) must be included in the unit with the pregnant woman when determining her eligibility. A separate calculation is required for the other family unit members who do not meet a pregnant woman covered group. This calculation does NOT include the unborn child(ren) as part of the family unit and/or budget unit (BU).

5. Cohabitant

A cohabitant is not the child(ren)'s parent and is not legally responsible for anyone in the family unit. Therefore, the cohabitant is not included in the family unit. Do not count a cohabitant's income or resources.

C. Family Unit Examples for MN Eligibility Determinations

1. Household With Excluded Child

EXAMPLE #1: Household listed on application consists of applicant, her disabled spouse, her 15-year old son, and husband's 20-year old daughter. The 20-year old daughter is employed full-time. Medicaid is requested for applicant, her spouse, and her son. She specifies in writing that she wishes to exclude her husband's 20-year old daughter. *It is determined that the applicants are not eligible for Medicaid in any categorically needy covered groups due to excess income; however, the 15-year old son meets a MN Children Under 18 covered group and his mother requests that he be evaluated for a spenddown.*

The family unit consists of:

- the applicant
- her husband, and
- her 15-year old son.

The family unit's income is determined using the F&C income policy and procedures.

2. Household With Acknowledged Father

EXAMPLE #2: Household listed on the Medicaid application consists of pregnant woman applicant, her 5-year old son and her boyfriend, who is the acknowledged father of the 5-year old. They all request Medicaid. *It is determined that the applicants are not eligible for Medicaid in any categorically needy covered groups due to excess income; however, the pregnant woman and her son both meet MN covered groups, and the pregnant woman requests that they be evaluated for a spenddown.*

The family unit for the Medicaid eligibility determination for the 5-year old child consists of:

- the woman,
- the 5-year old child and
- the child's acknowledged father.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2017
Subchapter Subject M0520.000 F&C MN FAMILY/BUDGET UNIT	Page ending with M0520.101	Page 6

The family unit for the Medicaid eligibility determination for the pregnant woman consists of:

- the pregnant woman,
- her unborn child,
- the 5-year old child, and
- the child's acknowledged father.

The family unit's income is determined using the F&C income policy and procedures.

M0520.101 MULTIPLE FAMILY UNITS

A. Policy

Multiple family units exist in a household in the following situations:

- 1. Non-parent Caretaker**
When the individual is applying for Medicaid as a non-parent caretaker of a dependent child, multiple family units exist.
- 2. Child--No Responsible Relative In Home**
When the individual applying is a child under age 21 but has no responsible relative living in the household and is not a sibling of another child(ren) in the household, multiple family units exist.
- 3. Adult--No Responsible Relative In Home**
When the individual applying is age 21 or older and is not legally responsible for the other applicant(s) in the household, multiple family units exist.
- 4. Foster Care Child**
When the individual applying is a foster care child whose parent(s) live in the household and who is placed in his/her home for a trial visit (see M0520.701 below), multiple family units exist.
- 5. Siblings**
Siblings under age 21 are included in the same family unit.
- 6. SSI Child**
A child receiving SSI is always a separate family unit of one person.

B. Procedures

When an applicant applies for a child in the household, begin forming the family unit by identifying the child(ren) who applies and meets an F&C covered group. Divide the household into multiple family units when:

- the household contains an individual(s) who applies for Medicaid but who is not a legally responsible relative of the other individual(s) who has applied; or
- the household contains a foster care child under age 21 who is placed in the home for a trial visit.

Each family unit must contain only those individuals among whom legal responsibility for financial support exists.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2017
Subchapter Subject M0520.000 F&C MN FAMILY/BUDGET UNIT	Page ending with M0520.200	Page 7

M0520.200 BUDGET UNIT RULES

A. Policy

BUs are formed to assure that only the individual's resources and income and the resources and income of those persons legally responsible for the individual are used to determine the individual's Medicaid financial eligibility. If the individual's family unit has resources or income which cannot be verified or which exceed the limit for the individual's covered group, determine if the family unit can be broken into BU. Forming BUs based on resources is only applicable to the F&C MN covered groups. A family unit must be broken into BUs when:

1. a child in the family unit has his/her own income;
2. a child in the family unit has his/her own resources (applicable only for F&C MN covered groups);
3. the child's stepparent is in the family unit;
4. the child's parent with whom he/she lives is a Medicaid minor (under age 21) and they live with the minor parent's parent(s);
5. the child is married and living with his/her spouse and his/her parent(s);
6. the child(ren)'s acknowledged father lives in the household and is not married to the child(ren)'s mother.

All members of a family unit must be placed in a BU when the family unit can be divided into BUs. Although they will be included in a BU, persons found eligible at the family unit level do NOT have their eligibility redetermined at the BU level.

B. Budget Unit Rules

The rules that apply to BU composition are:

1. Member In One Unit

An applicant/recipient can be a member of only one F&C BU.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2017
Subchapter Subject M0520.000 F&C MN FAMILY/BUDGET UNIT	Page ending with M0520.200	Page 8

- 2. Children With Own Resources (F&C MN Only) or Income**

The child(ren) with his or her own resources or income is in a separate BU. Deem resources and income from parents. Resources are deemed and/or counted only when determining eligibility for F&C MN covered groups.

The parent(s) is/are included in the unit with child(ren) who has no resources or income.

If all of the children have resources or income, the parent(s) is/are in a separate BU. If there is more than one child with resources or income, the resources or income deemed from the parents are divided evenly among the children.
- 3. Medicaid Minor Caretaker Applicant**

When the Medicaid minor parent is not married and lives with his/her parent(s), he or she is included in a BU with his/her parent(s), NOT with his or her child(ren).

When the Medicaid minor parent is married and lives with his/her parent(s) and spouse, he or she is in a BU by himself/herself, NOT with his/her parent(s) and NOT with his or her child(ren) and spouse.

A married Medicaid minor parent is in a separate BU when living with his/her spouse and the minor's parent(s).
- 4. Married Medicaid Minor**

When the Medicaid minor is married and lives with his/her parent(s) and spouse, he or she is in a BU by himself/herself, NOT with his/her parent(s) and NOT with his or her child(ren) and spouse. A married Medicaid minor is in a separate BU when living with his/her spouse and the minor's parent(s).
- 5. Stepparent In Household**

A stepparent is not included in a BU with his/her stepchild(ren). A married parent (**except a Medicaid minor parent who lives with his/her parents**) is included in a BU with his/her spouse and their child(ren)-in-common. The parent's other child(ren) who are not the child(ren) of his/her spouse are in a separate BU.
- 6. Deeming From Parents**

When determining how much of the child's parent's income or resources are deemed available to the child's BU, any income or resources deemed to the parent from the parent's spouse who is not the child's parent, is NOT counted in the deeming calculation.

No income or resources deemed from the parent(s) of a minor child are deemed to the minor child's spouse or the minor's child.
- 7. Acknowledged Father**

An acknowledged father who lives in the household and is not married to the child(ren)'s mother is in a BU separate from the mother. Their child(ren)-in-common is NOT included in the BU with the father; the child(ren)-in-common is in a separate BU.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2017
Subchapter Subject M0520.000 F&C MN FAMILY/BUDGET UNIT	Page ending with M0520.201	Page 9

8. Spenddown Expenses

If a BU is ineligible because of excess income, only the unit's member's medical expenses will count toward the unit's spenddown, unless a BU member is legally liable to pay the medical expenses of another person in the household, whether or not that other person is in another Medicaid BU. If a BU member is legally liable for another person in the household, the other person's medical bills can count toward the BU member's spenddown.

A medical expense can only be used once to meet only one unit's spenddown. A child's medical expenses are first deducted from the child's unit. If the child's unit spenddown is not met, the child's medical expenses can be deducted from the parent's spenddown. If the child's unit's spenddown is met, then the child's medical expenses that were not used to meet the child's spenddown can be deducted from the parent's spenddown, if the medical expenses are not covered by Medicaid or other health insurance.

M0520.201 CHILD(REN) WITH RESOURCES AND/OR INCOME

A. Policy

The child(ren) with his or her own resources (F&C MN covered groups only) or income is in a separate BU. Forming BUs based on resources is only applicable to F&C MN covered groups. Deem income and resources from the parents if the child is living with the parents; and from the child's spouse if the child is married and living with the spouse.

B. Forming Budget Units for the MN Eligibility Determination

Place the child who has his/her own resources or income in a BU by himself.

EXAMPLE #6: Household listed on application consists of a woman, her disabled spouse, their 15-year old son, and their 20-year old daughter. *The son's MN eligibility is being determined.*

The family unit consists of:

- the mother,
- her husband, and
- their two children under age 21.

Because the son receives unearned income from a trust fund, the family unit is broken into BUs:

- BU #1 = son
- BU #2 = mother, her husband, and their daughter

The parent's BU's countable income is calculated to determine how much income is deemed to the son's BU. The parent's deemed income is added to the son's income to determine the son's BU's countable income for MN eligibility.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2017
Subchapter Subject M0520.000 F&C MN FAMILY/BUDGET UNIT	Page ending with M0520.202	Page 10

M0520.202 MARRIED MEDICAID MINOR OR MEDICAID MINOR CARETAKER LIVING WITH PARENT

A. Policy

The Medicaid minor parent (caretaker) is included in a BU with his/her parent(s), NOT with his or her child(ren), unless the Medicaid minor caretaker has resources (F&C MN covered groups only) or income of his/her own, or is married and living with his/her spouse.

If the Medicaid minor parent (caretaker) has resources or income, or is married and living with a parent(s) and his/her spouse, place the Medicaid minor caretaker in a BU by himself/herself and deem the parents' resources and income (and the spouse's resources and income, when the Medicaid minor caretaker is married and living with his/her spouse) to the Medicaid minor caretaker.

B. Forming Budget Units

1. Medicaid Minor Caretaker

Place the Medicaid minor parent caretaker in a BU with his/her parents when the Medicaid minor parent:

- is not married, or is married but not living with his/her spouse, and
- has no resources or income of his/her own.

EXAMPLE #7: Household listed on application consists of woman applicant, her disabled spouse, their 17-year old daughter and her 2-year old son (woman's grandson). *The daughter's MN eligibility is being determined.*

The family unit consists of :

- the mother,
- her husband,
- their daughter, and
- the daughter's son.

The family unit's income is determined using the F&C income policy and procedures. Because the daughter is a Medicaid minor parent, the family unit is broken into BUs:

- BU #1 = 2-year old grandson
- BU #2 = the mother, her husband and the 17-year old Medicaid minor parent

The mother and her husband's countable income is calculated to determine the Medicaid minor parent's eligibility as *MN*.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2017
Subchapter Subject M0520.000 F&C MN FAMILY/BUDGET UNIT	Page ending with M0520.202	Page 11

2. Married Medicaid Minor

Place the married Medicaid minor in a BU by himself/herself when the Medicaid minor:

- is married and living with his/her spouse, or
- has resources or income of his/her own, AND
- lives with his/her parent(s).

Deem a portion of the married Medicaid minor's parent's resources and income to the married minor, and deem a portion of the married minor's spouse's resources and income to the married minor.

EXAMPLE #8: Household listed on application consists of the married Medicaid minor applicant age 17, her spouse age 25 and her parents. *The minor's MN eligibility is being determined.*

The family unit consists of:

- the married Medicaid minor,
- her husband, and
- her parents.

Because the daughter is a married Medicaid minor who lives with her parents and her spouse, the family unit is broken into BUs:

- BU #1 = the married Medicaid minor
- BU #2 = her husband
- BU #3 = her parents

The parent's BU's countable income is calculated to determine the amount deemed to the married Medicaid minor. Her husband's countable income is calculated to determine the amount deemed to the married Medicaid minor. The income deemed from the married Medicaid minor's parents and the income deemed from her husband are added to the married Medicaid minor's income to determine her total countable income.

1. Medicaid Minor Parent Caretaker Has Resources or Income

Place the Medicaid minor parent caretaker in a BU by himself/herself when the Medicaid minor caretaker has resources or income of his/her own.

EXAMPLE #9: Household listed on application consists of woman applicant, her spouse, their 17-year old daughter and the 17-year old's 2-year old son. *The daughter's MN eligibility is being determined.*

The family unit consists of:

- the mother,
- her husband,
- their daughter, and
- their daughter's 2-year old son.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2017
Subchapter Subject M0520.000 F&C MN FAMILY/BUDGET UNIT	Page ending with M0520.203	Page 12

The family unit's income is determined using the F&C income policy and procedures. Because the Medicaid minor parent caretaker has unearned income from a trust fund, the family unit is broken into BUs:

- BU #1 = the 2-year old
- BU #2 = the Medicaid minor parent
- BU #3 = the mother and father of the minor parent

The mother and father's BU's countable income is calculated to determine the amount of income to deem to their daughter.

The Medicaid minor parent's BU's countable income is first calculated to determine her income. Her income then is added to the amount of income deemed from her parents to determine her eligibility. A separate calculation must be done to determine the amount of the Medicaid minor parent's own income (not including income deemed from her parents) that must be deemed to her 2-year old.

The 2-year old's BU's countable income is the amount of income deemed from his mother since he has no other source of income.

M0520.203 STEPPARENT IN HOUSEHOLD

A. Policy

A stepparent is in a BU separate from his/her stepchild(ren). A married parent (except a minor married parent) is included in a BU with his/her spouse and their child(ren)-in-common. The parent's(s') other child(ren) who are not the child(ren) of his/her spouse are in a separate BU.

Deem resources and income from the parent to his/her child's BU. Do not deem any of the stepparent's resources or income to the parent's child.

B. Forming Budget Units

Place a married parent in a BU that is separate from the parent's child(ren); include the married parent's spouse (the child's stepparent) in the BU with the parent. Include the parent's and stepparent's child(ren)-in-common in the BU with the parent and stepparent.

EXAMPLE #10: Household listed on application consists of mother, her spouse, their 6-year old son, and her 8-year old son from another relationship. *The children's MN eligibility is being determined.*

The family unit consists of:

- the mother,
- her 8-year old son,
- her spouse (stepparent to her son), and
- their 6-year old son.

The family unit's income is determined using the F&C income policy and procedures. BUs are *applicable* because there is a stepparent in the home:

- BU #1 = 8-year old child
- BU #2 = mother, stepparent, their 6-year old child

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2017
Subchapter Subject M0520.000 F&C MN FAMILY/BUDGET UNIT	Page ending with M0520.300	Page 13

M0520.204 ACKNOWLEDGED FATHER IN HOUSEHOLD

A. Policy

An acknowledged father who lives in the household and is not married to the child(ren)'s mother is in a BU separate from the mother. Their child(ren)-in-common is NOT included in the BU with the father; the child(ren)-in-common is in a separate BU.

The mother's own children (who are not the acknowledged father's children) are included in a BU with the mother (unless the child(ren) has resources or income of his/her own).

B. Forming Budget Units

When an acknowledged father lives in the household and is not married to the child(ren)'s mother, place the child(ren) and the acknowledged father in separate BUs.

EXAMPLE #11: Household listed on application consists of mother, her boyfriend who is the acknowledged father of their 4-year old son, their 4-year old son and her 8-year old daughter. *The children's MN eligibility is being determined.*

The family unit consists of:

- the mother,
- her 8-year old daughter,
- the acknowledged father, and
- their 4-year old son.

Because there is an acknowledged father, BUs are formed:

BU #1 = mother, her 8-year old child
 BU #2 = their 4-year old child
 BU #3 = acknowledged father

M0520.300 DEEMING FROM SPOUSE

A. Policy

The spouse is included in the F&C spouse's budget unit UNLESS:

- the spouse is an SSI or IV-E recipient (do NOT deem any resources or income from an SSI or IV-E recipient spouse to the F&C spouse);
- the F&C spouse is a Medicaid minor parent and they are living with his/her parent(s);

the F&C spouse's spouse is under age 21 and they are living with the spouse's parent(s).

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2017
Subchapter Subject M0520.000 F&C MN FAMILY/BUDGET UNIT	Page ending with M0520.300	Page 14

**B. SSI or IV-E
Recipient Spouse**

If eligibility is being determined in an F&C covered group that has a resource test, the income and resources owned **solely** by an SSI or IV-E recipient are not considered available to his/her spouse. The pro-rata share of resources owned **jointly** by the F&C spouse and his/her SSI or IV-E recipient spouse is counted available to the F&C spouse when they are living together.

When **not** living together, resources owned jointly with the SSI or IV-E recipient are available only if the SSI or IV-E recipient agrees to sell or liquidate the resource. If the SSI or IV-E recipient agrees, then only 1/2 of the resource's value is counted as available to the F&C spouse.

**C. Married Medicaid
Minor Living
With Parents**

Determine how much of the deemor spouse's resources and income to deem to the F&C spouse (Medicaid minor) using the following procedures:

**1. Deem
Resources**

a. Determine Countable Resources

Determine the value of the deemor spouse's countable resources owned solely and jointly, according to policy in chapter M06.

b. Subtract Resource Deeming Standard

From the total of the deemor spouse's share of jointly held resources and resources held in his/her name only, subtract the \$1,000 resource deeming standard.

c. Deem Remaining Resources

The remaining value, if any, is deemed available to the F&C spouse.

d. Deeming Does Not Reduce Resources

If any of the deemor spouse's resources that are over the resource limit are deemed, this does not make the spouse resource-eligible. Deeming resources does not reduce the deemor's countable resources.

2. Deem Income

To determine how much of the deemor spouse's income to deem to the F&C spouse, use the following procedures:

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2017
Subchapter Subject M0520.000 F&C MN FAMILY/BUDGET UNIT	Page ending with M0520.300	Page 15

a. Determine Countable Income

Determine the deemor spouse's gross monthly countable unearned and earned income according to chapter M07.

b. Subtract Earned Income Exclusions

Subtract the applicable earned income exclusions listed in section M0720.500:

- Standard work exclusion of \$90 (M0720.520), and
- Child/incapacitated adult care exclusion (M0720.540).

c. Subtract Deeming Standard

Subtract the deeming standard. The deeming standard is the F&C 100% income limit for the locality for

- the number of persons in the deemor spouse's BU, **plus**
- the number of deemor's child(ren) under age 21 in the household who are excluded from the Medicaid application (are not included in **any** Medicaid BU) and who are or can be claimed as dependents on the deemor's federal income tax return. If the deemor has not previously filed a return or states that he/she will claim a different number of dependents for the current year, use the number of dependents he/she intends to claim for the current year.

See M0710, Appendix 3, for the F&C 100% income limit.

NOTE: For the deeming calculation, a pregnant woman is only 1 person.

d. Subtract Support Payments Made

Subtract actual support paid to individuals NOT in the home, who are or could be claimed as dependents on the **deemor's** federal tax return.

Subtract actual alimony and/or child support payments made to individuals NOT in the home and not claimed as dependents on the **deemor's** federal income tax return.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2017
Subchapter Subject M0520.000 F&C MN FAMILY/BUDGET UNIT	Page ending with M0520.300	Page 16

e. Deem Remainder

Deem the remaining balance to the eligible F&C spouse (plus the spouse's F&C child(ren), if any, who is not in the spouse's BU) as unearned income.

NOTE: Deeming income does not reduce the deemor's countable income for his Medicaid eligibility determination.

**D. Example--
Married Minor
Living With
Parents**

EXAMPLE #12: (Using 1999 figures)

A Medicaid minor pregnant woman lives with her husband, their 1-year old child, his 14-year old child from a previous marriage, and her parents. They live in Group I. Her husband earns \$3,200 monthly. She has no income. She and her husband own a joint savings account with a balance of \$1,600. Her father earns \$2,000 monthly; her mother has no income. *MN eligibility is being determined for the minor pregnant woman.*

1. Family Unit

The Medicaid minor pregnant woman's family unit consists of herself, her unborn child, her husband, their 1-year old child, his 14-year old child, and her parents (a family unit of 7).

2. Budget Units

Because there is a Medicaid minor parent and a stepparent in the household, the family unit is divided into BUs:

- BU #1 = the minor PG woman and unborn child (2);
- BU #2 = her spouse, their 1-year old child (2);
- BU #3 = her spouse's 14-year old child (1);
- BU #4 = her parents (2).

Due to excess income at the BU level, a MN eligibility determination is required. Portions of her spouse's resources (for F&C MN only) and income are deemed to her BU according to the spouse deeming procedures.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2017
Subchapter Subject M0520.000 F&C MN FAMILY/BUDGET UNIT	Page ending with M0520.400	Page 17

BU #1 spouse deeming calculations:

a. Resource Deeming

\$ 800 husband's ½ of joint savings
-1,000 resource deeming standard
 0 excess (no resources deemed to F&C spouse)

b. Income Deeming

\$3,200 husband's earnings
- 90 standard work exclusion
 3,110 countable income
- 229 deeming standard for deemor's BU (2 persons in Group I)
 2,881 excess
÷ 2 PG woman (spouse) and 14-year-old child
 \$1,440.50 deemed to each

The parents' deemed resources and income to the pregnant woman's BU are calculated according to M0520.400 below. The parents' deemed income is added to the spouse's deemed income to determine the minor PG woman's income eligibility.

M0520.400 DEEMING FROM PARENT

A. Policy

A parent's resources and income are considered available (either counted in the unit or deemed) to a child under age 21 living with a parent. The parent's resources and income are deemed to the child when the child is in a separate BU from the parent, unless

- the parent is an SSI recipient or has a 1619b status,
- the parent receives IV-E foster care or adoption assistance,
- the child is living away from home per M0520.001 B.3, or
- the child is a foster care child placed in the home for a trial visit of 6 months or less.

1. Deeming Standard

The deeming standard is the portion of the parent's countable resources or income that is not considered available to the child who is in a separate BU from the parent. The resource deeming standard is \$1,000. The income deeming standard is the locality F&C 100% income limit for the deemor parent's BU plus any excluded children.

2. Single Parent or Parent and Stepparent with No Child in Common

When each child in the home has only one parent in the home and the parent is in a separate BU, subtract the whole deeming standard from the parent's countable resources and income.

Note: A stepparent is not a "parent" for deeming purposes.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2017
Subchapter Subject M0520.000 F&C MN FAMILY/BUDGET UNIT	Page ending with M0520.400	Page 18

3. Both Parents In Same BU-Married With Child in Common

a. No Stepchildren

When both parents (at least one child in common) are in the same BU and there are no stepchildren, subtract the whole deeming standard from the parents' resources and income.

b. Stepchildren

When both parents (at least one child in common) are in the same BU and they have at least one child in common in the home who is included in the family unit, subtract one-half of the deeming standard for the parents' BU from deemor parent's resources and income.

When both parents are in the same BU and all their children-in-common are excluded from the family unit, subtract the whole deeming standard for the parents' BU from the deemor parent's resources and income.

4. Both Parents In Different BUs

When both parents (at least one child in common) are in separate BUs, subtract the whole deeming standard from the deemor parent's countable resources and income.

B. Deeming Resources

To determine how much of the deemor parent's resources to deem to the child, use the following procedures:

1. Determine Countable Resources

Determine the value of countable resources owned solely by the parent and the value of countable resources owned jointly with the parent's spouse or another person, according to policy in chapter M06. All resources that are in the deemor parent's name only plus the deemor's share of jointly held resources are counted.

2. Subtract Resource Deeming Standard

a. Single Parent or Parent and Stepparent with No Child in Common

Subtract the whole resource deeming standard of \$1,000 from the deemor's total countable resources (those in the deemor's name only plus the deemor's share of jointly held resources).

Separate deeming calculations for each deemor parent must be done to ensure stepparent resources are not deemed.

b. Both Parents In Same BU With Child in Common

- 1) Subtract the whole deeming standard of \$1,000 from the parents' countable resources when there are children in common and no stepchildren in the home.

When both parents are deeming only to children in common, their resources are combined and only one deeming calculation is done.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2017
Subchapter Subject M0520.000 F&C MN FAMILY/BUDGET UNIT	Page ending with M0520.400	Page 19

- 2) Subtract one-half of the resource deeming standard (\$500) from each deemor parent's countable resources, when there are children in common **and** stepchildren in the home, and at least one child-in-common in the home is included in the family unit.

Separate deeming calculations for each deemor parent must be done to ensure stepparent resources are not deemed.

c. Both Parents In Different BUs

When both parents are in the home but in different budget units, subtract the whole resource deeming standard of \$1,000 from the deemor's total countable resources (those in the deemor's name only plus the deemor's share of jointly held resources).

Separate deeming calculations must be completed for each deemor parent.

3. Deem Resources Remainder

The remaining value, if any, is deemed available to the non-excluded F&C child(ren) who are not in the parent's BU. If the parent has more than one non-excluded child in the household who is not in the parent's BU, divide the remaining resource value by the number of non-excluded children who are not in the parent's BU.

NOTE: Deeming resources does not reduce countable resources for the deemor's eligibility determination.

4. Example-- Resource Deeming From Parent

EXAMPLE #13: A woman lives with her husband, their 5-year old child, her 11- year old and 12-year old children from a previous marriage, and his 14-year old child from a previous marriage. They live in Group I. *The children's MN eligibility is being determined.*

The family's resources consist of a savings account of \$1,050 owned jointly by the woman and her spouse, one car owned by the husband with an equity value of \$1,000 and a second car (owned jointly by the woman and her spouse) with an equity value of \$50. Each child owns a U.S. savings bond valued at \$100.

The Medicaid family unit is broken into budget units to determine resource eligibility.

- budget unit #1 = her husband's 14-year old child;
- budget unit #2 = their 5 year old child;
- budget unit #3 = her 11 year old child;
- budget unit #4 = her 12 year old child;
- budget unit #5 = the woman, her husband.

Each parent has a child who is not the child of his/her spouse; therefore, separate deeming calculations are used.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2017
Subchapter Subject M0520.000 F&C MN FAMILY/BUDGET UNIT	Page ending with M0520.400	Page 20

a. Mom's Resource Deeming Calculation

The mother's resources are deemed available to each of her children who are not in her BU (including her child-in-common with her husband):

$$\begin{array}{rcl}
 \$ 525 & \frac{1}{2} \text{ savings account} & \\
 + \underline{25} & \text{her } \frac{1}{2} \text{ equity in the second car (not excluded)} & \\
 550 & \text{countable resources} & \\
 - \underline{500} & \frac{1}{2} \text{ resource deeming standard (parents in same BU, child in common)} & \\
 50 & \text{deemable resources} & \\
 \div \underline{3} & \text{number of her children not in her BU} & \\
 \$16.67 & \text{deemed to each of her children not in her BU} &
 \end{array}$$

b. Dad's Resource Deeming Calculation

The Dad's resources are deemed available to each of his children who are not in his BU (including his child-in-common with his wife):

$$\begin{array}{rcl}
 \$ 525 & \frac{1}{2} \text{ savings account} & \\
 + \underline{25} & \text{his } \frac{1}{2} \text{ equity in the second car (not excluded)} & \\
 550 & \text{countable resources} & \\
 - \underline{500} & \frac{1}{2} \text{ resource deeming standard (parents in same BU, child in common)} & \\
 50 & \text{deemable resources} & \\
 \div \underline{2} & \text{number of his children not in his BU} & \\
 \$ 25 & \text{deemed to each of his children not in his BU} &
 \end{array}$$

c. Budget Units #3 and #4

$$\begin{array}{rcl}
 \$ 100.00 & \text{child's savings bond} & \\
 + \underline{16.67} & \text{deemed from Mom} & \\
 \$ 116.67 & \text{child's countable resources} &
 \end{array}$$

Each child has total resources of \$116.67. Each child's resources are less than the MN resource limit; each is resource-eligible and is placed on an MN spenddown.

d. Budget Unit #1

$$\begin{array}{rcl}
 \$ 100.00 & \text{child's savings bond} & \\
 + \underline{25.00} & \text{deemed from Dad} & \\
 \$ 125.00 & \text{child's countable resources} &
 \end{array}$$

The child has total resources of \$125. Dad's child's resources are less than the MN resource limit, so the child is resource-eligible and is placed on an MN spenddown.

e. Budget Unit #2

$$\begin{array}{rcl}
 \$100.00 & \text{child's savings bond} & \\
 + 16.67 & \text{deemed from Mom} & \\
 + \underline{25.00} & \text{deemed from Dad} & \\
 \$141.67 & \text{child's countable resources} &
 \end{array}$$

Their child's countable resources are less than the MN resource limit, so their child is resource-eligible and is placed on an MN spenddown.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2017
Subchapter Subject M0520.000 F&C MN FAMILY/BUDGET UNIT	Page ending with M0520.400	Page 21

C. Deeming Income

To determine how much of the deemor parent's income to deem to the F&C child(ren), use the following procedures:

1. Determine Countable Income

Determine the deemor parent's gross monthly countable unearned and earned income according to chapter M07.

2. Subtract Earned Income Exclusions

Subtract the applicable earned income exclusions listed in section M0720.500:

- standard work exclusion of \$90 (M0720.520), and
- child/incapacitated adult care exclusion(M0720.540).

3. Subtract Income Deeming Standard**a. Single Parent or Parent and Stepparent with No Child in Common**

Subtract the whole income deeming standard. The income deeming standard is the F&C 100% income limit for the locality (see M710, Appendix 3) for

- the number of persons in the deemor's BU, **plus**
- the number of children under age 21 in the household who are excluded from the Medicaid application (not included in **any** Medicaid assistance unit) and who are or can be claimed as dependents on the deemor's federal income tax return. If the deemor has not previously filed a tax return or states that he/she will claim a different number of dependents for the current year, use the number of dependents he/she intends to claim for the current year. Do not count children who receive SSI when determining the income deeming standard.

A deeming calculation must be done for each deemor parent.

NOTE: For the deeming calculation, a pregnant woman is only 1 person.

b. Both Parents In Same BU and Child-in-Common

- 1) Subtract the whole income deeming standard from the parents' income when there is a child(ren)-in-common and no stepchildren in the home.

When both parents are deeming only to child(ren)-in-common, only one deeming calculation is done.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2017
Subchapter Subject M0520.000 F&C MN FAMILY/BUDGET UNIT	Page ending with M0520.010	Page 22

- 2) Subtract one-half of the income deeming standard from the parent's countable income when there are children in common **and** stepchildren in the home, and at least one child-in-common in the home was included in the family unit.

Separate deeming calculations for each deemor parent must be done to ensure stepparent income is not deemed.

- 3) When both parents are in the same BU and ALL their children-in-common are **excluded** from the family unit, subtract the whole income deeming standard for the parents' BU from the deemor parent's income.

Separate deeming calculations for each deemor parent must be done to ensure stepparent income is not deemed.

c. Both Parents In Different BUs

Subtract the whole income deeming standard from the deemor parent's countable income.

Separate deeming calculations must be done for each deemor parent.

4. Subtract Support Payments Made

Subtract actual alimony and/or child support payments made to individuals not in the home, regardless of whether or not the individuals are claimed as dependents on the deemor's federal income tax return.

5. Deem Remainder

Deem the remaining income as unearned income to the non-excluded F&C child(ren) in the household who are not in the parent's BU. If the parent has more than one non-excluded F&C child in the household who is not in the parent's BU, divide the remaining income by the number of non-excluded children who are not in the parent's BU (plus the parent's minor spouse, if any, who is not in the parent's BU).

NOTE: Deeming income does not reduce the deemor's countable income for the deemor's eligibility determination.

6. Example—Income Deeming From Parent; Stepchildren In Home

EXAMPLE #14: (Using July 2002 figures)

An application is filed for a woman who lives with her husband, their 5-year-old child, her 11-year-old and 12-year-old children from a previous marriage, and his 14-year-old child from a previous marriage. They live in Group I. Her husband earns \$2,200 monthly. She earns \$800 monthly. Her children each receive \$150 monthly child support. They have no resources. *The children's MN eligibility is being determined.*

The Medicaid family unit is broken into budget units because there are stepparents in the home and some of the children have their own income.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2017
Subchapter Subject M0520.000 F&C MN FAMILY/BUDGET UNIT	Page ending with M0520.400	Page 23

- budget unit #1 = Dad's 14-year old child
- budget unit #2 = Mom's 11-year old child
- budget unit #3 = Mom's 12-year old child
- budget unit #4 = Mom, Dad, and their child

Each parent has a child who is not the child of his/her spouse; therefore, separate deeming calculations are used.

a. Mom's Income Deeming Calculation

Mom's countable income is deemed to each of her children who are not in her BU.

\$ 800.00	Mom's earnings
- 90.00	standard work exclusion
710.00	countable income
- 156.63	½ deeming standard for 3 in Group I (\$313.25)
553.37	deemable income
÷ 2	number of her children not in her BU
\$ 276.69	deemed to each child

b. Dad's Income Deeming Calculation

Dad's countable income is deemed to his child.

\$2,200.00	Dad's earnings
- 90.00	standard work exclusion
2,110.00	countable income
- 156.63	½ deeming standard for 3 in Group I (\$313.25)
\$1,953.37	= deemable income

c. BU #1

\$1,953.37 = countable income (deemed from Dad).

d. BUs #2 and #3

\$ 276.69	deemed unearned income from Mom
+ 150.00	child's own income
- 50.00	child support disregard
376.69	= countable income for both BUs

e. BU #4

\$2,200	husband's earnings
+ 800	woman's earnings
- 180	standard work exclusions (\$90 x 2 = 180)
2,820	= countable earned income <i>for the child in common.</i>

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2017
Subchapter Subject M0520.000 F&C MN FAMILY/BUDGET UNIT	Page ending with M0520.400	Page 24

7. Example—Income Deeming From Parent; All Children-in-Common Excluded

EXAMPLE #14a: (Using July 2005 figures)

A woman lives with her husband, their 5-year old child, her 11-year old and 12 year-old children from a previous marriage, and his 14-year old child from a previous marriage. They exclude their child, and apply for the other three children. They live in Group III. Her husband earns \$2,200 monthly. She earns \$800 monthly. Her children each receive \$150 monthly child support. They have no resources. *The three children's MN eligibility is being determined.*

The Medicaid family unit is broken into budget units because there are stepparents in the home and Mom's two children have their own income.

- budget unit #1 = Dad's 14-year old child
- budget unit #2 = Mom's 11-year old child
- budget unit #3 = Mom's 12-year old child
- budget unit #4 = Mom and Dad

Their excluded child is not included in the parents' BU, but is counted when determining the deeming standard. Each parent has a child who is not the child of his/her spouse; therefore, separate deeming calculations are used.

a. Mom's Income Deeming Calculation

Mom's countable income is deemed to each of her children who are not in her BU.

\$ 800.00	Mom's earnings
- 90.00	standard work exclusion
710.00	countable income
- 437.58	whole deeming standard for 3 in Group III
272.42	deemable income
÷ 2	number of her children not in her BU
\$136.21	deemed to each child

b. Dad's Income Deeming Calculation

Dad's countable income is deemed to his child.

\$2,200.00	Dad's earnings
- 90.00	standard work exclusion
2,110.00	countable income
- 437.58	whole deeming standard for 3 in Group III
\$1,672.42	= deemable income

c. BU #1

\$1,672.42 = countable income (deemed from Dad)

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2017
Subchapter Subject M0520.000 F&C MN FAMILY/BUDGET UNIT	Page ending with M0520.501	Page 25

d. BUs #2 and #3

\$ 136.21 deemed income from Mom
 + 150.00 child's own income
 - 50.00 child support disregard
 236.21 = countable income

e. BU #4

\$2,200 Dad's earnings
 + 800 Mom's earnings
 - 180 standard work exclusions (\$90 x 2 = 180)
 2,820 = countable income

Mom and Dad *do not meet a MN covered group.*

M0520.500 CHANGES IN STATUS**A. Policy**

When the household composition changes, or the circumstances of the household members change, the F&C family and budget unit may change, and the requirements to deem a spouse's or parent's resources and income may change.

B. Procedure

See M0520.501 for Family/Budget Unit Changes.
See M0520.502 for Deeming Changes.

M0520.501 FAMILY/BUDGET UNIT CHANGES**A. Introduction**

Some changes in the household composition which require changes in the family unit or budget units are listed and described in this section.

B. Spouses Separate or Divorce

If a married F&C individual and his/her spouse separate or divorce and no longer live together, the spouse is not included in the F&C individual's family or budget unit beginning the month after the month in which the separation or the divorce occurred. If a married F&C individual and his/her spouse divorce but they remain living in the same household, the divorced father is considered an acknowledged father beginning the month after the month in which the divorce occurred.

C. Individual Begins Living With A Spouse

For applicants, if an F&C individual or deemor begins living with a spouse, the spouse is included in the family or budget unit beginning with the month in which they begin living together.

For recipients, if an F&C individual or deemor begins living with a spouse, the spouse is included in the family or budget unit beginning with the month after the month they begin living together.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2017
Subchapter Subject M0520.000 F&C MN FAMILY/BUDGET UNIT	Page ending with M0520.501	Page 26

**D. Parent and Child
Begin Living in
Same Household**

For applicants, if an F&C child begins living with a parent in the same household (e.g., a child comes from aunt's home to live in mother's home), the child and parent are included in the family unit for purposes of determining eligibility beginning the month in which they begin living together.

For recipients, if an F&C child begins living with a parent in the same household (e.g., a child comes from aunt's home to live in mother's home), the child and parent are included in the family unit for purposes of determining eligibility beginning the month **after** the month they begin living together.

NOTE: A newborn child is considered living with the parent(s) as of the date the child is born, unless the child is entrusted into foster care on that date.

**E. Spouse or Parent
Dies**

If a spouse or parent dies, the spouse or parent is deleted from the family or budget unit effective with the month following the month of death.

**F. Individual
Becomes
Institutionalized**

If an F&C individual becomes institutionalized, either in a medical facility or in Medicaid CBC waiver services, the individual is a separate family unit effective with the first month in which the individual is institutionalized.

**G. Individual Leaves
Home**

If an F&C individual leaves the household, the individual is deleted from the family or budget unit beginning with the month following the month in which he left the household.

NOTE: If a spouse, parent or child was temporarily absent from the household, this rule applies effective with the month after the month the spouse's, parent's or child's absence is no longer considered temporary.

**H. Child Attains Age
21**

Effective the month following the month in which a child attains age 21, the child is removed from the family or budget unit. An individual attains age 21 on the day preceding the anniversary of his/her birth.

M0520.502 DEEMING CHANGES

A. Introduction

Some changes in the circumstances of the household members which require changes in the deeming procedures are listed and described in this section.

**B. Spouses Separate
or Divorce**

If a married F&C individual and his/her spouse separate or divorce and no longer live together, or their marriage ends in divorce but they remain living in the same household, the spouse's resources (F&C MN only) and income are not deemed to the F&C spouse's family or budget unit beginning the month after the month in which the separation or the divorce occurred. The divorced father who lives in the household with his child(ren) and ex-wife is treated like an acknowledged father.

NOTE: If an application is filed in the month of separation or divorce,

deeming applies that month even if the application is filed on or after the date of separation or divorce.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2017
Subchapter Subject M0520.000 F&C MN FAMILY/BUDGET UNIT	Page ending with M0520.600	Page 27

- C. Individual Begins Living With A Spouse** If an F&C individual begins living with a spouse, deeming of the spouse's resources (F&C MN only) and income to the F&C spouse's BU begins effective with the month after the month they begin living together.
- D. Spouse Or Parent Dies** If a spouse or parent dies, deeming stops for purposes of determining eligibility effective with the month following the month of death. If the child lives with two parents and one dies, deeming continues from the surviving parent to determine eligibility.
- E. Individual Becomes Institutionalized** If an F&C individual becomes institutionalized, either in a medical facility or in Medicaid CBC waiver services, deeming stops for purposes of determining eligibility effective with the first month in which the individual is institutionalized.
- F. Individual Leaves Home** If a spouse, parent or child no longer live in the same household, deeming of that spouse's or parent's resources (F&C MN only) and income stops effective the month after the month the spouse, parent or child leaves the household for purposes of determining eligibility, except for a foster care child. When a child is removed from the home and placed in foster care, the child becomes an FU of 1 person effective the date of commitment or entrustment or non-custodial foster care agreement. The child is deleted from the family's FU effective the end of the month during which the child was placed in foster care.
- NOTE: If a spouse, parent or child was temporarily absent from the household, this rule applies effective with the month after the month the spouse's, parent's or child's absence is no longer considered temporary.
- G. Parent and Child Begin Living in Same Household** If an F&C child begins living with a parent in the same household (e.g., a newborn child comes home from a hospital), the parent's income is deemed to the child's BU for purposes of determining eligibility beginning the month after the month they begin living together.
- H. Child Attains Age 21** Deeming stops effective the month following the month in which a child attains age 21. An individual attains age 21 on the day preceding the anniversary of his/her birth. Eligibility is determined using only the individual's own income after the child attains age 21. The individual's income for the current month and subsequent months must include any income in the form of cash provided by the parents.

M0520.600 PREGNANT WOMAN BUDGET UNIT

- A. Policy** A pregnant woman's family or budget unit always consists of at least 2 persons--herself and the unborn child, or children when it is medically verified that there is more than one fetus.
- The other members of the household who are included in the pregnant woman's family or budget unit depend on whether the pregnant woman is

under age 21 years, is married and is living with her parent(s) or spouse.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2017
Subchapter Subject M0520.000 F&C MN FAMILY/BUDGET UNIT	Page ending with M0520.601	Page 28

B. Budget Unit

The BU includes her spouse who lives with her unless the spouse receives SSI, or she and/or her spouse are Medicaid minors living with her or his parent(s).

The BU also includes her child(ren) under age 21 living in the home unless:

- the child(ren) has his or her (their) own income (child is separate BU);
- she specifically excludes the child(ren);
- the child(ren)'s acknowledged father is living in the home and is not married to the pregnant woman;
- she is a Medicaid minor and lives with her parent(s);
- she is a married Medicaid minor and lives with her spouse and parent(s); or
- she is married and living with her spouse who is not the father of the child(ren). If she is married, living with her spouse who is not the father of her child(ren), and she does not exclude her child(ren) under age 21 living in the home, the child(ren) is a separate BU and the pregnant woman's own income and resources deemed available to the child.

M0520.601 UNMARRIED PG WOMAN OVER AGE 21 BUDGET UNIT**A. Policy**

An unmarried pregnant woman's family or budget unit always consists of at least 2 persons--herself and the unborn child, or children when it is medically verified that there is more than one fetus. It includes her minor child(ren) under age 21 who live with her unless

- the child has his/her own resources or income,
- the child's acknowledged father lives in the home, or
- she excludes the child.

**B. Example--
Unmarried PG
Woman Over Age
21**

EXAMPLE #15: (Using February 2000 figures) Group II locality. An unmarried pregnant woman age 25 applies for Medicaid for herself and her 10-year old child. She lives with her parents, her 20 year old brother and her 10-year old child. They have no resources. She earns \$1,200 per month and her 10-year old child receives \$200 monthly child support from his father. Her family unit consists of herself (pregnant woman counts as two persons for her eligibility) and her 10-year old, 3 persons. The 10-year child's family unit consists of the 10-year old and his mother, 2 persons.

\$1,200 PG woman's earnings
- 90 standard work exclusion

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2017
Subchapter Subject M0520.000 F&C MN FAMILY/BUDGET UNIT	Page ending with M0520.602	Page 29

\$ 200 monthly child support
 - 50 support disregard
 150 countable unearned
+1,110 countable earned
 1,260 = countable monthly income

M0520.602 MARRIED PG WOMAN BUDGET UNIT

A. Policy

A married pregnant woman's BU includes her spouse with whom she lives, unless

- she is under age 21 and they live with her parent(s),
- her spouse is under age 21 and they live with his parent(s),
- she has a minor child(ren) living in the household who is not her spouse's child, or
- her spouse has a minor child(ren) living in the household who is not the PG woman's child.

1. PG Woman Is Medicaid Minor Living With Her Parents

When the married PG woman is a Medicaid minor (under age 21 years old) and they live with her parent(s), the BU consists of the Medicaid minor pregnant woman and her unborn child (or children if medically verified). Her spouse and their child(ren) are in a separate BU.

2. PG Woman's Spouse Is Medicaid Minor Living With Spouse's Parents

When the married PG woman's spouse is a Medicaid minor and they live with her spouse's parent(s), the BU consists of the pregnant woman, the unborn child(ren) and their child(ren)-in-common, if any. Her Medicaid minor spouse is in a separate BU and her spouse's parents are in a separate BU.

3. PG Woman And/Or Spouse Have Other Children

When the married PG woman and/or her spouse are age 21 or older, or are under age 21 but do not live with either's parent(s), and have other children in the household who are not their children-in-common, the BU consists of the pregnant woman, her unborn child(ren) and her spouse. Her child(ren) is in a separate BU and his child(ren) is in a separate BU.

B. Example—Married PG Woman Over Age 21, Other Children In Household

EXAMPLE #16: A Medicaid application is filed for a pregnant woman and everyone in her family. She lives with her husband who is not aged, blind, or disabled, her 10-year old child by a former marriage, and his 15-year old child from a former marriage. They have no resources. The family unit's income exceeds the MI pregnant woman income limit for 5 persons, the MI child income limit for 4 persons, and the LIFC 185% standard of need for 4 persons, so BUs are formed because there is a stepparent in the household. Three BUs exist:

- BU #1 = the pregnant woman, her unborn child, and her husband (3);
- BU #2 = her husband's 15-year old child (1);

- BU #3 = her 10-year old child (1).

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2017
Subchapter Subject M0520.000 F&C MN FAMILY/BUDGET UNIT	Page ending with M0520.603	Page 30

**C. Example—
Married PG
Woman Under
Age 21, Living
With Spouse's
Parents**

EXAMPLE #17: A minor pregnant woman age 19 lives with her husband who is age 19, her 2-year old child by a former relationship, and his parents (6 persons). Budget units are formed because there are a stepparent and a minor spouse in the household. Four budget units exist:

- #1 = the pregnant woman and her unborn child (2);
- #2 = her 2-year old child (1);
- #3 = her husband (1);
- #4 = his parents (2).

M0520.603 UNMARRIED MINOR PG WOMAN BUDGET UNIT

A. Policy

When the Medicaid minor (under age 21 years old) pregnant woman is not married, the budget unit consists of the Medicaid minor pregnant woman and her unborn child (or children if medically verified) and the minor pregnant woman's child(ren) who live with her, unless

- she lives with her parent(s), or
- her child(ren) has resources or income of his/her own.

If the unmarried Medicaid minor pregnant woman lives with her parent(s), the budget unit consists of the Medicaid minor pregnant woman and her unborn child (or children if medically verified) and the Medicaid minor pregnant woman's parent(s). Her child(ren) are in a separate budget unit.

**1. Her
Stepparent In
Household**

If the Medicaid minor pregnant woman's parent is married and the spouse lives in the household, the Medicaid minor pregnant woman's parent is NOT included in the budget unit with her. A portion of her parent's own resources and income is deemed to the Medicaid minor pregnant woman.

**2. Siblings In
Household**

If the Medicaid minor pregnant woman has a minor (under age 21) sibling(s) in the household who is listed on the application form, that sibling is included in the unit with her parent(s) unless

- the sibling(s) has his/her own resources or income, or
- a stepparent or acknowledged father lives in the home.

If the sibling(s) has resources or income, the parent(s) must be advised of the opportunity to exclude that sibling from the family unit.

**3. Medicaid
Minor PG
Woman Is
Also Medicaid
Minor
Caretaker**

If the Medicaid minor pregnant woman lives with her parents and also has a child(ren) of her own living with her for whom Medicaid is requested, she is also a Medicaid minor caretaker. Her child(ren) is in a separate budget unit. The pregnant woman is in a separate budget unit with her parent(s) and minor siblings who live at home, if the Medicaid minor PG woman and her siblings have no income or resources of their own. If the

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2017
Subchapter Subject M0520.000 F&C MN FAMILY/BUDGET UNIT	Page ending with M0520.603	Page 31

Medicaid minor PG woman has resources or income of her own, she is in a separate BU and a portion of the pregnant woman's own income and resources is deemed available to her child(ren).

**B. Example—
Unmarried
Medicaid Minor
PG Woman**

EXAMPLE #18: A Medicaid minor pregnant woman lives with her 2-year old child, her parents, and her 16 year old brother. The pregnant woman's family unit consists of the Medicaid minor pregnant woman, her unborn child, her 2 year old child, her parents and her brother. She has income from part-time work. The family unit is broken into budget units because the Medicaid minor PG woman has her own income and she is a minor parent living with her parents. Three budget units exist:

- budget unit #1 = the Medicaid minor PG woman (2);
- budget unit #2 = her 2 year old child (1);
- budget unit #3 = the parents, her 16 year-old brother (3).

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2017
Subchapter Subject M0520.000 F&C MN FAMILY/BUDGET UNIT	Page ending with M0520.701	Page 32

M0520.700 INDIVIDUAL UNDER AGE 21 FAMILY UNIT

A. Policy

The family unit of an individual who meets the covered group of MN Individuals Under Age 21 (who are in foster care, adoption assistance or in ICF/ICF-MR care) is determined using the family unit rules in M0520.100 above when the individual lives with a parent or spouse. If the individual does not live with a parent or spouse, the individual is in a family unit by himself.

If the individual under age 21 is living away from home, see M0520.001 B.3. to determine if the individual is considered living with his parents.

B. Procedure

The following sections contain the policy and procedures to use when determining the family/budget unit of an individual under age 21:

- M0520.701 Foster Care Child Family Unit;
- M0520.702 Non IV-E Adoption Assistance Family Unit;
- M0520.703 Special Medical Needs Adoption Assistance Child Family Unit;
- M0520.704 Child In ICF or ICF-MR.

M0520.701 FOSTER CARE CHILD FAMILY UNIT

A. Policy

A foster care child who is not living with his/her parents is a family unit of one person. A child in foster care who is not living with his or her parent(s) is evaluated as a separate family unit, even if the child is living with his or her own siblings in foster care. When a child is removed from his home and placed in foster care, the child becomes a family unit of 1 person effective the date of the commitment or entrustment to, or non-custodial agreement with the agency.

1. Child Living With Parents

If the foster child is living with his or her parents and/or siblings NOT on a trial visit basis, the foster care child is included in the family unit with his/her parents and siblings.

If the child's family unit has resources or income which exceeds the limit for the child's covered group, determine if the family unit can be broken into BUs. The foster care child is included in a BU with his/her parents UNLESS:

- the child has his/her own resources;
- the child has his/her own income;
- the child's stepparent is in the family unit;
- the child's parent with whom he/she lives is a minor (under age 21) and they live with the minor parent's parent(s);

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2017
Subchapter Subject M0520.000 F&C MN FAMILY/BUDGET UNIT	Page ending with M0520.702	Page 33

- the child(ren)'s acknowledged father lives in the household and is not married to the child(ren)'s mother.

2. Child Placed In Own Home For Trial Visit

A foster care child who is placed in the home with his/her parents and siblings **for a trial visit** is a family unit of 1 person. The parent(s)' resources and income are NOT deemed available to the foster care child. Verify the trial visit with the agency's *Family Services* staff.

The trial visit is no longer than 6 months for this section's purposes. A child will continue to be a single person BU during a trial visit and only the child's income and resources will be counted in determining the child's Medicaid eligibility.

3. Foster Care Payment Is Excluded

The foster care payment is excluded when determining the family unit's financial eligibility.

B. Examples

1. Trial Visit

EXAMPLE #19: The agency services staff places the foster care child, age 10, with his family for a trial visit. The child does not receive a foster care payment from the agency. The household consists of the foster care child, his mother and father, his 13-year old sister, and his 22-year old brother. The household consists of 2 family units:

- family unit #1 = foster care child (1);
- family unit #2 = foster care child's parents, 13-year old sister (3).

2. Home Placement, Not Trial Visit

EXAMPLE #20: The agency services staff places the foster care child, age 10, with his family. This is NOT a trial visit, but the agency retains custody of the child. The child does not receive a foster care payment from the agency. The household consists of the foster care child, his mother and father, his 13-year old sister, and his 22-year old brother. The household consists of one family unit: the foster care child, his parents and his 13-year old sister (4).

M0520.702 NON IV-E ADOPTION ASSISTANCE CHILD FAMILY UNIT

A. Policy

A non IV-E adoption assistance child who is not living with his/her parents is a family unit of one person.

1. Child Living With Parent(s)

A non IV-E adoption assistance child who is living with his or her parent(s) is evaluated as a separate family unit from placement until the interlocutory or final order of adoption, whichever comes first. The adoptive parents' resources and income are NOT deemed available to the adoption

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2017
Subchapter Subject M0520.000 F&C MN FAMILY/BUDGET UNIT	Page ending with M0520.702	Page 34

assistance child until the interlocutory or final order of adoption, whichever comes first, is entered.

After the interlocutory or final order of adoption, whichever comes first, a non IV-E adoption assistance child who is living with his or her parent(s) is included in a the family unit with his/her parent(s). If the family unit has resources (F&C MN only) or income which exceeds the limit for the child's covered group, determine if the family unit can be broken into BUs. The non IV-E adoption assistance child is included in a BU with his/her parents UNLESS:

- the child has his/her own resources;
- the child has his/her own income;
- the child's stepparent is in the family unit.

2. Exclude Adoption Subsidy Payment

The adoption subsidy payment is excluded when determining the unit's financial eligibility.

B. Example –Child Placed With Adoptive Parents

EXAMPLE #21: Mary B. is a 19-year old non IV-E foster care child who is in the custody of the local social services agency. On August 5, 1997, she is placed with Mr. and Mrs. G who plan to adopt her. The adoption assistance agreement was signed on August 5, 1997. There is no interlocutory order and the final order will not be signed until February 1998. Mr. and Mrs. G have two children, Tom who is age 17 and Jane who is age 15. Mary receives \$575 per month SSA benefits from her deceased father's work record. Mr. G earns \$3,000 per month gross earnings. Mrs. G has no income of her own. Mary's continued Medicaid eligibility is determined:

Mary's family unit consists of Mary by herself because she does not live with any responsible relative. The final order of adoption will not be signed until February 1998. Beginning with the month following the month in which the final adoption order is signed. Mary will be in a family unit with her adoptive parents and siblings.

C. Example—Child Living With Adoptive Parents

EXAMPLE #22: John is a 20-year old non IV-E adoption assistance child who is in the custody of the local social services agency until August 5, 1997, when the final order of adoption was signed by the judge. His adoptive parents are Mr. and Mrs. T. The adoption assistance agreement was signed on September 15, 1996. Mr. and Mrs. T have two other children, George who is age 17 and Julie who is age 15. John receives \$250 per month adoption subsidy. Mr. T earns \$3,000 per month gross earnings. Mrs. T has no income of her own. John's continued Medicaid eligibility for September 1997 and subsequent months is determined:

John's family unit consists of himself, his adoptive parents and his two siblings, a family unit of 5 persons.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2017
Subchapter Subject M0520.000 F&C MN FAMILY/BUDGET UNIT	Page ending with M0520.704	Page 35

M0520.703 SPECIAL MEDICAL NEEDS ADOPTION ASSISTANCE CHILD FAMILY UNIT

- A. Policy** A non IV-E special medical needs adoption assistance child who is living with his or her parent(s) is evaluated as a separate family unit. **The adoptive parents' income is NOT deemed available to the special medical needs adoption assistance child at any time.**
- B. Exclude Adoption Subsidy Payment** The adoption subsidy payment is excluded when determining the child's financial eligibility.

M0520.704 CHILD IN ICF OR ICF-MR FAMILY UNIT

- A. Policy** When an individual under age 21 is in an intermediate care facility (ICF) (nursing facility) or ICF-MR (intermediate care facility for the mentally retarded) for 30 consecutive days or more, the child is institutionalized and is considered separated from his/her parents.
- Child in medical institutions (facilities) are temporarily absent from home if their stay in the medical facility is less than 30 consecutive days. If the stay has been, or is expected to be, 30 or more consecutive days, go to section M1410.010 to determine if the child is institutionalized in long-term care. A child who is institutionalized in a medical facility or Medicaid waiver services is NOT considered living with his or her parents for Medicaid eligibility purposes.
- The child is a family unit of one person, regardless of the child's covered group. The parents' resources and income are **not** deemed available to the child. If the parents give the child any money, that money is counted as income according to the F&C income rules in chapter M07.

M0530.000 ABD ASSISTANCE UNIT

M0530.001 OVERVIEW

A. Introduction

This subchapter contains the policy and procedures for determining the assistance unit for a non institutionalized individual who meets an aged, blind or disabled (ABD) covered group. Do not use this subchapter for an institutionalized individual; use subchapter M1460 to determine an institutionalized individual's financial eligibility.

The number of persons in the assistance unit and the individual's covered group determine which resource and income limits apply. The deeming policy and procedures in this subchapter explain how to determine how much of a legally responsible relative's resources and income is deemed to the ABD individual.

Appendix 1 to this chapter lists the deeming allocations used when deeming income of a legally responsible relative.

B. Assistance Unit Composition

When determining composition of the ABD assistance unit, identify the individual who applies for Medicaid, who meets the aged, blind or disabled definition in M0510 and who meets an ABD covered group's requirements.

1. Responsible Relatives

a. Spouse

The unit must include the individual's spouse with whom the individual lives when the spouse applies for Medicaid and meets the aged, blind or disabled definition in M0510, regardless of whether the spouse receives an SSI or IV-E foster care/adoption subsidy payment.

b. Parent of Blind/Disabled Child Under Age 21

The parent(s) with whom the blind or disabled child under age 21 lives is legally responsible to support the child. However, the parent is not included in the child's assistance unit. The parent's resources and income are deemed available to the child.

2. SSI Recipients

The policy in this subchapter applies when determining the **resource** eligibility of individual SSI recipients or of couples when both spouses receive SSI and one or both owns an interest in real property contiguous to the home or undivided interest in heir property, or a former residence.

If the SSI recipient is ineligible for Medicaid in the SSI Medicaid covered group due to excess resources, first determine the individual's eligibility in an F&C covered group, if possible, using the F&C assistance unit and financial eligibility rules. If the individual is not eligible in one of the F&C covered groups, then determine his eligibility as an ABD individual.

This subchapter does **not** apply to the **income eligibility** determination of an SSI recipient because an SSI recipient meets the Medicaid income eligibility requirements just by the fact that he/she receives an SSI payment.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date October 2017
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.001	Page 2

3. Living With Family and Children

If the ABD individual lives with his/her spouse and/or dependent child(ren) who request Medicaid in a families and children covered group, the policy in this subchapter applies only to the ABD individual. Use the assistance unit policy in M0520 and the financial requirements in chapters M06 and M07 for the family members who meet an F&C covered group.

4. Living Arrangement

An ABD individual's, couple's or child's living arrangement on the first day of the month is used to determine the individual's status for the entire month. If they are living together (or child is living with parent) on the first of the month, they are living together for the entire month except when separation due to institutionalization occurs within the month. If they are living apart on the first of the month, they are considered separated for the entire month.

When an individual is admitted to an *assisted living facility (ALF)* or other residential facility, he is considered separated and living apart from his spouse (or parent if the individual is under age 21) as of the first of the month following the admission month.

5. Institutional-ization

When an individual is institutionalized in a medical facility, he is considered separated and living apart from his spouse (or parent if the individual is under age 21) as of the first day of the month in which he is admitted to a nursing facility or to Medicaid-approved community-based care waiver services. He is considered separated as of the first of the month during which he has been hospitalized in an acute care or rehabilitation hospital for 30 consecutive days.

Do **not** use this subchapter for an institutionalized individual; use the policy and procedures in chapter M14 to determine eligibility. *See M0530.204 F to determine the eligibility of a non-institutionalized spouse who has an institutionalized spouse.*

6. Deeming From Married Parent

When determining how much of the child's parent's income is deemed available to the child's unit, any income of the parent's spouse who is not the child's parent is not counted.

C. Pregnant Blind or Disabled Woman

If the blind or disabled individual also meets the pregnant woman definition, first determine the woman's eligibility in the MI Pregnant Woman covered group using the F&C assistance unit and financial eligibility rules. If she is not eligible as an MI pregnant woman, then determine her eligibility as an ABD individual.

D. Spenddown Expenses

If an ABD assistance unit is ineligible because of excess income, the assistance unit's member(s)'s medical expenses will count toward the spenddown. If an individual in the unit is legally liable for another person in the household who is not in the assistance unit, the other person's medical bills can count toward the unit's spenddown. If the ABD individual's spouse's or parent's income is deemed to the individual, the spouse's or parent's medical expenses are also deducted from the ABD individual's spenddown.

A medical expense can only be used once to meet only one unit's spenddown. A child's medical expenses are first deducted from the child's unit. If the child's unit spenddown is not met, the child's medical expenses

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date October 1997
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.002	Page 3

can be deducted from the parent's spenddown. If the child's unit's spenddown is met, then the child's medical expenses that were not used to meet the child's spenddown can be deducted from the parent's spenddown, if the medical expenses are not covered by Medicaid or other health insurance.

M0530.002 DEFINITIONS

A. Introduction

This section contains the definitions of terms used in this subchapter that are applicable to ABD individuals' assistance units and financial eligibility determinations.

B. Child

For ABD assistance unit composition purposes, a child is someone who is not married, is not the head of a household, and is either under age 18 or is under age 22 and a student. For ABD **deeming** purposes, a child is an individual under age 21.

1. Blind/Disabled (BD) Child For Deeming Purposes

A blind/disabled (BD) child who is subject to deeming is a natural or adopted child under age 21, who lives in a household with one or both parents and who meets the blind or disabled definition in M0510. Deeming to the BD child no longer applies beginning the month following the month the child attains age 21. An individual attains a particular age on the day preceding the anniversary of his/her birth. Deeming applies in the month of attainment of age 21 regardless of whether an application is filed before or after the day of attainment.

For purposes of ABD deeming, a blind or disabled (BD) child who does NOT apply for Medicaid is still a BD child for deeming purposes and NO allocation is deducted for a BD child when calculating the NABD spouse's or parent's deemable income.

2. Non Blind/Disabled (NBD) Child For Deeming Purposes

A non blind/disabled (NBD) child, for deeming purposes, means the natural or adopted child of an Medicaid-eligible individual or the individual's spouse, or the natural or adopted child of a parent or the parent's spouse, who

- lives in the same household with the ABD individual or BD child,
- is **not** blind or disabled, and
- is under age 18, or under age **21** and a **student** regularly attending a school, college, or university, or a course of vocational training to prepare him for gainful employment.

3. NBD Child Documentation Requirements

If the parent does not provide the following documentation for an NBD child in the household, do NOT deduct an NBD child allocation for that NBD child from the parent's income when calculating deemable income:

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date October 1997
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.002	Page 4

a. Age

Accept the allegation of an NBD child's age, absent evidence to the contrary.

b. Relationship

Accept an individual's statement that a parent-child relationship exists in both initial application and redeterminations. If there is reason to question the allegation, verify relationship.

c. School Attendance

If an NBD child is alleged to have no earnings, accept the allegation of student status. If an NBD child under age 21 alleges student status and earnings, verify school attendance and document the file according to the instructions in M0530.002, item I, below. Do not redetermine student status unless a change in school attendance is alleged.

C. Parent

For ABD deeming procedures, "parent" means the BD child's natural or adoptive parent who lives with the BD child. Deeming applies from a parent to a child when they live together in the same household.

A stepparent is not considered a parent for ABD deeming purposes. Even if a natural or adoptive parent is deceased or is divorced from the stepparent, and the child is living with the stepparent, the stepparent is **not** a parent of the BD child for deeming purposes.

D. Aged, Blind or Disabled (ABD) Spouse

For ABD deeming procedures, "ABD spouse" means the ABD individual's spouse who meets the aged, blind or disabled definition in M0510, and who applies for Medicaid.

E. Non Aged, Blind or Disabled (NABD) Spouse

For ABD deeming procedures, "NABD spouse" means the ABD individual's spouse who

- does not meet the aged, blind or disabled definition in M0510, or
- who does not apply for Medicaid.

Deeming applies from a spouse to a spouse when they live together in the same household.

F. Allocation

An allocation is an amount deducted from income subject to deeming which is considered to be set aside for the support of certain individuals other than the ABD individual or BD child. The types and amounts of these allocations are described in this subchapter. Changes in allocations (e.g., due to birth or death, entering or leaving a household, no longer meeting the definition of a child) are effective with the month following the month of change.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2000
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.002	Page 5

1. NBD Child Allocation

An allocation from an Parent's or spouse's income is given for each NBD child living in the same household. The amount of the allocation is equal to the difference between the SSI payment limit for two persons and the SSI payment limit for one person.

The allocation amount increases automatically whenever the SSI payment limit increases. *See Appendix 1 to this subchapter for current amount.*

The allocation for an NBD newborn child is effective the month following the month of birth. An NBD child allocation is given for a child who is away at school if the child is under age 21 and considered to be temporarily absent from the household. Allocations from a spouse's or a parent's income for an NBD child in the household end the month after the month the child attains age 18 or, if a student, age 21.

Each NBD child's allocation is reduced by the amount of his or her own income, including child support payments from an absent parent. (Note, however, that NBD children **do not** receive the one-third child support exclusion).

2. Parent Living Allowance

A living allowance is deducted from a parent's own income when deeming parental income to a BD child. The amount of the living allowance depends upon whether one or both parents are living in the household. The living allowance for one parent living with the child in the household *is* the SSI payment limit for one person. The living allowance for both parents living with the child in the household *is* the SSI payment limit for a couple.

The living allowance increases automatically whenever the SSI payment limit increases. *See Appendix 1 to this subchapter for current amounts.*

G. Household

A household is common living quarters and facilities under such domestic arrangements and circumstances as to create a single economic unit or establishment. For the purposes of deeming, the household comprises

- the ABD individual, the spouse and any children of the couple or either member of the couple; or
- the BD child, the parent(s), and other children of the parent(s).

Deeming only applies in household situations. Unless temporarily absent, only those individuals residing in the household are a part of the household for deeming purposes. An individual is not a member of the household for deeming purposes if he/she is absent from home for a

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 1998
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.002	Page 6

period which is not a temporary absence as defined below in item I. (for example, military service or confinement in a public institution).

If a child is born in an institution (e.g., a hospital) the child is not a member of a household until the **month after the month** the child goes home. A child born at home is a member of the household the month of birth.

NOTE: Deeming does not apply when an ABD individual and NABD spouse are living in an institution even when they are sharing a room. Deeming **does** apply in noninstitutional care situations (e.g., adult foster care) if the ABD individual is placed with a deemor spouse or parent.

H. Student Child

A student child is an individual who

- is neither married nor head of a household,
- is under age 21 years, and
- regularly attends school or college or training designed to prepare him/her for a paying job.

1. Regular Attendance

Regular attendance means that the individual takes one or more courses of study and attends classes

- in a college or university for at least 8 hours a week under a semester or quarter system;
- in grades 7-12 for at least 12 hours a week;
- in a course of training designed to prepare him/her for a paying job for at least 15 hours a week if the course involves shop practice or 12 hours a week if the course does not involve shop practice. This type of training includes anti-poverty programs such as the Job Corps and government-supported courses in self-improvement; or
- for less than the amount of time indicated above for reasons beyond the student's control, such as illness, if the circumstances justify the reduced credit load or attendance.

NOTE: Attendance at an elementary school does not satisfy the student child requirement.

2. Homebound Students

An individual may be a student when he/she has to stay home because of a disability, and

- studies a course or courses given by a school (grades 7-12), college, university or government agency, or
- a home visitor or tutor from school directs the study or training.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date September 1997
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.002	Page 7

3. Periods of Nonattendance

a. Vacation

An individual remains a student when classes are out if he/she actually attends classes regularly just before the time classes are out and:

- tells the agency that he/she intends to resume attending regularly when school reopens; or
- actually does resume attending regularly when school reopens.

b. Recommendation of Teacher or Counselor

A student's counselor or teacher may believe the student needs to stay out of class for a short time during the course or between courses to enable him/her to continue study or training. Consider the individual to be a student regularly attending school, college, or training to prepare him/her for a paying job if he/she is in a course:

- designed to prepare disabled people for work; or
- to prepare the individual for a job that is specially set up for people who cannot work at ordinary jobs.

c. Last Month of School

An individual is a student regularly attending school for the month in which he/she completes or stops the course of study or training.

4. Development

Develop school attendance for a child between the ages of 18-21 who is not blind or disabled and could be included in the parent-to-child and spouse-to-spouse deeming calculations.

a. Basic Information

Obtain the following information:

- Name and address of the school or institution furnishing the training;
- Name and telephone number of the person to contact for verification, if necessary; and
- Information on the course or courses of study, dates of enrollment, number of hours of attendance, other activities of the child.

b. School Enrollment

Verify enrollment by:

- examining a school record such as an ID card, tuition receipt, or other comparable evidence; or

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date September 1997
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.002	Page 8

- contacting the school or agency, but only if the individual does not have the evidence.

Document the file with enrollment information. If you contact the school or agency, accept either a written statement from the contact or an oral statement recorded in the file.

c. Student's Allegation of Number of Hours of Attendance

Accept the student's allegation without requesting school certification of attendance, if the allegation of attendance meets the regular attendance requirements above. If the student alleges a reduced credit load or attendance due to circumstances beyond his or her control, obtain an explanation from the student and place it in the file.

d. Special Education

If a student indicates he/she is enrolled in special education for the disabled which does not satisfy the standard academic or vocational training requirements, develop to determine whether the course contains training to prepare him/her for a paying job.

e. Vocational or Technical Training

Absent evidence to the contrary, accept the school or agency's allegation that the course includes some formalized instruction.

I. Temporary Absence

For the purposes of deeming, a temporary absence exists when an individual (ABD individual or BD child, NABD spouse or parent, or NBD child) leaves the household but intends to, and does, return in the same month or the following month. If the absence is temporary, deeming continues to apply.

1. Child Subject To Parental Control

A child who is away at school but returns home on some weekends, holidays, or vacations and **is** subject to parental control is considered temporarily absent from the parents' household, regardless of the duration of the absence. If a child is away at school and is **not** subject to parental control, he/she is **not** living in the parents' household.

2. Operating Procedures

A child who is away at school is one who is participating in an educational or vocational training program. The rule above only applies to a child who is away at an educational or vocational training facility.

When a child resides at a facility and the facility is not an educational or vocational training facility, the rule above does not apply. When a child resides in a facility and leaves the facility for brief visits to the parents' home, do not deem the parents' income and resources for any month if the absence from the facility is temporary. An individual is considered

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date September 1997
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.010	Page 9

temporarily absent from a facility for deeming purposes if the absence is not intended to and does not exceed a full calendar month.

Certain evidence may indicate that a child away at school is not subject to parental control. Such evidence includes an existing agreement, a court order, or the signed statements of the parents and the school authorities. In the absence of such evidence, assume that a child is subject to parental control. Parental control is the authority of the parent(s) to make decisions on the child's behalf, whether or not the control is actually exercised.

M0530.010 EXCLUDED RESOURCES

A. Policy

Assets which are not resources to an ABD individual are not resources to an NABD spouse or NBD child (See S1120).

In addition to assets which are not resources, there are certain resources which are excluded from the resources of an individual whose resources are deemed to an applicant/recipient. These exclusions from resources used in the resource deeming calculation correspond to exclusions of an ABD individual's own resources.

B. Related Policies

1. Resource Determination

To determine the NABD spouse's or parent's resources, see chapter S11. See S1120 for assets that are not, or may not be, resources. See S1130 for the list of resource exclusions. See S1140 for countable resources. See S0830.605 concerning Home Energy Assistance funds and Support and Maintenance Assistance funds that are retained beyond the month of receipt.

2. Pension Funds

a. Excluded Pension Funds

Pension funds owned by the NABD spouse or parent are excluded from deeming. Pension funds are defined as funds held in an individual retirement account (IRA) as described by the Internal Revenue Service (IRS) code, or funds held in work-related pension plans (including such plans for self-employed individuals, sometimes referred to as Keough plans). However, amounts distributed from a pension fund to the NABD spouse or parent will count as income that can be deemed to the ABD spouse or BD child.

b. Countable Pension Funds

IRA's, Keough plans, 401-K plans, and similar pension funds owned by the applicant/recipient and/or his/her ABD spouse or parent are **countable resources**, and amounts distributed from the funds are countable income, since these types of pension funds may be withdrawn by the owner.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date September 1997
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.020	Page 10

c. Development Procedures

- 1) If an NABD spouse or parent alleges having money in a pension fund, accept the allegation.
- 2) Develop interest income from excluded pension funds per M0830.500.
- 3) If an NABD spouse or parent withdraws monies he or she had contributed to a pension fund, treat the withdrawal as a conversion of a resource.

3. **Other Resource Exclusions** All resource exclusions that apply to an ABD individual's resources apply to the combined resources of an ABD individual and an NABD spouse or parent who lives with him or her.
4. **Burial Fund Exclusion** For treatment of the burial fund exclusion, see M1130.410.
5. **Burial Space Exclusion** For treatment of the burial space exclusion, see M1130.400.

M0530.020 EXCLUDED INCOME

- A. Policy** Receipts which are not income to an ABD individual are not income to an NABD spouse or NBD child (See S0815).

In addition to items which are not income, there are certain items which are excluded from the income of an individual whose income is deemed to an applicant/recipient. Furthermore, an NBD child's allocation is not reduced by any of these excluded items. These exclusions from income used in the deeming calculation correspond to exclusions of an ABD individual's own income AND include some additional exclusions. For example, one-third of child support payments from an absent parent is excluded for a BD child, but is NOT excluded from an NBD child's income in the deeming calculation.

- B. Excluded Income** The following types of income are excluded when determining countable income of an NABD spouse or parent subject to deeming. These types of income are also excluded from the income of an NBD child in a household for purposes of reducing the NBD child allocations:

1. **Income Excluded In S08** Income excluded by policy in chapter S08 is also excluded from the income of an NABD spouse or parent.
2. **Grant, Scholarship or Fellowship** Exclude any portion of any grant, scholarship, or fellowship which is used to pay the cost of tuition and fees at an educational institution or costs of vocational technical training designed to prepare the individual for gainful employment.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2010
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.020	Page 11

3. *SNAP*

Exclude the bonus value of *Supplemental Nutrition Assistance Program (SNAP) benefits (formerly Food Stamps)* and the value of USDA donated foods.

4. **Support Paid**

Exclude any portion of the NABD individual's income paid to the Division of Child Support Enforcement (DCSE), court, ex-spouse, or child(ren) as court-ordered or DCSE-ordered support.

a. Ask whether any of the income received by the NABD spouse or parent is used to make any support payments. If such payments are alleged:

- Document the allegation that such support payments are made;
- Request a copy of the court order or State agreement which shows the amount of the payments and the beginning and ending dates of the payments. Exclude the amount specified in the court order or State agreement, or the actual payment, **whichever is less**. A deemor's own records may be used to document the amount of support payments made.

b. Deduct the amount of the support payment from the income of the NABD spouse or parent **before** determining the amount of income to be deemed. Deduct the amount of such payments from the income of an NBD child (if the child **pays** support payments) before reducing the NBD child's allocation.

- Deduct the support amount first from the NABD spouse=s, parent=s or NBD child=s unearned income.
- Use any remaining balance of the support obligation to reduce the NABD spouse's, parent's or NBD child's earned income.

5. **Student Earnings**

Exclude income earned by an NBD child in the home who is a student (unless the child actually makes the income available to the family).

If an NBD child is a student (M0530.002 I.), the child's earned income up to \$400 a month but not more than \$1,620 per year does **not** reduce the allocation for the NBD child.

- a. If an NBD child has earnings, verify that the NBD child is a student (see M0530.002 I.). If a child's student status ends, stop applying the student earned income exclusion beginning with the month after the month in which the student status ended.
- b. Verify the NBD child's wages. Verify the wages even if alleged to be \$65 or less per month.
- c. Allocate the student earned income exclusion beginning with January, or the first month the NBD child has earnings or the month in which

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date September 1997
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.020	Page 12

the ABD individual becomes eligible for Medicaid, whichever is later in a calendar year. See S0820.510 for additional information on this exclusion.

- d. The exclusion may be applied during a period of nonattendance at school if the requirements in M0530.002 I. are met.

6. Blind Work Expenses

Expenses of an NABD spouse, parent or NBD child who is blind and working are used to reduce earned income before it is deemed or before using the earnings to reduce the NBD child allocation. See S0820.535 for instructions on applying this exclusion.

7. Impairment Related Work Expenses

The impairment-related work expenses (IRWE) incurred and paid by a deemor who meets the Medicaid disability definition will be deducted from the deemor's earned income prior to considering the income available for deeming. See S0820.540 for instructions on determining the amount of IRWE.

8. In-Home Supportive Services Payments

Payments made by programs funded under title XX of the Social Security Act or other State funding sources for in-home supportive services necessary to enable an individual who needs these services to live in his or her home are "in-home supportive services payments." The payments are made either to the individual to pay for the services or to the person performing the services. The Veterans Administration also pays an allowance for medically qualified veterans, widows, or widowers in need of the aid and attendance of another person. This aid and attendance payment is included in the pension or compensation payment to the veteran or widow(er).

In-home supportive services (chore, attendant, homemaker) payments are medical or social services and are not income when paid directly to an ABD individual to pay for the services (S0815.050). However, the payment is **income** to the individual who is providing the care or services.

Payments provided under title XX or other Federal, State, or local governmental programs to an ABD individual and **paid** by the individual to his/her NABD spouse or NBD child living in the same household in return for in-home supportive (chore, attendant, homemaker) services, are excluded from the NABD spouse's, parent's or NBD child's income for deeming purposes. Such payments, made directly to the NABD spouse or parent or NBD child to provide the services to the ABD individual, are also excluded from income for deeming purposes.

NOTE: If an NABD spouse or parent receives in-home supportive services payments for services provided to anyone other than his/her ABD spouse or BD child, the payments are included as income subject to deeming.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date February 2009
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.201	Page 13

M0530.100 UNMARRIED INDIVIDUAL (AGE 21 OR OLDER)

- A. Policy** An unmarried ABD individual's assistance unit consists of one person--the individual. The individual's child(ren) living with him or her are NOT included in the ABD individual's assistance unit, nor is any of the individual's resources or income allocated for the child(ren) when determining countable resources and countable income.
- B. Assistance Unit** Resources Determination - unit of one.
- Income Determination - unit of one.

M0530.200 MARRIED INDIVIDUAL LIVING WITH SPOUSE

- A. Introduction** A married individual living with his/her spouse is always an ABD couple assistance unit (2 persons) for the **resource** eligibility determination. For the **income** eligibility determination, a married individual living with his/her spouse is an ABD couple assistance unit (2 persons) when the NABD spouse has deemable income, or an assistance unit of 1 person when the NABD spouse has no deemable income.
- An aged, blind, or disabled individual or couple found guilty of Medicaid fraud by a court is ineligible for Medicaid benefits for a period of twelve months from conviction. If only one member of an aged, blind, or disabled couple is found guilty, the innocent spouse's eligibility is not affected. The assistance unit remains the same. The guilty spouse is ineligible for twelve months (*see M1700.200*).
- B. Procedure** For an ABD couple, see M0530.201.
- For an ABD individual with an NABD spouse, see M0530.202 and 203 below.

M0530.201 ABD COUPLE ASSISTANCE UNIT

- A. Policy** This section contains the policy and procedures for determining an ABD couple's assistance unit.
- When a married couple is living together and each individual in the couple meets the Aged, Blind or Disabled definition in M0510, AND each

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date May 2015
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.201	Page 14

individual applies for Medicaid, their financial eligibility is determined as an ABD couple--an assistance unit of two persons (see M0530.201 below). If one spouse receives SSI, this spouse must be included in the unit with the spouse who does not receive SSI. The resources and income (other than the SSI payment) of the SSI recipient spouse must be considered available along with those of the spouse who does not receive SSI.

EXCEPTION: When

- a member of the ABD couple is a Medicaid minor spouse (under age 21),
- the ABD couple lives with the minor spouse's parent(s), and
- the parent's(s') deemed resources or income makes the ABD couple ineligible,

recalculate each spouse's resource and income eligibility as a separate assistance unit (1 person in each). Deem the parent's(s') resources and income to the Medicaid minor spouse. Do NOT deem the spouses' resources and income to each other.

B. Resource Determination

Determine the couple's countable resources according to chapter S11. NOTE: Some resources' values are calculated differently *depending on the* ABD covered *group*. If a spouse also has Medicare Part A, determine a resource's value using both the MN and *Categorically Needy (CN)* methods.

1. Compare To Couple's Resource Limit

Total the couple's countable resources and compare to the resource limit appropriate to each individual's covered group. The ABD resource limits are contained in M1110.003.

2. Resources Meet Limit

If the couple's resources are less than or equal to the resource limit, the couple meets the resource requirements for the covered group whose resource limit was met.

3. Resources Exceed Limit

If the couple's resources exceed the resource limit, the couple is not eligible for Medicaid in that covered group. If the couple's resources exceed both resource limits, the couple is not eligible for Medicaid in any ABD covered group. Deny Medicaid because of excess resources. If the wife is pregnant, determine her eligibility as a pregnant woman.

EXCEPTION: When

- a member of the ABD couple is a Medicaid minor spouse (under age 21),
- the ABD couple lives with the minor spouse's parent(s), and

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2000
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.201	Page 15

- the parent's(s') deemed resources makes the ABD couple ineligible,

recalculate each spouse's resource eligibility as a separate assistance unit (1 person in each). Deem the parent's(s') resources to the Medicaid minor spouse. Do NOT deem the spouses' resources to each other. If a spouse is resource-eligible after this recalculation, determine the spouse's income eligibility as an ABD individual (assistance unit of 1 person); see M0530.100.

C. Income Determination

Determine the couple's countable income according to chapter S08. Total the couple's countable income.

NOTE: In calculating an ABD couple's countable income, **do not** allocate or deduct any amount for a child.

1. Compare To Income Limit

Compare the couple's total countable income to the income limit for two persons appropriate to each individual's covered group. See M0810.002 for the income limits.

2. Income Meets Limit

If the couple's income is less than or equal to the income limit, the couple meets the income requirements for the covered group whose income limit was met. See chapter M15 for Medicaid entitlement policy.

3. Income Exceeds Limit

If the couple's income exceeds the income limit, the couple is not eligible for Medicaid in that covered group. If the couple's resources meet the MN requirements and the MN resource limit, the couple may become eligible for a limited period of MN coverage if they meet a spenddown. See *chapter M13* for spenddown policy. If the wife is pregnant, determine her eligibility as a pregnant woman.

D. Examples

1. ABD Couple-- One Spouse Receives SSI

EXAMPLE #2: (Using 1999 figures)

A husband and wife, each 67 years old, live together in a Group II locality. The wife receives SSA of \$391 and SSI of \$109 per month. The husband receives \$455 SSA and \$100 VA pension per month. Both have Medicare Part A and both apply for Medicaid. The husband and wife are an ABD assistance unit of two for Medicaid resource eligibility purposes. Their countable resources are within the Medicaid resource limit for 2 persons. The wife is income-eligible because she receives SSI. The husband's income eligibility is based on an assistance unit of two. All of the husband's income is counted; only the wife's SSA benefit is counted because SSI payments are excluded. The husband's income eligibility is calculated:

\$455	husband's SSA
+100	husband's VA pension
+391	wife's SSA
946	couple's unearned income
- 20	general income exclusion
\$926	couple's countable income

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date May 2015
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.201	Page 16

\$ 920 couple's countable income
 - 922 QMB income limit for 2
 0 excess

\$ 920 couple's countable income
 x 6 months
 \$5,520 6 month's income
 - 1,850 Group II income limit for 2
 \$3,670 excess

The couple's income is compared to the *CN limits* for two persons, since the husband has Medicare Part A, and to the MN income limit for two persons in Group II. Because the couple's income does not exceed the QMB limit for 2 persons, the husband is eligible for QMB Medicaid. The couple's countable income exceeds the MN limit for two; only the husband is placed on spenddown. The wife is eligible as a CN SSI recipient.

2. ABD Couple With NBD Child

EXAMPLE #3: (Using 1999 figures)

Mr. and Mrs D live in a Group I locality with their 18 year-old daughter. Mr. D is 67 years old. Mrs. D is 58 years old and disabled, but she works part-time. Her impairment-related work expenses (IRWE) are \$50 per month. Mr. D receives SSA of \$475 per month and \$100 gross earnings per month. Mrs. D receives \$150 SSA and \$300 gross earnings per month. Their daughter has no income. Mr. and Mrs. D both have Medicare Part A and both apply for Medicaid. They are an assistance unit of two for Medicaid resource eligibility purposes. Their countable resources are within the Medicaid resource limit for 2 persons. Their income eligibility is calculated (NOTE: no allocation is subtracted for their NBD child because they are an ABD couple):

\$475 Mr. D's SSA
 +150 Mrs. D's SSA
 625 couple's unearned income
 - 20 general income exclusion
 \$605 couple's countable unearned income
 \$300 Mrs. D's gross earned income
 - 50 Mrs. D's IRWE exclusion
 250 Mrs. D's net earnings
 +100 Mr. D's gross earned income
 350 couple's gross earnings
 - 65 exclusion
 285
 2 remainder earnings exclusion
 142.50 couple's countable earned income
 +605.00 couple's countable unearned income
 \$747.50 couple's countable monthly income
 - 922.00 QMB income limit for 2
 0 excess

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date July 2007
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.202	Page 17

\$747.50 couple's countable monthly income
x 6 months
 4485 6-month income
-1700 Group I limit for 2
 \$2785 excess

Because the couple's income is less than the QMB limit for 2 persons, they are eligible for QMB Medicaid. Their income exceeds the medically needy limit for two and they are placed on a spenddown.

M0530.202 DEEMING RESOURCES FROM NABD SPOUSE

A. Policy

When a married couple is living together BUT

- only one spouse applies for Medicaid, or
- only one spouse meets the Aged, Blind or Disabled definition in M0510,

the individual spouse's resource eligibility is determined as a couple--an ABD assistance unit of 2 persons, and the NABD spouse's resources are counted available to the ABD individual.

The resources of one spouse are considered available to the other whether or not they are actually made available. Resource eligibility exists if the value of the couple's combined resources does not exceed the resource limit for two persons. **The resources of an SSI recipient spouse must be counted available even if SSI recipient spouse does not apply for Medicaid.**

Verify and document the NABD spouse's resources as required for an ABD individual.

B. Excluded Resources

When determining the NABD spouse's resources, do not include the resources listed in section M0530.010 above.

C. Countable Resources

Total countable resources are the combination of the resources of the ABD individual and the NABD spouse after all applicable resource exclusions are applied.

Total countable resources are compared to the resource limit for a couple. If the amount of the resources does not exceed the limit, the applicant/recipient meets the resource eligibility requirement. If countable resources exceed the limit, the applicant/recipient is ineligible because of excess resources.

D. Example--No Resources Excluded

EXAMPLE #4: Mr. and Mrs. Daley live together. Mr. Daley, who is age 65, applies for Medicaid on February 4, 1997. His wife is under age 65 and neither blind nor disabled, nor does she meet any Medicaid

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M05	July 2007
Subchapter Subject	Page ending with	Page
M0530.000 ABD ASSISTANCE UNIT	M0530.202	18

covered group. Mr. Daley has no resources of his own. However, Mrs. Daley has \$1,900 in a savings account and owns a vacant lot valued at \$500 which does not produce income.

The couple's countable resources are as follows:

\$1,900 - Mrs. Daley's savings account
+ 500 - Mrs. Daley's lot
\$2,400 - couple's combined resources
- 0 - applicable exclusions
\$2,400 - couple's countable resources
- 3,000 - couple's resource limit
0 excess

Mr. Daley meets the resource eligibility requirements.

E. Example--Some
Resources
Excluded

EXAMPLE #5: Mr. and Mrs. Sands live together. Mr. Sands, who is disabled, applies for Medicaid on October 2, 1997. Mrs. Sands does not meet a Medicaid covered group. She works for a company with a pension plan and states she has accumulated \$5,000 in her pension fund which she can withdraw at any time. Mr. and Mrs. Sands jointly own two grave sites worth \$500 each and have a joint bank account with a balance of \$ 1,000.

The couple's resources are as follows:

Excluded Resources:
\$5,000 - pension fund
+ 1,000 - grave sites
\$6,000 - excluded resources

Countable Resources:
\$1,000 - joint bank account

\$1,000 - couple's countable resources
- 3,000 - couple's resource limit
0 excess

Mr. Sands meets the resource eligibility requirements.

F. Example--Some
Resources
Excluded--
Individual is
Ineligible

EXAMPLE #6: Mr. Smith, who is 69 years old, applies for Medicaid on October 15, 1997. He lives with his wife who is age 62, neither blind nor disabled, nor does she meet a Medicaid covered group. They have the following resources: a joint checking account of \$250; United States savings bonds (in both their names) worth \$400, and two automobiles--one with a current market and equity value of \$6,000, and the other with a current market value and equity value of \$3,000. In addition, Mrs. Smith owns a plot of land which produces no income and has an equity value of \$2,000. Mr. Smith owns a life insurance policy on his own life with a face value of \$5,000 and a cash surrender value (CSV) of \$897.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2010
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.203	Page 19

Mrs. Smith owns a life insurance policy on her life with a face value of \$1,000 and a CSV of \$900.

Excluded Resources:

\$6,000 - one automobile

+ 900 - CSV of life insurance of Mrs. Smith with face value not over \$1,500

\$ 6,900 - excluded resources.

Countable Resources:

\$ 250 - joint checking account

400 - savings bonds

3,000 - second automobile

2,000 - Mrs. Smith's real estate

+ 897 - CSV of Mr. Smith's life insurance (face value > \$1,500)

\$6,547 - couple's countable resources

-3,000 - couple's resource limit

\$3,547 - excess resources

Mr. Smith is ineligible because of excess resources.

M0530.203 DEEMING INCOME FROM NABD SPOUSE

A. Policy

When a married couple is living together BUT

- only one spouse applies for Medicaid, or
- only one spouse meets the Aged, Blind or Disabled definition in M0510,

the individual's income eligibility is determined as an individual--an ABD assistance unit of one person--if the NABD spouse has no deemable income. If the NABD spouse has deemable income, the individual's income eligibility is determined as an ABD couple. The NABD spouse's income is deemed available to the ABD individual applicant UNLESS the NABD spouse receives SSI or other income based on need.

The income of the NABD spouse, after applying the applicable deeming procedures in this section, is considered to be the ABD individual's own unearned income, and is called deemed income. This deemed income is added to the individual's own earned and unearned income in order to determine the individual's income eligibility.

B. Do Not Deem If Spouse Receives Benefits Based On Individual Need

If the NABD spouse receives assistance or a benefit paid by a government agency which is based on economic need, none of the NABD spouse's income is deemed available to the applicant/recipient. Government benefits based on need include SSI, TANF, Veterans Administration pensions, General Relief payments, etc., but do not include *SNAP*,

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date September 1997
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.203	Page 20

fuel assistance, or any benefit based on the entire household's needs. If the NABD spouse does not receive a government benefit which is based on need, the spouse's income is deemed available.

The government benefits based on need are those payments made under:

1. TANF

Title IV-A of the Social Security Act, Temporary Assistance to Needy Families with Children (TANF);

2. SSI and AG

Title XVI of the Social Security Act (Supplemental Security Income (SSI), including Virginia's Auxiliary Grants program payments (state-administered mandatory supplements);

3. Refugee Assistance

The Refugee Act of 1980 (those payments based on need);

4. Disaster Relief

The Disaster Relief Act of 1974;

5. BIA Assistance

General assistance programs of the Bureau of Indian Affairs;

6. State or Local Assistance

State or local government assistance programs based on need; and

7. VA Assistance Based On Need

U.S. Veterans Administration programs (those payments based on need).

C. Excluded Income

When determining the NABD spouse's income, do not include the income listed in section M0530.020 above.

D. Deeming Process

When an NABD spouse lives in the same household as the ABD individual, these deeming rules are applied in the following order:

- Determine the NABD spouse's earned and unearned income in the month;
- Deduct an allocation for each NBD child in the household (item E below);
- Compare the remainder to the deeming standard (item F below).

First, determine the NABD spouse's countable earned and unearned income in the month.

E. Subtract NBD Child Allocation

Deduct an allocation for each NBD child who lives in the household is deducted. **Exception:** no allocation is given for any children who are receiving public assistance maintenance payments, such as TANF.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2000
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.203	Page 21

1. **NBD Child Allocation**
The allocation for each NBD child is the difference between the SSI payment limit for two persons and the SSI payment limit for one person.

The allocation amount automatically increases whenever the SSI limits increase. *See Appendix 1 to this subchapter for current amount.*
2. **Reduce NBD Child Allocation**
Each NBD child's allocation is reduced by the amount of his or her own income. The items listed in section M0530.020 above are not included as income to the NBD child for purposes of reducing the allocation.

If any NBD children in the household have income, verify the NBD child's income. However, when the alleged income exceeds the amount of the NBD child allocation amount (i.e., no NBD child allocation will apply for that NBD child), document the allegation in the file but do not verify the income. Document an allegation in the file when any NBD child living in the household has no income. Do not redevelop the NBD child's income unless a change is alleged or there is a reason to believe a change has occurred.
3. **Subtract NBD Child Allocation Amount**
Subtract the allocations for NBD children first from the NABD spouse's **unearned** income. If the NABD spouse does not have enough unearned income to cover the allocations, the allocation balance is subtracted from the NABD spouse's **earned** income.
- F. **Compare Remainder To Deeming Standard**
Compare the NABD spouse's remaining income to the deeming standard (the difference between the SSI payment limit for two persons and the SSI payment limit for one person). *See Appendix 1 to this subchapter for current amount.*
- G. **Result (To Deem or Not To Deem...)**
 1. **Less Than or Equal To Deeming Standard**
If the NABD spouse's remaining income is equal to or less than the deeming standard, there is no income to deem to the ABD individual. In this situation, the ABD individual's own countable income is determined and subtracted from the appropriate income limit for one person to determine eligibility. See S0810.002 for the income limits.
 2. **More Than Deeming Standard**
If the remaining income of the NABD spouse is more than the deeming standard, the ABD individual and the NABD spouse are treated as a couple, using the procedures in H "Couple Calculation" below.

NOTE: The \$20 general exclusion has not been deducted from the ABD individual's income at this point.
- H. **Couple Calculation**
The ABD individual and the NABD spouse are treated as a couple using the following procedures:

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2000
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.203	Page 22

1. **Combine Income** Combine the amount of the NABD spouse's unearned income remaining after NBD child allocation(s) with the ABD individual's own unearned income. Combine the amount of the NABD spouse's earned income remaining after NBD child allocation(s) with the ABD individual's earned income.

2. **Subtract Exclusions** Subtract the appropriate income exclusions *from the remaining income*:
 - the first \$20 of the couple's unearned income (if less than \$20 of unearned income in a month, any remaining portion of the \$20 exclusion is applied to the couple's earned income in the month),
 - \$65 of the couple's earned income in a month, and one-half of remaining earned income in a month.

The result is the couple's monthly countable income. When determining MN eligibility, multiply the couple's monthly countable income by 6.

3. **Compare To Income Limit** Compare the couple's countable income to the income limit for two persons appropriate to the ABD individual's covered group. See M0810.002 for the income limits.
4. **Income Meets Limit** If the couple's countable income is less than or equal to the income limit, the ABD individual meets the income requirements for the covered group whose income limit was met. See chapter M15 for Medicaid entitlement policy.
5. **Income Exceeds Limit** If the couple's countable income exceeds the income limit, the ABD individual is not eligible for Medicaid in that covered group. If the couple's resources meet the MN requirements and the MN resource limit, the ABD individual may become eligible for a limited period of MN coverage if he/she meets a spenddown. See *chapter M13* for spenddown policy.

- I. **Examples** The examples below illustrate application of the spouse-to-spouse deeming rules in the ABD income eligibility calculation.

1. **No Deemed Income After NBD Child Allocation** **EXAMPLE #7: (Using January 2000 figures)**
Ms. Wilson, an aged individual, applied for Medicaid. She lives with her NABD spouse Mr. Wilson and their 20 year old NBD child, Mike, in Group II. Their resources are within the resource limit. Mr. Wilson receives a \$80 monthly benefit (unearned income) per month. He has no earned income. Mike receives \$20 monthly unearned income. Ms. Wilson's income is \$800 monthly SSA. She has Medicare Part A. Her assistance unit is one person with income deemed from her NABD spouse. The deeming calculation is:

$$\begin{array}{r}
 \$257 \text{ NBD child allocation amount} \\
 - \underline{20} \text{ Mike's income} \\
 237 \text{ NBD child allocation}
 \end{array}$$

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2000
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.203	Page 23

\$ 80 Mr. Wilson's unearned income
- 237 NBD child allocation
 - 157 remainder NBD child allocation
+ 0 Mr. Wilson's earned income
 \$ 0 NBD spouse's total income after allocation

Since Mr. Wilson has no remaining income, and \$0 is less than the \$257 deeming standard, no income is deemed to Mrs. Wilson. Instead, only her own countable income is compared to the MN, QMB, SLMB and QI income limits for one person to determine whether she is eligible. Mrs. Wilson's own countable income is \$780, which exceeds the MN and the QMB income limit for one person. However, it is within the SLMB income limit. She is eligible for SLMB coverage beginning *January 1, 2000*. She is also placed on a spenddown of \$3,180 (\$780 x 6 months = 4,680 - 1500 = \$3180) for the period *January 1* through *June 30*.

2. Spouse Has Earned and Unearned Income After Allocation

EXAMPLE #8: (Using January 2000 figures)

Mr. Jack Ingalls, a disabled individual, applies for Medicaid. He lives with his NABD spouse and NBD 19 year old child, Cathy, in a Group I locality. Mr. And Mrs. Ingalls' resources are within the resource limit. Mr. Ingalls receives \$100 unearned income monthly; he does not have Medicare Part A. Cathy has no income. Mrs. Ingalls has earned income of \$450 a month and unearned income of \$285 a month. Mr. Ingalls' assistance unit is one person with income deemed from his NABD spouse. The deeming calculation is:

\$285 Mrs. Ingalls' unearned income
-257 NBD child allocation
 28 remainder unearned income
+450 Mrs. Ingalls' earned income
 \$478 NBD spouse's total income after allocation

Mrs. Ingalls' total income is more than the \$257 deeming standard. Therefore, Mrs. Ingalls' income is deemed to Mr. Ingalls by combining Mrs. Ingalls' income after allocation with Mr. Ingalls' income to determine his MN eligibility:

\$285 Mrs. Ingalls' unearned income
-257 NBD child allocation
 28 remainder unearned income
+100 Mr. Ingalls' unearned income
 128 combined unearned income
- 20 general income exclusion
 108 couple's countable unearned income

 \$450 Mrs. Ingalls' earned income
+ 0 Mr. Ingalls' earned income
 450 couple's earned income
- 65 earned income exclusion
 385

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date October 2017
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.204	Page 24

385
 $\div \underline{2}$ 1/2 remainder earned income exclusion
 192.50 couple's countable earned income
 +108.00 couple's countable unearned income
300.50 couple's total countable monthly income
 $\times \underline{6}$ months
 1,803.00 countable monthly income
-1,700.00 income limit 2 in Group I
 \$ 103.00 excess

The couple's countable monthly income exceeds the medically needy income limit for a couple. Mr. Ingalls is placed on a spenddown of \$103 for the 6-month period January 1 through June 30.

3. Both ABD Individual and NABD Spouse Have Income-- Individual Is Eligible

EXAMPLE #9: (Using January 2000 figures)

Harold Bergman, a disabled individual, applies for Medicaid. He lives in Group III with his NABD spouse, who earns \$259 per month. They have no children. Mr. Bergman receives a pension (unearned income) of \$165 a month and earns \$100 gross per month. He does not have Medicare Part A. The couple's resources are within the Medicaid limit. Because Mrs. Bergman's income exceeds the deeming standard of \$257, Mrs. Bergman's income is deemed to Mr. Bergman by combining Mrs. Bergman's income with Mr. Bergman's income to calculate his MN eligibility:

\$165.00 Mr. Bergman's unearned income
 + 0 Mrs. Bergman's unearned income
 \$165.00 couple's unearned income
 - 20.00 general income exclusion
 \$145.00 couple's countable unearned income

 \$259.00 Mrs. Bergman's earned income
 +100.00 Mr. Bergman's earned income
359.00 couple's earned income
 - 65.00 earned income exclusion
 294.00
 $\div \underline{2}$ 1/2 remainder earned income exclusion
 147.00 couple's countable earned income
 +145.00 couple's countable unearned income
 \$292.00 couple's total countable monthly income
 $\times \underline{6}$ months
 \$1752.00 countable income
- 2400.00 income limit for 2 in Group III
 0 excess

The couple's countable income is within the MN income limit for 2 persons, so Mr. Bergman is eligible for Medicaid as medically needy beginning January 1.

M0530.204 CHANGES IN STATUS--MARRIED COUPLES

A. Introduction

Several events can change deeming status *for applicants and enrollees*. All such changes affect deeming the month after the month in which the change

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date September 1997
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.204	Page 25

occurs, except as described below. This section contains the rules that apply when there is a change of status.

NOTE: These status changes are effective, for deeming purposes, the month after the month the change occurs. For example, if an NBD child moves out of the household in May, no allocation is given for that child beginning with June for purposes of determining eligibility.

B. NABD Spouse Becomes ABD

If an NABD spouse becomes an ABD spouse, the individual and spouse are treated as an ABD couple effective with the month the spouse becomes an ABD spouse. Eligibility is based on the couple's income for that month.

C. Individual Begins Living With an NABD Spouse

If an ABD individual begins living with an NABD spouse, deeming of the NABD spouse's income begins effective with the month after the month they begin living together.

D. NABD Spouse Dies

If an NABD spouse dies, deeming stops for purposes of determining eligibility effective with the month following the month of death.

E. Spouses Separate or Divorce--Not Due To Institutionalization

If an NABD spouse and ABD spouse separate, or their marriage ends in divorce, the NABD spouse's income is no longer deemed to determine eligibility effective with the month after the month of separation or divorce. In the month following the month in which separation occurred, the ABD individual is an assistance unit of one person with nothing deemed from the separated spouse.

NOTE: If an application is filed in the month of separation or divorce, deeming applies that month even if the application is filed on or after the date of separation or divorce.

1. Both Meet ABD Group and Both Apply

Financial eligibility is determined as an ABD couple assistance unit (two persons) through the month in which the couple separated. Each is a unit of one starting the month **after** the month in which they separated.

2. Only One Spouse Meets ABD Group or Applies

The ABD applicant spouse is an assistance unit of one person if the NABD spouse has no deemable income. Count the NABD spouse's resources and deem income to the ABD applicant only in the month in which the couple separated. Starting the month after the month of separation, do NOT count any resources or deem any income from the separated spouse.

F. One Spouse Becomes Institutionalized

If an ABD individual becomes institutionalized, either in a medical facility or in Medicaid CBC waiver services, deeming stops for purposes of determining eligibility for the institutionalized spouse effective with the first month in which the individual is institutionalized. Deeming stops for purposes of determining eligibility for the community spouse effective the month **following** the month of separation due to institutionalization.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2000
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.204	Page 26

**1. Both Meet
ABD Group
and Apply**

a. The Non Institutionalized Spouse

When determining the non institutionalized spouse's financial eligibility, the non institutionalized spouse is an assistance unit of one person beginning the first day of the month **following** the month in which the spouse was institutionalized. Do not deem the institutionalized spouse's resources or income to the non institutionalized spouse beginning the month following the month of separation.

b. The Institutionalized Spouse

For the institutionalized spouse who began institutionalization **before** September 30, 1989, the institutionalized spouse is an assistance unit of one person beginning the first day of the month in which the spouse was institutionalized.

For the institutionalized spouse who began institutionalization **on or after September 30, 1989**, who has no community spouse, see subchapter M1460 to determine the institutionalized spouse's financial eligibility. *For the institutionalized spouse who began institutionalization on or after September 30, 1989, who has a community spouse, see subchapter M1480 to determine the institutionalized spouse's financial eligibility.*

**2. Only One
Spouse Meets
Covered
Group or
Only One
Applies**

a. The Non Institutionalized Spouse

When determining the non institutionalized spouse's financial eligibility, the non institutionalized spouse is an ABD couple assistance unit of one person beginning the first day of the month **following** the month in which the spouse was institutionalized. Do not deem the institutionalized spouse's resources or income to the non institutionalized spouse beginning the month following the month of separation.

b. The Institutionalized Spouse

For the institutionalized spouse who began institutionalization **before** September 30, 1989, the institutionalized spouse is an assistance unit of one person beginning the first day of the month in which the spouse was institutionalized.

For the institutionalized spouse who began institutionalization **on or after September 30, 1989**, who has no community spouse, see subchapter M1460 to determine the institutionalized spouse's financial eligibility. *For the institutionalized spouse who began institutionalization on or after September 30, 1989, who has a community spouse, see subchapter M1480 to determine the institutionalized spouse's financial eligibility.*

**G. Non
Institutionalized
Examples**

**1. NABD Spouse
Becomes ABD**

EXAMPLE #10: In November 1997, Mrs. Manners, a disabled individual, lives with her NABD spouse. Mrs. Manners has no income and Mr. Manners receives a monthly private company retirement benefit of

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2000
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.204	Page 27

\$310 (he is not disabled according to the Medicaid definition). Mrs. Manners is eligible for Medicaid in November; her eligibility is determined using deemed income from Mr. Manners. On December 1, 1997, Mr. Manners becomes age 65 and applies for Medicaid. Effective with December, the deeming rules no longer apply. The Mannerses are an ABD couple. Eligibility is determined using their combined income in December.

2. NABD Spouse and ABD Individual Separate

EXAMPLE #11: On September 15, 1997, Mrs. Ellen Bowers, a disabled individual, and her NABD spouse separate. They live in Group II. Mrs. Bowers' only income is a title II benefit of \$150 per month. Mr. Bowers works and is paid a salary of \$405 per month. To determine Mrs. Bowers' eligibility for September, the couple's unearned income is reduced by the general exclusion ($\$150 - \$20 = \$130$). The couple's earned income is reduced by the earned income exclusion ($\$405 - \$65 = \$340 \div 2 = \170). The couple's total countable income ($\$130$ countable unearned + $\$170$ countable earned = $\$300$ monthly x 6 months = $\$1800$) is compared to the income limit for an ABD couple ($\$1850$ semi-annual). Mrs. Bowers is eligible in September. Effective with October, the deeming rules no longer apply when redetermining her eligibility. Her countable income is recalculated: $\$150$ SSA - $\$20$ general exclusion = $\$130$ monthly countable x 6 months = $\$780$. Because $\$780$ is less than the income limit for 1 person in Group II, Mrs. Bowers remains eligible.

3. ABD Individual Begins Living With NABD Spouse

EXAMPLE #12: On August 2, 1997, Mrs. Barbara Rogers, an NABD spouse, returns to live with her ABD husband in Group III. She is working and earns \$700 per month. In August, Mr. Rogers is eligible for Medicaid based on his own unearned income of \$68. Effective September 1997, the deeming rules are applied to determine his eligibility. Mr. Rogers' \$68 unearned income is reduced by the \$20 general income exclusion, leaving \$48. Mrs. Rogers' earned income is reduced by the earned income exclusion ($\$65$ plus one-half the remainder), leaving \$317.50. The total countable income ($\$365.50 \times 6 = \2193) is within the income limit for a couple in Group III, so Mr. Rogers remains eligible.

4. NABD Spouse Dies

EXAMPLE #13: Mrs. Pauline Pinot is a disabled recipient who receives \$150 a month in worker's compensation. She lived with her NABD husband until he died on August 15, 1997. He had been working part-time and received gross wages of \$400 in July and \$200 in August. Effective September 1997, Mrs. Pinot is eligible as an individual without a spouse and the income limit for an individual applies.

D. Institutionalized Examples

1. ABD Individual Becomes Institutionalized

EXAMPLE #14: Mr. Malaga was admitted to a nursing facility on September 5, 1997. His NABD spouse is working and receives gross wages of \$900 a month. Mr. Malaga is institutionalized beginning September 1997 and August is the last month in which income from his NABD spouse is deemed to him.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2000
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.204	Page 28

2. Individual Institutionalized Before 9-30-89

EXAMPLE #15: An institutionalized aged individual applies for Medicaid in August 1997. He has a 58-year-old spouse at home who is neither blind nor disabled. He was admitted to the institution from their home in February 1989. He is an assistance unit of one for both resource and income determinations because he is not living with his spouse and he was institutionalized before September 30, 1989. There may be an expected contribution from the spouse as a legally responsible relative.

3. ABD Couple-- One Becomes Institutionalized

EXAMPLE #16: In October 1997, Mrs. B, a disabled individual, applies for Medicaid for herself and her husband. She lives in Group III. She separated from her ABD spouse, Mr. B, in October 1997 when he was admitted to a nursing facility. Mrs. B earns \$459 per month. Mr. B receives a pension (unearned income) of \$165 a month and earned \$200 gross in October; he does not have Medicare Part A. Mr. B's financial eligibility is determined using the policy and procedures for married institutionalized individuals in *subchapter M1480*.

To determine Mrs. B's eligibility: the couple's combined resources are within the Medicaid limit in October 1997. Her income eligibility is calculated for October:

\$165.00	Mr. B's unearned income
<u>+ 0</u>	Mrs. B's unearned income
\$165.00	couple's unearned income
<u>- 20.00</u>	general income exclusion
\$145.00	couple's countable unearned income in October
\$459.00	Mrs. B's earned income
<u>+200.00</u>	Mr. B's earned income
659.00	couple's earned income
<u>- 65.00</u>	earned income exclusion
594.00	
<u>) ÷ 2</u>	½ remainder earned income exclusion
297.00	couple's countable earned income
<u>+145.00</u>	couple's countable unearned income
\$442.00	couple's total countable monthly income for October
400.00	income limit for 2 for 1 month Group III

November 1997 through March 1998:

\$459.00	Mrs. B's earned income
<u>- 20.00</u>	general income exclusion
\$439.00	
<u>- 65.00</u>	earned income exclusion
374.00	
<u>) ÷ 2</u>	½ remainder earned income exclusion
187.00	countable earned income
<u>+ 0</u>	countable unearned income
\$187.00	total countable monthly income
<u>x 5</u>	months (November - March)

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date May 2015
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.300	Page 29

\$ 935.00 countable income November - March
+442.00 countable income for October
 1377.00 total countable income for 6 months
- 2025.00 income limit for October - March ($\$325 \times 5 = \$1625 + \$400 = \2025)
 0 no excess for 6 months

Mrs. B's countable income for the 6-month period October 1997 through March 1998 is within the MN income limit for the period and she is eligible as a disabled medically needy individual beginning 10-1-97.

M0530.300 BLIND/DISABLED CHILD UNDER AGE 21

A. Introduction

When determining the Medicaid eligibility of a blind/disabled (BD) child who is under age 19 years, first determine the child's *CN* eligibility because the *CN* covered group has no resource limit and a higher income limit. If the child's income exceeds the *CN limits*, then determine the child's MN eligibility using the resource and income deeming policy and procedures in this section.

B. Policy

An unmarried blind or disabled child is always an assistance unit of one person, even when he/she lives with siblings who are blind or disabled and also apply for Medicaid. The parent's(s') resources and income are deemed available to a blind or disabled child under age 21 years when the child lives with the parent(s) and when the parent(s) is not eligible for Medicaid. Do NOT deem a stepparent's resources or income to a BD child.

A married blind or disabled (BD) child under age 21 who does not live with his/her spouse is an assistance unit of one person. If the married BD child lives with his/her spouse, resources and income are deemed from the spouse according to section M0530.200 above. If the married BD child lives with his/her spouse **and** his/her parent(s), the parent(s) resources and income are deemed to the BD child **before** calculating the spouse's resources and income.

C. Child Under 21 Living Away From Home

A blind or disabled child under age 21 who is living away from home is considered living with his/her parent(s) for deeming purposes if:

- the child is not emancipated, and
- the absence is temporary and the child intends to return to the parent's home when the purpose of the absence (such as education, rehabilitation, medical care, vacation, visit) is completed.

Children living in foster homes or non medical (residential) institutions are NOT temporarily absent from home. They are indefinitely absent from home and are NOT living with their parents or siblings for Medicaid purposes.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date October 2017
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.301	Page 30

Children in medical institutions (facilities) are temporarily absent from home if their stay in the medical facility is less than 30 consecutive days. If the stay has been 30 or more consecutive days, go to section M1410.010 to determine if the child is institutionalized in long-term care. A child who is institutionalized in a medical facility or Medicaid waiver services is NOT considered living with his or her parents for Medicaid eligibility purposes.

D. Deeming

A parent's income and resources are deemed to an BD child beginning:

- the month following the month the child comes home;
- the month following the month a child born in a hospital comes home from the hospital;
- the month of birth when a child is born in the parent's home;
- the month after the month of adoption; the month of adoption in Virginia is the month the interlocutory order or final adoption order, whichever comes first, is entered.

E. BD Child Assistance Unit Examples

EXAMPLE #17: A blind 16-year-old child lives with his 65-year-old father and 52-year-old mother. His mother is neither blind, disabled, nor pregnant. His father does not apply for Medicaid for himself. The child is an assistance unit of one for both resource and income determinations. A portion of his parents' resources and income is deemed available to him.

EXAMPLE #18: A 19-year-old disabled child lives with his mother and his two brothers who are under age 18. The children's father died. The mother applies for Medicaid for herself and all children. She is not eligible in the LIFC group and she meets no other covered group. When determining the disabled child's eligibility, the disabled child is not included in an assistance unit with his mother and brothers; the disabled child is an assistance unit of one, with deemed income and resources from the mother.

M0530.301 DEEMING RESOURCES FROM PARENTS

A. Policy

In determining eligibility of a BD child under 21 who lives with his parent(s), the resources of the child include the value of the countable resources of the parent(s), to the extent that the resources of the parent(s) exceed the resource limit of:

- an individual, if one parent lives in the household; or
- a couple, if two parents live in the household.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date September 1997
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.301	Page 31

The value of parental resources is subject to deeming whether or not those resources are actually made available to the child.

**B. More Than One
BD Child In
Household**

If there is more than one blind or disabled BD child under age 21 in the household, equally divide the value of the deemed resources among those children.

If an BD child is later determined ineligible for Medicaid for any reason or is no longer subject to deeming (e.g., after attainment of age 21), divide the value of the deemed resources among the remaining BD children, effective with the first month the child is ineligible or no longer subject to deeming.

**C. Excluded
Resources**

When determining the parent's resources, do not include the resources listed in section M0530.010 above.

**D. Countable
Resources**

Total countable resources are the combination of the resources of the parents after all applicable resource exclusions are applied.

**1. Subtract
Resource
Limit**

From the parent's(s') total countable resources, subtract the resource limit of

- **\$2,000** (one person) when one parent lives in the home, or
- **\$3,000** (a couple) when both parents live in the home.

**2. Deem Excess
To BD Child**

Deem the amount of the resources over the limit to the BD child. If more than one BD child lives in the household, divide the amount of resources over the limit equally among the number of BD children in the household.

**E. Child's Total
Countable
Resources**

A child's total countable resources are the combination of the value of the deemed resources from the parent(s) and the nonexcluded resources of the child.

F. Resource Limit

Compare the BD child's countable resources to the resource limit for one person. If the resources do not exceed the limit, the child meets the Medicaid resource eligibility requirement. If countable resources exceed the limit, the child is ineligible for Medicaid because of excess resources.

**G. Example--BD
Child Living With
Parents- Child
Meets Resource
Requirement**

EXAMPLE #19: Mr. and Mrs. Blake live together with their son, Thomas, who is age 16 and blind. Thomas has no resources of his own. Mr. and Mrs. Blake applied for Medicaid on behalf of Thomas on January 23, 1997.

The parents' resources are as follows:

\$4,150 - savings belonging to both Mr. and Mrs. Blake

The resource calculation follows:

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date September 1997
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.301	Page 32

\$4,150 parent's countable resources subject to deeming
- 3,000 couple resource limit
 \$1,150 deemed resources to Thomas
+ 0 child's resources
 \$1,150 child's countable resources

Since Thomas's countable resources do not exceed the resource limit for an individual, Thomas meets the resource eligibility requirement.

H. Example--Two BD Children Living With Parent and Stepparent - Children Meet Resource Requirements

EXAMPLE #20: John and Joan Goode, ages 15 and 16, are both disabled and live with their mother and stepfather. John's only resources are three U.S. savings bonds worth \$25 each. Joan's resources are a \$100 savings account and a stamp collection valued at \$400. The parents own:

one automobile valued at \$3,000
 joint savings account with balance of \$5,000
 Mrs. Smith's cash on hand = \$200

Mrs. Smith, John and Joan's mother, applies for Medicaid on their behalf on September 17, 1997. The parent's (mother's) resource calculation follows:

Parent's Excluded Resources: one automobile

Parent's Countable Resources:

\$2,500 ½ savings account (mother's share of joint account)
+ 200 cash on hand
 \$2,700 parent's total countable resources
-2,000 individual resource limit
 \$ 700 value of deemed resources (\$350 resources deemed to each child)

John's Resources (no excluded resources)

\$ 75 savings bonds
+ 350 deemed from parent
 \$ 425 countable resources

Joan's Resources (stamp collection excluded)

\$ 100 savings account
+ 350 resource value deemed
 \$ 450 countable resources

Since neither John's nor Joan's countable resources exceed the resource limit, they both meet the Medicaid resource eligibility requirement.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date September 1997
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.302	Page 33

I. Example--Two Children Living with Parent and Stepparent - One Child Found NBD First and Other Child Becomes NBD as a Result

EXAMPLE #21: The same situation exists as described in Example #20 above except that Joan also owns four savings bonds worth \$450 each, and John also owns a savings account worth \$1,500.

Joan's resources (stamp collection excluded):

\$ 100 savings account
1,800 savings bonds
+ 350 deemed from parent
\$2,250 countable resources

John's resources:

\$1,500 savings account
75 savings bonds
+ 350 deemed from parent
\$1,925 countable resources

John initially meets the resource eligibility requirement because his countable resources do not exceed the resource limit. But Joan does not meet the resource eligibility requirement because her countable resources exceed the resource limit. Since Joan is ineligible, the parent's resources must all be deemed to John.

John's Resources (no excluded resources):

\$ 75 savings bonds 1,500 savings account
+ 700 parent=s deemed resources
\$ 2,275 countable resources

Because John's countable resources now exceed the limit for 1 person, he is not eligible for Medicaid because of excess resources. Both John and Joan are ineligible because of excess resources.

M0530.302 DEEMING INCOME FROM ONE PARENT

A. Policy

A BD child (blind or disabled child) under age 21 who resides in the same household with a parent is considered to share in the parent's income. A BD child living in the same household with a parent is subject to the deeming provisions as long as he/she is under age 21, if the individual meets the definition of a child in M0530.002 above. A child who is away at school may be considered to be temporarily absent from the parents' household and would also be subject to deeming.

The following subsections explain the rules to follow when deeming income from one parent when

- only one parent lives in the household, or
- the parent is married and living with his/her spouse who is not the BD child's parent (is the BD child's stepparent). Do NOT deem any of the stepparent's resources or income to the BD child(ren).

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2000
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.302	Page 34

B. Excluded Income

When determining the parent's income, do not include the income listed in section M0530.020 above.

C. Deeming Rules

When a BD child lives in the same household with his/her parent, these deeming rules are applied in the following order:

1. Determine Parent=s Income

Determine the monthly amount of the Parent's earned and unearned income, applying the appropriate exclusions in M0530.020.

2. Determine NBD Child Allocation

a. Parent Is Not Living With Spouse

The allocation for each NBD child is the difference between the SSI payment limit for two persons and the SSI payment limit for one person.

The allocation amount automatically increases whenever the SSI limits increase. *See Appendix 1 to this subchapter for current amount.*

b. Parent Is Living With Spouse (BD Child's Stepparent)

- 1) Parent's own NBD child(ren): the allocation for each NBD child is the difference between the SSI payment limit for two persons and the SSI payment limit for one person. *See Appendix 1 to this subchapter for current amount.*
- 2) Parent's child(ren)-in-common with stepparent: calculate the stepparent's ability to meet the needs of the child(ren)-in-common. If the stepparent refuses to verify his/her income, **do not allocate any amount of the parent's income for the child(ren)-in-common:**
 - a) **Step 1:** Determine the stepparent's earned and unearned income, applying the appropriate exclusions in M0530.020.
 - b) **Step 2:** Deduct an allocation for each of the stepparent's own children living in the household who are **not** the children of the Parent. Reduce the allocation by the amount of the child's own countable income.
 - c) **Step 3:** Subtract the unearned and earned income exclusions from the stepparent's income remaining after deducting allocations.
 - d) **Step 4:** Deduct a **living allowance** for the stepparent. *See Appendix 1 to this subchapter for current amount.*
 - e) **Step 5:** Subtract the NBD child allocation from the remaining income after deducting the living allowance. (If only one

Manual Title	Chapter	Page Revision Date
--------------	---------	--------------------

Virginia Medical Assistance Eligibility	M05	January 2000
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.302	Page 35

child-in-common lives in the household, the allocation is *the amount of the NBD child allocation*. If there is more than 1 child-in-common, multiply the allocation by the number of children-in-common). The result is the stepparent's contribution to the child(ren)-in-common.

- (1) If the stepparent's contribution is **less than or equal to** the allocation amount, the stepparent is not able to fully meet the child(ren)-in-common's needs. **Use the allocation amount when calculating the parent's allocation for the child(ren)-in-common, and count the stepparent's contribution as income to the child(ren)-in-common.** If more than one child-in-common lives in the household, divide the stepparent's contribution by the number of children-in-common living in the household.
- (2) If the remainder is **more than** the allocation amount, the stepparent is able to meet the child(ren)-in-common's needs. **DO NOT allocate any** of the parent's income for the child(ren)-in-common. .

3. Reduce NBD Child Allocation

Each NBD child's allocation is reduced by the amount of his or her own income. The items listed in section M0530.020 above are not included as income to the NBD child for purposes of reducing the allocation.

If any NBD children in the household have income, verify the NBD child's income. However, when the alleged income exceeds the amount of the NBD child allocation amount (i.e., no NBD child allocation will apply for that NBD child), document the allegation in the file but do not verify the income. Document an allegation in the file when any NBD child living in the household has no income. Do not redevelop the NBD child's income unless a change is alleged or there is a reason to believe a change has occurred.

4. Subtract NBD Child Allocation Amount

Subtract the allocations for NBD children first from the parent's **unearned** income. If the parent does not have enough unearned income to cover the allocations, the allocation balance is subtracted from the parent's **earned** income.

5. Subtract Unearned and Earned Income Exclusions

a. All Remaining Parental Income Is Earned

If all of the income of the parent that remains after applying the NBD child allocations is earned:

- Subtract \$85 (the sum of the \$20 general income exclusion and the \$65 earned income exclusion);
- Subtract ½ of the remaining earned income.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2000
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.302	Page 36

b. All Remaining Parental Income is Unearned

If all of the income of the parent that remains after applying the NBD child allocations is unearned:

- subtract the \$20 general income exclusion.

c. Parental Income is Both Earned and Unearned

If all of the income of the parent that remains after applying the NBD child allocations is both earned and unearned:

- 1) subtract \$20 from the parent's unearned income. If the total unearned income is less than \$20, subtract the balance of the \$20 from the parent's earned income;
- 2) subtract \$65 plus one-half the remainder from the earned income (after subtracting any of the remaining \$20 exclusion).

6. Subtract Living Allowance for Parent

Subtract a living allowance for the parent from any remaining parental income, unless the parent receives a public assistance payment such as TANF. No living allowance is given to a parent who is receiving public assistance payments. The parental living allowance, even if the parent is married and living with his/her spouse who is not the BD child's parent, is the SSI monthly payment limit for an individual.

7. Result = Deemable Income

Any positive remainder, after subtracting the living allowance for the parent, is the parent's deemable income.

8. One BD Child in Household

If only one BD child lives in the household, the parent's deemable income is deemed to the child as unearned income.

Add the deemed income to the BD child's own unearned income. Subtract the appropriate unearned income exclusions, including the \$20 general exclusion, to determine the child's countable unearned income in the month. Add the countable unearned income to any countable earned income the child has. Subtract the total countable income from the appropriate income limit for 1 person to determine whether or not the child is eligible for Medicaid, or to determine the amount of the child's medically needy spenddown.

9. Two or More BD Children in Household

If two or more BD children live in the household, divide the parent's deemable income equally among them.

To determine each BD child's income eligibility, add the deemed income to each BD child's own unearned income. Apply the appropriate unearned income exclusions, including the \$20 general exclusion, to determine the child's countable unearned income in the month. Add the countable

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2000
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.302	Page 37

unearned income to any countable earned income the child has. Subtract the total countable income from the appropriate income limit for 1 person to determine whether or not each child is eligible for Medicaid, or to determine the amount of the child's medically needy spenddown.

D. Examples

1. Two BD Children

EXAMPLE #22: (Using January 2000 figures)

James and Janet Jackson are disabled children age 19 and 20 who live with their mother in a Group I locality. Their mother applied for Medicaid for them in *January*. The children have no income but their mother receives \$640 in unemployment compensation each month. Since all of Mrs. Jackson's income is unearned and she has no NBD child allocation, her deemed income is calculated:

$$\begin{array}{r}
 \$640 \text{ parent's unearned income} \\
 - \underline{20} \text{ general income exclusion} \\
 620 \text{ countable unearned} \\
 - \underline{512} \text{ parent's living allowance} \\
 108 \text{ remainder deemed to BD children} \\
)\div \underline{2} \text{ BD children} \\
 \$54 \text{ deemed to each child}
 \end{array}$$

When the \$20 general income exclusion is applied to each child's income, each child has \$34 monthly countable income.

$$\begin{array}{r}
 \$34 \text{ countable monthly income for each child} \\
 \times \underline{6} \text{ months} \\
 204 \text{ 6 months' income} \\
 - \underline{1300} \text{ income limit for 1 person Group I} \\
 0 \text{ excess}
 \end{array}$$

Because each child's countable income is within the income limit for 1 person, each child is eligible for Medicaid as an MN disabled individual.

2. Two BD Children; One Has Excess Income

EXAMPLE #23: (Using January 2000 figures)

In *January*, Mrs. Jones applied for Medicaid for her 2 disabled children, John age 19 and James age 20. Also living in the household is her husband who is not the father of the BD children. They live in a Group III locality. Mrs. Jones receives \$960 in unemployment compensation per month and James receives \$200 from his grandparents each month. John has no income. Mrs. Jones has no resources to deem. Since all of Mrs. Jones's income is unearned and she has no NBD child allocation, her deemed income is calculated:

$$\begin{array}{r}
 \$960 \text{ parent's unearned income} \\
 - \underline{20} \text{ general income exclusion} \\
 940 \text{ countable unearned} \\
 - \underline{512} \text{ parent's living allowance} \\
 428 \text{ remainder deemed to BD children} \\
)\div \underline{2} \text{ BD children} \\
 214 \text{ deemed to each child}
 \end{array}$$

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2000
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.302	Page 38

James's income is calculated:

$$\begin{array}{rcl}
 \$200 & \text{unearned income from grandparents} & \\
 +214 & \text{deemed from parent} & \\
 \hline
 414 & \text{James's total unearned income} & \\
 -20 & \text{general income exclusion} & \\
 \hline
 394 & \text{monthly countable income} & \\
 \times 6 & \text{months} & \\
 \hline
 2364 & \text{6 months' income} & \\
 -1950 & \text{income limit for 1 Group III} & \\
 \hline
 \$414 & \text{excess for James (spenddown)} &
 \end{array}$$

James is ineligible for Medicaid because of excess income. He is placed on spenddown. John's income is calculated:

$$\begin{array}{rcl}
 \$214 & \text{deemed from parent} & \\
 -20 & \text{general income exclusion} & \\
 \hline
 194 & \text{monthly countable income} & \\
 \times 6 & \text{months} & \\
 \hline
 1164 & \text{6 months' income} & \\
 -1950 & \text{income limit for 1 Group III} & \\
 \hline
 0 & \text{excess for John} &
 \end{array}$$

John is eligible for Medicaid as an MN disabled individual.

3. One BD Child; Stepparent In Home

EXAMPLE #24: (Using January 2000 figures)

Jerry Smith is a 19 year-old disabled child who lives with his mother, stepfather, his 15 year-old sister, his 3 year-old half brother and his 2 step-siblings in a Group II locality. His mother, Mrs. Green, applied for Medicaid for him in *January*. Jerry has no income. His mother receives \$540 in unemployment compensation each month. Mr. Green, his stepfather, earns \$2,300 per month. Jerry's 15 year old sister and his 3 year old half brother have no income of their own. Jerry's step-siblings receive \$50 a month each from their grandparents.

a. Mrs. Green's deemed income is calculated:

Stepparent's contribution to children-in-common:

Each step-sibling's allocation:

$$\begin{array}{rcl}
 \$257 & \text{allocation standard} & \\
 -50 & \text{each child's income} & \\
 \hline
 207 & \text{each child's allocation from stepparent's income} & \\
 \times 2 & \text{children} & \\
 \hline
 414 & \text{total allocation for step-children} & \\
 \\
 \$2,300 & \text{Mr. Green's earnings} & \\
 -414 & \text{allocation for his 2 children} & \\
 \hline
 1,886 & \text{remainder} & \\
 -512 & \text{living allowance for Mr. Green} & \\
 \hline
 1,374 & \text{remainder} &
 \end{array}$$

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M05	January 2000
Subchapter Subject	Page ending with	Page
M0530.000 ABD ASSISTANCE UNIT	M0530.303	39

$$\begin{array}{r} \$1,374 \text{ remainder} \\ - \quad 257 \\ \hline \$1,117 \end{array}$$

allocation standard for 1 child-in-common

stepparent’s contribution to child-in-common

Because \$1,117 is greater than the allocation standard for 1 child-in-common, NONE of Mrs. Green’s income is allocated for the 3-year old child-in-common.

NBD Child allocation calculation:

$$\begin{array}{r} \$ 257 \text{ allocation standard for 15 year old sister} \\ - \quad 0 \text{ income of child} \\ \hline 257 \text{ allocation for NBD 15 year old child} \end{array}$$

$$\begin{array}{r} \$ 540 \text{ Mrs. Green’s unearned income} \\ - \quad 257 \text{ allocation for her NBD child} \\ \hline 283 \text{ remainder} \\ - \quad 20 \text{ general income exclusion} \\ \hline 263 \text{ countable unearned} \\ - \quad 512 \text{ parent’s living allowance} \\ \hline 0 \text{ remainder to deem to BD child} \end{array}$$

Mrs. Green has no income deemed to Jerry. Because he has no income of his own, he is eligible for Medicaid as an MN disabled individual.

M0530.303 DEEMING INCOME FROM TWO PARENTS

- A. Introduction

This section explains the rules to follow when deeming income from both of the BD child(ren)’s parents who live in the household with the BD child(ren).
- B. Excluded Income

When determining the parents’ income, exclude the income listed in section M0530.020 above.
- C. Deeming Rules

1. Determine Parent’s Income

The monthly amount of the parents’ earned and unearned income is determined, applying the appropriate exclusions in M0530.020.

2. NBD Child Allocation

a. NBD Child Allocation Amount

An allocation for each NBD child who lives in the household is deducted from the **NBD child’s parent’s** income. Exception: no allocation is given for any children who are receiving public assistance payments such as TANF payments.

The allocation for each NBD child is the difference between the SSI payment imit for two persons and the SSI payment limit for one person.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date September 1997
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.303	Page 40

The allocation amount automatically increases whenever the SSI limits increase. *See Appendix 1 to this subchapter for current amount.*

b. Reduce NBD Child Allocation

Each NBD child's allocation is reduced by the amount of his or her own income. The items listed in section M0530.020 above are not included as income to the NBD child for purposes of reducing the allocation.

If any NBD children in the household have income, verify the NBD child's income. However, when the alleged income exceeds the amount of the NBD child allocation amount (i.e., no NBD child allocation will apply for that NBD child), document the allegation in the file but do not verify the income. Document an allegation in the file when any NBD child living in the household has no income. Do not redevelop the NBD child's income unless a change is alleged or there is a reason to believe a change has occurred.

c. Subtract NBD Child Allocation

- 1) **Step 1, Parent #1:** determine the NBD child allocation(s) for the NBD child(ren) of only one of the parents (Parent #1) when Parent #1 has an NBD child(ren) who is not the child(ren) of the other parent (Parent #2).
 - a) Determine the NBD child's own income,
 - b) Subtract the NBD child's income from the NBD child allocation amount,
 - c) any positive remainder is the NBD child allocation for that child;
 - d) repeat a), b) and c) for each of Parent #1's NBD children.
 - e) total all of the Parent #1's NBD child(ren) allocations; the result is Parent #1's NBD child allocation for his/her own child(ren);
 - f) subtract the Parent #1's NBD child(ren) allocation first from the Parent #1's **unearned** income. If Parent #1 does not have enough unearned income to cover the allocation, subtract the allocation balance from Parent #1's **earned** income.
- 2) **Step 2, Parent #2:** determine the NBD child allocation(s) for the NBD child(ren) of Parent #2 when Parent #2 has an NBD child(ren) who is not the child(ren) of the Parent #1.
 - a) Determine the NBD child's own income,

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date September 1997
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.303	Page 41

- b) Subtract the NBD child's income from the NBD child's allocation amount,
 - c) any positive remainder is the NBD child allocation for that child;
 - d) repeat a), b) and c) for each of Parent #2's NBD children.
 - e) total all of the Parent #2's NBD child(ren) allocations; the result is Parent #2's NBD child allocation for his/her own child(ren);
 - f) subtract the Parent #2's NBD child(ren) allocation first from the Parent #2's **unearned** income. If Parent #2 does not have enough unearned income to cover the allocation, subtract the allocation balance from Parent #2's **earned** income.
- 3) **Step 3, Parents' child(ren)-in-common:** when the parents have an NBD child(ren)-in-common (both parents are NBD child's parents):
- a) Determine the NBD child-in-common's own income,
 - b) Subtract the NBD child's income from the NBD child-in-common's allocation amount,
 - c) any positive remainder is the NBD child allocation for the child-in-common;
 - d) repeat a), b) and c) for each of the parents' NBD children-in-common;
 - e) total all of the NBD child(ren)-in-common allocations; the result is the parents' NBD child-in-common allocation for their child(ren)-in-common;
 - f) combine the Parents' unearned income that remains after deducting each parent's NBD child allocations;
 - g) combine the parents' earned income that remains after deducting each parent's NBD child allocations;
 - h) subtract the Parents' NBD child(ren)-in-common allocation first from the Parents' **combined unearned** income.

If the Parents do not have enough unearned income left to cover the NBD child(ren)-in-common allocation, subtract the NBD child(ren) in-common allocation balance from the Parents' **combined earned** income.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2000
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.303	Page 42

**3. Subtract
Unearned and
Earned
Income
Exclusions**

a. All Remaining Parental Income Is Earned

If all of the income of the parents that remains after applying the NBD child-in-common allocation is earned:

- Subtract \$85 (the sum of the \$20 general income exclusion and the \$65 earned income exclusion);
- Subtract $\frac{1}{2}$ of the remaining earned income.

b. All Parental Income is Unearned

If all of the income of the parents that remains after applying the NBD child-in-common allocation is unearned:

- subtract the \$20 general income exclusion.

c. Parental Income is Both Earned and Unearned

If all of the income of the parents that remains after applying the NBD child-in-common allocation is both earned and unearned:

- 1) subtract \$20 from the parents' remaining unearned income. If the remaining unearned income is less than \$20, the balance of the \$20 is subtracted from the parents' remaining earned income;
- 2) subtract \$65 plus one-half the remainder from the remaining earned income (after subtracting any of the remaining \$20 exclusion).

**4. Subtract
Living
Allowance for
Parents**

Deduct a living allowance for the parents from any remaining parental income, unless the parents receive a public assistance payment such as TANF. No living allowance is given to parents who receive public assistance payments. The parental living allowance is the SSI monthly payment limit for a couple (2 persons).

**5. Result =
Deemable
Income**

Any positive remainder, after subtracting the living allowance for the parents, is the parents' deemable income.

**6. One BD Child
in Household**

If only one BD child lives in the household, the parents' deemable income is deemed to the child as unearned income.

Add the deemed income to the BD child's own unearned income. Subtract the appropriate unearned income exclusions, including the \$20 general exclusion, to determine the child's countable unearned income in the month. Add the countable unearned income to any countable earned income the child has. Subtract the total countable income from the

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2000
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.303	Page 43

appropriate income limit for 1 person to determine whether or not the child is eligible for Medicaid, or to determine the amount of the child's medically needy spenddown.

**7. Two or More
BD Children
in Household**

If two or more BD children live in the household, **divide** the parents' deemable income equally among the BD children.

To determine the income eligibility of the BD child(ren) who apply for Medicaid, add the deemed income to the BD child's own unearned income. Subtract the appropriate unearned income exclusions, including the \$20 general exclusion, to determine the child's countable unearned income in the month. Add the countable unearned income to any countable earned income the child has. Subtract the total countable income from the appropriate income limit for 1 person to determine whether or not the child is eligible for Medicaid, or to determine the amount of the child's medically needy spenddown.

D. Examples

**1. One NBD
Child in
Common;
Parents Have
Both Earned
and Unearned
Income**

EXAMPLE #25: (Using January 2000 figures)

Bobby Miller, a disabled child age 19, lives with his mother and father and a 10-year-old NBD brother in a Group II locality. On *January 3*, his mother applies for Medicaid for him. She receives an annuity payment of \$285 and his father earns \$1,025. Bobby receives \$250 per month from a trust fund set up for him by his deceased grandmother. His brother has no income.

Parents' deeming calculation:

\$285	mother's unearned income
<u>-257</u>	NBD child allocation
28	unearned income to deem from mother
<u>- 20</u>	general income exclusion
8	parents' countable unearned income
\$1025	father's earned income
<u>- 65</u>	earned income exclusion
960	
<u>)÷ 2</u>	½ remainder earned income exclusion
480	countable earned income
<u>+ 8</u>	countable unearned income
488	
<u>-769</u>	living allowance for the parents
0	excess to deem

None of his parents' income is deemed to Bobby. Bobby's MN income eligibility is calculated:

\$250	monthly unearned income
<u>- 20</u>	general exclusion
230	countable income
<u>x 6</u>	months
\$1380	countable 6 months' income

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2000
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.303	Page 44

1380 countable 6 months= income
-1500 income limit for 1 Group II
 0 excess

Bobby is eligible for Medicaid as an MN disabled individual.

**2. One NBD
Child in
Common;
Parents Have
NBD Children
Of Their Own**

EXAMPLE #26: (Using January 2000 figures)

Billie Barty, a disabled child age 19, lives with her mother, father, her twin brother age 19, her mother's 20-year-old NBD son and her father's 20 year-old daughter in a Group III locality. On *January 4*, her mother applies for Medicaid for Billie. Her mother receives an annuity payment of \$585 per month and her father earns \$3,000 per month. Billie receives \$150 per month from a trust fund set up for her by her deceased grandmother. Her half-siblings have no income.

a. Parent #1's (mother's) deeming calculation:

\$585 mother's unearned income
-257 NBD child allocation (20 year old)
 328 remainder unearned income

b. Parent #2's (father's) deeming calculation:

\$3000 father's earned income
- 257 NBD child allocation (20 year old)
 2743 remainder earned income

c. Parents= child-in-common allocation and deeming calculations:

\$ 328 mother's remainder unearned income
 + 0 father's remainder unearned income
 328 parents' total remainder unearned income
- 257 NBD child-in-common allocation
 71 parents' countable unearned income
- 20 general income exclusion
 51 parents' countable unearned income

\$2,743 father's remainder earned income
- 65 earned income exclusion
 2,678
)÷ 2 ½ remainder earned income exclusion
 1,339 countable earned income
 + 51 countable unearned income
 1,390 total countable income
- 769 living allowance for parents
 621 deemed to Billie

d. Billie's income calculation:

\$150 monthly unearned income
 + 621 deemed from parents
 771 total unearned income

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2000
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.304	Page 45

771	total unearned income
- 20	general exclusion
751	countable income
x 6	months
\$ 4,506	countable 6 months' income
- 1,950	income limit for 1 Group III
2,556	excess (spenddown)

Billie is not eligible for Medicaid because of excess income and is placed on a spenddown.

M0530.304 CHANGES IN STATUSc PARENTS OF CHILDREN

A. Introduction

Deeming of a parent's income to an BD child can begin or end when there has been a change in the family's situation. Except where noted below, all changes in status are effective with the month following the month the change occurs. The rules that apply when such a change of status occurs are listed below.

NOTE: There are other status changes in addition to the ones described in B. These other changes are effective, for deeming purposes, the month after the month the change occurs. For example, if an NBD child moves out of the household in May, no allocation is given for that child beginning with June (for purposes of determining eligibility of a blind or disabled child).

B. Policy

1. Parent Dies

If a parent dies, deeming stops from that parent beginning with the month following the month of death. If the child lives with two parents and one dies, deeming continues from the surviving parent to determine eligibility. Only the surviving parent's income is used, and one parental living allowance is subtracted.

2. Parent and BD Child No Longer Lives in Same Household

If a parent and BD child no longer live in the same household, deeming of that parent's income stops effective the month after the month the parent (or child) leaves the household for purposes of determining eligibility.

NOTE: If a parent (or child) was temporarily absent from the household, this rule applies effective with the month after the month the parent's (or child's) absence is no longer considered temporary.

3. Parent and BD Child Begin Living in Same Household

If an BD child begins living with a parent in the same household (e.g., a newborn child comes home from a hospital), the parent's income is deemed to the child for purposes of determining eligibility beginning the month after the month they begin living together.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2000
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.400	Page 46

NOTE: An BD child born at home is subject to deeming effective with the month of birth.

4. BD Child Becomes Institution-alized

If an BD child becomes institutionalized, either in a medical facility or under a Medicaid CBC waiver, deeming stops for purposes of determining eligibility effective the month in which institutionalization began.

5. Child Attains Age 21

Deeming stops effective the month following the month in which a child attains age 21. An individual attains age 21 on the day preceding the anniversary of his/her birth. Eligibility is determined using only the individual's own income. The individual's income for the current month and subsequent months must include any income in the form of cash provided by the parents.

C. Examples

1. Parent Dies

EXAMPLE #27: (Using January 2000 figures)

Henry Walden is a disabled child who lives with his parents in Group III. On *January 4*, Mrs. Walden died. She had been working and received gross wages of \$981 in January. Mr. Walden's only income is a pension check of \$450. Henry has no income. There are no NBD children living in the household. In *January*, Henry's eligibility is determined by calculating deemed income from both his parents. His father's unearned income of \$450 is reduced by \$20, leaving \$430. His mother's earned income of \$981 is reduced by the earned income exclusion (\$65 plus one-half the remainder) leaving \$458. The total income remaining (\$888) is then reduced by the parents' living allowance (\$769), which leaves deemed income of \$119. The \$20 general income exclusion is subtracted from Henry's income, which leaves him with \$99 countable income. Beginning with *February*, Henry's eligibility is determined using only his father's income, since Henry has no income of his own and his mother died in *January*.

2. BD Child Begins Living With Parent

EXAMPLE #28: Gene Prescott, a disabled child age 19, is a Medicaid recipient who lives in a private residential facility. In October, he is discharged from the facility and goes home to live with his mother and his NBD sister. Beginning with November, his mother's resources and income are deemed to Gene to determine his eligibility.

M0530.400 MULTIPLE DEEMING

A. Introduction

When more than one ABD individual lives in the same household and there is a parent-child relationship, a multiple deeming situation may exist. The following sections provide the rules to follow in parent-child multiple deeming situations. When this type of deeming is involved, it may or may not be necessary to recalculate eligibility, depending on the situation.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date September 1997
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.401	Page 47

M0530.401 DEEMING INCOME FROM AN NABD SPOUSE TO AN ABD INDIVIDUAL AND A BD CHILD

A. Policy

If a BD child (or children) under age 21 lives in the same household with his/her parents who are an ABD individual (spouse) and an NABD spouse, income is always deemed first to the ABD individual (i.e., the parent who is aged, blind or disabled). Then, any remaining income is deemed to the BD child(ren).

B. Determining the Spouse's and Child's Eligibility

The steps below are followed to determine eligibility for Medicaid when both an ABD individual (spouse) and a BD child under age 21 live in the same household with an NABD spouse/parent.

1. Determine the amount of the NABD spouse's earned and unearned income using the appropriate exclusions in M0530.020.
2. Deduct an allocation for each NBD child in the household from the NABD spouse's income as described in M0530.203.
3. Follow the rules in M0530.203 to determine if any of the NABD spouse's income is deemed to the individual, and if so, to determine countable income for a couple. Follow the rules in M0530.301 and 302 to determine the BD child's eligibility.

NOTE: Excess income, if any, is determined from the "couple" calculation.

4. If the ABD spouse/parent **is eligible** for Medicaid after the NABD spouse's income has been deemed, **no** income is deemed to the BD child from his/her parents. To determine the child's eligibility, compare the child's own countable income (without income deemed from his/her parents) to the income limit for 1 person.
5. If the ABD individual (parent) is **not** eligible for Medicaid after the NABD spouse's income has been deemed, deem any excess monthly income to the BD child.

When the couple's countable income exceeds the income limit, the ABD spouse/parent is **not** eligible for Medicaid and is placed on a spenddown. The spenddown amount is based on the amount of the monthly excess income which was deemed to the BD child. Deeming income does not reduce the ABD spouse/parent's countable income.

C. Examples

1. Parents' Income Less Than Couple Limit

EXAMPLE #29: Mrs. Crowley, a blind individual, lives with her husband and their disabled child, John in Group III. Mrs. Crowley has been receiving Medicaid for 4 months. She and John have no income. Mr. Crowley is employed and earns \$825 in August 1997. First

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date September 1997
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with M0530.401	Page 48

determine Mrs. Crowley's eligibility. Since Mr. Crowley's income exceeds the deeming standard, the \$825 is treated as the earned income available to Mr. and Mrs. Crowley as a couple. Because they have no unearned income, reduce the \$825 by the \$20 general income exclusion, and then by the earned income exclusion (\$65 plus one-half the remainder). This leaves \$370 in countable income, which is less than the \$400 income limit in Group III for a couple, so Mrs. Crowley is eligible for Medicaid. Therefore, no income is deemed to John. Since John's total countable income (zero) is less than the income limit for an individual, John is also eligible for Medicaid.

2. Parents' Income Exceeds the Couple Limit

EXAMPLE #30: Mr. Potter, a disabled individual, resides with his NABD spouse and their disabled son, Dwayne who is age 19, in Group II. Mr. Potter and Dwayne have no income. Mrs. Potter works and earned \$1,195 in September 1997. Since Mrs. Potter's income is more than the deeming standard, the \$1,195 earned income is treated as income available to Mr. and Mrs. Potter as a couple. Next, the income is reduced by the \$20 general income exclusion and then by the \$65 plus one-half the remainder (earned income exclusion), leaving \$555 in countable income. This exceeds the monthly income limit in Group II by \$246.67. Mr. Potter is ineligible because the couple's \$555 countable income exceeds the Group II income limit for a couple. His spenddown amount is \$1480 ($\$555 \times 6 = 3330 - 1850 = 1480$).

Since Mr. Potter is ineligible, \$246.67 is deemed to Dwayne. Treat the \$246.67 deemed to Dwayne as unearned income, and apply the \$20 general income exclusion, reducing Dwayne's countable income to \$226.67. Multiply his monthly countable income by 6 months. Compare Dwayne's 6 months' countable income to the semi-annual income limit for 1 person in Group II. Because his countable income does not exceed the income limit. Dwayne is eligible for Medicaid as an MN disabled individual.

Manual Title Virginia Medical Assistance Eligibility	Chapter M05	Page Revision Date January 2022
Subchapter Subject M0530.000 ABD ASSISTANCE UNIT	Page ending with Appendix 1	Page 1

Deeming Allocations

The deeming policy determines how much of a legally responsible relative's income is deemed to the applicant/recipient. The allocation amount increases automatically whenever the SSI payment limit increases.

NBD (Non-blind/disabled) Child Allocation

The NBD child allocation is equal to the difference between the SSI payment for two persons and the SSI payment for one person.

SSI payment for couple - SSI payment for one person = NBD child allocation

2022: \$1,261 - \$841 = \$420

2021: \$1,191 - \$794 = \$397

Parental Living Allowance

The living allowance for one parent living with the child is the SSI payment for one person.

SSI payment for one person = \$841 for 2022; \$794 for 2021.

The living allowance for both parents living with the child is the SSI payment for a couple.

SSI payment for both parents = \$1,261 for 2022; \$1,191 for 2021.

Deeming Standard

The NABD (non-age/blind/disabled) spouse deeming standard is the difference between the SSI payment for two persons and the SSI payment for one person.

SSI payment for couple - SSI payment for one person = deeming standard

2022: \$1,261 - \$841 = \$420

2021: \$1,191 - \$794 = \$397

M0610.000 GENERAL RULES FOR FAMILIES AND CHILDREN RESOURCES

M0610.001 OVERVIEW

A. Introduction

Medicaid is a needs based program. Two financial criteria, income and resources, are used to determine if a person is in need and is financially eligible for Medicaid. Most F&C categorically needy (CN) covered groups (see subchapter M0330) do not have a resource requirement. Resource policy does not apply to the following categorically needy covered groups:

- CN Pregnant Women & Newborn Children;
- Plan First,
- CN Child Under Age 19 (FAMIS Plus);
- IV-E Foster Care or IV-E Adoption Assistance Recipients;
- Low Income Families With Children (LIFC);
- Individuals Under Age 21;
- Special Medical Needs Adoption Assistance;
- BCCPTA,
- MAGI Adults (see M1460 for resource requirements)
- Former Foster Care Children Under Age 26

This section addresses how to determine resource eligibility for the following *covered groups and individuals*:

- F&C in Medical Institution, Income \leq 300% SSI *age 18 years and older**;
- F&C Receiving Waiver(CBC) Services *age 18 years and older**;
- F&C Hospice *age 18 years and older**; and
- all F&C medically needy covered groups.

****Children under age 18 in the F&C 300% SSI covered group are not subject to a resource test.***

All real and personal property legally owned by each member of the family unit/budget unit (FU/BU) is evaluated and the countable value is considered in determining Medicaid eligibility for the FU/BU.

Resources of each member of a FU/BU are evaluated using the rules in this chapter. Resource eligibility is determined by comparing the countable resources to the appropriate limit based on the composition of FU/BU. The policy governing the formation of the FU/BU is contained in M05.

B. Policy Principles

1. Monthly Determinations

Eligibility with respect to resources is a determination made for each calendar month, beginning with the third month prior to the month in which the application is received.

Manual Title Virginia Medical Assistance Eligibility	Chapter M06	Page Revision Date October 2019
Subchapter Subject M0610.000 FAMILIES & CHILDREN RESOURCES	Page ending with M0610.002	Page 2

2. Countable Resources

Any assets that are resources but are not specifically excluded by policy are countable resources. Only countable resources are used to determine resource eligibility. See:

- M0610.002 for the resource limits;
- M0610.100 for the distinction between assets and resources;
- M0630.100 for a listing of exclusions.

3. Whose Resources Must Count

For MN eligibility, Medicaid law requires that resources are only considered available between spouses and from parents to their children under age 21 who live at home.

4. Whose Resources Do Not Count

Medicaid law does not allow certain resources to be considered in determining eligibility. Do not count resources:

- from a step-parent to a step-child;
- from siblings to siblings;
- from child to parent;
- from parent *when the child is between 18 and 21 and meets the 300% SSI covered group*;
- from spouse *when the spouses are living apart and neither spouse meets the definition of an institutionalized individual with a community spouse in M1480*;
- from an alien sponsor.

For an individual between the ages of 18 and 21 who meets the F&C 300% SSI covered group, the resources of a parent are not counted. Children under age 18 in the F&C 300% SSI covered group are not subject to a resource test.

For married individuals who meet the F&C 300% SSI covered group, see subchapter M1480.

5. Total Countable Resources

The total value of the countable resources owned or deemed available to all FU members are counted in determining the resource eligibility of each FU member.

The total value of the countable resources owned or deemed available to all BU members is counted in determining the resource eligibility of each BU member.

6. Resource Eligibility

If the total countable value of the FU/BU's countable resources are at or below the resource limit at any point during the application month, retroactive month, or a month in which the case is pending, resource eligibility exists for that month.

Manual Title Virginia Medical Assistance Eligibility	Chapter M06	Page Revision Date October 2019
Subchapter Subject M0610.000 FAMILIES & CHILDREN RESOURCES	Page ending with M0610.002	Page 2a

7. Excess Resources

After determining countable resources in accordance with B.2 through B.5 above, if the family unit has resources other than the excluded items listed in M0630 totaling more than the allowable resource limit, determine if budget units can be formed. See Budget Unit rules in M0520. If BUs cannot be formed, or the BU's countable resources exceed the resource limit, resource eligibility does not exist.

If the FU/BU has a real property resource, see M0630.105 and M0630.110 for reasonable effort to sell real property.

8. Income Not Resources

When determining the value of resources available to the family/budget unit, do not consider any income as a resource in the month in which it is received.

M0610.002 RESOURCE LIMITS

A. Introduction

A separate resource limit is set for each Medicaid classification. A resource limit is the maximum dollar amount of countable resources a FU or BU may own and the individuals within that unit be eligible for Medicaid.

Manual Title Virginia Medical Assistance Eligibility	Chapter M06	Page Revision Date December 2003
Subchapter Subject M0610.000 FAMILIES & CHILDREN RESOURCES	Page ending with M0610.100	Page 3

B. Policy Principles

1. Resource Eligibility

A FU or BU with countable resources equal to or less than the resource limit applicable to the individual's covered group classification is resource eligible. A FU or BU with countable resources in excess of the limit applicable to the individual's covered group classification is not eligible for Medicaid.

2. Resource Limits

F&C Classification	Limit
<i>Categorically Needy</i>	\$1000 for the FU or BU
Medically Needy	\$2000 for one person \$3000 for two persons and \$100 for each additional person in the FU or BU

M0610.100 DISTINCTION BETWEEN ASSETS AND RESOURCES

A. Introduction

Everything an individual owns is an asset. A resource is an asset the individual owns, has the right, authority, or power to convert to cash, and is not legally restricted from using for his/her support and maintenance. Changes in situations may result in an asset becoming a resource or a resource becoming an asset. The distinction is important as resources may affect Medicaid eligibility and assets that are not income or resources do not affect eligibility.

B. Definitions

1. Assets

Assets are all monies received and everything owned. An asset that is not income or a resource does not impact Medicaid eligibility.

EXAMPLE: An individual has an ownership interest in property but is not legally able to transfer that interest to anyone else. This ownership interest in the property is the individual's asset but because he is legally restricted from selling it (converting it to cash), it is not a resource and it does not meet the definition of income. It remains an asset, but it is not counted in determining his financial eligibility.

2. Resources

Resources are cash and any other real and personal property that a member of the family or budget unit:

- owns;
- has the right, authority, or power to convert to cash (if not already cash); and
- is not legally restricted from using for his/her support and maintenance.

Manual Title Virginia Medical Assistance Eligibility	Chapter M06	Page Revision Date September 1997
Subchapter Subject M0610.000 FAMILIES & CHILDREN RESOURCES	Page ending with M0610.200	Page 4

NOTE: A trust may be a countable resource even though the individual does not have the authority to convert it to cash or is legally restricted from using it. See subchapters M1120.200-202 and M1140.400-404 for policy and procedures specific to determine if a trust (other than one established by a will) is a resource.

- 3. Countable Resources** Resources that are not specifically excluded by policy are countable resources.
- 4. Real Property** Real property is land, including buildings or immovable objects attached permanently to the land. (See M620.150 for a mobile home that is taxed as real property.)
- 5. Personal Property** Personal property is any property that is not real property. The term encompasses such things as cash, tools, farm and business equipment, life insurance policies, automobiles, and mobile homes taxed as personal property.
- 6. Ownership** Ownership of property by an individual means that the individual has a clear legal entitlement to the property, real or personal, or a specific portion thereof.

C. Policy

- 1. Sale or Trade of an Asset** Proceeds from the sale or trade of an asset must be evaluated as income in the month of receipt.
- 2. Sale or Trade of a Resource** Proceeds from the sale or trade of a resource are also resources. The sale or trade of a resource is converting a resource from one form to another.
- 3. Increased Value** Increases in the assessed or market value of a resource are not income.
- 4. Resources with Zero Value** Property does not cease to be a resource simply because it has no current market value. Even though there is no value to count, the property remains a resource for so long as it meets the definition of a resource in B.2. above. If the property develops a market value at a later time, this is an increase in the value of a resource, not a receipt of income.

M0610.200 UNKNOWN ASSETS

- A. Policy** Real or personal property the FU/BU is unaware of and had no reason to be aware of is not considered an available resource for the period of time the unit can demonstrate it did not know or had no reason to know about the property. Once the unit becomes aware or has reason to become aware of the existence of the resource, it is considered available to the unit.

Manual Title Virginia Medical Assistance Eligibility	Chapter M06	Page Revision Date September 1997
Subchapter Subject M0610.000 FAMILIES & CHILDREN RESOURCES	Page ending with M0610.400	Page 5

B. Development and Documentation

The family/budget unit has the burden of proving that the members of the unit were unaware of and had no reason to be aware of the resource.

- Obtain a signed statement from the applicant/recipient or authorized representative.
- Obtain supporting documentation including (but not limited to) signed statements from other individuals who are familiar with the individual's situation.

M0610.400 WHAT VALUES TO APPLY TO RESOURCES

A. Introduction

The countable value of a resource is the owner's pro rata share of the equity value. The equity value is the fair market value minus encumbrances (legal debts) against the property. This section contains the procedures for determining the fair market values, equity values, and the countable values of resources.

B. Policy

The value of an asset as a resource to the individual or family is the client's equity in the real or personal property.

C. Establishing Fair Market Value

The fair market value of a resource is determined as follows:

1. Real Property

For real property other than the home, apply the local assessment rate to the tax assessed value

2. Personal Property

For personal property (other than motor vehicles) if it is taxed, use the tax assessed value. If not taxed, obtain one statement from a knowledgeable source such as a supplier or distributor.

3. Motor Vehicles

For countable motor vehicles:

- the average trade-in value in the National Automobile Dealers Association (NADA) Official Used Car Guide, or
- for an older car which does not appear in the current NADA guide, the average trade-in value found in the NADA Official Older Used Car Guide, or
- if the vehicle is not listed in the NADA books, the value which is assessed for tax purposes, or
- if the methods listed above are not available:
 - one statement from a licensed dealer, or
 - the statement of the applicant/recipient.

Manual Title Virginia Medical Assistance Eligibility	Chapter M06	Page Revision Date September 1997
Subchapter Subject M0610.000 FAMILIES & CHILDREN RESOURCES	Page ending with M0610.400	Page 6

D. Equity Value

Equity value (EV) is the fair market value minus encumbrances (legal debts) against the property.

E. Disputed Fair Market Value

If the applicant/recipient disagrees with the fair market value as established above, the value may be changed using the following procedures:

1. Vehicles

Advise the applicant/recipient that the fair market value can be changed if the individual provides:

- one statement from a licensed dealer, or if the statement is not obtainable, the statement of the applicant/recipient

2. Real or Personal Property

Advise the individual in writing that the fair market value can be changed if the individual provides:

- two written estimates from appropriate qualified parties of the resource's current fair market value, or
- the reassessed tax value of real or personal property.

3. Qualified Parties

Appropriate qualified parties for this purpose are:

- personal property - Persons deemed qualified by the agency to value the property in question.
- real property - Lending institutions, appraisers, or licensed real estate firms.

4. Revised Fair Market Value of Real or Personal Property

The revised fair market value of real or personal property is the lesser of the following:

- the average of the two estimates;
- the current agency established value; or
- the reassessed value of real or personal property.

5. Redetermination

If found eligible based on the revised fair market value, the recipient is not required to reestablish the fair market value at each redetermination.

The revised fair market value will serve as the fair market value until:

- the worker has reason to believe the fair market value has increased, or
- the value of other resources available to the recipient increases; or

Manual Title Virginia Medical Assistance Eligibility	Chapter M06	Page Revision Date September 1997
Subchapter Subject M0610.000 FAMILIES & CHILDREN RESOURCES	Page ending with M0610.600	Page 7

- the recipient acquires additional resources which, when combined with the established fair market value of the disputed resource, cause the total value of the FU/BU's resources to exceed the applicable resource limit.

The recipient must reestablish the fair market value of the disputed resource according to item E. 1.- 4. above.

M0610.500 OWNERSHIP

- A. Introduction** The case record must contain verified information regarding ownership of property and its value, where applicable.
- B. Definition** Ownership of property by an individual means the individual has a clear legal entitlement to the property, real or personal, or a specific portion thereof.
- C. Shared Ownership** Assume, absent evidence to the contrary, that each owner of shared property owns only his or her fractional interest in the property. Divide the total value of the property among all of the owners in direct proportion to the ownership share held by each.
- D. Property Owned by SSI Recipient** The value of any property owned by an SSI recipient living in the home is not a countable resource to individuals who meet a F&C covered group even though the SSI recipient is a child or is the parent of the child(ren) who meets a F&C covered group.

When property is owned jointly by an SSI recipient and a Medicaid applicant/recipient in the Families and Children categories, refer to:

- M0640.100 for policy on jointly owned real property,
- M0640.210 for policy on joint bank accounts, and

M0640.300 for policy on jointly owned vehicles.

M0610.600 DETERMINING ELIGIBILITY BASED ON RESOURCES

- A. Policy** The value of any asset that meets the definition of a resource counts against the applicable resource limit to the extent that the instructions in M0630 do not provide for its exclusion.

The total of the countable equity value of each countable resource belonging to or deemed to a member of the family/budget unit is compared to the resource limit. The resource limit is based on the number of individuals in the FU/BU and the classification of the individuals. If the total of countable resources is less than or equal to the resource limit, the individual is eligible for Medicaid. If the total of countable resources exceeds the resource limit, the individual is not eligible for Medicaid.

M0620 IDENTIFYING RESOURCES

M0620.140 TRUSTS

- A. Trusts Established By a Will** For all classifications, any trust established by a will must be evaluated by the Assistant Attorney General (AAG) to determine if it is a countable resource.
- B. Operating Procedure for Trusts Established by a Will**
1. The applicant/recipient or authorized representative must submit the trust documents to the agency.
 2. The agency must obtain such documents within the time standards established for determining initial/continuing eligibility and forward the documents to the Medicaid Regional Specialist who will consult with the Assistant Attorney General.
 3. If the AAG advises that it is available without further court action, the amount of the trust must be counted as an available resource and compared to the appropriate resource limit.
 4. If the AAG determines that the trust is not available, it is not a countable resource.
 5. If the AAG cannot determine the availability of the trust or determines that court action is necessary to make the trust funds available, the applicant/recipient must initiate action, within 30 days of notification by the agency, to have the court release the trust funds.
- Pending a determination by the court, the trust is not considered available provided the applicant/recipient demonstrates continued efforts to have the trust released.
- C. All Other Trusts** For all classifications, follow policy in M1120.201.

M0620.150 MOBILE HOMES

- A. Policy** A mobile home in which the applicant/recipient lives and its contents are excluded resources.
- If a mobile home is not used as the applicant/recipient's home, it is a countable resource.

Manual Title Virginia Medical Assistance Eligibility	Chapter M06	Page Revision Date September 1997
Subchapter Subject M0620.000 IDENTIFYING RESOURCES	Page ending with M0620.150	Page 2

B. Procedure

1. **Determine if Real or Personal Property** If a mobile home is not used as the applicant/recipient's home, determine if the property is taxed as real property or taxed as personal property.
2. **Establish Fair Market Value** Use policy in M0610.400 to establish the fair market value of the mobile home as real or personal property.
3. **Rental Income** If the mobile home is not used as the applicant/recipient's home, but is rented, it is a countable resource and the rental income is countable.

M0630.000 Families and Children (F&C) EXCLUDED RESOURCES

M0630.001 OVERVIEW

A. Introduction After determining that an asset meets the definition of a resource, determine that resource's effect on eligibility. Certain resources do not count against the resource limit; i.e., they are excluded.

B. Procedure Section M0630.100 below contains the policy and procedures for determining if an individual's resource is excluded from determining eligibility for Medicaid in an F&C covered group.

M0630.100 EXCLUDED RESOURCES

A. Identifying Excluded Resources As long as they are identifiable, exclude the resources described in the sections below.

If any funds derived from an excluded resource are combined with other resources, the individual must provide documentation to verify the excluded amount. Otherwise, the funds must be counted in determining eligibility.

B. Types of Excluded Resources

1. Resources Owned By SSI Recipient Resources (real and personal property) owned solely by any individual in the household who is receiving SSI are excluded from the F&C individual's eligibility determination.

When property is owned jointly by an SSI recipient and an F&C applicant/recipient, only the share of the property owned by the F&C individual is considered available.

2. Trusts See M0620.140 to determine if a trust is excluded.

3. Sold or Transferred When any of the excluded resources are sold or transferred into cash or other liquidable assets, these items are countable resources and will be considered in relation to the applicable resource limit.

EXAMPLE #1: Ms. C sells her excluded vehicle and receives \$500 from the sale. This sum of money is a countable resource.

EXAMPLE #2: Ms. H. sells her excluded home. She receives net proceeds of \$20,000. This money is a countable resource and will be considered in relation to the applicable resource limit.

Manual Title Virginia Medical Assistance Eligibility	Chapter M06	Page Revision Date December 2003
Subchapter Subject M0630.000 F&C EXCLUDED RESOURCES	Page ending with M0630.105	Page 2

4. Life Estates

A life estate gives an individual certain property rights for the duration of his or her life, or someone else's life. A life estate in real property is not a countable resource.

C. Procedure

Sections M0630.110 through M0630.160 below contain the policy and procedures for determining whether a resource is partially or totally excluded in the resource eligibility determination.

- M0630.115 Home Property
- M0630.120 Personal Property
- M0630.125 *Savings or Other Investment Account for Purpose of Self-Sufficiency*
- M0630.130 Casualty Property Loss
- M0630.140 Government Program Benefits & Payments
- M0630.150 Education Assistance
- M0630.160 Indian Tribe Funds and Land.

M0630.105 REASONABLE EFFORT TO SELL FOR THE CATEGORICALLY NEEDY COVERED GROUPS

A. Policy

When ownership of real property alone, or in combination with other countable assets, causes the family/budget unit's resources to exceed the \$1000 resource limit, the applicant/recipient must be given the opportunity to receive Medicaid for the otherwise eligible family/budget unit for a maximum period of nine consecutive months while efforts are being made to dispose of the real property.

B. Determining Nine Month Period

The nine-month period runs for nine consecutive months regardless of whether Medicaid is received during all of that period. For an applicant, the period begins with the first month of entitlement. For a recipient, the nine-month period begins the month in which the recipient receives the property. When it is learned that the recipient owns property which has not been reported, the nine-month period begins in the month the unit became aware or had reason to become aware of the existence of the resource.

C. Procedures

1. Written Notice

Advise the applicant/recipient, in writing:

- of the amount by which the real property exceeds the resource limit;
- that if he/she is willing to make reasonable effort to sell the property he/she is eligible for Medicaid during the nine-month period, if otherwise eligible.

Manual Title Virginia Medical Assistance Eligibility	Chapter M06	Page Revision Date December 2003
Subchapter Subject M0630.000 F&C EXCLUDED RESOURCES	Page ending with M0630.115	Page 3

- that the disposition of the property will be evaluated as an asset transfer.

2. Good Faith Effort

The eligibility worker must:

- Explain to the applicant/recipient that agreeing to sell the property includes making good faith efforts to sell the property within a range of 10% of fair market value.
- Explore with the applicant/recipient ways to satisfy a good faith effort, which includes but is not limited to, listing the property with a real estate company, advertising in various ways, etc. Document discussion.
- Advise that failure to make good faith efforts to sell will result in ineligibility.
- Verify the good faith efforts to dispose of the property during the third and sixth months of the disposal period. Document the case record.

3. Notification of Contract

Advise the applicant/recipient to report to the agency no later than the next working day after a contract to sell the property is made.

4. Failure to Sell

If the property has not been sold in the nine-month period, the individual and family is no longer eligible in an F&C CN covered group. The family remains ineligible until the property has been disposed of or until such time as the property does not preclude eligibility.

D. One-Time Exclusion

This exclusion of property is a one-time per resource, limited exclusion. If the individual reapplies in an F&C or CN covered group and still owns the property, the property cannot be excluded under the reasonable effort to sell provision.

M0630.110 REASONABLE EFFORT TO SELL FOR THE MEDICALLY NEEDY

See policy and procedures in M1130.140

M0630.115 HOME PROPERTY

A. Policy

For all F&C classifications, the home in which the applicant/recipient lives and its contents are excluded.

If income is received from the use of the property or buildings on it, evaluate the income as earned or unearned income according to M07.

B. Definitions

1. Home

The home means the house, lot, and all contiguous property. It also means any buildings, in addition to the house, which are situated on the property.

Manual Title Virginia Medical Assistance Eligibility	Chapter M06	Page Revision Date December 2003
Subchapter Subject M0630.000 F&C EXCLUDED RESOURCES	Page ending with M0630.120	Page 4

2. Contiguous Property

Contiguous property means the land, and improvements which are not separated from the house lot by land owned by others. Streams and public rights of way which run through the property and separate it from the home will not affect the property's contiguity.

3. Other Shelter as Home Property

If the family/budget unit is using a vehicle, a boat, a camper, or another type of shelter as a home, this shelter is an excluded resource. Ownership of this resource does not affect eligibility for the period of time the family/budget unit lives in it. The month the family/budget unit moves to a house or apartment, the vehicle, boat, camper, or other shelter that the family/budget unit owns becomes an available resource and must be evaluated per M0640.

M0630.120 PERSONAL PROPERTY

A. Motor Vehicle

1. All Groups Other Than Medically Needy (MN)

For F&C covered groups other than MN, one motor vehicle with an equity value of \$1,500 or less is excluded.

2. MN

For the MN covered groups, one vehicle of any value is excluded.

B. Income-producing Farm or Business Equipment

For all classifications, income producing farming and business equipment is excluded. If farm or business equipment is not producing income, it is countable personal property.

C. Tools and Equipment

For all classifications, the following are excluded:

- tools and equipment belonging to a temporarily disabled member of the family/budget unit during the period of disability;
- tools and equipment belonging to an unemployed parent when such tools and equipment have been and will continue to be used for employment.

D. Life Insurance

1. All Groups Other Than MN

For F&C covered groups other than MN, the cash value of any life insurance policy owned by the individual or his/her spouse is counted.

2. MN

For MN covered groups, all life insurance policies on a person under age 21 years are excluded.

Manual Title Virginia Medical Assistance Eligibility	Chapter M06	Page Revision Date July 2021
Subchapter Subject M0630.000 F&C EXCLUDED RESOURCES	Page ending with M0630.121	Page 5

Any life, retirement, or other related types of insurance policies with face values totaling \$1500 or less on any one person 21 years old and over are excluded. When the face values of such policies of any one person exceed \$1500, the cash surrender value of the policies is counted as a resource.

E. Burial Plots

- 1. All Groups Other Than MN** For F&C covered groups other than MN, one burial plot per member of the family/budget unit is excluded.
- 2. MN** All burial plots are excluded for MN.

- F. EITC Refunds or Advance Payments** For all classifications, Earned Income Tax Credit refunds and advance payments are excluded as resources in the month following the month of receipt. Any portion of the refund or advance payment retained after the month following the month of receipt is a countable resource.

- G. Bona Fide Loans** For all classifications, all bona fide loans are excluded, regardless of the intended use. See M0640.800.

- H. COVID-19 Relief Payments** *COVID-19 relief payments provided under federal law* are not counted as income and are **not** counted as resources for **12 months following the month** of receipt. Interest earned on the payments is countable as income for individuals subject to a resource test per M0610.001.

M0630.121 BURIAL ARRANGEMENTS

A. All Groups Other Than MN

1. Bona Fide Funeral Agreement

A bona fide funeral agreement covering a family/budget unit member with a maximum equity value of \$1500 per individual is excluded. A bona fide funeral agreement is a formal agreement for funeral and burial expenses, such as a revocable burial contract, burial trust, or another funeral arrangement (generally with a licensed funeral director). Passbook bank accounts, or simple “set asides” of savings for funeral expenses, and cash surrender values of life insurance policies are not bona fide funeral agreements and **are not** excluded resources.

NOTE: Funds in excess of the \$1500 burial limit per individual are counted against the resource limit. See section M0640.500.

- 2. Irrevocable Burial Contracts** Irrevocable burial contracts, regardless of value, are not counted as resources since they cannot be converted to cash by the individual.

B. MN

Burial funds are excluded from resources up to a maximum of \$3,500 per individual. From August 1, 1994 on, in order for resources to be disregarded under the burial funds exclusion, they must be in the

Manual Title Virginia Medical Assistance Eligibility	Chapter M06	Page Revision Date July 2020
Subchapter Subject M0630.000 F&C EXCLUDED RESOURCES	Page ending with M0630.125	Page 6

following forms:

- irrevocable burial trusts established on or after August 11, 1993;
- revocable burial trusts;
- revocable burial contracts; other revocable burial arrangements (including the value of certain installment sales contracts for burial spaces);
- cash;
- financial accounts (e.g., savings or checking accounts);
- other financial instruments with a definite cash value (e.g., stocks, bonds, certificate of deposit, life insurance policies, etc.).

Use the ABD policy and procedures in M1130.410 and M1130.420 for MN F&C groups.

M0630.125 SAVINGS OR OTHER INVESTMENT ACCOUNT FOR THE PURPOSE OF SELF-SUFFICIENCY

A. Policy

For all covered groups that have resource requirements, up to \$5,000 of principal and interest in one savings or other investment account for the purpose of self-sufficiency, is excluded. Investment accounts may include but are not limited to, mutual funds, money market accounts and stock ownership.

Any excess principal and/or interest over the \$5,000 limit is a countable resource.

B. Requirements

1. Must Be Kept Separate

The funds on deposit in such an account cannot be commingled with funds intended for another use.

2. More Than One Account

If the family unit has more than one savings account established for self-sufficiency, the family unit must specify which account is the excluded resource.

3. Withdrawals

Self-sufficiency expenditures may include expenses related to securing and maintaining employment, education, home purchase, vehicle purchase, starting a business or other purposes reasonably determined to promote self-sufficiency. If any amount is withdrawn from the account for any purpose other than self-sufficiency, any portion of the amount determined to be misused will be treated as a countable resource in the month following the month withdrawn, if it is retained.

C. Notification

The eligibility worker must explain the policy in this section to the applicant/recipient who has one of these accounts.

D. Documentation

When a savings or investment account established for the purpose of self-sufficiency is first reported or discovered, the agency must verify the amount in the account and obtain a written statement from the applicant/recipient which includes the purpose of the account. The balance must be verified at application and redetermination.

Manual Title Virginia Medical Assistance Eligibility	Chapter M06	Page Revision Date July 2002
Subchapter Subject M0630.000 F&C EXCLUDED RESOURCES	Page ending with M0630.126	Page 7

M0630.126 WALKER V. BAYER SETTLEMENT PAYMENTS

A. Policy

Section 4735 of the Balanced Budget Act of 1997 (P.L. 105-33) states that payments described in this subsection from the settlement of the Susan Walker v. Bayer Corp., et.al., class action lawsuit are NOT counted as resources in determining eligibility for Medicaid. Payments described in this subsection are:

1. payments made from any fund established pursuant to a class settlement in the case of Susan Walker v. Bayer Corp., et.al., 96-C-5024 (N.D.III.); and
2. payments made pursuant to a release of all claims in a case that is entered into in lieu of the class settlement of Walker v. Bayer Corp., et.al., and that is signed by all affected parties on or before the later of

X December 31, 1997, or

X the date that is 270 days after the date on which such release is first sent to the persons to whom the payment is to be made.

To be excluded as a resource, the Walker v. Bayer funds cannot be commingled with other funds.

The interest earned on these funds is NOT excluded.

B. Development & Documentation

Information received by claimants in this lawsuit shows that claimants can choose to receive the payment in one of three ways - in a lump sum, a structured settlement, or a special needs trust. Regardless of which form the individual chooses, the payment(s) are excluded if the requirements in subsection A above are met AND the payments are held in a separate account or financial instrument. To be excluded as a resource, the Walker v. Bayer funds cannot be commingled with other funds.

1. Verification

Verify the source of the funds from a letter from the individual=s attorney or a copy of the check which identifies the payor as a Walker v. Bayer settlement account. Verify by deposit records that all the funds deposited in the account or financial instrument were from the Walker v. Bayer settlement.

2. Count the Interest Earned

Exclude only the Walker v. Bayer payment amounts that were deposited. Any interest earned on these funds must be evaluated as unearned income in the month of receipt and as a resource thereafter.

Manual Title Virginia Medical Assistance Eligibility	Chapter M06	Page Revision Date January 2010
Subchapter Subject M0630.000 F&C EXCLUDED RESOURCES	Page ending with M0630.140	Page 8

M0630.130 CASUALTY PROPERTY LOSS PAYMENTS

A. Policy

For all classifications, cash and in-kind items received for the repair or replacement of lost, damaged, or stolen resources may be excluded for up to 12 months.

In situations involving casualty property loss payments for the repair or replacement of damaged/lost resources, such payments will not be considered resources if the recipient:

- initiates action to repair or replace the resource prior to or within 30 calendar days after the receipt of the payment; AND
- expends the payment for such repair or replacement within 12 months after receipt; AND
- keeps the payment separate from other resources.

NOTE: If the payment is not kept separately from other resources, the lump sum policy in M0730.800 applies.

B. Development and Documentation

Verification of initiation of action to repair or replace the resource, expending the payment within 12 months, and the use of the payment must be documented in the record.

M0630.140 GOVERNMENT PROGRAM BENEFITS & PAYMENTS

A. Policy

For all classifications, certain government benefits and payments are excluded resources.

B. Excluded Benefits and Payments

1. **SNAP**
The value of the food coupons under the *Supplemental Nutrition Assistance Program (SNAP) (formerly Food Stamps)* is excluded.
2. **USDA Commodities**
The value of foods donated under the U.S.D.A. Commodity Distribution Program is excluded.
3. **Child Nutrition Act**
The value of supplemental food assistance received under the Child Nutrition Act of 1966 is excluded. This includes all school meal programs, the Women, Infants and Children (WIC) Program and the Child Care Food Program.
4. **Relocation Assistance**
Any payment received under Title II of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 is excluded.
5. **Older Americans Act**
Any benefits received under Title VII, Nutrition Program for the Elderly, of the Older Americans Act of 1965, as amended, is excluded.

Manual Title Virginia Medical Assistance Eligibility	Chapter M06	Page Revision Date July 2000
Subchapter Subject M0630.000 F&C EXCLUDED RESOURCES	Page ending with M0630.115	Page 8a

- 6. Domestic Volunteer Service Act**

Payments to VISTA volunteers under Title I, when the monetary value of such payments is less than minimum wage as determined by the director of the Action Office, and payments for services or reimbursement for out-of-pocket expenses made to individual volunteers serving as foster grandparents, senior health aides, or senior companions, and to persons serving in the Service Corps of Retired Executives (SCORE) and Active Corps of Executives (ACE) and other programs pursuant to Titles II and III, of Public Law 93-113, the Domestic Volunteer Service Act of 1973 are excluded.

The worker must contact the Action Office at the following address or telephone number when VISTA payments are reported: Action Office, 400 N. 8th Street, Richmond, Virginia 23219, (804) 771-2197.
- 7. Support Disregards**

Disregarded support payments, if retained following the month of receipt, are excluded resources. See M0730.
- 8. Disaster Relief**

Federal major disaster and emergency assistance provided under the Disaster Relief and Emergency Assistance Amendments of 1988 and disaster assistance provided by state and local governments, and disaster assistance organizations (Public Law 100-707) are excluded.
- 9. Payments to Japanese Ancestry & Aleuts**

Payments received by individuals of Japanese ancestry under the Civil Liberties Act of 1988, and by Aleuts under the Aleutian and Pribilof Islands Restitution Act (Public Law 100-383) are excluded.
- 10. Agent Orange**

Any payment received from the Agent Orange Settlement Fund or any other fund established in response to the Agent Orange product liability litigation is excluded. To verify whether a payment is an Agent Orange payment, use documents in the individual's possession. If the individual cannot provide verification or the situation is unclear, write to the Agent Orange Veteran Payment Program, P. O. Box 110, Hartford, CT 06304, Attention: Agent Orange Verification. Include in the request the veteran's name and social security number. If a survivor of the qualifying veteran was paid, also provide the survivor's name and social security number.
- 11. Radiation Exposure Compensation**

Payments received by individuals under the Radiation Exposure Compensation Act (Public Law 101-426) are excluded.
- 12. Certain HUD Funds**

Funds in an escrow account established under the Family Self-Sufficiency Program of the Department of Housing and Urban Development are excluded.
- 13. Victims of Nazi Persecution**

Payments received by victims of Nazi persecution under Public Law 103-286 are excluded.

Manual Title Virginia Medical Assistance Eligibility	Chapter M06	Page Revision Date September 1997
Subchapter Subject M0630.000 F&C EXCLUDED RESOURCES	Page ending with M0630.150	Page 9

M0630.150 EDUCATION ASSISTANCE

A. Policy

For all classifications, certain types of education assistance payments are excluded resources.

B. Excluded Education Assistance

1. Programs Administered By U.S. Secretary of Education

Any grant or loan to any undergraduate student for educational purposes made or insured under any program administered by the U.S. Secretary of Education is excluded. Programs that are administered by the U.S. Secretary of Education are:

- Pell Grants,
- Supplemental Educational Opportunity Grant,
- Perkins Loan,
- Guaranteed Student Loans (including the Virginia Education Loans),
- PLUS Loans,
- Congressional Teachers Scholarship Program,
- College Scholarship Assistance Program,
- Virginia Transfer Grant Program.

2. Programs Under Title IV of Higher Education Act

Student financial assistance received under Title IV of the Higher Education Act is excluded. Assistance excluded under this provision, whether awarded to an undergraduate or graduate student, includes but is not limited to:

- Pell Grants,
- Supplemental Educational Opportunity Grants,
- State Student Incentive Grants,
- Federal College Work-Study Programs,
- Perkins Loans (formerly National Direct Student Loans), and
- Guaranteed Student Loans (including PLUS loans and Supplemental Loans for Students).

3. Student Assistance Under Public Law 101-392

Student financial assistance received under the Carl D. Perkins Vocational and Applied Technology Education Act made available for attendance costs (Public Law 101-392) is excluded. Attendance costs are defined below:

- a. tuition and fees normally assessed a student carrying the same academic workload as determined by the institution, including costs for rental or purchase of any equipment, materials, or supplies required of all students in the same course of study; and
- b. an allowance for books, supplies, transportation, dependent care, and miscellaneous personal expenses for a student attending the institution on at least a half-time basis, as determined by the institution.

Manual Title Virginia Medical Assistance Eligibility	Chapter M06	Page Revision Date September 1997
Subchapter Subject M0630.000 F&C EXCLUDED RESOURCES	Page ending with M0630.160	Page 10

4. BIA Student Assistance

Student financial assistance received under Bureau of Indian Affairs (BIA) Student Programs is excluded.

C. Documentation

Obtain verification of the source of the education assistance through the school.

M0630.160 INDIAN TRIBE FUNDS & LAND

A. Policy

For all classifications, certain types of Indian funds and land are excluded resources.

B. Excluded Funds and Land

1. Funds and Distributions

Any funds distributed to, or held in trust for, members of any Indian tribe under the following Public Laws are excluded:

- Public Law 92-254,
- Public Law 93-134,
- Public Law 94-540,
- Public Law 98-64,
- Public Law 98-123,
- Public Law 98-124,
- Public Law 97-458.

Additionally, interest and investment income accrued on such funds while held in trust, and purchases made with such interest and investment income, are excluded.

2. Native Corporations Under P.L. 100-241

The following types of distributions received from a Native Corporation under the Alaska Native Claims Settlement Act (Public Law 100-241) are excluded:

- a. Cash (including cash dividends on stock received from a Native Corporation) to the extent that the total received does not exceed \$2,000 per individual per calendar year;
- b. Stock (including stock issued or distributed by a Native Corporation as a dividend or distribution on stock);
- c. A partnership interest;
- d. Land or an interest in land (including land or an interest in land received from a Native Corporation as a dividend or distribution on stock); and
- e. An interest in a settlement trust.

Virginia Medical Assistance Eligibility	M06	September 1997
Subchapter Subject	Page ending with	Page
M0630.000 F&C EXCLUDED RESOURCES	M0630.160	11

3. Maine Indians & Micmacs Settlement Acts

Funds received pursuant to the
 - Maine Indians Claims Settlement Act of 1980 (Public Law 96-420), and
 - Aroostook Band of Micmacs Settlement Act (Public Law 102-171)

are excluded.

4. Income From Submarginal Land

Income derived from certain submarginal land of the United States which is held in trust for certain Indian tribes (Public Law 94-114) is excluded.

- C. Documentation

Obtain verification of the type of Indian funds or land through the tribal council.

M0640.000 TYPES OF COUNTABLE RESOURCES

M0640.001 OVERVIEW

A. Introduction

This subchapter contains instructions for the development of resources whose value ordinarily will count toward the resource limit. Use these instructions only after you have made certain that the asset:

- is a resource, based on instructions in the M0610 subchapter; and
- is not an excluded resource, based on instructions in the M0630 subchapter.

NOTE: A trust may or may not be a countable resource. See M0620.140 to determine if a trust established by a will is a countable resource. For all other trusts, see M1120.201.

NOTE: If the individual is a married institutionalized individual, go to *subchapter M1480*.

REAL PROPERTY

M0640.100 NON-HOME REAL PROPERTY

A. Definition

Non-home real property consists of land and buildings or immovable objects that are attached permanently to the land and that do not meet the definition of a home (house, lot and all contiguous property).

B. Development and Documentation of Fair Market Value

Ascertain fair market value from the Commissioner of Revenue or Assessor's Office.

C. Ownership/Value

1. Sole Owner

If the applicant/recipient is the sole owner, the property is a resource.

If the applicant/recipient is the sole owner with a living spouse, the property is a resource to the applicant/recipient regardless of the spouse's willingness to join in a deed to sell the property.

2. Tenants by Entirety

If the property is held by the applicant/recipient and spouse as tenants by the entirety with survivorship at common law:

- When the applicant/recipient and spouse are living together, the property is a resource regardless of the spouse's consent to sell.

When the spouses live apart, if the separated spouse gives consent to dispose of property, one-half of the total value of the property is

Manual Title Virginia Medical Assistance Eligibility	Chapter M06	Page Revision Date January 1998
Subchapter Subject M0640.000 TYPES OF COUNTABLE RESOURCES	Page ending with M0640.100	Page 2

considered a resource to the applicant/recipient. If the separated spouse does NOT give consent to dispose of property, **none** of the property is counted as a resource to the applicant/recipient.

- b. If a decree of divorce has been entered, one-half of the total value of the property is considered a resource.
- c. If the spouse is deceased, *the* total value of the property is a resource.
- d. If the non-applicant spouse cannot be located by the agency or if that spouse refuses to cooperate with the agency, he/she is considered unwilling to give his/her consent to sell the property or to join in a deed and the property is not a resource. Document the case record regarding the separated spouse's refusal to cooperate or the agency's inability to locate the applicant's spouse.

3. Tenants in Common

If the applicant/recipient jointly owns property with other than a spouse as tenants in common or joint tenants, the applicant/recipient's prorata share is considered a resource. If the joint owner refuses to join in a deed to sell the property, the estimated cost of a partition suit is deducted to determine the value of the applicant/recipient's share of the property.

- a. If documentation does not clearly establish the applicant/recipient's interest in jointly owned property, the eligibility worker must contact the Medicaid Regional Specialist to obtain an interpretation from the Assistant Attorney General.
- b. Deduct the estimated cost of partitioning and attorney fees in establishing equity value when the joint owner refuses to join in a deed to sell:
 - Estimated costs associated with a partition suit must be based on prevailing community charges as determined by a local person having knowledge of the cost of such an action.
 - Shared partition costs (commissioner's fees, survey costs, etc.) are deducted from the whole property's value.
 - The individual's attorney's fees is deducted from the individual's prorata share of the property value that remains after deducting shared partition costs (and liens, if any).
 - After calculation, add the remainder to other countable resources and compare the total to the resource limit for the FU/BU classification.

Manual Title Virginia Medical Assistance Eligibility	Chapter M06	Page Revision Date August 2000
Subchapter Subject M0640.000 TYPES OF COUNTABLE RESOURCES	Page ending with M0640.210	Page 3

M0640.110 OTHER PROPERTY RIGHTS

A. Life Estates

A life estate gives an individual certain property rights for the duration of his or her life, or someone else's life. A life estate in real property is not a countable resource.

B. Remainder Interest

When property is owned by one party and a second party has a life estate or "life rights" to the property, then the first party has a remainder interest in the property. A remainder interest is a countable resource.

To determine the fair market value of a remainder interest in property, multiply the tax assessed value of the property by the fraction corresponding to the age of the individual who has life rights. M0640, Appendix 1 contains the table used to perform this calculation.

M0640.200 CASH AND LIQUID ASSETS

A. Policy

Cash held by the individual is a resource. Money in a financial institution is a liquid asset and is a resource. Absent evidence to the contrary, assume that the person designated as the owner on the account owns all the funds in the account and has the right to withdraw funds from the account.

Interest received is treated as income in the month received and as a resource thereafter.

B. Development and Documentation

1. Document, in addition to the balances themselves:
 - the name and address of the financial institution;
 - the account number(s); and
 - the exact account designation.
2. Cash and liquid assets can be verified by documentation in the individual's possession such as: savings account book, bank statement, trust agreements, or affidavits.
3. Other acceptable verification includes bank clearances, credit union records, savings and loan records, and joint bank account statements.
4. When it is necessary to request account information from a financial institution, have the individual sign an authorization for the release of the information.

M0640.210 JOINT BANK ACCOUNTS

A. Policy

If it is established that an applicant/recipient, owns a joint bank account with another party and that all funds in the joint account belong to the other party, and the account was established for the convenience of the other party, it is not considered a resource to the applicant/recipient.

If it cannot be established that all the funds in the account belong to the other party, the applicant/recipient's pro rata share will be considered the

Manual Title Virginia Medical Assistance Eligibility	Chapter M06	Page Revision Date December 2003
Subchapter Subject M0640.000 TYPES OF COUNTABLE RESOURCES	Page ending with M0640.300	Page 4

resource.

B. Development and Documentation

Verify ownership of the account by a statement from both parties. If a statement of ownership cannot be obtained from both parties, assume the applicant/recipient owns a pro rata share of the account. For example, if the account is owned by the applicant/recipient and one other individual, the applicant/recipient's pro rata share is one-half.

M0640.300 MOTOR VEHICLES

A. Policy

1. *All Groups Other Than MN*

One motor vehicle owned by the FU/BU with an equity value up to \$1500 is excluded. Any equity value above \$1500, is a countable resource.

2. MN

One vehicle of any value is an excluded resource.

3. Used as a Home

For all classifications, if the FU/BU is using a vehicle, a boat, or a camper as a home, the vehicle is excluded for the period of time the FU/BU lives in it. The month that the FU/BU moves to a house or an apartment the vehicle, boat, camper, or other shelter that the FU/BU owns becomes an available resource and must be evaluated.

B. Value of Vehicle

1. Listed in NADA

The average trade-in value listed in the current NADA Official Used Car Guide or the average trade-in value listed in the NADA Official Older Used Car Guide is considered the fair market value from which encumbrances must be deducted in order to establish equity value. Do not adjust the average trade-in value amount specified in the NADA guides for optional features, special equipment for the handicapped, mileage, condition, operability, etc.

2. Not Listed in NADA

If a motor vehicle is not listed in the current NADA Guide, or the Older Used Car Guide, the applicant/recipient may provide a statement of assessment for tax purposes which contains the value of the vehicle in order to establish the equity value.

3. Licensed Dealer's Statement

If a tax assessment statement is not available, the applicant/recipient can provide a licensed dealer's statement in order to establish the value. It is the responsibility of the applicant/recipient to obtain this licensed dealer's statement, but if assistance is requested, the EW must contact a licensed dealer to ascertain the fair market value.

4. Re-verification of Equity Value

Re-verify the motor vehicle's equity value only at redetermination unless the recipient reports a change in equity value before redetermination.

Manual Title Virginia Medical Assistance Eligibility	Chapter M06	Page Revision Date December 2003
Subchapter Subject M0640.000 TYPES OF COUNTABLE RESOURCES	Page ending with M0640.400	Page 5

5. Disputed Value

If the applicant/recipient disagrees with the fair market value established by the agency, the individual must be given an opportunity to dispute the finding and provide the agency with a written statement of the value from a disinterested knowledgeable source, such as a used car dealer.

If eligibility is established using the revised vehicle value, the value of the vehicle is not re-verified at subsequent redeterminations.

C. Ownership of Two or More Vehicles

1. All Groups Other Than MN

If two or more motor vehicles are owned by the family/budget unit, the motor vehicle with the highest equity value will be excluded up to \$1,500.

The equity value in all other vehicles plus the equity value above \$1500 in the excluded vehicle is combined and is counted as a resource.

2. MN

If more than one vehicle is owned, the individual's vehicle with the highest equity value is excluded. The equity value in all other vehicles must be counted. The value used for countable vehicles is the average trade-in value listed in NADA Guide. In the event the vehicle is not listed, the value assessed by the locality for tax purposes may be used.

D. Motor Vehicles Jointly Owned

If a motor vehicle is owned jointly by a member of the family/budget unit with any individual not in the family/budget unit, the agency must establish whether or not the non-member is willing to sell the vehicle(s). If the non-member is willing to sell, the family/budget unit member's prorata share of the equity is considered an available resource.

If it is established that the non-member is not willing to sell, then the vehicle(s) is not counted as a resource. The non-member's refusal to cooperate with the agency or the agency's inability to locate the non-member is considered his/her unwillingness to sell the property.

M0640.400 LIFE INSURANCE

A. Policy

1. All Groups Other Than MN

A life insurance policy is a resource if it generates a cash surrender value (CSV). Its value as a resource is the amount of the CSV.

All life insurance policies on a person under age 21 years are excluded.

2. MN

Any life, retirement, or other related types of insurance policies with face values totaling \$1,500 or less on any one person 21 years old and over are excluded. When the face values of such policies of any one person exceed \$1,500, the cash surrender value of the policies is counted as a resource.

Manual Title Virginia Medical Assistance Eligibility	Chapter M06	Page Revision Date December 2003
Subchapter Subject M0640.000 TYPES OF COUNTABLE RESOURCES	Page ending with M0640.510	Page 6

B. Development and Documentation

Verify the availability and the cash value of the policy by contacting the insurance companies or examining the policies of all family/budget unit members.

M0640.500 BURIAL ARRANGEMENTS FOR COVERED GROUPS *OTHER THAN MN*

A. Policy

A bona fide funeral agreement covering a family/budget unit member, with a maximum equity value of \$1,500 per individual is excluded. A bona fide funeral arrangement is a formal agreement for funeral and burial expenses, such as a revocable burial contract, burial trust, or another funeral arrangement (generally with a licensed funeral director). Passbook bank accounts, or simple “set asides” of savings for funeral expenses, and cash surrender values of life insurance policies are not bona fide funeral agreements and **are not** excluded resources. See M0630.121.

B. Excess Funds

Funds in excess of the \$1,500 per individual limit are counted against the resource limit.

C. Irrevocable Contracts

Irrevocable burial contracts, regardless of value, are not counted as resources since they cannot be converted to cash by the individual.

M0640.510 BURIAL ARRANGEMENTS FOR THE MEDICALLY NEEDY

A. Policy

Burial funds are excluded from resources up to a maximum of \$3,500 per individual. From August 1, 1994 on, in order for resources to be disregarded under the burial funds exclusion, they must be in the following forms:

- irrevocable burial trusts established on or after August 11, 1993;
- revocable burial trusts;
- revocable burial contracts;
- other revocable burial arrangements (including the value of certain installment sales contracts for burial spaces);
- cash;
- financial accounts (e.g., savings or checking accounts);
- other financial instruments with a definite cash value (e.g., stocks, bonds, certificate of deposit, life insurance policies, etc.).

B. Reduction of Burial Exclusion

The maximum exclusion amount is reduced by:

1. the face value of life insurance on the life of an individual owned by the individual or his spouse if the cash surrender value of such policies has been excluded from countable resources; and
2. the amount of any other revocable or irrevocable trust, contract, or other arrangement specifically designated for the purpose of meeting

Manual Title Virginia Medical Assistance Eligibility	Chapter M06	Page Revision Date September 1997
Subchapter Subject M0640.000 TYPES OF COUNTABLE RESOURCES	Page ending with M0640.900	Page 7

the individual's or his spouse's burial expenses when that trust, contract, or other arrangement is not a countable resource.

C. Development and Documentation

Use the ABD policy and procedures in M1130.410 and M1130.420 for medically needy F&C groups.

M0640.800 LOANS

A. Policy

All bona fide loans are excluded, regardless of intended use. Loans may be from a private individual as well as from a commercial institution.

If the applicant/recipient indicates that money received was a loan, but does not provide required verification, the money is unearned income in the month received and a resource thereafter.

B. Bona Fide

A simple statement signed by both parties indicating that the payment is a loan and must be repaid is sufficient to verify that a loan is bona fide.

C. Used to Purchase Resource

Any resource purchased with the proceeds of a loan must be evaluated to determine if the resource is totally or partially excluded according to resource policy in M06.

D. Encumbrance Against Property

When a bona fide loan is used to purchase real or personal property, the amount owed on the loan is considered an encumbrance against the property if the loan is a recorded deed of trust or lien against the property.

E. Interest on Proceeds of a Loan

Interest earned on the proceeds of a loan while held in a savings account, checking account, or other financial instrument are counted as unearned income in the month received and a resource thereafter.

M0640.900 CHILD SUPPORT REFUNDS

A. Policy

Refunds of child support from the Division of Child Support Enforcement (DCSE) identified as closed case refunds are countable resources.

M0710.000 GENERAL-- F&C INCOME RULES

M0710.001 OVERVIEW

A. Introduction

Medicaid is a needs based program. Two financial criteria, income and resources, are used to determine if a person is in need and is financially eligible for Medicaid. The income eligibility policies that are used for the eligibility determination depend on the individual's covered group, as well as the date of the determination.

1. Use Policies in Chapter M07

The policies in **chapter M07** apply for **all initial applications, reapplications and renewals** for the Families & Children (F&C) Medically Needy (MN) covered groups.

2. Use Policies in Chapter M04 and Chapter M07 as Directed

The income policies, procedures and income limits for Modified Adjusted Gross Income (MAGI) contained in **chapter M04** apply to the covered groups listed below.

- CN Pregnant Women & Newborn Children;
- Plan First;
- CN Child Under Age 19 (FAMIS Plus);
- Low Income Families With Children (LIFC);
- Individuals Under Age 21;
- Special Medical Needs Adoption Assistance;
- *MAGI Adults.*

The income types and verification procedures in chapter M07 are used with MAGI methodology as directed in chapter M04.

3. Use Other Policies

Income eligibility for Medicaid is not determined by the local DSS for the following F&C covered groups:

- IV-E Foster Care or IV-E Adoption Assistance Recipients;
- BCCPTA.

See subchapter M0330 for additional information about these covered groups.

B. Use of Family Units/Budget Units

Family Units (FUs) are formed to establish whose income and resources are counted in determining financial eligibility. If financial eligibility does not exist at the family unit level for one or more persons for whom Medicaid was requested and if budget unit (BU) rules permit, form BUs.

Financial eligibility is determined at the BU level for each person for whom Medicaid was requested and who was financially ineligible in the FU determination. Eligibility is not determined for an individual who was found eligible in the FU determination.

See M0520 for F&C Family Unit/Budget Unit (FU/BU) policy and procedures.

Manual Title Virginia Medical Assistance Eligibility	Chapter M07	Page Revision Date October 2022
Subchapter Subject M0710.000 GENERAL - F & C INCOME RULES	Page ending with M0710.001	Page 2

**C. Individual
Income Eligibility**

An individual's income eligibility is based on the total countable income available to his/her FU/BU.

Each source of income received by a member of the FU/BU is evaluated and the countable amount determined based on the policy in this chapter. The countable amount of each FU/BU member's income is added to the countable amount of the income of all other FU/BU members. That total is used to determine the income eligibility of each individual within that FU/BU. The FU/BU's total countable income is compared to the income limit that is applicable to the individual's classification and to the number of members in the FU/BU.

D. Policy Principles

1. Income

Everything an individual owns and all monies received are assets. Monies received are income in the month received when the monies are cash or its equivalent.

Income may be either earned or unearned. See M0720 for earned income and M0730 for unearned income.

2. Verification

The agency must utilize online systems information verifications that are available to the agency without requiring verifications from the individual or family. The agency has ready access to Supplemental Nutrition Assistance Program (SNAP) and TANF records, some wage and payment information, and information from SSA through SVES or SOLQ-I. Verification of income from available sources, including the VEC, may be used if it is dated within the previous 12 months. See M0130.001.B.3.

For all case actions effective *August 26, 2022*, if the income attested to by the applicant is within 20% of the income information obtained from electronic sources OR both sources are below the applicable income limit, no additional verification is required. If the reasonable compatibility standard is not met, request verification of income and allow a minimum of 10 days to return.

All income other than Workforce Investment Act and the earned income of a student under age 19 must be verified. When attempts to verify income are unsuccessful because the person or organization who is to provide the information cannot be located or refuses to provide the information to both the applicant/recipient and the eligibility worker, a third party statement, a collateral contact, or as a last resort, the applicant's/recipient's written statement can be used as verification and to determine the amount of income to be counted.

Failure of the applicant/enrollee to verify his income results in the agency's inability to determine Medicaid eligibility and the applicant/enrollee's Medicaid coverage must be denied or canceled.

Manual Title Virginia Medical Assistance Eligibility	Chapter M07	Page Revision Date October 2019
Subchapter Subject M0710.000 GENERAL - F & C INCOME RULES	Page ending with M0710.001	Page 2a

3. **Converted Income**

For the ongoing evaluation period, all income received more frequently than monthly must be converted to a monthly amount.

- Weekly income is multiplied by 4.3
- Bi-weekly income is multiplied by 2.15
- Semi-monthly income is multiplied by 2.

4. **Available Income**

Retroactive period –available income is the gross income actually received in each month in the retroactive period.

Application month and ongoing months - available income is the average gross monthly income that is expected to be received in the application and ongoing months. The applicant's actual gross income received in the application month may be used to determine eligibility for that month if the application is processed after the month has passed and the person is eligible only when using the actual gross income for the month.

Manual Title Virginia Medical Assistance Eligibility	Chapter M07	Page Revision Date May 2015
Subchapter Subject M0710.000 GENERAL - F & C INCOME RULES	Page ending with M0710.002	Page 3

- 5. MN - Ongoing 6 Month Income Determination Period**
MN income eligibility for the ongoing period is based on income that is anticipated to be received within the six month period beginning with the month of application.
- 6. MN - Retro 3 Month Income Determination Period**
MN income eligibility for the retroactive period is based on income that was actually received in the three-month period immediately prior to the month of application.
- 7. Countable Income**
Assets that meet the definition of income minus the exclusions allowed by policy are countable income. Only countable income is used to determine income eligibility. See M0720 Earned Income, M0730 Unearned Income.
- 8. Whose Income is Counted**
The total countable income of all FU members is used in determining the income eligibility of each FU member. The total countable income of all BU members is used in determining the income eligibility of each BU member.
- 9. Income Eligibility**
If the total amount of the FU/BU's countable income is equal to or less than the income limit for the evaluation period, income eligibility exists.
- 10. Excluded Income**
State and federal policy require that certain types of income or portions of income be excluded (not counted) when determining income eligibility. See:
 - Earned Income Exclusions, M0720.500
 - Unearned Exclusions, M0730.099
- 11. F&C MN Income Limits**
Refer to M0710, Appendix 2 for the grouping of localities and M0710, Appendix 2 for the MN income limits.

M0710.002 NET COUNTABLE INCOME

- A. Policy Principle**
Income is
 - cash, or
 - its equivalent unless specifically listed in M0715 as not being income.
- B. Available Income**
Retroactive period –available income is the gross income actually received in each month in the retroactive period.

Application month and ongoing months - available income is the average gross monthly income that is expected to be received in the application and ongoing months. The applicant's actual gross income received in the application month may be used to determine eligibility for that month if the application is processed after the month has passed and the person is eligible only when using the actual gross income for the month.
- C. Net Countable Income**
Net countable income is all money, both earned and unearned, which is available to the members of the FU/BU, after portions specifically excluded and all amounts that are not income are subtracted.

Manual Title Virginia Medical Assistance Eligibility	Chapter M07	Page Revision Date May 2015
Subchapter Subject M0710.000 GENERAL - F & C INCOME RULES	Page ending with M0710.015	Page 4

M0710.003 INCOME EXCLUSIONS

- A. Introduction** Medicaid eligibility is based on countable income. See M0710.003 for the definition of countable income. In determining countable income, apply any income exclusions. Some exclusions totally negate the amount of income received. Other exclusions reduce the amount counted.
- B. Definition** Excluded income is an amount which is income but does not count in determining eligibility.
- C. Policy Principles** Some Federal laws other than the Social Security Act prohibit counting some income for Medicaid purposes. Section 402(a) of the Social Security Act provides for several income exclusions in determining countable income for Medicaid purposes.
- D. References**
- Earned income exclusions, M0720.500
 - Unearned income exclusions, M0730.099

M0710.010 RELATIONSHIP OF INCOME TO RESOURCES

- A. Policy** In general, anything received in a month from any source is income to an individual, subject to the definition of income in M0710.003.
- Anything the individual owns in the month under consideration is subject to the resource counting rules.
- An item received in the current month is income for the current month only. If held by the individual until the following month, that item is subject to resource counting rules.
- B. References**
- Definition of Resources, M0610.100
 - Conversion or sale of a resource, M0715.200
 - Casualty property loss payments, M0630.650
 - Lump sums, M0730.800

M0710.015 TYPES OF INCOME

- A. Policy Principle** Income is either earned or unearned, and different rules apply to each.
- B. Types of Income**
- 1. Earned Income** Earned income consists of the following types of payments:
- wages;
 - salaries, and/or commissions;
 - profits from self employment; or
 - severance pay.

Manual Title Virginia Medical Assistance Eligibility	Chapter M07	Page Revision Date May 2015
Subchapter Subject M0710.000 GENERAL - F & C INCOME RULES	Page ending with M0710.030	Page 5

2. Unearned Income

Unearned income is all income that is not earned income. Some types of unearned income are:

- annuities, pensions, and other periodic payments;
- alimony and support payments;
- dividends, interest, and royalties; or
- rental income.

C. References

- Definition of net countable income, M0710.003
- Earned income, M0720
- Unearned income, M0730

M0710.030 WHEN INCOME IS COUNTED

A. Policy Principles

For applications and reapplications, the income generally to be counted is the income verified for the calendar month prior to the month of application or the most current equivalent (last 4 weekly pays, last 2 bi-weekly pays, or last 2 semi-monthly pays). When evaluating eligibility for a retroactive period, income eligibility is based on income actually received each month in the retroactive period.

For redeterminations, the income generally to be counted is the income verified for the month prior to the month of review or the most current equivalent.

B. Exceptions to Policy Principles

1. Payment Not Received In Normal Month of Receipt

FU/BUs receiving monthly or semi-monthly income, such as state or federal payments or semi-monthly pay checks, must have the income assigned to the normal month of receipt even if mailing cycles, weekends or holidays cause the income to be received in a different month.

EXAMPLE #1: The applicant/enrollee is employed and is paid semi-monthly on the first and sixteenth. Because June 1 falls on a Saturday, the client receives her June 1 paycheck on May 31. The Eligibility Worker will count the paycheck received May 31 as income for June.

2. Self-Employment or Sale of Livestock or Cash Crops

Profit from the sale of livestock or cash crops, such as tobacco or peanuts, or from small businesses, such as but not limited to, vending stands, home beauty shops, or small grocery stores, is prorated on an annual basis or over the number of months in which the income is earned, whichever is appropriate. Federal farm subsidies are prorated over a 12-month period.

3. Contract Income

Guaranteed salaries paid under contract are prorated over the period of the contract even though the employee elects to receive such payments in fewer months than are covered by the contract. When the contract earnings will be received monthly over a period longer than that of the contract, the earnings must be prorated over the number of months the income is anticipated to be received.

- C. References** Contract Income, M0720.400
 Income From Self-Employment, M0720.200

M0710.610 HOW TO ESTIMATE INCOME

- A. Monthly Estimates** Generally, estimate future income on a monthly basis.
- 1. Anticipated Income** Anticipated income means any income the applicant/*enrollee* and local agency are reasonably certain will be received during the month. If the amount of income or when it will be received is uncertain, that portion of the FU/BU's income that is uncertain is not counted by the local agency. Reasonably certain means that the following information is known:
- who the income will come from,
 - in what month it will be received, and
 - how much it will be (i.e. rate, frequency and payment cycle).
- 2. Fluctuating Income** When income fluctuates, use the previous months' actual receipts that will provide an accurate indication of the individual's future income situation. Average the income received in no more than 3 previous months.

See section M0720.155 C. for detailed information about how to estimate fluctuating income.
- 3. Income Expected Less Than Once a Month** Determine the specific month(s) of receipt and use the amount(s) estimated for the appropriate month(s).
- 4. Converting to Monthly Totals** To estimate income for an income evaluation, convert to a monthly amount:
- multiply average weekly amounts by 4.3
 - multiply average bi-weekly amounts by 2.15
 - multiply semi-monthly amounts by 2
- 5. Partial Month Income** If the FU/BU will receive less than a full month's pay, use the exact monthly figure or an average per pay period times the actual number of pays. If actual income is used in any given calculation, adjust the figure for subsequent months if the actual income varies.
- 6. Examples** **a. Example #2**
 The client's weekly pay for the prior month was:
 \$220.40
 \$175.80
 \$210.00
 \$195.70
 To obtain a monthly amount, multiply the weekly average by 4.3.
 \$801.90 (total of the pay stubs) divided by 4 (number of paystubs) equals
 \$200.48 (average weekly amount).
 \$200.48 x 4.3 = \$862.06 monthly income.

Manual Title Virginia Medical Assistance Eligibility	Chapter M07	Page Revision Date October 2019
Subchapter Subject M0710.000 GENERAL - F & C INCOME RULES	Page ending with M0710.610	Page 7

b. Example #3

The client's bi-weekly pay for the prior month was:

\$185.40
\$209.50
 \$394.90

To obtain a monthly amount, multiply the bi-weekly average by 2.15.
 \$394.90 (total of the pay stubs) divided by 2 (number of pay stubs) equals
 \$197.45 (average bi-weekly amount).

$\$197.45 \times 2.15 = \424.52 monthly income.

c. Example #4

The client's salary is \$100 weekly. The pay does not vary. The client is paid every Friday.

The client reports she quit her job and will receive a final weekly paycheck on September 3. Since the client was paid for a partial month, the exact amount of \$100 will be used.

d. Example #5

The client reports she quit her job on June 21. She will receive a final bi-weekly paycheck on July 5.

For the month of May, she received \$190 and \$220 for a total of \$410. This amount is divided by two (the number of pays) to determine the average bi-weekly pay of \$205. \$205 is used to calculate her July Medicaid eligibility.

B. Procedure**1. When a Change Occurs**

An anticipated change in income occurs when you expect an individual's income to start, to stop, or to come in at a different rate in the future.

2. How to Develop a Change

When you anticipate an increase in income, use only that income which the individual is reasonably certain he will receive.

3. Handling Changes in Income

When a change in income occurs, redetermine Medicaid eligibility. Countable earned and unearned income is only verified if *reasonable compatibility does not exist* or the applicant's attested income or *information from electronic data sources* is over the income limit for his covered group.

Manual Title Virginia Medical Assistance Eligibility	Chapter M07	Page Revision Date October 2019
Subchapter Subject M0710.000 GENERAL - F & C INCOME RULES	Page ending with M0710.700	Page 8

C. Documentation

1. What the File Must Contain

If income verification is requested and received, verify and document the case record regarding the rate and frequency of payment (i.e., weekly, biweekly, semi-monthly, monthly, etc.) and the payment cycle (i.e., on what day the client is paid).

The case record must be documented to reflect the method used to arrive at the anticipated income.

2. Who May Provide an Estimate

Estimates of income may come from the applicant/recipient, employer, or representative.

M0710.700 DETERMINING ELIGIBILITY BASED ON INCOME

A. Locality Grouping and Income Limits

The countable income, allowing income exclusions when appropriate, is compared to the MN income limits for the locality and the number of members in the FU/BU.

Refer to M0710, Appendix 2 for the grouping of localities and M0710, Appendix 5 for the MN income limits.

B. Gross Income

Total gross income includes all gross earned income, other than Workforce Investment Act income and/or other earned income of a child under age 19 who is a student. It also includes the unearned income of all FU/BU members and any income deemed available to the family/budget unit.

C. Excluded Income

The following income is excluded when income is compared to *MN* limits:

1. Unearned Income

All unearned income specifically excluded per M0730.099;

2. Earned Income

Earned income is excluded in the following order:

- standard work exclusion of the first \$90 of gross earned income for each employed member of the assistance unit whose income;
- is not otherwise exempt per M0720.520;
- child care/incapacitated adult care exclusion per M0720.540.

D. Income Eligibility

If the *verified* countable income (gross income minus above exclusions) is equal to or less than the appropriate MN limit for the locality and the number of members in the FU/BU, the FU/BU is income eligible as MN. If the countable income is in excess of the MN limit, the FU/BU must be placed on an MN spenddown following policy in chapter M13.

M0715.000 F&C WHAT IS NOT INCOME

M0715.001 WHAT IS NOT INCOME – GENERAL

A. Introduction Some items that an individual receives are not income because they do not meet the definition of income and others are income but are excluded by federal statutes. In making income determinations, the eligibility worker must distinguish between an asset that is income and an asset which is not income by definition. This subchapter addresses assets that are not income based on federal regulation. Only those items specifically listed in the law and regulations can be excluded from income.

B. Policy An asset received is not income if it is not cash or its equivalent (check, money order, etc.), or if it is listed in this subchapter.

C. Documentation Document the receipt of the assets described in this subchapter and the determination that they are not income.

Verification is limited to establishing that the monies received is of a type listed in this chapter. Verify that the money received is one of the types listed in this subchapter.

M0715.050 REIMBURSEMENTS

A. Policy Reimbursements for out-of-pocket expenses are not countable income.

B. Types of Reimbursements Reimbursements may include, but are not limited to, reimbursement for travel expenses such as mileage, reimbursement to the caretaker of a child for child care expenses, reimbursement for expenses incurred as a volunteer, etc.

Payments from the Department of Medical Assistance Services to Medicaid registered drivers or Health Insurance Premium Payment (HIPP) participants are reimbursements and are not income.

M0715.100 MEDICAID RECIPIENT IS AN AGENT

A. Policy Money which belongs to another person that is handled by an individual to pay expenses for that other person is not income to the individual. The individual is acting as an agent for the other person.

B. Examples **Example 1:**

Mrs. C. has a son in the Army who is currently in Germany. He sends her \$250 a month to pay his car payment of \$250 a month. None of this money is considered as income to Mrs. C.

Manual Title Virginia Medical Assistance Eligibility	Chapter M07	Page Revision Date July 2021
Subchapter Subject M0715 F&C WHAT IS NOT INCOME	Page ending with M0715.350	Page 2

Example 2:

Mrs. X and Mrs. Y live in the same house which is rented in Mrs. X's name. Mrs. Y gives Mrs. X an established portion of the rent each month. Mrs. X adds her portion to Mrs. Y's and pays the rent. Since this is a shared shelter arrangement, Mrs. Y's portion of the rent is not considered income to Mrs. X.

M0715.200 CONVERSION OR SALE OF A RESOURCE

- A. Policy** Receipts from the sale, exchange, or replacement of a resource are not income, but are resources that have changed their form.-
- This includes cash or in-kind items that are provided to replace or repair a resource that has been lost, damaged, or stolen.

- B. Reference** Casualty Property Loss Payments, M0630.130

M0715.270 INCOME TAX REFUNDS AND CREDITS

- A. Policy** Income tax refunds and Earned Income Tax Credit payments are not income.
- COVID-19 relief payments provided under federal law* are considered tax credits and are not countable as income.
- B. Tax Withheld Prior to Application Date** Income tax refunds are not income even if the income from which the tax was withheld or paid was received in a period prior to application for Medicaid.

M0715.350 PROCEEDS OF A LOAN

- A. Introduction** Proceeds of a loan are not income to the borrower because of the borrower's obligation to repay the loan.
- B. Policy**
- 1. Loan Not Income** All bona fide loans, regardless of the intended use, are not income. This includes loans obtained for any purpose and may be from a private individual as well as from a commercial institution.
 - 2. Documentation of Bona Fide** A simple statement signed by both parties indicating that the payment is a loan and must be repaid is sufficient to verify that a loan is bona fide.
 - 3. Loan Not Bona Fide** If an individual indicates that money received was a loan but does not provide required verification, the money is to be treated as unearned income in the month received and a resource thereafter.
 - 4. Interest on a Loan** Interest earned on the proceeds of a loan while held in a savings account, checking account, or other financial instrument will be counted as unearned income in the month received and as a resource thereafter.

Manual Title Virginia Medical Assistance Eligibility	Chapter M07	Page Revision Date February 2009
Subchapter Subject M0715 F&C WHAT IS NOT INCOME	Page ending with M0715.400	Page 3

M0715.370 SHELTER CONTRIBUTED

A. Policy Shelter that is contributed is not income.

*This includes payments for shelter made to a third party (such as a rental agency) in lieu of or in addition to child support, whether the payments made in lieu of support are based on a court order, establishment or pending establishment of a child support order, or a mutual voluntary agreement between the Medicaid applicant/enrollee. The payments made to a third party are **not** counted as income.*

B. Reference Child/Spousal Support, M0730.400

M0715.400 BILLS PAID BY A THIRD PARTY

A. Policy Bills paid by a third party directly to a supplier are not income.

EXAMPLE: A church pays the electric company for Mrs. Brown's electric bill. This is a bill paid by a third party and is not income to Mrs. Brown.

B. Exceptions Pending establishment of a child support obligation by the District Child Support Enforcement Office, payments made to a third party such as a day care provider or telephone company in lieu of or in addition to child support, whether based on a court order or a mutual voluntary agreement between the Medicaid applicant/recipient and the responsible person, are NOT counted as unearned income to the family/budget unit.

Third party payments made by an absent spouse in lieu of spousal support are treated as contributions in kind and are not counted as income.

C. Reference Child/Spousal Support, M0730.400

M0720.000 F & C EARNED INCOME

M0720.001 OVERVIEW

A. Introduction This subchapter provides policy and procedures for identifying and counting earned income.

B. Policy

1. What Constitutes Earned Income

Earned income may be received in cash and consists of:

- wages
- profit from self-employment

The source and amount of all earned income other than Workforce Investment Act and student income must be verified.

2. Earned Income Exclusions

Earned income exclusions are subtracted from the gross monthly income in determining eligibility.

C. References

- Income From Self-Employment, M0720.200
- Income From Real Property, M0720.250
- Income From Room and Board, M0720.260
- Income From Day Care, M0720.270
- Income From Small Businesses/Cash Crops, M0720.280

- Earned Income Exclusions, M0720.500

M0720.100 WAGES -- GENERAL

A. Definition Wages are what an individual receives (before deductions; not "take home" pay) for working as someone else's employee.

NOTE: Under certain circumstances, services performed as an employee are deemed to be self-employment rather than wages.

B. Policy

1. Kinds of Wages

Wages may take the form of:

- contract earnings
- commissions

Manual Title Virginia Medical Assistance Eligibility	Chapter M07	Page Revision Date October 2019
Subchapter Subject M0720.000 F & C EARNED INCOME	Page ending with M0720.155	Page 2

- pay for jury duty
- severance pay
- tips
- vacation pay
- sick pay from employer or employer-obtained insurance

2. When to Count

Wages are calculated on a monthly basis and counted at the earliest of the following points:

- when they are received, or
- when they are credited to the individual's account, or
- when they are set aside for the individual's use.

Absent evidence to the contrary, if FICA (*Federal Insurance Contributions Act*) taxes have been deducted from an item, assume it meets the definition of wages. Failure to deduct FICA taxes does not mean the income is not wages.

EXAMPLE #1:

Mrs. Green is employed by Mr. Brown who owns a small business. Mr. Brown does not deduct FICA taxes from Mrs. Green's income. Mrs. Green's income from Mr. Brown is wages.

C. Verification

For all case actions effective October 26, 2019, if the income attested to by the applicant is within 10% of the income information obtained from electronic sources OR both sources are below the applicable income limit, no additional verification is required. If the reasonable compatibility standard is not met, request verification of income and allow a minimum of 10 days to return.

Verify wages, salaries, and commissions by pay stubs, pay envelopes, a written statement from the employer, or by the eligibility worker's verbal contact with the employer.

When attempts to verify income are unsuccessful because the person or organization who is to provide the information cannot be located or refuses to provide the information to both the applicant/enrollee and the eligibility worker, a third party statement, a collateral contact, or as a last resort, the applicant's/enrollee's written statement can be used as verification and to determine the amount of income to be counted.

Verify tips by a weekly record of the tips prepared by the employed individual.

M0720.105 INCOME FROM A CORPORATION

If a person has incorporated a self-employment enterprise either alone or with other persons and draws a salary from the business, the wages drawn are regular earned income, not self-employment income.

M0720.110 HOW TO COUNT INCOME IN THE RETROACTIVE PERIOD

When evaluating eligibility for a retroactive period, income eligibility is based on income actually received each month in the retroactive period.

Manual Title Virginia Medical Assistance Eligibility	Chapter M07	Page Revision Date July 2007
Subchapter Subject M0720.000 F & C EARNED INCOME	Page ending with M0720.155	Page 3

M0720.155 HOW TO ESTIMATE EARNED INCOME

A. General

Ongoing income eligibility is determined based on the income that is anticipated (expected) to be received within the ongoing evaluation

period. Income received in prior periods is normally used to determine the amount of income to be received in future periods. Income from the prior period is averaged and converted to a monthly amount. That monthly amount is the amount anticipated to be received in each of the future months. New sources of income may be anticipated based on statements from the provider of the income.

B. Definitions

1. Anticipated Income

Income the individual and local agency are reasonably certain will be received during the ongoing evaluation period.

To be reasonably certain that income will be received determine:

- from whom the income will come (the provider);
- in what month and on what dates it will be received (frequency and payment cycle); and
- how much will be received (rate).

2. Fluctuating Income

Fluctuating income is earned income where neither the pay rate nor hours per pay period can reasonably be predicted.

3. Income Base Period

A period of time immediately prior to the month of application/redetermination that includes one or more pay periods, or the most current equivalent {last four (4) weekly pays, last two (2) bi-weekly pays, or last two (2) semi-monthly pays} that is used to provide an accurate reflection of the individual's future income.

4. Monthly Income

Monthly income is the income received in an average month. An average month contains 4.3 weeks. Income received more frequently than monthly is converted to a monthly figure.

5. Pay Period

The time period covered by each pay check. A pay period may be weekly, bi-weekly, semi-monthly, monthly or longer periods of time.

C. Income Base Period Used

Use the income received in the month prior to the month of application/redetermination unless the prior month's income cannot by itself provide an accurate indication of anticipated income.

When the prior month's income cannot by itself provide an accurate indication of anticipated income, the applicant/recipient must be given the opportunity to provide the additional information necessary to accurately project monthly income.

Manual Title Virginia Medical Assistance Eligibility	Chapter M07	Page Revision Date January 2019
Subchapter Subject M0720.000 F & C EARNED INCOME	Page ending with M0720.155	Page 4

1. Migrant Or Seasonal Farm Worker

For migrant and seasonal farm workers, the income that is reasonably certain to be received is based on formal or informal commitments for work for an individual, rather than on the general availability of work in an area.

Base income on the information obtained from the income provider and worker judgment to determine the anticipated income. Document the file to support how the income was anticipated.

Do not base income on an assumption of optimum weather or field conditions.

2. New or Increased Income

Use the income provider's statement of the beginning date, the amount of income to be received, the frequency of receipt, and the day/dates of receipt to establish the amount to be received per pay period.

3. Terminated Income

Income from a terminated source must only be verified when it was received in a month in which eligibility is being determined *and information is not compatible with information obtained from online system searches.*

4. Decreased Income

Use the income provider's statement of the beginning date of the decrease, the new amount of income to be received, the frequency of receipt, and the day/date of receipt to establish the amount to be received per income period. Document the file to support how the income was anticipated.

If an employed person anticipates a decrease in wages that is not supported by evidence in the file, the individual must be advised to report the decrease as soon as it can be verified. Adjustments are made when the decrease is verified.

D. Calculating Estimated Monthly Income

1. Average Income

When the income amounts received in each pay period are different, calculate the average amount of income received per pay period. Average the income received in no more than 3 previous months. Use the income received in previous months that provide an accurate indication of the individual's future income situation.

2. Full Month's Income

Total the income received in the Income Base Period. Divide that total by the number of pay periods in the Income Base Period. The result is the average amount to be received per pay period. If the income is received more frequently than monthly, convert the income to a monthly amount.

To convert to monthly income:

- Multiply weekly wage by 4.3; or
- multiply biweekly wage by 2.15; or
- multiply semi-monthly wage by 2.

Manual Title Virginia Medical Assistance Eligibility	Chapter M07	Page Revision Date September 2010
Subchapter Subject M0720.000 F & C EARNED INCOME	Page ending with M0720.200	Page 5

3. Partial Month's Income

If less than a full month's income is received or expected to be received, do not convert to a monthly amount. Use the actual amount received or expected to be received.

C. References

How to Estimate Income, M0710.610.

M0720.200 INCOME FROM SELF-EMPLOYMENT

A. Policy

Self-employment is defined as a business, farming or commercial enterprise in which the individual receives income earned by his own efforts, including his active engagement in management of property. Self-employment situations include, but are not limited to, domestic workers, day care providers including babysitters, and chore and companion service providers.

1. Salary from Corporation Owned by Individual

If an individual has incorporated a self-employment enterprise either alone or with other persons (such as an "S-corporation"), and he draws a salary from the corporation, the wages drawn are regular earned income; they are NOT self-employment income. In such a situation, the person's share of the net worth of the corporation is a resource.

2. Profit is Earned Income

The profit from self-employment is earned income. Profit from self-employment means the total income received, less the allowable business expenses directly related to producing the goods or services and without which the goods or services could not be produced.

B. Business Expenses

1. Definition

Business expenses are expenses directly related to producing goods or services and without which the goods or services could not be produced. *Allowable business expenses* include, but *are* not limited to, the following:

2. Expenses Included

- payments on the interest of the purchase price of, and loans for, capital assets such as real property, equipment, machinery and other goods of a durable nature;
- insurance premiums;
- legal fees;
- expenses for routine maintenance and repairs;
- advertising costs;
- bookkeeping costs.

3. Expenses NOT Included

Business expenses **do not** include:

- payments on the principal of the purchase price of, and loans for, capital assets, such as real property, equipment, machinery and other goods of a durable nature;

Manual Title Virginia Medical Assistance Eligibility	Chapter M07	Page Revision Date October 2013
Subchapter Subject M0720.000 F & C EARNED INCOME	Page ending with M0720.260	Page 6

- the principal and interest on loans for capital improvements of real property;
- net losses from previous periods;
- federal, state, and local taxes;
- personal expenses, entertainment expenses, and personal transportation;
- money set aside for retirement purposes.
- Depreciation of equipment, machinery, or other capital investments necessary to the self-employment enterprise *are NOT deducted in calculating profit from self-employment for covered groups that are NOT subject to Modified Adjusted Gross Income (MAGI) methodology.*

Depreciation and capital losses ARE deducted when calculating profit from self-employment for covered groups subject to MAGI methodology (see Chapter M04).

C. Verification

Verification is proof of the gross amount of income received and proof of the business related expenses. Verify gross income received and business related expenses by self-employment bookkeeping or tax records.

M0720.250 INCOME FROM REAL PROPERTY

A. Policy

Income from real property is self-employment income when the individual is actively engaged in the managerial responsibilities of the income producing property. Income from real property is determined on a monthly basis except farm subsidies which are prorated over a twelve month period.

If the individual is not actively involved in the management responsibilities, income received from the property is unearned income. See M0730.505.

When income from real property is received, the case record must clearly indicate the basis for determining whether or not the individual produces it by his own efforts or whether or not he is actively engaged in management.

B. Profit

Deduct the amount of the allowable business expenses from the gross income to determine profit from real property.

M0720.260 INCOME FROM ROOM AND BOARD

A. Policy

Income from room and board is earned income from self-employment if the applicant/recipient produces the income from his own efforts or carries managerial responsibilities. Income from room and board is determined on a monthly basis.

B. Procedure

1. Verify Gross Income

Verify gross income received by self-employment bookkeeping records.

Manual Title Virginia Medical Assistance Eligibility	Chapter M07	Page Revision Date September 1997
Subchapter Subject M0720.000 F & C EARNED INCOME	Page ending with M0720.270	Page 7

- 2. Determine Profit** Deduct the amount of allowable business expense from the gross income to determine profit from self-employment.
- a. Board** The profit from board is the monthly gross income from boarders less the food allowance for one person living in a group (at 100%) per boarder. See Table I, M0710, Appendix 4.
- b. Room Rent** The profit from room rent is 65% of the monthly gross income received if heat is furnished, 75% of gross income if heat is not furnished.
- c. Room and Board** The profit from room and board is determined by
- subtracting from the monthly gross income the food allowance for one person living in a group (at 100%) per boarder as in a. above, and
 - multiplying the balance by 65% if heat is furnished, 75% if heat is not furnished.

M0720.270 INCOME FROM DAY CARE

- A. Policy** Income from day care is earned income from self-employment. Income from day care is determined on a monthly basis.

B. Procedure

1. Day Care Provided in Applicant/Recipient's Home

a. Day Care for Children Living in the Home

Verify gross monthly income by self-employment bookkeeping or tax records or a written statement from the person who pays the day care costs.

Do not deduct the cost of meals and snacks. Profit is sixty-five percent of the gross income from day care.

b. Day Care for Children Not Living in the Home

Verify gross monthly income by self-employment bookkeeping or tax records or a written statement from the person who pays the day care costs.

From the average monthly gross income received, deduct the cost of meals and snacks that are provided for the children. Sixty-five percent of the balance is profit from day care.

The cost of meals is determined using the following method:

- Determine the number of days in the month in which meals were provided for each child and the number of meals provided to each child per day;

Manual Title Virginia Medical Assistance Eligibility	Chapter M07	Page Revision Date September 1997
Subchapter Subject M0720.000 F & C EARNED INCOME	Page ending with M0720.280	Page 8

- Add to obtain the total number of meals provided for all children during the period;
- Multiply the total meals provided by 40 cents per meal to obtain monthly cost of meals provided for all children.

The cost of snacks is determined using the following method:

- Determine the number of days in the month in which snacks were provided for each child and the number of snacks provided to each child per day;
- Add to obtain the total number of snacks provided for all children during the period;

Multiply the total snacks provided by 20 cents per snack to obtain monthly cost of snacks provided for all children.

**2. Day Care
Provided
Outside
Applicant/Re-
cipient's Home**

Verify gross monthly income by self-employment bookkeeping or tax records or a written statement from the person who pays the day care costs.

Do not deduct the cost of meals and snacks. Profit is sixty-five percent of the gross income from day care.

M0720.280 INCOME FROM SMALL BUSINESSES/CASH CROPS

A. Policy

Income from the sale of live stock or cash crops, such as tobacco or peanuts, or from federal farm subsidies, or from small businesses, such as but not limited to, vending stands, home beauty shops, or small grocery stores, is earned income from self-employment.

B. Profit

To determine the profit from small businesses and cash crops, deduct the applicable business expenses directly related to producing the goods or services and without which the goods or services could not be produced.

**1. Sale of
Livestock or
Cash Crops**

The profit is prorated on an annual basis or over the number of months in which it was earned.

**2. Small
Businesses**

The profit is prorated on an annual basis or over the number of months in which it was earned.

**3. Federal Farm
Subsidies**

The profit is prorated on an annual basis.

C. Verification

Verify gross monthly income by self-employment bookkeeping or tax records.

Manual Title Virginia Medical Assistance Eligibility	Chapter M07	Page Revision Date April 2006
Subchapter Subject M0720.000 F & C EARNED INCOME	Page ending with M0720.290	Page 8a

M0720.290 INCOME FROM UNIFORMED SERVICES (MILITARY)

A. Introduction

Compensation to most members of the Uniformed Services takes the form of earned income and other payments.

If the military employee receives a payment that is not listed below, contact a Medical Assistance Program Consultant for guidance.

B. Earned Income

The following forms of compensation are countable earned income:

- *basic pay,*
- *subsistence allowance (food)*
- *housing allowance (when not also listed as a deduction on the pay stub),*
- *special and incentive pay, such as bonuses, flight pay, overseas pay.*

C. Payments That Are Not Income

The following payments are not countable income for Medicaid eligibility:

- *clothing*
- *hostile fire pay (combat pay).*

*Any amount of income received by or made available to household members for deployment or service in a combat zone will not count as income for Medicaid purposes **unless the payment was received before the deployment**. This exclusion includes items such as, but not limited to, incentive pay for hazardous duty, special pay for imminent duty or hostile fire duty.*

D. Verification

The Leave and Earnings statement (LES) is the pay slip issued to military service members. The LES shows all types of compensation and deductions.

Manual Title Virginia Medical Assistance Eligibility	Chapter M07	Page Revision Date September 1997
Subchapter Subject M0720.000 F & C EARNED INCOME	Page ending with M0720.400	Page 9

M0720.400 CONTRACT INCOME

A. Introduction

Contract income and guaranteed wages are based on a contract between the employer and the employee. The contract specifies the period it covers and the rate and frequency of the pay the employee will receive.

B. Definitions

1. Contract Earnings

Contract earnings are wages guaranteed by a contract. This does not include work on an hourly or piecework basis or self-employment.

2. Guaranteed Wage

A guaranteed wage is one which is received by an individual employed on a contractual basis and paid over a period of time.

C. Policy

Wages received by an individual employed on a contractual basis are prorated over the period of time the contract covers even though the employee elects to receive such payments in **fewer** months than are covered by the contract.

If the income is received in **more** months than is covered by the contract, the income is prorated over the period the income is anticipated to be received.

EXAMPLES:

1. Months Wages Received = Months In Contract

A contract period is November 1997 - June 1998 (8 months). The individual chooses to receive the contract income over the eight-month period. The contract amount is divided by eight months to arrive at the monthly gross income.

2. Months Wages Received = Fewer Months Than In Contract

A contract period is September 1997 - August 1998 (12 months). The individual chooses to receive the contract income over a 10-month period. The contract amount is divided by the contract period of 12 months to arrive at the monthly gross income.

3. Months Wages Received = More Months Than Covered By Contract

A contract period is September 1997 - January 1998 (5 months). The individual receives the contract income monthly over a 12-month period. The contract amount is divided by the number of months in which the income is received (12).

D. Verification

Verify the terms of the contract by obtaining a copy of the contract.

Manual Title Virginia Medical Assistance Eligibility	Chapter M07	Page Revision Date October 2013
Subchapter Subject M0720.000 F & C EARNED INCOME	Page ending with M0720.500	Page 10

E. Procedures

1. **Additional Earnings**
When a contract specifies a set amount to be paid over the contract period, plus additional monies of an uncertain amount if additional work is available and done, only the base contract is prorated. Additional monies earned over and above the base contract are counted as income when they can be anticipated.
2. **Decrease in Income**
When a contract calls for no pay for those days not worked, the salary for those days should not be counted if it can be anticipated at the time that the prospective determination is made that certain days will be missed. Otherwise, the income calculation is to be based on the maximum salary. If the individual informs the local agency that days are missed, recalculate the countable monthly amount for the entire contract period.
3. **Changes in Contract**
If the contract amount changes during the contract period, recalculate the amount of income to be received in the contract period. To determine the new monthly income amount, divide the contract amount by the number of months in the original contract period.

EXAMPLES:

a. Decrease In Pay

A school bus driver's 12 month contract states that she will receive \$1,250 for the year, but that she will not be paid for days the school is closed or for days she is sick. When she applies on February 10, she has already missed three days for snow in the contract year and she was sick for two days. The contract reads that \$10 will be deducted for each day not worked. The case is approved with income of \$100 per month.
 $(\$1,250 - 50 = \$1,200 \quad \$1,200 / 12 = \$100)$

b. Increase In Pay

On December 11, the school bus driver reports that her 12 month contract which began September 1 will be increased by 10% effective January 1. The income that is anticipated to be received is recalculated for the months in the original contract period using the increased figure of \$110 ($\$1,200 \times 10\% = \120 ; $\$1,200 + 120 = \$1,320$; $\$1,320 / 12 = \110).
 \$110 will be the contract income for January - August.

EARNED INCOME EXCLUSIONS

M0720.500 GENERAL

- A. Policy**
The source and amount of all earned income other than Workforce Investment Act and student income must be verified; however, not all earned income counts when determining Medicaid eligibility. Federal and state laws and regulations require that certain types of earned income be totally or partially excluded when determining Medicaid eligibility.

*For covered groups subject to MAGI methodology, the earned income disregards contained in M0720 do **NOT** apply. Follow the policies and procedures in Chapter M04 for determining eligibility for MAGI covered groups.*

Manual Title Virginia Medical Assistance Eligibility	Chapter M07	Page Revision Date April 2020
Subchapter Subject M0720.000 F & C EARNED INCOME	Page ending with M0720.280	Page 11

B. Earned Income Exclusions

Income exclusions are applied, in the following order, to earned income for family unit/budget unit (FU/BU) members as appropriate to the covered group.

See Families and Children (F&C) Earned Income Exclusions chart in Appendix 1 to this subchapter.

1. Workforce Investment Act Income

Earned income of an eligible child (less than 18, or 18 and expected to graduate prior to 19) derived from employment in a program under the Workforce Investment Act is excluded. Do not request verification of income from employment under the Workforce Investment Act.

2. Student Income

Earned income of an individual under age 19 who is a student is excluded. Do not request verification of student income.

For this exclusion, a student is any individual under age 19 who is attending any type or level of school, part-time or full-time. Do not verify school attendance; declaration of school attendance is sufficient.

3. 2020 Census Income

Income paid by the U.S. Census Bureau to temporary employees specifically hired for the 2020 census is NOT counted when determining eligibility for medical assistance for *F&C Medically Needy covered groups*.

4. Standard Work Exclusion

A standard work exclusion of the first \$90 of gross monthly earned income is excluded for each employed member of the FU/BU whose income is not otherwise exempt. See M0720.520.

5. Child Care/Incapacitated Adult Care Exclusion

Monthly anticipated child care expenses or incapacitated adult care expenses, up to the appropriate maximums, which are paid for by the caretaker-relative must be excluded. See M0720.540.

Manual Title Virginia Medical Assistance Eligibility	Chapter M07	Page Revision Date July 2006
Subchapter Subject M0720.000 F & C EARNED INCOME	Page ending with M0720.510	Page 12

**M0720.505 WORKFORCE INVESTMENT ACT INCOME
EXCLUSION**

A. Policy Earned income of any eligible child derived from employment under the Workforce Investment Act is excluded. Do not request verification of earnings under the Workforce Investment Act.

M0720.510 STUDENT EARNED INCOME EXCLUSION

A. Policy Earned income of *an individual* under age 19 who is a student is excluded. Do not verify school enrollment or request verification of student earned income.

For this exclusion, a student is any individual under age 19 who is attending any type or level of school, part-time or full-time. Declaration of school attendance is sufficient for the student earned income exclusion.

Manual Title Virginia Medical Assistance Eligibility	Chapter M07	Page Revision Date October 1016
Subchapter Subject M0720.000 F & C EARNED INCOME	Page ending with M0720.540	Page 13

M0720.520 STANDARD WORK EXCLUSION

- A. Policy** The first \$90 of gross earned income is excluded for each employed individual in the FU/BU whose income is not otherwise exempt regardless of when it is reported.
- B. Procedure** Apply this exclusion to the amount of earned income

M0720.540 CHILD CARE/INCAPACITATED ADULT CARE EXCLUSION

- A. Policy** Anticipated child or incapacitated adult care expenses paid or anticipated to be paid by the family/budget unit for children or incapacitated adults in the family unit, up to the appropriate maximums, must be excluded from earned income in determining Medicaid eligibility when the expenses are necessary because of employment or seeking employment.

When both parents are in the household, both parents must be employed or seeking employment to receive the child care/incapacitated adult care exclusion. The child care/incapacitated adult care exclusion is based on a parent's employment status.

When only one parent is employed and the other parent is not employed or seeking employment and is not able to care for the child(ren) or incapacitated adult, the dependent/incapacitated adult care expense exclusion may be granted when:

- 1) the paid child or incapacitated adult care is necessary, **and**
- 2) a physician provides a statement that the parent is disabled and unable to care for the child(ren) or incapacitated adult in question. The doctor's statement must also indicate the anticipated length of time that the parent will be unable to care for the child(ren) or incapacitated adult.

B. Definitions

- 1. Full-time Employment** Full-time employment means employed to work 30 hours or more per week on an on-going basis; or working, or expected to work 120 hours or more per month (for an individual working on a fluctuating basis).
- 2. Part-time Employment** Part-time employment means employed to work less than 30 hours per week on an on-going basis; or working or expected to work less than 120 hours per month (for an individual working on a fluctuating basis).
- 3. Not Employed Throughout a Month** Not employed throughout a month means an individual began or terminated employment within the month.

Manual Title Virginia Medical Assistance Eligibility	Chapter M07	Page Revision Date October 2016
Subchapter Subject M0720.000 F & C EARNED INCOME	Page ending with M0720.540	Page 14

C. Operating Principle

1. Verification

a. Incapacity

Incapacity of the adult who requires care must be supported by a professional determination. The medical examination for Medicaid and GR is used for this purpose, unless incapacity is established by receipt of Social Security Disability benefits.

b. Employment Status

An individual's employment status is verified by either an employer's statement of the number of hours employed to work, or actually worked or by pay stubs. For self-employed individuals, the agency is required to accept the client's statement concerning the number of hours worked, unless the agency has reason to question the validity of the statement.

c. Expenses

Verification of child/incapacitated adult care expenses is not required. Accept the parent/caretaker's declaration of the amount of the child/incapacitated adult care expense.

2. Amount of Exclusion

a. Full-time Employment

For full-time employment, deduct an amount equal to the anticipated cost, not to exceed \$175 per month, for care of each child, age 2 and older and/or incapacitated adult in the family unit. In the case of child care for a child under 2 years old, deduct the anticipated cost not to exceed \$200 per month.

b. Part-time Employment

For part-time employment, deduct an amount equal to the anticipated cost, not to exceed \$120 per month, for care of each child and/or incapacitated adult in the family unit.

c. Not Employed Throughout a Month

- 1) If an individual has worked, or is expected to work, 120 hours or more in that month, deduct an amount not to exceed the full-time exclusion.
- 2) If an individual has worked, or is expected to work, less than 120 hours in that month, deduct an amount not to exceed the part-time exclusion.

3. Conversion to Monthly Amount

If child care/incapacitated adult care is payable on a weekly or bi-weekly basis, the amount of the monthly expense may be calculated using the 4.3 (weekly), or 2.15 (bi-weekly), or 2 (semi-monthly) conversion factors.

GENERAL

M0730.001 INTRODUCTION TO UNEARNED INCOME

- A. Policy - General** Unearned income is all income received by members of the family/budget unit that is not earned income. Unearned income consists of:
- benefits, including public assistance benefits received from another state
 - royalties
 - child/spousal support
 - dividends and interest
 - some rental income
 - gifts
 - some home energy assistance
 - contributions
 - lump sums
- B. Policy - When to Count Unearned Income** Unearned income is counted as income in the earliest month it is:
- received by the individual;
 - credited to the individual's account; or
 - set aside for the individual's use.
- C. Available Income** Retroactive period –available income is the gross income actually received in each month in the retroactive period.
- Application month and ongoing months - available income is the average gross monthly income that is expected to be received in the application and ongoing months. The applicant's actual gross income received in the application month may be used if the application is processed after the month has passed and the person is eligible only when using the actual gross income for the month. For all case actions as of *October 26, 2019*, *attested income may be used if the requirements specified in M0730.001 E. are met.*
- D. Policy - What Amount of Unearned Income is Counted** The amount of unearned income received is counted as income.
- EXCEPTION: When the Medicare Part B premium is deducted from the Social Security or Railroad Retirement benefits, that amount must be added to the actual benefit being received.
- E. Verifications** *The agency must utilize online systems information verifications that are available to the agency without requiring verifications from the individual or family. For all case actions effective October 26, 2019, if the income attested to by the applicant is within 10% of the income information obtained from electronic sources OR both sources are below the applicable income limit, no additional verification is required.*
- If the reasonable compatibility standard is not met, request verification of income and allow a minimum of 10 days to return.*
- Verify the amount of the unearned income by an award letter or notice, a benefit payment check, or through contact with the source of the unearned income, unless the source of the unearned income is listed in M0730.099 B. Verification of unearned income that is totally excluded is not required.
- F. References**
- What is income, M0710.003
 What is not income, M0715.050
 When income is counted, M0710.030
 How to estimate income, M0710.610

Manual Title Virginia Medical Assistance Eligibility	Chapter M07	Page Revision Date January 2010
Subchapter Subject M0730.000 F&C UNEARNED INCOME	Page ending with M0730.099	Page 2

- B. Policy** Exclusions never reduce unearned income below zero. No unused unearned income exclusion may be applied to earned income.
- C. Procedure** First determine whether what is received is income. Next apply any appropriate exclusions of unearned income listed in this subchapter.
- D. Reference** What is not income, M0715.050

M0730.099 GUIDE TO EXCLUSIONS

- A. Introduction** The following provides a list of exclusions of unearned income:
- B. List of unearned income exclusions**
- 1. Home Produce** Home produce of the individual utilized for his/her family's own consumption is excluded.
 - 2. SNAP** *Supplemental Nutrition Assistance Program (SNAP)* (formerly *Food Stamps*) benefits are excluded.
 - 3. Commodities** The value of foods donated under the U.S.D.A. Commodity Distribution Program, including those furnished through school meal programs, is excluded.
 - 4. Federal Relocation Assistance** Any payment received under Title II of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 is excluded.
 - 5. Nutrition Program for the Elderly** Any benefits received under Title VII, Nutrition Program for the Elderly, of the Older Americans Act of 1965, as amended, are excluded.
 - 6. Grant or Loan Administered by U.S. Secretary of Education** Any grant or loan to any undergraduate student for educational purposes made or insured under any program administered by the U.S. Secretary of Education is excluded. Programs that are administered by the U.S. Secretary of Education include: Pell Grant, Supplemental Educational Opportunity Grant, Perkins Loan, Guaranteed Student Loan, including the Virginia Educational Loan, PLUS Loan, Congressional Teacher Scholarship Program, College Scholarship Assistance Program, and the Virginia Transfer Grant Program.
 - 7. College Work Study Programs** Any funds derived from the federal College Work Study Program or any other college work study programs are excluded.
 - 8. Educational Scholarships and Grants** All educational scholarships and grants are excluded.

Manual Title Virginia Medical Assistance Eligibility	Chapter M07	Page Revision Date January 2021
Subchapter Subject M0730.000 F&C UNEARNED INCOME	Page ending with M0730.009	Page 3

- 9. Vocational Rehabilitation Training Allowances**

Training allowances (transportation, books, required training expenses and motivational allowances) provided by Vocational Rehabilitation for persons participating in Vocational Rehabilitation Programs are excluded.

The exclusion is not applicable to the allowances provided by VR to the family of the participating individual.
- 10. SSI, TANF or Auxiliary Grant**

Any portion of an SSI, TANF and/or Auxiliary Grant payment is excluded. *This includes TANF Relative Support Maintenance payments.*

A VIEW Transitional Payment (VTP) is NOT TANF and is counted as unearned income.
- 11. VISTA Payments**

Payments to VISTA Volunteers under Title I, when the monetary value of such payments is less than minimum wage as determined by the Director of the action office, and payments for services of reimbursement for out-of-pocket expenses made to individual volunteers serving as foster grandparents, senior health aides, or senior companions, and to persons serving in the Service Corps of Retired Executives (SCORE) and Active Corps of Executives (ACE) and other programs pursuant to Titles II and III, of Public Law 93-113, the Domestic Volunteer Service Act of 1973 are excluded. The worker must contact the Action Office at the following address or telephone number when VISTA payments are reported; Action Office, 400 N. 8th Street, Richmond, Virginia 23219, (804) 771-2197.
- 12. VA Educational Allowances**

The Veterans Administration educational amount for the caretaker 18 or older is excluded when it is used specifically for educational purposes. Any additional money included in the benefit amount for dependents is counted as income to the individual for whom intended.
- 13. Foster Care/Adoption Assistance Payments**

Foster care or adoption assistance payments received by anyone in the assistance unit are excluded.
- 14. Job Corps Payments to Eligible Children**

Any unearned income received from Title IV, Part B (Job Corps) of the Job Training Partnership Act (JTPA) by an eligible child (less than 18 or 18 and expected to graduate by the end of the month in which he turns 19) is excluded as an incentive payment. However, any payment received by any other Job Corps participant or any payment made on behalf of the participant's eligible child(ren) is counted as income to the individual.
- 15. Fuel Assistance Program**

Any payment made under the Fuel Assistance Program is excluded.
- 16. Child Nutrition Act**

The value of supplemental food assistance received under the Child Nutrition Act of 1966 is excluded. This includes all school meal programs, the Women, Infants and Children (WIC) Program, the child care food program, and U.S.D.A. reimbursement payments to day care providers which are authorized by the National School Lunch Act.

Manual Title Virginia Medical Assistance Eligibility	Chapter M07	Page Revision Date January 2008
Subchapter Subject M0730.000 F&C UNEARNED INCOME	Page ending with M0730.009	Page 4

- 17. HUD Payments** HUD Section 8 and Section 23 payments are excluded.
- 18. JTPA Income to Eligible Children** Any unearned income received by an eligible child (less than 18 or 18 and expected to graduate by the end of the month in which he turns 19) under Title II, Parts A and B, and Title IV, Part A of the Job Training Partnership Act (JTPA) is excluded.
- 19. Certain Funds for Indian Tribes** Any funds distributed to, or held in trust for, members of any Indian tribe under Public Law 92-254, 93-134, 94-540, 98-64, 98-123, 98-124 or 97-458 are excluded. Additionally, interest and investment income accrued on such funds while held in trust, and purchases made with such interest and investment income are excluded.
- 20. Alaska Native Claims Settlement Act** The following of distributions received from a Native Corporation under the Alaska Native Claims Settlement Act (Public Law 100-241) are excluded:
- Cash (including cash dividends on stock received from a Native Corporation) to the extent that the total received does not exceed \$2,000 per individual per calendar year;
 - Stock (including stock issued or distributed by a Native Corporation as a dividend or distribution on stock);
 - A partnership interest;
 - Land or an interest in land (including land or an interest in land received from a Native Corporation as a dividend or distribution on stock); and
 - An interest in a settlement trust.
- 21. Income from Submarginal Land** Income derived from certain submarginal land of the United States which is held in trust for certain Indian tribes (Public Law 94-114) is excluded.
- 22. Child/Spousal Support Payments** The first \$50 of total child or child and spousal support payments received by the family/budget unit is excluded. The \$50 exclusion is only applicable to current child/spousal support payments received each month. (See M0730.400)
- 23. DCSE Payments of Excluded Support** Payments sent to the recipient by the State which are identified as excluded support are excluded. See M0730.400.
- 24. Disaster Relief** Federal major disaster and emergency assistance provided under the Disaster Relief and Emergency Assistance Amendments of 1988 and disaster assistance provided by state and local governments and disaster assistance organizations (Public Law 100-707) is excluded.

Manual Title Virginia Medical Assistance Eligibility	Chapter M07	Page Revision Date January 2008
Subchapter Subject M0730.000 F&C UNEARNED INCOME	Page ending with M0730.009	Page 5

- 25. Certain Payments to Japanese and Aleut** Payments received by individuals of Japanese ancestry under the Civil Liberties Act of 1988, and by Aleut under the Aleutian and Pribilof Islands Restitution Act (Public Law 100-383) are excluded.
- 26. ESP or VIEW Support Payments** Payments by Employment Services Program or VIEW for support services such as transportation, uniforms, child care, etc. are excluded. *VIEW Transitional Payments (VTP) are NOT excluded; VTP must be counted as unearned income.*
- 27. Agent Orange Payments** Any payment received from the Agent Orange Settlement Fund or any other fund established in response to the Agent Orange product liability litigation is excluded. To verify whether a payment is an Agent Orange payment, use documents in the individual's possession. If the individual cannot provide verification or the situation is unclear, write to the Agent Orange Veteran Payment Program, P.O. Box 110, Hartford, CT 06104, Attention: Agent Orange Verification. Include in the request the veteran's name and social security number. If a survivor of a qualifying veteran was paid, also provide the survivor's name and social security number.
- 28. Radiation Exposure Compensation Act Payments** Payment received by individuals under the Radiation Exposure Compensation Act (Public Law 101-426) is excluded.
- 29. Maine Indians Claims Settlement Act** Funds received pursuant to the Maine Indians Claims Settlement Act of 1980 (Public Law 96-420); and the Aroostook Band of Micmacs Settlement Act (Public Law 102-171) are excluded.
- 30. Higher Education Act Student Financial Assistance** Student financial assistance received under Title IV of the Higher Education Act. Assistance to be excluded under this provision, whether awarded to an undergraduate or graduate student, includes but is not limited to:
- Pell Grants,
 - Supplemental Educational Opportunity Grants,
 - State Student Incentive Grants,
 - Federal College Work-Study Programs,
 - Perkins Loans (formerly National Direct Student Loans), and
 - Guaranteed Student Loans (including PLUS loans and Supplemental Loans for Students).
- 31. Carl D. Perkins Student Financial Assistance** Student financial assistance received under the Carl D. Perkins Vocational and Applied Technology Education Act made available for attendance costs (Public Law 101-392) is excluded. Attendance costs are defined below:
- tuition and fees normally assessed a student carrying the same academic workload as determined by the institution, and including

Manual Title Virginia Medical Assistance Eligibility	Chapter M07	Page Revision Date January 2008
Subchapter Subject M0730.000 F&C UNEARNED INCOME	Page ending with M0730.009	Page 6

costs for rental or purchase of any equipment, materials, or supplies required of all students in the same course of study; and

- an allowance for books, supplies, transportation, dependent care, and miscellaneous personal expenses for a student attending the institution on at least a half-time basis, as determined by the institution.

- 32. HUD Self-Sufficiency Program** Funds paid to an escrow account established under the Family Self-Sufficiency Program of the Department of Housing and Urban Development are excluded.
- 33. BIA Student Assistance** Student financial assistance received under Bureau of Indian Affairs (BIA) student assistance programs is excluded.
- 34. Interest on Certain Savings Accounts** Interest earned on a savings account for the purpose of paying for tuition, books, and incidental expenses at any elementary, secondary, or vocational school or any college or university for a family member, for making a down payment on a primary residence, or establishing a business is excluded.
- 35. Up To \$2000/yr. Received by Individual Indians** Up to \$2,000 per year of income received by individual Indians, which is derived from leases or other uses of individually-owned trust or restricted lands is excluded.
- 36. Nazi Persecution Payments** Payments received by victims of Nazi persecution under Public Law 103-286 are excluded.
- 37. First \$30 for Special Occasions** The first \$30 received by each individual in the family/budget unit per calendar quarter for special occasions, such as birthdays, Christmas, etc. is excluded. See M0730.520.
- 38. Lump Sum** A lump sum plus all other earned and unearned income that is less than 100% of need in the locality for the number of members in the FU/BU is excluded from countable unearned income when evaluating lump sum income. See M0730.800.
- 39. Walker v. Bayer Settlement Payments** Section 4735 of the Balanced Budget Act of 1997 (P.L. 105-33) states that payments described in this subsection from the settlement of the Susan Walker v. Bayer Corp., et.al., class action lawsuit are NOT counted as income in determining eligibility for Medicaid. Payments described in this subsection are:
- payments made from any fund established pursuant to a class settlement in the case of Susan Walker v. Bayer Corp., et.al., 96-C-5024 (N.D.III.); and

Manual Title Virginia Medical Assistance Eligibility	Chapter M07	Page Revision Date April 2005
Subchapter Subject M0730.000 F&C UNEARNED INCOME	Page ending with M0730.100	Page 6a

b. payments made pursuant to a release of all claims in a case that entered into in lieu of the class settlement of Walker v. Bayer Corp., et.al., and that is signed by all affected parties on or before the later of

- December 31, 1997, or
- the date that is 270 days after the date on which such release is first sent to the persons to whom the payment is to be made.

Information received by claimants in this lawsuit shows that claimants can choose to receive the payment in one of three ways – in a lump sum, a structured settlement, or a special needs trust. Regardless of which form the individual chooses, the payment(s) are excluded if the above requirements are met.

Verify the source of the funds from a letter from the individual's attorney or a copy of the check which identifies the payor as a Walker v. Bayer settlement account.

Any interest earned on these funds is NOT excluded. Any interest earned on these funds must be evaluated as unearned income in the month of receipt and as a resource thereafter.

40. Combat Zone Income

Any amount received by or made available to household members for deployment or service in a combat zone will not count as income for Medicaid purposes unless the payment was received before the deployment. This exclusion includes items such as, but not limited to, incentive pay for hazardous duty, special pay for imminent duty or hostile fire duty or certain re-enlistment bonuses, or special pay for certain occupational or educational skills.

M0730.100 MAJOR BENEFIT PROGRAMS

A. Policy

Annuities, pensions, retirement benefits, and disability benefits are unearned income. The amount of unearned income actually being received, not the entitlement amount, is counted as income.

EXCEPTION: When the Medicare Part B premium is deducted from the Social Security or Railroad Retirement benefits, that amount must be added to the actual benefit being received.

Manual Title Virginia Medical Assistance Eligibility	Chapter M07	Page Revision Date July 2020
Subchapter Subject M0730.000 F&C UNEARNED INCOME	Page ending with M0730.100	Page 7

B. Definitions

- 1. Annuity** An annuity is a sum paid yearly or at other specific times in return for the payment of a fixed sum. Annuities may be purchased by an individual or by an employer.
- 2. Pensions and Retirement Benefits** Pensions and retirement benefits are payments to a worker following his retirement from employment. These payments may be paid directly by a former employer, by a trust fund, an insurance company, or other entity.
- 3. Disability Benefits** Disability benefits are payments made because of injury or other disability.

C. List of Benefits

The following are examples of benefits:

- Social Security Benefits
- VA Payments – certain types not counted under MAGI methodology (see Chapter M04)
- Worker's Compensation – not counted under MAGI methodology (see Chapter M04)
- Railroad Retirement
- Black Lung Benefits
- Civil Service Payments
- Military Pensions
- VIEW Transitional Payments

D. Procedure

Verify entitlement amount and amount being received by documents in the applicant/enrollee's possession, such as an award letter or benefit payment check, or by contact with the entitlement source.

M0730.200 UNEMPLOYMENT COMPENSATION**A. Policy**

Unemployment Compensation received by an individual is counted as unearned income. The amount counted is the gross benefit before any taxes or deductions.

B. Procedures

- 1. General Procedures** Count Unemployment Compensation as unearned income for all covered groups.
- 2. Federal Pandemic Unemployment Compensation Program** *Section 2104 of the Coronavirus Aid, Relief, and Economic Security (Cares) Act (Public Law No. 116-136) provides that under the Federal Pandemic Unemployment Compensation Program, eligible individuals who are collecting certain Unemployment Compensation, including regular unemployment compensation, will receive an additional \$600 in federal benefits per week for weeks of unemployment ending on or before July 31, 2020.*

The \$600 weekly Pandemic Unemployment Compensation payments (monthly equivalent of \$2,580) are disregarded as income.

Manual Title Virginia Medical Assistance Eligibility	Chapter M07	Page Revision Date April 2017
Subchapter Subject M0730.000 F&C UNEARNED INCOME	Page ending with M0730.400	Page 8

M0730.210 TRADE ADJUSTMENT ASSISTANCE ACT INCOME

- A. Policy** The Trade Adjustment Assistance Act is administered by the Virginia Employment Commission. The Act allows qualified unemployed individuals to receive additional weeks of Unemployment Compensation (UC). UC benefits are counted as unearned income. The amount counted is the gross benefit before any taxes or deductions.
- B. Procedure** See M0730.200, above, for procedures to use in counting UC benefits.

M0730.400 CHILD/SPOUSAL SUPPORT

- A. Policy** For covered groups subject to Modified Adjusted Gross Income (MAGI) methodology, child support income is **NOT** counted (see chapter M04). However, spousal support (alimony) **is** counted as unearned income.
- For covered groups that are not subject to MAGI methodology, support received by an individual, whether it comes directly from the provider or is redirected to the individual by DCSE, **is** unearned income. The support received by the individual is subject to the \$50 Support Exclusion. Use the policies and procedures below.
- B. Procedures**
- 1. Child Living in Home** Child support payments received for a child who is living in the home is counted as income to the child for a non-MAGI determination.
 - 2. Child Not Living in Home** Child support payments received for a child who is not living in the home are counted a income to the person receiving it for a non-MAGI determination if the money is not given to the child.

Manual Title Virginia Medical Assistance Eligibility	Chapter M07	Page Revision Date July 2008
Subchapter Subject M0730.000 F&C UNEARNED INCOME	Page ending with M0730.505	Page 9

M0730.500 DIVIDENDS AND INTEREST

- A. Policy** Dividends and interest are only counted as unearned income when earned on a countable resource. Dividend and interest income payments on countable resources are counted as income in the month received or anticipated to be received (even if paid quarterly, annually, etc.), unless the interest is earned on an excluded savings account for education, home purchase or establishing a business per M0630.125.
- B. Definition** Dividends and interest are returns on capital investments such as stocks, bonds, certificates of deposit, or savings accounts.
- C. Procedure** Verify the amount that is received or is anticipated to be received by documents in the applicant/recipient's possession or through contact with the financial institution where the account or other financial instrument is located.

M0730.505 RENTAL/ROOM AND BOARD INCOME

- A. Policy** Net rental/boarder income from the rental of real property, or rooms, or board paid when the applicant/recipient is not engaged in a business enterprise or actively involved in management is unearned income. Rental/room and board income is counted in the month in which it is received.
- B. Definitions**
- 1. Rent** Rent is a payment which an individual received for the use of real or personal property, such as land or housing.
 - 2. Net Rental Income** Net rental income is the total amount received less the allowable costs.
 - 3. Board** Board is the amount paid for the provision of meals only.
 - 4. Room** Room is the amount paid to rent a room only.
 - 5. Room and Board** Room and board is the amount paid for room rent and the provision of meals.
- C. Calculation of Net Rental/Boarder Income**
- 1. Real or Personal** The net rental income is the total amount received less the tax on the property.

Manual Title Virginia Medical Assistance Eligibility	Chapter M07	Page Revision Date September 2012
Subchapter Subject M0730.000 F&C UNEARNED INCOME	Page ending with M0730.520	Page 10

Verify the anticipated income by documents in the applicant's possession or by a statement from the tenant.

Verify the anticipated cost by a tax receipt for the property owned.

2. Room Rent

The net rental income is 65% of the total rent received if heating fuel is furnished by the applicant/recipient. The net rental income is 75% of the total rent received if heating fuel is not furnished.

Verify the rent paid by documents in the applicant/recipient's possession or a statement from the tenant.

3. Boarders

The net rental income is the total board received less the *Supplemental Nutrition Assistance Program (SNAP) benefit allotment for the number of boarders*. The SNAP Manual is available at <https://jupiter.dss.state.va.us/FoodStampManual/mainpage.jsp#>.

Verify anticipated income from documents in the *individual's* possession or statement from boarder.

4. Roomer/ Boarders

The net rental income from room and board is calculated as follows:

- *Subtract the SNAP benefit allotment for the number of boarders from the monthly gross rental income.*
- *Multiply the balance by .65 (65% of the balance) if heating fuel is furnished or .75 (75% of the balance) if heating fuel is not furnished.*

Verify anticipated income by documents in the applicant/recipient's possession or by a statement from the boarder.

M0730.520 GIFTS

A. Policy

The first \$30 received by each individual in the assistance unit per calendar quarter for special occasions, such as birthdays, Christmas, etc. is excluded.

B. Definition

Calendar quarters are:

January - March;
April - June;
July - September;
October - December.

C. Procedure

Any amount in excess of the \$30 per calendar quarter anticipated to be received will be counted as unearned income in the month in which it is anticipated to be received.

Manual Title Virginia Medical Assistance Eligibility	Chapter M07	Page Revision Date July 2018
Subchapter Subject M0730.000 F&C UNEARNED INCOME	Page ending with M0730.600	Page 11

M0730.522 CONTRIBUTIONS

A. Policy

1. Contribution from agencies or organization

Any cash contribution made directly to the FU/BU by an agency or organization must be counted as unearned income to the FU/BU if such contribution is for any of the following:

- food, including special diets
- clothing
- personal care
- household supplies and equipment
- insurance
- school supplies and expenses
- laundry
- utilities (including telephone)
- housekeeping and personal services
- obligations incurred within the month of application
- guardianship fees
- average shelter costs appropriate to the locality in which the assistance unit resides (including rent, house payments, taxes, fire or comprehensive insurance repairs, installations, water sewage and trash disposal)

NOTE: If the contribution to the assistance unit is for one of the items listed above, it is unearned income and counted dollar for dollar. If it is not for one of the items listed above, it is not unearned income.

2. All Other Cash Contributions

All other cash contributions are counted in amount received as unearned income.

3. Income from Crowdsourcing

For contributions or donations received from crowdfunding source(s) see M0730.900

B. Procedure

- Verify with the administering agency or person contributing, the purpose of the contribution; AND
- Verify the amount of the contribution.

M0730.600 HOME ENERGY ASSISTANCE

A. Policy

Payments made directly to a household for home heating or cooling provided by suppliers of home energy, such as electric and gas companies and fuel oil dealers, must be counted as income.

B. Value of Assistance

When payments are received jointly by a household composed of Medicaid and non-Medicaid applicants/recipients, the FU/BU's pro rata share, based on the total number of persons in the household, must be considered as unearned income to the Medicaid FU/BU.

Manual Title Virginia Medical Assistance Eligibility	Chapter M07	Page Revision Date July 2004	
Subchapter Subject M0730.000 F&C UNEARNED INCOME	Page ending with M0730.800		Page 12

M0730.800 TREATMENT OF LUMP SUM INCOME

A. Policy

The receipt (on or after the month of application for Medicaid) of a nonrecurring lump sum payment is counted as income of the individual who received it. It is counted as income to the individual who received it in the month of receipt. If any of the lump sum is retained beyond the month of receipt, the retained portion is counted as a resource to the individual.

Manual Title Virginia Medical Assistance Eligibility	Chapter M07	Page Revision Date October 1997
Subchapter Subject M0730.000 F&C UNEARNED INCOME	Page ending with M0730.800	Page 13

The lump sum is earned income if it meets the definition of earned income, such as an earnings bonus paid annually to an employee. If the lump sum does not meet the definition of earned income, it is unearned income. Most lump sum payments are unearned income.

In the month of receipt, the countable portion of the lump sum (lump sum minus directly related expenses) is added to the individual's other income and counted as income to the individual's family unit and/or budget unit. The countable lump sum amount is also added to all other earned and unearned income in calculating the amount of the deemor parent's income to deem to the F&C child.

B. Definition

A lump sum is one of the following:

- accumulation of benefits for a prior period, including Social Security and Workman's Compensation benefits;
- payments in the nature of a windfall, e.g., inheritances or lottery winnings;
- personal injury awards;
- any portion of a casualty property loss payment which is not used for repair or replacement of the damaged/lost resources;
- life insurance settlement when the policy is owned by someone other than a member of the family/budget unit;
- child support identified as payments paid in excess of public assistance; or
- income from any other nonrecurring source.

NOTE: Money received from the sale or conversion of any real or personal property is not considered a lump sum (see M0610.100, Distinction Between Assets and Resources).

NOTE: A lump sum is a resource if it was received before the month of application for Medicaid or if any amounts are remaining after the period of time it is counted as income. If counted as income, it cannot be counted as a resource even if placed in a savings account for education, home purchase, or establishing a business as described at M0630.125.

C. Procedure

1. Determine Countable Amount of Lump Sum

The gross amount of the lump sum minus directly related expenses, equals the countable amount of the lump sum. The countable amount of the lump sum is income in the month of receipt.

Manual Title Virginia Medical Assistance Eligibility	Chapter M07	Page Revision Date October 1997
Subchapter Subject M0730.000 F&C UNEARNED INCOME	Page ending with M0730.800	Page 14

a. Definition of Directly Related Expenses

Directly related expenses are items such as funeral expenses, medical bills, legal fees, or liens against insured property. Expenses for day-to-day living incurred pending receipt of a lump sum are not directly related expenses.

Lump sum payments received as a result of an accumulation of benefits for a prior period, such as Social Security benefits, will have no directly related expense deduction.

b. Documentation of Directly Related Expenses

The applicant/recipient must promptly provide documented evidence of directly related expenses which were incurred prior to or are anticipated to be incurred within 30 days after receipt of the lump sum.

If verification of the payment of directly related expenses is not provided promptly, the lump sum is counted in full. Subsequent provision of verification of the lump sum payment or the payment of directly related expenses will not change the countable amount of the lump sum. The agency must advise the applicant/recipient of the requirement to count the lump sum in full unless the directly related expenses are actually paid.

2. Determine Total Income

Add all countable earned and countable unearned income to the countable portion of the lump sum to determine the individual's total amount of income for the month of receipt.

3. Evaluate Asset Transfer

Evaluate the spending of a lump sum under the asset transfer policy in subchapter M1450 and document the case record with the amount(s) of compensation received.

D. Example--Lump Sum Received By Adult In Family

EXAMPLE #1: Mr. Fox , who lives in a Group II locality, receives a \$5000 lump sum on August 2, 1997. There are 5 members of the family unit. Their other countable earned and unearned income for that month is \$200. *The family unit's income for August is $\$200 + \$5000 = \$5200$.*

\$1,730 of the lump sum remains in September. The \$1,730 is counted as a resource to Mr. Fox in September.

E. Example--Lump Sum Received By Adult, Stepparent In Family

EXAMPLE #2: *Mrs. Bear lives in a Group II locality with her husband, Mr. Bear, and her son from a previous relationship, Baby Bear. Baby Bear has been receiving Medicaid as a Medically Indigent Child Under 6. The parents had not requested Medicaid for themselves. On September 3, 1997, Mrs. Bear receives a \$5000 lump sum payment (after directly related expenses are deducted). The family has no earned income, but has unearned income of \$1300 per month (retirement for Mr. Bear). Mrs. Bear has no other income. The family unit's income for September is $\$1300 + 5000 = \6300 .*

Manual Title Virginia Medical Assistance Eligibility	Chapter M07	Page Revision Date July 2018
Subchapter Subject M0730.000 F&C UNEARNED INCOME	Page ending with M0730.900	Page 15

The countable income of the family unit is compared to the MI income limit for three people. \$6300 exceeds the MI limit for three people (\$1477). Since Baby Bear has a stepparent in the home, budget units must be formed. One budget unit contains Mr. and Mrs. Bear; the other budget unit contains Baby Bear.

Deem a portion of Mrs. Bear's income to Baby Bear:

\$5000.00	Mrs. Bear's lump sum income
- 128.50	deeming standard (1/2 of 100% standard of assistance for 2 in Group II)
\$4871.50	deemable income

Baby Bear's monthly income for September is \$4871.50. That amount exceeds the MI Child Under 6 income limit for a budget unit of one (\$874) so Baby Bear is not eligible for Medicaid in September. For October, Baby Bear has no countable income because his mother has no income in October; he is eligible for Medicaid again in October as an MI child under age 6.

M0730.900 TREATMENT OF CROWDSOURCING INCOME

A. Policy

Crowdsourcing or crowdfunding is a practice to raise funds online for donations, funding a project, or underwrite a venture, by requesting small amounts of money by a large number of people. Examples of crowdsourcing websites include GoFundME, YouCaring, Kickstarter, or IndieGoGo.

Treatment of funds received depends on the reason the funds were solicited.

B. Definition

If the individual, or someone on their behalf, is raising donations for medical costs or bills, money raised is considered a gift. See M0730.520.

If there is an exchange of goods or services, the money received is considered earned income.

If it is a fundraiser for investing in an invention and the donor gets a product or a return, it is not taxable income and but would be considered "contribution to capital" as the donor has an equity interest in the product.

C. Procedure

Funds deposited into an account to which an individual has access and control over its use would be countable to the individual in the month received. If any of the funds are retained beyond the month of receipt, the retained portion is counted as a resource to the individual.

"Platform fees" are fees or costs that would not be considered part of the income received if the monies are crowdfunding are being considered as income. Fees may include the cost per transaction or percentage of donation the online host site receives and/or costs to a payment processor.

GENERAL

M0810.001 INCOME AND ELIGIBILITY

A. Introduction

The following sections explain how to treat income in the Medicaid program. This chapter explains how we count income.

B. Policy Principles

1. Who is Eligible

An individual is eligible for Medicaid if the person:

- meets a covered group; and
- meets the nonfinancial requirements; and
- meets the covered group's resource limits; and
- meets the covered group's income limits.

2. General Income Rules

- Count income on a monthly basis.
- Not all income counts in determining eligibility.
- If an individual's countable income exceeds a classification's monthly limit, a medically needy spenddown may be established, if appropriate.

M0810.002 INCOME LIMITS

A. Income Limits

The Medicaid covered group determines which income limit to use to determine eligibility.

1. Categorically Needy

Supplemental Security Income (SSI) and State Supplement (Auxiliary Grant) recipient's money payments meet the income eligibility criteria in the ABD Categorically Needy covered group.

2. Categorically Needy Protected Cases Only

Categorically-Needy Protected Covered Groups Which Use SSI Income Limits		
Family Unit Size	2021 Monthly Amount	2022 <i>Monthly Amount</i>
1	\$794	<i>\$841</i>
2	1,191	<i>1,261</i>
Individual or Couple Whose Total Food and Shelter Needs Are Contributed to Him or Them		
Family Unit Size	2021 Monthly Amount	2022 <i>Monthly Amount</i>
1	\$529.34	<i>\$560.67</i>
2	794.00	<i>840.67</i>

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date July 2022
Subchapter Subject M0810 GENERAL - ABD INCOME RULES	Page ending with M0810.002	Page 2

**3. Categorically
Needy 300% of
SSI**

For the covered groups that use the 300% of SSI income limit, all income is counted (even excluded income) when screening at 300% of SSI. Do not count any monies which are defined as “what is not income” in S0815.000.

Family Size Unit	2021 Monthly Amount	2022 Monthly Amount
1	\$2,382	\$2,523

**4. ABD Medically
Needy**

M0810.005 WHAT IS INCOME

A. Policy Principles

1. Definitions

Income is

- cash, or
- its equivalent, unless specifically listed in M0815 as not being income.

Income is counted in U.S. dollars.

2. Amount

Sometimes income includes more or less than is actually received, for example:

- Expenses of obtaining income (less)
- Garnishment (more)
- Gross earnings, before any deductions (more).

B. References

- What is not income, S0815.001ff.
- Garnishment, S0810.025.
- Expenses of obtaining income, S0830.100.
- Wages, S0820.100.

S0810.007 INCOME EXCLUSIONS

A. Introduction

Medicaid eligibility is based on countable income. See S0810.300 B.1. for the definition of countable income (CI). In determining CI, consider any income exclusions.

Some exclusions totally negate the amount of income received. Other exclusions reduce the amount counted. For example, any income may be wholly excluded (not counted) if it meets the criteria for exclusion of income received infrequently or irregularly.

B. Definition

Excluded income is an amount which is income but does not count in determining eligibility.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0810 GENERAL - ABD INCOME RULES	Page ending with S0810.010	Page 4

C. Policy Principles

1. Income

Exclusions under Other Federal Statutes

Some Federal laws other than the Social Security Act prohibit counting some income for Medicaid purposes. See S0830.099.

2. Exclusions

under the Social Security Act

Section 1612(b) of the Social Security Act provides for several income exclusions in determining countable income for Medicaid purposes.

D. References

- Income exclusions applicable to both earned and unearned income, S0810.400.
- Earned income exclusions, S0820.500ff.
- Unearned income exclusions, S0830.001ff.
- Order of application of exclusions, S0830.100 C.

S0810.010 RELATIONSHIP OF INCOME TO RESOURCES

A. Operating Policy

In general, anything received in a month, from any source, is income to an individual, subject to the definition of income in S0810.005.

Anything the individual owned prior to the month under consideration is subject to the resource counting rules.

An item received in the current month is income for the current month only. (See exceptions to this general rule in S0810.030.) If held by the individual until the following month, that item is subject to resource counting rules (See exception in S1110.115)

B. Example

Mr. Jones receives a dividend check for \$300 at the end of May. He spends \$150 immediately and deposits the remaining \$150 in his savings accounts. His income for May is \$300. The June 1 evaluation of Mr. Jones' resources includes (for the first time) the \$150 he saved.

C. References

- Definition of resources, S1110.100 B.1.
- Conversion or sale of a resource, S0815.200.
- Replacement of lost, damaged, or stolen resources, S1130.630.

Subchapter Subject M0810 GENERAL - ABD INCOME RULES	Page ending with S0810.015	Page 5

S0810.015 TYPES OF INCOME

A. Policy Principles

1. Types of Income

Income is either earned or unearned, and different rules apply to each.

2. Earned Income

Earned income consists of the following types of payments:

- wages
- net earnings from self-employment
- payments for services performed in a sheltered workshop or work activities center.
- royalties earned by an individual in connection with any publication of his/her work and any honoraria received for services rendered.

3. Unearned Income

Unearned income is all income that is not earned income. Some types of unearned income are:

- annuities, pensions, and other periodic payments
- alimony and support payments
- dividends, interest, and royalties (except for royalties mentioned in 2. above)
- rents
- benefits received as the result of another's death to the extent that the total amount exceeds the expenses of the deceased person's last illness and burial paid by the recipient
- prizes and awards

B. References

- Definition of countable income, S0810.300.
- Earned income, S0820.001ff.
- Unearned income, S0830.001ff.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0810 GENERAL - ABD INCOME RULES	Page ending with S0810.025	Page 6

M0810.020 FORMS AND AMOUNTS OF INCOME

A. Operating Policies

Income, whether earned or unearned, may be received in the form of cash--currency, checks, money orders, or electronic funds transfers (EFT), such as:

1. Forms of Income

- Social Security checks
- unemployment compensation checks
- payroll checks or currency.

2. Amounts of Income

The value of cash income is generally the amount of the currency or the face value of checks, money orders or EFT's the individual receives. There are some exceptions listed in B. below.

B. References

- Expenses of obtaining income, S0830.100.
- Determining amount of wages, S0820.100.
- Amounts withheld to recover an overpayment, S0830.110.
- Garnishment or seizure, S0810.025.
- Income exclusions, S0810.400.

S0810.025 EFFECT OF GARNISHMENT OR SEIZURE

A. Definition

A **garnishment** or **seizure** is a withholding of an amount from earned or unearned income in order to satisfy a debt or legal obligation.

B. Policy Principles

Amounts withheld from earned or unearned income to satisfy a debt or legal obligation are income for Medicaid purposes.

C. Related Policy

1. Earned Income

Wages are what an individual receives (before any deductions) for working as someone else's employee. See S0820.100.

2. Unearned Income

See S0830.115 for instructions on determining the amount of unearned income if garnishment or other withholding is involved.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0810 GENERAL - ABD INCOME RULES	Page ending with S0810.030	Page 7

S0810.030 WHEN INCOME IS COUNTED

A. Policy Principles

Generally, we count income at the earliest of the following points:

- when it is received; or,
- when it is credited to an individual's account; or
- when it is set aside for his or her use.

We determine income monthly and count it the month it is received.

B. Operating Policy

1. Exceptions

Occasionally, a regular periodic payment (e.g., wages, Title II, or VA benefits) is received in a month other than the month of normal receipt.

As long as there is no intent to interrupt the regular payment schedule, consider the funds to be income in the normal month of receipt.

The most common situations where this policy applies appear in 2. and 3. below.

2. Advance Dated Checks

When a payor advance dates a check because the regular payment date falls on a weekend or holiday, there is no intent to change the normal delivery date.

Whenever such an advance dated check is received, consider it income to the recipient in the month of normal receipt.

3. Electronic Funds Transfers (EFT)

When an individual's money goes to a bank by direct deposit, the funds may be posted to the account before or after the month they are payable.

Whenever this occurs, treat the electronically transferred funds as income in the month of normal receipt.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0810 GENERAL - ABD INCOME RULES	Page ending with S0810.030	Page 8

C. Related Policy

- 1. Counting Advance Dated Checks and EFT's and Resources**

Such funds are first subject to evaluation as resources in the month following the month of normal receipt.

See S1130.600 for SSI and RSDI retroactive payments as resources.
- 2. Counting Net Earnings from Self-Employment**

Counting net earnings from self-employment (NESE) varies from the general income-counting rule. NESE is allocated evenly into all months of an individual's taxable year. See S0820.200ff.
- 3. Replacement of Income Already Received**

See S0815.450 if income is lost, stolen, or destroyed, and a replacement is received.
- 4. Recipient Returns a Check He/She Is Not Due**

See S0815.460 when the recipient is aware that he/she is not due a payment and returns the money.
- 5. Reissued Title II Funds in Change of Payee Situations**

See S1120.022 when conserved title II benefits are reissued as a result of a change in payees.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0810 GENERAL - ABD INCOME RULES	Page ending with S0810.120	Page 9

WHOSE INCOME IS IT?

S0810.120 INCOME DETERMINATIONS INVOLVING AGENTS

A. Introduction

This section deals with the actions of agents who conduct financial transactions on behalf of others, and the policies that apply in making determinations of countable income as a result of such transactions.

A Medicaid recipient may be an agent for another person **or have an agent** acting on his or her behalf. Whenever an agent takes part in a financial transaction, the EW must determine whether the transaction was conducted on the agent's behalf or on behalf of the person he or she represents.

NOTE: References in this section to a "Medicaid recipient" also include a Medicaid applicant and individuals whose income and/or resources are subject to deeming.

B. Definition

An **"agent"** is a person or organization acting on behalf of and/or with the authorization of another person or organization. The term "agent" applies to all individuals who act in a fiduciary capacity, whether formal or informal, regardless of their titles (representative payees, guardians, conservators, etc.)

C. Operating Policies Medicaid Recipient Is an Agent

1. General

Monies received by a Medicaid recipient in his/her capacity as an agent are not income to him/her. Regular income rules (S0810.001 ff) apply for counting income a Medicaid recipient receives which is not paid on behalf of another.

2. Agent With Bank Account for Another

a. Account Correctly Titled

When a Medicaid recipient acts as an agent for another and the title or designation of a bank account for the other person reflects the agency relationship, deposits to the account are not income to the Medicaid recipient.

b. Account Incorrectly Titled

If the account is incorrectly titled, deposits to the account are income to the Medicaid recipient--unless the Medicaid recipient makes the deposits for another person and disburses or intends to disburse the money on the other person's behalf. (See S1120.020 for instructions concerning the treatment of resources when an agent is involved.)

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0810 GENERAL - ABD INCOME RULES	Page ending with S0810.120	Page 10

**3. Fees Received
by an Agent**

There may be situations where agents are authorized to keep a part of the funds they receive on behalf of another. **Fees**, commissions, or contributions for services rendered **are unearned income** to a Medicaid recipient acting as an agent.

**4. Misuse of
Benefits**

A Medicaid recipient acting as an agent may misuse another's funds. Monies misused by a Medicaid recipient are unearned income in the month received unless restitution is made.

When misused funds are refunded by a Medicaid recipient acting as an agent, these funds are not counted as income to the recipient.

**5. Recipient and
Use of Funds
From an
Absent
Household
Member**

Frequently an individual leaves home (e.g., is confined to a Medicaid facility) and all or part of his/her income is turned over to someone maintaining the home. When funds are turned over to a Medicaid recipient, the guidelines below apply for determining if the recipient is acting as an agent.

- a. Absent evidence to the contrary, the Medicaid recipient is assumed to be acting as an agent** if he/she alleges that the funds received are being used to maintain the home **or** on behalf of the absent household member in some other manner (e.g., paying the absent individual's life insurance premiums).

NOTE: An example of evidence contrary to the assumption in a. above is a Medicaid recipient who is living at home and who has an absent spouse in a Medicaid facility. If a certain amount of the institutionalized person's income should be "assigned" to the spouse at home and the "assigned" amount is actually made available to the Medicaid recipient, the amount of money available as cash income is unearned income to the Medicaid recipient. (The terms for this income is "spousal monthly income allowance.") In this situation, the Medicaid recipient is not acting as an agent because the money has been assigned to meet the at-home spouse's needs. If a "spousal monthly income allowance" has not been assigned from the institutionalized person's income to the at-home spouse, the presumption in a. above applies.

The amount of money used by a Medicaid recipient on behalf of the absent individual is not cash income to the Medicaid recipient.

- b.** If the Medicaid recipient alleges that all or part of **funds received** from an absent household member **are for the recipient's personal use**, the amount of cash income diverted to personal use is income to the Medicaid recipient.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date July 2002
Subchapter Subject M0810 GENERAL - ABD INCOME RULES	Page ending with S0810.120	Page 11

D. Operating Policies-Medicaid Recipient has an Agent

- 1. General**
Treat monies received by an agent acting on behalf of a Medicaid recipient as if the recipient received the monies directly. These monies are counted as income to the recipient when received by the agent, following the income-counting rules in S0810.010 ff.
- 2. Misuse of Benefits by the Agent**
If a Medicaid recipient's agent has been charged with misuse of funds and restitution has not been made, the **amount of funds misused by the agent is not counted as income** to the recipient. If restitution is made by the agent directly to the recipient, the amount restored is income in the month received.

E. Development and Documentation

- 1. General**
When an agent relationship exists between a Medicaid recipient and another individual, the file must be clear as to the relationship between the two parties. In cases where the agent is chosen by a court or governmental agency, retain a copy of any documents verifying the appointment. If no document exists, contact the source of the appointment and record the information in the file. When financial transactions involving an agent take place, the file must reflect why income was or was not counted to the Medicaid recipient.
- 2. Fees Received By an Agent**
Verify fees, commission, or contributions provided to a Medicaid recipient for services rendered as an agent. (See S0820.100 if there is an employer-employee relationship.)
- 3. Misuse of Benefits**
Develop misuse and document case record. Adjust the Medicaid recipient's file to remove income counted which represent funds misused by the recipient's agent. If the agent restores the misused funds to the Medicaid recipient, the recipient will have income counted in the month he/she received the repaid monies.

If restitution of misused funds is made by Medicaid recipient acting as an agent, adjust the recipient's to remove income counted which represent the repaid monies.
- 4. Receipt of Funds From an Absent Household Member**
Document the Medicaid recipient's allegation regarding the use of an absent household member's funds. If evidence is presented which rebuts the presumption that the Medicaid recipient is acting as an agent, keep a copy of the evidence in file.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0810 GENERAL - ABD INCOME RULES	Page ending with S0810.120	Page 12

F. Examples

- 1. Agent Uses Money for Self and on Another's Behalf**

Clara Dalloway, a Medicaid recipient, is legal guardian for her elderly sister. A friend of the family gives Mrs. Dalloway \$120 and tells her that a third of it is for her sister. Mrs. Dalloway keeps \$80 for herself and uses the rest to buy clothing for he sister. \$80 represents unearned income to Mrs. Dalloway in the form of a gift. The \$40 which was paid on her sister's behalf is not income to Mrs. Dalloway because she used this money in her capacity as an agent.
- 2. Monies From an Absent Household Member Used to Maintain Home and for Personal Use**

Christine Duncan, Medicaid recipient, rents an apartment with her cousin who goes into the hospital for an extended stay. Ms. Duncan reports to the EW that her cousin sent \$200 to help with the rent and utility bills. Of the \$200, Ms. Duncan needed only \$175 for the household bills and used the remaining \$25 to buy a birthday present for her brother. Because Ms. Duncan was acting as an agent for her cousin, the EW counts only \$25 in income since she made personal use of that portion of the \$200.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0810 GENERAL - ABD INCOME RULES	Page ending with S0810.130	Page 13

S0810.130 INCOME DERIVED FROM JOINT BANK ACCOUNTS

A. Introduction

This section explains how to count income in different situations involving the joint bank account of a Medicaid recipient/applicant and/or deemor.

When a Medicaid recipient or applicant has a joint bank account with another individual, **deposits made to the account by other account holders or interest posted to the account are income** to the Medicaid recipient. See B.2. below for an exception.

References in this section to a "Medicaid recipient" also include a Medicaid applicant and individuals whose income and/or resources are subject to deeming.

See S1140.205 for resource determinations involving bank accounts.

B. Operating Policies

1. General

- a. **When a joint bank account is held by a Medicaid recipient and an ineligible individual** who is not a deemor, income to the Medicaid recipient includes:

- the full amount of any interest posted to the account and
- the full amount of any deposit made by a third party or by the ineligible bank account holder unless the Medicaid recipient is acting as an agent (see S0810.120 C.1.).

- b. **When two or more Medicaid recipients are joint account holders**, deposits made by one individual are not income to the other. Allocate interest equally among the joint holders.

2. Rebuttal Situations

- a. If a Medicaid recipient successfully **rebutts ownership of a portion of funds in a joint account** (see S1140.205 C.2.), deposits made by the other account holder are not income to the Medicaid recipient. Interest is counted to the Medicaid recipient in proportion to the percentage of funds that are a resource to the recipient.
- b. If a Medicaid recipient successfully **rebutts ownership of all the funds** held in a joint bank account, deposits by the other account holders or interest posted to the account are not income to the recipient.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M08	November 1995
Subchapter Subject	Page ending with	Page
M0810 GENERAL - ABD INCOME RULES	S0810.300	14

COMPUTING COUNTABLE INCOME

S0810.300 GENERAL

- A. Introduction

An individual's monthly income is one of the factors which determines eligibility for Medicaid.
- B. Definitions

1. Countable Income (CI)

CI is the amount of income that remains after:
 - eliminating all amounts that are **not income** (S0815.001ff.); and
 - applying all appropriate **exclusions** (S0810.400ff.)CI is the sum of a month's countable earned and countable unearned income.

2. Countable Earned Income

Countable earned income is the amount of earned income (S0810.015 A.2.) remaining after applying all appropriate income exclusions.

3. Countable Unearned Income

Countable unearned income is the amount of unearned income (S0810.015 A.3.) remaining after applying all appropriate income exclusions.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0810 GENERAL - ABD INCOME RULES	Page ending with S0810.310	Page 15

S0810.310 HOW TO COMPUTE COUNTABLE INCOME

A. Operating Procedure

1. **Evaluate Income** Evaluate all reported or estimated income for the month.
2. **Determine What is Not Income** Do not consider certain kinds of payments, property, or services which are not income for Medicaid purposes. See S0815.001ff.
3. **Deduct Income Excluded Under Other Federal Statutes** See S0830.055 for these exclusions which are not in title XVI of the Social Security Act. Exclude any of this income in determining countable income.
4. **Compute Countable Unearned Income** Subtract applicable exclusions (S0830.100ff.) from unearned income to determine countable unearned income.
5. **Compute Countable Earned Income** Subtract applicable exclusions (S0820.500ff.) from earned income to determine countable earned income.
6. **Compute Countable Income** Add countable earned income and countable unearned income to arrive at total countable income.

B. References

- Order of application of exclusions, S0830.100 C.

INCOME EXCLUSIONS WHICH APPLY TO BOTH EARNED AND UNEARNED INCOME

S0810.400 GENERAL

- A. Policy Principle** Some statutory exclusions apply only to earned income, some apply only to unearned income, and a few apply to both earned and unearned income.
- B. References** The following sections address those exclusions which can apply to both earned and unearned income:
- Infrequent or irregular income exclusion, S0810.410.
 - \$20 per month general income exclusion, S0810.420.
 - PASS exclusion, S0810.430.

S0810.410 INFREQUENT OR IRREGULAR INCOME EXCLUSION

A. Policy

- 1. The Exclusion** We can apply an exclusion to income which is received either infrequently or irregularly provided the total of such income does not exceed:
 - \$10 per month of earned income; and/or
 - \$20 per month of unearned income.
- 2. Infrequent or Irregular Income--Definition** In order for this exclusion to apply, income need only be one or the other of:
 - **infrequent**--An individual receives income on an infrequent basis if he/she receives it no more than once in a calendar quarter from a single source; or
 - **irregular**--An individual receives income on an irregular basis if he or she could not reasonably expect to receive it.
- 3. Interpretation of the Exclusion**
 - Applicable to Both Earned and Unearned Income**--This exclusion can apply to both earned and unearned income in the same month provided the total of each does not exceed the limits in 1. above. Thus it is possible to exclude as much as \$30 in a month under this provision.
 - Total Exceeds the Limit**--This exclusion does not apply to any income received on an infrequent or irregular basis if the total of such income exceeds the amounts in 1. We exclude all infrequent or irregular earned and/or unearned income or none of it, depending on the amount involved. (See G. below concerning income subject to other exclusions.)

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0810 GENERAL - ABD INCOME RULES	Page ending with S0810.410	Page 17

- c. **Limit as it Applies to Couples**--The dollar amount of the exclusion does not increase even if both an eligible individual and spouse (eligible or ineligible) have infrequent or irregular income.
- d. **To Whom Applicable**--The exclusion is applicable to income received infrequently or irregularly by an eligible individual, eligible or ineligible spouse, and parent of blind or disabled child.

4. **Unearned Income-- Specific Considerations**

In evaluating frequency of receipt of unearned income, we look at receipts of the same type of income from a single source.

B. **Definitions**

1. **Single Source of Income**

- a. A single source of earned income is an employer, a trade, or a business.
- b. A single source of unearned income is an individual, a household, an organization or an investment.
 - A household in which an individual lives is a single source even if the household composition changes due to a move by the individual or by other household members (see C.2. below).
 - An organization is the Federal Government, a single State or local government, a business or corporation, a charitable agency, or a similar entity which provides an individual with income.
 - An investment is a single financial account, life insurance policy, rental property, or any other resource providing a return to its owner. Two separate accounts, even if with a single financial institution, are two different investments.

2. **Two Payments from a Financial Institution -- Not a Single Source**

An individual may occasionally receive an irregular interest payment by reason of a financial institution's own internal "housekeeping" rules. For example, a bank's rules may require an extra payment when someone closes an account or there may be a special "adjustment" payment due to a change in the accounting system or to closing the books at the end of a fiscal year. These kinds of irregular payments are from the financial institution itself and not from an individual's account with that institution. Therefore, they do not cause a regular (but infrequent) interest payment from an account to be considered "frequent" in that one quarter (see C.3. below).

NOTE: Determinations involving sources of income are only necessary when determining whether income is infrequent (see D.1. and D.2. below).

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0810 GENERAL - ABD INCOME RULES	Page ending with S0810.410	Page 18

3. Types of Unearned Income

For purposes of this exclusion, types of unearned income are those listed in S0830.200 - S0830.560.

C. Example of Unearned Income

1. Regular Source Makes Unexpected Payment

An individual has a savings account that pays interest of \$15 in the second month of each quarter. The interest has been routinely excluded as infrequent as the individual has no other infrequent or irregular income.

In 1989, without any advance notice to depositors, the bank changes its accounting system. As a result, in June the individual receives a \$2.03 one-time payment in addition to his/her regular \$15 interest payment in May.

The bank does not intend to interrupt its usual quarterly interest schedule, so the EW correctly views the one-time payment in June as being from a separate source than the regular quarterly payments; i.e., it is a bank adjustment. Therefore, the regular \$15 payment is still excludable as infrequent while the unexpected \$2.03 payment is irregular. The total is within the \$20 limit in the month of receipt and is excludable.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0810 GENERAL - ABD INCOME RULES	Page ending with S0810.410	Page 19

**D. Process--
Identifying
Infrequent or
Irregular Income**

**1. Unearned
Income**

Total cannot exceed \$20 per month.

If someone receives unearned income....	and...	then its receipt is...
no more than once in a calendar quarter from a single source	_____	infrequent.
no more than once in a calendar quarter from each of several sources	it is the same type of income in each instance,	infrequent.
no more than once in a calendar quarter from each of several sources	it is a different type of income in each instance,	infrequent.
more than once in a calendar quarter from the same source	it is a different type of income in each instance,	infrequent.
more than once in a calendar quarter from the same source	it is the same type of income in each instance,	not infrequent.
any number of times in a month	he could not reasonably have expected or budgeted for it,	irregular.
any number of times in a month	he could reasonably have expected or budgeted for it (even if he did not know the exact amount),	not irregular.

**2. Earned
Income**

Total cannot exceed \$10 per month

When someone receives earned income....	then its receipt is...
no more than once in a calendar quarter from a single source,	infrequent.
no more than once in a calendar quarter from each of several sources,	infrequent.
more than once in a calendar quarter from each of several sources,	not infrequent.
any number of times in a month and he could not reasonably have expected or budgeted for it,	irregular.
any number of times in a month and he could reasonably have expected or budgeted for it (even if he did not know the exact amount).	not irregular.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date October 2019
Subchapter Subject M0810 GENERAL - ABD INCOME RULES	Page ending with S0810.410	Page 20

E. Process --Applying The Exclusion

The following process is for any earned income but only for unearned income which is not subject to other exclusions (see F. below).

When someone receives infrequent or irregular...	and...	then this exclusion...
unearned income	the total in a month does not exceed \$20	applies.
unearned income	the total in a month exceeds \$20,	does not apply.
earned income	the total in a month exceeds \$10,	does not apply.
earned and unearned income	the monthly earned income total does not exceed \$10 and the monthly unearned income total does not exceed \$20,	applies to both earned and unearned income.
earned and unearned income	the monthly earned income total exceeds \$10 but the monthly unearned income total does not exceed \$20,	applies to the unearned income but not to the earned.
earned and unearned income	the monthly earned income total does not exceed \$10 but the monthly unearned income total exceeds \$20,	applies to the earned income but not to the unearned.
earned and unearned income	the monthly earned income total exceeds \$10 and the monthly unearned income total exceeds \$20,	does not apply.

F. Procedure

1. Initial Applications

- a. **Infrequent**--If income is regular but may qualify for exclusion as infrequent, evaluate its receipt for the three months prior to the month of application.
- b. **Irregular**--If income may qualify for exclusion as irregular, evaluate the predictability of its receipt beginning with the month of application.

2. All Situations

- a. **Individual's Attestation**
Obtain a statement over the individual's signature concerning the type, amount, frequency, or predictability of income. The statement or similar information on the application or redetermination form is sufficient documentation. Absent evidence to the contrary, accept the individual's *attestation*.
- b. **Evidence Disagrees with Attestation**
If there is evidence which disagrees with the individual's *attestations*, develop and document under the appropriate income rules.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0810 GENERAL - ABD INCOME RULES	Page ending with S0810.410	Page 21

- c. **Frequency of Receipt** Even though infrequent income has a monthly dollar limit, evaluate the frequency of receipt over a calendar quarter.
- d. **Evaluating Income Received From More Than One Source--Some on a Monthly Basis, Some Only Once in a Calendar Quarter**
Compare only the income received **once in a calendar quarter** against the \$10/\$20 monthly limits (see e. below).
- e. **Amount of Income**
 - Add all of the **earned** income received on an infrequent or irregular basis and compare the total against the \$10 monthly limit; and/or
 - Add all of the **unearned** income received on an infrequent or irregular basis and compare the total against the \$20 monthly limit.

G. Examples

1. Infrequent Income--Quarterly Income Only

- a. **Situation:** The recipient owns two bank accounts, both of which pay interest only in the last month of each calendar quarter. The combined interest does not exceed \$20 in the month of payment.
- b. **Analysis:** Since interest on each account is received no more than once a quarter, its receipt is infrequent. Since the total of all the unearned infrequent income does not exceed \$20 in a month, all the interest may be excluded under the infrequent income provision.
- c. **Situation:** An individual opens up a checking account on February 27. The account pays interest on a monthly basis. The individual applies for Medicaid the next month, in March, and receives his first checking account interest payment on March 31 in the amount of \$10.
- d. **Analysis:** The \$10 interest payment is excludable as infrequent in **March only**, since it was received only once in the January-March quarter.

The monthly interest received in April and subsequent months is not excludable as infrequent or irregular since the interest is received more often than once in a calendar quarter.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0810 GENERAL - ABD INCOME RULES	Page ending with S0810.410	Page 22

**2. Infrequent/
Irregular
Income--
Monthly and
Quarterly
Income**

- a. **Situation:** The recipient owns two bank accounts, a checking account that pays interest of \$2 a month and a savings account that pays interest of \$19 once a quarter.
- b. **Analysis:** The checking account interest is received more than once a quarter and is therefore not infrequent and not excludable under this provision. The savings account interest is received only once a quarter and is, therefore, infrequent. Since the total of all the unearned infrequent income does not exceed \$20 in a month, the savings account interest may be excluded under this provision.

Note that in determining whether any interest income in this situation can be excluded as infrequent, we consider only the amount of income received **once in a calendar quarter** and compare that amount to the \$20 unearned income limit for the infrequent/irregular income exclusion. Accordingly, in this situation, we do **not** add the \$2 monthly checking account interest to the \$19 savings account interest.

Also note that if the individual in this example has no income other than the savings and checking account interest, the checking interest is excludable under the \$20 general income exclusion. See S0810.420 for a discussion of the general income exclusion.

- c. **Situation:** An eligible couple owns the three bank accounts which pay interest in the month of September 1992 as described below.

Type	Interest is ...	Paid in 9/92
Time deposit	compounded quarterly paid annually	\$10
Savings	compounded monthly, paid quarterly	\$2.50
Checking	compounded daily, paid monthly	\$1.50

The wife receives a monthly title II check of \$150. The husband received an unexpected birthday gift of \$7 in cash in 9/92 from his daughter as a birthday gift.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0810 GENERAL - ABD INCOME RULES	Page ending with S0810.410	Page 23

- d. **Analysis:** The time deposit interest and savings interest are received only once (or less) per quarter. Therefore they are both infrequent. The \$7 gift is irregular income. Since the total of the irregular/infrequent income received by the couple in 9/92 does not exceed \$20 (\$10 + \$2.50 + \$7), the income from these sources may be excluded.

Both the checking interest and the title II benefit are paid monthly. Therefore, neither type of income is excludable as infrequent or irregular.

NOTE: The frequency with which interest is **compounded** is not material to how often it is paid. Daily, monthly, or quarterly compounding are methods of **computing** (not paying) interest.

**3. Infrequent/
Irregular
Income--
Amount
Exceeds Limit**

- a. **Situation:** The recipient owns a savings account which pays interest of no more than \$8 in the first month of each quarter. Also in the first month of every quarter, the recipient's sister gives her \$16 in cash to help her pay utility bills.
- b. **Analysis:** Although both the income from her savings account and the income from her sister are received infrequently, the total of the infrequent income exceeds \$20 in a month. Therefore, none of the income is excludable under this provision.

Note that were the sister to give the recipient \$16 in the second or third month of every quarter (i.e., not in the same month the interest income is received), **both** types of income could be excluded under the infrequent income provision.

H. References

Relation of the infrequent/irregular exclusion to other income exclusions, S0830.050.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date July 2008

S0810.420 \$20 PER MONTH GENERAL INCOME EXCLUSION

A. Policy

1. Unearned Income

We exclude the first \$20 per month of any unearned income other than income based on need (IBON).

Do not increase the dollar amount of this exclusion when both an eligible individual and his/her eligible spouse have income. An eligible couple receives one \$20 exclusion per month.

2. Income Based on Need

Income based on need is a benefit that uses financial need as measured by income as a factor to determine eligibility.

The \$20 exclusion does **not** apply to a benefit based on need that is totally or partially funded by the Federal Government or by a nongovernmental agency.

3. Earned Income

If an individual (or couple) has less than \$20 of unearned income (other than IBON) in a month and also has earned income in that month, the remainder of the \$20 exclusion reduces the amount of the earned income.

B. References

- Income Based On Need (IBON), S0830.170
- Assistance Based On Need (ABON), S0830.175

M0810.430 PLAN FOR ACHIEVING SELF-SUPPORT (PASS)

A. Policy

Income, whether earned or unearned, of a blind or disabled recipient may be excluded if such income is needed to fulfill a plan for achieving self-support (PASS). The Social Security Administration determines if an SSI recipient is entitled to a PASS exclusion.

This exclusion does not apply to a blind or disabled individual age 65 or older, unless he/she was receiving SSI or State disability or blind payments for the month before he/she became age 65.

B. How PASS Works In Brief

PASS is an income and resource exclusion that allows a disabled or blind person to set aside income and/or resources for a work goal such as education, vocational training, or starting a business. Individuals can *also* set aside funds to purchase work-related equipment.

PASS can help an individual establish or maintain SSI eligibility and can also help increase or help maintain the individual's SSI payment amount. *The PASS exclusion applies to the individual's SSI eligibility and is not evaluated by the Medicaid eligibility worker.*

C. References

- IRWE and PASS exclusions both apply, S0820.545 B.3.

VERIFYING AND ESTIMATING INCOME

S0810.500 INCOME VERIFICATION

A. Policy Principles

1. Why Verification is Necessary

Although Medicaid does not determine Medicaid eligibility solely on the basis of statements concerning eligibility factors by applicants and recipients, for all case actions as of October 26, 2019, attestation of income will be accepted absent evidence to the contrary. We verify relevant information from independent or collateral sources, and obtain additional information as necessary to be sure that eligibility is determined correctly.

2. All Situations

a. Individual's Attestation

Obtain a statement over the individual's signature concerning the type, amount, frequency, or predictability of income. The statement or similar information on the application or redetermination form, is sufficient documentation. Absent evidence to the contrary, accept the individual's attestation.

b. Evidence Disagrees with Attestation

If there is evidence which disagrees with the individual's attestations, develop and document under the appropriate income rules.

2. Applicants/ Recipient's Responsibility

A person applying for or receiving Medicaid must give the local Department of Social Services (LDSS) any requested information and show necessary documents or other evidence to establish the amount of the individual's income.

B. Operating Policy

1. Burden of Proof

Applicants and recipients (or their representative payees) are responsible for providing LDSS with proof of income *if requested* and for reporting any changes in income.

2. Additional Verification Requirements

See the instructions for the particular type of income involved for additional verification requirements.

3. Initial Applications Versus Posteligibility Situations

Unless instructions dealing with particular types of income state otherwise, verification requirements for initial applications also apply in post eligibility situations.

M0810.600 PERIOD FOR WHICH AN ESTIMATE IS REQUIRED

A. Operating Policy

1. **Period for Which Estimate is Required**
Develop and record the best possible estimates of anticipated income, month-by-month, for the month of application or for the month of redetermination and for the next 11 months.
2. **Exceptions**
 - a. **Earlier Redetermination or Review of Income**
Some applications or cases will undergo a review of income sooner than the period mentioned in 1. above.
 - **For initial applications**
estimate future income for the month of application through the month the next review of income will be completed.
 - **For redeterminations, or reviews of income**, estimate future income through the month the next review of income will be completed.
 - b. **Net Earnings from Self-Employment**
Estimate net earnings from self-employment on the basis of a taxable year. See S0820.230 for more information on estimating net earnings from self-employment.

B. Documentation

If the period for estimating income is shortened because of one of the exceptions in A.2. above, show in the file the basis for using these procedures (e.g., that a critical birthday is upcoming or that an individual's estimated earned income for each month never exceeds \$65).

C. Examples

1. **Initial Application Deferred Development**
Mr. Sam Polk files for Medicaid in March based on disability. His only income consists of rental income which varies from month-to-month. The EW obtains estimates of Mr. Polk's net rental income for the period from the month of application until a review of income will be completed (based on the EW's judgement).
2. **Review of Income**
Ms. Jennifer Wilks, an aged individual, undergoes a redetermination in October. Her only income consists of fluctuating wages from a part-time seasonal job. Since Ms. Wilks' job will end in January, the EW documents that and notes the case for a special review.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date October 2019
Subchapter Subject M0810 GENERAL - ABD INCOME RULES	Page ending with M0810.610	Page 27

M0810.610 HOW TO ESTIMATE INCOME

A. Operating Policy

1. **Monthly Estimates** Estimate future income monthly.
2. **Fluctuating Income** When income fluctuates, use previous months' actual receipts *or written attestation* to project future anticipated monthly income.
 - a. **Individual's Attestation**

Obtain a statement over the individual's signature concerning the type, amount, frequency, or predictability of income. The statement or similar information on the application or redetermination form, is sufficient documentation. Absent evidence to the contrary, accept the individual's attestation.
 - b. **Evidence Disagrees with Attestation**

If there is evidence which disagrees with the individual's attestations, develop and document under the appropriate income rules. The anticipated income should be an accurate indication of the individual's future income situation.
3. **Income Expected Less Than Once a Month** Determine the specific month(s) of receipt and use the amount(s) estimated for the appropriate month(s).
4. **Converting to Monthly Totals** To estimate income for Medically Needy Income evaluation convert to a monthly total, then multiply by number of months in the spenddown time frame.
 - Weekly income is multiplied by 4.3,
 - Biweekly income is multiplied by 2.15,
 - dividing biweekly wages by 2 and multiplying by 4.3., or
 - semi-monthly income multiplied by 2.

B. Operating Procedure

1. **When a Change Occurs** An anticipated change in income occurs when you expect an individual's income to start, to stop, or to come in at a different rate in the future.
2. **How to Develop a Change** When you anticipate an increase in income, use only that income which the individual is reasonably sure he will receive.
 Except in self-employment situations (S0820.230), do not compute on the basis of an anticipated decrease in or termination of income unless that decrease or termination can be verified. Instead, tell the individual what income has been used in the computation and that he should report immediately when a decrease or termination can actually be verified so that appropriate adjustment can be made.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date October 2019
Subchapter Subject M0810 GENERAL - ABD INCOME RULES	Page ending with M0810.610	Page 28

3. Example

Anticipated Decrease in Income

Mr. Danny Kelp, a student child, receives support payments from an absent parent. These payments are \$160 a month. In March, Danny's father begins a new job which pays less money. Danny notifies his EW that, based on his father's decrease in salary, he expects his support payments to decrease to \$125 a month. The EW includes \$160 unearned income in Danny's countable income computation, and tells him to report immediately when it can be verified that the payments have decreased.

C. Documentation

1. What the File Must Contain

The file must contain the estimates used.

2. Who May Provide an Estimate

Estimates of income may come from the applicant/recipient, representative, worker, or deemor.

3. Resolve any Discrepancy

If information received from an employer concerning current or future rate of pay is discrepant with an estimate provided by the applicant/recipient, representative payee, worker, or deemor, you must resolve the discrepancy.

4. Additional Documentation Requirements

See the specific sections dealing with the type(s) of income involved to determine if there are additional documentation requirements.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0810 GENERAL - ABD INCOME RULES	Page ending with M0810.700	Page 29

INCOME OF MEMBERS OF RELIGIOUS ORDERS WHO TAKE A VOW OF POVERTY

M0810.700 GENERAL

A. Introduction

The policy and procedures in this section apply only to members of religious orders who have taken a vow of poverty. No other special provisions apply to Medicaid eligibility determinations for members of religious orders.

The existence of a vow of poverty is a factor in determining whether cash earnings are considered wages or net earnings from self-employment. The existence of a vow of poverty is also a factor in determining if payments made by a member to the order can be considered contributions for food, clothing, or shelter.

B. Policy

The treatment of income to members of religious orders who take a vow of poverty is determined by the source and nature of such income.

1. Earned Income -- Wages

Cash for members of religious orders who take a vow of poverty is considered wages in any of the following situations:

An individual receives compensation from the order as an active, working member of that order, whether or not the religious order has elected title II coverage.

EXAMPLE: A member of an order works at a hospital which is owned and operated by the order. The member's compensation of \$150 per month from the order is earned income.

An active, working member of a religious order receives compensation for performing services from an agency of the church supervising the order or from an affiliated institution, whether or not the religious order has elected title II coverage.

EXAMPLE: A member of an order teaches at a school which is an affiliate of the order's supervising church. The school pays the member \$300 per month which is turned over to the order. This amount is earned income.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0810 GENERAL - ABD INCOME RULES	Page ending with M0810.700	Page 30

A member of a religious order receives compensation from a third party for services performed as an employee.

EXAMPLE: A member of a religious order also works for a private firm which pays her \$250 per month as a computer programmer. This amount is earned income.

**2. Earned
Income --
NESE**

Remuneration for members of religious order who take a vow of poverty is considered earnings from self-employment only when a member engages in self-employment unrelated to his/her membership in the order.

EXAMPLE: A member of a religious order, who is a recognized ornithological expert, submits articles to a magazine, on a free lance basis, for publication. Any remuneration received is treated as net earnings from self-employment.

**3. Unearned
Income--From
the Order**

Any income provided by the order to a member who has taken a vow of poverty, which does not fall under 1. and 2. above, is unearned income to the member even if turned over to the order.

EXAMPLE: A cash stipend paid to an inactive member, or a payment unrelated to a member's work, that is made by the order to a member is unearned income.

Food, clothing, or shelter that is not considered part of a member's wages is in-kind support and maintenance and is not considered income.

Any income or resources turned over by the member to the order are considered to be in fulfillment of the vow of poverty and are **not** considered contributions for food, clothing, or shelter received from the order.

**4. Unearned
Income--From
Outside the
Order**

Unearned income received by a member from any source other than the order (e.g., title II or VA benefits) is income to the member even if the member turns it over to the order.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0810 GENERAL - ABD INCOME RULES	Page ending with M0810.700	Page 31

C. Procedure

Use the following steps to process initial applications and post-eligibility changes involving income of members of religious orders who have taken the vow of poverty.

1. Vow of Poverty Allegation

Accept an individual's allegation that he/she has taken a vow of poverty unless there is a reason to doubt the allegation.

2. Wages-- Performing Services For the Order

When a member is performing services for the order, contact the order and document the value of remuneration received in cash as wages per S0820.130

3. Wages -- Performing Services Outside the Order

When a member is performing services for an affiliate of the order, and/or is employed by a third party, develop and document these earnings as wages per S0820.130.

4. Other Income

Apply the appropriate operating instructions pertaining to other types of earned and unearned income.

WHAT IS NOT INCOME

M0815.001 WHAT IS NOT INCOME-GENERAL

A. Introduction

Some items that an individual receives are not income because they do not meet the definition of income in S0810.005 A. Other items are income but are excluded by statute (see S0830.099). In making income determinations, the eligibility worker (EW) must distinguish between an income exclusion and an item which is not income by definition. Only those items specifically listed in the law and regulations can be excluded from income.

B. Policy

An item received is not **income** if it is not cash, or its equivalent, or listed in this chapter. Contributions of in-kind items are not income.

An item which is not income when received by an individual, if retained until the following month, is subject to evaluation as a resource as of the first of the month after the month of receipt. (See S1110.600.)

C. Procedure

1. Is the Item Income?

In evaluating whether an item meets the definition of income, determine if it is:

- cash, *or its equivalent*
- **not** listed in this subchapter

If the item is **neither** of the above, consider it as not income.

2. Need to Document

Do not document the receipt of those items listed in this subchapter which are not income unless:

- Documentation is required by specific operating instructions elsewhere (e.g., rebates and refunds in S0815.250); or
- It is material to an eligibility computation.

D. References

- Treatment of income which is subject to garnishment, S0810.025.
- Treatment of contributions made to and benefits received from a cafeteria plan, M0820.102.

S0815.050 MEDICAL AND SOCIAL SERVICES, RELATED CASH AND IN-KIND ITEMS

A. General

Policy Principle: Medical and social services are **not income** for purposes of the Medicaid program. Under the circumstance specified in this section, cash and in-kind items received in conjunction with medical and social services are not income for Medicaid purposes.

1. Governmental Services

Assume that government medical and social service programs which provide cash or in-kind items are authorized to provide such items only in order to provide a medical or social service. Therefore, when an individual alleges receiving cash or in-kind items from a governmental medical or social service program, develop only the source of the item, not its purpose.

2. Non-governmental Services

Do not assume, however, that cash or in-kind items provided by a nongovernmental medical or social service organization can only be for medical or social service purposes. When a nongovernmental medical or social service organization is involved, develop both the source and the purpose of the cash or in-kind item. Subsection B. through E. explain the guidelines for determining whether or not the cash or item is income.

3. Do Count-Sheltered Workshop Income And Incentive Payments

Do not apply the rules in this section to two kinds of payments which, although commonly associated with medical or social services, are income, regardless of the source of payment.

1. Remuneration for work or for activities performed as a participant in a program conducted by a sheltered workshop or work activities center is earned income. See S0820.300.
2. Incentive payments to encourage individuals to utilize specified facilities or to participate in specified medical or social service programs are unearned income, to the extent that these payments are unrestricted as to use and are not reimbursement for medical or social services already received. Accept the individual's allegation as to the purpose and the amount of the payment; however, if the person does not know this information or if there is reason to question his statement, verify the information by obtaining documentary evidence or by contacting the source of the payment.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0815 WHAT IS NOT INCOME	Page ending with S0815.050	Page 3

B. Medical Services

1. General

a. Definition

Medical services are those services which are directed toward diagnostic, preventive, therapeutic, or palliative treatment of a medical condition and which are performed, directed, or supervised by a State licensed health professional. The term “medical services” also includes any room and board (i.e., food and shelter) provided during a medical confinement (S0815.100), as well as in-kind medical items such as prescription drugs, eyeglasses, prosthetics and their maintenance, etc. For Medicaid purposes, in-kind medical items also include devices intended to bring the physical abilities of a handicapped individual to a par with a nonhandicapped unaided individual (e.g., electric wheelchairs, modified scooters). Furthermore, for Medicaid purposes, in-kind medical items include specifically trained animals (e.g., seeing eye dogs) and their maintenance (e.g., dog food). Under the definition, an automobile or van intended for street use would not be considered wholly a medical item but any modifications made to an automobile or van in order to accommodate a physically handicap individual would be a medical item and there fore the modification would not be income upon receipt. (See S1120.110 ff. for resource guidelines.) Transportation to and from medical treatment is also considered a medical services.

b. Sources of Medical Services

Medical services may be provided directly by treatment facilities or practitioners. They may also be made available indirectly through a variety of other sources. Some examples of Federal medical services programs are Medicare and CHAMPUS (Civilian Health and Medical Plan for the Uniformed Services). Similar medical services may be provided by or made available through other Federal programs, State and local government programs, private profit and nonprofit organizations (including charities, special funds benefiting an individual or a limited group of people, and medical insurers) and private individuals.

2. Treatment of Medical Services as Income

Medical services (which include in-kind medical items) are never income regardless of the source of the service or the source of payment for the service.

When cash or an in-kind item (other than a medical item, as defined above) is received by an individual in conjunction with a medical service, see D. below in order to determine whether the item is income.

NOTE: Payments by a third party or an individual’s medical insurance premiums are not considered a medical service; however, these payments are not income per S0815.400. Also, items which do not qualify as a medical service may qualify as items received in conjunction with a social service and may not be income. See D. below.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0815 WHAT IS NOT INCOME	Page ending with S0815.050	Page 4

C. Social Services

1. General

For Medicaid purposes, use the following definition for a social service: A social service is any service (other than medical) which is intended to assist a handicapped or socially disadvantaged individual to function in society on a level comparable to that of an individual who does not have such a handicap or disadvantage.

Cash received from a medical or social services program or organization is **not income** under the conditions described below.

2. Several Examples of Frequently Encountered Social Services Programs

- a. Title XX of the Social Security Act provides services directed at the following goals:
 - 1) Achieving or maintaining economic self-support to prevent, reduce, or eliminate dependency;
 - 2) Achieving or maintaining self-sufficiency, including reduction or prevention of dependency;
 - 3) Preventing or remedying neglect, abuse, or exploitation of children and adults unable to protect their own interests; or preserving, rehabilitating, or reuniting families;
 - 4) Preventing or reducing in appropriate institutional care by providing for community-based care, home-based care, or other forms of less intensive care; and
 - 5) Securing referral or admission for institutional care when other forms of care are not appropriate, or providing services to individuals for institutions.
- b. Title IV-B of the Social Security Act, Child Welfare Services, provides for:
 - 1) Public social services which supplement, or substitute for, parental care and supervision for the purpose of preventing, remedying, or assisting in the solution of problems which may result in the neglect, abuse, exploitation, or delinquency of children;
 - 2) Protecting and caring for homeless, dependent, or neglected children;
 - 3) Protecting and promoting the welfare of children working of mothers; and

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0815 WHAT IS NOT INCOME	Page ending with S0815.050	Page 5

- 4) Otherwise protecting and promoting the welfare of children.
 - c. Title V of the Social Security Act, Maternal and Child Health and Crippled Children's Services, provides:
 - 1) Services of reducing infant mortality and otherwise promoting the health of mothers and children;
 - 2) Medical, surgical, corrective, and other services; and
 - 3) Care and facilities for diagnosis, hospitalization, and aftercare to children who are crippled or who are suffering from conditions leading to crippling.
 - d. The Rehabilitation Act of 1973 provides:
 - 1) Vocational rehabilitation services to handicapped individuals;
 - 2) Services that may improve their ability to live with greater independence by self-sufficiency;
 - 3) Services to the handicapped individuals who are homebound or institutionalized; and
 - 4) Services to promote and expand employment opportunities in the public or private sectors for handicapped individuals and to place such individuals in employment.
 - e. Some examples of governmental programs which may provide medical and social services in combination are: programs under the Lanterman Developmental Disabilities Services Act of 1976 (California), Texas State Mental Health and Mental Retardation Programs, programs under the Pennsylvania Juvenile Act, and State alcoholism programs. Typical or nongovernmental organizations that may provide medical and social services in combination are the Salvation Army and the American Red Cross. The above is not an all-inclusive list. There are social services similar to those described above that are provided by, or made available through, other Federal, State, and local government programs, private profit and nonprofit organizations (including charities) and private individuals.
- 3. Several Examples of What is Not a Social Services**
- a. Education such as that provided by the public schools and (and essentially similar programs by private and parochial schools) is generally accepted to be in a category of its own and is not considered to be a social services.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0815 WHAT IS NOT INCOME	Page ending with S0815.050	Page 6

- b. Training for a specific job skill or trade (vocational training) is not a social service. Do not confuse vocational training with vocational rehabilitation. Vocational rehabilitation refers to set of social services (not income) that is directed at bringing the abilities of the handicapped up to par with those of the non-handicapped. However, if part of the vocational rehabilitation includes vocational training, treat both as a social service (i.e., not income).
- c. Governmental income maintenance programs are not considered social services programs (e.g., Aid to Families with Dependent Children, Bureau of Indian Affairs General Assistance and/or Child Welfare Assistance, State general assistance, and Veterans Administration compensation or pension benefits).
- d. Provision of food, shelter, laundry and recreational facilities in any combination is not by itself a social services.

**D. Cash Received in
Conjunction with
Medical or Social
Services**

Cash received from a medical or social services program or organization is **not income** under the conditions described below:

**1. Governmental
Medical or
Social Services
Program**

a. Rule

Any cash (other than remuneration for sheltered employment and incentive payments) provided by a governmental medical or social services program is not income. To be considered “governmental” in this context, the program must be authorized by Federal, State or local law to make payments for medical or social services purposes. Payment from a governmental program, which is disbursed by a nongovernmental agency, is considered a payment from a governmental program for purposes of this section.

b. Development

Document the file that the source of the cash is a governmental medical or social services program. Obtain evidence from the individual that the source of the cash is a governmental medical or social services program (e.g., program identification card, notice, or award letter). If the individual has no evidence available, contact the agency or organization alleged to be providing the cash and verify it is the source of the cash.

However, if it has been established that the program’s fundamental purposed is medical or social services and the program agency or organization furnishes little or no documentary evidence to the claimant, then it is not necessary to contact the agency or organization. In these circumstances, obtain a signed statement from the individual indicating the source and amount of payments or in-kind items.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0815 WHAT IS NOT INCOME	Page ending with S0815.050	Page 7

When it is not obvious that the governmental program is a medical or social services program (e.g., when medical and/or social services are provided in conjunction with other assistance or unrelated activities), look to the stated fundamental purpose of the program which is the direct provider of the cash as stated in its authorizing law, statute, or ordinance. (For the purpose of this section, an intervening vendor is not considered the direct provider of the cash.) If the fundamental purpose of the governmental program is to provide medical or social service assistance, the cash is not income.

If you are unable to determine the fundamental purpose of the governmental program (e.g., the authorizing statute provides more than one purpose, one of which is not medical or social services, and it does not identify which one is the fundamental purpose), make your determination based on the particular case facts and circumstances involved. If unable to make such a determination, refer the case facts to the Regional Specialist for a decision.

2. Nongovernmental Medical or Social Services Organization

a. Cash Provided for Medical or Social Services Already Received

1) Rule

Any cash provided by a nongovernmental medical or social services organization (including medical and liability insurers) for medical or social services already received by the individual and approved by the organization is **not income**. However, if the individual alleges (or evidence indicates) the receipt of amounts in excess of the medical or social services expenses incurred, count the cash received in excess of the expenses as unearned income.

2) Development

Document the file that the source of cash is a nongovernment medical or social services organization. Look to the fundamental purpose of the organization in its articles of incorporation or certification as a nonprofit organization under section 501 (c) of the Internal Revenue Code.

Also document the file with a statement by the organization as to the purpose of providing the cash. If you verify the source of the cash is a nongovernment medical or social services organization and the purpose of the cash is to provide a medical or social services, the cash is not income.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0815 WHAT IS NOT INCOME	Page ending with S0815.050	Page 8

b. Cash Provided as a Payment Restricted to Future Use

1) Rule

Any cash provided by a nongovernment medical or social services organization (including medical and liability insurers) as a payment restricted to the future purchase of a medical or social services, or related excludable in-kind items, is not income.

2) Development

Document the file that the cash is provided by a nongovernment organization in accordance with the guidelines in a.2) above. Also document the file as to the purpose of a medical or social services) and that the providing program requires followup to verify that the funds were spent for the purpose given (e.g., the provider contacts the vendor or requests a receipt).

c. Flat Rate Benefit Payments from a Insurance Policy

1) Rule

Cash from any insurance policy which pays a flat rate benefit to the recipient without regard to the actual charges or expenses incurred is income. Examples of these types of insurance policies are per diem hospitalization or disability insurance, or cancer or dismemberment policies.

2) Development

When cash from a flat rate benefit insurance policy is received by a claimant/recipient, document the file as to the source and amount of the cash.

**E. In-Kind Items
Received in
Conjunction with
Medical or Social
Services**

**1. Government
Medical or Social
Services Program**

a. Rule

Any in-kind items (including food, clothing, or shelter) provided by a governmental medical or social services program (e.g., recreational equipment, magazines, toiletries) are not income unless provided as a remuneration for sheltered employment or as incentive payments. Note that in-kind medical items are **never income** regardless of their source (see B. above).

To be considered “government” in this context, the program must be authorized by Federal, State or local law, statute, or ordinance to provide medical or social services.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0815 WHAT IS NOT INCOME	Page ending with S0815.050	Page 9

b. Development

Unless an in-kind medical item is involved, follow the general guidelines in D.1.b) above, and document the file that the purpose of the governmental program involved is to provide medical or social services. Do not count as income any in-kind items provided by the government medical or social services program. It is not necessary to develop for the reason the in-kind items are provided when a governmental medical or social services program is involved. It is necessary only to develop the source.

In-kind medical items are **not income** regardless of their source. If an item meets the definition of an in-kind medical item as defined in B. above, no further development is needed.

2. Nongovernment Medical or Social Services Organization

a. Rule

In-kind items (other than food, clothing or shelter) provided by a nongovernmental medical or social services program (e.g., recreational equipment, magazines, toiletries) for medical or social services purposes are **not income**.

b. Development

In-kind medical items are not income regardless of their source, if an item meets the definition of an in-kind medical item as defined in B. above, no further development is needed. When other in-kind items (not including food, clothing, or shelter) are alleged to be received in conjunction with a medical or social service, document the file that the item is provided by a nongovernmental medical or social services organization for medical or social services purposes in accordance with the guidelines in D.2.a.2) above. If you verify the source of the cash is a nongovernmental medical or social services organization and the purpose of the time is to provide a medical or social services, the item is **not income**.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0815 WHAT IS NOT INCOME	Page ending with S0815.150	Page 10

F. Summary of Rules on Cash and In-Kind Items Received in Conjunction With Medical or Social Services

What follows is a summary of the rules for cash received in conjunction with medical or social services.

1. Cash Received in Conjunction with Medical or Social Services

- a. Any cash provided by a governmental medical or social services program is **not income**.
- b. Any cash from a nongovernmental medical or social services organization is **not income** when:
 1. the cash is for medical or social services already received by the individual and approved by the organization; or
 2. the cash is a payment restricted to the future purchase of a medical or social service.
- c. Cash from any insurance policy which pays a flat rate benefit to the recipient without regard to the actual charges or expenses incurred is **income**.

2. In-Kind Items Received in Conjunction with Medical or Social Services

- a. In-kind items which meet the definition of medical services in B. above are **not income** regardless of their source.
- b. Room and board providing during a medical confinement (S0815.100) is **not income**.
- c. Any in-kind items (including food, clothing, or shelter) provided by a government medical or social services program are **not income**.
- d. In-kind items (other than food, clothing, or shelter) providing a nongovernment medical or social services organization for medical or social services purposes are **not income**.

S0815.150 PERSONAL SERVICES

A. Policy

A personal service performed for an individual is not income.

B. Examples

Examples of personal services for an individual which are **not income** are:

- Mowing the lawn;
- Doing housecleaning;
- Going to the grocery; and
- Babysitting.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date July 2021
Subchapter Subject M0815 WHAT IS NOT INCOME	Page ending with S0815.250	Page 11

M0815.200 CONVERSION OR SALE OF A RESOURCE

A. Policy

Receipts from the sale, exchange, or replacement of a resource are **not income** but are resources that have changed their form.

This includes any cash or in-kind items that is provided to replace or repair a resource that has been lost, damaged, or stolen

Capital gains, which are profits made from the sale of capital assets (long-term assets such as land or buildings), are also not income. Any proceeds that remain the month after this type of sale must be evaluated as a resource.

B. Reference

See S1110.600 B.4. for a complete discussion of the policy.

C. Example

Jerry Wallace sells his 1974 Plymouth Satellite for \$300. The money he receives is not income but a resource which has been converted from one form (a car) to another form (cash).

M0815.250 REBATES AND REFUNDS

A. Policy

When an individual receives a rebate, refund, or other return of money he or she has already paid, the money returned is **not income**.

CAUTION: The key idea is applying this policy is a return of an individual's own money. Some "rebates" do not fit that category. For example, if a cooperative operating as a jointly-owned business pays a "rebate" as a return on a member's investment, this money is unearned income similar to a dividend. Developmental guidelines for interest and dividends are in S0830.500.

See M0815.270 for the treatment of *COVID-19 relief payments provided under federal law*

B. Procedure

1. General

Unless you have reason to question the situation, accept an individual's signed allegation that a rebate or refund of money is a return of money already paid and do not count it as income.

2. Questionable Situation

In questionable situations, make copies for the file of any documents in the individual's possession, and contact the source of the payment, etc. to verify that the payment is a return of money already paid.

C. Example

Rose Woods, an elderly recipient, pays property taxes on the home she lives in. Because of her low income, the city government returns part of Mrs. Woods' property taxes in the form of a check. This return of money already paid by Mrs. Woods is not income.

D. References

See S0830.705 for rules on the exclusion of certain taxes.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date July 2021
Subchapter Subject M0815 WHAT IS NOT INCOME	Page ending with S0815.300	Page 12

S0815.270 INCOME TAX REFUNDS AND CREDITS

A. Policy

1. **General** Any amount refunded on income taxes already paid is **not income**.
2. **Tax Withheld Prior to Application Date** Income tax refunds are not income even if the income from which the tax was withheld or paid was received in a period prior to application for Medicaid.
3. **Tax Refunds and Blind Work Expenses** Income tax refunds are **not income** even if the income taxes were included as work expenses of the blind.
(See S0820.535 B.3.)
4. **COVID-19 Relief Payments** *COVID-19 relief payments provided under federal law* are considered tax credits and are not countable as income, and are **not** counted as resources for **12 months following the month** of receipt. See M1130.675. Interest earned on the retained payments is countable as interest income.

S0815.300 CREDIT LIFE OR CREDIT DISABILITY INSURANCE PAYMENTS

- A. **Definition of Credit Life/Disability Insurance** Credit life and credit disability insurance policies are issued to or on behalf of borrowers, to cover payments on loans, mortgages, etc. in the event of death or disability. These insurance payments are made directly to loan or mortgage companies, etc. and are not available to the individual.
- B. **Policy**
 - Payments made under a credit life or credit disability insurance policy on behalf of an individual are **not income**.
 - Food, clothing, or shelter received as the result of a credit life or credit disability payment is **not income**.
- C. **Example** Frank Fritz, a Medicaid recipient, purchased credit disability insurance when he bought his home. Subsequently Mr. Fritz was in a car accident and became totally disabled. Because of his disability, the insurance company pays off the home mortgage. Neither the payment nor the increased equity in the home is income to Mr. Fritz.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0815 WHAT IS NOT INCOME	Page ending with S0815.350	Page 13

S0815.350 PROCEEDS OF A LOAN

A. Introduction

Proceeds of a loan are **not income** to the borrower because of the borrower's obligation to repay.

B. Policy

1. Loan Not Income

Money that a person borrows or money received as repayment of the principal of a loan is **not income**.

2. Loan Not Bona Fide

If a loan is not bona fide, the proceeds are unearned income in the month received.

3. Interest on a Loan

Interest received on money loaned is **income**.
(See S830.500 C.)

4. Buying on Credit

Items bought on credit are treated as though the individual were borrowing money and are not income.

C. References

- Definition of Bona Fide loan, S1120.220A
- Resource policy when the Medicaid applicant/recipient is the lender, S1120.220B., S1140.300.

Subchapter Subject M0815 WHAT IS NOT INCOME	Page ending with S0815.400	Page 14

S0815.400 BILLS PAID BY A THIRD PARTY

A. Policy.

Payment of an individual's bills (including supplementary medical insurance under title XVIII or other medical insurance premiums) by a third party directly to the supplier is **not income**.

B. Examples

1. Third Party Payment Does Not Result in Income

Joshua Hall, a Medicaid recipient, is unable to pay his phone bill so his sister pays the phone company with her money. Neither the payment to the phone company nor the telephone service received as a result of the payment is income because it is not food, clothing, or shelter.

C. References

- Gifts received as a result of another's payments of bills, S0830.520.
- Instructions on vendor payments which are a form of certain home energy assistance or support and maintenance assistance, S830.605.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0815 WHAT IS NOT INCOME	Page ending with S0815.450	Page 15

S0815.450 REPLACEMENT OF INCOME ALREADY RECEIVED

A. Policy

- If an individual's income is lost, stolen, or destroyed and the individual receives a replacement, the replacement is **not income**.
- Once a payment has been issued and treated as income in determination an individual's eligibility for Medicaid, the reissuance of that same payment is **not income**. For instance, if one member of a couple receives income and dies before the check is cashed, the reissued check is not income to the surviving spouse.
- On the other hand, if the original payment is not used to determine the surviving spouse's eligibility (e.g., because the couple is separated), the reissued check **is income** to the surviving spouse. (See S830.545 for the treatment of death benefits.)

B. References

- Income rules regarding replacement of a resource, S0815.200.
- Rules on erroneous payment which the individual returns, S0815.460.

C. Example

Bob Akers, a Medicaid recipient, received a replacement title II check after his regular monthly title II check was damaged in the mail. The replacement check is not income to Mr. Akers. (Mr. Akers income was counted the month the regular title II check was paid.)

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0815 WHAT IS NOT INCOME	Page ending with S0815.460	Page 16

S0815.460 RETURN OF ERRONEOUS PAYMENTS

A. Policy

A payment is **not income** when the individual is aware that he/she is not due the money and returns the check uncashed or otherwise refunds all of the erroneously received money.

B. Procedure

1. Timely Return

If the individual returns or refunds an erroneous payment in the same or following month of receipt, accept the allegation that the money was returned and do not count the erroneous payment as income.

2. Delayed Return

If there is a delay in the return of an erroneous payment beyond the month following the month of receipt:

- verify return of the payment;
- document the reason for the delay (e.g., lengthy hospital stay) and any other relevant facts; and
- record your determination in the file.

C. Example

In August, Bob Brown states that he received his regular January VA pension check of \$290. However, during the latter part of January, he received another \$290 VA check along with a letter explaining that his January check had been delayed due to a computer error. Mr. Brown explains that he knew the second check was a duplicate and says he had not been able to return it sooner due to illness. The EW verifies the return of the \$290 check in July as well as Mr. Brown's illness. The EW then makes a determination concerning Mr. Brown's income and records it in the file.

S0815.500 WEATHERIZATION ASSISTANCE

- A. Policy** Weatherization assistance (e.g., insulation, storm doors, and windows, etc.) is **not income**.
- B. Reference**
- Treatment of certain home energy assistance and support and maintenance assistance, S0830.605.

S0815.600 WAGE-RELATED PAYMENTS

- A. Introduction** Employers make various payments on behalf of their employees which are not earnings and are not available to meet the employee's needs of food, clothing, or shelter.
- B. Policy** The following payments by an employer are **not income** unless the funds for them are deducted from the employee's salary:
- funds the employer uses to purchase qualified benefits under a cafeteria plan;
 - employer contributions to a health-insurance or retirement fund;
 - the **employer's** share of FICA taxes or unemployment compensation taxes, in all cases;
 - the **employer's** share of FICA taxes or unemployment compensation taxes paid by the employer on wages for **domestic service in the private home of the employer or for agricultural labor only**, to the extent that the employee does not reimburse the employer.

M0820.000 EARNED INCOME

S0820.001 GENERAL

A. Policy

1. What Constitutes Earned Income

Earned income may be received in cash and consists of:

- Wages
- Net earnings from self-employment (NESE)
- Payments for services performed in a sheltered workshop or work activities center
- Earned Income Tax Credit (EITC) payments, excluded effective January 1, 1991
- Royalties earned by an individual in connection with any publication of his/her work and any honoraria received for services rendered, effective December 1, 1991.

2. Earned Income Exclusions

Although we must know the source and amount of all earned income, we do not count all of it in determining eligibility

B. References

- Wages, S0820.100
- NESE, S0820.200
- Sheltered workshop payments, S0820.300
- EITC payments, S0820.400.
- EITC exclusion effective January 1, 1991, S0820.570.

S0820.005 SICK PAY

A. Definition

Sick pay is a payment made to or on behalf of an employee by an employer or a private third party for sickness or accident disability.

B. Policy

Sick pay is either wages or unearned income. (Payments to an employee under a workers' compensation law are neither wages nor sick pay.)

The following chart shows how to treat sick pay .

WHEN RECEIVED	ATTRIBUTABLE TO EMPLOYEE'S OWN CONTRIBUTION	TYPE OF INCOME
More than 6 months after stopping work	N/A	Unearned Income
Within 6 months after stopping work	No Yes	Wages Unearned Income

C. Procedure

1. Development

To determine the 6-month period after stopping work:

- Begin with the first day of nonwork.
- Include the remainder of the calendar month in which work stops.
- Include the next 6 full calendar months.

EXAMPLE: If an individual stops work on May 5, the 6-month period begins on May 6 and runs through November 30.

2. Verification

a. General

Verify sick pay which is wages by using the wage verification procedure in S0820.135.

b. Last Day (or Month) Worked

Verify the last day (or month) worked with the employer or knowledgeable third party.

3. Documentation

Document the file with the employer/third party's statement or record contact showing the last day (or month) worked.

D. References

- Workers' compensation, S0830.235.
- Sick pay as unearned income, S0830.543.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date March 2011
Subchapter Subject M0820 EARNED INCOME	Page ending with S0820.100	Page 3

WAGES

S0820.100 GENERAL

A. Definition

Wages are what an individual receives (before deductions) for working as someone else's employee.

NOTE: Under certain circumstances, services performed as an employee are deemed to be self-employment rather than wages (e.g., ministers, real estate agents, sharefarmers, *newspaper vendors*, etc.). *An S Corporation may pay wages to an individual who performs work-related services and is considered an employee of the S Corporation (i.e. President), even if the individual is a shareholder of the S Corporation.*

B. Policy

1. Kinds of Wages

Wages may take the form of:

- a. **Salaries**--These are payments (fixed or hourly rate) received for work performed for an employer.
- b. **Commissions**--These are fees paid to an employee for performing a service (e.g., a percentage of sales).
- c. **Bonuses**--These are amounts paid by employers as extra for past employment (e.g., for outstanding work, length of service, holidays, etc.)
- d. **Severance pay**--This payment made by an employer to an employee whose employment is terminated independently of his wishes.
- e. **Military basic pay**--This is the service member's wages, which is based solely on the member's pay grade and length of service. See S0830.540 C.3.
- f. **Special payments received because of employment.**
- g. **Sick pay received within 6 months after stopping work, which is not attributable to the employee's contribution**--See S0820.005

2. When To Count

Wages for each month count at the earliest of the following points:

- when they are received, or
- when they are credited to the individual's account, or
- when they are set aside for the individual's use.

C. Procedure

Absent evidence to the contrary, if FICA taxes have been deducted from an item, assume it meets the definition of wages. If FICA taxes have not been deducted from an item, determine if it is wages per S0820.102.

D. References

- Work related unearned income, S0830.530.
- Advance dated checks, S0810.030 B.2.
- Wage advances and deferred wages, S0820.115.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0820 EARNED INCOME	Page ending with S0820.102	Page 4

S0820.102 CAFETERIA PLANS

A. Definitions

A cafeteria plan is a written benefit plan offered by an employer in which:

1. Cafeteria Plans

- all participants are employees; and
- participants can choose, cafeteria-style, from a menu of two or more cash or qualified benefits.

2. Qualified Benefits

A qualified benefit is a benefit that the Internal Revenue Service (IRS), by express provision of Section 125 of Chapter 1 of the Internal Revenue Code (IRC) or IRS regulations, does not consider part of an employee's gross income. Qualified benefits include, but are not limited to:

- accident and health plans (including medical plans, vision plans, dental plans, accident and disability insurance);
- group term life insurance plans (up to \$50,000);
- dependent care assistance plans; and
- certain stock bonus plans under section 401(k)(2) of the IRC (but not 401(k)(1) plans).

Cash is **not** a qualified benefit.

3. Salary Reduction

A salary reduction agreement is an agreement between employer and employee whereby the employee, in exchange for the right to participate in a cafeteria plan, accepts a lower salary or forgoes a salary increase.

B. Background

1. IRS Authority

Section 125 of the IRC permits cafeteria plans.

2. Monitoring

IRS relies on employers to ensure that IRS-approved plans continue to meet the requirements of Section 125 of the IRC.

3. Funding

Most cafeteria plans are funded by salary-reduction agreements.

4. Significance for Tax Purposes

Because Section 125 of the IRC provides that qualified benefits and the amount of a salary-reduction agreement are not part of gross income, they are not subject to Social Security/Medicare and income taxes.

5. Cafeteria Plan Indicators

It can be difficult to tell whether payslip entries represent payroll deductions, which are part of gross wages, or cafeteria-plan itemizations, which are not. The following indicators suggest a cafeteria plan.

- a. A payslip uses terms such as:
 - FLEX
 - CHOICES
 - Sec. 125
 - Cafe Plan

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0820 EARNED INCOME	Page ending with S0820.102	Page 5

- b. The Social Security/Medicare tax shown is less than the tax rate (7.65%) times the gross wages shown.

EXAMPLE: A payslip shows \$402.07 gross and \$26.73 withheld for Social Security/Medicare taxes, but 7.65% of \$402.07 is \$30.76.

NOTE: Another reason the Social Security/Medicare tax can be less is that part of the gross may not be covered wages for title II purposes. Examples include:

- earnings from noncovered employment;
- wages excluded from coverage because of quarterly or calendar-year minimums in such areas as agricultural labor, domestic employment, etc., and
- wages excluded from coverage because they are above the yearly maximum.

C. Policy

1. General

A plan is not a cafeteria plan unless it meets the requirements of Sec. 125 of the IRC.

2. Salary Reductions

Amounts used to purchase cafeteria-plan benefits under a salary-reduction agreement **are not** the employee's wages and **are not** earned income for Medicaid purposes.

3. Payroll Deductions

Payroll deductions used to purchase cafeteria-plan benefits in addition to or instead of as provided under a salary-reduction agreement **are** the employee's wages and **are** earned income.

IMPORTANT: Payslips that appear to show payroll deductions may actually show how funds from a salary reduction agreement have been allotted among qualified benefits.

4. Cash Received Under a Cafeteria Plan

a. In Lieu of Benefits

Cash received under a cafeteria plan in lieu of benefits is wages.

b. Reimbursement for Expenses

Cash received as reimbursement for qualified-benefit expenses, such as child care, is not income.

5. Qualified Benefits

Qualified benefits are neither earned nor unearned income.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0820 EARNED INCOME	Page ending with S0820.102	Page 6

D. Procedure

1. **Assumption of Compliance** Assume that a cafeteria plan complies with IRS requirement, unless you become aware that IRS has determined otherwise.
2. **How to Develop Cafeteria Plan Precedents**

If a precedent is needed per 3. below, contact the employer (by phone, if possible) and ask if the employer offers a cafeteria plan. Proceed as follows:

 - a. **Employer Does Not Offer a Cafeteria Plan**

Prepare and retain in files a precedent showing:

 - employer name, address, and phone number;
 - name and title of person contacted; and
 - a statement that the employer does not offer a cafeteria plan.
 - b. **Employer Offers a Cafeteria Plan**

Prepare and retain in the files a precedent showing:

 - employer name, address, and phone number;
 - name and title of person contacted;
 - effective date of the plan;
 - employee positions covered by the plan;
 - benefits offered under the plan;
 - which deductions on the paystips are nontaxable; and
 - any additional information needed to determine countable gross wages from paystips.

NOTE: Precedents should be updated periodically.
3. **Case Development and Documentation**

Follow the steps below to:

 - decide whether cafeteria-plan development is needed and, if so,
 - establish whether a cafeteria plan is involved and, if so,
 - determine countable wages.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0820 EARNED INCOME	Page ending with S0820.102	Page 7

NOTE: It is not necessary to separately document responses to the questions in the chart below, except where indicated.

STEP ACTION

- 1 Are payslips available to verify wages?
 - If you, go to step 2.
 - If no, verify wages with the employer per S0820.130. STOP.
- 2 Does a cafeteria-plan precedent exist for this employer?
 - If yes, use it to compute countable wages and go to Step 7.
 - If no, go to Step 3.
- 3 Ask the individual if he/she participates in a cafeteria plan.
 - **If yes or uncertain**, or there is any indicator of a cafeteria plan, such as those in B.5. above go to Step 4.
 - If **no**, and there is no other indication of a cafeteria plan, compute countable wages accordingly. STOP.
- 4 Is the employer's payroll office located in your service area?
 - If yes, go to Step 6.
 - If no, go to Step 5.
- 5 Request a precedent from the employer's servicing your area. If none exists, ask the servicing RO to develop one per D.2. above.

Upon receipt of the precedent, compute wages. Retain a copy of the precedent. Go to Step 7.

NOTE: If a precedent cannot be established (e.g., employer will not cooperate), do not attempt to determine whether certain payslip entries represent cafeteria-plan itemizations; verify wages with the employer per S0820.130. STOP.
- 6 Contact the employer and develop a precedent per D.2. above.
 - If a **precedent can be established** (including a negative precedent), use it to compute countable wages, retain it, and go to Step 7.
 - If a **precedent cannot be established** (e.g., employer refuses to cooperate), do not attempt to determine whether or not payslip entries represent cafeteria-plan itemization; verify wages with the employer per S0820.130. STOP.
- 7 Document the case file with a statement that a precedent exists and that there is or is not a cafeteria plan.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0820 EARNED INCOME	Page ending with S0820.102	Page 8

E. Examples

- 1. Employee Chooses Not to Join a Cafeteria Plan**

ABC, Inc. offers a cafeteria plan funded through a salary-reduction agreement. An employee who decides not to participate receives cash equal to or less than the amount the employer would have contributed as a premium on behalf of the employee. Mr. Green takes the cash. The cash is wages.
- 2. Salary Reduction**

Mr. Black has the option of accepting a \$100-a-month raise or participating in a cafeteria plan by entering into a salary-reduction agreement and allowing his employer to use \$100 to help fund the plan. He enters into the salary-reduction agreement. The \$100 is not part of his wages.
- 3. No Salary Reduction, But Contributions Allowed**

The XYZ Company contributes \$50 a week to fund basic benefit levels under a cafeteria plan that offers cash and a variety of insurance coverages. There is no salary-reduction agreement.

Employees who want more than the basic benefits may pay the additional cost through voluntary payroll deductions.

Mrs. Grey chooses health insurance and life insurance costing \$83 per week. XYZ's \$50 contribution is not wages. The \$83 Mrs. Grey pays is part of her gross wages.
- 4. Cash in Lieu of Benefits**

Same background as in 3. above. Mr. Brown selects insurance that costs \$35 a week and opts for a weekly cash payment of \$15 in lieu of additional coverage. XYZ's \$35 contribution is not wages, but the \$15 cash payment is.
- 5. Cash as Reimbursement for Plan-Approved Expenses**

Same background as in 3. and 4. above. Mrs. White selects insurance that costs \$30 a week and childcare benefits that cost \$20 a week. Neither XYZ's contribution nor the reimbursements of childcare costs are wages.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0820 EARNED INCOME	Page ending with S0820.115	Page 9

S0820.115 WAGE ADVANCES AND DEFERRED WAGES

A. Definitions

1. **Wage Advances** Advances are payments by an employer to an individual for work to be done in the future.
2. **Deferred Wages** Wages are considered "deferred" if they are received later than their normal payment date. Types of wage payments which may be deferred include vacation pay, dismissal and severance pay, back pay, bonuses, etc.

B. Policy

1. **Wage Advances** An advance is wages in the month received.
2. **Deferred Wages**
 - a. Wages that are deferred **due to circumstances beyond the control of the employee** are considered earned income when actually received.
 - b. Wages that are deferred **at the employee's request or by mutual agreement with the employer** are considered earned income when they would have been received had they not been deferred.

C. Procedure

1. **Wage Advance** Assume that an advance on wages meets the definition of wages (as opposed to being a loan), absent evidence to the contrary. Count such advances on wages as income when received.

NOTE: Advance military pay is a cash loan. See S0830.540 B.9.

2. **Deferred Wages** If the individual alleges or other evidence shows that wages were deferred, request from the employer an explanation of the reason for the deferment.

IF the employer . . .
provides an explanation

THEN . . .
document the file with the employer's explanation.

is uncooperative but the individual
satisfactorily explains

document the file with the individual's signed statement.

is uncooperative and the individual
cannot satisfactorily explain

document the file with a statement to that effect and assume
that the wages were available to the employee when they
would have been received had they not been deferred.

D. References

- Advance pay to members of the Uniformed Services, S0830.540 B.10.
- Loans, S0815.350.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date October 2019
Subchapter Subject M0820 EARNED INCOME	Page ending with M0820.127	Page 10

M0820.125 WAGE VERIFICATION IS REQUIRED

A. Policy

1. When to Verify Wages

Verification of wage amounts and frequency of receipt is required whenever an individual alleges (or you believe) he received wages, sick pay, or temporary disability. *For all case actions effective October 26, 2019, a written attestation may be used to project future anticipated monthly income.*

a. Individual's Attestation

Obtain a statement over the individual's signature concerning the type, amount, frequency, or predictability of income. The statement or similar information on the application or redetermination form is sufficient documentation. Absent evidence to the contrary, accept the individual's attestation.

b. Evidence Disagrees with Attestation

If there is evidence which disagrees with the individual's attestations, develop and document under the appropriate income rules. The anticipated income should be an accurate indication of the individual's future income situation.

2. When Not to Verify Wages

Wage Verification Is Not Required When:

- *No available evidence disagrees with the individual's attestation, or*
- *The individual alleges he has not worked or received earnings (e.g., wage/sick pay) in any month from the first month of the retroactive period through the application month and you have no reason to question the allegation, or*
- *The individual is being denied Medicaid for reasons other than earnings/income.*

M0820.127 PERIOD FOR WAGE VERIFICATION

Procedure

If income *reasonable compatibility* cannot be verified using electronic data sources, including the Federal Data Hub, the Virginia Employment Commission, or the Work Number, verify:

At initial application

- wages received in all retroactive months, (if a medical expense exists),
- wages for the month of application, if the applicant alleges that wages have been paid.
- wages received in the month of application, and
- wages received after month of application but prior to processing the application **if** the applicant alleges that a change in wages has occurred.
- wages used to estimate anticipated income.

At redetermination or review of income

- all unverified wages through the month immediately preceding the month the redetermination or review of income is initiated, unless
- employment began in current month.

NOTE: Obtain employer statement regarding wages (i.e., hourly wage, number of work hours per pay period, receipt of pay).

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date October 2019
Subchapter Subject M0820 EARNED INCOME	Page ending with M0820.130	Page 11

M0820.130 EVIDENCE OF WAGES OR TERMINATION OF WAGES

A. Policy

1. **Primary Evidence of Wages**
The following proofs, in order of priority, are acceptable evidence of wages:
 - a. Verifications of income *received from or reasonable compatibility* with electronic data sources, including the Virginia Employment Commission (VEC), *Federal Data HUB or The Work Number*.
 - b. Pay slips--Must contain the individual's name or Social Security number, gross wages, and period of time covered by the earnings.
 - c. Oral statement from employer, recorded in case record.
 - d. Written statement from employer.
2. **Secondary Evidence of Wages**
If primary evidence is not available, the following proofs, in order of priority, are acceptable evidence of wages:
 - a. W-2 forms, Federal or State income tax forms showing annual wage amounts.
 - b. Individual's signed allegation of amount and frequency of wages.
3. **Acceptable Evidence of Termination of Wages**
The following proofs, in order of priority, are acceptable evidence of termination of wages:
 - a. Verifications from electronic data sources, including the Virginia Employment Commission (VEC).
 - b. Oral statement from employer, recorded in case record.
 - c. Written statement from employer.
 - d. Individual's signed allegation of termination of wages (including termination date and date last paid).

B. Procedure

1. **Order of Priority**
Seek type "a" evidence before type "b," etc.
2. **Pay Slips**
 - a. Stress to the individual that he/she is responsible for providing proof of wages *if not available from an electronic source* and is expected to retain all pay stubs and provide them as requested.
 - b. Accept the individual's signed allegation of when earnings were received if it is not shown on the pay slip.

NOTE: If not all pay slips are available, but the wages attributable to the missing pay slip(s) can be determined by other evidence (e.g., year-to-date totals), it is not necessary to obtain the missing pay slip.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date July 2017
Subchapter Subject M0820 EARNED INCOME	Page ending with M0820.130	Page 12

NOTE: Pay slips which do not contain all the required information may be used in conjunction with other evidence; however, any discrepancies must be resolved.

3. Employer Reports

If an employer returns a statement to the EW unsigned, do not recontact the employer for a signature unless the EW questions the statement's validity (e.g., the income verification form was hand-carried to the LDSS by the applicant rather than mailed directly to the LDSS).

4. Evidence Reflects Only an Annual Wage Amount

If the evidence that can be obtained reflects only an **annual** wage amount, divide the annual amount by 12 to get monthly wage amounts.

C. References

- Military pay and allowances, S0830.540.

S0820.150 ESTIMATING FUTURE WAGES

A. Policy

You must obtain an estimate of future wages during an initial application, redetermination, or review of income. The period for which an estimate is required is set forth in B. below.

B. Procedure--
Estimating Period

Use the following chart to determine the period for which an estimate is required.

IF the action is ...

THEN ...

an initial application

estimate future wages for the month of application and for each of the following months until next month of review. For Medically Needy evaluations, estimate future wages for the month of application and the following 5 months (or prorated spenddown period).

EXCEPTIONS:

Earlier Review of Income-- When a review of income will occur before the next redetermination or before the spenddown period have elapsed , estimate future wages for the month of application through the month the next review of income will be completed.

All Wages Paid for Month--When an individual alleges that all wages for a month have been paid, verify wages for that month (S0820.127).

a redetermination
or review of
income

estimate future wages for the month of initiation of redetermination or review of income and for each of the remaining months until the next review or until the end of the spenddown period.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0820 EARNED INCOME	Page ending with M0820.155	Page 17

M0820.155 HOW TO ARRIVE AT AN ESTIMATE

A. Procedure-- General

1. Consider Known Facts

- a. Consider any **recent work history**, unless inappropriate to the current situation (e.g., work stopped due to retirement or disability).
- b. Try to establish a **logical wage pattern** by reviewing with the recipient, representative, or worker the
 - rate of pay,
 - hours worked per week, and
 - number of pay periods in each month.
- c. Be alert to individuals who perform **seasonal work** (e.g., school bus drivers).
- d. Take into account any Blind Work Expenses/Impairment Related Work Expenses (**BWE/IRWE**) the individual anticipates he/she will incur.

2. Obtain More Information

Contact the employer by telephone, or by mail **only if you cannot establish an estimate using 1. above.**

3. Determine Estimate

Use the information obtained above and your own judgement to determine an estimate.

To convert to monthly income:

- multiply weekly wage by 4.3; or
- multiply biweekly wage by 2.15, or
- divide biweekly wage by 2 and multiply result by 4.3; or
- multiply semi-monthly wage by 2.

B. Procedure-- Anticipated Decrease in Wages

If a worker anticipates a decrease in wages which is not supported by evidence in the file, tell the individual to inform us as soon as the decrease can be verified. We will make any adjustments at that time. An example of this situation would be a wage cutback which is still being negotiated.

Meanwhile, use your judgement in selecting the verified period on which to base the estimate. For example, it could be the total period just redetermined, or a shorter period if there has been a pertinent change in circumstances such as a transfer.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0820 EARNED INCOME	Page ending with M0820.155	Page 18

**C. Procedure--
Documentation**

1. General

Document the file to support the estimate.

**2. Estimate Not
Supported by
Evidence**

In any case where the estimate does not fall within the range indicated by the evidence of wages on file, document the file with an explanation of the basis for the estimate.

**3. Examples—
Estimate Not
Supported by
Evidence**

- A worker estimates that wages for the coming year will differ from the total verified over the past 12 months. He states he will be switched in 2 months to a shift which pays a 10 percent differential payment. Document the file with this information.
- A worker states he anticipates a cost-of-living increase in his wages. Record this fact along with any other pertinent details (such as the expected adjustment percentage and effective date) for the file.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0820 EARNED INCOME	Page ending with S0820.210	Page 19

NET EARNINGS FROM SELF-EMPLOYMENT

S0820.200 NET EARNINGS FROM SELF-EMPLOYMENT (NESE)

Definition NESE is the **gross income** from any trade or business **less allowable deductions** for that trade or business. NESE also includes any profit or loss in a partnership.

S0820.210 HOW TO DETERMINE NET EARNINGS FROM SELF-EMPLOYMENT (NESE)

A. Policy

- Determining Monthly NESE** NESE is determined on a taxable year basis. Then, the yearly NESE is divided equally among the months in the taxable year to get the NESE for each month.
- Offsetting Net Loss** Any verified net losses from self-employment are divided over the taxable year in the same way as net earnings. Then each month's net loss is deducted only from other earned income of the individual or spouse in that month.
- Deduction for Taxable Years After 1989** For taxable years beginning after 1989, a 7.65 percent deduction is applied to net profit in determining NESE. Therefore, net profit is multiplied by .9235 to determine NESE. (See S0820.220 for where to find the correct NESE amount on the Federal income tax forms.)

NOTE: This deduction recognizes, as a business expense, part of the Social Security taxes paid. If Social Security tax is not paid (e.g., in situations involving less than \$400 per year in NESE, net losses, and when no tax return was filed), the deduction does not apply.
- Minimum/Maximum Accounts Creditable** NESE is earned income for Medicaid purposes without regard to the minimum and maximum amounts creditable for title II coverage purposes.
- Computing NESE** Only the actual net earnings are used in determining NESE for Medicaid.
- Exemptions from Coverage** NESE is earned income for Medicaid purposes regardless of whether the earnings are exempt from Social Security coverage.
- Partnership** Any distributive share (whether or not distributed) of income or loss from a trade or business carried on by a partnership is included in NESE.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0820 EARNED INCOME	Page ending with S0820.210	Page 20

B. Procedure**1. Determining****Monthly NESE**

Divide the entire taxable year's NESE equally among the number of months in the taxable year, even if the business:

- is seasonal;
- starts during the year;
- ceases operation before the end of the taxable year; or
- ceases operation prior to initial application for Medicaid.

2. Offsetting Net Loss

Divide any **verified** net loss for a taxable year evenly over the months in the taxable year. Subtract each resulting monthly amount from the individual's or couple's other earnings in the same month. Apply this procedure whether a couple filed a joint income tax return or separate returns, and regardless of which member of the couples listed below incurred the loss:

- an eligible couple;
- an eligible individual with an ineligible spouse;
- two parents.

3. Work Expenses

If an individual is self-employed (whether or not he/she is also a wage earner.), reduce his/her earned income by any allowable work expenses which have not already been used to compute NESE. (See S0820.545 B.1. for necessary work expense development.)

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M08	April 2019
Subchapter Subject	Page ending with	Page
M0820 EARNED INCOME	S0820.210	21

4. Withdrawals for
Personal Use

When an individual alleges (or you discover) that cash or in-kind items are withdrawn from a business for personal use, proceed as follows:

- a. Ask the individual whether the withdrawals were **properly accounted for** in determining NESE. That is, were they either deducted on the individual's Federal income tax return in determining the cost of goods sold or the cost of expenses incurred, or deducted on his business records?
- b. Accept the individual's allegation of whether the withdrawals were properly accounted for.

IF THE WITHDRAWALS ARE...	THEN...
Properly accounted for	Do not count them again as income.
Not properly accounted for	<ul style="list-style-type: none">• Ask the individual to estimate the value of the cash or in-kind withdrawals. Deduct that amount from the cost of goods sold or the cost of expenses incurred on the profit and loss statement to arrive at the proper NESE.• If the individual cannot or will not provide the profit and loss statement, but alleges an amount of NESE, add the value of the withdrawals to the individual's allegation of NESE.

C. References

Subchapter Subject M0820 EARNED INCOME	Page ending with M0820.220	Page 22

M0820.220 HOW TO VERIFY NET EARNINGS FROM SELF-EMPLOYMENT (NESE)

A. Introduction Acceptable evidence of NESE, in order of priority, is listed in B.1. through B.3. below. C.2.describes situations in which verification is not required.

B. Policy The Federal income tax return contains evidence of NESE in the following schedules:

1. Federal Income Tax Return

a. Schedule SE

- Net earnings--Section A, line 4 or Section B, line 4.C.

NOTE: If line 4 or 4.C. shows a positive amount of less than \$400, then line 3 is used, even if the amount on line 3 is greater than \$400. For example, line 3 shows \$410 and line 4/4.C. shows \$378. Line 3 should be used because no tax was due.

- Net loss--Section A, line 3 or Section B, line 4.C.

b. **Schedule C**--Line entitled "Net Profit or Loss."

c. **Schedule C--EZ**—Line entitled "Net Profit"

c. **Schedule F**--Line entitled "Net Profit or Loss."

2. Business Records

Business records are acceptable evidence of NESE.

3. Individual's Signed Allegation

The individual's signed allegation of NESE is acceptable evidence of NESE if no other evidence can be obtained.

C. Procedure

1. When to Verify

Verify NESE per 2. below whenever self-employment is alleged or otherwise indicated, unless the individual:

- *reports income that is reasonably compatible with an accepted electronic source;*
- alleges starting a new business, and that he/she was not self-employed in the prior taxable year; or
- is being denied Medicaid for reasons other than income.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M08	November 1995
Subchapter Subject	Page ending with	Page
M0820 EARNED INCOME	S0820.220	23

2. How to Verify

a. Priority Order

Attempt to secure the evidence in the order shown in B. above.

b. NESE of Less Than \$400

Do not apply the 7.65 percent deduction in determining countable NESE if the NESE amount after the deduction would be less than \$400.

c. Business Records

- Assume that any deductions taken on business records are allowable per IRS, absent evidence to the contrary.
- Do not apply the 7.65 percent deduction in determining countable NESE, unless you have evidence that a tax return was filed and Social Security taxes were paid on the NESE.

d. Schedule C, C-EZ or F

Do not apply the 7.65 percent deduction in determining countable NESE, unless you have evidence that Social Security taxes were paid on the NESE.

e. Individual's Signed Allegation

Do not apply the 7.65 percent deduction to the alleged amount of NESE in determining the countable NESE unless you have evidence that Social Security taxes were paid on the NESE.

4. Period for Which Verification Is Required

Follow the chart below when verification is required per 1. above.

SITUATION	VERIFICATION PERIOD
Initial Application	Verify NESE for the prior taxable year. NOTE: Accept the individual’s signed allegation that self-employment terminated if: <ul style="list-style-type: none">the month of application is in the current taxable year, andthe individual alleges his/her self-employment ceased in the prior taxable year.
Redetermination or Review of Income	Verify all unverified NESE through the prior taxable year.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date October 2019
Subchapter Subject M0820 EARNED INCOME	Page ending with M0820.230	Page 24

M0820.230 HOW TO ESTIMATE NESE FOR CURRENT TAXABLE YEAR

A. Procedure

1. When an Estimate Is Needed

Unless the reported income meets the reasonable compatibility standard, estimate NESE for the current taxable year for an initial application, redetermination, or review of income when an individual alleges (or you believe) he/she is (or has been) engaged in self-employment during the current taxable year.

2. Inform the Individual

Inform the individual:

- how his/her estimated NESE was determined and its effect on eligibility.
- to promptly contact the LDSS office if any change occurs which could affect the amount of his/her estimated NESE.
- to maintain business records until a Federal income tax return is available, so he/she can report any changes promptly (when any method other than the first two in the chart in 4. below is used).
- to provide a copy of his/her Federal income tax return when it becomes available.

3. Net Loss

Do not take into account an **estimated** net loss when estimating NESE for the current taxable year.

NOTE: A net loss can only be used to offset other earnings **after** it has been verified.

4. How to Estimate NESE

Use the first of the following methods in the sequence below, which is applicable.

When the estimate is obtained using business records or the individual's allegation, ask the individual if he/she plans to file a tax return.

- If **yes** and the estimated net profit is \$400 or more after applying the multiplier, multiply the net profit by .9235 to determine the countable NESE estimate.
- If **yes** and the estimated net profit is less than \$400 after applying the multiplier, do not apply the multiplier.
- If **no**, count the net profit as the NESE estimate. Do **not** apply the multiplier.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0820 EARNED INCOME	Page ending with S0820.230	Page 25

4. How to Estimate NESE (cont.)

WHEN TO USE	METHOD
<p>When an individual:</p> <ul style="list-style-type: none"> has been conducting the same trade or business for several years; has had NESE which has been fairly constant from year-to-year; and anticipates no change or gives no satisfactory explanation of why current NESE would be substantially lower than past NESE <p>When an individual:</p> <ul style="list-style-type: none"> is engaged in the same business that he/she had only in the preceding taxable year; and anticipates no change or gives no satisfactory explanation of why current NESE would be substantially different from what it has been in the past <p>When an individual is engaged in a new business</p>	<p>Current Year's Estimate Based on Prior Year's Profit Use the NESE from the prior year as an estimate for the current taxable year.</p> <p>Gross-Net Ratio</p> <ul style="list-style-type: none"> Calculate from the individual's tax return or business records the ratio between net profit and gross receipts for the last year. EXAMPLE: Net profit of \$1,200 for \$6,000 gross income or 20 percent. Calculate from his/her records the actual gross receipts for the current taxable year and project it for the remainder of the year. EXAMPLE: \$4,000 in current year's receipts for the first 6 months gives an assumed gross of \$8,000 for the entire year. Apply the previously calculated gross-net ratio to the current year's assumed gross to arrive at the estimated NESE. EXAMPLE: 20 percent of \$8,000 is \$1,600. <p>EXCEPTION: Do not use this method for businesses which are seasonal, or have unusual income peaks at certain times of the year; go to next applicable procedure.</p> <p>Projecting Partial Year's Profit for Whole Year</p> <ul style="list-style-type: none"> Obtain the individual's profit and loss statement or other business records for his/her taxable year to date. Ascertain his/her net profit to date. Project that net profit for the entire taxable year. <p>EXCEPTION: Do not use this method for businesses which are seasonal, or have unusual income peaks at certain times of the year; go to next applicable procedure.</p>

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0820 EARNED INCOME	Page ending with S0820.230	Page 26

4. How to Estimate NESE (cont.)

WHEN TO USE	METHOD
<p>When:</p> <ul style="list-style-type: none"> an individual is engaged in a new business and records are not yet available; or the business has been going on for some time but no records were kept <p>When an individual:</p> <ul style="list-style-type: none"> alleges his/her NESE for the current year will vary from NESE for past years; and gives a satisfactory explanation for the variation 	<p>Individual's Estimate</p> <p>Use a signed allegation of the individual's best estimate.</p> <p>Current Year's Estimate Varies from Past Records</p> <ul style="list-style-type: none"> Obtain a written statement from the individual explaining the basis for the variation. If the individual's estimate of NESE for the current year is higher than that of the prior years, and the individual satisfactorily explains why, accept the individual's estimate of NESE. <p>EXAMPLE: Individual recently added new products to his mail order sales catalog and sales have picked up dramatically.</p> <ul style="list-style-type: none"> If the individual's estimate of NESE for the current year is lower than that of prior years, and the individual satisfactorily explains why, request any relevant documentation for the file and accept the lower estimate. <p>EXAMPLES:</p> <ul style="list-style-type: none"> Satisfactory Explanation--the business has suffered a heavy loss or damage due to fire, flood, burglary, serious illness or disability of the owner, or other catastrophic event. Relevant Documentation--copies of newspaper accounts of the event, police reports, etc. <p>NOTE: In some cases (e.g., downturns in the economy) there may not be any documentation of the event. In such cases, the individual's written statement explaining the basis for the variation in sufficient documentation.</p>

5. Documentation

Document the file sufficiently so that it supports the estimate made by the eligibility worker.

Subchapter Subject M0820 EARNED INCOME	Page ending with S0820.300	Page 27

SHELTERED WORKSHOP OR WORK ACTIVITIES CENTER PAYMENTS

S0820.300 PAYMENTS FOR SERVICES PERFORMED IN A SHELTERED WORKSHOP OR WORK ACTIVITIES CENTER

A. Policy

Payments for services performed in a sheltered workshop or work activities center are what an individual receives for participating in a program designed to help him become self-supporting.

Payments for such services are a type of earned income.

Payments for such services are counted when received or when set aside for an individual's use.

B. Definitions

1. Sheltered Work-Shop

A sheltered workshop is a nonprofit organization or institution whose purpose is:

- to carry out a recognized program of rehabilitation for handicapped workers; and/or
- to provide such individuals with remunerative employment or other occupational rehabilitating activity of an educational or therapeutic nature.

2. Work Activities Center

A work activities center is :

- a sheltered workshop, or
- a physically separated department of a sheltered workshop having an identifiable program, and separate supervision and records.

A work activities center is planned and designed exclusively to provide therapeutic activities for handicapped workers, whose physical or mental impairment is so severe as to make their productive capacity inconsequential.

3. Therapeutic Activities

Therapeutic activities are custodial activities (such as activities where the focus is on teaching the basic skills of living), and any purposeful activity so long as work or production is not the main purpose.

C. Procedure

Follow S0820.115 - S0820.150 to develop, document, verify and estimate remuneration for services performed in a sheltered workshop or work activities center program.

NOTE: If there is any doubt that a sheltered workshop or work activities center is involved, contact the organization for verification.

For receipt of cash or items which are not remuneration for services and therefore are not earned income, see S0810.005 A. regarding whether items of this type meet the basic definition of income for Medicaid purposes. If so, develop such income as unearned income (S0830.001).

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0820 EARNED INCOME	Page ending with S0820.450	Page 28

EARNED INCOME TAX CREDITS

S0820.400 EARNED INCOME TAX CREDITS

- A. Definition** The earned income tax credit (EITC) is a special tax credit which reduces the Federal tax liability of certain low income working taxpayers. This tax credit may or may not result in a payment to the taxpayer. EITC payments can be received as an advance from an employer or as a refund from IRS.
- B. Policy Effective January 1, 1991** Exclude from income any EITC payments received January 1, 1991 or later, either as an advance or as a refund, regardless of the tax year involved.
- C. Procedure** No development necessary.

ROYALTIES AND HONORARIA

S0820.450 ROYALTIES AND HONORARIA

- A. Definitions**
- 1. Royalties** Royalties are payments to the holder of a copyright or patent. Royalties may also be paid to the owner of a mine, oil well, timber tract, or other resource, for extraction of a product, including proceeds from the direct sale of the product.
 - 2. Honorarium** An honorarium is an honorary payment, reward, or donation usually received in consideration of services rendered (e.g., guest speaker), for which no payment can be enforced by law. However, the amount also may include payment for items other than services rendered (e.g., travel expenses and lodging).
- B. Policy**
- 1. Royalties** Royalties earned by an individual in connection with any publication of his/her work are earned income (e.g., publication of a manuscript, magazine article, artwork, etc.)
 - 2. Honoraria** The portion of any honorarium **which is received in consideration of services rendered** is earned income. An honorarium which is **not** in consideration of services rendered (e.g., for travel expenses) is unearned income to the extent that it exceeds expense. (See S0830.100 B. for expenses of obtaining income.)

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date April 2020
Subchapter Subject M0820 EARNED INCOME	Page ending with M0820.500	Page 29

C. Procedure

1. Verification

- a. Verify these payments by examining documents in the individual's possession which reflect:
 - the amount of the payment,
 - the date(s) received, and
 - the frequency of payment, if appropriate.
- b. If the individual has no such evidence in his possession, contact the source of the payment.
- c. If verification cannot be obtained by the above means, accept any evidence permitted by either S0820.130 A. or S0820.220.

2. Assumption

Assume that any honorarium received is in consideration of services rendered, absent evidence to the contrary. Evidence to the contrary would include a statement or document indicating that part or all of the honorarium is for something other than services rendered (e.g., travel expenses or lodging).

3. Expenses of Obtaining Income

DO NOT DEDUCT any expenses of obtaining income from royalties or honoraria that are earned income. (Such expenses are deductible from royalties/honoraria that are unearned income.)

4. Documentation

Document the file by including copies of documents or indicating in the file information provided by the payment source concerning the amount and, if appropriate, frequency of payment.

D. References

- Royalties as unearned income, S0830.510.
- To determine deductible IRWE/BWE, see S0820.535 - .565.

EARNED INCOME EXCLUSIONS

M0820.500 GENERAL

A. Policy

1. General

The source and amount of all earned income must be determined, but not all earned income counts when determining Medicaid eligibility.

2. Other Federal Laws

First, income is excluded as authorized by other Federal laws.

3. 2020 Census Income

Income paid by the U.S. Census Bureau to temporary employees specifically hired for the 2020 census is NOT counted when determining eligibility for medical assistance.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date January 2022
Subchapter Subject M0820 EARNED INCOME	Page ending with M0820.500	Page 30

4. Other Earned Income

Then, other income exclusions are applied, in the following order, to the rest of earned income in the month:

- a. Federal earned income tax credit payments.
- b. Up to \$10 of earned income in a month if it is infrequent or irregular.
- c. For 2022, up to \$2,040 per month, but not more than \$8,230 in a calendar year, of the earned income of a blind or disabled student child.

For 2021, up to \$1,930 per month, but not more than \$7,770 in a calendar year, of the earned income of a blind or disabled student child.
- d. Any portion of the \$20 monthly general income exclusion which has not been excluded from unearned income in that same month.
- e. \$65 of earned income in a month.
- f. Earned income of disabled individuals used to pay impairment-related work expenses.
- g. One-half of remaining earned income in a month.
- h. Earned income of blind individuals used to meet work expenses.
- i. Any earned income used to fulfill an approved plan to achieve self-support.

5. Unused Exclusion

Earned income is never reduced below zero. Any unused earned income exclusion is never applied to unearned income.

Any unused portion of a monthly exclusion cannot be carried over for use in subsequent months.

5. Couples

The \$20 general and \$65 earned income exclusions are applied only once to a couple, even when both members (whether eligible or ineligible) have income, since the couple's earned income is combined in determining Medicaid eligibility.

B. References

For exclusions which apply to both earned and unearned income, see:

- S0810.410 for infrequent/irregular income
- S0810.420 \$20 general exclusion
- M0810.430 amount to fulfill a plan for achieving self-support

For exclusions applicable only to earned income, see S0820.510 - S0820.570.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date January 2022
Subchapter Subject M0820 EARNED INCOME	Page ending with S0820.510	Page 31

S0820.510 STUDENT CHILD EARNED INCOME EXCLUSION

A. Policy

1. General

For a blind or disabled child who is a student regularly attending school, earned income is excluded under this provision, limited to the maximum amounts shown below.

For Months	Up to per month	But not more than in a calendar year
<i>In calendar year 2022</i>	<i>\$2,040</i>	<i>\$8,230</i>
<i>In calendar year 2021</i>	<i>\$1,930</i>	<i>\$7,770</i>

2. Qualifying for the Exclusion

The individual must be:

- a child under age 22; and
- a student regularly attending school.

3. Earnings Received Prior to Month of Eligibility

Earnings received prior to the month of eligibility do not count toward the yearly limit.

4. Future Increases

The monthly and yearly limits will be adjusted annually based on increases in the cost of living index. Under this calculation, these amounts will never be lower than the previous year's amounts. However, there may be years when no increases result from the calculation.

B. Procedure

1. Application of the Exclusion

Apply the exclusion:

- consecutively to months in which there is earned income until the exclusion is exhausted or the individual is no longer a child; and
- only to a student child's own income.

2. School Attendance and Earnings

Develop the following factors and record them:

- whether the child was regularly attending school in at least 1 month of the current calendar quarter, or expects to attend school for at least 1 month in the next calendar quarter, and
- the amount of the child's earned income (including payments from Neighborhood Youth corps, Work-Study, and similar programs).

Verify wages of a student child even if they are alleged to be \$65 or less per month.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date January 2018
Subchapter Subject M0820 EARNED INCOME	Page ending with S0820.510	Page 32

C. References

- Grants, scholarships and fellowships, S0830.455.
- Educational assistance with Federal funds involved, S0830.460.

D. Example
(Using January
2018 Figures)

Jim Thayer, a student child, starts working in June at a local hardware store. He had no prior earnings during the year, and he has no unearned income. Jim earns \$2,100 a month in June, July and August. In September, when he returns to school, Jim continues working part-time. He earns \$1,100 a month in September and October. Jim's countable income computation for June through October is as follows:

June, July and August

\$2100.00	gross earnings
<u>- 1820.00</u>	student child exclusion
\$ 280.00	
<u>- 20.00</u>	general income exclusion
\$ 260.00	
<u>- 65.00</u>	earned income exclusion
\$ 195.00	
<u>- 97.50</u>	one-half remainder
\$ 97.50	countable income

Jim has used \$5,460 (\$1,820 in each of the three months) of his \$7,350 yearly student child earned income exclusion.

September

\$1100.00	gross earnings
<u>- 1100.00</u>	student child exclusion
0	countable income

Jim has now used \$6,560 (\$5460 + 1100) of his \$7,350 yearly student child earned income exclusion.

October

\$1100.00	gross earnings
<u>- 790.00</u>	student child exclusion <i>remaining (\$7,350-\$6,560=\$790)</i>
\$310.00	
<u>- 20.00</u>	general income exclusion
\$290.00	
<u>- 65.00</u>	earned income exclusion
\$225.00	
<u>- 112.50</u>	one-half remainder
\$112.50	countable income

Jim has exhausted his entire \$7,350 yearly student child earned income exclusion. The exclusion cannot be applied to any additional earnings during the calendar year.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0820 EARNED INCOME	Page ending with S0820.520	Page 33

S0820.520 \$65 PLUS ONE-HALF REMAINDER PER MONTH EARNED INCOME EXCLUSION

A. Policy

- 1. Amount Excluded** \$65 per month of earned income plus one-half of the remaining earned income in the month is excluded.
- 2. Order of Exclusion** The exclusion is applied in the order shown S0820.500 A.3.

B. References IRWE exclusions, S0820.540.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0820 EARNED INCOME	Page ending with S0820.535	Page 34

S0820.535 BLIND WORK EXPENSES (BWE)

- A. Definition** BWE represent any earned income of a blind person which is used to meet any expenses reasonably attributable to earning the income.
- B. Policy** BWE are deducted from earned income if the blind person:
- 1. Eligibility Requirements**
 - is under age 65; or
 - is age 65 or older; and
 - received Medicaid due to blindness (or received payments under a former State plan for aid to the blind) for the month before attaining age 65.
 - 2. Application of Exclusion**
 - a. The BWE exclusion applies only to earned income. BWE in excess of the earned income an individual receives during the month are never deducted from unearned income.
 - b. The BWE exclusion is applied to earned income immediately after applying:
 - any portion of the general income exclusion which has not been deducted from unearned income; and
 - all other earned income exclusion except the exclusion of income used to fulfill an approved plan for achieving self-support (PASS).
 - 3. Deductible Items**
 - a. Except for items in 4. below, the cost of any work-related item paid by a blind person may be deducted as BWE, regardless of:
 - any nonwork benefit that may be derived from the item; **or**
 - the item's relationship to the person's blindness.
 - b. A blind individual can claim the amount withheld for Federal, State, and local income taxes even though other factors may affect his or her tax liability (e.g., number of dependents, business loss, etc.).
 - c. Examples of items which may be deductible as BWE are identified in S0820.555.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0820 EARNED INCOME	Page ending with S0820.535	Page 35

4. Nondeductible Items

The following items cannot be deducted from earned income as BWE:

- In-kind payments
- Expenses deducted under other provisions (e.g., PASS)
- Expenses which will be reimbursed
- Life maintenance expenses. Although not all inclusive, life maintenance items include the following:
 - meals consumed outside of work hours;
 - self-care items (including items of cosmetic rather than work-related nature);
 - general educational development;
 - savings plan (e.g., Individual Retirement Accounts (IRA'S) or voluntary pensions);
 - life and health insurance premiums
- Items furnished by others that are needed in order to work (the value of such items is not income)
- Expenses claimed on a self-employment tax return (see S0820.545B.1 for further discussion regarding this issue)

EXAMPLE: Mrs. Terry Peters, a blind individual, works as a typist. A community organization bought her a special typewriter that she needed to perform satisfactorily on the job. The value of the typewriter is not income to Mrs. Peters, nor is it deducted as a BWE since she did not pay for it.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M08	November 1995
Subchapter Subject	Page ending with	Page
M0820 EARNED INCOME	S0820.540	36

S0820.540 IMPAIRMENT-RELATED WORK EXPENSES (IRWE)

- A. Definition

IRWE are expenses for items or services which are directly related to enabling a person with a disability to work and which are necessarily incurred by that individual because of a physical or mental impairment.
- B. Policy

1. General

We may deduct IRWE to determine countable earned income in both initial applications and posteligibility situations regardless of whether we previously established the person's eligibility without considering IRWE.

2. Eligibility Requirements

A payment for a service or item is excludable as IRWE for eligibility purposes when:

• the individual:

is disabled (but not blind); **and**

is under age 65; **or**

received SSI as a disabled individual (or received disability payments under a former State plan) for the month before attaining age 65; **and**

• the severity of the impairment requires the individual to purchase or rent items and services in order to work; **and**

• the expense is reasonable; **and**

• the cost is paid in cash (including checks or other forms of money such as money orders, credit and/or charge cards) by the individual and is not reimbursable from another source (e.g., Medicare, private insurance); **and**

• the payment is made in a month the individual receives earned income for a month in which he/she **both** worked **and** received the services or used the item; **or**

the individual is working but makes a payment before the earned income is received.

(See S0820.560B. for instructions on deducting expenses paid while working. See S0820.560C. for instructions on deducting expense paid prior to work. For instructions on deducting expenses paid after work has stopped, see S0820.560D.)
- <https://t-mlaw.com> ; www.majette.net

Annotations, Copyright 2023. R. Shawn Majette

000880

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date February 2009
Subchapter Subject M0820 EARNED INCOME	Page ending with S0820.540	Page 37

3. IRWE Used for Other Daily Activities

Any expense may meet the criteria for an IRWE even if it also is used for daily activities other than work.

4. Application of Exclusion

a. The IRWE exclusion only applies to earned income. IRWE in excess of the earned income an individual receives during the month are never deducted from unearned income. (See S0820.560 for allocating expenses.)

b. The IRWE exclusion is applied to earned income in the sequence below:

- immediately **after** deducting:

any portion of the general income exclusion which has not been deducted from unearned income; **and**

the \$65 earned income exclusion; **and**

- immediately **before** deducting one-half of the remaining earned income.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date February 2009

M0820.545 WORK EXPENSES – INTERACTION WITH OTHER POLICIES

A. Introduction This section discusses the interaction of other policies with work expenses.

B. Policy-Items Deductible Under Other Provision

- 1. Self-Employment** If the cost of an item has been deducted in figuring net earnings from self-employment (NESE) as described in S0820.200, it cannot be deducted as a work expense.
- 2. Community Residence** When an individual resides in a community residence, the individual's payments for work related attendant care can be used to reduce countable earnings.
- 3. PASS**
 - a. A PASS permits an individual to set aside income and resources for a limited period of time in order to reach a work goal. (For a more comprehensive discussion on PASS, see M0810.430)
 - b. Income used to pay for a particular work-related item may not be excluded from countable income under the PASS and the BWE or IRWE provisions simultaneously.
 - c. Unlike BWE or IRWE, a PASS may be used to reduce countable unearned income and resources.

C. Policy – Deeming In determining how much of an ineligible spouse's or parent's income is subject to deeming, earnings which are used to meet work expenses are not counted, if the ineligible spouse or parent is blind or disabled. Accept the individual's allegation of blindness or disability. Work expenses should be documented and verified according to S0820.550.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0820 EARNED INCOME	Page ending with S0820.550	Page 39

S0820.550 WORK EXPENSE DEVELOPMENT AND DOCUMENTATION

A. Policy All allegations and/or evidence of BWE and IRWE must be documented in file.

B. Procedure—Documentation Document BWE and IRWE respectively per 1. and 2. below.

1. Allegation of BWE Document BWE as described below:

STEP	ACTION
1	Assume that any working blind individual earning income more than \$65 a month has BWE. For example, most earnings are subject to income taxes which qualify as BWEs.
2	If earnings are above \$65 per month, obtain an allegation from the individual that either: <ul style="list-style-type: none"> claims a BWE, specifying the type and amount of expense; or explains why he/she has no BWE.
3	Record this statement in the case record.

2. Allegation of IRWE Document IRWE according to the following steps:

STEP	ACTION
1	Ask about IRWE when: <ul style="list-style-type: none"> a disabled individual's earned income exceeds \$65 in any month; or at least one member of an ineligible couple is disabled and has earned income, and the couple's total earned income exceeds \$65 in any month; or a disabled individual has earned income of \$65 or less, the individual is subject to spouse-to-spouse deeming, and the couple's total earned income exceeds \$65.
2	Record the individual's response with a statement describing the IRWE claimed or that no IRWE is alleged.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0820 EARNED INCOME	Page ending with S0820.550	Page 40

3. When to Develop

Develop work expenses per 1. and 2. above when you:

- complete an initial application or a redetermination; **or**
- receive a report that the recipient has started working; **or**
- receive a report that the expenses have changed.

NOTE: A change in the amount of earnings of a blind worker implies a change in expenses since the amount of taxes deducted probably changed.

4. Allocation of Work Expenses

Document the file to support your allocation of work expenses. (See S0820.560 for instructions on allocating work expenses.)

NOTE: You may use the worksheet in S0820.565, which may be reproduced locally, to document the type and allocation of BWE.

C. Procedure—Verification

1. Evidence of BWE

- Verifying that criteria for BWE are met
 - Stop file documentation when the expense is listed on the chart in S0820.555. The items listed on the chart meet the criteria for a BWE.
 - Document the file to reflect how an item is reasonably attributable to the earning of income when the item is not listed on the chart.
- Verifying cost of BWE
 - Document the file with photocopies of bills, receipts, etc., from the individual to corroborate the allegations.

Inform every working blind individual of the requirement to maintain records of work expenses and to produce such records when requested. Explain why we need to see these records.

- Accept the individual's allegation of the expense amount when:

bills, receipts, etc., cannot be obtained (e.g., lack of receipts for food purchased for a dog guide, meals, transportation, etc.) **and** the allegation appears reasonable.

NOTE: You may use the worksheet in S0820.565 as an aid in calculating BWE.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0820 EARNED INCOME	Page ending with S0820.550	Page 41

2. Evidence of IRWE

a. Document the need for an item or service

- Refer to the chart in S0820.555 for guidance in common types of expenses deductible as IRWE.
- Accept an allegation, as **verification of need**, that a prescription drug is used to control the disabling condition, enabling the individual to function at work, when:

there is a paid bill for the drug; and

the information on the container indicates that:

a physician and a licensed pharmacist were involved in providing the drug; and

the drug is for the individual.

b. Verifying cost of an item or service

- Accept the individual's allegation as to the recurring use and cost of an IRWE when:

at least one available receipt of documenting the cost is submitted;

additional receipts are unavailable for the recurring expense (e.g., hearing aid batteries, incontinence pads, etc.); **and**

the allegation of use is consistent with the nature of the expense (e.g., the individual states that he has only a couple of receipts for the box of 60 incontinence pads he buys every month as his condition requires him to use two pads a day).

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M08	November 1995
Subchapter Subject	Page ending with	Page
M0820 EARNED INCOME	S0820.550	42

3. Posteligibility Situations

a. BWE/IRWE previously developed

If BWE/IRWE were developed previously, compare the recipient's (and spouse's, if applicable) responses with information in the case record. Then, proceed as follows:

IF	AND...	THEN...
the alleged amounts and dates of work expense information agree with the verified information	no changes are alleged	no further BWE/IRWE development is necessary.
	changes are alleged	develop and verify BWE/IRWE per 1 and 2 above.
information is unverified	-----	develop and verify BWE/IRWE per 1 and 2 above.

b. BWE/IRWE not previously developed

Develop and verify per 1 and 2 above.

D. Procedure--Special Considerations

1. More Than One Employer Involved

Add total earnings from all employers. Deduct combined work expenses from this total.

NOTE: There is no need to relate a specific expense to a particular source of earnings.

2. Self-Employment

Carefully review records and/or the portion of the tax return used to determine NESE per S0820.210. Check that none of the expenses deducted in determining NESE are also being claimed as work expenses.

Determine what expenses can be excluded from earned income as work expenses. If necessary, refer the individual to the Internal Revenue Service (IRS) for information about permissible self-employment deductions.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0820 EARNED INCOME	Page ending with S0820.550	Page 43

**D. Procedure—Special
Considerations**

**2. Self-
Employment
(cont.)**

EXAMPLE: Individual is self-employed and a wage earner.

FACTS: Mr. Griffin, a blind Medicaid recipient, is self-employed selling brushes. He also works one night a week as an employee typing transcripts from recordings. Mr. Griffin's self-employment requires him to travel by cab (at a cost of \$60 per month) to the brush manufacturer to pick up samples. He also must travel by cab, at a cost of \$40 per month, to the office where he is employed.

CONCLUSION: You determine that the \$60 monthly cab fare to pick up samples has been used in arriving at his NESE and cannot be deducted from his earned income as a work expense. You deduct as a work expense the \$40 monthly cabfare for travel to and from the office where he is employed.

**3. Work Expenses
of a Couple**

If both members of a couple are eligible and both work, deduct from the couple's earned income each individual's work expenses to the extent that they do not exceed that individual's earnings. Do not deduct excess work expenses of one member of the couple from the earned income of his or her spouse. (See B.2. above when it is necessary to document IRWE in couple's cases and S0820.545C when deeming is an issue.)

**4. Estimating
Future Work
Expenses**

- a. Estimate an individual's future expenses based on expenses paid in the most recent period per S0810.600-610. This could be the period just redetermined or a shorter period if there has been a pertinent change in circumstances, such as additional expenses.

For example, if the individual had more expenses in the last 3 months than in previous months and those expenses are expected to continue, use that amount in your determination. Consider any expected decrease in expenses (e.g., installment payments on tools that will be paid off).

- b. Do not estimate an anticipated expense in the near future (e.g., purchase of more equipment) until there is proof that the expense exists. Tell the individual to let you know as soon as a new expense develops so you can make any appropriate adjustments at that time.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0820 EARNED INCOME	Page ending with S0820.555	Page 44

S0820.555 LIST OF TYPE AND AMOUNT OF DEDUCTIBLE WORK EXPENSES

The following chart provides guidance on types of expenses which are deductible as BWE, IRWE, or both, and the amount deductible. The chart is not intended to be all-inclusive. Refer to the policy discussed in S0820.535, S0820.540.

TYPE OF EXPENSES	DEDUCTIBLE AS		AMOUNT OF DEDUCTIBLE
	BWE	IRWE	
Attendant care services which are rendered in the: <ul style="list-style-type: none"> home; process of assisting an individual in making the trip to and from work; or work setting 	X	X	The amount paid.
Drugs and medical services which are essential to enable the individual to work (e.g., medication to control epileptic seizures)	X	X	The amount paid.
Expendable medical supplies Examples <ul style="list-style-type: none"> Bandages Catheters Face masks Incontinence pads 	X	X	The amount paid. See M0820.550 C.1 and C.2.
Federal, State and local income taxes and Social Security taxes	X		The amount withheld. Assume the amount withheld reflects the individual's tax liability.
Dog Guide	X	X	The cost of purchasing the dog and all associated expenses (e.g., its food, breast straps, licenses, veterinary services, etc.)
Fees Examples: <ul style="list-style-type: none"> Licensee Professional association dues Union dues 	X		The amount paid.

Vehicle modification	X	X	Whatever seems reasonable.

M0820.560 ALLOCATING WORK EXPENSES

A. Policy- Deduct (or begin allocating) the amount paid in the first month income is received.

B. Procedure

1. **Expenses Paid Prior to Receipt of Income**
 - a. **No downpayment involved**
Deduct the amount of a monthly recurring work expense in the month in which the expense is paid.
2. **Monthly Recurring Expenses**
 - b. **Downpayment involved**
 - Have the individual decide whether the downpayment is to be deducted in the month paid; **or** prorated over a consecutive 12-month period.
 - If the downpayment is to be deducted in the month paid, deduct the regular recurring monthly expense when paid.
 - If the downpayment is being prorated, divide by number of months.
3. **Other Recurring Expenses**
 - a. **Less frequently than monthly**
Have the individual decide whether the work expense is to be deducted in the month paid or prorated for the months in the billing period.
 - b. **Daily/Weekly/Biweekly**
 - Use the submitted receipts, bills, etc., in conjunction with any allegation obtained per S0820.550 C to determine the number of days the expense is paid each month; **and** whether the expense fluctuates or remains the same.
 - Multiply the amount of the expense by the number of days the expense is paid each month if the expense remains the same.
 - Add the individual amounts paid in each month if the expense fluctuates.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date May 2015
Subchapter Subject M0820 EARNED INCOME	Page ending with M0820.560	Page 48

NOTE: If the computation is being based on the individual's allegation, assume that the expense remains the same.

4. Expense Is One-Time Payment

Have the individual decide whether the work expense is to be:

- deducted entirely in the month of payment; or
- prorated over a consecutive 12-month period beginning with the month of payment.

5. Self-Employment

Deduct the work expenses related to a self-employed activity for an individual who is blind and self-employment, provided the expenses were not used to complete the net earnings from self-employment (NESE). If it is to the person's advantage, prorate the work expenses over all the months of the tax year; otherwise, follow 1-4 above, as appropriate.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M08	November 1995
Subchapter Subject	Page ending with	Page
M0820 EARNED INCOME	M0820.560	49

C. Procedure--
Expenses Paid
Prior to Work

Follow the steps below, whenever a work expense was paid before work began:

STEP	ACTION
1	Determine whether the item that was purchased: <ul style="list-style-type: none">• is work-related; and• is durable (see DI 10520.015 in Appendix, for a definition of durable items); and• had a payment made on it in the 11-month period immediately preceding the first month of employment.
2	If the item meets all the criteria in step 1, go on to step 3. If not, stop. The expense cannot be deducted.
3	Determine the total amount paid towards the item during the 11 months preceding the month that work began.
4	Determine the deductible portion according to the following chart.

No. of Months Prior to Work That First Payment is Made	Deductible Portion of Payment
1	11/12 (.916)
2	5/6 (.833)
3	3/4 (.750)
4	2/3 (.666)
5	7/12 (.581)
6	1/2 (.500)
7	5/12 (.415)
8	1/3 (.333)
9	1/4 (.250)
10	1/6 (.166)
11	1/12 (.083)

NOTE: See E. below for an example of how to use this chart.

5	Have the individual decide whether the deductible portion from step 4 is to be allocated: <ul style="list-style-type: none">• only to the first month that earned income is received; or• over a consecutive 12-month period beginning with the first month that earned income is received.
---	---

NOTE: The deductible amount is **in addition to** amounts actually paid after beginning work.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0820 EARNED INCOME	Page ending with M0820.560	Page 50

**D. Procedure--
Expenses Paid
After Work Stops**

**1. Expense Paid
Before Earned
Income Stops**

Deduct a work expense that is paid in a month after work has stopped from earned income received in a month after work has stopped only when:

- the income is based on work activity (e.g., not income received as a silent partner in a business); and
- the work activity was performed in a period when the individual required the item or service.

**2. Expense Paid
After Earned
Income Stops**

Deduct the work expense from the earned income received in the last month of work when:

- the work expense is paid in a month after the individual last worked and received earned income; and
- the payment was for an item or service used while working.

**E. Procedure—
Expenses Paid by
Credit Card**

- Treat a credit/charge card purchase as a nonrecurring expense and follow the appropriate instructions in B.4, C or D above.

EXCEPTION: You may treat the actual payments as a recurring expense per B.2-3 above when the IRWE was the only charge on the account during the time the charge was being paid; i.e., there was a zero balance when the IRWE was charged and no other charges were made before the payments were completed.

- Apply the credit card's annual interest rate to the cost of the IRWE purchase when:

there is already a balance on the account when the IRWE is purchased;

another purchase is made before the IRWE charge is paid off; or

there is the likelihood of another purchase before the IRWE charge is paid off,

- Deduct the IRWE charge amount plus the calculated interest.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0820 EARNED INCOME	Page ending with S0820.565	Page 51

**F. Procedure--
Documenting
Allocation Decision**

Obtain a signed statement to document individual's decision regarding the allocation of expenses to one month or a 12-month period **only if** it would not be discernable from the file that the method of allocation is advantageous to the individual.

G. EXAMPLES

**1. IRWE Charged
While Working**

Mr. Applegate, a disabled Medicaid recipient who is working, charges an IRWE which costs \$240 (i.e., purchase price plus applicable tax) on a credit card that has an annual interest rate of 18%. Because there was already a balance on the account prior to the IRWE purchase, you treat the IRWE as a nonrecurring expense.

You calculate the interest on the IRWE purchase to be \$43.20 (\$240 x 18%). You determine the deductible IRWE amount to be \$283.20.

You ask Mr. Applegate whether he wants the IRWE amount deducted entirely in the month charged or prorated over a consecutive 12-month period. He decides to have it prorated. You deduct a \$23.60 (\$283.20/12) a month as IRWE for 12 consecutive months beginning with the month the IRWE was charged.

**2. IRWE Charged
Before Working**

Similar circumstances to the above example, except that Mr. Applegate charges the IRWE on his credit card 6 months before he begins working.

You use the chart in C. above to determine that only \$141.60 is deductible as IRWE (one-half of \$283.20)

You ask Mr. Applegate whether he wishes to have the IRWE deducted in the first month he receives earned income or during the 12 month period at \$11.80 a month (\$141.60/12). He elects to have it deducted in the first month.

S0820.565 BWE WORKSHEET

**A. When to UseB.
Exhibit**

The BWE worksheet in B. below may be reproduced and used to develop blind work expenses. Refer to S0820.550 and S0820.555 for detailed instructions on the type of deductible expenses and the amount of deductible.

S0820.570 EARNED INCOME TAX CREDIT (EITC) PAYMENTS EXCLUSION

A. Definition

The earned income tax credit (EITC) is a special tax credit which reduces the Federal tax liability of certain low income working taxpayers. This tax credit may or may not result in a payment to the taxpayer. EITC payments can be received as an advance from an employer or as a refund from IRS.

B. Policy

Exclude from income any EITC payments received as an advance or as a refund, regardless of the tax year involved.

UNEARNED INCOME

GENERAL

S0830.001 INTRODUCTION TO UNEARNED INCOME

- A. Policy

Unearned income is all income that is not earned income.
- B. Description of the Subchapter

The instructions in this subchapter apply to unearned income and unearned income exclusions.

The subchapter is organized so that payments which are similar in nature are grouped together. Unearned income exclusions and counting rules are not all in one place. Those related to a specific type of payment are discussed in sections about the payment itself.
- C. References

Users should be familiar with the general income rules found in subchapters 10 and 15, particularly:

What is income (S0810.005);

What is not income (S0815.001.);

Whose income is it (S0810.120.);

When income is counted (S0810.030)

Income verification (S0810.500); and

How to estimate income (S0810.600-620).

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with S0830.005	Page 2

S0830.005 GENERAL RULES FOR DEVELOPING UNEARNED INCOME

A. Procedure

Some types of income require particular development as explained in later sections in this subchapter. Apply the instructions in this subsection where no specific instructions exist.

1. Clearly Ineligible

Do not develop unearned income where the individual is clearly ineligible for a non-financial reason or excess resources.

2. File

Document the case file so that it **fully** supports every eligibility decision.

3. Allegations

Document any **material** allegation. .

You do not need to document an attempt to obtain information from **other sources**

4. Verification

- In general, verify the **amount, frequency** of receipt and **source** and/or type of unearned income.
- Unless required elsewhere, verify only the source and/or type of a **totally excluded** payment.
- **Request evidence first** from the recipient and then, if necessary, from other sources.

5. Evidence Not Readily Available

When evidence is not readily available, and if the individual has cooperated:

- a. obtain a **signed statement** from the individual as to the amount, source and frequency of receipt of the payment;
- b. **process the case** on the basis of the individual's statement if all other eligibility factors are met and there is no reason to doubt the allegation;
- c. **clearly document** the file as to why the information is not readily available; and
- d. obtain the evidence **postadjudicatively**.

6. Evidence In Doubt Or Contradictory

- a. Request **supporting evidence** from the individual or the source of the income.
- b. If all available evidence leaves a question, weigh the evidence and **make a decision**. The file must reflect the basis for this decision.

7. Classification Unknown

- a. If you are unable to determine whether an item or amount should be classified as income or whether income is earned or unearned, **contact the regional office**.

8. Mailing Time

When a payment is mailed, assume that the payment is received 5 days after the payment or mailing date unless the individual alleges a different date, in which case accept any credible allegation.

B. References

Developmental rules for posteligibility situations, S0830.007

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995

S0830.007 DEVELOPMENTAL RULES IN POSTELIGIBILITY SITUATIONS

A. Introduction

Some types of income and income exclusions have special rules that apply in posteligibility (PE) situations. For example, in the section on rental income, if a Medicaid recipient with rental income reports a new expense, the remaining income estimates may need to be recalculated.

When no specific instructions exist, however, the general rules in this subsection apply.

B. Procedure

1. General

Unless specific instructions indicate otherwise, the general rules for developing unearned income found in S0830.005 also apply in PE situations.

C. References

General rules for developing unearned income, S0830.005

Rental Income, S0830.505

S0830.010 WHEN TO COUNT UNEARNED INCOME

A. Policy -- General

Unearned income is counted as income in the earliest month it is:

- received by the individual;
- credited to the individual's account; or
- set aside for the individual's use.

B. Policy--When to Count Retroactive RSDI Benefits

Other than the following exceptions (1.- 2. below), retroactive RSDI benefits, whether paid in one lump sum or by installment, are counted as unearned income in the month payment is received.

NOTE: Reissued conserved funds, whether paid in a lump sum or in installments, are not considered unearned income in the month of reissuance since such funds were previously considered in the month of original receipt (S1120.022.B.2.).

1. Retroactive RSDI Benefits Paid By Installment When DAA is Material

Retroactive RSDI benefits must be paid in installments when paid to representative payees of individuals who are eligible because of drug addiction or alcoholism (DAA). In such cases involving DAA beneficiaries, the total of retroactive RSDI benefits paid in installment is treated as if paid in a lump sum in the usual manner. The total of such benefits paid in installments is considered unearned income in the month in which the first installment is made.

In certain posteligibility situations involving DAA beneficiaries, a subsequent amount of retroactive RSDI benefits to be paid in installments cannot be paid because the beneficiary is receiving installment payments

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M08	November 1995
Subchapter Subject	Page ending with	Page
M0830 UNEARNED INCOME	S0830.010	4

from a previous retroactive RSDI benefit. In such situations, the total of the subsequent retroactive RSDI amount is counted as unearned income in the month such total would have normally been paid (i.e., as if the lump sum had been paid in the usual manner.)

NOTE: For resource purposes, each installment is subject to regular resource rules in the month following receipt (see S1130.600 for exclusion of RSDI underpayments).

2. **Retroactive RSDI Benefits Paid By Installment At Recipient’s Request**

In certain situations, SSA will agree **at the recipient’s request** to pay by installment retroactive RSDI benefits that would otherwise be paid in one lump sum. In such cases, the total of retroactive RSDI benefits (except for amounts considered paid in a windfall offset period per 1. above) is counted as unearned income in the month such benefits were set aside for the individual's use.

UNEARNED INCOME EXCLUSIONS - GENERAL

S0830.050 OVERVIEW OF EXCLUSIONS

- A. Definition** An **exclusion** is an amount of income which does not count in determining eligibility.
- B. Policy** Exclusions never reduce unearned income below zero. Except for the \$20 general exclusion (S0810.420), no unused unearned income exclusion may be applied to earned income.
- C. Procedure** First, determine whether what is received is income. Next apply any appropriate exclusions to unearned income as discussed in this subchapter.
- 1. Exclusions in Relation to the Infrequent/Irregular/Exclusion** Apply the exclusions in this subchapter separately from the infrequent or irregular exclusion (S0810.410). However, do not apply the infrequent or irregular exclusion to an amount remaining after another exclusion has been applied to a particular type of income (e.g., the remaining amount of child support after one third has been excluded).
- You may apply the infrequent or irregular exclusion to an individual's total unearned income if the entire amount can be excluded under that provision.
- 2. Application of Other Exclusions** After applying the specific exclusions discussed in this subchapter, apply the \$20 general income exclusion (S0810.420). If there is also earned income, apply the earned income exclusions between the \$20 general income exclusion.
- D. Reference** What is not income, S0815.001.

S0830.055 EXCLUSIONS UNDER OTHER FEDERAL STATUTES

A. Introduction

1. General

Federal statutes other than the Social Security Act sometimes provide that the Medicaid program must exclude from income (or income and resources) assistance provided under those statutes.

2. New Exclusions

Be aware that new or different assistance programs may have Federal involvement and be subject to an exclusion. (Central office does not always immediately know when exclusions are enacted if they are handled by another agency.) Follow the guidelines in B. below when a program is questionable or someone alleges a new exclusion or type of assistance.

B. Procedure - Exclusion New or Questionable

1. Contact RO

Contact the regional office (RO) if there is reason to believe an exclusion exists for a program with Federal involvement or if you learn of a new exclusion.

2. Helpful Information

The name of the local program or agency may not be sufficient information to make a determination. As possible, provide the RO with the following information:

- the name of the program and what it does;
- the public law (name and number) which authorizes the program (e.g., P.L. 99-498, the Higher Education Amendments of 1986);
- the section number(s) in the public law which pertain to the program; and
- the Federal agency which is responsible for Federal involvement in the program.

C. Reference

List of exclusions under other Federal statutes and related instructions, S0830.099.

AMOUNT OF UNEARNED INCOME

S0830.100 EXPENSES OF OBTAINING INCOME

A. Definition

An **expense** as used in this section is one that is an essential factor in obtaining a particular payment(s).

B. Policy

Unearned income does not include that part of a payment which is for an essential expense incurred in getting the payment.

1. Treatment of Expenses

- From a payment received for damages in connection with an accident, we subtract **legal, medical, and other expenses** connected with the accident.
- From a retroactive check from a benefit program other than SSI, we subtract **legal fees** connected with that claim.

2. How to Deduct Expenses-- General

Except as noted in 3. below, expenses are deducted from the first and any subsequent amounts of related income until you have completely eliminated all expenses.

3. Expense Money -- Assumption

You may assume that the following payments for expenses do not exceed the expenses and thus do not result in income:

- payments by a government agency for expenses related to obtaining a service or participating in a program (e.g., \$10 expense money provided to jurors); and
- lump sum advances or reimbursements by employers to cover expenses of employment paid by the employee (e.g., employee receives a per diem allowance, school bus driver is paid \$100 per month allowance to pay for gas and maintenance).

NOTE: See C.2. below for verification requirements when this assumption is applied.

4. Repayment of Legal Fees When Equal Access to Justice Act Payments are Involved

An attorney who receives duplicate fees under the Equal Access to Justice Act (EAJA) and section 206(b) of the Social Security Act is obligated to return the smaller fee to the recipient. Any such payment to the recipient is income, provided that the amount of the fee previously had been deducted from income.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with S0830.100	Page 10

C. Procedure

Use bills, receipts, contact with the provider, etc., to verify all essential expenses.

- 1. Verifying Expenses -- General**

If an expense has been incurred but not paid, assume that the individual will pay the expense unless you have reason to question the situation.

NOTE: You do not need to follow up if this assumption applies.

- 2. Verifying Expenses -- Assumption in B.4. Applies**

If the assumption in B.3. above applies, be aware that you do not need to verify expense or follow up on how the money was spent.

- 3. Deducting Allowable Expenses**

Deduct any expenses which have been verified as essential from the first and any subsequent amount(s) of related income. Deduct even those verified expenses which the recipient has **previously** paid (e.g., a partial payment to an attorney made from the individual's savings account) as long as the expenses are essential.

NOTE: The remainder is unearned income subject to the general rules pertaining to income and income exclusions.

D. Examples -- Essential Expenses

A fee to acquire documentation to establish that an individual has a right to certain income (e.g., a fee for a birth certificate or medical examination) is an essential expense.

- 1. Document Fees**

- 2. Guardianship Fees**

A guardianship fee is an essential expense **only** if the presence of a guardian is a requirement for receiving the income.

NOTE: Guardianship fees are **never** an essential expense for obtaining title II or title XVI benefits because the appointment of a legal guardian is never an SSA requirement.

S0803.105 PAYMENTS IN FOREIGN CURRENCY

A. Introduction

Occasionally, an individual receives income tendered to him/her in a monetary unit other than U.S. dollars. This usually will be in the form of a check or a direct deposit to a bank.

B. Policy

1. Amount of Income

The U.S. dollar value of a payment made in foreign currency, less expenses, is income.

2. When Counted

We count foreign currency payments when received unless the individual alleges and can establish that the payment was received too late in the month for conversion prior to the following month.

C. Procedure

1. Verify Receipt and Amount

Use a check or documents in the individual's possession to verify receipt of a foreign payment and the amount in foreign currency. If the payment is made directly to a bank, the bank may provide a statement of the amount received.

2. Evidence Not Available

If the evidence is not readily available, or if translation of the documents would require a delay beyond the receipt of the next payment, then:

- adjudicate the case based on the individual's signed allegation (if there is not reason to doubt the allegation); and
- ask the individual to present his next check before cashing it.

3. Conversion to U.S. Dollars

Verify the exchange rate for conversion of the foreign currency into U.S. dollars using:

- A receipt for the individual's last exchange; or
- A telephone call to a local bank or currency exchange.

4. Changes in Exchange Rate

Presume that an established exchange rate remains constant until the next redetermination, at which time verify the rate again. If at this point, the exchange rate has changed, presume the change occurred in the month of verification and that it remains constant until the next redetermination.

EXCEPTION: If the individual reports that the exchange rate has changed, verify the change and adjust the income counted to reflect the new rate.

S0830.110 OVERPAYMENT INVOLVED

A. Policy

1. General Rule

Unearned income includes that part of another benefit payment (such as RSDI) which has been withheld to recover a previous overpayment.

2. Exception

The amount withheld is not income when the payment is received if:

- the individual received both Medicaid and the other benefit at the time the overpayment of the other benefit occurred; **and**
- the overpaid amount was included in figuring the Medicaid eligibility at that time.
- This exception applies only if the eligible individual actually received Medicaid while the overpayment was occurring (even if the payments were erroneous). It does **not** apply if the overpayment was used to determine eligibility and the individual was determined to be ineligible.

The exception avoids counting the income twice or "double counting."

3. Which Benefits are Affected

This policy applies to the following benefits:

- annuities and pensions;
- retirement or disability benefits (including veterans' pensions and compensation);
- workers' compensation;
- social security benefits;
- railroad retirement annuities;
- unemployment insurance benefits; and
- black lung benefits.

NOTE: A reduction of title II due to workers' compensation offset or work deductions, is not an overpayment and is **not affected** by this policy.

4. Overpayment- - Definition

Overpayment for purposes of this section means overpayment as defined by the entity paying the benefit and includes overpayments made to someone other than the individual whose benefits are withheld.

5. Unable to Determine Double-- Counting

Unearned income does not include the amount being withheld to recover an overpayment if, after all development is completed, we are unable to determine whether the exception in A.2. above applies.

6. Multiple Overpayments

When two or more overpayments are being recovered at the same time, we assume the amounts are first withheld to repay any overpayments not subject to the exception in A.2. above. This is regardless of the chronological order in which the overpayments occurred.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with S0830.110	Page 13

B. Procedure

1. Ask About Overpayments

When someone receives benefits under a program listed in A.3. above, ask him/her whether any benefits otherwise due are being withheld to recover an overpayment.

If the answer is

Then

No

Stop. No written documentation or further development is required.

Yes

...Explain the policy and exception. Ask if the Medicaid recipient/applicant was receiving Medicaid at the time of the overpayment.

- If no, go to B.2.
- If yes or unknown, go to B.3.

2. Medicaid Not Received at Time of Overpayment

Accept the individual's allegation that Medicaid coverage was not being received at the time of the overpayment. Obtain a signed statement that:

- Medical assistance was not being received when the overpayment occurred;
- the policy and the exception have been explained; and
- the individual understands that the amounts withheld from the other benefit are considered part of the recipient's/applicant's income.

3. Medicaid Received at Time of Overpayment (or Unknown)

If the individual alleges that medical assistance was being received at the time of overpayment, or the individual does not know, verify Medicaid coverage. Use documents in the individual's possession or contact with the appropriate office or agency to verify:

- when the overpayment occurred;
- the rate of recovery; and
- the period of time of recovery.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with S0830.110	Page 14

C. Examples

1. Exception Applies

Joe Jones received title II benefits and Medicaid beginning January 1987. In November 1988, Mr. Jones learned he was overpaid \$100 on his title II claim from April 1988 through August 1988. From January 1989 through May 1989, \$20 is withheld from his title II benefit to recover the overpayment. Since the overpayment was already included in unearned income, the EW does not count the \$20/month being withheld from January 1989 through May 1989.

2. Overpayment Makes Person Ineligible

Alex Martin received Medicaid payments and VA benefits starting in August 1987. His monthly VA benefit increased to \$300 in August 1988. The VA benefit increase, combined with other income, caused Mr. Martin to become ineligible for Medicaid beginning in August 1988. He continued to be ineligible until January 1989 when VA determined his benefit should have been \$200 since August 1988. Therefore, Mr. Martin was overpaid a total of \$500 by VA for August 1988 through December 1988. Mr. Martin began receiving Medicaid in January 1989. To recover the VA overpayment, Mr. Martin's VA benefit is reduced by \$100/month from March 1989 through July 1989. Since Mr. Martin received no Medicaid coverage during the time he was overpaid, the \$100/month withheld to recover the overpayment is included in Mr. Martin's current income.

3. Another Person's Overpayment Included in Deeming Computation

Alice Brown has been receiving Medicaid since December 1986. Carl Brown is her ineligible spouse whose income is subject to deeming. In April 1989, Mr. Brown learns he incurred a \$250 title II overpayment in November 1988. SSA recovers the overpayment by withholding \$50 a month from the benefits Mr. Brown receives in June 1989 through October 1989. For deeming purposes, Mr. Brown's current income does not include the \$50/month withheld from his title II since it has already been used in deeming computation for a prior period.

4. Another Person's Overpayment Not Previously Used in Deeming Computation

Mary Smith has been receiving Medicaid since December 1986. Harry Smith, her ineligible spouse, was separated from Mary Smith when he died in 1989. His income was never subject to deeming. Mr. Smith incurred a \$100 title II overpayment in November 1988. Since Mrs. Smith is also a title II beneficiary, SSA recovers Mr. Smith's overpayment by withholding \$50 a month from Mrs. Smith's benefit in July and August 1989. Since none of Mr. Smith's income was subject to deeming when the overpayment occurred, the EW includes in Mrs. Smith's current income the \$50/month withheld from her title II benefit.

S0830.115 GARNISHMENT OR OTHER WITHHOLDING

A. Policy

Unearned income includes amounts withheld from unearned income because of garnishment or to make certain other payments.

Unearned income includes amounts withheld from unearned income whether the withholding is:

- purely voluntary;
- to repay a debt; or
- to meet a legal obligation.

NOTE: This policy does not apply to amounts withheld to pay the expenses of obtaining the income since such amounts are not income. See S0830.100.

B. Kinds of Withholding

Some items for which amounts may be withheld but considered received are:

- Federal, State, or local income taxes;
- health or life insurance premiums;
- SMI premiums;
- union dues;
- penalty deductions for failure to report changes;
- loan payments;
- garnishments;
- child support payments (court ordered or voluntary (exception-deemors));
- service fees charged on interest-bearing checking accounts;
- inheritance taxes;
- guardianship fees if presence of a guardian is not a requirement for receiving the income (see S0830.100).

C. Procedure

Use documents in the individual's possession or contact the source of the payment to verify the amount withheld. Add the amount withheld to the amount received and consider the total as unearned income from that source.

D. Reference

Overpayment involved, S0830.110

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M08	December 2004
Subchapter Subject	Page ending with	Page
M0830 UNEARNED INCOME	S0830.160	16

BROAD CATEGORIES OF UNEARNED INCOME

S0830.160 ANNUITIES, PENSIONS, RETIREMENT, OR DISABILITY PAYMENTS

A. Definitions

1. Annuity

An annuity is a sum paid yearly or at other specific times in return for the payment of a fixed sum. Annuities may be purchased by an individual or by an employer. *For Medicaid purposes, an annuity is a contract reflecting payment to an insurance company, bank or other registered or licensed entity by which one receives fixed, non variable payments on an investment for a lifetime or a specified number of years. Payments received from an annuity are counted as unearned income.*
2. Pensions and Retirement Benefits

Pensions and retirement benefits are payments to a worker following his retirement from employment. These payments may be paid directly by a former employer, by a trust fund, an insurance company, or other entity.
3. Disability Benefits

Disability benefits are payments made because of injury or other disability.

B. Policy

1. General Rule

Annuities, pensions, retirement, and disability benefits are unearned income.
2. Exceptions

Certain accident disability benefit paid within the first 6 months after the month an employee last worked are earned income. For a further explanation of sickness and accident disability payments, see S0820.005.

A Qualified Domestic Relations Order (QDRO) is a court order, usually the result of a divorce or separation proceeding that changes the ownership of the pension asset and the income stream from one individual to another. To be valid, a QDRO must:1) be a decree issued by a state court; 2) provide the names and addresses of participants and the amount or percentage of the benefit; and 3) be approved by the pension plan administration.

When a QDRO splits the income between a Medicaid applicant/recipient and the spouse, count only the income that is ordered to go to the Medicaid applicant/recipient as his income. If the plan administrator has not approved the QDRO or disapproved it, the income should be calculated without regard to the court order.

C. List of Payments

- The following provides a list of instructions which address particular payments:
- Black Lung Benefits.....

S0830.215
- Foreign Payments.....

S0830.105
- German Reparations Payments

S0830.710
- Military Pensions

S0830.240
- Office of Personnel Management (Civil Service and
Federal Employment Retirement System) Payments.....

S0830.220
- Railroad Retirement Payments.....

S0830.225
- Title II Payments

S0830.210
- VA Payments

S0830.300
- Worker’s Compensation Payments

S0830.235

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date January 2018
Subchapter Subject M0830 UNEARNED INCOME	Page ending with S0830.160	Page 17

D. Procedure

1. **Initial Applications**
In initial applications, be alert for clues which may indicate a receipt of or potential eligibility for an annuity, pension, or similar payment; e.g., long employment with a particular industry or a government agency, military service, membership in a union.
2. **Check Specific Instructions**
Check for specific policy instructions pertaining to the payment involved. (See C. above.)
3. **Overpayment Question**
Ask if any benefits otherwise due are being withheld to recover an overpayment. If the answer is yes, see S0830.110.
4. **Verification/General**
If there are no specific policy instructions for the payment, use award letters or other documentation in the individual's possession or contact the source to verify:
 - the type, source, and amount of payment;
 - *recipient of the payment*;
 - if necessary, the frequency of payment.
5. **Verification/Frequency**
It is not necessary to verify the frequency of the payment if you are familiar with the type of payment involved either through direct experience or a precedent.
6. **Verification/Use of Check**
If the individual does not possess an award letter or other document, a **check** may be used to verify the payment amount if it is clear that the amount shown represents the gross amount.
7. **Contact with the Source**
If the individual has no evidence in his/her possession, contact the source of the payment.

S0830.165 ASSISTANCE PROGRAMS WITH GOVERNMENTAL INVOLVEMENT -- GENERAL

A. Introduction

Federal, State, and local governments are involved in a number of programs which provide assistance (cash or in-kind goods and services) to Medicaid recipients. For Medicaid purposes, treatment of this assistance will vary depending on the nature of the program and the payment. Sections S0830.170, S0830.175 and S0830.180 provide guidelines for determining the nature of these programs and the income, if any, to count when program specific instructions do not exist elsewhere. A guide is provided in B. below.

B. Programs-Specific Instructions

Use this table to locate specific instructions pertaining to frequently encountered programs with governmental involvement.

Adoption assistance	S0830.415
Action Programs	S0830.610
Aid to Families with Dependent Children (AFDC).....	S0830.400

S0830.170 INCOME BASED ON NEED (IBON)

A. Definition

Income based on need (IBON) is assistance:

1. provided under a program which uses income as a factor of eligibility; and
2. funded wholly or partially by the Federal government or a nongovernmental agency (e.g., Catholic Charities or the Salvation Army) for the purpose of meeting basic needs (i.e., the funds are provided specifically for a formalized program whose general purpose is similar to that of the SSI program).

EXCEPTION: State supplementary payments made to refugees are not IBON (S0830.175), despite involvement of Federal funds.

B. Policy Principle

Income based on need is counted as income dollar for dollar, unless it is totally excluded by statute (e.g., food stamps) or excluded under a PASS (S0870.001.). The \$20 general income exclusion (S0810.420) does not apply to IBON.

NOTE: If a nongovernmental agency is involved, consider whether the assistance qualifies for exclusion as Home Energy Assistance and Support and Maintenance Assistance (HEA/SMA, S0830.605) or meets the definition of a social service (S0815.050).

C. Operating Procedures

NOTE: These instructions apply when there are no separate instructions pertaining specifically to the program in question.

1. Verify with the administering agency personnel and/or program descriptions that the assistance meets the definition of income based on need.
2. Verify the amount of the assistance for each month with the administering agency or through documents in the individual's possession.
3. If income based on need is paid to or on behalf of a group of people, determine one individual's income by the incremental method (i.e., the individual's income is the difference between the amount paid and the amount which would have been paid had the individual not been included).

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with S0830.175	Page 20

S0830.175 ASSISTANCE BASED ON NEED (ABON)

A. Definitions

ABON is assistance:

1. Assistance Based on Need (ABON)

- provided under a program which uses income as a factor of **eligibility**; and
- funded **wholly** by a State (including the District of Columbia, Indian tribes and the Northern Mariana Islands), a political subdivision of a State, or a combination of such jurisdictions.

EXCEPTIONS: State supplementary payments, made to refugees are considered to be ABON even if the Federal government reimburses the State.

NOTE: If a program uses income to determine payment amount but not eligibility, it is not ABON (e.g., some crime victims compensation programs).

2. Federal Funds

For purposes of this section, Federal funds means monies supplied and directed by the Federal government for a specific use or specific type of program (e.g., community service block grants, Federal matching funds for AFDC). Monies not allocated for specific purposes are not considered Federal funds.

EXAMPLES: Nonspecific Funding

Revenue sharing funds are not "Federal funds" for purposes of this section and programs using these funds are considered wholly State funded.

B. Policy

Assistance based on need is excluded from income.

C. Procedure

If a precedent exists:

1. Precedent Exists

- **Accept** the claimant's **allegation** as to the type and source of assistance and exclude it without further development.
- **Document** the file to show that a precedent exists **only** if you use a local precedent.

2. No Precedent Exists

If a precedent does not exist:

- Use **documents** in the individual's possession or contact the administering agency to **determine** the program under which the assistance is provided.
- **Verify** with agency personnel and/or program descriptions that no

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with S0830.180	Page 21

Federal or private funds are involved and that the program uses income in arriving at eligibility determinations.

- **Retain** the evidence (either written material or oral statements documented).

NOTE: If evidence establishes that the assistance is excludable under this provision, it is not necessary to verify the amount of assistance and when it was received.

- **Document the file** with copies of the original evidence, or mention that a local precedent exists.

D. References

Income based on need, S080.170.

S0830.180 OTHER ASSISTANCE INVOLVING GOVERNMENT FUNDS

A. Policy Principle

Assistance which is neither IBON nor ABON, but which involves government funds, is subject to the general rules pertaining to income and income exclusions.

NOTE: See section S0830.625, S0830.615 and S0830.405 for examples of this type of assistance.

B. Operating Procedures

1. Determine that the assistance is neither IBON (S0830.170) nor ABON (S0830.175). Remember:
 - a. assistance involving Federal funds which are not provided by the Federal government for the purpose of meeting ongoing basic needs is not IBON;
 - b. State supplementary payments, including those made to refugees, are always ABON; and
 - c. assistance involving funds which have been supplied and directed by the Federal government for use solely in the type of assistance provided is not ABON.
2. Determine the nature of the assistance and apply the appropriate operating instructions pertaining to income and income exclusions. Related sections include:

S0815.050 (Medical and Social Services)

S0810.420 (\$20 General Income Exclusion)

S0830.605 (Home Energy Assistance and Support and Maintenance Assistance)

Subchapter Subject M0830 UNEARNED INCOME	Page ending with M0830.200	Page 22

S0830.185 WORK RELIEF (WORKFARE) PROGRAMS

A. Background

Many governmental assistance programs require that certain recipients work in exchange for the assistance provided. Most often the amount of the assistance payment is divided by the minimum wage and the recipient required to perform some service for the resulting number of hours. Usually a participant in such a work program is given money to cover any expenses incurred (e.g., carfare, special clothing, miscellaneous, etc.). Programs connected with general assistance have various locally established names. Programs connected with AFDC include the Community Work Experience Program (CWEP), and the Work Incentive Program (WIN). Programs are often run as demonstrations or pilot projects.

B. Policy Principle

The fact that an individual is required to work in exchange for an income based on need (S0830.170) or assistance based on need (S0830.175) payment does not change the nature of the payment. For Medicaid purposes, the payment in such situations is an assistance payment and is not earned income.

NOTE: Do not confuse work supplementation programs connected with AFDC with programs which require an individual to work in exchange for income based on need. Work supplementation programs pay wages which are earned income. The family may or may not receive an AFDC payment in addition to the earned income.

C. Operating Procedures

1. Verify the assistance according to the appropriate instructions. Follow the instructions in S0830.170 if IBON is involved; S0830.175 if ABON is involved; S0830.400 if AFDC is involved.
2. Assume that any expense money provided in connection with a governmental work program equals the expenses incurred and does not result in any income. Verify with the paying agency or through documents in the individual's possession that any alleged expense money is provided as such. A precedent may be used. If a precedent has been established, document the file to show this.

MAJOR BENEFIT PROGRAMS

M0830.200 BENEFITS PAID UNDER TITLE XVI OF THE SOCIAL SECURITY ACT

A. Policy Principles

Supplemental Security Income (SSI) payments are monthly unearned income. SSI monthly payments and SSI lump sum payments are totally excluded when determining financial eligibility for Medicaid.

SSI recipients who meet the more restrictive Medicaid resource criteria are eligible for Medicaid as categorically needy.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date July 200
Subchapter Subject M0830 UNEARNED INCOME	Page ending with S0830.110	Page 23

S0830.210 BENEFITS PAID UNDER TITLE II OF THE SOCIAL SECURITY ACT

A. Policy Principles

1. Retirement, survivors, and disability insurance (RSDI) monthly benefits are unearned income. Special age 72 payments are also unearned income. (See S0830.545 for treatment of lump-sum death payments.)
2. The amount of premiums deducted for Supplementary Medical Insurance (SMI) under Medicare from RSDI benefits is included in unearned income.
3. Unearned income includes the amount withheld to recover an overpayment (unless the exception in S0830.110 applies).

B. Operating Policies

1. Reductions, Deductions, and Rounding

At different points in the computation process, the title II benefit, if not already an even dime amount, is rounded to the next lower dime. The final benefit payment is then rounded to the next lower dollar. Rounding does not apply to special age 72 (Prouty) payments or transitionally insured benefits. If a beneficiary is entitled to more than one benefit (dual or triple entitlement), each benefit is rounded to the next lower multiple of a dollar.

Count as income for Medicaid purposes the amount of title II after reductions, deductions, and dollar rounding, but before the collection of any obligations of the beneficiary (e.g., SMI premium or prior overpayment).

If a monthly benefit payment has been reduced because of a workers' compensation offset, count the net amount of the benefit received (plus any SMI premium withheld) as unearned income.

2. Prior Overpayment

If all or part of a title II benefit is being withheld to recover an overpayment, count as income the amount of title II before deduction for the overpayment unless the exception in S0830.110 applies. If the exception applies (i.e., the overpayment occurred when the individual was receiving Medicaid and the overpaid amount was included in unearned income at that time), do not include the amount deducted for an overpayment in calculating countable title II income. Also do not count as income monies received as a result of a waiver approval when the money was previously withheld to recover a title II overpayment and was counted as income for Medicaid when originally withheld.

3. SMI Premiums

Do not count refunded SMI premiums as unearned income.

EXAMPLE: An individual's title II benefits for January 1987 through May 1987 are withheld because of expected work and earnings. He reports in June 1987 that he quit working in February 1987. He paid

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date April 2017
Subchapter Subject M0830 UNEARNED INCOME	Page ending with M0830.211	Page 24

SMI premiums for January - March 1987, April - June 1987, and July - September 1987. A Title II check sent in July 1987 includes full benefits for January - June 1987 and refunds SMI premiums for August - September 1987, which will be withheld from future checks. For Medicaid purposes, the part of the check which represents full benefits for January - June 1987 is unearned income in July 1987 and the refunded SMI premiums for August - September 1987 are not income.

4. Retroactive State Buy-In

When a State "buys-in" for Medicare on behalf of an individual, a different amount of Title II income may be posted because of the Title II rounding provisions.

5. Underpayments

Title II benefits can be received in regular monthly checks (or by direct deposit) or in retroactive payments. If an individual receives a check because of an underpayment, charge the amount of the check (plus any SMI premiums withheld) as unearned income in the month received; do not look back and allocate an underpayment being made in the current month to prior months. See S0830.010 B. on counting retroactive RSDI benefits for an offset period. See S1120.022 for the treatment of reissued Title II monies in change-of-payee situations.

6. Facility of Payment Provisions

When a Title II auxiliary or survivor beneficiary who is subject to work deductions receives Title II benefits in his name because of the facility (something that makes an operation or action easier) of payment provisions but the benefits are those of other beneficiaries, the amount of Title II benefits of each of the involved beneficiaries must be determined separately. Count the benefits as income to the appropriate beneficiaries.

M0830.211 SPECIAL EXCLUSION OF TITLE II COLA *FOR CERTAIN ABD COVERED GROUPS*

A. Policy

The cost-of-living adjustment (COLA) in the individual's Social Security Title II benefit is excluded through the month following the month in which the new federal poverty limits (FPLs) are published when determining the income eligibility of an individual in the following ABD covered groups:

- Qualified Medicare Beneficiary (QMB)
- Special Low-income Medicare Beneficiary (SLMB),
- Qualified Individuals (QI), and
- ABD with Income \leq 80% FPL (ABD 80% FPL).

B. Procedure

Exclude the COLA in the individual's SSA Title II benefit until the first day of the second month following the publication month of the new FPL. Local agency staff are notified of the FPL publication *via a broadcast on the VDSS intranet site, SPARK*.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date July 2000
Subchapter Subject M0830 UNEARNED INCOME	Page ending with S0830.215	Page 24a

C. Example

A QMB-only Medicaid recipient *with* SSA Title II benefits receives a COLA in the benefit *payment for* January. The worker does not take any action on this change in income until the *FPL broadcast has been posted on SPARK. The FPL change is published on January 31, and LDSS are notified by the FPL broadcast posted on February 3.* The worker recalculates the *enrollee's* income for *March 1*, based on the recipient's increased Title II benefit and the new QMB income limit which was effective *January 31*.

S0830.215 BLACK LUNG BENEFITS**A. Introduction****1. Types of Black Lung Benefits**

Black Lung (BL) benefits are paid to miners and their survivors under the provisions of the Federal Mine Safety and Health Act (FMSHA).

Benefits under **Part B** of the FMSHA are paid by the **Social Security Administration** (SSA) and benefits under **Part C** of the FMSHA are paid by the **Department of Labor** (DOL).

2. Payment Dates

In general, Part B benefits are paid on the third of the month while Part C benefits are paid on the fifteenth of the month.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with S0830.215	Page 25

3. Reduction of BL Benefits

Both Part B and Part C BL benefits are subject to offsets (e.g., workers' compensation) and can be reduced due to the recovery of an overpayment. In addition, Part C benefits may be reduced because of liens imposed by other Federal agencies (such as the Internal Revenue Service).

B. Policy

1. Unearned Income

BL benefit payments are unearned income.

2. Deductions

The amount deducted from a Part C BL benefit because of garnishment (e.g., liens imposed by other Federal agencies) is unearned income (see S0830.115). (See 0830.110 if an overpayment is involved.)

3. Countable BL Income

The amount of the BL benefit to count as income is the amount paid after application of an offset (i.e., workers compensation offset or work deductions) but before the collection of any obligations of the recipient (unless the exception in S0830.110 applies).

C. Procedure Part B

a. Verify the receipt of Part B BL benefits

You may use the individual's award notice or actual check.

- b. Use the monthly payment amount (**MPA**) in the PAYMENT section of the Maxium Benefit Rate (**MBR**) to calculate BL income.

NOTE: The MPA is the amount paid to the individual after deduction for an offset or collection of an overpayment.

- c. **Document the file** so that it is clear how countable BL income was determined.

D. Procedure Part C

- a. **Verify the receipt of Part C BL benefits** with the individual's own records (such as an award notice or check), if available.

- b. **Call the appropriate DOL office** if information from the applicant/recipient is unavailable or incomplete. DOL can also resolve questions about overpayments or liens.

- c. **Calculate the amount of countable BL income** from the actual payment amount.

- d. **Document the file** so that it is clear how countable BL income has been determined.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with S0830.220	Page 26

S0830.220 OFFICE OF PERSONNEL MANAGEMENT (CIVIL SERVICE AND FEDERAL EMPLOYEE RETIREMENT SYSTEM) PAYMENTS

A. Introduction

The Office of Personnel Management (OPM) makes U.S. Civil Service and Federal Employee Retirement System (FERS) payments because of disability, retirement, or death.

1. General

2. Annuitants Retired Before July 1, 1960

OPM provides annuitants under the Retired Health Benefits (RHB) program free coverage under Part B of Medicare. At the employee's option, the Part B premium may instead be paid to another health insurance plan or paid directly to the annuitant for use in purchasing health insurance coverage privately. All annuitants covered by the RHB program retired before July 1, 1960.

B. Policy

1. General Rule

U.S. Civil Service and FERS payments are **unearned income** to the entitled retiree or individual survivor.

2. Certain Disability Benefits

Certain disability benefits paid within the first 6 months after an employee last worked are earned income.

NOTE: For an explanation of benefits falling under this exception, see S0820.005.

3. Retired Health Benefit (RHB) Payments

RHB payments to annuitants are **not** income.

NOTE: An RHB payment is shown as a **positive** amount on the health benefits line of the OPM notice.

C. Procedure

1. Overpayment Question

Ask if any benefits otherwise due are being withheld to recover an overpayment. If the answer is "yes," see S0830.110.

2. Use Documents Other Than a Check

Use notices or other documents in the individual's possession (other than a check) to verify the **gross amount** of the payment.

3. Do Not Use Check Alone

Do not use a check alone to verify the amount of the payment because a check is not reliable evidence of the gross amount.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date July 2006
Subchapter Subject M0830 UNEARNED INCOME	Page ending with S0830.225	Page 27

4. Contact with OPM

If the individual has no acceptable documents, write or telephone OPM. Provide the individual's name and civil service annuity claim identification number (a seven-digit number with a "CSA" or "CSF" prefix). If the claim number is not available, provide the individual's date of birth and Social Security number.

The OPM telephone number is (888) 767-6738. Direct written inquiries to:

U.S. Office Personnel Management
Retirement Operations Center
P.O. Box 45
Boyers, PA 16017

S0830.225 RAILROAD RETIREMENT PAYMENTS

A. Introduction

1. Categories of Payment

There are three basic categories of payments made by the Railroad Retirement Board (RRB):

- Life and survivor annuities
- Social Security benefits certified RRB
- Unemployment, sickness, and strike benefits

2. Life and Survivor Annuities

- Life annuities for retirement and disability are paid under the Railroad Retirement (RR) Act to the railroad employee and his/her spouse. Children of a living annuitant are not entitled to benefits.
- Survivor annuities are payable to widows, widowers, children, and dependent parents of railroad employees. A small number of widows receive two annuities, a regular widow's check and a check payable to them as designated survivors of retired railroad employees who elected to receive reduced benefits during their lifetimes.
- RR annuity payments are similar to Title II benefits in that a check for one month is paid the next month. Also, cost of living adjustments (COLA) for RR annuities are effective the same month as Title II COLA's.

3. Social Security Benefits Certified by RRB

SSA may authorize the payment of Social Security benefits for RR employees to RRB instead of directly to Treasury. In these situations, RRB *is* responsible for certifying Title II benefits to Treasury, *but* they remain Title II benefits.

RR benefits are not necessarily Title II benefits. Individuals entitled to this type of benefit receive two award notices. The first notice, from SSA, informs the beneficiary that RRB has responsibility for making Social Security payments. The final notice, from RRB, specifies the amount of the first check.

RR annuity payments and Social Security benefits certified by RRB may be paid as a single check. In these cases, RRB may issue an interim notice before the final notice which specifies the amount of the first check.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date January 2010
Subchapter Subject M0830 UNEARNED INCOME	Page ending with S0830.225	Page 28

**4. Unemployment
Sickness, and
Strike Benefits**

Unemployment, sickness, and strike benefits are computed on a daily basis with each check covering a period of up to 2 weeks. These claims are usually filed through the railroad employer or directly with RRB in Chicago.

B. Policy

**1. Unearned
Income**

Payments made by the RRB are unearned income.

**2. Reduction of
RR Benefits**

The amount deducted from a RR benefit for supplementary medical insurance (SMI) premiums is unearned income. See S0830.110 if an overpayment is involved.

**3. Countable RR
Income**

The amount of the RR annuity to count as income is the amount before the collection of any obligations of the annuitant (unless the exception in S0830.110 applies).

**C. Procedure - Life
and Survivor
Annuities**

**1. General
Development --
All Cases**

- a. Be alert to the possibility of the receipt of, or potential entitlement to, RR benefits in every case where:
 - the individual's social security number begins with a "7"
 - the individual alleges or other evidence indicates railroad employment by the individual or his/her spouse.
- b. Verify allegations of receipt of RR annuities by obtaining a copy of the individual's most recent award notice.
- c. If the notice is unavailable, record in the file the information from the individual's next check.

NOTE: RR checks bear beneficiary symbols that identify the type of RR benefit involved.

**D. Procedure for
Social Security
Benefits Certified
By RRB**

The applicant should have notices issued by SSA and RRB indicating that the benefit is a Title II benefit. If Title II status cannot be determined from the available documents, verify with the RRB that RR benefits are Title II benefits.

**E. Procedure -
Unemployment,
Sickness, and Strike
Benefits**

Obtain evidence of unemployment, sickness, and strike benefits from the individual's own records, such as an award letter or actual check. If this evidence is unavailable, contact the RRB headquarters by telephone *toll-free* at 1-877-772-5772 or by mail at:

Railroad Retirement Board
844 North Rush Street
Chicago, IL 60611-2092

Local RRB offices do not maintain this information.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date July 2020
Subchapter Subject M0830 UNEARNED INCOME	Page ending with M0830.230	Page 29

M0830.230 UNEMPLOYMENT COMPENSATION BENEFITS

A. Definition **Unemployment Compensation** payments are received under a State or Federal unemployment law and additional amounts paid by unions or employers as unemployment benefits.

B. Procedures

1. General Procedures Unemployment Compensation benefits are counted as unearned income

2. Federal Pandemic Unemployment Compensation Program *Section 2104 of the Coronavirus Aid, Relief, and Economic Security (Cares) Act (Public Law No. 116-136) provides that under the Federal Pandemic Unemployment Compensation Program, eligible individuals who are collecting certain Unemployment Compensation, including regular unemployment compensation, will receive an additional \$600 in federal benefits per week for weeks of unemployment ending on or before July 31, 2020.*

The \$600 weekly Pandemic Unemployment Compensation payments (monthly equivalent of \$2,580) are disregarded as income.

S0830.235 WORKERS' COMPENSATION

A. Introduction Workers' compensation (WC) payments are awarded to an injured employee or his/her survivor(s) under Federal and State WC laws, such as the Longshoremen and Harbor Workers' Compensation Act. The payments may be made by a Federal or State agency, an insurance company, or an employer.

B. Policy

1. Income **a. General**

The WC payment less any expenses incurred in getting the payment is unearned income.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with S0830.235	Page 30

b. Amounts Designated for Expenses by Authorizing or Paying Agency

Any portion of a WC award payment **that the authorizing or paying agency designates** for medical expenses or legal or other expenses attributable to obtaining the WC award is not income (S0830.100). The expenses may be **past, current, or future**. The WC payments designated for such expenses may be received in a lump sum or as a continuing payment.

c. Other Amounts Claimed for Expenses

If an individual alleges having incurred expenses that exceed amounts designated for expenses as in b. above, or for which no amount was designated, the normal rules pertaining to the expenses of obtaining income apply (see S0830.100).

2. Resources

There is no resource exclusion that applies specifically to WC payments that have been deducted from income under b. or c. above. Normal resource rules apply to WC payments retained after the month of receipt.

C. Procedure

1. Checking for Possible WC Overpayment Withholding

Ask if any WC benefits are being withheld to recover an overpayment. If yes, see S0830.110.

2. Verifying WC Payments

If possible, use an award notice to verify WC payments. If such a notice is not available, obtain information from the Federal or State agency, insurance company, or employer. (The address of the local Federal Employee's Compensation agency or the State Workers' Compensation Office should be in the local phone directory.)

3. Verifying Amounts Designated by Authorizing or Paying Agency

If the WC award notice includes monies designated for expenses listed in B.1.b. above, but does not specify the amount designated, contact the paying agency (i.e., the Federal or State agency, insurance company, or employer) to verify the amount of the WC award that is designated for such expenses.

4. Verifying Other Amounts Claimed for Expenses

Follow the instructions in S0830.100 C. to verify expenses that exceed the designated amounts or for which no amounts are designated.

D. References

- Expenses of obtaining income, S0830.100.
- General resource rules, S1110.001 ff.
- Liquid resources, S1110.300 ff.

Subchapter Subject M0830 UNEARNED INCOME	Page ending with S0830.240	Page 31

S0830.240 MILITARY PENSIONS

A. Introduction

1. General

The Air Force, Army, Marine Corps, and Navy pay military pensions to military retirees and survivors normally on the first day of the month.

2. Categories of Beneficiaries

There are three categories of beneficiaries who may be entitled to military payments:

- **RETIREE** - A person with 20 years of service who meets the requirement for entitlement;
- **ANNUITANT** - A survivor who is designated by the retiree to receive benefits upon the death of the retiree under the Retired Serviceman's Family Protection Plan (**RSFPP**), Survivor's Benefit Plan (**SBP**), or both;
- **ALLOTTEE** - Anyone other than an annuitant of the RSFPP or SBP who is designated to receive money out of the service member's or retiree's check. Entitlement as an allottee terminates upon the death of the retiree. However, an allottee can become an annuitant when the retiree dies.

3. Types of Annuitants

The RSFPP and SBP annuitant programs pay money to surviving spouse(s) and children.

The SBP program also pays:

- "Insurable interest" person: i.e., someone other than a surviving spouse or child that a service member designated to receive survivor benefits based on monies withheld from his or her retirement payment under the provisions of the SBP program; and
- Minimum income level widows (MIW) who are certified by the VA as having low income and are referred by the Department of Defense (DOD).

B. Policy

1. Basic Policy

Military pensions are unearned income.

Payments to MIW's are income based on need not subject to the \$20 general income exclusion.

2. Income Exclusion - SBP

Any portion of a retiree's pension that is withheld as a contribution to participate in the SBP is excluded from income. To participate in SBP in conjunction with their retirement, military members must elect to receive reduced retirement pay for their lifetime so that a percentage of their

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date February 2009
Subchapter Subject M0830 UNEARNED INCOME	Page ending with S0830.240	Page 32

retirement pay can continue to be paid to their survivors following their death. Once SBP is elected, retirees cannot discontinue the deductions from their pensions.

C. Procedure

1. General

Obtain evidence from the individual's own records, if available. If the individual does not have sufficient evidence, contact the appropriate Military Finance Center as shown in 2. below.

2. Contacting the Military Finance Centers

- a. If information must be requested from a Military Finance Center, send a request with the individual's authorization to release the information.
- b. Include the following information on the request form:
 - The service member's given name, middle initial and surname;
 - The service member's service identification number (if available);
 - The service member's SSN;
 - The annuitant's or allottee's name; and
 - The annuitant's or allottee's SSN.
- c. **Specify the period** for which payment information is needed and identify the pay plan (e.g., RSFPP, SBP).
- d. The following is a listing of the mailing address for each Military Finance Center.

Military Service Branch	Military Finance Center Mailing Addresses
ARMY	USAFAC Director, Retired Operations Indianapolis, IN 46249 ATTN: Management Support Office
NAVY	Defense Finance Accounting Service Code 305 Navy Finance Center Anthony J. Celebrezze Building Cleveland, OH 44199
AIR FORCE	DFAF/DE/CIDM Denver, CO 80279-5000
MARINE CORPS	Marine Corps Finance Center 1500 E. Bannister Street Kansas City, MO 64197

D. References

- Income based on need, S0830.170

Subchapter Subject M0830 UNEARNED INCOME	Page ending with S0830.300	Page 33

DEPARTMENT OF VETERANS AFFAIRS PAYMENTS

S0830.300 DEPARTMENT OF VETERANS AFFAIRS PAYMENTS

The Department of Veterans Affairs (VA) has numerous programs which make payments to Medicaid recipients and their families. For Medicaid purposes, treatment of those VA payments depends on the nature of the payments. The most common types of VA payments are explained in the following sections:

A. Introduction

- PENSION - S0830.302
- COMPENSATION - S0830.304
- EDUCATIONAL ASSISTANCE - S0830.306
- AID AND ATTENDANCE ALLOWANCE - S0830.308
- HOUSEBOUND ALLOWANCE - S0830.308
- CLOTHING ALLOWANCE - S0830.310
- PAYMENT ADJUSTMENT FOR UNUSUAL MEDICAL EXPENSES - S0830.312
- INSURANCE PAYMENTS - S0830.160 (for disability insurance) and S0830.545 (for life insurance).

B. Procedure

Explore the possibility of receipt of, or potential eligibility for, a VA payment, whenever it comes to your attention that an applicant or recipient is:

- a veteran;
- the child or spouse of a disabled or deceased service person or veteran;
- an unmarried widow or widower of a deceased service person or veteran;
- the parent of a service person or veteran who died before January 1, 1957 from a service connected cause.

NOTE: Eligibility for Other Program Benefits: The Social Security Act requires that an applicant or recipient who is potentially eligible for some VA benefits must apply for those benefits.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with S0830.302	Page 34

S0830.302 VA PENSION PAYMENTS

A. Introduction

1. Basis for Payments

Pension payments are based on a combination of service and a nonservice-connected disability or death. With a few rare exceptions noted below, VA pension payments are also based on need.

2. Payments for Dependents

VA may take dependents' needs into account in determining a pension. However, normally VA will not make a pension payments directly to a dependent during the lifetime of the veteran. Instead, the amount of the veteran's basic pension is increased if the veteran has dependents.

A VA pension payment that has been increased for dependents is an augmented VA payment. A VA pension payment made directly to the dependent of a living veteran is an apportioned payment. (See S0830.314 for a discussion of augmented and apportioned payments.)

3. Frequency

Pension payments are usually paid monthly; however, when the monthly payment due is less than \$19, VA will pay quarterly, biannually or annually. VA may also make an extra payment if an underpayment is due.

4. Unusual Medical Expenses

When computing some needs-based pension payments, VA deducts unusual medical expenses from any countable income. This computation may result in an increase in a pension payment or in an extra payment. **An increase or extra payment resulting from this computation is not income.** (See S0830.312 for a discussion of VA payments resulting from unusual medical expenses.)

B. Policy

1. Basic Policy -- Needs - Based

All VA pension payments except those listed in 2. below are federally funded income based on need. As such, these payments are unearned income to which the \$20 general income exclusion does not apply.

2. Policy Exceptions

a. Pension Payments Resulting from Aid and Attendance or Housebound Allowances

VA aid and attendance housebound allowances are not income. (See S0830.308.) All or part of a VA pension may be subject to this rule.

b. Pension Payments Resulting from Unusual Medical Expenses

VA payments resulting from unusual medical expenses are not income. (See S0830.312.) All or part of a VA pension payment may be subject to this rule.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with S0830.302	Page 35

c. Pensions Not Based on Need

Certain pensions paid to veterans or their dependents are not needs based. These pensions are unearned income and the \$20 general exclusion (S0810.420) applies. This exception applies to pensions paid on the basis of:

- a Medal of Honor; or
- a special act of Congress.

3. Assumption

Assume that a VA pension is partly or entirely needs based unless there is evidence to the contrary.

C. Procedure

Follow the procedure below for developing and verifying VA pensions.

Step Action

- 1 Screen for unusual medical expenses per S0830.312.
- 2 Develop for augmentation (per S0830.314) if dependents may be involved.
- 3 Screen for an aid and attendance or housebound allowance per S0830.308.
- 4 Are unusual medical expenses, augmentation, or an aid and attendance or housebound allowance at issue in the case?
 - If yes, go to Step 5.
 - If no, go to Step 6.
- 5 Verify the gross amount and frequency of payment. STOP.
- 6 Verify the gross amount and frequency of payment using (in order of priority):
 - a VA award letter or comparable document in the individual's possession;
 - a benefit check in combination with a signed statement from the individual that provides the frequency of payment and affirms that VA makes no deductions (such as insurance premiums, loan payments, and overpayment deductions); or
 - Verification from VA Regional Office (VARO).

S0830.304 VA COMPENSATION PAYMENTS

A. Introduction

1. **Basis for Payments** Compensation payments are based on service-connected disability or death. VA compensation payments may also be based on need.
2. **Payments for Dependents** VA may take dependents' needs into account in determining a compensation payment. Compensation payments may be paid directly to dependent parents on the basis of a service-connected death.

A VA compensation payment that has been increased for dependents is an augmented VA payment. A VA compensation payment made directly to the dependent of a living veteran is an apportioned payment. (See S0830.314 for a discussion of augmented and apportioned payments.)
3. **Frequency** Compensation payments are paid monthly.
4. **Unusual Medical Expenses** For needs-based compensation payments, VA may deduct unusual medical expenses from any countable income. (See S0830.312.)

B. Policy

1. **Surviving Parent Compensation** Compensation payments to a surviving parent of a veteran are federally funded income based on need. As such, these payments are unearned income to which the \$20 general income exclusion (S0810.420) does not apply.

EXCEPTIONS: Compensation payments resulting from unusual medical expenses, aid and attendance allowances, and housebound allowances are not income (S0830.308 and S0830.312). All or part of a VA compensation payments may be subject to this rule.
2. **All Other Compensation** Compensation payments to a veteran, spouse, child, or widow(er) are unearned income subject to the \$20 general income exclusion (S0810.420).

EXCEPTION: Any portion of a VA compensation payment that is a VA aid and attendance allowance or housebound allowance is not income. (See S0830.308.)

C. Procedure

- Follow the pension instructions in S0830.302 C.
- Do not screen for unusual medical expenses unless a needs-based payment is involved.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with S0830.306	Page 37

S0830.306 VA EDUCATIONAL BENEFITS

A. Introduction

VA provides educational assistance under a number of different programs including vocational rehabilitation. The Medicaid income and resource policies that apply depend on the nature of the VA program.

1. General Information

- a. **Period of Eligibility**--Generally, veterans have 10 years after leaving the service to complete their education and 12 years after leaving the service to complete a program of vocational rehabilitation.
- b. **Frequency of Payment** -- Payments are usually made monthly only for those months the veteran is in school. If school attendance is less than full time, the payments may be made less frequently.
- c. **Other Eligibles** -- Dependents and survivors of veterans may also be eligible for educational benefits.
- d. **"Contributory" Programs** --Some VA educational benefits are based on contributions by the veteran. That is, the veteran contributed to the educational fund while in the service and VA matches the money when the veteran withdraws it to pursue an education. The veteran also has the right to withdraw, as a lump sum, the funds he/she contributed.

2. Specific Educational Programs

- a. **Chapter 30 (Active Duty Educational Assistance Program ("new" GI Bill))** --VA makes payments under this noncontributory program to veterans who:
 - entered active service on or after July 1, 1985; or
 - meet the qualification in 2 c. below, serve 3 years after June 30, 1985 and have had their military pay reduced for 12 months during their active service due to the individual participating in this program.

Payments under this program are not augmented for dependents if the veteran entered active service after June 30, 1985.

- b. **Chapter 31 (Training and Rehabilitation for Veterans with Service Connected Disabilities)** --- VA pays benefits under this noncontributory vocational rehabilitation program to veterans who served in the military after August 1, 1940.

Chapter 31 benefits may be augmented for dependents.

- c. **Chapter 32 (Veterans Educational Assistance Program (VEAP))** -- VA pays benefits under this contributory program to veterans who entered active service between January 1, 1977 and June 30, 1985.

The benefits are not augmented for dependents.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with S0830.306	Page 38

d. **Chapter 35 (Survivors and Dependents Educational Assistance Program)** -- VA makes payments under this noncontributory program to:

- children (between ages 18 and 26) and surviving spouses of veterans who died in the service; or
- children and spouses of living veterans who are 100 percent disabled due to a service-connected injury.

NOTE: Survivors and dependents have 10 years from the date of the veteran's service-connected death or date of 100 percent disability to participate in this program.

e. **Chapter 106 (Selected Reserve Program)**--VA pays benefits under this noncontributory program to reservists who have a 6-year commitment while they are in the reserves. Payments under this program are not augmented for dependents.

B. Policy

1. What is Not Income

a. **Vocational Rehabilitation** -- Payments made as part of a VA program of vocational rehabilitation are not income (S0815.050 C.). This includes any augmentation for dependents.

b. **Withdrawal of Contributions** -- Any portion of a VA educational benefit which is a withdrawal of the veteran's own contribution is conversion of a resource and is not income (S0815.200).

2. What is Income

VA educational benefits other than those in 1.a. and b. above are unearned income. However, any portion of a grant, scholarship, or fellowship used for paying tuition, fees, or other necessary educational expenses is excluded from income (S0830.455).

NOTE: The \$20 general exclusion (S0810.420) applies to VA educational assistance and the payments are subject to deeming.

3. Augmented Benefits

The policy for augmented VA benefits as explained in S0830.314 applies to augmented educational benefits.

EXCEPTION: Subsistence allowances received during vocational rehabilitation may be augmented, but the dependent's portion is not income per 1.a. above.

Only that portion of an educational payment which is income to the individual obtaining the education is subject to the exclusion for educational expenses as described in S0830.455. The augmented portion which is income to the dependent is not subject to this exclusion.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with S0830.306	Page 39

C. Procedure

Accept the following, in the order listed, as documentation of type, amount, and frequency of payments:

1. Acceptable Evidence

- a. A VA award letter or comparable document in the individual's possession; or
- b. Verification from the VARO.

2. Noncontributory/Contributory Programs

- a.**Service Began Prior to January 1, 1977 or After June 30, 1985** -- If there is evidence in file that the veteran's active service began prior to January 1, 1977 or after June 30, 1985, assume that the educational benefits are paid under a noncontributory program. (A signed statement from the veteran or the veteran's surviving spouse or child is sufficient evidence of service dates).
- b. **Service Began Between January 1, 1977 and June 30, 1985** -- If there is evidence that the veteran's active duty service began between January 1, 1977 and June 30, 1985, assume that the educational benefits (other than Chapter 31 benefits) paid to a veteran are paid under a **contributory** program. (A signed statement from the veteran or the veteran's surviving spouse or child is sufficient evidence of service dates). Verify the portion of any VA educational benefit that is a withdrawal of the veteran's contributions to the fund.

Verify this information with the VARO and obtain the following information:

- For each periodic payment of educational benefits, provide the dollar amount representing a return of the veteran's own contribution.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with S0830.308	Page 40

S0830.308 VA AID AND ATTENDANCE AND HOUSEBOUND ALLOWANCES

A. Introduction

VA pays an allowance to veterans, spouses of disabled veterans, and surviving spouses who are in regular need of the aid and attendance of another person or who are housebound. This allowance is combined with the individual's pension or compensation payment.

B. Policy -- Income Treatment

- VA aid and attendance and housebound allowances are not income for Medicaid purposes. (See S0815.050 for rules on medical and social services payments.)
- If the veteran pays his/her own spouse or deemor to provide medical or social services, the payment is not income to the eligible spouse or deemor.
- If a veteran without a spouse or child or a surviving spouse without a child is covered by a Medicaid plan for services furnished him/her by a nursing facility, the maximum pension that can be paid to or for the veteran or surviving spouse for any month after the month of admission to such nursing facility is \$90. This reduced pension is an aid and attendance allowance in all cases, and not income.

C. Policy -- Public Income Maintenance (PIM) Payments

A VA payment consisting entirely of an aid and attendance or housebound allowance is not a PIM payment for living arrangement and deeming purposes.

D. Procedure

Contact the VARO for verification of a pension or compensation payment amount whenever the veteran, spouse or a disabled veteran, or surviving spouse;

- alleges an aid and attendance or housebound allowance; or
- is housebound; or
- is blind; or
- is unable to dress or care for him/herself; or
- is a patient in a nursing home; or
- is single and severely and permanently disabled or otherwise appears to require the assistance of someone else on a day-to-day basis.

Do not use a VA check or award letter to verify the amount of income if an aid and attendance or housebound allowance is involved. (When the VARO provides the amount of the pension or compensation payment, they will not include a household or aid and attendance allowance). Do not ask the VARO about the amount of the aid and attendance or housebound allowance because this information is not needed.

S0830.310 VA CLOTHING ALLOWANCE

- A. Introduction

A lump sum clothing allowance is payable in August of each year to a veteran with a service-connected disability for which a prosthetic or orthopedic appliance (including a wheelchair) is used. The allowance is intended to help defray the increased cost of clothing due to wear and tear caused by the use of such appliances.
- B. Policy

A VA clothing allowance is not income (S0815.050, Medical and Social Services).
- C. Procedure

Accept the individual's allegation concerning a VA clothing allowance. No further development is required

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with S0830.312	Page 42

S0830.312 VA PAYMENT ADJUSTMENT FOR UNUSUAL MEDICAL EXPENSES

A. Introduction

VA considers unusual medical expenses when determining some needs-based pension and compensation payments (S0830.302 and S0830.304). Expenses which exceed 5 percent of the maximum annual VA payment rate are considered unusual. The amount of the unusual medical expenses is deducted from countable income when computing the VA payment. As a result, the veteran, survivor, or dependent may receive a higher monthly VA payment, an extra payment, or an increase in an extra payment.

B. Policy -- Income Treatment

1. Effective July 1, 1994

VA payments resulting from unusual medical expenses are not income.

2. Prior to July 1, 1994

Any VA increase or extra payment resulting from unusual medical expenses was income.

C. Policy -- Public Income Maintenance (PIM) Payments

If a VA payment to an individual is entirely attributable to unusual medical expenses, then it is not a public income maintenance (PIM) payment for living arrangement and deeming purposes.

D. Policy Resources

Any unspent VA payments resulting from unusual medical expenses are resources if retained into the calendar month following the month of receipt.

E. Procedure -- General

1. When to Consider

Consider the issue of unusual medical expenses in all cases involving a VA payment based on need. Develop the issue only if indicated in 2. and 3. below.

2 When Not to Develop

Do not routinely develop the issue of unusual medical expenses for an ineligible spouse or parent (unless you believe the payment may be entirely attributable to such expenses per C. above).

NOTE: If the payment is entirely attributable to unusual medical expenses, other income of an ineligible spouse or parent is subject to deeming.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M08	November 1995
Subchapter Subject	Page ending with	Page
M0830 UNEARNED INCOME	S0830.312	43

3. When to Develop
- Develop the issue of unusual medical expenses (unless precluded by 2. above) as indicated in the chart below.

SITUATION	INDIVIDUAL IS...	ACTION NEEDED
Medicaid application filed or VA benefits begin	veteran or widow	Develop per F. below.
	VA dependent	Develop per F. below only if you believe the expenses may affect the dependent's portion per F.7. below.
Redetermination or other income review	veteran or widow	Develop per F.3 below
	VA dependent	Develop per F. below only if you believe the expenses may affect the dependent's portion per F.7. below.

F. Procedure -- Development and Documentation

1. Examine Documents
- If documents show that VA considered unusual medical expenses, go to F.3. below. If not, go to F.2. below.
2. Question the Individual
- Question the individual following the steps below. You need not document responses.

STEP	ACTION
1	Did the individual or any member of his/her family report any income to VA? <ul style="list-style-type: none">If yes or unknown, go to Step 2.If no, STOP. No further action is necessary.
2	Did VA ever notify the individual (or the VA claimant) that medical expenses were considered in the VA payment? <ul style="list-style-type: none">If yes, go to F.3. below.If no, STOP. No further action is necessary.If unknown, go to Step 3.
3	Has the individual (or the VA claimant) ever reported medical expenses to VA?

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with S0830.312	Page 44

- If yes or unknown, go to F.3. below.
- If no, STOP. No further action is necessary.

3. Contact VA

Contact the VARO:

- See S0830.320 A. for VARO addresses.
- On verification form, complete only the identifying information for the applicant and the veteran unless you are requesting other information.
- Inquire what date payments due to unusual medical expenses began.

4. Unusual Medical Expenses Involved

If VA reports payments due to unusual medical expenses:

- deduct the amount from the total VA payment to determine countable income, and adjudicate the case.

NOTE: If payments due to unusual medical expenses exceed the amount attributable to the veteran/widow(er), see 5. below.

5. Unusual Medical Expenses and Augmentation Involved

If augmentation is involved (S0830.314):

- deduct the payments due to unusual medical expenses first from the veteran/widow(er)'s portion, and
- deduct any remaining amount from the dependent's portion.

NOTE: If more than one dependent is involved, prorate the remaining amount equally among the dependents

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with S0830.314	Page 45

S0830.314 AUGMENTED VA BENEFITS

A. Introduction

The Department of Veterans Affairs (VA) often considers the existence of dependents when determining a veteran's or a veteran's surviving spouse's eligibility for pension, compensation, and educational benefits. If dependents are involved, the amount of the benefit may be larger.

B. Definitions

1. Absent Dependent

An absent dependent is a dependent who does not reside with the veteran or surviving spouse. Residency is determined as of the first moment of the month.

2. Apportionment

Apportionment is direct payment of VA benefits to a dependent. VA decides whether and how much to pay by apportionment on a case-by-case basis. Apportionment reduces the amount of the augmented benefit payable to the veteran or surviving spouse.

3. Augmented Benefit

An augmented benefit is a benefit that is increased, or which has higher income eligibility limits, because of a dependent. An augmented VA benefit, which for Medicaid purposes includes a designated beneficiary's portion and a dependent's portion, usually is issued as a single payment to the veteran or the veteran's surviving spouse.

4. Child

For purposes of this section, a child is a son or daughter (biological, adoptive, or by marriage) who is:

- under age 18, or
- age 18-22 (inclusive) and a student, or
- age 18 or older, and disabled since before age 18.

5. Dependent

For purposes of this section, a dependent is a veteran's child or spouse (other than a surviving spouse) who is or was dependent on the veteran for financial support, as determined by VA.

6. Dependent's Portion

The dependent's portion is that part of an augmented benefit that is attributable to the dependent.

7. Designated Beneficiary

A designated beneficiary is the veteran or surviving spouse who receives an augmented benefit.

8. Designated Beneficiary's Portion

The designated beneficiary's portion is that part of an augmented benefit that is attributable to the veteran or surviving spouse.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with S0830.314	Page 46

C. Policy

1. **Apportioned Benefit**
A benefit paid by apportionment (per B.2. above) is VA income to the dependent to who (or for whom) it is paid. It does not constitute a support payment from the designated beneficiary.
2. **Designated Beneficiary's Portion**
The designated beneficiary's portion is VA income to the designated beneficiary.
3. **Dependent's Portion**
The dependent's portion is VA income to the dependent, provided the dependent resides with the designated beneficiary. It does not constitute a support payment from the designated beneficiary.
4. **Absent Dependent's Portion--Prior to 11/17/94**
An absent dependent's portion of augmented benefit received by the designated beneficiary prior to November 17, 1994 was VA income to the absent dependent, unless VA had previously denied an application for apportionment. If apportionment had been denied, the absent dependent's portion, less any amount provided by the designated beneficiary to the absent dependent, was income to the designated beneficiary.

EXAMPLE:

Susan Baker, age 17, is an absent dependent whose application for apportionment has been denied. Her father, Joseph Baker, is also a Medicaid recipient. He receives an augmented monthly VA pension of \$450 on the first of each month. He has no other dependents. During 1993, Mr. Baker sends Susan \$25 per month. The VA regional office (VARO) verified that Susan's portion of the VA benefit is \$50. \$25 is child support payment for Susan and \$425 is income for Mr. Baker.

5. **Absent Dependent's Portion--Effective 11/17/94**
An absent dependent's portion of an augmented VA benefit, received by the designated beneficiary on or after November 17, 1994, is **not income to either** the dependent or the designated beneficiary. This is true even if the designated beneficiary continues to receive the absent dependent's portion. See C.6. below for the policy on payments made to an absent dependent by the designated beneficiary.
6. **Other Payments to Absent Dependents--Effective 11/17/94**
A payment from a designated beneficiary to an absent dependent on or after November 17, 1994 is not VA income to the absent dependent. It is a gift, a support payment, in-kind support and maintenance, or another kind of income, unless it is not income per SI 00815.001 ff.

EXAMPLE: Robert Jones, age 17, and his father Raymond Jones are both Medicaid recipients who do not reside together. Mr. Jones' VA pension is \$450 per month, which includes a portion for Robert as his only dependent. Mr. Jones sends Robert a money order for \$25 per month. The \$25 is child support for Robert. The EW verified that Mr. Jones' portion of the VA benefit is \$400. The \$400 is VA pension based on need for Mr. Jones.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with S0830.314	Page 47

D. Procedure--Initial Application and Posteligibility Development

Use this procedure to determine how to develop for augmentation in initial applications.

Step	Action
1	<p>If the claimant is:</p> <ul style="list-style-type: none"> • a VA beneficiary (veteran or veteran's surviving spouse), go to step 2. • a VA beneficiary (spouse or child paid by apportionment per B.2. above), go to step 5. • a VA beneficiary 's spouse or child who resides with the beneficiary, go to step 4. • a VA beneficiary's spouse or child who does not reside with the beneficiary, STOP. No income development is required.
2	<p>Ask the applicant whether the benefit includes money for any dependents. If the answer is:</p> <ul style="list-style-type: none"> • yes, go to step 4. • unknown, go to step 3. • no, go to step 5.
3	<p>Does the applicant have a living spouse or child (including an adult child disabled since childhood)?</p> <ul style="list-style-type: none"> • If yes, go to step 4. • If no, go to step 5.
4	<p>Verify the VA income for each month in the period covered by the application.</p>
5	<p>Verify pension or compensation per S0830.302 C. step 6, and educational benefits per S0830.306 C. STOP.</p>

PAYMENTS FOR CHILDREN AND SPOUSES

M0830.400 AID TO FAMILIES WITH DEPENDENT CHILDREN (AFDC)

A. Definition Aid to Families with Dependent Children (AFDC) is the program of payments made under Part A of Title IV of the Social Security Act except for section 406(e) of that part. (Payments under section 406(e) are emergency assistance payments and the applicable instructions appear at S0830.405.)

B. Introduction AFDC makes a payment to a family unit rather than an individual. The payment is frequently referred to as the "grant". An individual who meets the eligibility requirements for both AFDC and SSI may choose the program under which he/she prefers to receive benefits. However, if the individual receives SSI, he/she may no longer be included in the AFDC grant.

S0830.405 EMERGENCY ASSISTANCE UNDER TITLE IV A OF THE SOCIAL SECURITY ACT

A. Background Emergency Assistance under title IV A is provided for children, including families with children, by States and localities. Their expenditures are matched by the Federal government. Although Emergency Assistance is authorized by title IV A of the Social Security Act ("Aid to Families with Dependent Children"), it is a program separate from the income maintenance program commonly known as AFDC (S0830.400).

The Emergency Assistance Program is optional to the State. The assistance may be provided in cash or in kind and may be a loan. The assistance may include support and maintenance, social services or medical services. The program's purpose is to meet emergency or crisis needs, not ongoing basic needs, and assistance is limited to payments which are authorized during a period of 30 consecutive days in any 12-month period. Although there is an immediately available resource test for eligibility, an Emergency Assistance Program is not required to have an income test.

B. Policy Principle Emergency Assistance is subject to the general rules pertaining to income and income exclusions. Emergency Assistance is neither IBON (S0830.170) nor ABON (S0830.175).

C. Operating Procedures Determine the nature of the assistance and apply the appropriate operating instructions pertaining to income and income exclusions. Related sections include:

S0815.050 Medical and Social Services
S0815.350 and S1120.220. Loans
S0810.420 \$20 General Income Exclusion
S1110.600.B.4. Replacement of a Resource

M0830.410 FOSTER CARE

A. Definitions

1. Foster Care

An individual is considered to be in foster care when:

- a public or private nonprofit agency places the individual under a specific placement program; and
- the placement is in a home or facility which is licensed or otherwise approved by the State to provide care; and
- the placing agency retains responsibility for continuing supervision of the need for such placement and the care provided.

NOTE: When determining the eligibility of a child in foster care refer to the Family & Children's Policy. This section (S0830.410) is to be used only when evaluating the eligibility of a provider of foster care when the provider is the applicant.

2. Foster Care Payment

For Medicaid purposes, a foster care payment is a payment made to the provider for the purpose of meeting the needs of the individual in foster care.

NOTE: An agency may make an additional payment to the foster care provider for his or her own use (e.g., an incentive or service payment not intended to support the child). While these two payments may be combined and termed the "foster care payment" by the issuing agency, only the part which is provided to meet the needs of the individual in care is the foster care payment for Medicaid purposes.

B. Policy

a. Foster Care Provider

- Foster care payments (as defined in A.2. above) are not income to the provider.
- Amounts paid to a provider of foster care in addition to the foster care payment are income to the provider.

C. Procedure

1. Foster Care Payments to Providers of Foster Care

- Assume that the payment made to the provider is a foster care payment** (i.e., is to meet the needs of the individual in care) and is not income to the provider, unless there is evidence to the contrary.
- If the provider is a Medicaid recipient or deemor and evidence indicates a payment includes additional monies above the foster care payment**, verify the purpose(s) of the payment and the amounts involved using documents in the individual's possession, or regional

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with M0830.410	Page 51

precedents, or contact with the agency. Consider any payment in excess of the amount paid to meet the needs of the individual to be income to the care provider.

NOTE: This income is usually unearned income but may be earned income.

If the care provider is not self-employed and evidence indicates a payment was made for a specific service (e.g., \$20 for shopping assistance), accept the care provider's signed allegation of any cost of providing the service (e.g., \$5 automobile expense). Deduct the cost from the payment and consider the remainder to be unearned income.

S0830.415 ADOPTION ASSISTANCE

A. General

Adoption assistance programs provide payments and/or services for children for whom unassisted adoption is unlikely because of age, ethnic background, physical, mental or emotional disability, etc. The income of either the adopting parent, the adopted child, or both may have been considered in determining the payment. Usually, adoption assistance will be formalized in a written agreement between the adopting parents and the agency involved. Adoption assistance may be provided by public or private agencies and may be based on financial need.

Adoption assistance is provided by States under title IV-E of the Social Security Act involves Federal funds and is needs-based. Under IV-E, there is no income test for the adopting parents but the children must be those who are, or could be, eligible for AFDC or SSI prior to adoption. Therefore, there is an income test for the children who receive IV-E adoption assistance.

B. Policy Principles

1. Adoption Assistance Under Title IV-E

These individuals are eligible for Medicaid as Mandatory Categorically Needy. No further development is necessary. These individuals are automatically eligible. Refer to Family & Children's Policy.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date January 2006
Subchapter Subject M0830 UNEARNED INCOME	Page ending with M0830.420	Page 53

M0830.420 SUPPORT PAYMENTS (CHILD SUPPORT, SPOUSAL SUPPORT, ALIMONY) --GENERAL

A. Policy

1. Definitions

Alimony and support payments are cash. In-kind contributions for food, clothing or shelter are not income. Support payments may be made voluntarily or because of a court order. Alimony (sometimes called "maintenance") is an allowance made by a court from the funds of one spouse to the other spouse in connection with a suit for separation or divorce.

2. Alimony, Spousal, and Other Adult Support

Alimony, spousal, and other adult support payments are unearned income.

3. Child Support Exclusion

Child support payments are unearned income *to the child*. One-third of the amount of a payment made to or for an eligible child by an absent parent is *excluded*. (See B. below for definition of an absent parent for purposes of this exclusion.)

4. Child Support on Behalf of an Adult Child

a. Current Child Support Received on Behalf of an Adult Child

Child support payments (excluding arrearages) received for an adult child by a parent after an adult child stops meeting the definition of a child are income to the adult child. The support payments are income to the adult child whether or not the adult child lives with the parent or receives any of the child support payment from the parent. Such support payments are not subject to the one-third exclusion.

b. Child Support Arrearages Received on Behalf of an Adult Child

When a parent receives a child support arrearage payment on behalf of an adult child:

- *Any amount of that payment that the parent receives and does not give to the adult child is income to the parent. The portion of the arrearage payment retained by the parent is not income to the adult child and does not affect the adult child's Medicaid eligibility.*
- *Any amount of that payment that the parent gives to the adult child is income to the adult child in the month given, not income to the parent.*
- *The one-third child support exclusion does not apply.*
- *When an adult child receives a child support arrearage payment directly from the absent parent, the arrearage payment is income to the adult child.*

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date January 2006
Subchapter Subject M0830 UNEARNED INCOME	Page ending with M0830.420	Page 54

B. Definition--Absent Parent

1. General

A parent is considered absent if the parent and the child do not reside in the same household. **NOTE:** There is no connection between the terms used in this subsection and the concept of "temporary absence" for deeming purposes.

- If the periods of living together are brief and the child remains independent or under the care and control of another person, agency, institution, or is living in the home of another, the parent is usually considered absent unless he/she retains **parental responsibility and control**.
- A parent is not considered absent if he is away due to **employment** (except for military service), intends to resume living with the child, and retains parental control and responsibility.
- A child (or parent) who is a **boarding student** in an educational facility is not considered absent.

C. Procedure

1. Verification of Amount and Frequency

To verify the amount and frequency of support payments use:

court records;
records of an agency through which the payments are made;
documents in the individual's possession; or
contact with the source of the payment.

If this is not successful, accept the individual's notarized statement.

2. Relationship

Accept the individual's allegation of relationship of the payer to the payee unless you doubt the allegation.

3. One Payment for Two or More Individuals

In the case of one payment for two or more individuals:

- To determine one individual's share of a support payment made for more than one person, **look first to the legal document** setting the payments.
- If the legal document** addresses each person's share, divide the payment according to the terms of the document. If the payment does not equal the established support amount, contact the source of the payment to establish intent and divide the payment according to that intent. If this is unsuccessful, divide the payment proportionately.
- If **no legal document** exists or the document does not address shares, contact the source of the payment to establish intent and allocate the support according to that intent.
- If this is not successful, accept the individual's **signed allegation** of who the support is for and how the support is divided. If the individual does not know how the support should be divided, divide the payment equally.

EDUCATIONAL ASSISTANCE

S0830.450 GENERAL

A. Introduction

Educational assistance is provided in many forms. For Medicaid purposes, treatment will vary depending on the nature and sometimes the use of the assistance. Educational assistance may be earned or unearned income and may be counted or excluded, B. below provides a guide to specific educational assistance instructions and related sections.

B. References

1. Specific Instructions

The following sections address specific types of educational assistance:

- Department of Education or Bureau of Indian Affairs Involved S0830.460
- Tuition, Fees, and Other Expense Amount of Grants, Scholarships & Fellowships S0830.455
- VA Educational Benefits S0830.306

2. Related Instructions

The following sections contain related instructions:

- Student Child Earned Income Exclusion S0820.510
- Plan for Achieving Self-Support S0810.430
- Proceeds of a Loan S0815.350
- Earned Income S0820.001

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with S0830.455	Page 59

S0830.455 TUITION, FEES AND OTHER EXPENSE AMOUNTS OF GRANTS, SCHOLARSHIPS, AND FELLOWSHIPS

A. Definition

1. **Grant, Scholarship, or Fellowship**
Grants, scholarships, and fellowships are amounts paid by private nonprofit agencies, the U.S. Government, instrumentalities or agencies of the U.S., State and local governments, foreign governments, and private concerns to enable qualified individuals to further their education and training by scholastic or research work, etc.
2. **Not a Grant, Scholarship, or Fellowship**
 - a. Any amount provided by an individual to aid a relative, friend, or other individual in pursuing his studies where the grantor is motivated by family or philanthropic considerations is a **gift** and is not a grant, scholarship, or fellowship for purposes of this section.
 - b. Any amount which is **earned income** is not a grant, scholarship, or fellowship.

B. Policy

1. **Exclusion**
Any portion of a grant, scholarship, or fellowship used for paying tuition, fees, or other necessary educational expenses is excluded from income. This exclusion does not apply to any portion set aside or actually used for food, clothing, or shelter. (See S0830.460 if the Department of Education or BIA is involved.)
2. **Allowable Expenses**
It is expected that **expenses will include** carfare, stationery supplies, and impairment-related expenses necessary to attend school or perform schoolwork (e.g., special transportation to and from classes, special prosthetic devices necessary to operate school machines or equipment etc.).
3. **Allowable Fees**
Allowable fees will include laboratory fees, student activity fees, etc.

C. Procedure

1. **Verify Nature of Assistance**
Use documents in the individual's possession, contact with the institution or provider, or a precedent to verify the nature of the assistance (e.g., scholarship, grant, etc.) and then, if not totally excluded under another provision, the amount, date(s) of payment, payee, etc. (See S0830.460 if the Department of Education or the Bureau of Indian Affairs is involved.)
2. **Allowable Expenses**
In determining allowable expenses:
 - a. Use your **judgement** to determine whether payment of an expense was a necessary part of obtaining an education.
 - b. Use any **reasonable method** for deducting educational expenses from income.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with S0830.460	Page 60

3. Verify Expense Use receipts, bills with cancelled checks, contact with the provider, etc., to verify expenses paid. If an expense is verified as incurred but not paid, assume the individual will pay the expense unless you have reason to question the situation. No followup is required if the assumption is applied.

4. Tolerance - Miscellaneous Expenses A signed allegation is acceptable evidence of expenses when it is unreasonable to obtain other evidence (e.g., daily busfare, small expendable items, etc.). Do not apply this tolerance to major expenses such as tuition, fees, and books.

D. References Department of Education or the Bureau of Indian Affairs involved, S0830.460
Veteran Administration educational benefits, S0830.306

S0830.460 DEPARTMENT OF EDUCATION OR THE BUREAU OF INDIAN AFFAIRS INVOLVED

A. Background Federal funds or insurance are provided for a number of educational programs at middle school, secondary school, undergraduate and graduate levels under title IV of the Higher Education Act of 1965 and student assistance programs of the Bureau of Indian Affairs (BIA). Included are work-study programs, upward bound and talent search programs, as well as grants-in-aid and loans for college study.

B. Policy

1. Undergraduate College Study--Grants/Loans Any grant, scholarship, or loan to an undergraduate student for educational purposes made or insured under any program administered by the U.S. Commissioner of Education is excluded from income and resources.

2. Financial Assistance Any portion of student financial assistance for attendance costs received from a program funded in whole or in part under title IV of the Higher Education Act of 1965 or under BIA Student Assistance Programs is excluded from income and resources. Attendance costs are:

- tuition and fees normally assessed a student carrying the same academic workload (as determined by the institution), including costs for rental or purchase of any equipment, materials, or supplies required of all students in the same course of study; or
- allowances for books, supplies, transportation, and miscellaneous personal expenses for a student attending the institution on at least a half-time basis, as determined by the institution.

NOTE: This exclusion applies to the common programs of Federal financial aid for college students; e.g., Supplemental Education Opportunity Grants (SEOG), National Defense Student Loans (NDSL), Pell Grants, and State Student Incentive Grants (SSIG)

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with S0830.460	Page 61

C. Procedure

1. **Determine Funding**
Determine whether Federal funds under a Department of Education (DE) or BIA program are involved in any educational assistance (e.g., loan, scholarship, stipend, employment under a work-study program, etc.). Use documents in the individual's possession, printed material, precedents, contact with the school or provider, etc. If such Federal funds are not involved, follow the instructions in S0830.455.
2. **Undergraduate Study With DE Involvement**
If Federal funds under a DE program are involved and the individual has received a grant, scholarship, or loan for **undergraduate** college study, use documents in the individual's possession, contact with the school or provider and/or precedents to verify the DE involvement and the purpose of the assistance. Totally exclude all the assistance from both income and resources. No further development is necessary.
3. **Other Study With DE Involvement**
In all other situations involving Federal funds under a DE program, determine if any of the funds are provided under title IV of the Higher Education Act of 1965. If not provided under title IV, follow the instructions in S0830.455. Otherwise, see 4. below.
4. **BIA or Title IV Involvement**
If educational assistance is provided under title IV of the Higher Education Act of 1965 or a BIA Student Assistance program:
 - a. **Verify** the amount of the assistance and the portion which has been provided for tuition, fees, equipment, books, supplies, transportation, and/or miscellaneous personal expenses. Also, if a portion of the assistance is provided as an allowance for books, supplies, transportation and/or miscellaneous expenses, **verify** that the student is attending the institution on at least a half-time basis. Use **documents** in the individual's possession, or **contact** with the institution.
 - b. **Exclude** from income and resources any verified assistance made available for tuition, fees, equipment and supplies and, the case of a student attending school on at least a half-time basis, as an allowance for books, supplies, transportation and miscellaneous personal expenses.
 - c. Consider any student assistance in excess of the amount made available for the purposes in 4.b. above as income and resources. For example, \$400 of \$500 in work-study earnings may be excluded from income and resources if a college indicates that \$400 from work-study was provided for tuition, books, supplies, transportation and miscellaneous personal expenses. The remaining \$100 is considered as earned income.

However, excess income may be excludable under the instructions in S0830.455 or under a plan for achieving self-support (S0870.001).

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with M0830.500	Page 62

MISCELLANEOUS UNEARNED INCOME

M0830.500 DIVIDENDS AND INTEREST

A. Definition

Dividends and interest are returns on capital investments such as stocks, bonds, or savings accounts.

B. Policy-- Month Dividends/Interest are Unearned Income

Dividends and interest are unearned income at the earlier of the following:

- the month they are credited to an individual's account and are available for use;
- the month they are set aside for the individual's use; or
- the month they are received by the individual.

NOTE: Account service fees or penalties for early withdrawal do not reduce the amount of interest or dividend income.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with M0830.500	Page 63

C. Policy - Income Treatment

The following describes when dividends or interest are considered unearned income.

When the source of dividends or interest is a	and it ...	then ...
financial institution	credits income to a customer account, computes or com-pounds interest or up-dates its own records but does not report income to a customer account,	the interest is income. the interest is not income.
series E/EE U.S. savings bond	was purchased by the owner; or was a gift to the owner prior to the expiration of the minimum retention period, was a gift to the owner after expiration of the minimum retention period	the interest is not income upon receipt or upon expiration of the minimum retention period. Rationale: When series E/EE bonds are redeemed, the interest is an income in the value of a resource; it is not income. the bond produces income equal to the purchase price plus accrued interest through the month the individual receives it.
series H/HH U.S. savings bonds	makes a semi-annual interest payment, was a gift to the owner after expiration of the minimum retention period,	the interest is income when available to the individual. the bond produces income equal to the purchase price plus accrued interest through the month the individual receives it.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M08	November 1995
Subchapter Subject	Page ending with	Page
M0830 UNEARNED INCOME	M0830.500	64

C. Policy - Income
Treatment
(Cont'd)

The following describes when dividends or interest are considered unearned income.

When the source of dividends or interest is a	and it ...	then ...
life insurance policy	pay dividends;	the dividends are not income.
life insurance policy	pays interest on dividend,	the interest is income (this is the case even when the policy is not a resource; i.e., face value is under \$1,500).
promissory note or other loan agreement	pays interest; or pays principal and interest in the same payment,	the interest only is income. Rationale: the principal amount represents conversion of a resource.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with M0830.500	Page 65

D. Procedure - Verification and Documentation

1. Development for Dividends and Interest

If you must develop dividends or interest, use the chart below to verify and document frequency and amount.

If the payer is a ...	and the owner ...	then....
financial institution that pays interest	has countable resources within the applicable resource limit (\$1110.003),	Verify: <ul style="list-style-type: none"> • type of account • whether it pays interest; and if so, • the frequency and amount.
financial institution that pays interest	has countable resources in excess of the resource limit,	accept the allegations as to the three points listed above and stop development. The individual is not eligible.
promissory note or other loan agreement	alleges joint ownership of all interest-bearing account,	see S0810.130.
	alleges interest income,	verify amount and frequency of interest income with a check or notice issued by the source or an amortization table. If one of these is not available, see S0830.005 on developing unearned income.
		NOTE: If interest income is excludable because it is received infrequently or irregularly, see S0810.410.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with M0830.500	Page 66

**D. Procedure -
Verification and
Documentation
(Cont'd)**

**1. Development
for Dividends
and Interest
(Cont'd)**

If you must develop dividends or interest, use the chart below to verify and document frequency and amount.

If the payer is a ...	and the owner ...	then....
promissory note or other loan agreement	does not know whether interest income is received or due, or does not know the amount of interest income,	<ul style="list-style-type: none"> inspect the loan agreement for the needed information; or if necessary, consult an amortization schedule.
	has countable resources in excess of resource limit,	verify resources.
source of interest different from above	has a check or award notice from the payer,	document the file with a copy of the check or award notice.
	does not have a check or award notice.	see S0830.005 on developing unearned income.
source of dividends	has a check or dividend notice from the payer,	use the check or dividend notice from the source as verification; or if necessary, see S0830.005 on developing unearned income.
	receives payment in a form other than cash (e.g., shares of stock),	determine the value as income under instructions specific to that item.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M08	January 2010
Subchapter Subject	Page ending with	Page
M0830 UNEARNED INCOME	M0830.500	67

E. Procedure -
Resolving
Discrepancies

Use the following procedure to resolve discrepancies when an individual disagrees with the amount and/or frequency of interest or dividend payments as shown on account records.

is...	and ...	then...
totally excludable	_____	no resolution is necessary
not totally excludable	the individual has a reasonable explanation for the discrepancy	accept his/her allegation; and document the file <input type="checkbox"/>
	the individual does not have a reasonable explanation for the discrepancy	<input type="checkbox"/> use account records as verification.

F. Procedure --
Projecting Future
Interest/Dividend

Unless there is evidence to the contrary, **assume** that interest or dividend payments will continue at the current amount and frequency.

G. References

These are **some** (not all) of the exclusions that may apply to dividend or interest income:

- Infrequent or irregular income, S0810.410;

S0830.501 INTEREST AND APPRECIATION IN VALUE OF EXCLUDED BURIAL FUNDS AND BURIAL SPACE PURCHASE AGREEMENTS

A. Policy--Exclusion of Interest and Appreciation

1. **The Exclusion**
 - a. Interest earned on the value of excluded burial funds is excluded from income (and resources), if left to accumulate.
 - b. Interest earned on agreements representing the purchase of an **excluded burial space** is excluded from income (and resources), if left to accumulate.
2. **When Exclusion Applies**

This income exclusion applies only if the burial fund or space purchase agreement is excluded at the time the interest is paid.
3. **Interest and Appreciation Must Be Left to Accumulate**

Appreciation in value and interest must be left to accumulate to be excluded from income. If not left to accumulate (e.g., paid directly to the individual, spouse, or parent), the receipt may result in countable income.

B. Policy--Related Burial Issues

1. **Nonexcluded Funds**

If interest is paid on a burial fund or space purchase agreement and the fund or agreement is not excluded at the time the interest is paid, the interest is treated under interest income rules. See S0830.500.
2. **Commingled Funds**

When excluded funds or spaces are commingled with nonexcluded funds or spaces, only the interest on the excluded portion is excluded. See M1130.410C.
3. **Irregular or Infrequent Exclusion**

Effective April 1, 1990, it is not necessary to apply the irregular or infrequent income exclusion to interest earned on excluded burial funds or burial space purchase agreements.

 - You must apply the irregular or infrequent exclusion to income other than that earned on excluded burial funds or burial space purchase agreements. See S0810.410.
 - You should apply the specific burial funds or burial space interest exclusion as discussed in this section.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M08	November 1995
Subchapter Subject	Page ending with	Page
M0830 UNEARNED INCOME	S0830.501	69

C. Procedure --
Development and
Documentation of
Interest Earned on
Burial Funds

1. Consider
Type of
Contract

If funds and space items are held together in the same purchase agreement or contract, first determine which portions are funds and which are space items. See M1130.420.
2. Entire Burial
Fund is
Excluded

Do not document interest if entire burial fund is excluded.

3. Only a Portion
of the Burial
Fund is
Excluded

a. Use the following procedure to determine countable interest to be counted:
- STEP

ACTION
- 1

Determine total interest paid on the commingled account following development guidelines in S0830.500.
- 2

Determine the ratio of the nonexcluded portion of the fund to the excluded portion by dividing the value of the nonexcluded portion of the fund by the total value of the fund. Carry the quotient to 3 decimal places.
- 3

Multiply the decimal obtained in step 2 representing the nonexcluded portion by the total amount of interest earned on the fund. The result is the amount of interest paid on the nonexcluded portion of the fund for the period in question.

NOTE: The same action (in step 2) may be used every month as long as there are no deposits to or withdrawals from the total fund.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with S0830.501	Page 70

- b. **EXAMPLE** - Computation When Only a Portion of the Burial Fund is Excluded.

Mr. Sam Rogers filed for Medicaid on January 8, 1990. His assets as of January 1, 1990 included the following:

- Savings account (\$1,000 resources) \$1,050
(\$50 interest income posted 1/1/90)
- Irrevocable burial contract \$1,200
- Nonhome real property \$ 500
- Checking account \$ 474
\$1,974

Mr. Rogers designated \$500 of his savings account for burial. His available burial fund exclusion is \$1,300. (\$2,500* - \$1,200 irrevocable burial contract.)

Computation of countable interest using steps above:

- \$500 = nonexcluded portion of funds
- Divided by \$1,000 (total resources in savings account for January)
- Percentage of nonexcluded funds = 50 percent
- Total interest paid = \$50
- Percentage of countable interest = 50 percent x \$50 = \$25 countable income for January.

4. Burial Fund Exclusion No Longer Applies

If you determine that application of the burial funds exclusion ceased during a past period, the interest paid on the burial funds in the months the burial funds are not excluded may result in countable income the month of receipt and countable resource following the month of receipt. Follow interest income development for each month that the burial funds exclusion does not apply.

D. Procedure -- Interest Earned On Burial Space Purchase Agreements

- a. **Consider Type of Contract** - See C.1. above.
- b. **Entire Burial Space Purchase Agreement is Excluded**
Do not document interest if entire burial fund is excluded.
- c. **Only a Portion of Burial Space Purchase Agreement is Excluded**
Follow the interest computation procedures explained in C.3. above when excluded and nonexcluded burial space items are held in the same purchase agreement or contract.

*Virginia Medicaid policy allows a \$3,500 maximum burial fund exclusion

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with M0830.500	Page 71

M0830.505 RENTAL INCOME

A. Policy

1. Definitions

- a. **Rent** is a payment which an individual receives for the use of real or personal property, such as land, housing or machinery.
- b. **Net rental income** is gross rent less the ordinary and necessary expenses paid in the same taxable year.
- c. **Ordinary and necessary expenses** are those necessary for the production or collection of rental income. In general, these expenses include:
 - interest on debts;
 - State and local taxes on real and personal property and on motor fuel;
 - general sales taxes; and
 - expenses of managing or maintaining property.
See A.10. below a for more specific list.

2. Depreciation Not Deductible

Depreciation or depletion of property is not a deductible expense.

3. When to Deduct Expenses

We deduct expenses when paid, not when incurred.

4. Earned or Unearned Income

Net rental income is unearned income unless it is earned income from self-employment (e.g., someone who is in the business of renting properties).

5. Rental Deposits

Rental deposits are not income to the landlord while subject to return to the tenant. Rental deposits used to pay rental expenses become income to the landlord at the point of use.

6. Rent/Expenses Prior to Eligibility

In determining net rental income, we do not consider rents received or expenses paid in months prior to Medicaid eligibility.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with M0830.505	Page 72

7. Multiple Family Residence

In multiple family residence:

- If the units in the building are of approximately **equal size**, we prorate allowable expenses based on the number of units designated for rent compared to the total number of units.
- If the units are **not** of approximately **equal size**, we prorate allowable expenses based on the number of rooms in the rental units compared to the total number of rooms in the building. (The rooms do not have to be occupied.)

NOTE: Any expenses strictly related to a particular rental unit are deducted in total from the rent for that unit. Such expenses are not prorated

8. Rooms in Single Residence

For rooms in a single residence:

- a. We prorate allowable expenses based on the **number of rooms** designated for rent compared to the number of rooms in the house.
- b. We do not count **bathrooms** as rooms in the house.
- c. We count **basements** and **attics** only if they have been converted to living spaces (e.g., recreation rooms).

NOTE: Any expenses strictly related to a particular rental room are deducted in total from the rent for that room. Such expenses are not prorated.

9. Land

We prorate expenses based on the percentage of total acres that is for rent.

10. Deductible Expenses

Example of deductible expenses:

- Interest and escrow portions of a mortgage payment (at the point the payment is made to the mortgageholder);
- real estate insurance;
- repairs (i.e., minor correction to an existing structure);
- property taxes;
- lawn care;
- snow removal; and
- advertising for tenants.

11. Nondeductible Expenses

Examples of nondeductible expenses:

- principle portion of a mortgage payment; and
- capital expenditures (i.e., an expense for an addition or increase in the value of property which is subject to depreciation for income tax purposes).

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with M0830.505	Page 73

B. Procedures

1. Evidence

- a. **Use documents** in the individual's possession (e.g., bills, receipts, etc.) to verify the gross rent and the dates received, and the expenses and the dates paid.

NOTE: The individual's most recent Federal tax return including Schedule E will be helpful in identifying past expenses and in estimating future rental income.

- b. **If no documents are available**, obtain a signed statement explaining why no documents are available and providing an allegation of the gross rent and expenses paid for the period involved. **Do not** contact the tenants to verify the allegation.
- c. If you are **uncertain** whether an expense is allowable (e.g., whether it is an incidental repair or a capital expenditure), contact the local Internal Revenue Service (IRS) or refer to IRS Publication 527. Document the file with the information obtained from IRS.

2. Computation

- a. **Determine** gross rent received and deductible expenses month-by-month.
- b. **Subtract** deductible expenses paid in a month from gross rent received in the same month.
- c. If deductible expenses exceed gross rent in a month, subtract the **excess expenses** from the next month's gross rent and continue doing this as necessary until the end of the tax year in which the expense is paid.
- d. If these are **still excess expenses** after applying b. above, subtract them from the gross rent received in the month prior to the month the expenses were paid and continue doing this as necessary to the beginning of the tax year involved.

NOTE: Do not carry excess expenses over to other tax years nor use them to offset other income.

3. Documenting Calculations

Document the proration of allowable expenses and the calculation of net rental income.

4. Joint Owners

Absent evidence to the contrary, apportion net rental income equally among owners. (A signed statement can be acceptable evidence if it reasonably explains why apportionment is not equal.)

If the gross rent is split between two joint owners before expenses are paid, deduct expenses paid by the Medicaid recipient from his/her portion of the gross rent.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with M0830.505	Page 74

5. Future Rental Income

- a. Use evidence from the retroactive period to estimate net rental income for the next 12 months; however, deduct only **predictable expenses**, (e.g., utilities, interest payments, taxes, etc.).
- b. If an **unpredictable expense** is reported at a later date (e.g., a repair), deduct it in the month paid. If the expense exceeds the rent for that month, recalculate the rest of the estimated period as necessary (see 2.b. above).

6. Interest

- a. Use the individual's **amortization schedule** to determine interest expense.
- b. If a **schedule is not available**, divide the yearly interest by twelve to determine monthly interest.

7. Refunds on Paid Expenses

If the Medicaid recipient receives a refund for an expense already paid (e.g., a property tax refund), recalculate his/her future net rental income for the remainder of the eligibility period.

C. Examples

1. Proration of Room Rental Expenses

Mr. Joshua Steele, a Medicaid recipient, rents out a room in his house to a cousin. The house has six rooms excluding the bathroom. Since Mr. Steele's expenses (interest on a mortgage, utilities, etc.) are for the whole house, only one-sixth of the expenses is deducted from the gross rent.

2. Rental Income Interrupted

Mrs. Anna Minnick, an Medicaid recipient, owns a multiple family residence and rents out half of it. In 9/89, her tenants leave and she receives no gross rent until 11/89 when new tenants move in. Mrs. Minnick continues to pay the mortgage and utilities on the residence during 9/89 and 10/89. The EW determines that Mrs. Minnick has excess expenses and no rental income for 9/89 and 10/89 because she received no gross rent for those months. The excess expenses are carried over into the calculation of net rental income for 11/89.

3. Gross Rent - Two Owners But Only One Owner Pays Expenses

Mrs. Kate Henning, an Medicaid recipient, owns her home jointly with her son, John. Mrs. Henning rents out a couple of rooms in her house for \$350/month and gives her son half of it (\$175/month). Mrs. Henning pays all the rental expenses herself. To calculate Mrs. Henning's net rental income, deduct the allowable expenses she pays (prorated, if necessary) from \$175 (her portion of the gross rent).

S0830.510 ROYALTIES

A. Policy

1. Definition

Royalties include compensation paid to the owner for the use of property, usually copyrighted material (e.g., books, music, or art) or natural resources (e.g., minerals, oil, gravel or timber). Royalty compensation may be expressed as a percentage of receipts from using the property or as an amount per unit produced.

To be considered royalties, payments for the use of natural resources also must be received:

- under a formal or informal agreement whereby the owner authorizes another individual to manage and extract a product (e.g., timber or oil), and
- in an amount that is dependent on the amount of the product actually extracted.

2. Sale of Natural Resources

An outright sale of natural resources by the owner of the land or by the owner of rights to use of the land constitutes the conversion of a resource. Proceeds from the conversion of a resource are not income.

3. Earned vs. Unearned Income

Royalties are unearned income unless they are:

- received as part of a trade or business (see S0820.200. for NESE), **or**
- received by and individual in connection with any publication of his/her work. Royalties earned by an individual in connection with any publication of his/her work are earned income (e.g., publication of a manuscript, magazine article, or artwork) (S0820.450).

4. Income or Windfall Profits Tax

Some documents concerning royalty payments will provide both a gross and a net payment amount. When the difference between the gross and the net figures is due to income taxes withheld or windfall profit tax deductions, we use the gross figure when determining income for Medicaid purposes.

5. Production or Severance Tax

When the difference between the gross and net figures represents a production or severance tax (e.g., most oil royalties will be reduced by this tax), we use the net figure when determining income for Medicaid purposes. The production or severance tax is a cost of producing the income and, therefore, is deducted from the gross income.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with S0830.515	Page 77

B. Procedure**1. Verification**

- a. Verify that payments received meet the definition of royalty (A.1. above) by examining the agreement between the parties involved. If the agreement is unclear, unavailable, or informal, contact the company or source of the payment.
- b. Verify the amounts of royalty payments by examining documents in the individual's possession. If documents are unclear or unavailable, contact the company or source of the royalty.
- c. If verification cannot be obtained by the above means, see S0830.005 A.5. - A.6. for additional verification procedures.

2. Documentation

Document the file by including copies of documents or indicating in the file information provided by the payment source concerning the nature, amount(s), month(s) of receipt, and, if appropriate, frequency of payments.

C. References

S0830.515 AWARDS**A. Policy****1. Definition**

An award is usually something received as the result of a decision by a court, board of arbitration, or the like.

2. Award As Income

An award is unearned income subject to the general rules pertaining to income and income exclusions.

B. Procedure**1. Verification**

Use documents in the individual's possession or contact with the court, board, source, etc; to verify:

- the amount of the award;
- the payment date; and
- if needed, the purpose(s) of the payment (e.g., part of the payment is reimbursement for medical expenses).

2. Apply Appropriate Rules

Determine the nature of the award and apply the appropriate rules pertaining to income and income exclusions.

C. References

Expenses of obtaining income, S0830.100

M0830.520 GIFTS

A. Policy

1. Definition

- A gift is something a person receives which is **not repayment** for goods or services the person provided and is **not** given because of a **legal obligation** on the givers' part.
- To be a gift, something must be given **irrevocably** (i.e., the donor relinquishes all control).
- **"Donations, and "contributions"** (including income from crowdsourcing or crowdfunding) may meet the definition of a gift.

NOTE: A gift received as the result of a death is a death benefit. See S0830.545.

2. Gift as Income

A gift is unearned income subject to the general rules pertaining to income and income exclusions.

3. *Gifts Used to Pay Tuition, Fees, or Other Necessary Educational Expenses*

Gifts (or a portion of a gift) used to pay for tuition, fees, or other necessary educational expenses at any educational institution, including vocational and technical education, are excluded from income.

B. Procedure

1. Apply Appropriate Rules

Determine the nature of the gift and apply the appropriate operating instructions pertaining to income and income exclusions (see C. below).

C. References

S0830.521 GIFTS OF DOMESTIC TRAVEL TICKETS

A. Definition

Domestic travel is travel in or between the 50 States, the District of Columbia, Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Northern Mariana Islands.

B. Policy

1. Gift of Ticket Not Converted To Cash

The value of a ticket for domestic travel received by an individual, or his her spouse, or parent whose income is subject to deeming is excluded from income if:

- the ticket is received as a gift (S0830.520); and
- the ticket is not converted to cash (e.g., cashed in, sold, etc.).

2. Gift of Ticket Converted to Cash

A ticket received as a gift is treated as unearned income in the month the ticket was converted to cash.

C. Procedure

1. Obtain a Statement

Obtain the individual's signed statement as to whether the ticket has been retained, used, or converted to cash. If the ticket has been converted to cash, specify in the statement the amount of cash received. In the absence of evidence to the contrary, accept the statement as fact.

2. Ticket Used or Still Retained

Exclude from income.

3. Ticket Converted to Cash

Treat as unearned income in the month the ticket was converted to cash.

D. Reference

Gifts, S0830.520
Treatment of domestic travel tickets for resource purposes, S1120.150

S0830.522 GIFT CARDS and GIFT CERTIFICATES

A. Definition

Absent evidence to the contrary, presume a gift card/certificate can be resold. For example, evidence to the contrary may include a legally enforceable prohibition on resale or transfer of the card imposed by the card issuer/merchant printed on the card.

B. Policy

Gift Cards/Gift Certificates as Income

The value of a gift card/gift certificate is income in the month it is received if the gift card/certificate:

- *Can be used to purchase food or shelter; **or***
- *Can be resold.*

The value of the gift card/certificate is subject to the general rules pertaining to income and income exclusions. See [S0810.410](#) for the infrequent or irregular income exclusion policy.

Any unspent balance remaining on a gift card/certificate is a resource beginning the month following the month the gift card/certificate was received. If personal property is obtained with the gift card/certificate, it must be evaluated under the resources policy

NOTE: *A gift card/certificate that is restricted on its use, **and** is legally prohibited from resale, must be evaluated (case by case) based on the restrictions and or prohibitions for determining as income.*

Gift Cards/Gift Certificates Not Income

The value of a gift card/gift certificate is not income in the month it is received if the gift card/certificate:

- *Cannot be used to purchase food or shelter; **and***
- *Cannot be resold.*

In addition, if the individual does not have the right, authority, or power to convert or sell the gift card/certificate for cash, and it cannot be used to purchase food or shelter, then the gift card/certificate would not meet the definition of a resource in M1110.100

The restriction on use of a gift card/certificate can be legal, (imposed by the card issuer), or practical, (the store where the card must be redeemed does not sell food or shelter items).

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date July 2002
Subchapter Subject M0830 UNEARNED INCOME	Page ending with S0830.525	Page 80

S0830.525 PRIZES

A. Policy

1. **Definition** **A prize** is generally something won in a contest, lottery or game of chance.

2. **Prize As Income** A prize is unearned income subject to the general rules pertaining to income and income exclusions.

NOTE: We do not subtract gambling losses from gambling winnings in determining an individual's countable income.

3. **Choice Between Cash and In-Kind Item** If an individual is offered a choice between an in-kind prize and cash, the cash offered is counted as unearned income. This is true even if the individual chooses the in-kind item and regardless of the value, if any, of the in-kind item.

B. Procedure

1. **Signed Statement** When an individual reports receipt of a prize, obtain the individual's signed statement of the following:
 - date the prize was received;
 - type or prize received;
 - individual's estimate of the value of the prize if not cash;
 - amount of income tax withheld, if any; and
 - source of the prize

2. **Tolerance for Valuing** Accept an individual's signed estimate of the value of the prize (or actual value if cash or cash offer) unless you have reason to doubt the estimate. If you doubt the estimate, determine the item's current market value with an independent source.

3. **Apply Appropriate Rules** Determine the nature of the prize and apply the appropriate operating instructions pertaining to income and income exclusions (see C. below).

C. References

- Cash income, S0810.020 A.2.a.
- Infrequent or irregular income exclusion, S0810.410
- \$20 general income exclusion, S0810.420

S0830.530 WORK RELATED UNEARNED INCOME

A. Policy Principle Unearned income is all income that is not earned income.

B. Related Policies

- 1. Earned Income** For policies on earned income, see S0820.000.
- 2. Title II Wage Exclusions** For title II wage exclusions as they related to the Medicaid program, see S0815.600.
- 3. Sick Pay** For treatment of sick pay, see S0830.543 and S0820.005.

C. Operating Policy The following work related payments are unearned income:

Money paid to a resident of a public institution when no employer/employee relationship exists.

Tips under \$20 per month.

Jury fees (i.e., fees paid for services, not expense money; see S0830.100 if expense money is provided).

Cash allowances for food, clothing and shelter provided to members of the Uniformed Services and their families, all types of special and incentive pay. (See S0830.540 for a description of and instructions on all aspects of compensation in the form of unearned income in the Uniformed Services.)

D. Development and Documentation

- 1. Individual Has Evidence** Verify the amounts of work-related payments, if possible, using papers in the individual's possession, and document the file with photocopies or document contact certifying the contents.
- 2. Individual Does Not have Evidence**

If the individual cannot provide the required evidence:

Verify jury fees by contacting the court clerk or jury commissioner.
Document the file.

Verify other work-related payments by contacting the source of payment.
Document the file.

M0830.535 WORKFORCE INNOVATION AND OPPORTUNITY ACT (FORMERLY WORKFORCE INVESTMENT ACT)

A. Introduction

The purpose of the *Workforce Innovation and Opportunity Act (WIOA)*, formerly the *Workforce Investments Act – WIA*) is to prepare individuals for entry into the labor force. *WIOA* funding is much like a block grant and programs will vary among areas within the State. *WIOA* payments may be called "needs-based" for *WIOA* purposes but are not "income based on need" or "assistance based on need" for Medicaid purposes. *WIOA* payments may be in cash or in kind, and participants in *WIOA* may receive supportive services in cash or in kind. Usually, adult participants receive **only** supportive services.

B. Policy

WIOA payments are **subject to the general rules** pertaining the income and income exclusions.

C. Procedure

1. Allegations

Accept an individual's allegation of participation in *WIOA* and receipt of supportive services unless there is reason to question the information.

2. Assumption

- **Assume** that supportive services such as child care, transportation, medical care, meals and other reasonable expenses, provided in cash or in kind, are **social services** and **not income**.
- Disregard the supportive services without further development or documentation.

NOTE: However, items such as salaries, stipends, incentive payments, etc., must be evaluated under the general rules of unearned and earned income. Any payments made directly to vendors by *WIOA* are not income.

M0830.540 UNIFORMED SERVICES -- PAY AND ALLOWANCES

A. Introduction

Compensation to most members of the Uniformed Services takes the form of b earned and unearned income, and often of both cash and in-kind income.

All branches of the Uniformed Services adhere to a single pay system, but that system is complex and varies significantly from branch to branch. Proper and efficient handling of cases require an understanding of:

- how the pay system works;
- what the key terms mean; and
- how Medicaid policies and procedures apply to different forms of compensation.

B. Definitions

1. Uniformed Services

The Uniformed Services are defined by law and include the:

- Army;
- Navy;
- Air Force;
- Marine Corps;
- Coast Guard;
- Reserve and National Guard components of the above;
- Public Health Service commissioned officer corps; and
- National Oceanic and Atmospheric Administration commissioned officer corps.

2. Entitlements

Entitlements are pay, allowances, and other **cash** benefits due a service member. Entitlements can include basic pay, special and incentive pay, allowances, advance pay, and reimbursements for certain work-related expenses.

3. Basic Pay

Basic (or base) pay is the service member's wage. It is based solely on the member's pay grade and length of service.

Basic pay is subject to FICA taxes as well as income tax.

4. Allowances

Allowances are **cash** benefits that compensate the service member, at least in part, for the expenses of housing, food, clothing, and special situations during periods of active duty service. Allowances are not paid for weekend drills of Reserve and National Guard components.

Allowances are not subject to FICA tax and usually are not subject to income taxes.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with M0830.540	Page 84

Often, for accounting purposes, a service branch changes a subcategory of allowance retroactively (e.g., from one type of subsistence allowance to another). The change is explained on the pay slip by showing, as an **entitlement**, the full amount due for the earlier month under the correct subcategory (e.g., leave rations). The full amount previously paid as the entitlement for the earlier month under the incorrect subcategory is shown as a **deduction** (e.g., separate rations). The amounts may be identical or different. (See D.7. for the policy governing these retroactive adjustments.)

5. Subsistence

Subsistence means food and is also referred to as rations. Service members usually receive either free rations from a service facility or an allowance for rations. (The value of free rations does not appear on pay records.)

Officers receive a subsistence allowance at a fixed monthly rate.

Enlisted persons receive an allowance based on a daily rate, so the monthly amount payable depends on the number of days in the month. The daily rate can vary depending on the availability of government dining facilities at the assigned location.

6. Quarters

Quarters are a service member's housing. Quarters sometimes are provided, free of charge or on a rental basis, by the service installation. (The value of free quarters does not appear on pay records.) Rent may be paid by payroll deduction.

Whether or not free housing is provided, the service member usually receives an allowance for quarters. The amount of this allowance can vary depending on factors such as:

- rank;
- whether the service member has a dependent (the number of dependents is irrelevant);
- whether the member lives in government housing and whether that housing is deemed substandard; and
- the location of the base.

In some cases, the service branch may pay a full quarters allowance to a service member living in free on-base housing, but then deduct the **allowance** (rather than rent) in the same month. This transaction is merely for accounting purposes and results in a zero payment transaction. What is actually received is rent-free shelter. See D.4. below for the policy governing quarters allowances paid and deducted in the same pay period.)

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with M0830.540	Page 85

7. Clothing Issuances and Allowances

Clothing issuances consist of uniforms, boots, and other clothing items service members need when they enter on active duty. Whatever is received in cash is countable income. If uniform, insignia, boots, are provided, it is in-kind and not counted.

Clothing allowances are payments provided for the purchase and care of uniforms and, in some cases, civilian clothes.

a. Officers

Officers receive an allowance for uniforms and insignia after being commissioned and may receive periodic allowances thereafter.

b. Enlisted Persons

Enlisted persons receive in kind the uniforms, boots, and other clothing they need when they enter active duty. (The value of such clothing issued in kind does not appear on pay records.)

Generally, every 12 months thereafter, they receive an allowance for the care and replacement of those uniforms. The rates vary by branch of service, length of service, and sex, and they usually increase each year.

c. Special Clothing Allowances

Special clothing allowances are also paid when assignments require members to wear civilian clothes.

8. Special and Incentive Pay

Special and incentive pay is compensation to specific groups of uniformed people for inconveniences or hazards, or provides incentives for those with skills in high demand to joining or remain in the service. Special pay includes;

- enlistment and reenlistment bonuses;
- combat pay;
- flight pay;
- sea pay; and
- more than 30 additional types of pay.

Special and incentive pay is usually subject to income taxes but is not subject to FICA tax.

9. Hostile Fire Pay

Hostile fire pay is a type of special pay to a service member who is:

- subject to hostile fire or explosion of hostile mines; or
- on duty in an area in which he/she is in imminent danger of being exposed to hostile fire or explosion of hostile mines, **and** while on duty in that area, other service members in the same area are subject to hostile fire or explosion of hostile mines; or
- killed, injured, or wounded by hostile fire, explosion of a hostile mine, or any other hostile action.

10. Advance Pay

In the Uniformed Services, advance pay is a **cash loan** to be repaid in cash installments, usually by payroll deductions, rather than by future work. Advance pay is not taxed. (See S0815.350 for the treatment of loans in the Medicaid program.)

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with M0830.540	Page 86

11. Allotments

Allotments are deductions, usually voluntary, from a service member's paycheck for special purposes. Allotments are often requested for purposes such as:

- payments to dependents;
- deposits to a savings account;
- charitable contributions; and
- purchasing savings bonds.

12. Pay Grade

The pay grade is an alphanumeric code designating the rank of a service member. It also indicates whether that service member is:

- an enlisted member (pay grades E-1 through E-9);
- a warrant officer (W-1 through W-4); or
- a commissioned officer (O-1 through O-10).

Within a pay grade, pay levels vary according to the number of years of service.

13. Leave and Earnings Statement (LES)

The LES is the monthly pay slip issued to service members. Each service branch has its own version. G. below lists common abbreviations used on LES's.

C. Process--How the Pay System Works**1. Forms of Compensation**

Compensation to members of the Uniformed Services take several forms, chiefly:

- basic (or base) pay;
- special and incentive pay; and
- cash allowances for, and in-kind provision of, subsistence (rations), clothing, and quarters.

2. Amount of Compensation

The amount of compensation, depending on the form it takes, can vary with rank, length of service, location of duty station, family size, and other factors.

3. Paydays**a. First-of-Month Payday**

All branches of the Uniformed Services pay full-time service members on the first day of the month for work performed in the previous calendar month.

b. Mid-Month Payday

All service branches (other than the Public Health Service) offer full-time members a mid-month payment as partial payment of the net amount due for the full calendar month. The mid-month payment is optional or standard, depending on the service branch:

- Army and Air Force -- Optional
Navy, Marine Corps, Coast Guard, and National Oceanic and Atmospheric Administration (NOAA) – Standard

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with M0830.540	Page 87

c. **Casual Pay**

While away from base, a service member can receive payment of pay and allowances due for the current month. This casual pay is issued at odd times of the month. Casual pay is not an entitlement. It is a manner of paying compensation that is already due.

d. **Reserve and National Guard Paydays**

Part-time service members are paid at different times depending on their periods of service.

**4. Apportionment
Between
Paydays**

a. **First-of-Month Payday**

...The first-of-month payment represents all net compensation due for the work month less the amount paid earlier in the pay period.

b. **Mid-Month Payday**

.. The amount paid mid-month (if any) varies according to the rules of the service branch and rank of the service member, as illustrated in the following chart:

SERVICE BRANCH	AMOUNT PAID MID-MONTH	
	BASIC PAY, SPECIAL PAY AND ALLOWANCES (EXCEPT SUBSISTENCE)	SUBSISTENCE ALLOWANCE
Air Force Navy Marine Corps Coast Guard NOAA	One-half of net amount due for work month.	Enlisted Persons: Total of daily rates for 1st through 15th days of work month. Officers: One-half of amount due for work month.
Army	Optional percentage (up to 50%) of net amount paid for the month before the work month	

5. Pay Slips

The service branches issue a **single** pay slip each month on or after the first-of-month payday. That pay slip shows the gross amount due for the full calendar month and the net amount issued on each payday of the month.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with M0830.540	Page 88

D. Policy

1. **Basic Pay** **Only basic pay constitutes wages.**

2. **Special Pay and Allowances** **All special pay and allowances, except hostile fire pay, are countable unearned income to the service member.**

3. **Hostile Fire Pay** Hostile fire pay is excluded from income. Any unspent hostile fire pay becomes a resource if retained into the following month and not otherwise excluded. See B.9. above for the definition of hostile fire pay.

4. **Quarters Allowances** A quarters allowance is not income if:
 - the service member lives in free on-base housing, **and**
 - the allowance is paid and deducted in the same pay period. (See B.6. above and D.5. below.)

5. **Overpayments** **a. Basic Pay**
 An overpayment of basic pay (wages) is income when received. Any amount deducted to recover a wage overpayment is not wages, regardless of when the overpayment occurred.

 See B.10. for a discussion of advance pay.

b. Allowances and Special Pay
 An overpayment of an allowance or special pay, other than hostile fire pay, is countable income when received. Any amount deducted to recover an overpayment of an allowance or special pay is also income, unless double counting would result (the allowance or special pay has been previously counted AND Medicaid eligibility established). Apply the policy in S0830.110 (regarding overpayments from other benefit programs) to amounts deducted to recover overpayments of allowances and special pay.

 See 6. below for the policy on retroactive adjustments of allowances and special pay, which are not considered overpayments.

 See B.10. for a discussion of advance pay.

6. **Retroactive Adjustments** A retroactive adjustment in the **type** of pay or allowance, even if the change affects the amount due, is not an overpayment. Such retroactive adjustments are usually made in full in a single month. (B.4. above describes how these adjustments appear on the pay slips.) Only the **net** amount paid for a month in a category of allowance or special pay (e.g., all subsistence **entitlements** less all subsistence **deductions**) is income for the month.

 See 5. above for the policy on overpayments.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with M0830.540	Page 89

E. Procedure

1. General

- a. Request LES's from the applicant or service member. If LES's are unavailable, make oral or written contact with the employer, per 5. and 6. below. If all else fails, take the service member's signed allegation, and proceed as explained in 7. below.

Except as provided in 7. below, you need not document the reason for using one verification method rather than another.

- b. Ask the service member to estimate the amount and expected payment date of future clothing allowances.

NOTE: Clothing allowances usually are paid annually.

- c. Keep in mind the need to consider retroactive adjustments of pay and allowances per D.6. above when determining countable income.

2. Pay Slips— General

Whenever possible, use the individual's copy of an LES to verify the gross pay for a work month, including both earned and unearned income.

NOTE: In most cases, two checks are issued to pay the amounts due for the month, and these checks are issued in different months, as explained in C.3. above.

Determine how much earned and unearned income is countable for each payday. Use the charts in 3. and 4. below unless evidence indicates another method would be more appropriate. If you use another method, document the reason in file. Carry all calculations three digits to the right of the decimal point.

See 4. below for an example of the use of an LES in dividing gross pay between paydays. See 0830.541D. for an example of the use of a worksheet to perform these calculations.

Manual Title	Chapter	Page Revision Date
Virginia Medical Assistance Eligibility	M08	November 1995
Subchapter Subject	Page ending with	Page
M0830 UNEARNED INCOME	M0830.540	90

3. Pay Slips—
Army and
Officers

Use this chart to determine how much earned and unearned income from Army or officer pay is countable for each payday.

STEP	ACTION
1	Divide the mid-month payment by the total net pay for the work month to calculate the fraction of pay and allowances paid mid-month.
2	Multiply the result of step 1 by the basic pay for the work month to calculate wages paid mid-month.
3	Subtract the result of step 2 from the basic pay for the work month to calculate wages paid the first of the next month.
4	Add up all other pay and allowances for the work month.
5	Multiply the result of step 1 by the result of step 4 to calculate the amount of unearned income paid mid-month.
6	Subtract the result of step 5 from the result of step 4 to calculate the amount of unearned income paid the first of the next month.

4. Pay Slips--Non-
Army, Non
-Officer—
Example

Use this chart to determine how much earned and unearned income from non-Army and non-officer is countable for each payday.

To see the procedure illustrated, refer to the example in the right column of the chart below (and in the completed worksheet in S0830.541D.), which is based on the following case facts:

- Karen Dean is an Medicaid recipient married to Ken Dean, an enlisted person in the Air Force.
- The couple lives in off-base housing.
- Mr. Dean is paid twice a month. Mr. Dean's LES for October 1992 shows the following (gross) entitlements:

base pay -- \$808.80

quarters -- \$253.20

rations -- \$166.47

variable housing allowance (VHA) --\$34.14
- The LES shows a mid-month (October 15) net payment of \$564.02 and a first-of-month (November 1) net payment of \$569.39.

NOTE: In the example, the results of steps 8 and 13 below provide the gross wages and unearned income paid October 15. The results of steps 9 and 14 provide the gross wages and unearned income paid November 1.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with M0830.540	Page 91

E. Procedure—

**4. Pay Slips--
Non-Army,
Non-Officer --
Example (cont.)**

STEP	ACTION	EXAMPLE
1	Divide the total subsistence (i.e., rations) allowance for the work month by the number of days in the calendar month of work to calculate the daily subsistence rate.	$\begin{array}{r} \$ 166.470 \\ \div \quad 31 \\ \$ 5.370 \end{array}$
2	Multiply the result of step 1 by 15 days (regardless of the number of days in the work month) to calculate the subsistence allowance paid mid-month.	$\begin{array}{r} \$ 5.370 \\ \times \quad 15 \\ \$ 80.550 \end{array}$
3	Subtract the result of step 2 from the total subsistence allowance for the work month to calculate the subsistence allowance paid the first of the next month.	$\begin{array}{r} \$ 166.470 \\ - \quad 80.550 \\ \$ 85.920 \end{array}$
4	Subtract the result of step 2 from the net amount paid mid-month to calculate the total nonsubsistence pay (i.e., special pay and allowances for quarters and clothing) issued mid-month.	$\begin{array}{r} \$ 564.020 \\ - \quad 80.550 \\ \$ 483.470 \end{array}$
5	Subtract the result of step 3 from the net amount paid first-of-month to calculate the total nonsubsistence pay for the work month.	$\begin{array}{r} \$ 569.390 \\ - \quad 85.920 \\ \$ 483.470 \end{array}$
6	Add the result of steps 4 and 5 to calculate the total net nonsubsistence pay for the work month.	$\begin{array}{r} \$ 483.470 \\ + \quad 483.470 \\ \$ 966.940 \end{array}$
7	Divide the result of step 4 by the result of step 6. The result is the fraction of basic pay, special pay, and nonsubsistence allowances paid mid-month.	$\begin{array}{r} \$ 483.470 \\ \div \quad 966.940 \\ \$.500 \end{array}$
8	Multiply the result of step 7 by the basic pay for the work month to calculate wages paid mid-month.	$\begin{array}{r} \$ 808.800 \\ \times \quad .500 \\ \$ 404.400 \end{array}$
9	Subtract the result of step 8 from the basic pay for the work month to calculate wages paid the first of the next month.	$\begin{array}{r} \$ 808.800 \\ - \quad 404.400 \\ \$ 404.400 \end{array}$
10	Add up all Quarters Allowance: other pay and VHA: allowances for work month, except for subsistence.	$\begin{array}{r} \$ 253.200 \\ + \quad 34.140 \\ \$ 287.340 \end{array}$
11	Multiply the result of step 7 by the result of step 10 to calculate the nonsubsistence unearned income paid mid-month.	$\begin{array}{r} \$ 287.340 \\ \div \quad .500 \\ \$ 143.670 \end{array}$

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with M0830.540	Page 92

**E. Procedure Pay Slips—
Non-Army,
Non-Officer --
Example (cont.)**

12	Subtract the result of step 11 from the result of step 10 to calculate the nonsubsistence unearned income paid the first of the next month.	\$ 287.340 - <u>143.670</u> \$ 143.670
13	Add the results of steps 2 and 11 to calculate the total unearned income paid mid-month.	\$ 80.550 + <u>143.670</u> \$ 224.220
14	Add the result of steps 3 and 12 to calculate the total unearned income paid the first of the next month.	\$ 85.920 + <u>143.670</u> \$ 229.590

**5. Oral Statement
of Employer**

If LES's are not available, verify, if possible, the amounts of pay and allowances by telephone contact with the service member's Pay and Finance Office. Document the information.

**6. Written
Information
from Employer**

If LES's are not available and telephone contact with the employer is not productive, request pay information in writing as follows:

- a. Request Information From Military Installation
 - Request information from the Pay and Finance Office of the service installation to which the service member is attached.
 - Ask the installation for copies of LES's for needed months in the period under review.
 - Provide the installation with the beginning and ending dates of service if the member is no longer on active duty.
 - Determine monthly income per 2.-4. above.
- b. Member's Installation Will Not Provide Information
 - Request the information from the national Pay and Finance Center for the member's branch of service.(Reserve components, other than the National Guard, are part of their service branches.)

NOTE: Since responses from the national centers often take 30-45 days, make requests to them only when the service member's base will not cooperate.

**7. Signed
Allegation**

If other methods (2., 5., and 6. above) of verifying basic pay, special pay, and allowances are unproductive, document the file accordingly. Take the service member's signed allegation of the amounts along with any available supporting evidence.

S0830.541 UNIFORMED SERVICES -- WORKSHEETS

A. Introduction

Form SSA-3991 and form SSA-3992 guide the user through the calculation of monthly earned and unearned income using a leave and earnings statement (LES), as explained in S0830.540E. Use of these worksheets is optional.

B. Procedure

1. Heading

Enter the names, Social Security number, and page number at the top of the form.

Then **enter the consecutive LES work months** (i.e., the calendar months and years of work).

2. Section I

Enter the verified amounts of pay from the LES for each work month requested. If using the SSA-3992, also enter the number of days in each calendar month of work.

NOTE: The "Net Pay First-of-Month" entry refers to the **second** regular payment for the work month, usually issued on the first day of the following month.

3. Section II

Perform the calculations (described in the first column) within each of the columns headed by a work month. Carry each result to 3 decimal places, dropping the fourth digit, if any.

4. Section III

a. **Enter the same months** at the top of the "Received in" columns as were entered in the "LES Work Month" columns.

b. **Enter the amounts from the requested cells in Section II (and from the previous worksheet used, if any).**

NOTE: In Section III, all cell names in column 1 that begin with "4" are carry-over amounts from the last column of a previous worksheet.

c. **Total the entries** to obtain countable earned and unearned income for each month.

C. Exhibits

If you choose to use either the SSA-3991 or the SSA-3992, you must reproduce the appropriate exhibit below; the forms will not be available by order.

The completed example below illustrates use of the SSA-3992 in the situation described in S0830.540. E.4.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with M0830.545	Page 100

S0830.543 SICK PAY AS UNEARNED INCOME

A. Policy Any payments on account of sickness and accident disability paid more than 6 months after work stopped because of that sickness or disability are unearned income.

B. References

- 1. Earned or Unearned?** For detailed guidelines for determining whether sick pay is earned or unearned income, see S0820.005.
- 2. Amount of Income** For instructions on the amount of unearned income sick pay that is countable to the individual, see S0830.100.

M0830.545 DEATH BENEFITS

A. Definitions A death benefit is something received as the result of another's death. Examples of death benefits include:

- proceeds of life insurance policies received due to the death of the .. insured;
- lump sum death benefits from SSA;
- RR burial benefits;
- VA burial benefits;
- inheritances in cash or non cash;
- cash given by relatives, friends, or a community group to "help out" with expenses related to the death.

NOTE: Recurring survivor benefits such as those under title II, private pension programs, etc. are not death benefits.

B. Policy Principle-- Death benefits provided to an individual are income to such individual to the extent that the total amount exceeds the expenses of the deceased person's last illness and burial paid by the individual.

Last illness and burial expenses include: related hospital and medical expenses; funeral, burial plot, and interment expenses; and other related expenses.

**C. Operating Policy—
Life Insurance
Proceeds** A life insurance policy may have been a resource in the past (i.e., the cash surrender value was a resource), at the time of the insured's death that particular resource ceases to exist. The insurance proceeds received as a result of the death are not a converted resource (i.e., the proceeds represent the death benefit payable not a return of the cash surrender value).

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with M0830.550	Page 101

D. Operating Procedure

1. **Identifying Death Benefits**
The Medicaid application and redetermination forms do not ask specifically about death benefits. Be alert for situations where further questioning about death benefits is advisable.
2. **Verifying Expenses**
Verify all last illness and burial expenses. If verification (e.g., bills, receipts, contact with provider, etc.) cannot be obtained, accept the individual's signed allegation. If an expense has been incurred but not paid, assume the individual will pay the expense unless you have reason to question the situation. No follow-up is required if the assumption is applied.

Use your judgement to determine whether an expense is reasonably related to the last illness and burial. It is expected that related expenses may include such items as: new clothing to wear to the funeral; food for visiting relatives; taxi fare to and from the hospital and funeral home; etc.
3. **Amount of Death Benefits**
Accept the individual's signed allegation of the amount of death benefits and when received unless you have reason to doubt the allegation.
4. **Income From Death Benefits**
To determine the income derived from death benefits, subtract the total expenses from the total death benefits. Count the income in the month the death benefit(s) is received. If death benefits are received in more than one month, assume that the funds first received are the first spent. For example, if the death benefits are \$1,000 received in January and \$1,000 in February and the allowable expenses are \$1,500, count the remaining \$500 as income in February.

M0830.550 INHERITANCES

A. Policy

1. **Definitions**
An **inheritance** is cash, a right, or a noncash item(s) received as the result of someone's death.
2. **Inheritance as Income**
An inheritance is a **death benefit**. See S0830.545.

NOTE: Until an item or right has a value (i.e., can be used to meet the heir's need for food, clothing, or shelter), it is neither income nor a resource. The inheritance is income in the first month it has a value and can be used, if it meets the definition of income. (See S0810.005 A.)
3. **Inheritance Already a Resource**
An inheritance is not income to an individual if the inheritance is something which was considered that individual's resource (either as a member of an eligible couple or through deeming of resources) immediately before the death.

NOTE: The proceeds of a life insurance policy were **not** a resource before the death. (See S0830.545 D.)

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with M0830.550	Page 102

B. Procedure

1. General

Follow the instructions at S0830.545 pertaining to death benefits.

2. Establishing Date of Receipt

Individual State laws establish when an inheritance is received.

If it is not specified in state law when an inheritance is "received", assume the individual derives no income until the earliest of:

- the date the individual alleges receiving the inheritances (using a signed statement from the individual or documents in the individual's possession); or
- the date the estate is closed (which may be determined by contacting the court or an attorney involved in the closing of the estate).

3. Amount Received

a. Verify the amount or value of the inheritance using:

- **documents** in the individual's possession;
- a **court order** closing the estate;
- a copy of the **will**; or
- an **estimate** from a knowledgeable source, if real property involved.

b. Based on what the inheritance is, apply the appropriate instructions for valuing what was received. Depending upon what has been received, some instructions will be found in S0800.001. (Income) and some in S1120.001. (Resources). See C. below.

EXCLUSIONS INVOLVING ASSISTANCE PROGRAMS

S0830.600 LOW INCOME ENERGY ASSISTANCE

- A. Introduction** Through a block grant, the Federal Government provides funds to States for energy assistance (including weatherization) to low income households. This assistance may be provided by a variety of agencies (e.g., state or local welfare offices, community action agencies, special energy agencies, etc.) and known by a variety of names (e.g., HEAP, Project Safe, etc.) It is most often provided in a medium other than cash (e.g., voucher, two-party check, direct payment to vendor, etc.) but may be in cash.
- B. Policy** Home energy assistance payments or allowances provided under subchapter II of chapter 94, title 42 of the U.S. Code (Low-Income Energy Assistance) are excluded from income and resources.
- C. Procedure** Use documents in the individual's possession, contact with the provider or agency involved, or a precedent to verify that assistance from a particular program is provided under the Federal Low-Income Home Energy Assistance Program or "LIHEAP". Once this is verified, no further development or documentation is necessary.
- D. References** Home energy assistance and support and maintenance assistance, S0830.605.

S0830.605 HOME ENERGY ASSISTANCE AND SUPPORT AND MAINTENANCE ASSISTANCE (HEA/SMA)

- A. Background** The legislative intent of this exclusion was to address charitable efforts by the community to help Medicaid recipients.
- NOTE:** See S0830.600 for instructions pertaining to energy assistance provided under Federal programs.
- B. Policy — Definitions**
- 1. Appropriate State Agency** The **appropriate State agency** is the agency designated by the chief executive officer of the State to handle the State responsibilities with regard to the home energy assistance and support and maintenance (HEA/SMA) exclusion. In Virginia it is the Department of Social Services.
- 2. Based on Need** For purposes of this exclusion, **based on need** means that the provider of the assistance:
- does not have an express obligation to provide the assistance ;
 - states the aid is given for the purpose of support and maintenance assistance or for home energy assistance (e.g., vouchers for heating/cooling bills, storm door); and
 - provides the aid for an Medicaid applicant/recipient, a member of the household in which a Medicaid applicant/recipient lives, or a Medicaid applicant/recipient ineligible spouse, or parent.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with S0830.605	Page 104

3. Private Nonprofit

A **private nonprofit agency** is a religious, charitable, educational, or other organization **such as** described in section 501(c) of the Internal Revenue Code of 1954. (Actual tax exempt certification by IRS is not necessary.)

4. Rate-of-Return Entity

A **rate-of-return entity** is an entity (generally a utility company) whose revenues are primarily received from the entity's charges to the public for goods or services and such charges are based on rates regulated by a State or Federal governmental body.

5. Support and Maintenance Assistance (SMA)

Support and maintenance assistance (SMA) is in-kind support and maintenance, or cash provided for the purpose of meeting food, clothing, or shelter needs. It includes home energy assistance.

NOTE: Remuneration for work is not assistance.

6. Home Energy Assistance (HEA)

Home energy assistance is any assistance related to meeting the costs of heating or cooling a home. It includes such items as payments for utility service or bulk fuels, assistance in kind such as portable heaters, fans, blankets, storm doors, or other items which help reduce the costs of heating and cooling such as conservation or weatherization materials and services.

C. Policy Exclusion

1. Certification

a. General

Home energy or support and maintenance assistance is excluded from income if it is certified in writing by the appropriate State agency to be both based on need and:

- provided **in kind** by a private nonprofit agency; or
- provided **in cash or in kind** by a supplier of home heating oil or gas, a rate-of-return entity providing home energy, or a municipal utility providing home energy.

b. State Certification: Individual or Blanket

State certification may be in the form of an individual certification of a particular case, or a "**blanket**" certification of a program or organization. A blanket certification serves as a precedent for assistance from the certified agency or program.

2. Recipient of Assistance

The exclusion applies to such assistance provided for:

- Medicaid applicant/recipient;
- a member of the household in which Medicaid applicant/recipient lives; or
- Medicaid applicant's/recipient's spouse, or parent(s).

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with S0830.605	Page 105

D. Procedure

1. General

At times, the interaction of the private and public sectors and various funding sources may make it difficult to determine whether income received may be excluded under these instructions. Exclude assistance on the basis of the individual's allegation and a State certification precedent without further development unless you have reason to question the situation.

2. Statement Required-Income

Obtain a signed statement which identifies:

- the HEA or SMA received;
- when the HEA or SMA was received;
- who received the HEA or SMA; and
- the source of the HEA or SMA.

3. Certification Before Assistance

- Certification may be made before any assistance is actually provided.
- Exclude assistance which might meet the requirements for State certification pending certification.
-

4. Certification Precedent Established

If a precedent has been established, document the file to state that a precedent exists unless the certification is listed in regional instructions. Exclude the income on the basis of the claimant's/recipient's allegation. (See D.2. above for documentation of the allegation.)

5. Certification Precedent not Established

- a. **Exclude** any HEA/SMA assistance which might meet the requirements for State certification.
- b. **Contact** the RO unless instructed to do otherwise by regional instructions.
- c. **Provide** the name of the individual who allegedly received the assistance, and the alleged amount and/or form, date and/or frequency and source of the assistance.
- d. **Do not** contact the State agency directly unless you have been instructed to do so by the RO

S0830.610 ACTION PROGRAMS/DOMESTIC VOLUNTEER SERVICES

A. Introduction

The Federal government through the ACTION, the Federal domestic volunteer agency, is involved in a number of volunteer service programs including:

- Volunteers in Service to America (VISTA);
- University Year for ACTION (UYA);
- Special and Demonstration Volunteer Programs;
- Retired Senior Volunteer Program (RSVP);
- Foster Grandparent Program;
- Senior Companion Program.

B. Policy

1. General Exclusion

Payments to volunteers under chapter 66 of title 42 of the U.S. Code Domestic Volunteer Services (ACTION programs) are excluded from income and resources.

2. Exception

Payments are not excluded if the Director of the ACTION agency determines that their value, adjusted to reflect the hours served, is equivalent to or greater than the minimum wage in effect under the Fair Labor Standards Act of 1938 or the minimum wage under the applicable State law, whichever is greater.

NOTE: See assumption in C.3. below. To date, the Director of Action has not made the above determination and the ACTION agency does not foresee that such a determination will ever be made.

C. Procedure

1. Assume Excluded

Assume that all payments made by ACTION programs are excludable.

2. Verify Program

Use documents in the individual's possession, contact with the program or agency involved or a precedent to verify that a program is one of those listed in A. above or is otherwise funded by or according to agreement with the Federal government under an ACTION program.

3. Accept Allegation

Accept an individual's allegation of participation in an ACTION program and exclude any payments from income and resources without further development or documentation.

S0830.615 COMMUNITY SERVICE BLOCK GRANTS

- A. Background** The Department of Health and Human Services makes community service block grants to States to provide a broad range of services and activities to assist low-income individuals and alleviate the causes of poverty in a community. States may subsequently make grants or enter into contracts with private nonprofit organizations or political subdivisions.
- B. Policy--Principle** Assistance involving community service block grants is subject to the general rules pertaining to income. It is neither IBON (S0830.170) nor ABON (S0830.175).
- C. Operating Procedures** Determine the nature of the assistance and apply the appropriate operating instructions pertaining to income and income exclusions. Related sections include:
- S0815.050, Medical and Social Services
 - S0830.605, Home energy Assistance and Support and Maintenance Assistance
 - S0810.420, \$20 General Income Exclusion

M0830.620 DISASTER ASSISTANCE--PRESIDENTIALLY-DECLARED DISASTER

- A. Background**
- 1. General** This section addresses presidentially-declared disasters. There are no specific instructions or exclusions addressing other disasters.
 - 2. Declaration** At the request of a State governor, the President may declare a major disaster when the disaster is of such severity and magnitude that effective response is beyond the capabilities of the State and local governments, and Federal assistance is needed. Disasters include such things as hurricanes, tornadoes, floods, earthquakes, volcano eruptions, landslides, snowstorms, drought, etc.
 - 3. Source** Assistance provided to victims of a presidentially-declared disaster includes assistance from:
 - Federal programs and agencies;
 - joint Federal and State programs;
 - State or local government programs;
 - private organizations (e.g., the Red Cross).

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with M0830.620	Page 108

B. Policy

1. Support and Maintenance Other Than Repair or Replacement of Property

The value of support and maintenance in cash or in kind is excluded from countable income if:

- a. the individual lived in a household which he or she (or he/she and another person) maintained as his/her or their home at the time a catastrophe occurred in the area; and
- b. the President declared the catastrophe a major disaster for purposes of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (formerly the Disaster Relief Act of 1974); and
- c. the individual stopped living in his/her home because of the catastrophe and began to receive support and maintenance within 30 days after the catastrophe; and
- d. the individual receives support and maintenance while living in a residential facility maintained by another person. A residential facility is to be interpreted broadly, including a private household, a shelter, or any other temporary housing arrangement resorted to because of the disaster.

2. Other Disaster Assistance

Assistance (other than support and maintenance described in B.1. above) received under the Robert T. Stafford Disaster Relief and Emergency Assistance Act or any other Federal statute because of a catastrophe which the President declares to be a major disaster, is excluded from countable income. This includes assistance to repair or replace the individual's own home or other property, and disaster unemployment assistance.

3. Interest Earned

Any interest earned on assistance described in B.2. above is excluded from countable income.

C. Process-- Verification of Presidential Declaration

A declaration by the President of a major disaster will be public information, i.e., newspaper, television, radio, and printing in the Federal Register. The Office of the ARC, Programs for the area is responsible for confirming a presidential declaration of a major disaster and the geographic area involved and communicating this information.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with M0830.620	Page 109

D. Procedure

1. Presidential Declaration - Documentation

When a residentially-declared disaster has been verified, document the following:

- a. that it is declared to be a major disaster by the President in accordance with the Robert T. Stafford Disaster Relief and Emergency Assistance Act;
- b. the geographic areas included in the declared disaster area;
- c. the fact that the Medicaid applicant/recipient lived in the declared disaster area and was affected by the disaster; and
- d. the exact date(s) on which the disaster occurred.

NOTE: If a precedent has been established, only document the fact that the Medicaid applicant/recipient lived in the disaster area and was affected by the disaster.

2. Support and Maintenance

- a. Absent evidence to the contrary:
 - **Accept** an individual's allegation that he was affected by the disaster and that he is receiving support and maintenance on a temporary basis as a result.
 - **Assume** that a living arrangement change due to a disaster is temporary.
- b. **Be alert** to situations where an individual reports a change in circumstances (living arrangements, receipt of household items, cash receipts, etc.) which has been brought about by a disaster, but the individual has not reported involvement in the disaster.

3. Verification of Assistance Other Than Support and Maintenance

Use documents in the individual's possession, or contact with the source to verify that assistance, other than support and maintenance subject to the exclusion in B.1. above, is provided under a Federal statute and because of the disaster.

S0830.625 FEDERAL EMERGENCY MANAGEMENT AGENCY (FEMA) EMERGENCY FOOD DISTRIBUTION AND SHELTER PROGRAMS

A. Background

Through a national board chaired by the Federal Emergency Management Agency (FEMA) and local boards, funds are provided to private nonprofit organizations and State and local governmental entities for the purpose of providing emergency food and shelter to needy individuals. The entity receiving these funds decides how they will be best used (e.g., to buy beds and blankets, to stock a soup kitchen or to pay an individual's rent). The Federal funds are not provided to meet ongoing basic needs.

B. Policy Principle

Assistance involving FEMA funds is subject to the general rules pertaining to income and income exclusions. It is neither IBON (S0830.170) nor ABON (S0830.175).

C. Operating Procedures

Determine the nature of the assistance and apply the appropriate operating instructions pertaining to income and income exclusions. Related sections include:

S0815.050 (Medical and Social Services)
S0830.605 (Home Energy Assistance and Support and Maintenance Assistance)
S0810.420 (\$20 General Income Exclusion)

NOTE: Assistance involving FEMA funds is most often provided in kind by private nonprofit organizations and with State certification will qualify for exclusion as HEA/SMA (see S0830.605).

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with S0830.630	Page 111

S0830.630 FEDERAL HOUSING ASSISTANCE

A. Introduction

The Federal Government through the Office of Housing and Urban Development (HUD) and the Farmers Home Administration (FMHA) provides many forms of housing assistance including:

- Subsidized housing (e.g., public housing, reduced rent, cash towards utilities, etc.);
- loans for renovations;
- loans for construction, improvement, or replacement of farm homes and other buildings;
- mortgage or investment insurances;
- guaranteed loans and mortgages.

This assistance may be provided directly by the Federal Government or through other entities such as local housing authorities, nonprofit organizations, etc.

B. Policy

1. Exclusion

The value of any assistance paid with respect to a dwelling unit is excluded from income and resources if paid under:

- the United States Housing Act of 1937 (section 1437 et seq. of 42 U.S.C.)
- the National Housing Act (section 1701 et seq. of 12 U.S.C.)
- section 101 of the Housing and Urban Development Act of 1965 (section 1701s of 12 U.S.C., section 1451 of 42 U.S.C.);
- title V of the Housing Act of 1949 (section 1471 et seq. of 42 U.S.C.); or
- section 202(h) of the Housing Act of 1959.

C. Procedure

1. Assumption

Assume that any housing assistance in which HUD or FMHA is involved is subject to the exclusion in B. above.

NOTE: "Section 8" housing is HUD housing assistance.

2. Allegation Acceptable

Accept an individual's allegation about receipt of housing assistance with HUD or FMHA involvement.

Manual Title Virginia Medical Assistance Eligibility	Chapter M08	Page Revision Date November 1995
Subchapter Subject M0830 UNEARNED INCOME	Page ending with S0830.635	Page 112

3. HUD or FMHA Involvement Unknown

If an individual alleges receipt of housing assistance and it is not known whether HUD or FMHA is involved, use documents in the individual's possession, contact with the appropriate housing authority, or a precedent (see Note below) to verify whether HUD or FMHA is involved.

NOTE: A precedent may be used to establish HUD or FMHA involvement when it has been verified that a project provides only HUD or FMHA assistance.

4. State, Local or Indian Assistance

In some cases, States, Indian tribes, or local housing authorities may control public housing and provide assistance without Federal involvement. See the instructions listed below for pertinent instructions for this and other non-Federal housing assistance.
